NOTE.—(a) The work of the commission has multiplied many times since the passage of the civil-service law, both in volume and complexity. The only increases attached to the position of commissioner were from \$3,500 to \$4,000 in 1907, and from \$4,000 to \$4,500 for the position of president of the commission in 1909. As indicating the increase in the volume of the commission's work it may be pointed out that in 1883 the number of positions subject to competitive examination under the civil-service law was less than 15,000 and the number of such positions is now about 225,000. The commission's work has increased not only in the number and requirements of positions subject to examination, but in the diversity of duties in the administration of the law. This has been particularly true in later years. A higher salary seems to be required in order to make the compensation of these positions at all adequate to their duties and responsibilities.

(b) The salary of the position of chief examiner, \$3,000 per annum, was specified in the act of 1883, and has remained unchanged to the present time, although the amount and variety of the examining work have increased with the growth and development of the work of the commission. In consequence of this growth the number of different kinds of examinations held annually has increased from less than a dozen in 1883 to over 400, and the number of persons examined from 3,542 in 1883 to nearly 125,000 for the last year for which figures are available (1909–10). A reasonable increase in the compensation of this position is necessary in order to make it at all commensurate with its greatly enlarged demands and duties.

(c) Proportionate with the increase in the extent and variety of the commission's work as outlined above, additional requirements and duties have been added to the position of secretary. This is the administrative position in the organization of the commission, and as such the salary attached to it should be commensurate with that of similar positions throughout the service.

(d) In the organization of the commission the position of assistant chief examiner has been combined with that of chief of the examining division, a large and responsible division. From the very nature of this position an increase in its compensation should be made, proportionate to that submitted for the position of chief examiner.

(e) In the commission's organization the position of assistant secretary and that of chief of the appointment division have also been combined. The duties and responsibilities of this joint position are represented by its designation, and a larger salary should be provided, commensurate with that submitted for the position of secretary.

(f) On account of the long service and large duties of the chief of division assigned to the application division, an increase of \$100 in his salary is recommended.

(g) In the current appropriation separate provision is made for the force of a Rural Carrier Examining Board. The work assigned to the employees for whom appropriation is made under this heading is no different in character from that of corresponding employees in the main part of the commission's force. For the Rural Carrier Service examinations are required to be held, with the attendant announcement of examinations, distribution of applications, scrutiny of preliminary qualifications of applicants, conduct of the examinations, preparation and rating of the tests in the examination, preparation of eligible registers and certification in response to the requests of the department, investigation of complaints against applicants and eligibles, and of charges of political activity, etc., as usual and customary for other branches of the service. In the interests of good administration the work connected with the Rural Carrier Service is now being done in the several divisions of the office of the commission, to which the work naturally and logically falls in the economy of the office organization. There is no more reason for a separate appropriation for this force of employees than for any other division of the commission's office force. The various kinds of work connected with the administration of the civil-service law and rules in relation to appointments to positions of rural carrier naturally and properly distribute themselves among the other divisions of the office. For these reasons the commission in the estimates herewith submitted recommends that this appropriation be consolidated with the appropriation for its office force at Washington.

(h) A net increase of 4 (exclusive of the superintendent of building, appurtenances, and supplies) in the clerical force is estimated for: 1 clerk of class 4; 1 of class 3; 1 of class 2; 1 of class 1; two at \$1,000; and 1 at \$900 being submitted in lieu of 1 clerk at \$840 and 2 at \$720, field force, dropped. (See note *j*, field force.) The net increase of 4 clerks is absolutely necessary for the prompt and efficient performance of the clerical work of the commission, which in general has increased during the past year. To retain the most efficient employees there should be opportunity for promotion. The number of clerical positions in the higher classes is relatively small when compared with the

<p>number in the lower classes. On account of the difficulty experienced in obtaining and retaining efficient clerks at low salaries and with limited opportunities for promotion, it is proposed to drop some of the lower salaried positions and add a few in the higher classes, so as to increase slightly the average clerical salary and thereby to furnish an incentive for the most competent clerks to remain in the service of the commission.</p> <p>(i) The occupation by the commission of a modern office building, having practically double the amount of floor space in the former quarters, will necessitate an increase in the force for the care and protection of the building and the operation of machinery and appliances. The following increase in force is required for this purpose:</p> <p>One superintendent of building, appliances, supplies, etc., at \$1,600 (in lieu of estimating for an additional clerk at the same salary). The new building is equipped with a steam-heating plant, two electric elevators, an electric refrigerating plant for drinking water, and an appliance for furnishing hot water, all of which will necessitate an increase of force, and it is desired to have a properly qualified and designated employee to place in charge of the force required. It is proposed merely to change the designation of the employee now performing the work from clerk to superintendent of building, without increase in compensation.</p> <p>One electrician and engineer, at \$1,200, whose services will be necessary in connection with the machinery and appliances above mentioned and in caring for the wiring of the building.</p> <p>One general mechanic, at \$900, whose services will be necessary in repairing furniture, filing cases, and other apparatus, and in painting and other mechanical labor necessary to expedite the work and to keep the furniture and office appliances in good order.</p> <p>One additional fireman will be needed, making 3 in all, so that each may not be required ordinarily to serve for longer than 8 hours a day. When the heating plant is not in operation, the firemen will be used to relieve watchmen, laborers, and messengers. It is also desired to promote to \$840 the 2 firemen now employed at \$720, in view of their long and faithful service.</p> <p>One watchman will be necessary, in addition to the 2 heretofore provided, that the building may be fully protected and that tours of duty shall not exceed 8 hours each.</p> <p>One additional elevator conductor is needed, there being 2 elevators in the building, both of which should be in operation in order properly to carry on the business. At present but 1 elevator conductor is allowed, and it will be absolutely necessary to have an additional one to assign to the other elevator.</p> <p>Two additional messenger boys will be required; 2 additional skilled laborers are needed for assembling and preparing mail for dispatch and delivering incoming mail, to care for supply stock room and shipping, and to relieve messengers, watchmen, and similar employees in emergencies.</p> <p>One additional unskilled laborer will be required, on account of the increase of such work as trucking supplies, caring for walks, steps, and parking, gathering waste paper, moving furniture, etc. Three charwomen for morning and evening work are necessary to clean the offices properly. Heretofore the laborers have been assigned to this work; but on account of the larger floor space to be kept clean, they can not now do all this work.</p> <p>(j) There are at present on the rolls of the commission 11 persons who act as district secretaries, 2 of whom are clerks, class 3. Their statutory designations and pay should correspond to and be commensurate with the duties and responsibilities of the positions they are filling. It is proposed to drop 2 clerks of class 3 from the office force, so that the increase in appropriation requested for this purpose is actually only \$600.</p> <p>It is also proposed to drop from the field force 1 clerk, at \$840, and 2 clerks, at \$720 each, in lieu of additional clerks estimated for in office force. (See note h.)</p> <p>(k) Except low-salaried postmasterhips, the commission, under existing regulations, is wholly responsible for the selection and appointment of classified fourth-class postmasters and rural carriers, appointment being required of the highest eligible in examination. While the simple examination given affords some basis of competition, it is not wholly dependable as an expression of capability and gives little information as to the important elements of character, industry, and reliability. All other positions in the classified service are filled by selection from the highest three names made by the appointing officer, he having the right and it being his duty to make a choice with due regard to character, reliability, and industry. While the rules contemplate that the actual test of fitness be given during the first few months of service as a probationer, the cost of equipment and expense to appointees in entering upon the duties of postmaster or of rural carrier make it highly important that a properly qualified man be selected at the outset to avoid loss and embarrassment, which necessarily follow if the appointee is required to return to private avocation. Under the present system, therefore, the commission should have a corps of examiners or inspectors for duty constantly in the field and available to visit the community where there is a vacancy in the position of fourth-class postmaster or of rural carrier to secure at first hand reliable and accurate information of the character and personal fitness of the person whose name is highest on the register resulting from the examination; and for assignment as inspector or supervisor of all investigations of charges of whatever character ordered by the commission.</p>		
<i>Traveling Expenses, Civil Service Commission—</i>		
Necessary traveling expenses, including those of examiners acting under the direction of the commission, and for expenses of examinations and investigations held elsewhere than at Washington (\$5,000 additional submitted) (act Mar. 4, 1911, vol. 36, p. 1186, sec. 1).....	\$17,000.00	\$12,000.00
<p>NOTE.—The appropriation for the fiscal year ending June 30, 1912, for traveling expenses is \$12,000, the same as the regular appropriation for the preceding year, near the end of which it was necessary to ask for and obtain a deficiency appropriation of \$1,500, notwithstanding the fact that all restrictions and limitations on the use of the appropriation consistent with the requirements of the administration of the law and rules had been observed. Drafts upon this appropriation will probably be more during the coming year so far as the usual and ordinary business is concerned, and the recent classification of the positions of assistant postmaster and clerk in all post offices of the first and second classes will make an increase of travel absolutely necessary in organizing and instructing boards of examiners at such offices.</p>

<i>Contingent Expenses, Civil Service Commission—</i>		
Fuel and lights, furniture, carpets, advertising, expressage, repairs to cases and furniture, and other absolutely necessary expenses (\$5,000 additional submitted) (act Mar. 4, 1911, vol. 36, p. 1218, sec. 1).....	\$12,500.00	
<p>NOTE.—The regular appropriation for the present year ending June 30, 1912, is \$7,500, being an increase of \$1,000 over last year's regular appropriation. A deficiency appropriation of \$4,000 (available during 1911-12) was made for expenses incident to the moving to and furnishing the new building. Under the appropriation of last year nothing which was not absolutely indispensable was purchased, that as large an amount as possible might be available to defray the expenses of moving to and fitting up the new building. This causes a pressing need for many necessary articles which can not be met on account of the great increase in the fixed charges payable from the contingent fund since removal to the new building. As an illustration it may be cited that the fixed charges for electricity for power and lighting in the new building will exceed those for the old building by more than \$1,000.</p>

<i>Special Examinations of National Banks—</i>		
Expenses of special examinations of national banks and bank plates, of keeping macerator in Treasury Building in repair, and for other incidental expenses attending the working of the macerator, and for procuring information relative to banks other than national (act Mar. 4, 1911, vol. 31, p. 1192, sec. 1).....	4,800.00	4,800.00
OFFICE OF COMMISSIONER OF INTERNAL REVENUE.		
<i>Salaries, Office of Commissioner of Internal Revenue—</i>		
Commissioner of Internal Revenue (R. S., p. 53, sec. 319; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; Mar. 4, 1911, vol. 36, p. 1193, sec. 1).....	6,000.00	
One deputy commissioner (R. S., p. 38, sec. 235; R. S., p. 54, sec. 322; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; July 7, 1898, vol. 30, p. 654, sec. 1; Mar. 4, 1911, vol. 36, p. 1193, sec. 1).....	4,000.00	
One deputy commissioner (increase of \$400 submitted; see note a) (same acts).....	4,000.00	
NOTE a.—The increase of \$400 is to make the salaries of the two deputy commissioners equal. Their duties and responsibilities are equal and their salaries should be equal.		
One chief chemist (acts June 7, 1906, vol. 34, p. 217, secs. 1-4; Mar. 4, 1911, vol. 36, p. 1193, sec. 1).....	3,000.00	
One chemist (acts Aug. 2, 1886, vol. 24, p. 312, sec. 14; Mar. 4, 1911, vol. 36, p. 1193, sec. 1)...	2,500.00	
Two first assistant chemists, at \$1,800 each (acts July 7, 1906, vol. 34, p. 217, secs. 1-4; May 22, 1908, vol. 35, p. 204, sec. 1; Mar. 4, 1911, vol. 36, p. 1193, sec. 1).....	3,600.00

Third assistant chemist (same acts).....	1,400.00	
Nine heads of division, at \$2,500 each (increase of six, in lieu of six at \$2,250 each submitted; see note b) (R. S., p. 38, sec. 235; R. S., p. 54, sec. 322; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; Mar. 4, 1911, vol. 36, p. 1193, sec. 1).....	22,500.00	
NOTE b.—The increase of \$1,500 is due to the following reasons: As the bureau is organized, great responsibilities are placed upon the heads of division, each head being expert along lines connected with his division, and of necessity must have an intimate knowledge of the entire internal-revenue fabric, as well as of department procedure. An appropriation as herein estimated for would in a measure be recognition of capable, intelligent, and industrious effort.		
Superintendent of stamp vault (acts Aug. 5, 1882, vol. 22, p. 230, sec. 1; Mar. 4, 1911, vol. 36, p. 1193, sec. 1).....	2,000.00

NOTE d.—The increase of \$5,400 is due to a degree for the same reason as note c.		
Twenty-eight clerks of class 3 (an increase of 3 submitted; see note e) (same acts).....	44,800.00	
NOTE e.—The increase of \$4,800 is due to a degree for the same reason as note c.		
Forty-one clerks of class 2 (same acts).....	57,400.00	
Forty clerks of class 1 (same acts).....	48,000.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

NOTE.—The increase of \$100,000 is deemed necessary for the following reasons:
There was an unexpected increase of business during the fiscal year 1911, and the increase continues to date, the ordinary collections amounting to approximately \$1,000,000 more than for the corresponding period of last year.

It is considered necessary and in the interest of good business to increase the force to the extent, at least, of one deputy collector for each collection district. Collectors have found it necessary to deny requests of their force, payable from this appropriation, for annual leave, and in addition to require overtime work, notwithstanding which there is universal complaint of lack of help, both in collectors' offices and in the field.

The increase in the internal-revenue business has been pronounced and continuous. Ordinary collections during fiscal year 1911 were over \$259,000,000 as compared with \$246,000,000, in round numbers, during fiscal year 1909, being an increase of \$43,000,000. Such increase in business calls for additional activity of deputy collectors in office and field.

Salaries and Expenses of Agents and Subordinate Officers of Internal Revenue—

For salaries and expenses of 40 revenue agents provided for by law, and fees and expenses of gaugers, salaries and expenses of storekeepers and storekeeper-gaugers (R. S., p. 604, sec. 3153; R. S., p. 605, sec. 3157; acts July 7, 1884, vol. 23, p. 172, sec. 1; Mar. 3, 1885, vol. 23, p. 404, sec. 1; Apr. 17, 1900, vol. 31, p. 107, sec. 1; Apr. 28, 1902, vol. 32, p. 142, sec. 2; June 7, 1906, vol. 34, p. 217, secs. 1-4; May 13, 1910, vol. 36, p. 369, sec. 1; June 23, 1910, vol. 36, p. 592, sec. 1; Mar. 4, 1911, vol. 36, p. 1196, sec. 1).....

\$2,595,000.00 \$2,520,000.00

NOTE.—The increase of \$75,000 is deemed necessary for the following reasons:

The original appropriation for 1911 was \$2,420,000. Subsequently, on account of the statutes authorizing travel expense and the large increase in the manufacture and storage of distilled spirits a deficiency appropriation of \$90,000 was asked for and granted, of which \$70,000 was actually used, making the total expenditures for 1911, \$2,490,000.

The appropriation for 1912 is \$2,520,000, an increase of \$100,000 over the original appropriation for 1911, the increase being intended to take care of \$75,000 additional expenditure on account of leave with pay granted by statute to distillery officers, effective for the first time during the fiscal year 1912, and \$25,000 to take care of the increase in production and storage of distilled spirits.

On account of the exceptional increase of the storage of distilled spirits due to the enormous manufacture in 1911, and the continued activity in manufacture, it is clear that the amount of the appropriation for 1912 is insufficient, and that approximately \$75,000 additional will be needed for which a deficiency appropriation for 1912 will be requested. The total appropriation for 1912 will thus aggregate \$2,595,000, and it is estimated that this same sum will be sufficient for the fiscal year 1913.

This bureau has but little direct control over this appropriation. The classes of officers above described are assigned to duty under the requirements of law whenever and wherever their services are needed, dependent upon the activity of distillers, and of business requiring withdrawal from bond of distilled spirits. Their compensation is regulated and controlled by statutory enactment. There are also 40 revenue agents provided by law paid from this appropriation. Their compensation within limits is also fixed by law. Any part of this appropriation not needed and not required is always unexpended, as no portion can be diverted for any purpose not specifically provided for by law.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Miscellaneous Expenses, Internal-Revenue Service—</i>		
For rent of offices outside of the District of Columbia, telephone service, within or without the District of Columbia, and other miscellaneous expenses incident to the collection of internal revenue, and for the purchase of necessary books of reference and periodicals for the chemical laboratory and law library, at a cost not to exceed \$500, and reasonable expenses for not exceeding 60 days immediately following the injury of field officers or employees in the Internal-Revenue Service while in line of duty, of medical attendance, surgeons' and hospital bills made necessary by reason of such injury, and for horses crippled or killed while being used by officers in making raids, not exceeding \$150 for any horse so crippled or killed (acts June 22, 1906, vol. 34, p. 411, sec. 1; May 27, 1908, vol. 35, p. 325, sec. 1; Mar. 4, 1911, vol. 36, pp. 1196, 1197, sec. 1).....	\$100,000.00	\$100,000.00
<i>Expenses of Collecting the Corporation Tax—</i>		
For expenses of collecting the corporation tax authorized by the act approved Aug. 5, 1909, "To provide revenue, equalize duties, and encourage the industries of the United States, and for other purposes" (acts Aug. 5, 1909, vol. 36, p. 112, sec. 38; Aug. 5, 1909, vol. 36, p. 120, sec. 1; Mar. 4, 1911, vol. 36, p. 1197, sec. 1).....	175,000.00	100,000.00
<p>NOTE.—The increase of \$75,000 is deemed necessary for the following reasons: To enforce the law imposing the excise corporation tax it is necessary to secure greater activity of officers in the field, and this can be done only by providing for an increase in force of officers.</p> <p>Approximately \$75,000 unexpended appropriation for 1910 was reappropriated and made available for 1911, and the unexpended balance for 1911 (approximately \$50,000) was reappropriated and made available for 1912, which, added to the regular appropriation, makes \$150,000 available for 1912. It is proposed to estimate for a deficiency appropriation of \$25,000 to bring the appropriation for 1912 up to \$175,000, and the same amount, for reasons above stated, is estimated for 1913.</p>		
<i>Classifying, etc., Returns of Corporations—</i>		
For classifying, indexing, exhibiting, and properly caring for the returns of all corporations required by section thirty-eight of an act entitled "An act to provide revenue, equalize duties, encourage the industries of the United States, and for other purposes," approved August fifth, nineteen hundred and nine, including the employment in the District of Columbia of such clerical and other personal services, and for rent of such quarters as may be necessary, thirty thousand dollars: <i>Provided</i> , That any and all such returns shall be open to inspection only upon the order of the President, under rules and regulations to be prescribed by the Secretary of the Treasury and approved by the President (acts Aug. 5, 1909, vol. 36, p. 112, sec. 38; Mar. 4, 1911, vol. 36, p. 1197, sec. 1).....	30,000.00	25,000.00
<p>NOTE.—The increase of \$5,000 is deemed necessary for the following reasons:</p> <p>A vast amount of work is entailed upon this bureau in the examination, classification, and indexing of the corporation tax returns.</p> <p>It is proposed to estimate for a deficiency appropriation of \$5,000 for 1912, and an increase of like amount, for reasons cited above, is estimated for 1913.</p>

GOVERNMENT IN THE TERRITORIES.		
<i>Salaries, Governor, etc., District of Alaska—</i>		
NOTE (by the Attorney General).—Omit from this appropriation all items pertaining to the Department of Justice and the court in Alaska: the salaries of the judges and clerks to be provided for in a separate appropriation as hereinafter shown; and it is desired that the salaries of the marshals and attorneys be provided for under "Salaries, fees, and expenses of marshals" and "Salaries and expenses of district attorneys," respectively.		
<i>Salaries, Governor, etc., Territory of Arizona—</i>		
<i>Salaries, Governor, etc., Territory of New Mexico—</i>		
<i>Salaries, Governor, etc., Territory of Hawaii—</i>		
NOTE A (by the Attorney General).—Omit from each of these appropriations all items pertaining to the courts, i. e., salaries of justices and judges; and it is desired that the salaries thereof be provided for under "Salaries of judges, Arizona, Hawaii, and New Mexico," following.		
NOTE B (by the Attorney General).—It is exceedingly desirable to avoid having a single appropriation handled in part through one department and in part through another and to have all appropriations for the payment of judicial salaries placed together.		
It is believed to be a generally accepted principle that a single appropriation should not ordinarily be made to cover expenses payable through two or more different departments. The separation by their location of these judicial salaries from the Department of Justice and the courts of the United States causes difficulty and tends to cause confusion and error in preparing and comparing estimates and in making reports of expenditures.		
With reference to the salaries of United States marshals and attorneys in Alaska, it is recommended that, for like reasons, they be provided for in the general appropriation providing for the salaries of all other like officials. Under the present arrangement the salaries of United States marshals and attorneys in Alaska, and in Alaska alone, are separately located and separately provided for. The marshals and attorneys for Hawaii and the other Territories are, however, appropriated for in the usual manner. It appears that the caption entitled "Government in the Territories" covers, in fact, only a small portion of the judicial expenses of the Territories, which portion could be advantageously transferred to and classified with the regular judicial expenses.		
All the salaries which it is desired to have transferred are paid by the disbursing clerk of the Department of Justice, while the other items at present under the caption "Government in the Territories" are not so paid.		
It is therefore recommended that the "Salaries of Judges, etc., District of Alaska" (except marshals and attorneys), and the "Salaries of Judges, Arizona, Hawaii, and New Mexico," be transferred from under "Government in the Territories" to the Judicial Chapter following the Department of Justice, and that the four marshals and four attorneys for the District of Alaska be provided for in the general appropriations for marshals and attorneys under the Miscellaneous Chapter—Expenses of United States Courts, <i>post</i> .		
ALASKA.		
<i>Salary of Governor, District of Alaska—</i>		
For salary of governor, District of Alaska (acts June 6, 1900, vol. 31, p. 321, secs. 1-10; Mar. 4, 1911, vol. 36, p. 1202, sec. 1).....		\$7,000.00 \$7,000.00
<i>Salaries, Judges, etc., District of Alaska—</i>		
Four judges, at \$7,500 each (acts June 6, 1900, vol. 31, p. 321, secs. 1-10; Mar. 3, 1909, vol. 35, p. 838, secs. 1-23; Mar. 4, 1911, vol. 36, p. 1202, sec. 1).....		\$30,000.00
Four attorneys, at \$5,000 each (same acts).....		20,000.00
Four marshals, at \$4,000 each (same acts).....		16,000.00
Four clerks, at \$3,500 each (same acts).....		14,000.00
	80,000.00	80,000.00
NOTE.—Submitted as a separate estimate by the Attorney General, it being desired, however, that the attorneys and marshals be appropriated for as hereinbefore suggested. See also Note B above.		
<i>Contingent Expenses, District of Alaska—</i>		
For incidental and contingent expenses, clerk hire not to exceed four thousand and fifty dollars, janitor service not to exceed nine hundred dollars, traveling expenses of the governor while absent from Juneau on official business, rent of offices and quarters in Juneau, stationery, lights and fuel, to be expended under the direction of the governor, eight thousand nine hundred and fifty dollars (act Mar. 4, 1911, vol. 36, p. 1202, sec. 1).....		8,950.00 7,150.00
NOTE.—The work of the governor's office has been doubled at least twice within the last two years, owing to several causes, among which are the additional duties imposed by law upon this office, and rapid growth of popular interest in Alaska. The latter has caused a great increase in office correspondence. Although Alaska is the largest of the outlying possessions, the expenses of the chief administrative office have heretofore been relatively and absolutely very small. The appropriation for contingent expenses comprises the whole cost of supporting this office, with the exception of the salary of the governor. The increase of \$1,800 is to meet the absolute necessity of additional clerk hire, the sum mentioned being for the employment of a clerk who shall also be a stenographer, in addition to the private secretary, who is now constantly performing double duty, without vacation or extra compensation.		
<i>Sitka National Monument, Alaska—</i>		
For protection and improvement of Sitka national monument, including repair of ancient totems and other historic relics, to be expended under the direction of the governor of Alaska (submitted).....		1,000.00
NOTE.—The historic Indian River Park near Sitka was set aside by proclamation of the President, dated Mar. 23, 1910, as a national monument. The ancient totem poles and graveyard are in need of repairs to protect them from the ravages of time, and the park should be partially cleared of underbrush and other debris, and measures taken to protect from depredations. The estimated expense of \$1,000 is deemed very moderate, and probably will not have to be renewed for many years.		
TERRITORIES OF ARIZONA, HAWAII, AND NEW MEXICO.		
<i>Salaries of Judges, Arizona, Hawaii, and New Mexico—</i>		
Chief justice and four associate judges, Territory of Arizona, at three thousand dollars each; chief justice and six associate judges, Territory of New Mexico, at three thousand dollars each; chief justice, Territory of Hawaii, six thousand dollars, and two associate justices, Territory of Hawaii, at five thousand five hundred dollars each (R. NOTE.—(1) A change in designation from clerk to the assistant and chief clerk to assistant chief clerk is submitted in order that the designation may properly describe the duties of the position, which is filled by an employee who has been in the service for many years and whose knowledge of the laws, regulations, and precedents governing the conduct of the department is extensive and very valuable. The increase of \$300 asked for is thought to be no more than adequate in view of this and the further fact that he is called upon to assume the responsibilities and duties of the office of the assistant and chief clerk during his temporary absence.

(2) The estimated increase of \$250 in the salary of the disbursing clerk of the War Department is submitted in view of the large and varied amount of work assigned to this official in addition to the regular duties of that office, which duties have also been materially increased in the past few years by Treasury Department regulations deemed necessary to safeguard the Government business. In connection with the increase it may be proper to remark that the disbursing clerk of the Treasury Department receives a salary of \$3,000 per annum, and his deputy a salary of \$2,750. The Departments of Interior and Agriculture pay \$3,250 and \$3,750, respectively, to their disbursing clerks, and the Department of Commerce and Labor \$3,000. In view of the salaries paid the disbursing clerks named, it is thought to be no more than equitable that the increase herein asked for should be allowed, as the duties performed by these officials are similar in character and the responsibilities no greater.

(3) An increase of \$320 is asked for in the salary of the foreman carpenter and of \$180 each in the salary of the other two carpenters whose positions are designated respectively "carpenter" and "skilled laborer." The carpenter force is barely sufficient for the service required of it. In addition to the general work to be done in the main building occupied by the War Department, repair work is done on several of the outside buildings occupied by the War Department. These men are all skilled cabinet makers, and a large portion of their work is cabinet work. The

carpenters and cabinet makers in outside business in this locality receive from \$5 to \$5.50 a day for foremen, and from \$4 to \$4.48 a day for journeymen. Deducting the 52 Sundays and 7 holidays, also 30 days annual and 10 days sick leave, leaves 266 working days in each calendar year. On this basis if the foreman carpenter were paid the lowest rate for such work in this vicinity, which is \$5 a day, his annual pay would amount to \$1,330, and the annual pay of the journeymen at the lowest outside rate, namely, \$4 a day, would be \$1,060 each.		
(4) An additional watchman at \$660 per annum is asked for in lieu of one at \$540 dropped, because it is with great difficulty that an acceptable man can be retained at the \$540 salary. The compensation paid for similar service in other bureaus of the department, as well as in other departments, is usually \$660 to \$720 per annum.		
(5) Two messengers at \$660 per annum each are submitted in lieu of two messenger boys at \$360 per annum each. Under a restriction of the civil-service rules messenger boys can not be promoted to the higher salary messenger positions in the department. This condition, with the present low rate of pay, renders it difficult to secure desirable messenger boys and impossible to retain them. It is desired therefore to have the two messenger-boy positions abolished, replacing them with positions with the "messenger" designation, in order to have the status of the present incumbents of these two places changed to "messenger," which, it is understood, will remove the civil-service restriction with regard to their future promotion. New appointees would also be free of this restriction if the change is made.— <i>John C. Scofield, Assistant and Chief Clerk.</i>

NOTE.—The changes recommended in these estimates are the addition of one law clerk at \$2,000 per annum and one law clerk at \$1,800 per annum.		
The amount of legal work referred to this office has greatly increased in recent years, the increase being mainly on the civil side of War Department administration, and it becomes necessary that this office should have additional assistance of the nature which can be rendered by law clerks if the work of the office is to be properly disposed of.		
I earnestly urge these additions to the clerical force of this office as indispensable to the proper performance of the work of the office.— <i>E. H. Crowder, Judge Advocate General.</i>

NOTE.—(1) Increases of \$520 for the chief clerk and \$400 for the law clerk are recommended, conforming to the recommendations of the Keep Commission some years ago (H. Doc. No. 648, 60th Cong., 1st sess., p. 47).

The chief clerk is not only the principal administrative official of the office, and largely responsible for the discipline and efficiency of its personnel, but is also in immediate charge of one of its divisions and accordingly performs the duties of a chief of division as well. The present incumbent is an officer of long and wide experience, whose familiarity with past and present conditions of the service makes him an invaluable adviser and executive in the conduct of the affairs of the Medical Department. The proposed compensation is considered no more than commensurate with the arduous and important duties of his position, and with the merits of the incumbent as a reward for long, indefatigable, and efficient service.

(2) The law clerk, besides preparing such professional papers as the Surgeon General requires, is in immediate charge of the financial branch of the office, including the adjudication of claims, and the settlement of returns of public property from the several hundred officers of the Medical Department accountable therefor. The efficiency of the Medical Department in respect to these matters depends in no small degree upon the capacity, zeal, and fidelity which he brings to the discharge of his trust. In addition to the routine duties of his position he is required to give up a large part of his time both in and out of office hours to the study and codification of regulations and to measures for their enforcement. The proposed compensation corresponds to that allowed for positions of like responsibility in other departments, and is believed to be no more than commensurate with the length and character of his service.

(3) The addition of two clerks of class one to the clerical force of this office is included in the foregoing estimate. The amount of office work imperatively necessary to be done has been materially increased by the recent large additions to the personnel of the Medical Department, which not only entail much new correspondence in connection with the appointment, assignment, and subsequent transfers of the additional officers, but also make a very considerable increase in the record and audit of their property accounts. The late increases of the military establishment have been accompanied by a proportional increase in the administrative labors of this office, but no corresponding increase of clerical force to perform these increased labors has been provided. While the accumulation of work in arrears has so far been averted by the cheerfulness and readiness of clerks in working over hours, it does not seem fair to expect them as a settled policy to make such sacrifices without extra compensation. The two additional clerks asked for will be adequate to perform the new work above alluded to and avoid the imposition of unjust burdens on the present force.—Geo. H. Torney, Surgeon General, United States Army.

	\$72, 400. 00	\$71, 900. 00

NOTE.—In submitting the above estimate for clerks in the Paymaster General's office, I strongly urge an increase in salary for the chief clerk. The multifarious and intricate subjects constantly submitted for his solution require considerable legal knowledge and the highest administrative ability. In a word, he must possess good executive ability and a complete knowledge of the laws, regulations, and decisions pertaining to the pay of the Army. In addition to this, he must of necessity be a thorough and competent accountant to supervise the accounting for millions of Government funds annually, and at the same time combine the administrative ability necessary to the organization and supervision of the personnel of the bureau.

The present incumbent possesses in a marked degree all the qualifications necessary for this important and responsible position, and the Paymaster General feels fully justified in recommending and urging this increase. His ability would command a far greater salary in the business world than is asked for in this estimate.—C. H. Whipple, Paymaster General, United States Army.

In all, 62 different persons received compensation under the authority above referred to, and were paid the total sum of \$44,654.79. With the exception of the laborers and the messenger boy, all of the persons shown in the above statement were engaged in the design of ordnance material. The laborers and the messenger boy were engaged on work in connection with the reproduction of drawings made in the ordnance office drafting room.—William Crozier, Brigadier General, Chief of Ordnance.

And the services of skilled draftsmen, civil engineers, and such other services as the Secretary of War may deem necessary may be employed only in the office of the Chief of Engineers, to carry into effect the various appropriations for rivers and harbors, fortifications, and surveys, to be paid from such appropriations: <i>Provided</i> , That the expenditures on this account under this authorization for the fiscal year ending June thirtieth, nineteen hundred and thirteen, shall not exceed forty-two thousand dollars; and the Secretary of War shall each year, in the annual estimates, report to Congress the number of persons so employed, their duties, and the amount paid to each (acts June 17, 1910, vol. 36, p. 503, sec. 1; Mar. 4, 1911, vol. 36, p. 1205, sec. 1).			
NOTE.—I have recommended an increase of \$400 in the salary of the chief clerk, as, in my judgment, his present compensation, measured by the important and exacting duties of the position, is decidedly inadequate. The work of this bureau has been rapidly and steadily growing, both in volume and variety, and the clerical force required for its prompt and economical execution is more than 75 per cent larger than it was 20 years ago. It is needless to say that this has added, in a corresponding degree, to the duties and responsibilities of the chief clerk, upon whom the Chief of Engineers must rely, in large measure, for the administration of his office. The present occupant of the position has been continuously employed in this office since early manhood and at all times has been an efficient and faithful public servant. The slight increase in salary recommended is well deserved and would, if granted, be but a partial recognition of the value of his services.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>			
NOTE.—It has been found by actual experience that the clerical force employed in this office is too small to perform the duties required in the manner and with the promptitude that it should be done. The additional six clerks asked for is certainly not greater than required and provision for their employment is earnestly recommended.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>

NOTE.—The above rearrangement of the messenger and laborer force is necessary for good organization, and it makes only an increase of \$360 over the appropriation for the current year. The bureau's force is distributed in widely separated buildings and the two additional messenger places asked for will give small promotions to four men whose duties are of equal importance and who have served about 10 years at their present salaries. The total force is not increased, as but three laborers instead of the present five are requested.—*C. K. Edwards, Brigadier General, U. S. Army, Chief of Bureau.*

DIVISION OF MILITIA AFFAIRS, OFFICE OF THE CHIEF OF STAFF.

For the following, now authorized by section 20 of the act approved Jan. 21, 1903, as amended by the act approved May 27, 1908, namely (acts Jan. 21, 1903, vol. 32, p. 779, sec. 20; May 27, 1908, vol. 35, p. 403, sec. 11; Mar. 4, 1911, vol. 36, p. 1206, sec. 1):

Chief clerk.....	\$2,000.00
3 clerks of class 4.....	5,400.00
3 clerks of class 3.....	4,800.00
5 clerks of class 2.....	7,000.00
10 clerks of class 1.....	12,000.00
8 clerks, at \$1,000 each.....	8,000.00
1 messenger.....	840.00
2 assistant messengers.....	1,440.00
2 laborers.....	1,320.00
3 charwomen.....	720.00
3 watchmen.....	2,160.00
	45,680.00
For miscellaneous expenses of the Division of Militia Affairs, including stationery, fuel, light, furniture, telegraph and telephone service, and necessary printing and binding.....	10,000.00
For rent of quarters.....	2,500.00

NOTE 1.—An increase of 6 clerks is requested, to be divided among the classes as follows: 1 clerk of class 4, 1 of class 3, 2 of class 2, and 1 clerk at \$1,000; request is also made for 1 additional assistant messenger and 1 charwoman. The increase in the number of clerks and the 1 assistant messenger is made necessary by the constantly increasing volume of work of the Division of Militia Affairs. This increase will preclude the necessity of assigning other clerks to this office from the office of the Chief of Staff and the temporary employment of clerks from the eligible list of the Civil Service Commission. There are at present employed in the office 4 temporary clerks, but even with this additional force the number of clerks is insufficient to satisfactorily and expeditiously dispose of the current work of the division.

During the past year there have been assigned to the division 5 officers in addition to those previously on duty, making a total of 8 officers, including the chief of the division. In carrying on the instruction of the Organized Militia, it is necessary that each of these officers should have at his disposal a clerk (stenographer and typewriter), but with the present force it is impossible to do this and only 3 clerks are available to carry on the work of the 8 officers. In addition the current work can not be kept up to date with the number of clerks available for the purpose.

NOTE 2.—The additional assistant messenger is necessary for the prompt conduct of the business of the division. One of the laborers now employed is constantly engaged in preparing literature for mailing to the Organized Militia, and is not available for messenger duty. This leaves only 2 messengers and 1 laborer for messenger duty connected with the 8 officers of the division and the carrying of mail to and from the War Department.

NOTE 3.—The additional charwoman is requested because after the removal of the division to its new quarters, 1701 Pennsylvania Avenue, there will be 3 floors, comprising 15 rooms, to be looked after in addition to the halls and stairways. It is absolutely impossible for 2 women to keep the rooms in a proper and sanitary condition.

NOTE 4.—The increase in personnel will involve an additional allotment from the appropriation for arming and equipping the militia of \$11,460, making the total appropriation for salaries for the division \$45,680.

NOTE 5.—The increase in the amount required for the miscellaneous expenses of the division is made to provide an adequate sum to properly conduct the public business and to furnish sufficient supplies for the transaction thereof.

The amount of \$3,500, appropriated by act of Mar. 4, 1911, is absolutely insufficient for the needs of the office; in fact, this amount, as stated to the Committee on Appropriations in January, 1911, was an error. The sum of \$3,500 represented only a little more than the office expenses for 4 months, whereas the appropriation as made was for the fiscal year. If it had not been that the division had to its credit a balance of approximately \$8,000 from allotments made for the years 1908, 1909, and 1910, it would have been impossible to carry on the business of the office during the present fiscal year. The provision contained in the act of Mar. 4, 1911, as follows, "no other or further sums shall be expended from said appropriation for or on account of said Division of Militia Affairs during the fiscal year 1912," precludes the use of any funds in excess of the amount specified in the act cited, and consequently any balance which the division had to its credit on July 1 last is required to be reapportioned among the States and Territories.

NOTE 6.—The total amount of the expenses of the Division of Militia Affairs, amounting to \$58,180, is taken from the appropriation of \$2,000,000, provided under section 1661, Revised Statutes, for arming and equipping the militia. The increases in the items shown above will not involve any additional appropriation, but simply an increase in the allotment for the three items mentioned, from the appropriation for arming and equipping the militia.

NOTE 7.—The 3 watchmen are necessary, as the 3 now on this duty are furnished from the Army appropriation, and no provision is made for their employment after the end of the present fiscal year, June 30, 1912.

NOTE 8.—The rent of the quarters now used by the Division of Militia Affairs is at present paid from the appropriation for rent of War Department buildings, and it is now proposed that provision be made for the rent of quarters for this division to be paid from the appropriation for the militia now provided by section 1661, Revised Statutes, as amended.—*Wm. J. Snow, Major, Third Field Artillery, Acting Chief, Division Militia Affairs.*

<i>Explanation of estimates for appropriations for salaries of employees, etc., Public Buildings and Grounds, Washington, D. C., for the fiscal year ending June 30, 1913.</i>		
As one of the estimates for salaries of employees, Public Buildings and Grounds, at Washington, D. C., is larger than the amount heretofore appropriated, and as the item for steel cases for records is new, the following explanations thereof are submitted:		
1. An increase is recommended in the pay of the landscape architect from \$2,400 to \$3,000 per annum. The present compensation of this position is not commensurate with its duties and responsibilities, which have been greatly

increased during the past few years. The problems involved in laying out the large areas in Potomac Park and in designing the improvements for Montrose and Meridian Hill Parks, just added to the system, call for a higher degree of skill than has heretofore been necessary in the landscape architect. It is absolutely essential that he should be a trained and experienced expert if the parks of Washington are to be, as they should, a model for the rest of the country. Such an expert is difficult to get and keep at the present salary.		
2. The sum of \$800 is asked for with which to purchase steel cases for the old records in this office. These consist of the land records, letters, account books, and other records of the commissioners who were appointed by President Washington to lay out and create the Federal city. These records are exceedingly valuable, as the titles to all land in the city of Washington start with them; they are now kept in ordinary wooden cases in a building which is only partially fireproof. The records are being constantly examined by lawyers, title insurance companies, and others. Their destruction would cause endless embarrassment and be irreparable. Means for their better protection should be provided without further delay, and an appropriation for the purpose is urgently recommended.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>

One of the generators now in use is of old design, not economical, and constantly out of order. Every time that the Government plant is out of commission for repairs, current must be purchased of the Potomac Electric Co. at 6 cents per kilowatt-hour, a very considerable increase over the 2 to 2½ cents it costs the Government to generate it. Moreover a considerable saving is to be expected from having one unit of capacity to carry the entire load a great part of the time, instead of having to operate two or three generators at once during at least six months of the year.</p> <p>The foregoing estimates are approved and appropriations recommended.—P. experience and a fine technical education. Such men are hard to secure, and when secured effort should be made to retain the services. The man for whom this increase is asked has already been approached for positions elsewhere, and unless he is given salary sufficient to keep him his services may be lost at any time.

NOTE 2.—This is an important position, covering the purchase, inspection, and repair of scientific and meteorological instruments issued to the Navy and the preparation of specifications for same. The increase asked is small and, considering the duty performed, is well within reason.

NOTE 3.—This is a highly trained position, the civil service requirements necessitating a large degree of mathematical education. It is difficult to obtain and practically impossible to keep the class of men needed at the present salary, especially in view of the larger entrance salary offered by the Coast Survey and the Patent Office, to which institutions this observatory is losing men constantly.

NOTE 4.—At present this duty is carried on by one of the laborers, at \$660 per annum under the present law. It is proposed to cut off one of the laborers now allowed and to substitute for him this position. The duty is described in the title, the man having the care of the storerooms for ships' instruments and doing the packing of shipments from the observatory to the ships of the fleet. The increase asked for makes the salary none too large and conforms to the wages paid to a second-class packer at the Washington Navy Yard.

NOTE 5.—This duty is now performed by one of the laborers allowed under the law. The position calls for a person capable of conducting the library during temporary absences of the librarian and of doing all other subordinate duty in the library, including the keeping of the place in order.

Contingent and Miscellaneous Expenses, Naval Observatory—

Miscellaneous computations (act Mar. 4, 1911, vol. 36, p. 1211, sec. 1) \$5,000.00

NOTE.—The following is a statement of the number of persons employed during the past year and paid from the appropriation "Miscellaneous computations":

1 miscellaneous computer, at \$3.76 per diem \$1,176.88
1 miscellaneous computer, at 55 cents per hour 1,090.10
1 miscellaneous computer, at 50 cents per hour 485.00
3 miscellaneous computers, at 45 cents per hour 2,010.04

Total 4,762.02

NOTE.—The superintendent reports, under the requirements of the act of July 11, 1890 (Stat. 26, p. 268), that there are 44 employees of the observatory, none of them below a fair standard of efficiency.

NOTE.—In accordance with section 7 of the act of March 2, 1895 (28 Stat., p. 808), the superintendent reports that there are no employees who are borne on the rolls of other bureaus or offices and employed in the Naval Observatory.

Professional and scientific books, books of reference, periodicals (*subscriptions to periodicals may be paid in advance*), engravings, photographs, and fixtures for the library (same act) ... 750.00
Apparatus and instruments, and for repairs of the same (same act) 2,000.00
For repairs to buildings, fixtures, and fences, furniture, gas, chemicals, and stationery, freight (including transmission of public documents through the Smithsonian Exchange), foreign postage and expressage, plants, fertilizers, and all contingent expenses (same act) 3,000.00
For fuel, oil, grease, pipe, wire, and other materials needed for the maintenance and repair of boilers, engines, heating apparatus, electric lighting and power plant, and water-supply system; purchase and maintenance of teams; material for boxing nautical instruments for transportation; paints, telegraph and telephone service, and incidental labor (same act) 8,000.00

NAUTICAL ALMANAC OFFICE.

Salaries, Nautical Almanac Office—

For the following assistants in preparing for publication the American Ephemeris and Nautical Almanac, namely:

One (R. S., p. 27, secs. 167-9; acts Aug. 5, 1832, vol. 22, p. 245, sec. 1; Mar. 4, 1911, vol. 36, p. 1211, sec. 1) 2,000.00
Two, at \$1,600 each (same acts) 3,200.00
Three, at \$1,400 each (increase of 1, in lieu of 1 at \$1,200 dropped) (note 1) (same acts) ... 4,200.00
Four, at \$1,200 each (decrease of 1, as above, and increase of 2, in lieu of 2, at \$1,000 each, dropped) (note 2) (same acts) 4,800.00

NOTE.—Two assistants, at \$1,000 each, as above.

NOTE 1.—The work assigned to one of the \$1,200 assistants now allowed is of a much higher character than could be assigned to any of the others in the \$1,200 grade, and this increase is requested in order that he may be paid a salary in keeping with the work performed. Also, if the Department should approve the recommendation to increase by \$200 the salaries of the two \$1,000 assistants, this would balance the force more equally in the various grades.

NOTE 2.—This is a highly trained position, the Civil Service requirements necessitating a large degree of mathematical education. It is difficult to obtain, and practically impossible to keep the class of men needed at the present salary, especially in view of the larger entrance salary offered by the Coast Survey and the Patent Office.

Total.....			78,262.52

NOTE.—The bureau reports, in accordance with the provisions of section 2, act of July 11, 1890 (26 Stat. L., p. 267), that all the employees of the bureau are above a fair standard of efficiency.

NOTE.—In connection with the above estimates attention is invited to bureau's letter No. 945-A-210 of April 26, 1911, from which the following is quoted:

"The bureau in submitting the estimate for the clerical force has made recommendation for certain reratings and increases. This was considered imperative in view of the number of resignations and transfers which are constantly occurring, due to the lack of any reasonable prospect of advancement."

The bureau's losses in its clerical force through resignations and transfers during the past three years were more than 42 per cent of the force employed. Administrative work conducted under such conditions of frequent change is necessarily less efficient and less economical than when greater permanence of employment is assured.

From the estimates it will be noted that the total number of clerks will remain the same. The changes desired are increasing the number of higher-priced clerks, as the bureau's losses, due to resignation and transfer, are directly attributable to the insufficient number of higher ratings as compared with those in other branches of the public service and in civil life for men of equal merit. As the work of this branch of the Navy Department is largely of a technical nature, it is especially important that experienced clerks should be encouraged to remain in its employ, and it is believed that this result can only be obtained by providing reasonable promotion in general conformity with the recommendations contained herein.

The net total increase in the clerical force as proposed is only \$3,040, or approximately 5 per cent of the present pay roll. It is strongly recommended that it be approved, in view of the greater increased cost of living, if for no other reason. The increase of \$500 submitted for the chief clerk over the pay of that employee is considered by the bureau to be especially merited in view of the importance of the position, the exacting duties of the chief clerk, and the general qualifications of the present incumbent. With reference to the increase in pay for the technical employees of the bureau, as distinguished from the clerical employees, special provision is necessary, due to increased volume of work, requiring more force and necessity for promotion.

First Assistant Secretary (R. S., p. 74, sec. 438; acts Mar. 3, 1885, vol. 23, p. 497, sec. 1; Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	5, 000. 00	
Increase of \$1,000 (submitted).....	1, 000. 00	
NOTE (by the Secretary).—The salary of the First Assistant Secretary was fixed by the act of Mar. 3, 1885 (23 Stat., 497), and increased July 1, 1902 (32 Stat., 150), to \$6,000 during the incumbency of the then First Assistant Secretary, and on July 1, 1908 (35 Stat., 223), was fixed at \$5,000, the present salary. The duties of the First Assistant Secretary are numerous, of the highest importance, and the measure of responsibility involved in the dispatch thereof is great, demanding a well-trained judicial mind and a careful and conservative executive officer. In the absence of the secretary he is required to discharge the duties appertaining to both of these offices, and his compensation should be increased at least to \$6,000 per annum. The compensation, \$5,000, now paid the First Assistant Secretary, is the amount which is paid to commissioners of the several bureaus of the department, who, in an official sense, are subordinate to the First Assistant Secretary. Important work of this character is divided between a number of assistant secretaries in the other executive departments, there being 3 in the Treasury Department and 4 in the Post Office Department.		
Assistant Secretary (R. S., p. 74, sec. 438; acts Mar. 3, 1885, vol. 23, p. 497, sec. 1; Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	4, 500. 00	
Chief clerk, including five hundred dollars as superintendent of buildings, who shall be chief executive officer of the department and who may be designated by the Secretary of the Interior to sign official papers and documents during the temporary absence of the Secretary and the Assistant Secretaries of the department (R. S., p. 74, sec. 440; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	4, 000. 00	
NOTE. It is recommended, for administrative reasons, that the paragraph appropriating for the chief clerk be amended to read as follows:		
"Chief clerk, including five hundred dollars as superintendent of buildings, who shall be chief executive officer of the department and who may be designated by the Secretary of the Interior to sign official papers and documents during the temporary absence of the Secretary or the Assistant Secretaries of the department."		
Assistant to the Secretary (acts May 22, 1908, vol. 35, p. 223, sec. 1; Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	2, 750. 00	
Assistant attorney (same acts).....	2, 500. 00	
Increase of \$500 (submitted).....	500. 00	
NOTE.—The assistant attorney, at \$2,500, has charge, under the supervision of the chief clerk, of the work appertaining to national parks and reservations, Territories, eleemosynary institutions, Capitol Building and Grounds, admission and disbarment of attorneys, work arising under the act of June 8, 1906, for the preservation of American antiquities, and other miscellaneous work, including acting as chief clerk in the absence of the chief clerk. The responsibilities attaching to the dispatch of the business connected with these activities are such as fully to warrant the increase in compensation recommended. The designation should be changed to "Assistant attorney in charge of national parks and reservations, who shall act as assistant chief clerk."		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries, Office of the Secretary of the Interior—Continued.</i>		
Assistant attorney (submitted).....	\$2,250.00	
Additional to 1 member of Board of Pension Appeals, acting as chief of the board (act June 17, 1910, vol. 36, p. 511, sec. 1; submitted).....	500.00	
Seven members of a Board of Pension Appeals, at \$2,000 each (acts June 17, 1910, vol. 36, p. 511, sec. 1; Mar. 4, 1911, vol. 36, p. 1214, sec. 1; submitted).....	14,000.00	
<p>NOTE. In the legislative, executive, and judicial act approved March 4, 1911 (36 Stat. L., 1214), the Board of Pension Appeals was abolished and the duties theretofore performed by the Board of Pension Appeals transferred to the office of the Assistant Attorney General for the Interior Department. Three members of the Board of Pension Appeals (one a medical expert) were by said act transferred to the force of the Assistant Attorney General. Experience has demonstrated the advisability of again providing for the Board of Pension Appeals. It is proposed under this estimate to transfer the said two assistant attorneys, at \$2,000 each, from the office of the Assistant Attorney General for the Interior Department, and to provide for two medical experts, transferring one from the office of the Assistant Attorney General for the Interior Department (who was one of the three members transferred to said office by the act of Mar. 4, 1911, supra) and for three additional members, making the number of the board the same as when it was abolished.</p> <p>It is recommended that the following proviso be inserted: "Provided, That no vacancy hereafter occurring upon said Board of Pension Appeals as constituted on and after July 1, 1912, shall be filled by original appointment, transfer, or otherwise; <i>Provided further</i>, That so much of the act of Congress approved March fourth, nineteen hundred and eleven, entitled 'An act making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June thirtieth, nineteen hundred and twelve, and for other purposes' (Thirty-sixth Statutes at Large, page eleven hundred and seventy), under the heading 'Department of the Interior,' as provides 'On and after July first, nineteen hundred and eleven, the duties theretofore performed by the Board of Pension Appeals shall be transferred to, and be performed by, the office of the Assistant Attorney General for the Interior Department be, and the same is hereby, repealed.'</p> <p>NOTE (by the Secretary).—The act of Mar. 4, 1909 (35 Stats., 887), making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1910, provided: "Additional to one member of Board of Pension Appeals, acting as chief of the board, \$500; 12 members of a Board of Pension Appeals, at \$2,000 each."</p> <p>This board was created by the act of Congress approved June 7, 1884 (23 Stats., 185), and consisted of three members. The board was thereafter increased from time to time, until at one time there were 42 members. In recent years the membership of the board was reduced from time to time until the last appropriation therefor, act of June 17, 1910 (36 Stats., 511), provided for but 8 members. This appropriation was in accordance with the recommendation of the department contained in the estimates for the fiscal year ending June 30, 1911, and made by said act, and the membership of the board was reduced as recommended from 12 members to 8 members—a reduction of 4 persons. Said act contains the following inhibition:</p> <p>"That no vacancy hereafter occurring upon the Board of Pension Appeals, as now constituted, shall be filled by original appointment, transfer, or otherwise."</p> <p>In the estimates submitted Oct. 7, 1910, for the fiscal year ending June 30, 1912, which were enacted into the act of Congress approved Mar. 4, 1911 (36 Stats., 1214), making appropriations for the legislative, executive, and judicial expenses of the Government, it was recommended:</p> <p>"It is recommended that the Board of Pension Appeals be abolished from and after July 1, 1911, and that from and after said date the duties theretofore performed by said board shall be transferred to the office of the Assistant Attorney General for the Department of the Interior; that two members of said board, who are admitted to the bar, shall be transferred to said Assistant Attorney General's office as assistant attorneys, at a compensation of \$2,500 and \$2,250 per annum, respectively, and one member of said board shall be transferred to said office for services as medical expert, at a compensation of \$2,000 per annum, for the examination of appeals involving medical questions. That each person (other than the three who shall be transferred to the office of the Assistant Attorney General, as above provided) who is a member of said board at the date of its abolition shall be transferred to and assigned to duty in the Bureau of Pensions. No vacancy hereafter occurring in either of the positions so transferred to the Bureau of Pensions shall be filled by original appointment, transfer, or otherwise."</p> <p>This act contains the following provision:</p> <p>"On and after July first, nineteen hundred and eleven, the duties theretofore performed by the Board of Pension Appeals shall be transferred to, and be performed by, the office of the Assistant Attorney General for the Department of the Interior."</p> <p>When it was recommended that the Board of Pension Appeals be abolished and the duties theretofore performed by it be transferred to the office of the Assistant Attorney General for this department, it was believed that all questions of law and practice, under existing pension legislation, had been well settled and determined, and, that in view of the rapid diminution in the number of appealed cases presented to said board, the then numerical strength of the same—eight members—would be more than sufficient to dispose properly of the work after July 1, 1911. This supposition has not been realized. New questions of law and practice have continued to arise in the administration of the pension laws, and the number of appeals filed has not diminished as expected; furthermore, by far the larger number of cases coming before the board involve questions of fact, medicine, and surgery, for which no particular precedent can be established, and such cases must be disposed of in accordance with the facts in each case.</p> <p>During the year ending June 30, 1910, there were filed 4,598 appeals and motions, an average of 383½ cases per month. During the six months from July 1, 1910, to Jan. 1, 1911, there were filed 1,575 appeals and motions, an average of 262½ cases per month. From Jan. 1, 1911, to Apr. 1, 1911, there were filed 772 appeals and motions, an average of 277 cases per month. This shows an increase in the number of appeals and motions filed since Jan. 1, 1911, of about 11 cases per month over the previous six months, and for the month of March, 1911, the number of appeals and motions filed was 310. From the foregoing it will readily be seen that the work has not decreased, but, in fact, has increased, and it is now clear to the department that this work can not be kept up to date by three persons.</p> <p>On Jan. 26, 1911, the chairman of the Board of Pension Appeals, Col. H. L. Bruce, resigned to take effect Mar. 1, 1911, and the numerical strength of the board at the date of its abolition was seven members, at \$2,000 per annum each, with \$500 additional to the member acting as chief.</p> <p>I have to recommend, therefore, that the language of the legislative, executive, and judicial act of Mar. 4, 1911, providing for the transfer of the duties of the board to the office of the Assistant Attorney General be repealed and that provision be made for a total membership of seven members for the fiscal year ending June 30, 1913, and that the inhibition contained in the act approved June 17, 1910, providing that no vacancy shall be filled, be reenacted.</p>		
Two special inspectors, whose employment shall be limited to the inspection of offices and the work in the several offices under the control of the Department of the Interior, at \$2,500 each (acts May 22, 1908, vol. 35, p. 223, sec. 1; Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	5,000.00	
Six inspectors, at \$2,500 each (acts Mar. 4, 1909, vol. 35, pp. 887, 888, sec. 1; Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	15,000.00	
Chief disbursing clerk (R. S., p. 74, sec. 440; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	2,250.00	
Clerk in charge of supplies (same acts).....	2,250.00	
Clerk in charge of mails, files, and archives (same acts).....	2,250.00	
Clerk in charge of publications (same acts).....	2,250.00	
Four clerks, at \$2,000 each (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	8,000.00	
Private secretary to the Secretary of the Interior (acts July 31, 1886, vol. 24, p. 199, sec. 1; Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	2,500.00	
Confidential clerk to the Secretary of the Interior (submitted).....	2,000.00	

NOTE (by the Secretary).—There is no appropriation made for the position of confidential clerk to the Secretary, a position which, besides that of private secretary, is provided in the Departments of State, War, Navy, Agriculture, Commerce and Labor, and Justice, at salaries ranging from \$1,600 in the Department of Justice to \$2,250 in the Departments of War, Navy, and Agriculture. The volume of work and the measure of responsibility with regard to the confidential correspondence of the Secretary necessitates the creation of this position and warrants the payment of a salary of \$2,000.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.

Twenty-one clerks of class 2 (same acts).....	29,400.00	
Clerk of class 2, additional, for central warehouse (see Appendix D) (submitted).....	1,400.00	
Twenty-four clerks of class 1 (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	28,800.00	
Returns office clerk (same acts).....	1,600.00	
Female clerk to be designated by the President to sign land patents (same acts).....	1,200.00	
Two clerks, at \$1,000 each (same acts).....	2,000.00	
NOTE.—A reduction of one clerk, at \$1,000; estimated for as librarian, at \$1,200, on the roll of the office of the Assistant Attorney General (see Appendix D).		
Eight copyists, at \$900 each (same acts).....	7,200.00	
NOTE.—Omit one copyist, at \$900, if the position of foreman of laborers, at \$900, on the proposed consolidated roll is appropriated for (see Appendix D).		
Seven copyists (increase), to which grade may be promoted, without civil-service examination, two messengers, one assistant messenger, and one laborer, and one messenger detailed from the Pension Office, all of whom are engaged upon work which warrants higher designation and salary (submitted).....	6,300.00	
Multigraph operator (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	900.00	
Assistant multigraph operator (see Appendix D) (submitted).....	720.00	
Typewriter repairer (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	900.00	
Increase to typewriter repairer (see Appendix D) (submitted).....	300.00	
Switchboard telephone operator (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	720.00	
Switchboard telephone operator (additional) (see Appendix D) (submitted).....	720.00	
Nine messengers, at \$840 each (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	7,560.00	
Three assistant messengers, at \$720 each (same acts).....	2,160.00	
NOTE.—A decrease of four assistant messengers, estimated for as packers, at \$840 (see Appendix D).		
Twenty-one laborers, at \$660 each (same acts).....	13,860.00	
NOTE.—These laborers are included in the 102 laborers on proposed consolidated roll (see Appendix D).		
Chief engineer and superintendent of construction (in lieu of engineer and electrician, at \$1,600) (act Mar. 4, 1911, vol. 36, p. 1214, sec. 1; submitted).....	3,000.00	
NOTE.—The position of chief engineer and superintendent of construction (in lieu of engineer and electrician, at \$1,600, on roll of employees for "Protection, etc., old Post Office Department building") grows out of that of chief engineer and superintendent of the old post office building, whose compensation was originally \$1,400 per annum and which was in the act of Congress of February 26, 1907, increased to \$1,600. This position originally carried responsibility and jurisdiction only over the old post office building. Since that time there have been added the Patent Office and Pension Office buildings and supervision over the entire mechanical and laboring forces of these buildings, as well as over the power, heating, and lighting plant of Freedmen's Hospital and Howard University. This position calls for a person skilled in both electrical and mechanical engineering and construction work of various kinds incident to the maintenance and repair of the buildings, and the salary asked for is deemed no more than adequate for the responsibility of the place. See Appendix D.		
Two skilled mechanics, one at \$900 and one at \$720 (see "Proposed consolidated roll," "Chief painter and decorator," appendix D) (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	1,620.00	
Two carpenters, at \$900 each (estimated for as "Chief cabinetmaker," and as 1 of 3 cabinet-makers on proposed consolidated roll—see appendix D) (same acts).....	1,800.00	
Plumber (estimated for as "Chief plumber and pipefitter" on proposed consolidated roll—see appendix D) (same acts).....	900.00	
Electrician (same acts).....	1,000.00	
Increase of \$500 (submitted).....	500.00	
NOTE.—In the legislative, executive, and judicial appropriation act for fiscal year ending June 30, 1902 (31 Stat. L. 995), the position of electrician at \$900 was established for this department, and in the act of Mar. 18, 1904 (34 Stat. L. 123), the salary of this position was increased to \$1,000. Since that time the responsibilities attached to the position have increased fully tenfold. He now has charge of and is responsible for all the electrical work on the Patent, Pension, Old Post Office Department Building, Bureau of Mines, and Civil Service Commission Buildings, and of the Freedmen's Hospital and Howard University. The position requires a person with a good, general education, as well as technical knowledge of electricity, good executive ability and initiative. The measure of responsibility involved fully warrants the increase submitted. It is recommended that the designation of this position be changed to "Chief electrician," at \$1,500.		
Laborer (estimated for as 1 of the 102 laborers on the proposed consolidated roll—see appendix D) (R. S., p. 27, secs. 167-169; act Mar. 4, 1911, vol. 36, p. 1213, sec. 1).....	600.00	
Six laborers, at \$480 each (estimated for as 6 of the 102 laborers on the proposed consolidated roll—see appendix D) (same acts).....	2,880.00	
Packer (same acts).....	660.00	
Six packers, at \$340 each (in lieu of four assistant messengers, at \$720 each, and provided that two laborers at \$660 each, now employed as packers, may be promoted to that grade without civil service examination—see appendix D) (submitted).....	5,040.00

NOTE.—An increase of \$8,000 over the amount appropriated for the fiscal year 1912 is submitted in part in order to provide for the additional amount of \$1,000 provided for the Civil Service Commission from the department appropriation. In the appropriation for the fiscal year 1912 it was provided that the commission should have supplies from the appropriation to the amount of \$7,500 instead of the amount of \$6,500 provided for the previous fiscal year, but no corresponding increase was made in the total amount of the appropriation on this account; and the remaining increase is asked for the purpose of installing a departmental laundry plant (which it is believed would be both economical and more satisfactory than the present system of handling laundry), purchasing filing and labor-saving devices, and the renting of a stable, it having been found that the stable service secured by contract system is very unsatisfactory.		122,000.00
The changes in the foregoing paragraph from the existing law are italicized.		
DEPARTMENT OF THE INTERIOR, Washington, October 3, 1911.		
SIR: The laundry for the department and its several bureaus, according to the practice for many years past, has been done under annual contract awarded after receiving competitive bids for the service, and, generally speaking, the award of the contract has been made to the lowest bidder.		
While some of the contractors have done fairly satisfactory work, the department has been put to a great deal of inconvenience and annoyance at times by the contractors failing to perform the service in a satisfactory manner. Frequently the towels have not been thoroughly washed nor ironed; material has been used for whitening them which has destroyed the fabric; towels not belonging to the department have been delivered in place of those sent; there has been annoyance from the failure of the contractors to deliver towels promptly; and serious objection has always existed to the practice followed by these laundries, despite the watchfulness on the part of the department, of washing towels with general and miscellaneous laundry received from private sources. In some cases it has become apparent, beyond any question of doubt, that this work has been done under very insanitary conditions. Under the circumstances it is believed that it would be both economical and far more satisfactory for the department to provide a plant in which all its own work could be performed.		
During the fiscal year 1911, the department had 227,413 towels washed, or about 18,951 per month, at a cost of \$864.07.		
By the expenditure of about \$1,500, it is believed that a satisfactory and thoroughly equipped plant could be provided for doing this work, and the running expenses of such plant would not average over \$400 per annum. All the labor incident thereto could be performed by regular employees of this department, and the department will guarantee not to ask for additional laborers to do this work.		
It is figured that the original cost of this plant would be saved within three years and that thereafter the department would be at no extra expense in performing this service.		
By the sundry civil act, approved June 25, 1910 (36 Stat., 737), providing for the extension of the central heating plant of the department, located in the old Post Office Building, to the Pension Office Building and the elimination of a separate heating plant in the Pension Office Building, in the construction of such extension, provision has been

made for installing a high-pressure steam line, which will act as a "booster" for the heating system and provide steam for the laundry and other purposes, and the necessary provision has been made for water supply direct from the central boilers. This line will be in service both summer and winter, and has been made to act with or independent of the heating system; or, in other words, is always available, and was installed with a view to securing the legislation necessary to install the laundry plant now asked for.		
It is suggested that if provision is given to install a laundry plant, the necessary authority be conferred upon the department to extend its facilities to other departments and offices of the Government at actual cost, if there be facilities over and above that necessary to take care of the laundry work of this department and its bureaus.		
Very respectfully,	(Signed) CLEMENT S. UCKER, Chief Clerk.	
The SECRETARY OF THE INTERIOR.	UNITED STATES CIVIL SERVICE COMMISSION, Washington, D. C., October 2, 1911.	
The honorable the SECRETARY OF THE INTERIOR.		
SIR: The commission has the honor to advise you that it has forwarded to the Secretary of the Treasury, in accordance with his letter of July 17, 1911, and the usual practice, its estimates for the fiscal year ending June 30, 1913. These estimates include \$12,500 (\$5,000 additional) for contingent expenses; \$2,000 (submitted) for wagon service and \$4,000 (submitted) for electric conduit and connections, for reasons explained in notes accompanying the estimates, copies of which are attached: \$40,000 for printing and binding (to be separate from the appropriation for the Department of the Interior, as suggested in the department's letter of July 20, 1911); \$16,875 for rent of building; \$5,000 for stationery; and \$250 for the purchase of textbooks and books of reference. The reasons for requesting the additional amounts above indicated and also for asking that the appropriation for printing and binding be made separate from that of the Department of the Interior appear in the estimates transmitted to the Secretary of the Treasury. As these appropriations, except that for wagon service and electric conduit and connections, which are new, have heretofore been included with those of the Department of the Interior, the commission respectfully requests that provisions for these items, copy of which is inclosed, be made in the estimate when submitted by your department, with the explanation of the department's recommendation with respect to separating the appropriation for printing and binding from the appropriations of the department.		
By direction of the commission:	(Signed) JOHN C. BLACK, President.	
Very respectfully,		
(Inclosure.)		
Printing and Binding, Civil Service Commission:		
Printing and binding for the Civil Service Commission, to be executed under the direction of the Public		
Printer (m).....		\$40,000
(m) The appropriation for printing and binding for the Civil Service Commission has heretofore been included in the appropriation for the Department of the Interior, the following being the language of the act for the year 1912:		
"For the Interior Department, including not exceeding forty thousand dollars for the Civil Service Commission, and not exceeding twenty-five thousand dollars for the publication of the annual report of the Commissioner of Education, two hundred and ninety-five thousand five hundred dollars."		
The Civil Service Commission is not under the jurisdiction of the Department of the Interior and its new location, 1734 F Street NW., makes it difficult to transact the business relating to printing and binding through the Department of the Interior. The commission therefore requests that its appropriation for printing and binding be not included jointly with that of the Department of the Interior as heretofore. This request is made with the concurrence of the Department of the Interior, as indicated by the following letter:		
"DEPARTMENT OF THE INTERIOR, Washington, July 20, 1911.		
"The Civil Service Commission, Gentlemen:		
"In reply to your letter of June 15. In view of the fact that the commission is to be moved to a location distant from the Department you are authorized to receive from and deliver to the Government Printing Office proofs of all matter ordered printed. All copy for monthly requisitions may be forwarded direct to the Public Printer and inquiries concerning printing may be made direct to the Government Printing Office. Requisitions will be forwarded by this office as heretofore.		
"As the Civil Service Commission is not under the jurisdiction of this department there seems to be no reason why its allotment for printing should be included in the allotment for this department. When the allotments for 1913 are submitted by this department the allotment for the Civil Service Commission will be omitted. You will, therefore, include printing and binding in the estimate forwarded by you to the Secretary of the Treasury.		
"Very respectfully,	(Signed) SAMUEL ADAMS, "Acting Secretary."

(n) The regular appropriation for the present year ending June 30, 1912, is \$7,500, being an increase of \$1,000 over last year's regular appropriation. A deficiency appropriation of \$4,000 (available during 1911-1912) was made for expenses incident to the moving to and furnishing the new building. Under the appropriation of last year nothing which was not absolutely indispensable was purchased, that as large an amount as possible might be available to defray the expenses of moving to and fitting up the new building. This causes a pressing need for many necessary articles which can not be met on account of the great increase in the fixed charges payable from the contingent fund, since removal to the new building. As an illustration, it may be cited that the fixed charges for electricity for power and lighting in the new building will exceed those for the old building by more than \$1,000.		
Delivery Service, Civil Service Commission:		
Purchase and maintenance of a motor delivery wagon (submitted) (o).....		\$2,000

Electric Conduit and Connections, Civil Service Commission:		
Electric conduit and connections, connecting the commission's building with the State, War, and Navy Department Building (submitted) (p).....		\$4,000
(p) This item is estimated for to enable the commission to secure electric current from the State, War, and Navy Department Building at a cost of from 2 to 2½ cents a kilowatt, whereas the present cost of the commercial current is 6 cents a kilowatt.

Stationery, Department of the Interior—

For stationery, including tags, labels, index cards, cloth-lined wrappers, and specimen bags, printed in the course of manufacture, and such printed envelopes as are not supplied under contracts made by the Postmaster General, for the Department of the Interior and its several bureaus and offices, including not to exceed five thousand dollars for the Civil Service Commission. *Provided: That such portion of the appropriation for stationery, etc., as may be allotted to the Bureau of Mines by the Secretary of the Interior shall be available for the purchase of such stationery, etc., as may be required for the use of the Pittsburgh Experiment Station as well as for the Washington Office of said bureau. (If this provision be enacted into law, the amounts enumerated to be deducted from the Bureau of Mines appropriation in the proposition to increase the departmental appropriation sufficiently to enable it to furnish stationery to field offices of the various bureaus, by making decreases from bureau appropriations, need not be considered, viz: "Making public reports, \$600; Investigating mine accidents, \$500; Testing fuel, \$100; total, \$1,200.") The Secretary of the Interior may hereafter, in his discretion and in the interest of economy, use the funds provided in the appropriation for stationery and for contingent expenses of the Department of the Interior, for the purchase and distribution of supplies for the use of subordinate offices and Indian schools having appropriations available for the purchase of supplies: Provided, That the said appropriations of the department shall be reimbursed from the appropriations for the offices and schools so supplied by the medium of transfer vouchers which, when properly executed, shall be recognized and allowed by the accounting officers of the Treasury Department, and such vouchers, bearing the approval of the Secretary of the Interior or one of his assistants, shall be accepted by the accounting officers of the Treasury Department as sufficient evidence that the supplies charged for have been or will be paid for from the said department appropriations (act Mar. 4, 1911, vol 37, p. 1218, sec. 1).*

NOTE.—An increase of \$600 over the amount of the appropriation for the fiscal year 1912 is submitted in order to provide for stationery for the Government Hospital for the Insane. The Assistant Attorney General for the Interior Department rendered a decision, under date of Aug. 4, 1906, in which he held that the Government Hospital for the Insane was an office under the Department of the Interior and should therefore be supplied with stationery by the department. No estimate has heretofore been made by the department to include the cost of stationery for the hospital, and the increase of \$600 in the appropriation is therefore recommended.

The changes in the foregoing paragraph from existing law are italicized.

NOTE.—In order to enable the department to continue the practice which has prevailed for over 30 years, of furnishing stationery to subordinate offices, principally in the field, and to the Indian schools, it is recommended that, for this purpose, the department estimate of \$70,100, for stationery, be increased by the sum of \$44,400, and that the appropriations for the various subordinate offices be decreased by the same amount in the aggregate, as indicated in the following list of subordinate offices, and that the Secretary of the Interior may furnish stationery to the said subordinate offices to the amounts so deducted from the respective appropriations, without reimbursement therefor, namely:

The Comptroller of the Treasury rendered a decision, dated June 3, 1911, which prohibits a continuation of the method adopted by the department for furnishing stationery to subordinate offices, and in order that these offices may be provided with supplies, as heretofore, of uniform quality and at reduced rates, this change in the appropriations is very earnestly recommended. By such adjustment of the appropriations, a large amount of clerical work in making up vouchers in the Division of Supplies and examining such vouchers in the disbursing office and in the accounting offices of the Treasury Department will be obviated.</p> <p>The appropriations for the fiscal year 1912, for stationery for the subordinate offices under the Treasury Department, have, on account of similar conditions, been adjusted as above recommended (see 37 Stat., p. 1191, and Book of Estimates, 1912, p. 35).</p>

<p>NOTE.—An estimate is submitted for an increase of \$2,250 in the appropriation for library books. For the fiscal year 1912 there was appropriated the sum of \$1,000, of which amount the law provides that \$250 may be used for the Civil Service Commission, leaving \$750 for law books and books of reference required by several of the bureaus and by the law branch of the department, or office of the Assistant Attorney General for the Interior Department. This office has been greatly embarrassed for want of standard and current law books, which are constantly required in the preparation of important cases, and in order to meet the emergencies it has frequently been necessary to borrow from public and private libraries, which course results in much annoyance and loss of time.</p> <p>Owing to the small amount (\$750) which has been appropriated annually for many years, the law library of the department has become very incomplete.</p>

NOTE.—The increase of \$6,500 hereby recommended is due to the necessity of providing additional space for the fuel-inspection laboratory and the inspectors engaged upon the inspection of coal purchased by the various Government departments and the Isthmian Canal Commission. Space is required for the investigation of ores and other mineral substances. Additional rooms are needed to carry on in an efficient manner the general work of the bureau and to further concentrate such work at the Washington office of the Bureau of Mines.		
In the interest of better administration, the words "Northeast corner Eighth and G Streets northwest," included in the appropriation act for the fiscal year ending June 30, 1912, have been omitted.		
NOTE.—Memorandum by the Chief Clerk of the Bureau of Mines as to recommendation for increased rent for said bureau.		
Mr. Ben B. Bradford, owner of the building now occupied by the Bureau of Mines, offers to construct an addition upon the two lots to the north of the building, such newly erected building to be constructed as per plans prepared by the bureau. The two lots referred to have the same area as the ground on which this building is located, namely, 40 by 70 feet, or 2,800 square feet. Mr. Bradford proposes to rent the new building, together with the present building now occupied, at an annual rental of \$14,000.		
The bureau is paying an annual rent of \$7,500 for the building now occupied. This building has five floors, including the basement, and has a total floor area of 14,000 square feet. At \$7,500, the rental per square foot is 53.6 cents. In erecting any new building on the two lots referred to, it will be necessary to leave an airshaft, which would cut off about 300 square feet from each floor, or 1,500 square feet for the five floors. One thousand five hundred square feet subtracted from 14,000 leaves 12,500 square feet floor area of the proposed new addition. The present rental of \$7,500 subtracted from the proposed total rental of \$14,000 leaves \$6,500 rental for the proposed new building. This is at the rate of 52 cents per square foot for the 12,500 square feet, which is less than the rental being paid for the building now occupied.

Depository acting for the commissioner as receiver of public moneys (acts Mar. 15, 1898, vol. 30, p. 305, sec. 1; Mar. 4, 1911, vol. 36, p. 1215, sec. 1).....	2,000.00	
Clerk and librarian (acts Apr. 17, 1900, vol. 31, p. 121, sec. 1; Mar. 4, 1911, vol. 36, p. 1215, sec. 1).....	1,000.00	
	\$639,700.00	\$621,870.00
NOTE.—As to the increase submitted for the assistant commissioner, no extended explanation is necessary when it is appreciated that the work under his jurisdiction is second in importance only to that of the head of the office. The position requires the highest legal ability, and \$4,000 is hardly an adequate salary for such work. The increase from \$2,500 to \$3,000 in the salary of the chief clerk is submitted in view of the increased responsibilities of that position on account of the large increase in the work of this office. That which has been stated with reference to the requirements as to legal ability of the assistant commissioner is also applicable to the chief law clerk. Thus the increase in his salary from \$2,500 to \$3,500 is recommended. The increase in the salaries of two law clerks from \$2,200 to \$2,500 is recommended for the same reason. The recommendation for the increase of the salary of one chief of division from \$2,400 to \$2,500 is made in view of the fact that this chief of division is usually given administrative duties of a high character. The recommended increase in the salary of the chief of Accounts Division from \$2,000 to \$2,500 is made in view of the fact that, with the installation of approved modern business methods, the position calls for high administrative ability. In addition, the chief of Accounts Division is also in charge of the statistics of this office, and it may be mentioned in this connection that a new statistical system and a new accounting system with reference to the accounts of receivers of public moneys is to be installed. The usual salaries of statisticians and expert accountants is far above the amount submitted. The increase submitted for the chief of Mineral Division from \$2,000 to \$2,500 is recommended because of the intricate character of the mineral laws and the decisions and regulations with reference thereto and the consequent high character of requirements of the chief of that division.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries, General Land Office—Continued.</i>		
As to the increase of the eight chiefs of division and the recorder from \$2,000 to \$2,250 each, the same is made for the same reason as stated with reference to the chief clerk of this office.		
These increases are necessary in order that the Government may retain the services of its most valuable men. In the past this office has lost several of such employees by reason of the inadequate salaries paid.		
The estimate for 10 messenger boys at \$600 each and 6 messenger boys at \$480 each is submitted for the reason that approximately this number should be maintained, or rather retained, in order to keep the office running smoothly, as approximately this number is being carried under the appropriation for "Protecting public lands, timber, etc.," under the provision of that appropriation for bringing the work of this office up to date.		
The additional chief of division at \$2,250 is submitted to provide for a chief of the Government Contest Division. At present a law examiner, at a salary of \$2,000, is acting as chief of this division.		
<i>Expenses of Inspectors, General Land Office—</i>		
For per diem in lieu of subsistence of examiners and of clerks detailed to inspect offices of United States surveyors general and other offices in surveying service, to investigate fraudulent land entries, trespasses on the public lands, and cases of official misconduct, while traveling on duty, at a rate to be fixed by the Secretary of the Interior, not exceeding \$4 per day, and for actual necessary expenses of transportation, including necessary sleeping-car fares, and for employment of stenographers and other assistants when necessary to the efficient conduct of examinations, and when authorized by the Commissioner of the General Land Office (act Mar. 4, 1911, vol. 36, p. 1215, sec. 1).....	\$8,500.00	\$8,500.00

NOTE.—

DEPARTMENT OF THE INTERIOR,
BUREAU OF PENSIONS,
Washington, Sept. 13, 1911.

The honorable the SECRETARY OF THE INTERIOR.

MY DEAR MR. SECRETARY: I have the honor to transmit herewith estimates for clerk hire for the Pension Bureau for the fiscal year ending June 30, 1913.

In forwarding these estimates it seems proper for me to call your attention to the fact that there are carried on the rolls of this bureau a large number of employees whose duties are the care of buildings under the chief clerk of the Interior Department. It would be impossible for me to explain to the satisfaction of the Appropriation Committee why the money appropriated for the maintenance of the pension system should be used for any other purpose. For the care of this building alone it would be hard to defend an appropriation for two engineers and three firemen, who, as I understand, are not needed here under the present arrangements for heating.

I respectfully submit that these employees should be provided for in the estimates for the Interior Department proper. Even if all of these employees were assigned to the care of this building, the expense should be borne jointly by the United States Pension Agency, the Office of Indian Affairs, and the Bureau of Pensions.

I have the honor to remain, your obedient servant,

J. L. DAVENPORT, Commissioner.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries, Special Examiners, Pension Office—</i>		
Forty-five special examiners, at \$1,300 each, and no person so appointed shall be employed in the State from which he is appointed, and any of those now employed in the Pension Office or as special examiners may be reappointed if they be found to be qualified (act Mar. 4, 1911, vol. 36, p. 1216, sec. 1).....	\$58,500.00	\$58,500.00

DEPARTMENT OF THE INTERIOR,
UNITED STATES PATENT OFFICE,
Washington, D. C., October 14, 1911.

Hon. WALTER L. FISHER,
Secretary of the Interior.

MY DEAR MR. SECRETARY: I respectfully submit herewith my explanation of the different items included in the estimates for the Patent Office for the fiscal year ending June 30, 1913.

The first item of increase which I have submitted in the estimates for the office is that of \$1,000 additional for the salary of the Assistant Commissioner of Patents, Frederick A. Tennant. This same increase I have recommended heretofore, and although it was approved by the Secretary of the Interior, owing to the deficit then existing in the Treasury it was disallowed by the Committee on Appropriations. I now wish to renew my recommendation and urge your approval of the same for the following reasons:

Of course you are aware that the assistant commissioners in the other bureaus of the department receive the same salaries, and I think the same reason therefor applies to the Patent Office. Both the first assistant commissioner and the assistant commissioner perform precisely the same duties; that is, such duties as are assigned them by the Commissioner of Patents. As you are doubtless aware, the heaviest part of the work of the Patent Office is the legal or judicial questions which arise and which comprise a large part of the duties of the commissioner and the assistant commissioners. Appeals lie from 45 examining divisions to the board of examiners in chief, a tribunal composed of three men who are presidential appointees and whose sole duty is to hear such appeals. From them appeal lies to the Commissioner of Patents and from him to the Court of Appeals of the District of Columbia. Appeals from the examiner of trade-marks do not go to the board, but all appeals from all sources, including petitions of a judicial character during the past fiscal year amounted to about 4,000. This great mass of judicial business is handled by the commissioner and the assistant commissioners, who hear such cases as are assigned to them by the commissioner. I simply recite this to show the great injustice of having one assistant commissioner's salary at \$4,500 and one at \$3,500 when both perform the same duties.

Mr. Tennant was graduated from Cornell University with the degree of Electrical Engineer in 1893 and graduated from the National University of Law with the degree of LL. B. in 1901 and the degree of LL. M. in 1902. He was graduated from George Washington University with the degree of Master of Patent Law in 1903. He entered the Patent Office in 1895 as the result of a severe competitive examination in technical subjects and was promoted through the various grades of examiners to law examiner, and finally, upon my recommendation to the Secretary of the Interior and to the President, was appointed Assistant Commissioner of Patents on July 1, 1909, strictly upon merit, there being no political influence exerted in his behalf. In fact, no member of the New York delegation knew of his appointment until it was announced. Due to his brilliant record in the office, I trust you will approve my recommendation to the Congress as set forth in the estimates.

I have asked that the salaries of the examiners in chief be increased \$500. This tribunal, whose duties are wholly judicial, gives its time strictly to the consideration of cases on appeal. Permit me to say in connection with this particular item that the personnel of the board has changed three times since my appointment as commissioner, due to the insufficiency of the salaries paid. Frequent changes of this character in a tribunal are very embarrassing to the office and, if possible, the tendency to leave the office should be prevented.

I have recommended an increase in the salary of the examiner of interferences of \$300. This official is the court of first instance in interference cases and is a very necessary tribunal in determining the rights of two or more inventors claiming the same invention. Testimony is taken in any part of this country or Europe where witnesses may be found, and cases argued and judgments rendered. Appeal lies from this tribunal as above recited.

I have asked for an increase of five third assistant examiners for duty in the Division of Classification. This force is required to classify and digest the works in the Scientific Library, which contains from fifty to sixty thousand volumes of scientific works and books of reference, through which the examiners have to search almost daily. The increase of force granted the Classification Division to classify and digest the more than one million United States and three million foreign patents has enabled the commissioner to complete about one-half of that work. When it is fully completed, as I have stated in my various reports and to the committees of Congress, it will save an enormous amount of money in the consideration and granting of patents. The field of search at the present time is so great that it is almost impossible to accomplish it without a very large force with any degree of satisfaction. I trust that this item will receive your hearty approval, as I am quite sure it will result in the issuance of patents which will have a greater degree of validity attached to them and will shorten the period of time required for examination fully one-half and greatly reduce the expense of the issue of patents.

There has been also asked an increase of the salary of financial clerk for the bureau from \$2,250 to \$2,500. There passes through the hands of this official during the fiscal year between two and three millions of dollars, and it is believed that in the entire period of his service not a penny has been lost, although most of the money comes loosely through the mails in the form of actual cash. His responsibilities are not only very great but it is necessary to rely entirely upon his honesty, since his accounts, unlike those of the ordinary disbursing officer, are not immediately checked by the Treasury Department. In the present instance the integrity of the official has been satisfactorily proved by his long service. He also gives a large bond, the premium on which is paid out of his very small salary.

I have asked for the appointment of a librarian for the Patent Office, to be qualified to act as principal examiner; that is to say, he must possess technical knowledge. This library is a scientific one and is used by the examining corps and the inventors and their attorneys almost exclusively, and it has grown to such proportions that it is extremely desirable that a librarian should be created.

I have also asked for an increase of salary for the chiefs of division \$250 each, making their salaries \$2,250, the same as provided in most of the bureaus of this department for similar officials.

Another item of very great importance is translator of languages. By reason of the international correspondence and exchange of patents with the whole world and especially with the Far East and countries where heretofore no patent laws have existed it is quite necessary to have patent translators to translate into English the many languages in the foreign patents now reaching us. It will doubtless be remembered that the present translator of the Patent Office does all the translating for the Department of the Interior and its several bureaus, and the volume of work is really many times greater than one person can handle. I have requested, therefore, that

the head translator, who is now receiving \$1,800, be increased to \$2,000. This employee is versed in some 10 different languages. I have also asked for an assistant translator at \$1,800.		
I have recommended that 25 copyists at \$720 each be omitted, and in lieu thereof have asked for 5 clerks of class 4, \$1,800; 5 clerks of class 3, \$1,600, and 10 clerks of class 2, \$1,400, and 10 clerks at \$1,000 to be provided.		
The office is suffering somewhat from an inefficient clerical force for the reason that we can not get competent clerks to enter at \$720 and \$900 per year. I stated that to the committees last year and they reduced the class of \$720 by 35 clerks and gave me 34 at \$1,200, which change has resulted in a great deal of good to the service. Owing to the technical knowledge required it is practically impossible to get desirable employees at the lower salaries.		
In connection with the subject of increase of salaries in the foregoing estimates, I will state that during the period from June 1, 1910, to September 30, 1911, the following number of resignations have occurred in this bureau:		
First assistant examiner, at \$2,400.....	1	
Second assistant examiners, at \$2,100.....	4	
Third assistant examiners, at \$1,800.....	24	
Fourth assistant examiners, at \$1,500.....	19	
Clerk, class 4.....	1	
Clerk, class 2.....	1	
Clerks, class 1.....	3	
Clerk, \$1,000.....	1	
Copyists, \$900.....	7	
Copyists, \$720.....	34	
Laborers, \$480.....	3	
Messenger boys.....	25	
By transfer:		
Laborers, \$600.....	2	
Messenger boys.....	3	
Copyists, \$720.....	5	
Total separations from the service in 15 months.....	133	
Permit me to say in conclusion that the Patent Office is in all respects in far better condition than ever before in its history, but when it is considered that until recently nothing whatever has been done for the office looking to its betterment for over 117 years, it requires some time to put it in the condition in which it should be to accomplish the proper and effective granting of patents to inventors.		
It is also to be noted that the Patent Office is more than self-supporting over and above every conceivable charge, which money is paid by the inventors of the country. When it is considered that there are now in the Treasury about \$7,000,000 net surplus, it is thought that Congress should appropriate sufficient money to provide an ample working force to enable the Patent Office to transact the great volume of business of inventors, which has increased every year since its establishment, especially as the inventors have more than paid the total cost of the maintenance of the bureau. Fuller reasons are given for these changes in my fiscal year report for 1911.		
I trust, Mr. Secretary, that you will approve my recommendations as submitted.		
Very respectfully,		
EDWARD B. MOORE, <i>Commissioner.</i>

SURVEYORS GENERAL AND THEIR CLERKS.		
[Consolidated appropriations—see note below.]		
<i>Salaries, Offices of Surveyors General—</i>		
For salary of surveyor general and ex officio secretary of the District of Alaska, at \$4,000 per annum (act Mar. 4, 1911, vol. 36, pp. 1219-1221, sec. 1).....	\$4, 000.00	
For salaries of surveyors general of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, at \$3,000 per annum each (increase of \$500 each in Arizona and New Mexico submitted) (same act).....	33, 000.00	
For salary of surveyor general of South Dakota, at \$2,000 per annum (same act).....	2, 000.00	
For salaries of clerks in the offices of the surveyors general (increase of \$25,700 submitted) (same act).....	187, 600.00	
	226, 600.00	199, 900.00
<i>Contingent Expenses, Offices of Surveyors General—</i>		
For rent of offices for the surveyors general, pay of messengers, stationery, printing, binding, drafting instruments, typewriters, furniture, fuel, lights, books of reference for office use, and other incidental expenses of said offices, including the exchange of typewriters: <i>Provided</i> , That no expenses chargeable to the foregoing appropriations for clerk hire and incidental expenses in the offices of the surveyors general shall be incurred by the respective surveyors general in the conduct of said offices, except upon previous specific authorization by the Commissioner of the General Land Office (reduction of \$300 submitted) (act Mar. 4, 1911, vol. 36, pp. 1219-1221, sec. 1).....	20, 700.00	21, 000.00
Total, surveyors general offices.....	247, 300.00	220, 900.00
NOTE.—Heretofore 26 separate appropriations have been made for salaries and contingent expenses of offices of surveyors general, necessitating much extra bookkeeping, liabilities of errors in designating appropriations, and numerous other inconveniences. If the 26 appropriations are consolidated into the two above recommended, it will greatly reduce the accounting and bookkeeping work. This same plan has been followed in making appropriations for district land offices, and it should be adopted for the offices of surveyors general.		
NOTE.—This form of appropriation is recommended in lieu of the appropriations shown on the following pages, relating to the offices of the surveyors general.		
<i>Salaries and Contingent Expenses, Offices of Surveyors General—</i>		
For surveyor general and ex officio secretary of the District of Alaska (act Mar. 4, 1911, vol. 36, pp. 1219-1221, sec. 1).....	4, 000.00	
For the clerks in his office (increase of \$4,000 submitted) (same act).....	11, 000.00	
	15, 000.00	11, 000.00
For rent of offices for surveyor general, pay of messenger, stationery, printing, binding, drafting instruments, typewriters, books of reference for office use, furniture, fuel, lights, and other incidental expenses, including the exchange of typewriters (same act).....	2, 500.00	2, 500.00
NOTE.—The increase of \$4,000 is required to pay the salaries of two additional draftsmen at \$1,800 each, total \$3,600, and a deficiency in the current appropriation to pay the salary of a typewriter at \$1,800 per annum, \$400. Total \$4,000.		
No provision was made for office work under the special appropriation of \$50,000 for surveys in Alaska, 1912, the appropriation of \$5,000 made for 1912 being available for office work in survey returns under the \$100,000 special appropriation for Alaska, 1911, only.		
For surveyor general of the Territory of Arizona (increase of \$500 submitted) (same act).....	3, 000.00	
For the clerks in his office (same act).....	13, 000.00	
	16, 000.00	15, 500.00
For rent of office for the surveyor general, stationery, binding, records, books of reference for office use, typewriters and repairs, repairs of furniture, freight and drayage, filing cases, drafting supplies and tables, and other incidental expenses, including the exchange of typewriters (same act).....	1, 800.00	1, 800.00
For surveyor general of California (same act).....	3, 000.00	
For the clerks in his office (increase of \$400 submitted) (same act).....	11, 800.00	
	14, 800.00	14, 400.00
For pay of messenger, stationery, binding records, repairing maps, repairs to locks, clocks, furniture, batteries, and typewriters, towels, telephone, books of reference for office use, and other incidental expenses including the exchange of typewriters (same act).....	1, 500.00	1, 500.00
NOTE.—The increase of \$400 is required to pay a deficiency in the regular salary appropriation of one draftsman at \$1,500 per annum, whose services must now be dispensed with in March or April, but which are needed the entire year.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries and Contingent Expenses, Office of Surveyors General—Continued.</i>		
For surveyor general of Colorado (act Mar. 4, 1911, vol. 36, pp. 1219-1221, sec. 1).....	\$3,000.00	
For the clerks in his office (same act).....	22,000.00	
	\$25,000.00	\$25,000.00
For rent of office for the surveyor general, pay of messenger, stationery, printing and binding, furniture and repairs, muslin for mounting plats, drafting instruments, record books, indexing volumes of letters, ice, telephone, post-office box rent and register stamps, books of reference for office use, typewriters, and other incidental expenses, including the exchange of typewriters (reduction of \$1,000 submitted) (same act).....	4,000.00	5,000.00
For surveyor general of Idaho (same act).....	3,000.00	
For the clerks in his office (increase of \$2,500 submitted) (same act).....	17,500.00	
	20,500.00	18,000.00
For pay of messenger, stationery, binding, printing, drafting instruments, post-office box rent, furniture, typewriters, ice, books of reference for office use, and other incidental expenses, including the exchange of typewriters (same act).....	1,500.00	1,500.00
NOTE.—Three employees, at salary aggregating \$4,600, are now employed under special appropriations for Idaho, which will be exhausted before June 30, 1912, and will not be renewed. Owing to the great accumulation of field notes under the contract and direct system these employees must be provided for in 1913. There is an excess of \$3,500 in the current annual appropriation, which is available and will be used for the payment of such parts of the salaries of the above employees during the latter part of the current fiscal year as may not be met by the special appropriation referred to because of their exhaustion, and the full amount of \$3,500 will be available for the payment of their salaries during the fiscal year 1913. There are now 11 clerks and draftsmen employed in the Surveyor General's office whose salaries are payable from appropriations, and he will need an additional draftsman in 1913.		
For surveyor general of Montana (same act).....	3,000.00	
For the clerks in his office (same act).....	20,000.00	
	23,000.00	23,000.00
For pay of messenger, lights, post-office box rent, ice, stationery, printing, binding, furniture, books of reference for office use, and other incidental expenses, including the exchange of typewriters (same act).....	1,500.00	1,500.00
For surveyor general of Nevada (same act).....	3,000.00	
For the clerks in his office (increase of \$2,400 submitted) (same act).....	9,400.00	
	12,400.00	10,000.00
For stationery and drawing materials, post-office box rent, registering letters, telephone, ice, repair of furniture, books of reference for office use, and other incidental expenses, including the exchange of typewriters (same act).....	1,000.00	1,000.00
NOTE.—Nevada has received a large increase in the apportionment for surveys within that State from the annual appropriation and will require two new draftsmen, at \$1,200 each, to handle the office work upon these returns.		
For surveyor general of New Mexico (increase of \$500 submitted) (same act).....	3,000.00	
For the clerks in his office (same act).....	15,500.00	
	18,500.00	18,000.00
For pay of messenger, stationery, printing, drafting instruments, plats, drawing paper, binding records, telephone, registration of letters, post-office box rent, drayage, towels, books of reference for office use, and other incidental expenses, including the exchange of typewriters (same act).....	1,500.00	1,500.00
For surveyor general of Oregon (same act).....	3,000.00	
For the clerks in his office (same act).....	13,000.00	
	16,000.00	16,000.00
For stationery, telephone, towels, binding, post-office box rent, books of reference for office use, and other incidental expenses, including the exchange of typewriters (same act).....	900.00	900.00
For surveyor general of South Dakota (same act).....	2,000.00	
For the clerks in his office (submitted).....	5,000.00	
	7,000.00	2,000.00
For rent of office for the surveyor general, pay of messenger, stationery supplies, drafting instruments, fuel, ice, binding records, post-office box rent, telegrams, registration of letters, towels, furniture and typewriter repairs, books of reference for office use, and other incidental expenses, including the exchange of typewriters (increase of \$500 submitted) (same act).....	300.00	300.00
NOTE.—No appropriation for the payment of salaries of clerks in the surveyor general's office for South Dakota was asked last year, the public surveys therein being largely completed, but a special appropriation of \$50,000 for resurveys in Nebraska was made for 1912, without provision for office work upon the returns thereon, and Nebraska not being a surveying district and the General Land Office being wholly unable to handle these returns without materially increased force in the surveying division, the same will be sent to the surveyor general of South Dakota for working up, and that official will also be required to handle the returns of fractional South Dakota surveys which last year were handled with difficulty in the General Land Office because of the pressure of regular work. The filing of the returns of Nebraska surveys under the \$50,000 appropriation of 1912 will begin on or before July 1 of this fiscal year.		
The increase in the contingent fund of \$500 will be necessary to equip and supply the increased force.		
For surveyor general of Utah (same act).....	3,000.00	
For the clerks in his office (increase of \$7,500 submitted) (same act).....	19,500.00	
	22,500.00	15,000.00
For pay of messenger, stationery, plats and supplies, printing and binding, drawing tables, drafting instruments, post-office box rent, typewriters, drayage, towels, books of reference for office use, and other incidental expenses, including the exchange of typewriters (same act).....	1,000.00	1,000.00
NOTE.—The increase of \$7,500 is required to provide for three clerks and draftsmen now employed under special appropriations, which will be exhausted on June 30, 1912, and will not be renewed, and for two additional draftsmen and one transcribing clerk. Twelve clerks and draftsmen are now employed, and the office will need 15 in 1913. The additional force is required because of increase of office work under the special Utah appropriation for surveys and the increase in the annual assignment from the regular appropriation for same.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries and Contingent Expenses, Office of Surveyors General—Continued.</i>		
For surveyor general of Washington (act Mar. 4, 1911, vol. 36, pp. 1219-1221, sec. 1)	\$3,000.00	
For the clerks in his office (same act)	11,000.00	
	\$14,000.00	\$14,000.00
For rent of office for the surveyor general, pay of messenger, furniture and repairs, stationery, binding records, books, blanks, books of reference for office use, and other incidental expenses, including the exchange of typewriters (same act)	1,500.00	1,500.00
For surveyor general of Wyoming (same act)	3,000.00	
For the clerks in his office (increase of \$3,900 submitted) (same act)	18,900.00	
	21,900.00	18,000.00
For pay of messenger, stationery and supplies, lights, printing, binding, books, post-office box rent, drafting instruments, mounting maps, ice, towels, furniture and repairs, books of reference for office use, and other incidental expenses, including the exchange of typewriters (increase of \$200 submitted) (same act)	1,200.00	1,000.00
<p>NOTE.—The necessity for the increase of \$3,900 for clerk hire is the same as stated above in the case of the other surveying districts. Three draftsmen now being paid from special appropriation which will be exhausted on June 30, 1912, should be transferred to the regular appropriation in order to handle the office work on surveys which is now two years in arrears because of the inadequate force. It will require at least the entire clerical force now employed to bring the office work of this district up to date in 1913.</p> <p>The \$200 additional contingent fund is desired for the purchase of an adding and counting machine required by this office.</p>		
<p><i>Provided</i>, That moneys hereafter paid to surveyors general by applicants for exemplified copies of plats and other records in the offices of the surveyors general and deposited by said officers to the credit of the Treasurer of the United States are hereby appropriated, and such moneys shall be placed to the credit of the fund created by deposits by individuals for surveying public lands and shall be available for the payment of the salaries of the clerks engaged on such work, and for the purchase of the necessary stationery and office supplies used in connection therewith: <i>Provided further</i>, That no expenses chargeable to the foregoing appropriations for clerk hire and incidental expenses in the offices of the surveyors general shall be incurred by the respective surveyors general in the conduct of said offices, except upon previous specific authorization by the Commissioner of the General Land Office.</p>

NOTE.—

OFFICE OF THE CLERK,
COURT OF APPEALS OF THE DISTRICT OF COLUMBIA,
Washington, D. C., May 31, 1911.

SIR: The court has the honor to transmit herewith its estimates for the fiscal year 1912-13.

Several increases are submitted, the reasons for which are given in the explanatory note following the item.

The provision of a mechanic and one additional watchman is believed to be essential for the proper maintenance and care of this public building.

The increases are requested as a simple act of justice to the officers and employees in the way of placing them on a salary basis in keeping with the duties performed and giving them compensation equivalent to that now received by similar officers of like tribunals.

The court would be very much gratified to have these increases, together with the notes explaining them, included in the annual estimates to Congress.

Very respectfully, yours,

SETH SHEPARD,
Chief Justice.

To the ATTORNEY GENERAL.

Estimates, 1912-13, for the Court of Appeals of the District of Columbia.

(Legislative, executive, and judicial bill.)

	Present appropriation, 1912.	Estimates, 1913.
Chief Justice.....	\$7,500.00	\$7,500.00
2 associate justices, at \$7,000 each.....	14,000.00	14,000.00
Clerk.....	3,250.00	3,250.00
And (\$250) \$500 additional as custodian of the Court of Appeals Building. (The work of custodian is a material addition to the duties and responsibilities of the clerk, and it is believed that he should be paid \$500 additional therefor, the same as in the case of the Court of Claims and other public buildings.)	250.00	500.00
Assistant or deputy clerk.....	2,250.00	2,500.00
(The work done by this employee is believed to be fully as important and onerous as that performed by the assistant clerk of the Court of Commerce, Court of Claims, and Supreme Court, District of Columbia, each of whom is paid \$2,500.)		
Reporter.....	1,500.00	1,500.00
<i>Provided</i> , That the reports issued by him shall not be sold for more than \$5 per volume.		
Crier, who shall also act as stenographer and typewriter in the clerk's office when not engaged in court room.....	1,000.00	1,200.00
(This is considered a most meritorious increase. The criers of other courts, whose only duty is attendance upon the court when in session, are paid \$1,200. The crier of this court, in addition to his court-room work, does expert stenographic and typewriting work in the clerk's office, and really helps as an assistant clerk in that office.)		
4 messengers, at \$720 each.....	2,160.00	2,160.00
Necessary expenditures in the conduct of the clerk's office.....	1,000.00	1,000.00
3 stenographic clerks, one for the chief justice and one for each associate justice, at (\$1,200), \$1,600 each.....	3,600.00	4,800.00
(It is believed that the character of the work performed by these employees merits the amount asked for. The work requires legal training and considerable ability, and the sum submitted is in keeping with that now appropriated for similar employees of the Court of Customs Appeals, Court of Claims, and others.)		
In all (one-half of which shall be paid from the revenues of the District of Columbia).....	36,510.00	38,410.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.

Deputy clerk (same acts).....	2,500.00	
Marshal (same acts).....	3,000.00	
Deputy marshal (same acts).....	2,500.00	
For rent of necessary quarters in Washington, D. C., and elsewhere, and furnishing same for the United States Commerce Court, for necessary traveling expenses of the court, its officials and employees; for books, periodicals, stationery, printing, and binding; for pay of bailiffs and all other necessary employees at the seat of government and elsewhere, not otherwise specifically provided for, and for such other miscellaneous expenses as may be approved by the presiding judge (same acts).....	55,000.00	
	74,500.00	94,500.00

NOTE.—

UNITED STATES COMMERCE COURT,
Washington, September 27, 1911.The honorable the ATTORNEY GENERAL,
Washington.

SIR: As requested in your letter of August 15, 1911, I desire to transmit to you, for submission to Congress, the following estimate of expenses of the United States Commerce Court for the fiscal year 1913:

UNITED STATES COMMERCE COURT, 1913.

Expense allowance for judges, at rate of \$1,500, per annum each, \$7,500; clerk, \$4,000; deputy clerk, \$2,500; marshal, \$3,000; deputy marshal, \$2,500; for rent of necessary quarters in Washington, D. C., and elsewhere, and furnishing same for United States Commerce Court; for necessary traveling expenses of the court, its officials and employees; for books, periodicals, stationery, printing and binding; for pay of bailiffs and all other necessary employees at the seat of government and elsewhere, not otherwise specifically provided for, and for such other miscellaneous expense as may be approved by the presiding judge, \$55,000; in all, \$74,500.

In the interest of economy, and in view of the fact that the largest part of the court's permanent equipment will be paid for out of the 1911 and 1912 appropriations, I am recommending a reduction of \$20,000 in the 1913 appropriation, for I believe that, by the further exercise of due care in the matter of expenditures, the court can be sufficiently and properly maintained on the amount set forth.

I note separately for the information of the Secretary of the Treasury, as requested, that the quarters occupied by the court are in the Southern Building, Fifteenth and H Streets NW., and consist of rooms Nos. 900, 901, 914 to 932, inclusive, and one large storeroom, for which an annual rental of \$11,772 is paid. As this amount, for the present, does not include janitor service and may vary at any time, for that or some other reason, I would consider making it a separate item in the estimate when it goes to Congress unwise, as it might prove an embarrassment in the future. Of course, this may not be the intention of the Treasury Department, and I trust that this information will answer its purpose in the premises.

Respectfully,

MARTIN A. KNAPP,
Presiding Judge.

COURT OF CLAIMS.

Salaries, Court of Claims—

Chief Justice, at \$6,500, and four judges, at \$6,000 each (R. S., p. 194, sec. 1049; acts Feb. 12, 1903, vol. 32, p. 825, sec. 1; Mar. 4, 1911, vol. 36, p. 1234, sec. 1).....	30,500.00
Chief clerk (R. S., p. 194, sec. 1054; act Mar. 4, 1911, vol. 36, p. 1234, sec. 1).....	3,500.00
Assistant clerk (same acts).....	2,500.00
Bailiff (increase of \$500 submitted) (acts June 7, 1870, vol. 16, p. 148, sec. 1; Mar. 4, 1911, vol. 36, p. 1234, sec. 1).....	2,000.00

NOTE.—The salary of the bailiff of this court was fixed at \$1,500 per annum by the act of June 7, 1870 (16 Stats., 148), and, although the duties of the office, as well as the expenses of living, have greatly increased, the salary has remained the same.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries, Court of Claims—Continued.</i>		
One clerk (act Mar. 4, 1911, vol. 36, p. 1234, sec. 1).....	\$1, 600. 00	
Two clerks, at \$1,400 each (same act).....	2, 800. 00	
One stenographer (same act).....	1, 200. 00	
One clerk, at \$1,500 (instead of 1 clerk, at \$1,200, dropped) (same act).....	1, 500. 00	
NOTE.—This clerk has been in the employ of the court 12 years and is charged with important and responsible work.		
Two clerks, at \$1,200 each (same act).....	2, 400. 00	
Chief messenger (same act).....	1, 000. 00	
Two assistant messengers, at \$720 each (same act).....	1, 440. 00	
Three firemen, at \$720 each (same act).....	2, 160. 00	
One captain of the watch, at \$840 (instead of 1 watchman, at \$720, dropped) (same act).....	840. 00	
NOTE.—The custody of the building occupied by the Court of Claims is under the direction of the court, with a custodian, but there are 3 watchmen of equal grade, and the court deems it wise to designate one of them as captain of the watch, upon whom greater responsibility may be imposed for the more efficient care of the building.		
Two watchmen, at \$720 each (same act).....	1, 440. 00	
One elevator conductor (same act).....	720. 00	
Two laborers, at \$660 each (same act).....	1, 320. 00	
Two charwomen, at \$240 each (same act).....	480. 00	
Custodian of building: Pay of a custodian of the building occupied by the Court of Claims, to be paid on the order of the court, notwithstanding section 1765 of the Revised Statutes or section 3 of the act of June 20, 1875, chapter 328 (act Mar. 4, 1911, vol. 36, p. 1235, sec. 1)...	500. 00	
	\$57, 900. 00	\$56, 980. 00
<i>Auditors, Court of Claims—</i>		
To defray the cost of the employment of auditors, stenographer to the chief justice, at \$1,600, and additional stenographers when deemed necessary in the Court of Claims, to be disbursed under the direction of the court (act Mar. 4, 1911, vol. 36, p. 1234, sec. 1)	10, 000. 00	6, 000. 00
NOTE.—The reopening of the cotton claims by section 162 of the Judicial Code, effective January 1, 1912, will materially increase the business of the court and will necessitate the employment of additional auditors and stenographers.		
<i>Contingent Expenses, Court of Claims—</i>		
For stationery, court library, repairs, fuel, electric light, electric elevator, and other miscellaneous expenses (act Mar. 4, 1911, vol. 36, p. 1235, sec. 1).....	3, 900. 00	3, 900. 00
For 1 Kanawha stationary chemical engine and installing same, estimated cost \$1,000 (submitted).....	1, 000. 00	
NOTE.—This is necessary for the protection against fire of the building owned by the United States and occupied by the Court of Claims. Besides the files and papers belonging to the court, there are other valuable papers stored in this building belonging to the Treasury Department and the Department of Justice, and this protection against fire is necessary.		
<i>Reporting Decisions, Court of Claims—</i>		
For reporting the decisions of the Court of Claims and superintending the printing of the forty-seventh volume of the Reports of the Court of Claims, to be paid on the order of the court, \$1,000, said sum to be paid to the reporter notwithstanding section 1765 of the Revised Statutes or section 3 of the act of June 20, 1875, chapter 328 (act Mar. 4, 1911, vol 36, p. 1235, sec. 1).....	1, 000. 00	1, 000. 00
Total Judicial.....	1, 318, 890. 00	1, 326, 330. 00
Total Legislative, Executive, and Judicial.....	35, 684, 267. 40	35, 589, 449. 85

	\$287,300.00	\$276,450.00
NOTE 1.—An increase of \$10,850 is submitted, as follows: The salary of the chief clerk has been increased from \$3,000 to \$3,500. With the growth of the department the work of the chief clerk has increased materially in volume and importance, and the salary has remained at \$3,000 for several years; that is, \$2,500, and \$500 additional as custodian of buildings. This salary is far below that paid the chief clerks of the other departments; the chief clerks of the War Department, Treasury Department, Interior Department, and Post Office Department all receive \$4,000 per annum, the salaries of the chief clerks of the three latter departments having been increased from \$3,000 to \$4,000 in the appropriation acts of last year. The salary of one inspector has been increased from \$2,500 to \$2,750. This official represents the Secretary personally in securing information desired from individuals and organizations outside of the department, a position requiring a broad knowledge of department activities, as well as rare tact and executive ability of a high order; the employee occupying the position has filled it in a most satisfactory manner and merits the proposed recognition. One law clerk at \$2,500 has been added in lieu of one law clerk at \$2,000 dropped, an increase of \$500. The employee whose salary is thus provided for is a member of the bar, who renders very valuable assistance in the transaction of the legal business of the department and has assisted the Department of Justice in the preparation of briefs and the prosecution of cases; the increase of \$500 is merited. The salary of one construction inspector has also been increased from \$1,200 to \$1,400, the salaries of two mechanics from \$1,100 to \$1,200 each, and the salaries of two carpenters from \$840 to \$900 each, aggregating \$520. One painter at \$1,000 has been added. One law clerk at \$2,200 has been added by transfer from the lump-fund roll of the Forest Service, one law clerk at \$2,000 by transfer from the lump-fund roll of Enforcement of the Insecticide Act, and one law clerk at \$1,800 by transfer from the statutory roll of Forest Service, aggregating \$6,000, but the appropriations named have not been correspondingly reduced. Three cabinetmakers at \$1,020 each and one plumber at \$1,020, aggregating \$4,080, have been transferred from the emergency fund of the Secretary's office, but without corresponding decrease. One accountant and bookkeeper at \$2,000 has been transferred from the same fund to the Division of Accounts and Disbursements and said fund reduced in the amount named. The changes in detail are as follows:

\$317,120.00

\$313,170.00

NOTE.—An increase of \$3,950 is submitted, as follows: The salary of the assistant chief of bureau has been increased from \$3,000 to \$3,500, the salary of 1 assistant foreman of division at \$1,400 has been increased to \$1,600, the salary of 1 lithographer at \$1,300 has been increased to \$1,500, and the salary of 1 engineer has been increased from \$1,200 to \$1,400; 1 clerk of class 2, 1 clerk at \$1,000, and 1 skilled mechanic at \$1,200 have been added, aggregating \$4,700. One compositor at \$1,250 has been transferred from the lump fund for general expenses and that appropriation reduced accordingly, and 1 librarian at \$2,000 has been transferred to the lump fund for general expenses, and considering the difference in salary of \$750 involved, the net increase is \$3,950. As to the increase of \$500 submitted in the salary of the assistant chief of bureau, it is proper to add that the official now holding this position has been connected with the Weather Bureau for 35 years, and is a man of scientific training and attainments, and during the absence of the chief is in charge of the bureau. The salary that he now receives is inadequate to the duties and responsibility of the position.

Contingent Expenses, Weather Bureau—

For fuel, lights, repairs, and other expenses for the care, [and] preservation, and improvement of the public buildings and grounds of the Weather Bureau in the city of Washington; for stationery and blank books, furniture and repairs to same, and freight and express charges; for subsistence, care, and purchase of horses and vehicles, and repairs of harness, for official purposes only; for advertising, dry goods, twine, mats, oils, paints, glass, lumber, hardware, ice, washing towels, and other miscellaneous supplies and expenses not otherwise provided for in the city of Washington, twenty-five thousand dollars (acts Oct. 1, 1890, vol. 26, p. 654, sec. 9; Mar. 4, 1911, vol. 36, p. 1237, sec. 1)

25,000.00

25,000.00

NOTE.—There is no increase in the above appropriation. A slight change in the phraseology of this appropriation is recommended, by the insertion of the word "improvement" in application to the public buildings and grounds of the Weather Bureau in the city of Washington. This change is essential in view of a decision that, under the present act, the Weather Bureau is without authority to make any changes in its buildings that is not strictly in the line of repairs. It was desired to cut a doorway and erect a flight of stairs in one of the buildings so as to provide an easy and safe means of access and egress of employees, the present arrangement being inadequate and dangerous in case of fire. Similar conditions, such as the building of partitions, changing of doorways, etc., will continually arise and it is essential that the word "improvement" be inserted in order to legalize such expenditures. The authority requested is similar to that which is now contained in the appropriation "Contingent expenses, Department of Agriculture."

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
General Expenses, Weather Bureau—		
For carrying into effect in the District of Columbia and elsewhere in the United States, in the West Indies or on adjacent coasts, in the Hawaiian Islands, and in Bermuda, the provisions of an act approved October first, eighteen hundred and ninety, so far as they relate to the weather service transferred thereby to the Department of Agriculture, and for every expenditure requisite for and incident to the establishment, equipment, and maintenance of meteorological observation stations, including cooperation with other bureaus of the Government and societies and institutions of learning for the dissemination of meteorological information, as follows:		
For the employment of professors of meteorology, inspectors, district forecasters, local forecasters, section directors, research observers, observers, assistant observers, operators, skilled mechanics, repairmen, station agents, messengers, messenger boys, laborers, and other necessary employees, [five hundred and forty-six thousand five hundred and eighty dollars;] <i>five hundred and sixty-four thousand and eighty dollars</i> (acts Oct. 1, 1890, vol. 26, p. 654, sec. 9; July 7, 1898, vol. 30, p. 706, sec. 1; Mar. 4, 1911, vol. 36, pp. 1237-1238, sec. 1).....	\$564,080.00	
For fuel, gas, electricity, freight and express charges, furniture, stationery, and all other necessary supplies and miscellaneous expenses, [one hundred and four thousand dollars;] <i>one hundred and six thousand dollars</i> (same acts).....	106,000.00	
For instruments, shelters, apparatus, storm-warning towers, and repairs thereto, [thirty-five thousand dollars;] <i>thirty-six thousand dollars</i> (same acts).....	36,000.00	
[For rebuilding and equipping the Weather Bureau building at Key West, Florida, plans and specifications to be prepared by the Secretary of Agriculture, and the work done under his supervision, not to exceed fifteen thousand dollars;]		
For rent of offices and repairs and improvements to buildings now completed and located outside of the District of Columbia and care and preservation of grounds, including construction of sidewalks on public streets abutting Weather Bureau grounds, ninety-seven thousand five hundred dollars (same acts).....	97,500.00	
For official traveling expenses, twenty-two thousand dollars (same acts).....	22,000.00	
For telephone rentals and for telegraphing, telephoning, and cabling reports and messages, rates to be fixed by the Secretary of Agriculture by agreements with the companies performing the service, [three hundred thousand dollars;] <i>three hundred and two thousand dollars</i> (same acts).....	302,000.00	
For the maintenance and repair of Weather Bureau telegraph, telephone, and cable lines, four thousand dollars (same acts).....	4,000.00	
For investigations in climatology, seismology, and evaporation, including the erection of temporary buildings for living quarters for observers, for river, rain, snow, ice, crop, evaporation, aerial, storm, hurricane, and other observations, warnings, and reports, and for pay of special observers and display men, one hundred and twenty thousand dollars (same acts).....	120,000.00	
For the maintenance of a printing office in the city of Washington, including the purchase of necessary supplies and materials for printing weather maps, bulletins, circulars, forms, and other publications, and for pay of additional assistant foremen, proof readers, compositors, pressmen, lithographers, and folders and feeders, when necessary, [eighteen thousand dollars;] <i>sixteen thousand seven hundred and fifty dollars</i> (same acts).....	16,750.00	
In all, for general expenses, [one million two hundred and sixty-two thousand and eighty dollars;] <i>one million two hundred and sixty-eight thousand three hundred and thirty dollars</i>	\$1,268,330.00	\$1,262,080.00

NOTE 1.—There is an apparent increase of \$6,250 in the above appropriation, but adding the saving in salary of one compositor at \$1,250 transferred to the statutory roll from the lump fund for printing office, and the omission of the provision for a building at Key West, Fla., \$15,000, the actual increase is \$22,500, as follows:

Under station salaries an increase of \$17,500 is submitted. Of this amount \$15,000 is for the pay of additional employees required for new stations and to meet the increasing demands for the extension of the benefits of the weather service to the rapidly developing fruit and horticultural interests of the country, and \$2,500 for the pay of the official who will take the place of the librarian that is dropped from the statutory roll.

Under miscellaneous expenses an increase of \$2,000 is submitted to purchase furnishings for additional stations. Under instruments an increase of \$1,000 is submitted for the purchase of instruments required in the equipment of additional stations.

Under rents and repairs a change of phraseology is submitted, so as to authorize the improvement of Weather Bureau buildings. The same reasons apply as those given for a similar change in the appropriation for contingent expenses. The Weather Bureau owns about 60 buildings located outside of Washington, and it occasionally happens that, in order to meet conditions that could not have been foreseen at the time the buildings were erected, slight improvements are necessary. These improvements will rarely exceed \$500 in any one case, but, under existing decisions, an expenditure can not legally be made from Weather Bureau appropriations for the extension of a porch, the building of a partition, the changing of a window into a doorway, or anything that is not strictly in the nature of repairs. In a number of instances the work of the bureau has been seriously handicapped because of the lack of the desired authority. No increase in the amount of the subappropriation.

Under telephoning and telegraphing an increase of \$2,000 is recommended to cover the cost of telegraphing additional reports required in connection with new stations and for the dissemination of warnings and reports to horticultural and agricultural interests.

Under investigations and substations a change in the phraseology is suggested, so as to authorize seismological investigations. This recommendation was made last year, but the committee omitted action thereon because it was of the opinion that the Weather Bureau had ample authority to carry on this work, which it has been doing continuously since the Weather Bureau was organized and previously by the Signal Service, whose civilian duties were transferred to the Weather Bureau. A decision, however, has been rendered by the Comptroller to the effect that the Weather Bureau's authority is not ample to authorize expenditures from its appropriations for seismological work, and it is now necessary that the appropriation be changed so as to specifically cover the case. No change in the amount of this subappropriation.

NOTE.—There is an apparent increase in the above appropriation of \$12,980. Of this sum, \$3,300 covers the transfer of 4 places from the lump fund for general expenses, and as that appropriation has been reduced accordingly the actual increase is \$9,680, as follows: Twelve places, aggregating \$10,780, have been added by transfer from the permanent appropriation for meat inspection, in accordance with law, but that appropriation has not been reduced, as it is a permanent appropriation. One clerk at \$1,500, 1 clerk at \$1,320, 6 clerks of class 1, 4 clerks at \$1,000 each, and 3 clerks at \$900 each, aggregating \$16,720, have been added, and 12 clerks at \$840 each, 7 clerks at \$720 each, 1 clerk at \$700, 1 assistant at experiment station at \$1,400, and 1 painter at \$600, aggregating \$17,820, have been dropped. Several minor changes in title have been suggested in certain of the lower grades.		
<i>General Expenses, Bureau of Animal Industry—</i>		
For carrying out the provisions of the act approved May twenty-ninth, eighteen hundred and eighty-four, establishing a Bureau of Animal Industry, and the provisions of the act approved March third, eighteen hundred and ninety-one, providing for the safe transport and humane treatment of export cattle from the United States to foreign countries, and for other purposes; the act approved August thirtieth, eighteen hundred and ninety, providing for the importation of animals into the United States, and for other purposes, and the provisions of the act of May ninth, nineteen hundred and two, extending the inspection of meats to process butter, and providing for the inspection of factories, marking of packages, and so forth, and the provisions of the act approved February second, nineteen hundred and three, to enable the Secretary of Agriculture to more effectually suppress and prevent the spread of contagious and infectious diseases of live stock, and for other purposes, and also the provisions of the act approved March third, nineteen hundred and five, to enable the Secretary of Agriculture to establish and maintain quarantine districts, to permit and regulate the movement of cattle and other live stock therefrom, and for other purposes; and for carrying out the provisions of the act of June twenty-ninth, nineteen hundred and six, entitled "An act to prevent cruelty to animals while in transit by railroad or other means of transportation," and to enable the Secretary of Agriculture to collect and disseminate information concerning live stock, dairy, and other animal products; to prepare and disseminate reports on animal industry; to employ and pay from the appropriation herein made as many persons in the city of Washington or elsewhere as he may deem necessary; to purchase in the open market samples of all tuberculin serums, antitoxins, or analogous products, of foreign or domestic manufacture, which are sold in the United States, for the detection, prevention, treatment, or cure of diseases of domestic animals, to test the same and to disseminate the results of said tests in such manner as he may deem best; to purchase and destroy diseased or exposed animals or quarantine the same whenever in his judgment essential to prevent the spread of pleuro-pneumonia, tuberculosis, or other diseases of animals from one State to another, as follows:		
For inspection and quarantine work, including all necessary expenses for the eradication of scabies in sheep and cattle, the inspection of southern cattle, the supervision of the transportation of live stock and the inspection of vessels, the execution of the twenty-eight-hour law, the inspection and quarantine of imported animals, including the establishment and maintenance of quarantine stations and the alteration of buildings thereon, the inspection work relative to the existence of contagious diseases and the tuberculin and mallein testing of animals, [five hundred and ninety-two thousand seven hundred dollars;] six hundred and eleven thousand eight hundred dollars (acts May 29, 1884, vol. 23, p. 31, secs. 1-11; Aug. 30, 1890, vol. 26, p. 414, secs. 1-10; Mar. 3, 1891, vol. 26, p. 1089, secs. 1-7; Mar. 2, 1895, vol. 28, p. 732, sec. 1; Feb. 2, 1903, vol. 32, p. 791, secs. 1-3; Mar. 3, 1905, vol. 33, p. 1264, secs. 1-6; June 29, 1906, vol. 34, p. 607, sec. 1; Mar. 4, 1911, vol. 36, pp. 1239-1240, sec. 1).....

[The act of August thirtieth, eighteen hundred and ninety, is hereby amended so as to authorize the Secretary of Agriculture, within his discretion, and under such joint regulations as may be prescribed by the Secretary of Agriculture and the Secretary of the Treasury, to permit the admission of tick-infested cattle from Mexico into that part of Texas below the southern cattle quarantine line;]		
[For the purchase of suitable land for animal quarantine stations for the ports of Baltimore, Maryland, and Boston, Massachusetts, and for the erection thereon of necessary buildings, fences, wharves, piers, and other appurtenances, and for the repair and improvement of existing structures, sixty-five thousand dollars, which sum shall be immediately available;]		
For all necessary expenses for the eradication of southern cattle ticks, two hundred and fifty thousand dollars (acts May 29, 1884, vol. 23, p. 31, secs. 1-11; Aug. 30, 1890, vol. 26, p. 414, secs. 1-10; Mar. 3, 1891, vol. 26, p. 1089, secs. 1-7; Mar. 2, 1895, vol. 28, p. 732, sec. 1; Feb. 2, 1903, vol. 32, p. 791, secs. 1-3; Mar. 3, 1905, vol. 33, p. 1264, secs. 1-6; June 29, 1906, vol. 34, p. 607, sec. 1; Mar. 4, 1911, vol. 36, pp. 1239-1240, sec. 1).....	\$250,000.00	
For all necessary expenses for investigations and experiments in dairy industry, cooperative investigations of the dairy industry in the various States, inspection of renovated butter, factories, and markets, [one hundred and fifty thousand dollars;] <i>one hundred and seventy-seven thousand nine hundred dollars: Provided, That the sanitary provisions for slaughtering, meat canning, or similar establishments, as set forth in the act of June thirtieth, nineteen hundred and six (34 Stat., 676), are hereby extended to cover renovated butter factories as defined in the act of May ninth, nineteen hundred and two (32 Stat., 196), under such regulations as the Secretary of Agriculture may prescribe (same acts).....</i>	177,900.00	
For all necessary expenses for investigations and experiments in animal husbandry, [forty-seven thousand four hundred and eighty dollars;] <i>fifty-two thousand one hundred and eighty dollars (same acts).....</i>	52,180.00	
For all necessary expenses for scientific investigations in diseases of animals, including the maintenance and improvement of the bureau experiment station at Bethesda, Maryland, and the necessary alterations of buildings thereon, and the necessary expenses for investigations of tuberculin, serums, antitoxins, and analogous products, seventy-eight thousand six hundred and eighty dollars (same acts).....	78,680.00	
[For all necessary expenses for continuing the equipment of the experiment farm at Beltsville, Maryland, including the necessary alterations of buildings thereon, the construction and repair of fences, roadways, drains, and other incidental work, and for the maintenance of the farm, including salaries of assistants and labor, feed for animals, light, power, fuel, and other incidental expenses, ten thousand dollars;]		
For construction of buildings at bureau experiment station at Bethesda, Maryland, and bureau experiment farm at Beltsville, Maryland, sixteen thousand five hundred dollars (same acts).....	16,500.00	
For general administrative work, including traveling expenses and salaries of employees engaged in such work, rent [in the city of Washington] <i>outside of the District of Columbia</i> , office fixtures and supplies, express, freight, telegraph, telephone, and other necessary expenses, [forty-six thousand nine hundred and forty dollars;] <i>forty-two thousand six hundred and six dollars (same acts).....</i>	42,606.00	
In all, for general expenses, [one million two hundred and fifty-seven thousand three hundred dollars.] <i>one million two hundred and twenty-nine thousand six hundred and sixty-six dollars.....</i>	\$1,229,666.00	\$1,257,300.00

NOTE 1.—There is an apparent decrease in the above appropriation of \$27,634, but taking into consideration the transfer of four employees to the statutory roll, \$3,300, the transfer of the amount paid for rent of buildings in the District of Columbia to a special appropriation for rent of buildings in the District of Columbia, \$3,084, the transfer of the amount paid for gas, electric current, ice, and washing towels to the contingent fund, \$1,250, and the omission of the subappropriation for purchase of land for animal quarantine stations for the ports of Baltimore and Boston, \$65,000, there is an actual increase of \$45,000. In addition the subappropriation for the Beltsville farm has been amalgamated with the subappropriations for dairy industry and animal husbandry, making the apparent increase \$55,000. Of this sum \$20,000 has been added to the subappropriation for inspection and quarantine, \$5,000 of which will be used for the expenses of running the new animal quarantine stations at the ports of Baltimore and Boston, and \$15,000 for the further extension of the work of the eradication of tuberculosis from domestic animals; \$28,500 has been added to the subappropriation for dairy industry, \$8,500 of which is for the operation and maintenance of that part of the Beltsville farm devoted to experiments in dairying. As to the remaining \$20,000, it is thought that the educational work in dairying should be extended, which will require \$15,000 of that amount. There are far more demands in connection with market milk work and dairy farming than can be met. A desire is shown by the people to correct the evils that often accompany the milk-market business. This increased assistance should be given if possible. Many comparatively new dairy States are seeking assistance in putting dairying on a successful basis, and it is hoped to give them help until they get to the point when help from the department is no longer needed. Again, in order to provide for the growth of research work now in progress and to further study the problems of the very large amount of human food wasted at the creameries in the form of skimmed milk and buttermilk, \$5,000 will be needed above what is now available. It is extremely important that this food be conserved and put into marketable condition, and investigations should be made looking to this end. The increase of \$6,500 in the subappropriation for animal husbandry is for the operation and maintenance of that part of the Beltsville farm devoted to experiments in animal husbandry. The provision admitting tick-infested cattle from Mexico into that part of Texas below the southern cattle quarantine line has been omitted, as it is permanent legislation. A provision has been added requiring proper sanitation in renovated butter factories.

And hereafter the Secretary of Agriculture is authorized to sell in the open market or to exchange for other breeding animals or animal products to the best advantage, without the usual condemnation proceedings and public auction, such animals or animal products produced or purchased under the appropriations made by Congress for the use of the Bureau of Animal Industry as may not be needed in the work of that bureau: Provided, That all moneys received from the sale of such animals or animal products or as a bonus in the exchange of the same shall be deposited in the Treasury as miscellaneous receipts.

NOTE 2.—Experience has shown that it is impossible to get a fair price for animals sold under condemnation proceedings and by auction. Under the system proposed not only will the Government receive market prices for animals sold, but in the case of breeding experiments exchanges can often be made to great advantage.

<i>Cooperative Experiments in Animal Feeding and Breeding—</i>		
For experiments in animal feeding and breeding, including cooperation with the State agricultural experiment stations, including the repairs and additions to and erection of buildings absolutely necessary to carry on the experiments, and the exhibition of animals, including rent, and the employment of labor in the city of Washington and elsewhere, rent outside of the District of Columbia, and all other necessary expenses, [fifty thousand dollars.] fifty-five thousand dollars (act Mar. 4, 1911, vol. 36, p. 1240, sec. 1).....	\$55,000.00	\$50,000.00
NOTE 1.—There is an increase in the above appropriation of \$5,000. Extensive experiments conducted by the bureau for several years have reached the point where it is necessary to incur some expense to exhibit the horses which have been produced at the Morgan horse farm at Middlebury, Vt., and at Fort Collins, Colo.; also the sheep herd at Laramie, Wyo. It is proposed to exhibit such animals at live stock fairs and expositions which large numbers of stock breeders and farmers attend in order to study the most desirable types of farm animals.

To investigate and encourage the adoption of improved methods of farm management and farm practice, [one hundred and forty-two thousand nine hundred and twenty dollars: <i>Provided, That of the amount hereby appropriated the sum of four thousand dollars shall be used in agricultural reconnaissance work in Alaska;</i>] <i>one hundred and eighty-six thousand and twenty dollars (same act)</i>	186,020.00	
For the study and demonstration of the best methods of meeting the ravages of the cotton boll weevil, [three hundred and fifty thousand dollars;] <i>three hundred and thirty-two thousand nine hundred and sixty dollars (same act)</i>	332,960.00	
For the investigation and improvement of methods of crop production under semiarid or dry-land conditions, seventy thousand dollars (same act).....	70,000.00	
For investigations in connection with the utilization of lands reclaimed under the reclamation act, and other areas in the arid and semiarid regions, [seventy-three thousand and sixty dollars;] <i>sixty-nine thousand six hundred dollars (same act)</i>	69,600.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>General Expenses, Bureau of Plant Industry—Continued.</i>		
For the investigation and improvement of fruits, and the methods of fruit growing, harvesting, packing, storing, handling, and shipping, and for experimental shipments of fruits within the United States and to foreign countries, [eighty-seven thousand seven hundred and thirty-five dollars;] <i>eighty-six thousand and fifteen dollars (act Mar. 4, 1911, vol. 36, pp. 1242-1243, sec. 1)</i>	\$86,015.00	
To cultivate and care for experimental gardens and grounds, manage and maintain conservatories, greenhouses, and plant and fruit propagating houses, [thirteen thousand eight hundred and sixty dollars;] <i>thirteen thousand and ten dollars (same act)</i>	13,010.00	
For continuing the necessary improvements to establish and maintain a general experiment farm and agricultural station on the Arlington estate, in the State of Virginia, in accordance with the provisions of the act of Congress approved April eighteenth, nineteen hundred, and for other general horticultural investigations, [thirty-eight thousand dollars;] <i>thirty-six thousand nine hundred and twenty dollars (same act)</i>	36,920.00	
[For the maintenance of a testing garden on the Fort Brown Military Reservation at Brownsville, Texas, eleven thousand two hundred and sixty dollars;]		
For general administrative expenses connected with the above-mentioned lines of investigation, including the office of the chief of bureau, the assistant chief of bureau, the chief clerk, the [editor,] <i>officer in charge of publications</i> , records, supplies, and property, and for miscellaneous expenses incident thereto, [thirty-eight thousand two hundred and fifty-one dollars;] <i>thirty-six thousand five hundred and thirty dollars (same act)</i>	36,530.00	
In all, for general expenses, [one million four hundred and forty-one thousand five hundred and thirty-six dollars.] <i>one million four hundred and thirty-eight thousand five hundred and ninety dollars</i>	\$1,438,590.00	\$1,441,536.00

NOTE 1.—There is an apparent decrease of \$2,946, but taking into consideration the transfer of 40 employees to the statutory roll, \$34,840; the transfer of the subappropriation for the South Texas Garden to the lump fund for foreign seeds, \$11,260; the transfer of the amounts paid for rent in the District of Columbia to a special appropriation for rent of buildings in the District of Columbia as requested by the Secretary of the Treasury, \$16,170, and the transfer of the amount now paid for fuel, gas, electric current, ice, and washing towels in the District of Columbia to the contingent fund, \$2,746, there is an actual increase of \$62,070. Of this sum \$50,000 is desired for enlarging and extending the farm management investigations, especially the demonstration phases of farm management, into the Northern States; \$7,070 is desired for the pathological laboratory for the purpose of enlarging the scope of the pathological investigations in a number of directions and for the securing and training of new pathologists, for which there is much need and demand in the bureau; and \$5,000 covers the transfer of the provision for chestnut tree bark diseases from the hack part of the bill to the item for forest pathology, as the work now conducted under the former is identical with that in a similar project under the latter, and, furthermore, the chestnut tree bark disease investigations are being directed by the pathologist in charge of forest pathology investigations. The following clause has been added to the introductory paragraph under general expenses: "for the erection of necessary farm buildings: *Provided*, That the cost of any building erected shall not exceed one thousand five hundred dollars; for field and station expenses, including fences, drains, and other farm improvements." The bureau has no definite authority at the present time to make such improvements in connection with its various field stations and experiment farms, which is seriously interfering with the proper carrying out of the investigations being conducted at such places. The transfer of funds appropriated for the South Texas Garden, \$11,260, to the lump fund for foreign seeds is recommended for the reason that the South Texas Garden is conducted under the direction of the office of foreign seed and plant introduction and stands on the same basis as the other introduction gardens conducted by that office. The proposed change is in the interest of good administration. Several small transfers of funds from one clause to another have also been recommended. These changes are necessary, owing to modifications made in the administration of the various lines of investigation since the passage of the last appropriation act.

NOTE 2.—Salaries of plant pathologists, physiologists, pomologists, hotanists, experts, special agents, student assistants, laborers, etc., carried on the lump funds named below on Aug. 1, 1911:

<i>Purchase and Distribution of Valuable Seeds—</i>		
<p>For purchase, propagation, testing, and distribution of valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants; all necessary office fixtures and supplies, fuel, transportation, paper, twine, gum, postal cards, gas, electric current, <i>rent outside of the District of Columbia</i>, official traveling expenses, and all necessary material and repairs for putting up and distributing the same; for [rent and] repairs and the employment of local and special agents, clerks, assistants, and other labor required, in the city of Washington and elsewhere, [two hundred and eighty-nine thousand six hundred and eighty dollars,] <i>two hundred and eighty-five thousand six hundred and eighty dollars</i>, of which amount not less than [two hundred and thirty-seven thousand one hundred and sixty dollars] <i>two hundred and twenty-six thousand nine hundred and forty dollars</i> shall be allotted for congressional distribution. And the Secretary of Agriculture is hereby directed to expend the said sum, as nearly as practicable, in the purchase, testing, and distribution of such valuable seeds, bulbs, shrubs, vines, cuttings, and plants, the best he can obtain at public or private sale, and such as shall be suitable for the respective localities to which the same are to be apportioned, and in which same are to be distributed as hereinafter stated, and such seeds so purchased shall include a variety of vegetable and flower seeds suitable for planting and culture in the various sections of the United States. An equal proportion of five-sixths of all seeds, bulbs, shrubs, vines, cuttings, and plants, shall, upon their request, after due notification by the Secretary of Agriculture that the allotment to their respective districts is ready for distribution, be supplied to Senators, Representatives, and Delegates to Congress for distribution among their constituents, or mailed by the department upon the receipt of their addressed franks, in packages of such weight as the Secretary of Agriculture and the Postmaster General may jointly determine: <i>Provided, however</i>, That upon each envelope or wrapper containing packages of seeds the contents thereof shall be plainly indicated, and the Secretary shall not distribute to any Senator, Representative, or Delegate seeds entirely unfit for the climate and locality he represents, but shall distribute the same so that each Member may have seeds of equal value, as near as may be, and the best adapted to the locality he represents: <i>Provided also</i>, That the seeds allotted to Senators and Representatives for distribution in the districts embraced within the twenty-fifth and thirty-fourth parallels of latitude shall be ready for delivery not later than the tenth day of January: <i>Provided also</i>, That any portion of the allotments to Senators, Representatives, and Delegates in Congress remaining uncalled for on the first day of April shall be distributed by the Secretary of Agriculture, giving preference to those persons whose names and addresses have been furnished by Senators and Representatives in Congress, and who have not before during the same season been supplied by the department: <i>And provided also</i>, That the Secretary shall report, as provided in this act, the place, quantity, and price of seeds purchased, and the date of purchase; but nothing in this paragraph shall be construed to prevent the Secretary of Agriculture from sending seeds to those who apply for the same. And the amount herein appropriated shall not be diverted or used for any other purpose but for the purchase, testing, propagation, and distribution of valuable seeds, bulbs, mulberry and other rare and valuable trees, shrubs, vines, cuttings, and plants: <i>Provided further</i>, That [fifty-two thousand five hundred and twenty dollars] <i>fifty-eight thousand seven hundred and forty dollars</i> of which sum, or so much thereof as the Secretary of Agriculture shall direct, may be used to collect, purchase, test, propagate, and distribute rare and valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants from foreign countries or from our possessions for experiments with reference to their introduction into and cultivation in this country, and same shall not be distributed generally, but shall be used for experimental tests, to be carried on with the cooperation of the agricultural experiment stations (act Mar. 4, 1911, vol. 36, pp. 1243-1244, sec. 1).....</p>	\$285, 680.00	\$289, 680.00
<p>NOTE 1.—There is an apparent decrease of \$4,000, but taking into consideration the transfer of 13 employees to the statutory roll, \$9,480; the transfer of the amount paid for rent in the District of Columbia to a special appropriation for rent of buildings in the District of Columbia as requested by the Secretary of the Treasury, \$5,160, and the transfer of the amount now paid for fuel, gas, electric current, ice, and washing towels to the contingent fund, \$620, there is an actual increase of \$11,260, being the amount for the South Texas Garden transferred from the lump fund for general expenses.</p>		
<p>NOTE 2.—Salaries of superintendents, agrostologists, experts, student assistants, agents, collaborators, etc., carried on the lump funds named below on Aug. 1, 1911:</p>

NOTE 1.—There is an apparent increase in the above appropriation of \$493,585; but adding the difference, \$3,000, between the transfers from the statutory roll to this appropriation and the transfers from this appropriation to the statutory roll, and \$25,075, transferred to a special appropriation for rent of buildings in the District of Columbia, as requested by the Secretary of the Treasury, aggregating \$33,075, and deducting \$500,000, formerly appearing as a separate appropriation for improvement of national forests, but included in these estimates as a subappropriation of this appropriation for general expenses, there is an actual increase of \$26,660, made up as follows:

INCREASES.	
Transfers to the statutory roll.....	\$11,000
Range investigations.....	6,760
Planting.....	20,000
Rent item transferred to special appropriation.....	25,075

	36,175
	26,660

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>General Expenses, Forest Service—Continued.</i>		
<p>The increase of \$6,760 under range investigations is for additional salaries and expenses in carrying on experiments and investigations of range conditions for the purpose of improving the range and increasing its carrying capacity. The increase of \$20,000 under planting is for extending the work of tree planting on the national forests. The decrease of \$14,500 under supplies is made for the reason that less equipment will be required during the fiscal year 1913 than during the current fiscal year 1912. The decrease of \$900 under products is a net decrease resulting from a number of increases and decreases in the detailed estimates for carrying on the various investigations to be undertaken during the fiscal year 1913. The decrease of \$800 under silvicultural investigations is a net decrease resulting from a number of increases and decreases in the detailed estimates of the cost of carrying on the various investigations to be undertaken during the fiscal year 1913. The decrease of \$2,400 under market and miscellaneous investigations is a net decrease in the cost of the investigations to be undertaken during the fiscal year 1913. The decrease of \$14,375 under miscellaneous expenses of national forests is due to changes in the conditions of local administration. The new appropriation for the Ruby National Forest, formerly a part of the Humboldt National Forest, is offset by a corresponding decrease in the appropriation for the Humboldt National Forest. The Santa Rosa National Forest was created after the appropriations for the fiscal year 1912 were made, and the increase for this forest for the fiscal year 1913 is offset by a corresponding decrease in the appropriations for the other forests. The provision made for the additional national forests to be created under section 11, of the act of Mar. 1, 1911, is also offset, in part, by decreases in the specific appropriations for the other forests.</p> <p>The provision which appeared in the 1912 act in regard to the refund of money paid in on account of trespass has been omitted, as it is permanent legislation.</p> <p>The phraseology of the subappropriation for tree planting and the reproduction of existing forests has been modified slightly, the new form broadening, to some extent, the scope of the experiments and investigations which may be prosecuted thereunder.</p> <p>The time for exportation of dead and insect-infested timber from the Black Hills National Forest has been changed from July 1, 1912, to July 1, 1914.</p>

[Improvement of the National Forests—]

For the construction and maintenance of roads, trails, bridges, fire lanes, telephone lines, cabins, fences, and other permanent improvements necessary for the proper and economical administration, protection, and development of the national forests, five hundred thousand dollars.]

\$500,000.00

NOTE.—The above appropriation has been transferred to general expenses without change of amount.

Not to exceed fifteen per centum of the total of all sums appropriated under "General expenses, Forest Service," [and under "Improvement of the national forests,"] may be used in the discretion of the Secretary of Agriculture as provided above under "General expenses, Forest Service," [and under "Improvement of the national forests,"] for all expenses necessary for the general administration of the Forest Service.

NOTE.—The following provision should be omitted, as it is permanent legislation:

[That the head of the department having jurisdiction over the lands be, and he hereby is, authorized and empowered, under general regulations to be fixed by him, to grant an easement for rights of way, for a period not exceeding 50 years from the date of the issuance of such grant, over, across, and upon the public lands, national forests, and reservations of the United States for electrical poles and lines for the transmission and distribution of electrical power, and for poles and lines for telephone and telegraph purposes, to the extent of 20 feet on each side of the center line of such electrical, telephone and telegraph lines and poles, to any citizen, association, or corporation of the United States, where it is intended by such to exercise the right of way herein granted for any one or more of the purposes herein named: *Provided*, That such right of way shall be allowed within or through any national park, national forest, military, Indian, or any other reservation only upon the approval of the chief officer of the department under whose supervision or control such reservation falls, and upon a finding by him that the same is not incompatible with the public interest: *Provided*, That all or any part of such right of way may be forfeited and annulled by declaration of the head of the department having jurisdiction over the lands for nonuse for a period of two years or for abandonment.

That any citizen, association, or corporation of the United States to whom there has heretofore been issued a permit for any of the purposes specified herein under any existing law, may obtain the benefit of this act upon the same terms and conditions as shall be required of citizens, associations, or corporations hereafter making application under the provisions of this statute.]

Six charwomen, at \$240 each (same acts).....	1,440.00	
	\$262,940.00	\$242,190.00
<p>NOTE.—There is an apparent increase in the above appropriation of \$20,750, of which sum \$1,560 covers the transfer of 1 skilled laborer, at \$810, from the lump fund for general expenses, and 1 laboratory helper, messenger, or laborer, at \$720, from the lump fund for food and drugs, which appropriations have been reduced accordingly. The actual increase is therefore \$19,190, as follows: Two executive clerks and 6 food and drug inspectors, at \$2,000 each, and 2 laboratory helpers, at \$1,200 each, aggregating \$18,400, have been added, and \$790 covers the promotion of 1 chief food and drug inspector from \$2,760 to \$3,250, and that of 1 skilled laborer from \$900 to \$1,200, increases of \$190 and \$300, respectively. The promotion of the chief food and drug inspector is believed to be justified by the qualifications and high ability demanded in the successful discharge of the duties of the office and the additional work imposed upon this official by increased appropriations during the past few years; the skilled laborer is expert in mechanical work with laboratory apparatus and fixtures. Several changes of title are also submitted.</p>		
General Expenses, Bureau of Chemistry—		
For necessary expenses in conducting the investigations contemplated by the act of May fifteenth, eighteen hundred and sixty-two, relating to the application of chemistry to agriculture in the most general and comprehensive sense of that word, and to continue collaboration with other departments of the Government desiring chemical investigations and whose heads request the Secretary of Agriculture for such assistance, and for other miscellaneous work, as follows:		
For chemical apparatus, chemicals and supplies, repairs to apparatus, gas, electric current, official traveling expenses, telegraph and telephone service, express and freight charges, [thirty-six thousand dollars:] <i>thirty-five thousand three hundred dollars</i> (R. S., p. 87, sec. 520; act Mar. 4, 1911, vol. 36, p. 1255, sec. 1).....	35,300.00	
For [rent and] the employment of such assistants, clerks, and other persons as the Secretary of Agriculture may consider necessary for the purposes named, in the city of Washington and elsewhere, in conducting investigations, collating and reporting the results of such investigations, and for the rent of buildings [in the city of Washington and elsewhere,] <i>outside of the District of Columbia, [seventy-one thousand two hundred dollars:] sixty-one thousand seven hundred dollars</i> (same acts).....	61,700.00	
For investigating the character of the chemical and physical tests which are applied to American food products in foreign countries, and for inspecting the same before shipment when desired by the shippers or owners of these products intended for countries where chemical and physical tests are required before the said products are allowed to be sold therein, and for all necessary expenses in connection with such inspection and studies of methods of analysis in foreign countries, four thousand two hundred and eighty dollars (same acts).....	4,280.00	
In all, for general expenses, [one hundred and eleven thousand four hundred and eighty dollars.] <i>one hundred and one thousand two hundred and eighty dollars</i>	101,280.00	111,480.00
<p>NOTE 1.—There is an apparent decrease in the above appropriation of \$10,200. Of this sum \$8,660 is for rent of buildings in the District of Columbia, which item has been dropped from this appropriation and transferred to a special appropriation for rent of buildings in the District of Columbia, as requested by the Secretary of the Treasury; \$700 covers the expense of gas in the District of Columbia, which has been transferred to the contingent fund, and \$840 covers the transfer of one skilled laborer to the statutory roll.</p>

\$650,000.00

\$610,110.00

NOTE 1.—There is an apparent increase in the above appropriation of \$39,890, but taking into consideration an item of \$8,660 for rent of buildings in the District of Columbia which has been dropped from this appropriation and transferred to a special appropriation for rent of buildings in the District of Columbia as requested by the Secretary of the Treasury, \$730 for expense of gas and electric current in the District of Columbia which has been transferred to the contingent fund, and the transfer of one skilled laborer at \$720 to the statutory roll, the actual increase in this case is \$50,000. This increase is necessary owing to the fact that in order to properly conduct the work incident to the food and drugs act it is necessary to increase the force of scientific employees, principally pharmaceutical chemists. In addition to this, a new food and drug inspection laboratory is now being installed at San Juan, Porto Rico; the necessity for new investigations arising must also be provided for. A proviso in regard to the purchase of the Marsh patent for detection of coloring matter in whiskey has been added at the request of the Attorney General.

S., p. 87, secs. 522, 523; act Mar. 4, 1911, vol. 36, pp. 1255-56, sec. 1)..... 1,400.00 One photographer or draftsman (in lieu of 1 photographer, at \$1,200, dropped, with increase of \$200) (same acts)..... 1,400.00 Three draftsmen, at \$1,200 each (same acts)..... 3,600.00 One draftsman (same acts)..... 1,000.00		
NOTE.—One photographer at \$1,200 dropped.		
One messenger (increase of \$120 submitted) (same acts)..... 840.00 One messenger, messenger boy, or laborer (same acts)..... 480.00 One messenger boy (increase of \$240 submitted) (same acts)..... 600.00 One laborer (same acts)..... 600.00 One laborer (same acts)..... 300.00 One charwoman or laborer (same acts)..... 480.00		
57,330.00	48,320.00	
NOTE.—An increase of \$9,010 is submitted. Of this sum \$1,600 covers the transfer of 1 soil cartographer from the lump fund for general expenses, which fund has been reduced accordingly; \$7,600 is to provide for 1 executive assistant, at \$2,000; 2 clerks of class 2; 1 soil cartographer, at \$1,600; and 1 photographer or draftsman, at \$1,400; and \$610 is to cover the promotions of the chief clerk from \$2,000 to \$2,250, 1 messenger from \$720 to \$840, and 1 messenger boy from \$360 to \$600, aggregating \$10,210. One photographer, at \$1,200, has also been dropped, making a net increase of \$9,010. In connection with the promotion of the chief clerk it seems proper to add that this official acts as chief of bureau in the absence of the chief, is a most capable and efficient officer, and has not received a promotion during the past 11 years, notwithstanding that the responsibilities of the position have increased largely during that time.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

<i>General Expenses, Bureau of Soils</i>		
[For all necessary expenses, including rent and the employment of investigators, local and special agents, assistants, and labor required in the city of Washington and elsewhere, official traveling expenses, materials, tools, instruments, and apparatus for carrying out the investigations and experiments herein authorized, as follows:]		
For all necessary expenses connected with the investigations and experiments hereinafter authorized, including the employment of investigators, local and special agents, assistants, experts, clerks, draftsmen, and labor in the city of Washington and elsewhere; official traveling expenses, materials, tools, instruments, apparatus, repairs to apparatus, chemicals, furniture, office fixtures, stationery, gas, electric current, telegraph and telephone service, express and freight charges, rent outside of the District of Columbia, and for all other necessary supplies and expenses, as follows:		
[For the investigation of the relation of soils to climate and organic life and of the texture and composition of soils in the field and laboratory, fifty-one thousand six hundred dollars;]		
For chemical investigations of soil types, soil composition and soil minerals, the soil solution, solubility of soil and all chemical properties of soils in their relation to soil formation, soil texture, and soil productivity, including all routine chemical work in connection with the soil survey, twenty-four thousand dollars (act Mar. 4, 1911, vol. 36, p. 1256, sec. 1)	\$24,000.00	
For physical investigations of the important properties of soil which determine productivity, such as moisture relations, aeration, heat conductivity, texture, and other physical investigations of the various soil classes and soil types, fifteen thousand dollars (same act)	15,000.00	
For soil fertility investigations into organic causes of infertility and remedial measures, maintenance of productivity, properties and composition of soil humus and the transformation and formation of soil humus by soil organisms, twenty-seven thousand two hundred dollars (same act)	27,200.00	
[For exploration and investigation within the United States to determine a possible source of supply of potash, nitrates, and other natural fertilizers, twelve thousand five hundred dollars, two thousand five hundred dollars of which shall be immediately available;]		
For fertilizer investigations into the natural and artificial sources of supply of fertilizer material and methods of handling fertilizers and farm manures, twenty-five thousand dollars (same act)	25,000.00	
For the investigation of the relation of soils to drainage and seepage waters, five thousand dollars (same act)	5,000.00	
[For the investigation of soils, and for indicating upon maps and plats, by coloring or otherwise, the results of such investigations, one hundred and forty-five thousand dollars: Provided, That not more than ten per centum of this sum shall be expended in any one State;]		
For the investigation of soils and for indicating upon maps and plats, by coloring or otherwise, the results of such investigations, one hundred and eighty-three thousand eight hundred and ninety dollars (same act)	183,890.00	
For general administrative expenses connected with the above-mentioned lines of investigation, [four thousand six hundred and forty dollars;] four thousand two hundred and eighty dollars (same act)	4,280.00	
In all, for general expenses, [two hundred and thirteen thousand seven hundred and forty dollars.] two hundred and eighty-four thousand three hundred and seventy dollars	\$284,370.00	\$213,740.00

NOTE 1.—When the wording of the appropriation bill was changed some three years ago several important provisions were omitted from the general expense paragraph. This paragraph has therefore been revised in the estimates submitted herewith and is recommended as a substitute for the present law.

The apparent increase in the above appropriation is \$70,630, but adding the saving in salary of one employee at \$1,800 transferred to the statutory roll and \$100 transferred to a special appropriation for rent in the District of Columbia as requested by the Secretary of the Treasury, the actual increase is \$72,790, as follows: \$5,865 for chemical investigations to provide for the increased amount of work made necessary by the growing demand on the bureau for knowledge as to chemical properties of soils; \$3,735 to provide for an increase in the amount of work on the physical properties of soils, and to provide for the more expeditious handling of the analyses of soil-survey parties in order to cut down as much as possible the time required to complete and publish the reports; \$5,000 for soil-fertility investigations, to provide particularly for the transformation and formation of humus by soil organisms; \$12,500 to provide for a vigorous investigation in the supply of natural and artificial fertilizer materials; \$5,000 for soil water and erosion investigation which was carried on for a number of years but which was omitted from the last appropriation act; and \$40,690 for soil-survey work, the demand for which is growing rapidly and comes from State legislatures who are appropriating or propose to appropriate money to cooperate with and support soil surveys through various State agencies, from Federal bureaus which require soil surveys as the basis for the best prosecution of their own projects, and from municipal organizations, boards of trade, and prominent citizens in different parts of the country, aggregating \$72,790. The provision under soil survey that not more than 10 per centum of the sum named shall be expended in any one State has been omitted.

The designation of 1 artist, at \$1,400, has been changed to 1 entomological draftsman, at \$1,400.		
<i>General Expenses, Bureau of Entomology—</i>		
For the promotion of economic entomology; for investigating the history and the habits of insects injurious and beneficial to agriculture, horticulture, and arboriculture, and ascertaining the best means of destroying those found to be injurious; for salaries and the employment of labor [and rent] in the city of Washington and elsewhere, <i>rent outside of the District of Columbia</i> , freight, express charges, official traveling expenses, office fixtures, supplies, apparatus, telegraph and telephone service, gas, and electric current, in connection with the following investigations:		
For investigations of insects affecting deciduous fruits, orchards, vineyards, nuts, and so forth, including investigations of the pear thrips, cranberry insects, and apple maggots, [thirty-nine thousand seven hundred dollars;] <i>forty thousand six hundred dollars</i> (act Mar. 4, 1911, vol. 36, pp. 1256-1257, sec. 1).....	40,600.00	
For investigations of insects affecting cereal and forage plants, fifty thousand dollars [ten thousand dollars of which sum shall be immediately available;] (same act).....	50,000.00

NOTE.—An apparent increase of \$1,100 is submitted as follows: One clerk of class 2 has been added and 1 clerk of class 1 dropped. One draftsman, at \$900, has been transferred from the lump fund for general expenses and that appropriation reduced accordingly. The actual increase is therefore \$200.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>General Expenses, Bureau of Biological Survey—</i>		
For salaries and employment of labor [and rent] in the city of Washington and elsewhere, furniture, supplies, <i>rent outside of the District of Columbia</i> , traveling and all other expenses necessary in conducting investigations and carrying out the work of the bureau, as follows:		
For the enforcement of sections two hundred and forty-one, two hundred and forty-two, two hundred and forty-three, and two hundred and forty-four of the act approved March fourth, nineteen hundred and nine, entitled "An act to codify, revise, and amend the penal laws of the United States," and for the enforcement of section one of the act approved May twenty-fifth, nineteen hundred, entitled "An act to enlarge the powers of the Department of Agriculture, prohibit the transportation by interstate commerce of game killed in violation of local laws, and for other purposes," twelve thousand dollars (acts Mar. 25, 1900, vol. 31, p. 187, secs. 1-5; Mar. 4, 1911, vol. 36, pp. 1263-1264, sec. 1)...	\$12,000.00	
For the maintenance of the Montana National Bison Range and other reservations for mammals and birds, and for the enforcement of section eighty-four of the act approved March fourth, nineteen hundred and nine, entitled "An act to codify, revise, and amend the penal laws of the United States," [fourteen thousand five hundred dollars] <i>twenty thousand dollars</i> , of which sum two thousand five hundred dollars shall be used for the purchase, capture, and transportation of game for national reservations (same acts).....	20,000.00	
[For the feeding, protecting, and removal of elk in the country known as Jackson's Hole and vicinity, in the State of Wyoming, twenty thousand dollars, to become immediately available, and remain available until expended:]		
For investigating the food habits of North American birds and mammals in relation to agriculture, horticulture, and forestry, including experiments and demonstrations in destroying noxious animals, [thirty-five thousand dollars:] <i>and for investigations and experiments in connection with rearing of fur bearing animals, forty-three thousand dollars, of which sum three thousand dollars shall be used for the destruction of ground squirrels on the national forests in California (same acts).</i>	43,000.00	
For biological investigations, including the relations, habits, geographic distribution, and migrations of animals and plants, and the preparation of maps of the life and crop zones, twenty thousand dollars (same acts).....	20,000.00	
For general administrative expenses connected with the above-mentioned lines of work, including cooperation with other Federal bureaus, departments, boards, and commissions on request from them, [fourteen thousand two hundred dollars:] <i>thirteen thousand three hundred dollars (same acts).</i>	13,300.00	
In all, for general expenses, [one hundred and fifteen thousand seven hundred dollars.] <i>one hundred and eight thousand three hundred dollars.</i>	\$108,300.00	\$115,700.00

NOTE 1.—There is an apparent decrease in the above appropriation of \$7,400, but adding the saving in salary of one draftsman at \$900 transferred to the statutory roll, and the omission of the provision for the feeding, protecting, and removal of elk in the country known as Jackson's Hole and vicinity, in the State of Wyoming, \$20,000, the actual increase is \$13,500, as follows: \$5,500 for the maintenance of the Montana national bison range, the Hawaiian bird reservation, salaries of wardens in the other bird reservations and other necessary expenses in connection with the care and patrolling of these reservations; \$3,000 for the suppression of ground squirrels on the national forests in California; \$2,000 for the destruction of noxious rodents in the national forests in connection with reforestation; \$2,000 for destroying prairie dogs in national forests and other public lands and for demonstrating methods for poisoning these animals on badly infested contiguous areas; and \$1,000 for investigating repressive measures in connection with damage by the crawfish to cotton and corn crops in the Southern States.

NOTE 2.—Salaries of assistant biologists, field naturalists, experts, game wardens, etc., carried on the lump funds named below on Aug. 1, 1911:

	104,620.00	97,520.00
--	------------	-----------

NOTE.—An apparent increase of \$7,100 is submitted, as follows: One accountant and bookkeeper, at \$2,000, 1 clerk of class 3, and 2 clerks of class 2 have been added, and the salary of the assistant chief of division has been increased from \$2,500 to \$3,000 and that of the custodian of records and files from \$1,200 to \$1,400, aggregating \$7,100. As the accountant and bookkeeper, at \$2,000, has been transferred from the statutory roll of the Secretary's office and that appropriation reduced accordingly, the actual increase is \$5,100. The increase of \$500 submitted in the salary of the assistant chief of division is merited, as this official is a most efficient employee, has charge of the accounts and disbursements at the Weather Bureau, and acts as chief of the Division of Accounts and Disbursements in the absence of the chief. He has not been promoted for some years.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>General Expenses, Division of Accounts and Disbursements—</i>		
For the temporary employment of assistants and labor in the city of Washington and elsewhere, official traveling expenses, office fixtures, furniture, supplies, adding machines, telegraph and telephone service, freight and express charges, and all other expenses, ten thousand dollars: <i>Provided, That hereafter employees of the Division of Accounts and Disbursements may be detailed by the Secretary of Agriculture for accounting and disbursing work in any of the bureaus and offices of the department for duty in or out of the city of Washington, and employees of the bureaus and offices of the department may also be detailed to the Division of Accounts and Disbursements for duty in or out of the city of Washington, traveling expenses of employees so detailed to be paid from the appropriation of the bureau or office in connection with which such travel is performed.</i>	\$10,000.00	
<p>NOTE.—This is a new item, apparently involving an increase of \$10,000, but in reality it is merely a transfer of this amount from the contingent fund of the department, which has been reduced accordingly. Heretofore all supplies, office fixtures, typewriters, adding machines, and miscellaneous materials for use of this division have been purchased from the contingent fund. This practice originated a number of years ago when the division was very small, but it is now believed to be good administration to have a specific appropriation for the purpose. A provision similar to that enacted last year in regard to library clerks in the department has also been added for the detail of clerks to and from the division for accounting and disbursing work. As all fiscal reports and financial statements desired annually by Congress are prepared in this division, it is absolutely necessary that such details be made from time to time. The provision will also permit of the elimination of the general language in the statutory roll of the division relative to details to the Forest Service, and enable the division to assist other bureaus and offices when necessary.</p>

LIBRARY, DEPARTMENT OF AGRICULTURE.		
<i>Salaries, Library, Department of Agriculture—</i>		
One librarian (increase of \$250 submitted) (R. S., p. 87, secs. 522, 523; act Mar. 4, 1911, vol. 36, pp. 1260-1261, sec. 1)..... \$2,250.00 One assistant librarian (submitted)..... 1,800.00 One clerk, class 3 (R. S., p. 87, secs. 522, 523; act Mar. 4, 1911, vol. 36, pp. 1260-1261, sec. 1)..... 1,600.00 One clerk, class 2 (same acts)..... 1,400.00 Two clerks, class 1, one of whom shall be a translator (same acts)..... 2,400.00 Five clerks, at \$1,000 each (same acts)..... 5,000.00 Four clerks, at \$900 each (same acts)..... 3,600.00 One clerk (same acts)..... 840.00 Two cataloguers, at \$1,200 each (same acts)..... 2,400.00 Three cataloguers, at \$1,000 each (same acts)..... 3,000.00 Two clerks or messengers, at \$720 each (change of title and increase of 1 by transfer from lump fund for general expenses) (same acts)..... 1,440.00		
NOTE.—One messenger at \$600 dropped.		
Three messengers, messenger boys, or laborers, at \$480 each (increase of 1 by transfer from lump fund for general expenses) (same acts)..... 1,440.00 One charwoman (same acts)..... 480.00		
	27,650.00	25,000.00
NOTE.—There is an apparent increase in the above appropriation of \$2,650, but as 1 clerk, at \$720, and 1 messenger, at \$480, have been added by transfer from the lump fund for general expenses and that appropriation reduced accordingly, the actual increase is \$1,440, as follows: The salary of the librarian has been increased \$250, 1 assistant librarian, at \$1,800, has been added, and 1 messenger, at \$600, has been dropped. The librarian is a most efficient officer, and the salary of the position has not been increased for a number of years, although the work of the library has increased greatly during that time. This will make the salary more nearly conform to the salaries of librarians in other departments.		
<i>General Expenses, Library—</i>		
For books of reference, technical and scientific books, papers and periodicals, and for expenses incurred in completing imperfect series; for [rent and] the employment of additional assistants in the city of Washington and elsewhere; for official traveling expenses, and for library fixtures, library cards, supplies, and other material, fifteen thousand five hundred dollars. [Provided, That hereafter employees of the library may be temporarily detailed by the Secretary of Agriculture for library service in the bureaus and offices of the department, and employees of the bureaus and offices of the department engaged in library work may also be temporarily detailed to the library.] (act Mar. 4, 1911, vol. 36, p. 1261, sec. 1).....	15,500.00	15,500.00
NOTE 1.—There is no apparent increase in the above appropriation, but adding the saving in salaries of one clerk at \$720 and one messenger at \$480, transferred to the statutory roll, the actual increase is \$1,200, which is submitted for the purpose of keeping pace with the growth and work of the department and for more adequately meeting the increasing demands that are being made upon the library year by year. The provision in regard to detail of clerks has been omitted, as it is permanent legislation.

CONTINGENT EXPENSES.

Contingent Expenses, Department of Agriculture—

For stationery, blank books, twine, paper, gum, dry goods, soap, brushes, brooms, mats, oils, paints, glass, lumber, hardware, ice, fuel, water and gas pipes, heating apparatus, furniture, carpets, and matting; for lights, freight, express charges, advertising, telegraphing, telephoning, postage, washing towels, and necessary repairs and improvements to buildings, grounds, and heating apparatus; [for rent in the District of Columbia;] for the purchase, subsistence, and care of horses and the purchase and repair of harness and vehicles, for official purposes only; for the payment of duties on imported articles, and the Department of Agriculture's proportionate share of the expense of the dispatch agent in New York; for official traveling expenses; and for other miscellaneous supplies and expenses not otherwise provided for, and necessary for the practical and efficient work of the department, [one hundred and ten thousand dollars.] ninety-six thousand and sixty-six dollars: *Provided, That hereafter the Secretary of Agriculture may purchase stationery, supplies, furniture, and miscellaneous materials from this appropriation and transfer the same at actual cost to the various bureaus, divisions, and offices of the Department of Agriculture in the city of Washington, reimbursement therefor to be made to this appropriation by said bureaus, divisions, and offices from their lump fund appropriations by transfer settlements through the Treasury Department: Provided further, That the Secretary of Agriculture may hereafter exchange typewriters and computing, addressing, and duplicating machines purchased from any lump fund appropriation of the Department of Agriculture (act Mar. 4, 1911, vol. 36, p. 1261, sec. 1)*.....

\$96,066.00 \$110,000.00

NOTE.—There is an apparent decrease in the above appropriation of \$13,934, but, taking into consideration the sum of \$3,046 transferred from the various bureaus and offices covering the amounts now paid by them for fuel, gas, electric current, ice, and washing towels, the actual decrease is \$19,980. Of this sum \$10,000 has been transferred to the Division of Accounts and Disbursements for the miscellaneous expenses of that division and is the exact amount that has been heretofore paid from this appropriation for that purpose, the transfer being made to attach these expenses to the division to which they properly belong, and \$9,980 is to cover the amount now paid for rent in the District of Columbia out of this appropriation and which has been transferred to a special appropriation for rent of buildings in the District of Columbia as requested by the Secretary of the Treasury. A provision has also been added to enable the Secretary of Agriculture to purchase stationery, supplies, and other miscellaneous materials from this appropriation and transfer the same at actual cost to the various bureaus and offices of the department, reimbursement therefor to be made to this appropriation by the said bureaus and offices from their lump-fund appropriations by transfer settlement through the Treasury Department. The practice of purchasing supplies in this way and transferring them to the various bureaus and offices was in vogue in this department for a number of years, but recently the Comptroller of the Treasury decided that in the absence of specific law such procedure was improper and suggested that it be discontinued. The provision in question will give the department the necessary authority to continue the practice, which was found exceedingly expeditious and economical, saving time and labor and obviating the necessity of handling countless small requisitions for supplies and auditing an equally large number of accounts covering such transactions. Certainly a private corporation would purchase its supplies in large quantity and have one general storeroom from which to distribute them to its various offices and branches. A provision has also been added authorizing the department to exchange typewriters and duplicating machines, and is submitted in the interest of economy. A similar provision will now be found in most of the contingent appropriations of the executive departments of the Government. The amounts transferred from the various bureaus for fuel, gas, electric current, ice, and washing towels are as follows:

Bureau of Animal Industry.....	\$1,250
Bureau of Plant Industry.....	3,366
Bureau of Chemistry.....	1,430

RENT IN THE DISTRICT OF COLUMBIA.

Rent of Buildings, Department of Agriculture—

For rent of buildings and parts of buildings in the District of Columbia for use of the various bureaus, divisions, and offices of the Department of Agriculture, namely:

<i>For Bureau of Animal Industry.....</i>	<i>\$3,084.00</i>
<i>For Bureau of Plant Industry.....</i>	<i>23,830.00</i>
<i>For Forest Service.....</i>	<i>25,075.00</i>
<i>For Bureau of Chemistry.....</i>	<i>17,320.00</i>
<i>For Bureau of Soils.....</i>	<i>360.00</i>
<i>For Division of Publications.....</i>	<i>5,000.00</i>
<i>For Office of Solicitor.....</i>	<i>2,160.00</i>
<i>For Office of Experiment Stations.....</i>	<i>5,000.00</i>
<i>For Office of Public Roads.....</i>	<i>3,500.00</i>
<i>For additional rent in cases of emergency for any bureau, division, or office of the department....</i>	<i>10,000.00</i>

95,329.00

NOTE 1.—This is a new item, apparently involving an increase of \$95,329, but in reality the actual increase is only \$4,680. Under instructions from the Secretary of the Treasury, the amounts now paid for rent of buildings in the District of Columbia under the various lump-fund appropriations made for the several bureaus, divisions, and offices of the department have been transferred to this special appropriation for rent of buildings in the District of Columbia and the lump fund appropriations of the various bureaus, divisions, and offices reduced accordingly, with the exception of \$4,680, which is submitted to cover additional emergency rentals. The above amounts also cover the rental of a modern office building for use of the Office of Experiment Stations and part of the force of the Bureau of Plant Industry, at an apparent annual rental of \$20,000. The rental of such a building was absolutely necessary to provide for the working force of the two bureaus named and has enabled the department to vacate 9 small buildings which were a menace to life by possible danger from fire, the rental of which amounted to \$6,040, so that the net annual rental of the office building referred to is \$13,960. The rental for the present fiscal year is being paid from the lump-fund appropriations of the two bureaus named. Additional space occupied elsewhere by the department was also thus made available for expansion of other portions of its work and has obviated the necessity of rental of additional buildings to provide for the same.

The amounts transferred from the various bureaus, divisions, and offices are as follows:

Bureau of Animal Industry.....	\$3,084
Bureau of Plant Industry.....	21,330
Forest Service.....	25,075
Bureau of Chemistry.....	17,320

NOTE.—An increase of \$3,340 is submitted, as follows: One clerk, at \$1,600, has been transferred from the lump fund for drainage and that appropriation reduced accordingly; 1 executive clerk, at \$1,600, and 1 skilled laborer, at \$900, have been added; the salary of 1 clerk, at \$1,400, has been increased to \$1,600 and the salaries of 8 clerks, at \$840, have been increased to \$900, aggregating \$4,780; and 1 clerk or messenger, at \$720, and 1 copyist or laborer, at \$720, have been dropped, making a net increase of \$3,340.		
<i>General Expenses, Office of Experiment Stations—</i>		
To carry into effect the provisions of an act approved March second, eighteen hundred and eighty-seven, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several States under the provision of an act approved July second, eighteen hundred and sixty-two, and of the acts supplementary thereto," the sums apportioned to the several States and Territories to be paid quarterly in advance, seven hundred and twenty thousand dollars;		
To carry into effect the provisions of an act approved March sixteenth, nineteen hundred and six, entitled "An act to provide for an increased annual appropriation for agricultural experiment stations and regulating the expenditure thereof," the sums apportioned to the several States and Territories to be paid quarterly in advance, seven hundred and twenty thousand dollars: <i>Provided</i> , That not to exceed fifteen thousand dollars shall be paid to each State and Territory under this act;		
To enable the Secretary of Agriculture to enforce the provisions of the above acts, relative to their administration, including [rent and] the employment of clerks, assistants, and other persons in the city of Washington and elsewhere, freight and express charges, official traveling expenses, office fixtures, supplies, apparatus, telegraph and telephone service, gas, [and] electric current, and rent outside of the District of Columbia, [thirty-seven thousand five hundred dollars:] thirty-eight thousand four hundred dollars; and the Secretary of Agriculture shall prescribe the form of the annual financial statement required under the above acts, ascertain whether the expenditures are in accordance with their provisions, and make report thereon to Congress;		
To enable the Secretary of Agriculture to establish and maintain agricultural experiment stations in Alaska, Hawaii, Porto Rico, [and] the island of Guam, and the island of Tutuila, including the erection of buildings, the preparation, illustration, and distribution of reports and bulletins, and all other necessary expenses, [one hundred and five thousand dollars,] one hundred and ten thousand dollars, as follows: Alaska, thirty thousand dollars; Hawaii,

thirty thousand dollars; Porto Rico, thirty thousand dollars; [and] Guam, fifteen thousand dollars, and the island of Tutuila, five thousand dollars; and the Secretary of Agriculture is authorized to sell such products as are obtained on the land belonging to the agricultural experiment stations in Alaska, Hawaii, Porto Rico, [and] the island of Guam, and the island of Tutuila, and to apply the money received from the sale of such products to the maintenance of said stations, and this fund shall be available until used;		
To enable the Secretary of Agriculture to investigate and report upon the organization and progress of farmers' institutes and agricultural schools in the several States and Territories, and upon similar organizations in foreign countries, with special suggestions of plans and methods for making such organizations more effective for the dissemination of the results of the work of the Department of Agriculture and the agricultural experiment stations, and of improved methods of agricultural practice, including [rent and] the employment of labor in the city of Washington and elsewhere, rent outside of the District of Columbia, and all other necessary expenses, [ten thousand dollars;] fifteen thousand seven hundred and sixty dollars;		
In all, for general expenses, [one million five hundred and ninety-two thousand five hundred dollars.] one million six hundred and four thousand one hundred and sixty dollars (acts July 2, 1862, vol. 12, p. 503, sec. 1; Mar. 2, 1887, vol. 24, p. 440, secs. 1-10; June 7, 1888, vol. 25, p. 176, sec. 1; July 18, 1888, vol. 25, p. 534, sec. 1; Mar. 16, 1906, vol. 34, p. 63, secs. 2-3; Mar. 4, 1911, vol. 36, pp. 1261-1262, sec. 1).....	\$1, 604, 160. 00	\$1, 592, 500. 00
NOTE 1.—There is an apparent increase in the above appropriation of \$11,660, but taking into consideration an item of \$1,600 for rent in the District of Columbia which has been transferred to a special appropriation for rent of buildings in the District of Columbia as requested by the Secretary of the Treasury, the actual increase is \$13,260. Of this sum \$2,500 is to meet additional expenses for the administration of the State experiment stations, \$5,000 for the establishment of an agricultural experiment station on the island of Tutuila, and \$5,760 to enable the Department to more fully meet demands from the States and Territories for advice and assistance in organizing agencies for the effective dissemination of information regarding improved methods of agricultural practice among the masses of men, women, and children on the farms with a view of increasing the production of foodstuffs and other agricultural products.

\$37,940.00		\$34,020.00
NOTE.—There is an apparent increase in the above appropriation of \$3,920, of which sum \$1,260 covers the transfer of 1 clerk from the lump fund for general expenses. The actual increase is therefore \$2,660, as follows: One clerk or instrument maker, at \$1,440, has been added and the salary of the chief clerk has been increased \$200, from \$1,800 to \$2,000. In addition, 1 clerk of class 3 is submitted in lieu of 1 clerk of class 2, 1 clerk at \$1,380 in lieu of 1 clerk at \$1,260, 1 clerk at \$1,380 and 2 clerks at \$1,320 in lieu of 3 clerks of class 1, 1 clerk at \$1,140 in lieu of 1 clerk at \$1,020, and 2 clerks at \$1,080 in lieu of 2 clerks at \$1,000, these changes involving an aggregate increase of \$1,020. The title of 1 instrument maker has been changed to that of clerk or instrument maker.		
The designation of the Office of Public Roads has been changed to Bureau of Public Roads.		
General Expenses, [Office] Bureau of Public Roads—		
For salaries, and the employment of labor [and rent] in the city of Washington and elsewhere, supplies, office fixtures, apparatus, rent outside of the District of Columbia, traveling and all other necessary expenses for conducting investigations and experiments, and for collating, reporting, and illustrating the results of same, and for preparing, publishing, and distributing bulletins and reports as follows: <i>Provided</i> , That no part of these appropriations shall be expended for the rent or purchase of road-making machinery, except such as may be necessary for field experimental work as hereinafter provided for:		
For inquiries in regard to systems of road management throughout the United States and for giving expert advice on this subject, [twenty thousand dollars;] <i>twenty-eight thousand eight hundred and thirty-six dollars</i> (act Mar. 4, 1911, vol. 36, pp. 1263-1264, sec. 1).....	28,836.00	
For investigations of the best methods of road making and the best kinds of road-making materials, and for furnishing expert advice on road building and maintenance, [sixty thousand dollars;] <i>ninety thousand one hundred and sixty dollars</i> (same act).....	90,160.00	
For investigations of the chemical and physical character of road materials, [twenty-five thousand dollars;] <i>thirty thousand three hundred and sixty dollars</i> (same act).....	30,360.00	
For conducting field experiments and various methods of road construction and maintenance, and investigations concerning various road materials and preparations; for investigating and developing equipment intended for the preparation and application of bituminous and other binders; for investigating the effect of motor traffic on roads; for the purchase of materials and equipment; for the employment of assistants and labor; for rent outside of the District of Columbia; for the [rental and] erection of buildings; such experimental work to be confined as nearly as possible to one point during the fiscal year, [ten thousand dollars;] <i>thirty thousand dollars</i> (same act).....	30,000.00	
For general administrative expenses connected with the above-mentioned lines of investigations and experiments, [eleven thousand seven hundred dollars;] <i>ten thousand one hundred dollars</i> (same act).....	10,100.00	
In all, for general expenses, [one hundred and twenty-six thousand seven hundred dollars.] <i>one hundred and eighty-nine thousand four hundred and fifty-six dollars</i>	189,456.00	126,700.00
NOTE 1.—There is an apparent increase in the above appropriation of \$62,756, but, taking into consideration an item of \$3,500 for rent of buildings in the District of Columbia, which has been dropped from this appropriation and transferred to a special appropriation for rent of buildings in the District of Columbia, as requested by the Secretary of the Treasury, and the transfer of one clerk, at \$1,260, to the statutory roll, the actual increase is \$67,516, as follows: \$8,836 has been added for inquiries in regard to systems of road management, as the demands upon this branch of the work have increased so rapidly that additional employees are absolutely necessary; \$30,160 to provide for additional employees to give expert advice on road construction and maintenance in connection with investigations of the best methods of road making; \$6,620 for investigations of the chemical and physical character of road materials, as the changed conditions brought about by motor traffic, the great demand for better roads, and the increasing need for careful investigation of the value of bituminous and other road binders and dust preventives have greatly increased the demands for investigations and expert advice; and \$23,500 for conducting field experiments for the purpose of continuing the making of road tests of various materials and methods of construction and in order to make comparative tests of and to develop road equipment. This practical experimental work is of the greatest importance in studying and investigating the relative merits of different types of road construction, particularly the types calculated to eliminate the dust nuisance and to produce a dustless road. It is extremely desirable to exercise some sort of control or supervision over the roads subsequent to the experiments that are made, in order, by continuous observations, to estimate properly the value and cost of such experiments. The amount estimated for administrative expenses has been decreased \$1,600.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>General Expenses, [Office] Bureau of Public Roads—Continued.</i>		
And not to exceed ten per centum of the foregoing amounts for the miscellaneous expenses of the work of any bureau, division, or office herein provided for shall be available interchangeably for expenditure on the objects included within the general expenses of such bureau, division, or office, but no more than ten per centum shall be added to any one item of appropriation except in cases of extraordinary emergency, and then only upon the written order of the Secretary of Agriculture.		
Total, Department of Agriculture, for routine and ordinary work.....	\$16, 133, 452. 00	\$15, 808, 016. 00
MISCELLANEOUS.		
And the Secretary of Agriculture is hereby authorized to continue investigations on the cost of food supplies at the farm and to the consumer, and to disseminate the results of such investigations in whatever manner he may deem best.		
<i>Enforcement of the Insecticide Act—</i>		
To enable the Secretary of Agriculture to carry into effect the provisions of the act of April twenty-sixth, nineteen hundred and ten, entitled "An act for preventing the manufacture, sale, or transportation of adulterated or misbranded Paris greens, lead arsenates, and other insecticides, and also fungicides and for regulating traffic therein, and for other purposes," in the city of Washington and elsewhere, including chemical apparatus, chemicals, and supplies, repairs to apparatus, [rent,] gas, electric current, official traveling expenses, telegraph and telephone service, express and freight charges, and all other expenses, employing such assistants, clerks, and other persons as may be considered necessary for the purposes named, and also rent outside of the District of Columbia, [eighty-seven thousand dollars:] one hundred thousand dollars (acts Apr. 26, 1910, vol. 36, pp. 331-335, secs. 1-14; Mar. 4, 1911, vol. 36, p. 1264, sec. 1)	100, 000. 00	87, 000. 00
NOTE 1.—There is an increase of \$13,000 in the above appropriation. From the work already done in the enforcement of the insecticide act it is evident that the present appropriation will not be sufficient properly to extend the work and enforce the provisions of the law in all sections of the country and extend its application to various insecticides and fungicides which have been only touched upon up to the present time.

NOTE.—The above appropriation has been transferred to the Bureau of Plant Industry under the head of forest pathology.		
[That the provisions of the act entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June thirtieth, nineteen hundred and eight," requiring the Secretary of Agriculture to submit to Congress classified and detailed reports of receipts and classified and detailed estimates and reports of expenditures by the Forest Service, and classified and detailed estimates and reports of every subject of expenditure by the Agricultural Department; statements showing all appointments, promotions, or other changes made in the salaries paid from lump funds, are hereby repealed.]		
[That the Secretary of Agriculture shall prepare or cause to be prepared a statement showing all expenditures made each fiscal year by, through, or on account of the Forest Service from the year nineteen hundred to the year nineteen hundred and ten, both inclusive, stated as follows:		
For permanent forest improvements in each State and Territory; for salaries and other compensation of inspectors, forest supervisors, forest rangers, deputy forest rangers, assistant forest rangers, stating the number of each class; for part time force to meet emergencies in extinguishing forest fires; for railroad fares, automobile hire, carriage and horse hire; for hotel bills; for freight and express; for telephone and telegraph; for statutory and lump fund salaries of officers and clerks and the number thereof in the city of Washington, and all other expenditures made for the conduct of the bureau in

The work of auditing these accounts is also very great, as there are more technicalities surrounding the statement of travel accounts than any other class. It is thought that when per diem allowance is made in lieu of subsistence and other traveling expenses, except transportation, it will result in economy to the Government in the matter of labor saved in the preparation and audit of such accounts, and the actual cost to the Government for traveling expenses will be no greater than at present, provided the authority to fix the amount to be allowed in each case is vested in the Secretary of Agriculture.</p> <p><i>And hereafter officials and employees of the Department of Agriculture, either on lump fund or statutory rolls, may, when authorized by the Secretary of Agriculture, receive reimbursement for moneys expended for street car fares at their official headquarters when expended in the transaction of official business.</i></p> <p>NOTE.—It is frequently necessary for officials and employees of the department, serving under an appointment or employment at a fixed compensation, to use street cars at their official headquarters in the performance of official duties requiring expedition and personal attendance. The Secretary of Agriculture is without authority to reimburse such officials and employees for actual expenses incurred in such travel, which in some instances are from 50 cents to \$1 per day, and the distance covered being too great to admit of walking. The above provision is submitted, therefore, as it is deemed proper that reimbursement should be made for such expenditures.</p> <p>NOTE.—The estimate of the Secretary of Agriculture for "printing and binding," under section 2, act of May 8, 1872 (Rev. Stat., 720, sec. 3661), will be found under the title of "Miscellaneous," post.</p> <p>For statement of condition of work, efficiency of employees, etc., see Appendix B.</p>

ESTIMATES OF APPROPRIATIONS REQUIRED FOR THE SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1913.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
UNDER THE WAR DEPARTMENT.		
SECRETARY OF WAR.		
<i>Contingencies of the Army—</i>		
For all contingent expenses of the Army not otherwise provided for, and embracing all branches of the military service, including the office of the Chief of Staff, to be expended under the immediate orders of the Secretary of War (act Mar. 3, 1911, vol. 36, p. 1037, sec. 1).....	\$40,000.00	\$40,000.00
OFFICE OF THE CHIEF OF STAFF.		
<i>Army War College—</i>		
For expenses of the Army War College, being for the purchase of the necessary stationery, typewriters and exchange of same, office, toilet, and desk furniture, textbooks, books of reference, scientific and professional papers and periodicals, printing and binding, maps, police utensils, employment of temporary, technical, or special services, and for all other absolutely necessary expenses, including twenty-five dollars per month additional to regular compensation to chief clerk of division for superintendence of the War College Building, nine thousand dollars (act Mar. 3, 1911, vol. 36, p. 1037, sec. 1).....	9,000.00	10,000.00
<i>Contingencies, Military Information Section, General Staff Corps—</i>		
For contingent expenses of the military information section, General Staff Corps, including the purchase of law books, professional books of reference, professional and technical periodicals and newspapers, and of the military attachés at the United States embassies and legations abroad; and of the branch office of the military information section at Manila, to be expended under the direction of the Secretary of War, ten thousand dollars: <i>Provided</i> , That section thirty-six hundred and forty-eight, Revised Statutes, shall not apply to subscriptions for foreign and professional newspapers and periodicals to be paid for from this appropriation (act Mar. 3, 1911, vol. 36, p. 1037, sec. 1).....	10,000.00	10,000.00
NOTE.—The words, under estimate for Army War College, "typewriters and exchange of same," have been added to enable the office to exchange the old and worn-out typewriters for new machines. This is now authorized in the appropriations made for executive departments, but does not cover this appropriation. Aug. 30, 1911.— <i>Leonard Wood, Major General, Chief of Staff.</i>		
<i>United States Service Schools—</i>		
To provide means for the theoretical and practical instruction at the Staff College (including the Army School of the Line, Army Field Engineer School, and the Army Signal School) at Fort Leavenworth, Kansas, the Mounted Service School at Fort Riley, Kansas, and the School of Fire for Field Artillery at Fort Sill, Oklahoma, by the purchase of textbooks, books of reference, scientific and professional papers, the purchase of modern instruments and material for theoretical and practical instruction, and for all other absolutely necessary expenses, to be allotted in such proportions as may, in the opinion of the Secretary of War, be for the best interests of the military service (act Mar. 3, 1911, vol. 36, p. 1037, sec. 1).....	30,000.00	25,000.00
NOTE.—An increase of \$5,000 is asked for to cover partly the equipment required for the School of Fire for Field Artillery which has been established during the past year at Fort Sill, Okla., for the purpose of giving practical instruction to officers of this highly important arm of the service. This small amount is absolutely necessary, and is far below the estimate submitted to the department as being required for equipping the school with the necessary instruments and materials for instruction purposes.— <i>Leonard Wood, Major General, Chief of Staff.</i>		
THE ADJUTANT GENERAL'S DEPARTMENT.		
<i>Contingencies, Headquarters of Military Divisions and Departments—</i>		
For contingent expenses at the headquarters of the several military divisions and departments, including the staff corps serving thereat, being for the purchase of the necessary articles of office, toilet, and desk furniture, binding, maps, technical books of reference, professional and technical newspapers and periodicals, and police utensils, to be allotted by the Secretary of War, and to be expended in the discretion of the several military division and department commanders (act Mar. 3, 1911, vol. 36, p. 1037, sec. 1).....	7,500.00	7,500.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay, etc., of the Army—Continued.</i> <i>Pay of officers of the line—Continued.</i>		
For additional pay to officers for length of service to be paid with their current monthly pay (R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1039).....	\$1,767,120.00	
NOTE.—The number and grades of officers authorized by law in the several branches of the line of the Army are provided for in this estimate. The rate of pay computed as provided by act of May 11, 1908, and the additional pay for length of service are based upon the longevity record of the officers as shown by the official Army Register.		
The authorized number of second lieutenants of the line is 963, but it is estimated that the original vacancies to the number of 242 created by the promotions incident to the increase of officers of higher grade by the act of Mar. 3, 1911, will not be filled in excess of 150 during the fiscal year 1913. Therefore, the estimate is submitted for 871 second lieutenants of the line, instead of 963, the authorized number.—C. H. Whipple, Paymaster General, United States Army.

		\$16,232,954.00
		1,635,000.00

NOTE.—The estimate of \$17,157,954, for pay of enlisted men of the line, is based upon the number authorized by law as announced in general orders of the War Department and as provided for in letter of the Chief of Staff, dated Aug. 24, 1911, and the pay computed as per rates established by act of Congress, dated May 11, 1908.

The estimate of \$1,710,000, for additional pay for length of service, is based upon the actual disbursements for the same purpose for the first six months of the fiscal year 1910.

The gross amount of the items for pay and additional pay for length of service of enlisted men of the line has been reduced \$1,000,000 by direction of the Secretary of War, the amount being deducted from each item in proper proportion.—C. H. Whipple, Paymaster General, United States Army.

NOTE.—The estimate for \$17,157,954, for pay of enlisted men of the line, is based upon the number and grades of men which will obtain for the fiscal year 1913, as communicated to the Paymaster General by the Chief of Staff on Aug. 24, 1911.

The number and grades of enlisted men of the line, with a total of 72,567, is shown in the table of the authorized strength (see Appendix E) and their payment will require the amount herein estimated.

The estimate for additional pay for length of service is based upon the expenditures for like purpose for the fiscal year 1911, which shows necessity for the amount estimated.—C. H. Whipple, Paymaster General, United States Army.

NOTE.—The Acting Chief of Staff, in response to inquiry from this office touching the estimate to be submitted for clerks, messengers, etc., submits the following letter:		
"The PAYMASTER GENERAL, UNITED STATES ARMY,		
Washington, D. C.		
"SIR: Referring to your letter of July 24, requesting data relative to the pay of clerks, messengers, and laborers, Office of the Chief of Staff, and clerks and messengers at the headquarters of divisions and departments and at the service schools for the fiscal year 1913, I have the honor to inform you that the same estimate should be submitted this year as last, with the exception that 1 clerk, at \$720; 2 clerks, at \$900; and 13 clerks, at \$1,000; 2 messengers, at \$600; and 3 messengers, at \$720, should not be estimated for.		
"Very respectfully,		
(Signed)		
ARTHUR MURRAY,		
"Major General, General Staff, Acting Chief of Staff."		
The estimate submitted contains the changes recommended by the Acting Chief of Staff and is computed upon the rate of pay authorized by law.—C. H. Whipple, Paymaster General, United States Army.

Forty-three first lieutenants, at \$2,000 each per annum (same acts).....	86,000.00	
Forty-three second lieutenants, at \$1,700 each per annum (acts Apr. 23, 1904, vol. 33, p. 26, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041)....	73,100.00	
	460,300.00	
Additional pay to such officers for length of service, to be paid with their current monthly pay (R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	110,000.00	
NOTE.—The estimate for pay of the Corps of Engineers is based upon the number and rank as authorized by law and computed at the rate established by act of May 11, 1908. The estimate for additional pay for length of service is based upon the longevity record of the officers as shown by the Official Army Register. No increase is provided for pay of officers of the Corps of Engineers to meet the increase in the number of officers of said corps, authorized by the act of February 27, 1911, for the reason that under said act the pay of the additional officers is to be met from the appropriation for river and harbor improvements.—C. H. Whipple, Paymaster General, United States Army.		
Ordnance Department:		
One brigadier general, at \$6,000 per annum (acts June 25, 1906, vol. 34, p. 455, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	6,000.00

NOTE.—The estimate for pay of officers of the Ordnance Department is based upon the number and rank as authorized by law, and the estimate for additional pay for length of service is computed upon the longevity record of the officers as shown by the Official Army Register.—C. H. Whipple, Paymaster General, United States Army.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay, etc., of the Army—Continued.</i> Pay of officers of the staff corps and staff departments—Continued.		
Quartermaster's Department:		
One brigadier general, at \$6,000 per annum (acts Feb. 2, 1901, vol. 31, p. 751, sec. 16; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	\$6,000.00	
Eight colonels, at \$4,000 each per annum (same acts).....	32,000.00	
Twelve lieutenant colonels, at \$3,500 each per annum (same acts).....	42,000.00	
Twenty-seven majors, at \$3,000 each per annum (same acts).....	81,000.00	
Seventy-eight captains, at \$2,400 each per annum (same acts).....	187,200.00	
	\$348,200.00	
For additional pay to such officers for length of service, to be paid with their current monthly pay (same acts).....	86,340.00	
NOTE.—The estimate for pay of officers of the Quartermaster's Department is based upon the number and rank as authorized by law, and the estimate for additional pay for length of service is computed upon the longevity record of the officers as shown by the Official Army Register. The increase in the amount of estimate for 1913 is occasioned by the act of Congress approved March 3, 1911 (Stat., 36, p. 1045), providing for an increase of 30 officers of various grades for this department.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
Subsistence Department:		
One brigadier general, at \$6,000 per annum (acts Feb. 2, 1901, vol. 31, p. 752, sec. 17; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	6,000.00	
Three colonels, at \$4,000 each per annum (acts Feb. 2, 1901, vol. 31, p. 751, sec. 16; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	12,000.00	
Four lieutenant colonels, at \$3,500 each per annum (same acts).....	14,000.00	
Nine majors, at \$3,000 each per annum (same acts).....	27,000.00	
Twenty-seven captains, at \$2,400 each per annum (same acts).....	64,800.00	
	123,800.00	
For additional pay to such officers for length of service, to be paid with their current monthly pay (same acts).....	34,480.00	
Provided, That so much of section twelve hundred and sixty-one of the Revised Statutes as pertains to additional pay of acting commissaries be, and the same is hereby, repealed.		
NOTE.—The estimate for pay of officers of the Subsistence Department is based upon the number and rank as authorized by law and the estimate for additional pay for length of service is computed upon the longevity record of the officers as shown by the Official Army Register. The reduction in the amount estimated for 1913 is due to the insertion of the provision for a repeal of so much of section 1261, Revised Statutes, as pertains to additional pay for acting commissaries of subsistence, for which there was appropriated for the fiscal year 1912 \$25,000, being pay of 100 acting commissaries at \$100 each per annum.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
Medical Department:		
One brigadier general, at \$6,000 per annum (acts Apr. 23, 1908, vol. 35, p. 66, sec. 2; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	6,000.00	
Fifteen colonels, at \$4,000 each per annum (acts Mar. 3, 1903, vol. 32, p. 1021; Apr. 20, 1908, vol. 35, p. 66, sec. 2; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	60,000.00	
Twenty-four lieutenant colonels, at \$3,500 each per annum (acts Apr. 23, 1908, vol. 35, p. 66, sec. 2; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041)....	84,000.00	
One hundred and five majors, at \$3,000 each per annum (same acts).....	315,000.00	
One hundred and ninety-two captains, at \$2,400 each per annum (same acts).....	460,800.00	
One hundred and thirty-six first lieutenants, at \$2,000 each per annum (same acts)...	272,000.00	
One hundred and seventy-five first lieutenants (Medical Reserve Corps), at \$2,000 each per annum (same acts).....	350,000.00	
	1,547,800.00	
For additional pay to such officers for length of service, to be paid with their current monthly pay (R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1041).....	185,000.00	
NOTE.—The estimate for pay of officers of the Medical Department is based upon the number and rank as authorized by law, and the estimate for additional pay for length of service is computed upon the longevity record of the officers as shown by the Official Army Register. The increase of the amount estimated for 1913 is occasioned by operation of law advancing a number of first lieutenants to the rank and pay of captain.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
Pay Department:		
One brigadier general, at \$6,000 per annum (acts Feb. 2, 1901, vol. 31, p. 754, sec. 21; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....	6,000.00	
Three colonels, at \$4,000 each per annum (same acts).....	12,000.00	
Four lieutenant colonels, at \$3,500 each per annum (same acts).....	14,000.00

Twenty-three second lieutenants, at \$1,275 each per annum (same acts).....	29,325.00	
		2,911,575.00
For additional pay to such officers for length of service, to be paid with their current monthly pay (R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....		465,000.00
NOTE.—The estimate for pay of officers on the retired list is based upon the number in each grade on Dec. 1, 1910, as shown by the Official Army Register, increased by 12, the approximate annual number of retired officers over casualties, and the item of appropriation is to cover the retired pay of all officers on the retired list. The estimate for additional pay for length of service is computed upon the longevity record of the officers as shown by the Official Army Register.—C. H. Whipple, Paymaster General, United States Army.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay, etc., of the Army—Continued.</i>		
Pay of officers of the staff corps and staff departments—Continued.		
Increased pay to retired officers on active duty:		
Two colonels (no increase of pay, increase for longevity only).		
Four lieutenant colonels, at \$375 each per annum (acts Nov. 3, 1903, vol. 28, p. 7, sec. 1; Apr. 23, 1904, vol. 33, p. 164, sec. 1; June 12, 1906, vol. 34, p. 225, sec. 1; May 11, 1908, vol. 35, p. 113, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....	\$1,500.00	
Twenty-two majors, at \$750 each per annum (same acts).....	16,500.00	
Thirty-seven captains, at \$600 each per annum (same acts).....	22,200.00	
Eleven first lieutenants, at \$500 each per annum (same acts).....	5,500.00	
Two second lieutenants, at \$425 each per annum (same acts).....	850.00	
	\$46,550.00	
For additional pay to such officers for length of service, to be paid with their current monthly pay (R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1042)		18,930.00
NOTE.—The estimate for difference of pay for retired officers on active duty is based upon the number and rank of officers placed on active duty as shown by official report of The Adjutant General to July 20, 1911, latest available data, and computed at the rate established by the act of May 11, 1908. The difference in additional pay for length of service is based upon the same authority.—C. H. Whipple, Paymaster General, United States Army.		
Retired enlisted men:		
For pay of 3,300 enlisted men retired (acts Mar. 2, 1907, vol. 34, p. 1217, secs. 1, 2; May 11, 1908, vol. 35, p. 113, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....		2,249,940.00
NOTE.—The number of enlisted men retired in service on January 1, 1911, is reported as 3,075; on June 30, 1911, an additional 75, making 3,150, an increase of 150 men per annum, which for years has approximated that increase. The number of enlisted men retired for 1913 will, if this ratio continues, be 3,300, and the amount asked for in this item is based upon that number.—C. H. Whipple, Paymaster General, United States Army.		
Miscellaneous:		
For pay of 75 hospital matrons, at \$120 each per annum (R. S., p. 221, sec. 1277; act Mar. 3, 1911, vol. 36, p. 1042).....		9,000.00
For pay of 1 superintendent, Nurse Corps, at \$1,800 per annum (acts Feb. 1, 1901, vol. 31, p. 753, sec. 19; Mar. 3, 1911, vol. 36, p. 1042).....		1,800.00
For pay of 125 nurses (female) (acts Feb. 1, 1901, vol. 31, p. 753, sec. 19; Mar. 23, 1910, vol. 36, p. 249, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....		88,000.00
NOTE.—The estimate for pay of the Nurse Corps, consisting of superintendent and 125 nurses (female), is based upon the report of the Surgeon General, United States Army, who estimates that the amount required, exclusive of superintendent, for the fiscal year 1913 will be \$88,000.—C. H. Whipple, Paymaster General, United States Army.		
For pay of 42 veterinarians, at \$1,700 each per annum (acts Feb. 2, 1901, vol. 31, p. 753, sec. 20; Jan. 25, 1907, vol. 34, p. 862, sec. 7; May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....		71,400.00
For additional pay to veterinarians for length of service, to be paid with their current monthly pay (acts Feb. 2, 1901, vol. 31, p. 753, sec. 20; Jan. 25, 1907, vol. 34, p. 862, sec. 7; May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....		13,240.00
NOTE.—The estimate for pay of veterinarians is based upon the number authorized by law and computed at the rate established by act of May 11, 1908, and the additional pay for length of service is based upon the longevity record as shown by the records of this office.—C. H. Whipple, Paymaster General, United States Army.		
For pay of 30 dental surgeons, at \$2,000 each per annum (acts Feb. 1, 1901, vol. 31, p. 753, sec. 18; Mar. 2, 1907, vol. 34, p. 1163, sec. 1; Mar. 3, 1911, vol. 36, p. 1042).....		60,000.00
For additional pay to dental surgeons for length of service, to be paid with their current monthly pay (same acts).....		12,000.00
For pay of 30 acting dental surgeons, at \$1,800 each per annum (same acts).....		54,000.00
NOTE.—The estimate for dental surgeons and acting dental surgeons is based upon the number authorized by act of March 3, 1911, and the pay computed at the rate established by same act. The additional pay for length of service of the dental surgeons is based on 30 of the surgeons being entitled to 20 per cent increase, having served the 10 years required. The increase of the amount estimated for 1913 is occasioned by the provisions of the act of March 3, 1911, creating a corps of dental surgeons.—C. H. Whipple, Paymaster General, United States Army.		
For pay of 20 contract surgeons, at \$1,800 each per annum (acts Feb. 2, 1901, vol. 31, p. 753, sec. 18; Mar. 3, 1911, vol. 36, p. 1042).....		36,000.00
For pay of Army paymasters' clerks (R. S., p. 212, sec. 1190; acts May 26, 1900, vol. 31, p. 209, sec. 1; Mar. 3, 1911, vol. 36, p. 1043).....		156,250.00
NOTE.—The number of Army paymasters' clerks has been reduced to 85, and the pay is computed at the new rate provided by act of March 3, 1911. The increase in amount estimated for 1913 is in compliance with the provisions of said act of Congress.—C. H. Whipple, Paymaster General, United States Army.		
For pay of 15 Army paymasters' clerks retired (act Mar. 3, 1911, vol. 36, p. 1043).....		24,750.48
NOTE.—The estimate for pay of Army paymasters' clerks retired is based upon the number of clerks that will be retired before June 30, 1913, and the rate of pay computed under the provisions of the act of March 3, 1911.—C. H. Whipple, Paymaster General, United States Army.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay, etc., of the Army—Continued.</i>		
<i>Miscellaneous—Continued.</i>		
For pay of paymasters' messengers (act Mar. 3, 1911, vol. 36, p. 1043).....	\$19,000.00	
NOTE.—The estimate for paymasters' messengers is based upon the requirements of the service and the expenditures for this purpose for the fiscal year ending June 30, 1911.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For traveling expenses of paymasters' clerks and expert accountant of the Inspector General's Department (acts Feb. 27, 1893, vol. 27, p. 480, sec. 1; June 30, 1902, vol. 32, p. 511, sec. 1; Mar. 3, 1911, vol. 36, p. 1043).....	26,000.00	
Provided, That hereafter Army paymasters' clerks and the expert accountant, Inspector General's Department, shall receive mileage at the same rates and under the same conditions as is provided by law for officers of the Army.		
NOTE.—This provision is inserted by authority of the Secretary of War with a view to concentrating under one law mileage disbursements which now are authorized and provided for in three separate laws and will not require an appropriation in excess of that which is necessary under these three laws.		
The multiplicity of the mileage laws greatly adds to the volume of correspondence and reports and tends to complicate disbursements, and it is believed that a simplification of the matter as herein suggested will result in increased efficiency and administrative economy.		
The mileage of Army paymasters' clerks is now provided by act of June 7, 1900 (31 Stat., 685), which fixes the rate at 8 cents per mile for travel within the limits of the United States and actual expenses for travel without the limits of the United States in North America. The mileage of the expert accountant, Inspector General's Department, is now provided by act of February 27, 1893 (27 Stat., 480), which fixes the rate at 4 cents per mile plus transportation, or 4 cents and cost of transportation when transportation can not be furnished by the Quartermasters' Department. Officers of the Army receive mileage at the rate of 7 cents per mile for land travel, subject to a deduction of 3 cents per mile for transportation furnished by the Quartermaster's Department and to a similar deduction for travel over land-grant railroads, and receive actual expenses for sea travel (act June 12, 1906, 334 Stat., 246, as amended by act May 11, 1908, 35 Stat., 114). The provision herein suggested will make this law applicable to Army paymasters' clerks and the expert accountant of the Inspector General's Department.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For expenses of courts-martial, courts of inquiry, and military commissions, and compensation of reporters and witnesses attending the same (act Mar. 3, 1911, vol. 36, p. 1043).....	45,000.00	
NOTE.—The estimate for expenses of courts-martial, etc., is based upon the expenditures for like purpose during the fiscal year 1911, which shows an amount exceeding \$41,000 for that year.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For additional pay to officer in charge of public buildings and grounds (acts Mar. 3, 1873, vol. 17, p. 335, sec. 1; Mar. 3, 1911, vol. 36, p. 1043).....	1,000.00	
For commutation of quarters to commissioned officers, dental surgeons, and veterinarians on duty without troops at stations where there are no public quarters (acts Mar. 2, 1907, vol. 34, p. 1169, sec. 1; Mar. 3, 1911, vol. 36, p. 1043).....	525,000.00	
NOTE.—The estimate for this item of expenditure is based upon the disbursements for like purpose for the fiscal year 1911, approximating \$514,000. The increase in the amount estimated for 1913 is occasioned by the act of March 3, 1911, which provides for 200 additional officers for detached service, and 30 additional officers for the Quartermaster's Department, and dental surgeons not to exceed 60 in number.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For travel allowances of enlisted men on discharge (acts Mar. 2, 1901, vol. 31, p. 102, sec. 1; June 12, 1906, vol. 34, p. 247, sec. 1; Mar. 3, 1911, vol. 36, p. 1043).....	900,000.00	
NOTE.—The estimate for travel allowance to enlisted men on discharge is based on a comparison of enlistments and discharges for four fiscal years with the enlistments for the fiscal year 1910, which will determine the number of men discharged during the fiscal year 1913, and it is thereby indicated that the amount of \$900,000 for this purpose is necessary.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For clothing not drawn due enlisted men on discharge (R. S., p. 224, sec. 1302; R. S., p. 225, sec. 1308; act Mar. 3, 1911, vol. 36, p. 1043).....	600,000.00	
NOTE.—The estimate for clothing not drawn due enlisted men on discharge is based upon the same comparison as that pertaining to item preceding, touching the number of men discharged. The decrease for 1913 is attributed to the provisions of general orders of the War Department, to take effect July 1, 1911, limiting the allowance of clothing to enlisted men, causing a reduction of the amount appropriated for this item for 1913 from \$850,000 to \$600,000.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For interest on soldiers' deposits (R. S., p. 225, secs. 1305–1308; acts June 12, 1906, vol. 34, p. 246, sec. 12; Mar. 3, 1911, vol. 36, p. 1043).....	130,000.00	
NOTE.—The estimate for this item is based upon the amount of principal repaid to enlisted men during the fiscal year 1911, as deposits made during their time of service and computed at the rate of 4 per cent per annum as provided by law.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For pay of translator and librarian of the military information section, General Staff Corps, at \$1,800 per annum (act Mar. 3, 1911, vol. 36, p. 1043).....	1,800.00	
For pay of expert accountant, Inspector General's Department (acts June 13, 1890, vol. 26, p. 151, sec. 1; Mar. 3, 1911, vol. 36, p. 1043).....	2,500.00	
For extra pay to enlisted men employed on extra duty for periods of not less than 10 days in the office of district artillery engineers and district ordnance officers as switchboard operators at seacoast fortifications (R. S., p. 223, sec. 1287; act Mar. 3, 1911, vol. 36, p. 1043).....	10,952.55	
NOTE.—Estimated by Chief of Coast Artillery.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay, etc., of the Army—Continued.</i> <i>Miscellaneous—Continued.</i>		
For extra pay to enlisted men employed on extra duty as switchboard operators at each interior post (R. S., p. 223, sec. 1287; act Mar. 3, 1911, vol. 36, p. 1043)	\$11,369.75	
NOTE.—The estimate for extra pay to enlisted men on duty as switchboard operators at interior posts is submitted by the Chief Signal Officer with the following remarks: "The increase over the appropriation for the current fiscal year for this purpose is needed in order to provide extra pay for an additional switchboard operator at Plattsburg Barracks, N. Y. Within the next few months there will be installed at this post a common battery telephone system which will require the assignment of one operator in addition to the one now on duty.—C. H. Whipple, Paymaster General, United States Army.		
For extra pay to enlisted men of the line of the Army and to enlisted men of the Signal Corps employed in the Territory of Alaska on the Alaskan cable and telephone system for periods of not less than 10 days at the rate of 35 cents per day (acts May 11, 1908, vol. 35, p. 114, sec. 1; Mar. 3, 1911, vol. 36, p. 1043)	36,000.00	
NOTE.—Estimate submitted by Chief Signal Officer.—C. H. Whipple, Paymaster General, United States Army.		
For mileage to officers, dental surgeons, veterinarians, and contract surgeons, "when authorized by law" (acts June 12, 1906, vol. 34, p. 246, sec. 1; Mar. 3, 1911, vol. 36, p. 1043)	600,000.00	
For additional 10 per cent increase on pay of officers on foreign service (acts June 12, 1906, vol. 34, p. 247, sec. 1; May 11, 1908, vol. 35, p. 114, sec. 1; Mar. 3, 1911, vol. 36, p. 1043)	266,000.00	
NOTE.—The estimate for additional 10 per cent increase in pay of officers on foreign service is based upon the number and grades of officers so serving and computed at the rate established by the act of May 11, 1908. The expenditures for like purpose during the fiscal year 1911 indicate that the amount estimated for closely approximates the amount of estimate for 1913.—C. H. Whipple, Paymaster General, United States Army.		
For additional 20 per cent increase on pay of enlisted men on foreign service (acts June 12, 1906, vol. 34, p. 247, sec. 1; May 11, 1908, vol. 35, p. 114, sec. 1; Mar. 3, 1911, vol. 36, p. 1043)	750,000.00	
NOTE.—The estimate for 20 per cent increase in pay of enlisted men on foreign service is based upon the number and grades of enlisted men so serving. The expenditures for like purpose for the fiscal year 1911 indicate approximately the amount for the estimate for 1913.—C. H. Whipple, Paymaster General, United States Army.		
For pay of 1 computer for Artillery Board (act Mar. 3, 1911, vol. 36, p. 1043)	2,500.00	
For payment of exchange by special disbursing agents of the Pay Department serving in foreign countries and when specially authorized by the Secretary of War, by the special agents of the Pay Department serving in Alaska (same act)	600.00	
For payment of subsistence, mileage, and commutation of quarters to officers of the National Guard attending service and garrison schools (same act)	21,500.00	
NOTE.—It is estimated that the number of officers of the National Guard attending the service schools during the fiscal year 1913 will not be materially different from the number in attendance for the fiscal year 1911, and the estimate is based upon the expenditures for like purpose for the fiscal year 1911.—C. H. Whipple, Paymaster General, United States Army.		
For subsistence, mileage, and commutation of quarters to persons holding certificate of eligibility attending service and garrison schools (submitted)	1,800.00	
NOTE.—This item is submitted under authority of section 23, act January 21, 1903 (32 Stat., 779,780), which provides that persons holding certificate of eligibility for commissions in any volunteer force which may be properly organized other than a force composed of organized militia, may be authorized by the President to attend and pursue a regular course of study at any military school or college of the United States (except the Military Academy at West Point), and to receive from the annual appropriation for the support of the Army the same allowances and commutations as provided for officers of the Organized Militia, in section 16 of the same act (Jan. 21, 1903). This is the first year that necessity has arisen for an item of appropriation under section 23, act of January 21, 1903, as heretofore no persons have been in attendance upon garrison or service schools under said section.		
It is estimated that for the fiscal year 1913 an amount will be required to pay at least three officers under this section, and the estimate submitted (\$1,800) is figured as of the grade of major, it being impracticable to ascertain the exact grades or the mileage.—C. H. Whipple, Paymaster General, United States Army.		
For three months' additional pay to enlisted men reenlisting within the period of three months from date of discharge from first enlistment (acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1043)	250,000.00	
NOTE.—The estimate for three months' additional pay to enlisted men reenlisting within three months of discharge from first enlistment is based upon the expenditures for like purpose for fiscal year 1911, which approximates the amount estimated for herein. The expenditures show a continued increase in this item since the passage of the act of May 11, 1908.—C. H. Whipple, Paymaster General, United States Army.		
For six months' additional pay to beneficiaries of officers and enlisted men who die while in active service from wounds or disease not the result of their own misconduct (acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1043)	60,000.00	
NOTE.—The estimate for six months' additional pay to beneficiaries, etc., on account of deaths of officers and enlisted men in the active service, etc., is based upon the average amount of expenditures for like purpose during the first 10 months of the fiscal year 1911, which indicates that the amount estimated for will be sufficient for the purpose.—C. H. Whipple, Paymaster General, United States Army.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913 Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay, etc., of the Army—Continued.</i> <i>Miscellaneous—Continued.</i>		
For additional pay to officers below grade of major required to be mounted and who furnish their own mounts (acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1043).....	\$180,000.00	
NOTE.—The estimate for pay for mounts to officers below the grade of major is based upon the expenditures for like purpose for the fiscal year 1911, which approximates the amount asked for.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
For amount required to make monthly payments to Jennie Carroll, widow of James Carroll, late major and surgeon, United States Army (acts May 23, 1908, vol. 35, p. 499, sec. 1; Mar. 3, 1911, vol. 36, p. 1044).....	1,500.00	
For amount required to make monthly payment to Mabel H. Lazear, widow of Jesse W. Lazear, late acting assistant surgeon, United States Army (same acts).....	1,500.00	
Amount required to make monthly payments of \$100 to John R. Kissinger, late of Company D, One hundred and fifty-seventh Indiana Infantry Volunteers, also late of the Hospital Corps, United States Army (acts Feb. 15, 1911, vol. 36, p. 1300; Mar. 4, 1911, vol. 36, p. 1300).....	1,200.00	
NOTE.—The payment of this monthly allowance of Mrs. Carroll, Mrs. Lazear, and John R. Kissinger has been assigned by the Secretary of War to the Pay Department of the Army.— <i>C. H. Whipple, Paymaster General, United States Army.</i>

Ten second lieutenants, at \$1,700 each per annum (same acts).....	17,000.00	
Additional pay to officers serving in higher grades (1 lieutenant colonel and two majors in addition to pay as captain) (same acts).....	2,300.00	
	65,700.00	
Additional pay to such officers for length of service to be paid with their current monthly pay (R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 104, sec. 1; Mar. 3, 1911, vol. 36, p. 1044).....	10,000.00	
NOTE.—The estimate for pay of officers of the Porto Rico Regiment is based upon the number of officers authorized by law and computed at the rate provided by act of May 11, 1908. The additional pay for length of service is based upon the longevity record of the officers as shown by the Official Army Register.— <i>C. H. Whipple, Paymaster General, United States Army.</i>		
Enlisted men, Porto Rico Regiment of Infantry:		
One regimental sergeant major, at \$45 per month (acts Apr. 23, 1904, vol. 33, p. 266, sec. 1; May 11, 1908, vol. 35, p. 109, sec. 1; May 27, 1908, vol. 35, p. 392, sec. 1; Mar. 3, 1911, vol. 36, p. 1044).....	540.00

<i>Encampment and Maneuvers, Organized Militia—</i>		
For paying the expenses of the Organized Militia of any State, Territory, or of the District of Columbia, which may be authorized by the Secretary of War to participate in such encampments as may be established for the field instruction of the troops of the Regular Army, as provided by sections fifteen and twenty-one of the act of January twenty-first, nineteen hundred and three, entitled "An act to promote the efficiency of the militia, and for other purposes," to be immediately available until the end of the fiscal year nineteen hundred and fourteen, one million three hundred and fifty thousand dollars (acts Jan. 21, 1903, vol. 32, pp. 777-779, secs. 15-21; Mar. 3, 1911, vol. 36, p. 1044, sec. 1).....	1,350,000.00	350,000.00
<i>Storehouses for Equipment of Militia Coast Artillery—</i>		
For the erection of storehouses at certain Coast Artillery posts, for the storage of camp equipage of the Coast Artillery Reserves of the Organized Militia (submitted).....	31,750.00	
NOTE.—As a result of several years' experience, it has been shown that the wear and tear of tentage, due to constant shipment and rough handling, results in great expense to the State concerned in addition to the actual cost of transportation. It has been recommended by State authorities and regular officers concerned that storehouses for tentage of Militia Coast Artillery be erected within the artillery districts to which Coast Artillery Reserves go each year for their annual encampment and target practice.		
The appropriation of \$31,750 is asked for this year with a view to providing such storehouses in the artillery districts of Portland, Boston, Narragansett Bay, New London, Southern New York, Cape Fear, Charleston, Savannah, San Francisco, and Puget Sound.		
It is estimated that the size and cost of the storehouses for the different artillery districts named would be approximately as follows:		
Portland, 25 feet by 60 feet.....	\$3,000	
Boston, 25 feet by 60 feet.....	3,000	
Narragansett, 25 feet by 80 feet.....	4,000	
New London, 25 feet by 70 feet.....	3,500	
Southern New York, 25 feet by 180 feet.....	9,000	
Cape Fear, 25 feet by 35 feet.....	1,750	
Charleston, 25 feet by 20 feet.....	1,000	
Savannah, 25 feet by 30 feet.....	1,500	
San Francisco, 25 feet by 60 feet.....	3,000	
Puget Sound, 25 feet by 40 feet.....	2,000	
Total.....	31,750

(15) Of extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days at rates fixed by law; or extra duty pay at rates to be fixed by the Secretary of War for mess stewards and cooks at recruit depots, who are to be graduates of the schools for bakers and cooks, and instructor cooks at the schools for bakers and cooks.....					37,999.12		
(16) For printing, advertising, commercial newspapers, and use of telephones.....					31,975.22		
(17) For temporary buildings, cellars, and other means of protecting subsistence supplies (when not provided by the Quartermaster's Department). (No definite sum is estimated for under this head and no expenditure will be made thereunder unless absolutely necessary.)							
(18) For providing prizes to be established by the Secretary of War for enlisted men of the Army who graduate from the Army schools for bakers and cooks, the total amount of such prizes at the various schools not to exceed nine hundred dollars per annum					900.00		
(19) For other necessary expenses incident to the purchase, testing, preservation, issue, sale, and accounting for subsistence supplies for the Army (such as testing apparatus and chemicals, ice for preservation of stores, salt for rebrining, soap for cleaning, insect powder, screens, \$27 748.03; expenditures and losses on stores and property, \$128,206.54; for payment of internal revenue tax customs duties on articles imported into the Philippine Islands under the present Philippine tariff law. \$8,621.15)					164,575.72		
(20) To be expended under the direction of the Secretary of War, and accounted for as "Subsistence of the Army," and for that purpose to constitute one fund. (The objects of expenditure which make up the aggregate of the estimate are not all susceptible of positive control, and the placing of the appropriation in a lump sum enables such expenditure to be met without creating a deficiency under subordinate divisions of the appropriation. That is the reason for recommending that the aggregate be "disbursed and accounted for as 'Subsistence of the Army,' and for that purpose to constitute one fund.")

Subsistence of the Army—Continued.

NOTE.—Section 5 of the act of June 30, 1906 (34 Stat., 763), has been construed to apply to the Subsistence Department, but it is thought that it was not so intended, for under section 3618 of the Revised Statutes, the proceeds of sales of subsistence stores are exempt from being covered into the Treasury; and under the act of March 3, 1875 (18 Stats. L., 410), authority of law is given for the use of funds appropriated for the subsistence of the Army for the purchase of stores for sales to officers and enlisted men, and under the same act it is provided that the proceeds of subsistence supplies shall hereafter be exempt from being covered into the Treasury and shall be immediately available for the purchase of fresh supplies, so that under existing law a dollar collected on account of an authorized sale of subsistence supplies may be used immediately for the purchase of other supplies, the latter sold again at cost price, as provided by law, and this process repeated indefinitely, the same amount being turned over again and again, and finally used for the subsistence of the Army. Thus all the clerical work involved in following these processes yields no information other than as to the number of times the same dollar has been turned over, and whether this number is one or ten it contains no information upon which to base any check or form any conclusion beyond what is already known; and under no circumstances can these funds be used in making any payments not authorized by law, and no abuse, improper diversion, or juggling with funds is possible.

In complying with this requirement two reports are necessary—one to be made in July, so as to come within the specified time limit of 30 days; this is, however, without value, as it does not embody a complete statement even of receipts and expenditures in the United States proper, and another and complete report has to be rendered in November, when the "Cost statement" is made up, and the data can be derived from it to make a complete report.

It is therefore submitted that Congress could not reasonably have intended to apply this section to the transactions of the Subsistence Department, which department, from the nature of these transactions involving the turning over and over again of proceeds of sales has been made, as stated above, the subject of special provision in the Revised Statutes and the Statutes at Large.

By letter of May 15, 1911, the Secretary of War ordered that a provision be included in the next estimate of appropriation for such modification of section 5 of the above act as will prevent its being construed to apply to the Subsistence Department.

Commissary General.

WAR DEPARTMENT,
OFFICE OF THE COMMISSARY GENERAL,
Washington, August 21, 1911.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912
QUARTERMASTER'S DEPARTMENT.		
<i>Regular Supplies, Quartermaster's Department—</i>		
<p>Regular supplies of the Quartermaster's Department, including their care and protection, consisting of stoves and heating apparatus required for heating offices, hospitals, barracks and quarters, and recruiting stations, and United States military prison; also ranges and stoves, and appliances for cooking and serving food at posts, and repair and maintenance of such heating and cooking appliances; for furnishing heat and light for the authorized allowance of quarters for officers and enlisted men, for contract surgeons and contract dental surgeons when stationed at, and occupying public quarters at, military posts, for officers of the National Guard attending service and garrison schools, and for recruits, guards, hospitals, storehouses, offices, the buildings erected at private cost in the operation of the act approved May thirty-first, nineteen hundred and two; for sale to officers, and including also fuel and engine supplies required in the operation of modern batteries at established posts; for post bakeries; for ice machines and their maintenance where required for the health and comfort of the troops and for cold storage; for the construction, operation, and maintenance of laundries at military posts in the United States and its island possessions; <i>for extra duty pay of enlisted men and hire of employees</i>; for the necessary furniture, textbooks, paper, and equipment for the post schools and libraries; for the tableware and mess furniture for kitchens and mess halls, each and all for the enlisted men, including recruits; of forage in kind for the horses, mules, and oxen of the Quartermaster's Department at the several posts and stations and with the armies in the field, and for the horses of the several regiments of cavalry, the batteries of artillery, and such companies of infantry and scouts as may be mounted; <i>for remounts</i> and for the authorized number of officers' horses including bedding for the animals; <i>for seeds and implements required for the raising of forage at remount depots and expenses incident thereto</i>; of straw for soldiers' bedding, and of stationery, typewriters and exchange of same, including blank books for the Quartermaster's Department, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's Departments, and for printing department orders and reports: <i>Provided</i>, That no part of the appropriations for the Quartermaster's Department shall be expended on printing unless the same shall be done at the Government Printing Office, or by contract after due notice and competition, except in such cases as the emergency will not admit of the giving notice of competition, and in cases where it is impracticable to have the necessary printing done by contract the same may be done, with the approval of the Secretary of War, by the purchase of material and hire of the necessary labor for the purpose. For the fiscal year ending June thirtieth, nineteen hundred and thirteen, whenever the ice machines, steam laundries, and electric plants shall not come in competition with private enterprise for sale to the public, and in the opinion of the Secretary of War it becomes necessary to the economical use and administration of such ice machines, steam laundries, and electric plants as have been or may hereafter be established in pursuance of law, surplus ice may be disposed of, laundry work may be done for other branches of the Government, and surplus electric light and power may be sold on such terms and in accordance with such regulations as may be prescribed by the Secretary of War: <i>Provided</i>, That the funds received from such sales and in payment for such laundry work shall be used to defray the cost of operation of said ice, laundry, and electric plants; and the sales and expenditures herein provided for shall be accounted for in accordance with the methods prescribed by law, and any sums remaining, after such cost of maintenance and operation have been defrayed, shall be deposited in the Treasury to the credit of the appropriation from which the cost of operation of such plant is paid: <i>Provided further</i>, That hereafter so much of section five hundred and twelve and sections thirty-seven hundred and forty-four to thirty-seven hundred and forty-seven, inclusive, of the Revised Statutes of the United States as relates to the filing of copies of contracts in the returns office of the Department of the Interior shall not apply to contracts made by the Secretary of War or by the officers acting under his authority (R. S., p. 206, sec. 1133; p. 221, secs. 1270, 1271; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 3, 1911, vol. 36, p. 1047, sec. 1).....</p>	\$7, 900, 000. 00	\$8, 333, 387. 33
<p>NOTE.—The phrase <i>for extra-duty pay of enlisted men and hire of employees</i> is inserted in order that there may be no question as to the future payment of any accounts which may properly come under this appropriation for said services.</p>		
<p>The words <i>for remounts</i> is added to enable the department to purchase forage in kind for remounts (young horses), the Comptroller of the Treasury having rendered a decision to the effect that the procurement of forage for young animals under this appropriation is not authorized by law.</p>		
<p>The clause <i>for seeds and implements required for the raising of forage at remount depots and expenditures incident thereto</i> is inserted to enable the Quartermaster's Department to purchase seed, grain, and farm machinery for the purpose of raising forage at remount depots, where it has been found not only advantageous but more economical to raise forage than to purchase same. Suspensions and disallowances by the Auditor for the War Department for expenditures made for these purposes have been sustained by the Comptroller of the Treasury, who has rendered a decision to the effect that forage in kind should be procured under the wording of the appropriation "regular supplies" as it has heretofore been purchased in the manner provided by law and regulations for the purchase of quartermaster's supplies, and not by purchase of seeds and farm machinery and employing labor and raising it by farming operations.</p>		
<p>The following suggested amendment of the law, <i>Provided further</i>, That hereafter so much of section five hundred and twelve and sections thirty-seven hundred and forty-four to thirty-seven hundred and forty-seven, inclusive, of the Revised Statutes of the United States as relates to the filing of copies of contracts in the returns office of the Department of the Interior shall not apply to contracts made by the Secretary of War, or by officers acting under his authority, was previously submitted to Congress by the Secretary of War (see Doc. No. 564, 60th Cong., 1st sess.), and is resubmitted by order of the Secretary of War for the reasons stated in the document.—J. B. Aleshire, Quartermaster General, United States Army.</p>		
<i>Equipment of Officers' Schools, Military Posts—</i>		
<p>For the purchase of the necessary instruments, office furniture, stationery, and other authorized articles required for the equipment and use of the officers' schools at the several military posts (act Mar. 3, 1911, vol. 36, p. 1048, sec. 1).....</p>	8, 000. 00	9, 350. 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Incidental Expenses, Quartermaster's Department—</i>		
Postage; cost of telegrams on official business received and sent by officers of the Army; extra pay to soldiers employed on extra duty, under the direction of the Quartermaster's Department, in the erection of barracks, quarters, and storehouses, in the construction of roads and other constant labor for periods of not less than ten days, and as clerks for post quartermasters at military posts, and for prison overseers at posts designated by the War Department for the confinement of general prisoners, and for the United States military prison guard; for expenses of expresses to and from frontier posts and armies in the field, of escorts to paymasters and other disbursing officers and to trains where military escorts can not be furnished; authorized office furniture, hire of laborers in the Quartermaster's Department, including the care of officers' mounts when the same are furnished by the Government and the hire of interpreters, spies, or guides for the Army; compensation of clerks and other employees to the officers of the Quartermaster's Department, and clerks, foremen, watchmen, and organist for the United States military prison, and incidental expenses of recruiting; for the apprehension, securing, and delivering of deserters, including escaped military prisoners, and the expenses incident to their pursuit, and no greater sum than fifty dollars for each deserter or escaped military prisoner shall, in the discretion of the Secretary of War, be paid to any civil officer or citizen for such services and expenses; for a donation of five dollars to each dishonorably discharged prisoner upon his release from confinement, under court-martial sentence, involving dishonorable discharge; for the following expenditures required for the several regiments of Cavalry, the batteries of Light Artillery, and such companies of Infantry and scouts as may be mounted, the authorized number of officers' horses, and for the trains, to wit: Hire of veterinary surgeons, purchase of medicines for horses and mules, picket ropes, blacksmith's tools and materials, horseshoes and blacksmith's tools for the Cavalry service, and for the shoeing of horses and mules, and such additional expenditures as are necessary and authorized by law in the movements and operations of the Army, and at military posts, and not expressly assigned to any other department (R. S., p. 207, sec. 1137; p. 223, sec. 1287; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 3, 1911, vol. 36, p. 1048, sec. 1).....	\$2,000,000.00	\$2,100,000.00
<i>Horses for Cavalry, Artillery, Engineers, etc.—</i>		
For the purchase of horses of ages, sex, and size as may be prescribed by the Secretary of War, for remounts, for officers entitled to public mounts, for the Cavalry, Artillery, Signal Corps, and Engineers, the United States Military Academy, service schools, and staff colleges, and for the Indian scouts, and for such Infantry and members of the Hospital Corps in field campaigns as may be required to be mounted, and the expenses incident thereto: <i>Provided</i> , That the number of horses purchased under this appropriation, added to the number now on hand, shall be limited to the actual needs of the mounted service, including reasonable provisions for remounts, and, unless otherwise ordered by the Secretary of War, no part of this appropriation shall be paid out for horses not purchased by contract after competition duly invited by the Quartermaster's Department and an inspection under the direction and authority of the Secretary of War. When practicable, horses shall be purchased in open market at all military posts or stations, when needed, at a maximum price to be fixed by the Secretary of War: <i>Provided further</i> , That no part of this appropriation shall be used for breeding purposes: <i>Provided further</i> , That no part of this appropriation shall be expended for the purchase of polo ponies, except when purchased for instruction of cadets at the United States Military Academy: <i>Provided further</i> , That the accounting officers of the Treasury are hereby authorized and directed to remove any suspensions or disallowances in the accounts of quartermasters for the fiscal years nineteen hundred and ten, nineteen hundred and eleven, and nineteen hundred and twelve, for the purchase, care, and foraging of horses, because of age, sex, or size, and for the purchase of seeds, machinery, and other expenditures in connection with the raising of forage at remount depots, from appropriations of the Quartermaster's Department (R. S., p. 206, sec. 1133; p. 221, secs. 1270, 1271; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 3, 1911, vol. 36, p. 1049, sec. 1).....	300,000.00	517,165.50
NOTE.—The changes in the wording of this appropriation are made because of decisions of the Auditor for the War Department and the Comptroller of the Treasury, to the effect that there is no authority for the purchase of young horses below the size prescribed for matured Cavalry and Artillery horses.		
Notwithstanding the provision in the law for the purchase of remounts, the Comptroller of the Treasury has approved the decision of the Auditor for the War Department that "it is evident that Congress intended to prohibit the purchase of horses which were not (because of age and size) available for immediate use as Cavalry and Artillery horses."		
Accounts for the purchase of mares have been disallowed by the Auditor for the War Department for the reason that "there are no 'Army Regulations' issued by the 'Quartermaster General' and known to this office that provides for the purchase of other than 'geldings.'"		
The clause directing the accounting officers of the Treasury to remove certain suspensions and disallowances in the accounts of quartermasters, is inserted for the purpose of clearing officers' accounts because of suspensions and disallowances made for the purpose stated, and to obviate which, in the future, changes in the wording of the bill, as shown above, have been made.—J. B. Aleshire, Quartermaster General, United States Army.		
<i>Barracks and Quarters—</i>		
For barracks, quarters, stables, storehouses, magazines, administration and office buildings, sheds, shops, and other buildings necessary for the shelter of troops, public animals, and stores, and for administration purposes, except those pertaining to the Seacoast Artillery; for repairing public buildings at military posts; for extra-duty pay to enlisted men and hire of employees; for rental of the authorized allowance of quarters for officers on duty with the troops at posts and stations where no public quarters are available; of barracks or authorized allowance of quarters for noncommissioned officers and enlisted men on duty where public quarters are not available; of grounds for cantonments, camp sites, and other military purposes, and of buildings or portions of buildings for occupation by troops, for use as stables, storehouses, and offices, and for other military purposes; for the hire of recruiting stations and lodgings for recruits; for such furniture for the public rooms of officers' messes and for

<p>officers' quarters at military posts, as may be approved by the Secretary of War; for wall lockers in permanent barracks and refrigerators in barracks and quarters; for screen doors, window screens, storm doors and sash, and window shades for barracks, offices, and quarters, and for flooring and framing for tents: <i>Provided</i>, That no part of the moneys so appropriated shall be paid for commutation of fuel or quarters to officers or enlisted men: <i>Provided further</i>, That the number of and total sum paid for civilian employees in the Quartermaster General's Department, including those paid from the fund appropriated for regular supplies, incidental expenses, barracks and quarters, Army transportation, clothing, camp and garrison equipage, shall be limited to the actual requirements of the service, and that no employee paid therefrom shall receive a salary of more than \$150 per month, except upon the approval of the Secretary of War: <i>Provided further</i>, That of the amount herein appropriated the sum of twenty-five thousand dollars shall be immediately available for the construction of barracks and quarters: <i>Provided further</i>, That hereafter the requirements of section thirty-seven hundred and forty-four of the Revised Statutes shall not apply to the lease of lands, or easements therein, or of buildings, rooms, stalls, stable service, storage, telephone service, wharves or rights of wharfage or dockage, or to the hire of vessels, boats, and other floating craft for use of any branch of the service under the War Department, where the period of any such lease or hire is not to exceed three months. (R. S., p. 206, sec. 1136; p. 211, sec. 1270; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 3, 1911, vol. 36, p. 1049, sec. 1.)</p>	\$1,757,000.00	\$1,856,050.00
<p>NOTE.—The \$25,000 which is asked to be made immediately available is for construction at Fort Gibbon, Alaska, of field officers' quarters and a band barrack which are urgently required to replace buildings condemned and ordered destroyed.</p>		
<p>The following suggested amendment of the law, <i>Provided further</i>, That hereafter the requirements of section thirty-seven hundred and forty-four of the Revised Statutes shall not apply to the lease of lands, or easements therein, or of buildings, rooms, stalls, stable service, storage, telephone service, wharves, or rights of wharfage or dockage, or to the hire of vessels, boats, and other floating craft for use of any branch of the service under the War Department, where the period of any such lease or hire is not to exceed three months, was previously recommended to Congress by the Acting Secretary of War (see Doc. No. 564, 60th Cong., 1st sess.), and is resubmitted by order of the Secretary of War, for the reasons set forth in that document.—J. B. Aleshire, Quartermaster General, U. S. Army.</p>		
<i>Military Post Exchanges—</i>		
<p>For continuing the construction, equipment, and maintenance of suitable buildings at military posts and stations for the conduct of the post exchange, school, library, reading, lunch, amusement rooms, and gymnasium, including repairs to buildings erected at private cost in the operation of the act approved May 31, 1902, to be expended in the discretion and under the direction of the Secretary of War (act Mar. 3, 1911, vol. 36, p. 1050, sec. 1.)</p>	40,000.00	40,000.00
<i>Transportation of the Army and its Supplies—</i>		
<p>For transportation of the Army and its supplies, including transportation of the troops when moving either by land or water, and of their baggage, including the cost of packing and crating; for transportation of recruits and recruiting parties; of applicants for enlistment between recruiting stations and recruiting depots; of persons on their discharge from the United States military prison to their homes (or elsewhere as they may elect), provided the cost in each case shall not be greater than to the place of last enlistment; of supplies furnished to the militia for the permanent equipment thereof; of the necessary agents and other employees; of clothing and equipage and other quartermaster's stores from Army depots or places of purchase or delivery to the several posts and Army depots and from those depots to the troops in the field; of horse equipments and of subsistence stores from places of purchase and from the places of delivery under contract to such places as the circumstances of the service may require them to be sent; of ordnance and ordnance stores, and small arms from the foundries and armories to the arsenals, fortifications, frontier posts, and Army depots; for payment of wharfage tolls, and ferriage; for transportation of funds of the Army; for the hire of employees; for the payment of Army transportation lawfully due such land-grant railroads as have not received aid in Government bonds (to be adjusted in accordance with the decisions of the Supreme Court in cases decided under such land-grant acts), but in no case shall more than 50 per centum of full amount of service be paid: <i>Provided</i>, That such compensation shall be computed upon the basis of the tariff or lower special rates for like transportation performed for the public at large, and shall be accepted as in full for all demands for such service: <i>Provided further</i>, That in expending the money appropriated by this act a railroad company which has not received aid in bonds of the United States, and which obtained a grant of public land to aid in the construction of its railroad on condition that such railroad should be a post route and military road, subject to the use of the United States for postal, military, naval, and other Government services, and also subject to such regulations as Congress may impose restricting the charge for such Government transportation, having claims against the United States for transportation of troops and munitions of war and military supplies and property over such aided railroads, shall be paid out of the moneys appropriated by the foregoing provision only on the basis of such rate for the transportation of such troops and munitions of war and military supplies and property as the Secretary of War shall deem just and reasonable under the foregoing provision, such rate not to exceed 50 per centum of the compensation for such Government transportation as shall at that time be charged to and paid by private parties to any such company for like and similar transportation; and the amount so fixed to be paid shall be accepted as in full for all demands for such service; for the purchase and hire of draft and pack animals in such numbers as are actually required for the service, including reasonable provision for replacing unserviceable animals; for the purchase, hire, operation, maintenance, and repair of such harness, wagons, carts, drays, and other vehicles as are required for the transportation of troops and supplies, and for official, military, and garrison purposes; for drayage and cartage at the several depots; for the hire of teamsters and other employees; and for extra-duty pay of enlisted men driving teams, repairing means of transportation, and</p>

employed as train masters; for the purchase and repair of ships, boats, and other vessels required for the transportation of troops and supplies and for official, military, and garrison purposes; for expenses of sailing public transports and other vessels on the various rivers, the Gulf of Mexico, and the Atlantic and Pacific Oceans (R. S., p. 36, sec. 220; p. 206, sec. 1133-1135; Revised Army Regulations, 1910, p. 179, pars. 1017, 1018; act Mar. 3, 1911, vol. 36, p. 1050, sec. 1).....	\$11, 250, 000. 00	\$11, 023, 615. 06
NOTE.—The increase of \$226,384.94 over the amount appropriated for the current fiscal year is required for the purchase of boats and repairs to transports, etc.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Roads, Walks, Wharves, and Drainage—</i>		
For the construction and repairs by the Quartermaster's Department of roads, walks, and wharves; for payment of extra-duty pay to enlisted men employed in opening roads and in building wharves; for the pay of employees; for the disposal of drainage; for dredging channels; and for care and improvement of grounds of military posts and stations (act Mar. 3, 1911, vol. 36, p. 1051, sec. 1).....	750, 000. 00	449, 315. 79
NOTE.—The amount now estimated for, though \$300,684.21 in excess of the sum appropriated for the current fiscal year, is urgently required in the carrying out of projects absolutely necessary for the health and efficiency of the Army.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Water and Sewers at Military Posts—</i>		
For procuring and introducing water to buildings and premises at such military posts and stations as from their situation require it to be brought from a distance; for the installation and extension of plumbing within buildings where the same is not specifically provided for in other appropriations; for the purchase and repair of fire apparatus, including fire-alarm systems; for the disposal of sewage; for repairs to water and sewer systems and plumbing within buildings; and for extra-duty pay of enlisted men and hire of employees (act Mar. 3, 1911, vol. 36, p. 1051, sec. 1).....	1, 800, 000. 00	2, 250, 903. 27
NOTE.—The changes in this appropriation are made so as to authorize the installation of plumbing fixtures within buildings and repairs to such systems.		
Fire-alarm systems, which are as much a part of the fire apparatus as hose, engines, etc., is a proper charge against this appropriation, and is inserted so as to authorize the payment from same.		
The suggested change providing for the extra-duty pay of enlisted men is inserted to enable the department to pay enlisted men for extra duty performed by them, the Auditor for the War Department having refused, in the absence of any specific authority therefor, to pass accounts for payment of extra-duty pay from this appropriation.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Barracks and Quarters, Philippine Islands—</i>		
Continuing the work of providing for the proper shelter and protection of officers and enlisted men of the Army of the United States lawfully on duty in the Philippine Islands, including repairs and payment of rents, the acquisition of title to building sites, and such additions to existing military reservations as may be necessary, and including also shelter for the animals and supplies, and all other buildings necessary for post administration purposes: <i>Provided</i> , That no part of said sum shall be expended for the construction of quarters for officers of the Army, the total cost of which, including the heating and plumbing apparatus, wiring and fixtures, shall exceed in the case of quarters of a general officer the sum of twelve thousand dollars; of a colonel or officer above the rank of captain, ten thousand dollars; and of an officer of and below the rank of captain, six thousand dollars (act Mar. 3, 1911, vol. 36, p. 1052, sec. 1).....	600, 000. 00	600, 000. 00
<i>Clothing, and Camp and Garrison Equipage—</i>		
For cloth, woollens, materials, and for the manufacture of clothing for the Army, for issue and for sale at cost price according to the Army regulations; for altering and fitting clothing and washing and cleaning when necessary; for equipage, and for expenses of packing and handling and similar necessities; for a suit of citizen's outer clothing, to cost not exceeding ten dollars, to be issued upon release from confinement to each prisoner who has been confined under a court-martial sentence involving dishonorable discharge; for indemnity to officers and men of the Army for clothing and bedding, and so forth, destroyed since April twenty-two, one thousand eight hundred and ninety-eight, by order of medical officers of the Army for sanitary reasons (R. S., p. 206, sec. 1133; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 3, 1911, vol. 36, p. 1052, sec. 1).....	5, 431, 700. 00	4, 901, 271. 67
NOTE.—The increase of \$530,428.33 over the amount provided for the current fiscal year is required to replenish the reserve stock at the depots of the Quartermaster's Department.— <i>J. B. Aleshire, Quartermaster General, United States Army.</i>		
<i>Construction and Repair of Hospitals—</i>		
For construction and repair of hospitals at military posts already established and occupied, including the extra-duty pay of enlisted men employed on the same, and including, also, all expenditures for construction and repairs required at the Army and Navy Hospital, at Hot Springs, Ark., and for the construction and repair of general hospitals and expenses incident thereto, and for additions needed to meet the requirements of increased garrisons (act Mar. 3, 1911, vol. 36, p. 1053, sec. 1).....	450, 000. 00	450, 000. 00
<i>Quarters for Hospital Stewards—</i>		
For construction and repair of quarters for hospital stewards at military posts already established and occupied, including extra-duty pay of enlisted men employed on the same (act Mar. 3, 1911, vol. 36, p. 1053, sec. 1).....	10, 000. 00	10, 000. 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Shooting Galleries and Ranges—</i>		
For shelter, shooting galleries, ranges for small-arms target practice, repairs, and expenses incident thereto, <i>including the extra-duty pay of enlisted men and hire of employees</i> , such ranges and galleries to be open, as far as practicable, to the National Guard and organized rifle clubs under regulations to be prescribed by the Secretary of War: <i>Provided, That of this amount the sum of three thousand four hundred and fifty dollars, or so much thereof as may be necessary, is made immediately available for the purchase of additional land adjoining the military reservation of Fort D. A. Russell, Wyo., for use in connection with the rifle range (act Mar. 3, 1911, vol. 36, p. 1053, sec. 1)</i>	\$93, 336.00	\$125, 985.00
NOTE.—The modification in the language of the act by the insertion of the words, "Including the extra-duty pay of enlisted men and hire of employees," is proposed with a view to meeting the requirements of the Auditor for the War Department, who refuses to honor accounts paid for extra-duty services under any appropriation where the law does not specifically authorize same. The \$3,450, for Fort D. A. Russell, Wyo., is in lieu of a like balance of the \$18,000 provided for this purpose in the appropriation for shooting galleries and ranges, 1910, which purchase, because of the difficulties attending the procurement of perfect titles to the land, the department was unable to complete within that fiscal year, and the said balance will therefore revert to the Treasury.— <i>J. B. Aleshire, Quartermaster General, United States Army.</i>		
<i>Maintenance Army War College—</i>		
For supplying the necessary fuel for heating the Army War College Building at Washington Barracks and for lighting the building and grounds; also for pay of a chief engineer, at \$1,200 per annum; an assistant engineer, at \$900; four firemen, at \$720 each; one elevator conductor, at \$720 (act Mar. 3, 1911, vol. 36, p. 1053, sec. 1).....	10, 700.00	12, 700.00
<i>Rent of Buildings, Quartermaster's Department—</i>		
For rent of buildings and parts of buildings in the District of Columbia, for military purposes, during the fiscal year 1913, as follows: Field medical supply depot..... \$5, 567.10 Signal Corps test rooms..... 2, 100.00 Quartermaster's stable..... 2, 700.00 Quartermaster's stable and storehouse..... 4, 938.00 Quartermaster's storehouse..... 3, 600.00 Quartermaster's stable and warehouse..... 3, 600.00 Five floors for Army Medical School..... 8, 680.00 Six rooms for attending surgeon and retiring board..... 1, 000.00 Depot Quartermaster's office..... 2, 500.00 Garage, Quartermaster's Department..... 1, 500.00 One room (for storage purposes) Quartermaster's Department..... 54.00 Quarters for officers, noncommissioned officers and privates, on duty with troops where no public quarters are available..... 13, 347.90 (Act Mar. 3, 1877, vol. 19, p. 370; submitted.)	49, 587.00	
NOTE.—The amount called for in this estimate has been deducted from that estimated for as required under the appropriation Barracks and Quarters, from which the rental of these buildings was previously paid.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
NOTE.—For statement of buildings rented by the Quartermaster's Department, United States Army, in the District of Columbia, for military purposes, see Appendix B.		
<i>Claims for Damages to and Loss of Private Property—</i>		
For settlement of claims for damages to and loss of private property belonging to citizens of the United States, Hawaii, and the Philippine Islands (acts Mar. 2, 1907, vol. 34, p. 1165, sec. 1; May 30, 1908, vol. 35, p. 499, sec. 1).....	32, 616.00	
NOTE.—Of the amount stated, \$30,413.58 is required in order to render practicable the settlement of 220 claims which have been passed upon by boards of competent officers and received in this office prior to October 4, 1911.		
These claims embrace damages due to heavy gun firing and during target practice, damages to fences and growing crops, and to trees by troops while engaged in maneuvers, etc. Of the amount now estimated for, nearly \$16,000 is attributable to heavy gun firing at Forts Heath, Banks, Warren, and Revere, Mass.; Forts Hamilton and Wadsworth, N. Y.; Forts Preble, Baldwin, and Cushings Island, Me., Fort Taylor, Fla., Fort Moultrie, S. C., Fort Miley, Cal., and Watervliet Arsenal, N. Y.		
Included in the amount now called for is the sum of \$2,202.42 for payment of similar claims incident to the training, practice, and operations of the Army that may accrue from time to time, settlement of the same to be made by the Auditor for the War Department upon the approval and recommendation of the Secretary of War, after investigation by proper board of officers appointed for the purpose. The appropriation of the amount now estimated for is urgently recommended in order that settlement may be made of the numerous claims long outstanding and that funds may be available for the prompt reimbursement of the damages to private property that may occur in the ensuing year and before the submission of the next annual estimates. The importance and desirability of more prompt settlement of this character of claims is very fully set forth by the Secretary of War in the note appearing in House Document No. 1242, Sixty-first Congress, third session, to which attention is invited.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Indemnity to Indian Claimants and Others—</i>		
For the payment of claims of Indians and other claimants for the value of improvements made by them upon lands subsequently included in the Fort William H. Seward Military Reservation (submitted).....	2, 384.00	
NOTE.—The amount estimated for is for payment of claims of certain natives of Alaska for property of which they were deprived when, in 1909, some time after the site of the village of Chilkat had been included in the Military Reservation of Fort William H. Seward, the Indians living in that village were ordered to leave the reservation and thus compelled to vacate their homes.		
The act of May 17, 1884 (23 Stat., 26) being "An act providing a civil government for Alaska," provides "that the Indians or other persons in said district shall not be disturbed in the possession of any lands actually in their use or occupation or now claimed by them, but the terms under which such persons may acquire title to such lands is reserved for future legislation by Congress * * *" and in section 27 of the act of June 6, 1900 (31 Stat., 330), being an "Act to make further provision for a civil government for Alaska, and for other purposes," it is provided that "The Indians or persons conducting schools or missions in the district shall not be disturbed in the possession of any lands now actually in their use or occupation, * * *."		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. <i>Indemnity to Indian Claimants and Others—Continued.</i>																						
<p>By Special Order No. 35, Fort William H. Seward, July 12, 1909, a board of officers was convened at that post "for the purpose of reporting on the buildings situated on this military reservation along Chilkat Inlet, ascertaining, where possible, the owners thereof, appraising the present value of each building, and finally making recommendations with regard to their disposition." The board examined 78 claims relating to buildings located upon the territory of the reservation, the claimants in about 60 cases being Indians, and appraised the buildings at figures varying from \$60 to \$500, the aggregate appraisement in favor of Indian claimants being \$1,506, and in favor of others \$878.</p> <p>In December, 1910, there was submitted to Congress an estimate amounting to \$8,884 for the purchase of certain tracts of land and of the buildings thereon lying within the boundary of the military reservation of Fort William H. Seward, Alaska, which includes the claims mentioned in this communication. This estimate did not receive the favorable consideration of Congress and the funds estimated for were not appropriated, and the present estimate is submitted and favorable action urged in order that claimants who have been dispossessed by the Government of what they were legally or equitably entitled to enjoy may be justly dealt with.—<i>J. B. Aleshire, Quartermaster General, United States Army.</i></p>																						
<i>Reimbursement to Officers and Enlisted Men of the Army—</i>																						
For reimbursement to one officer and certain enlisted men of the Army the money value of clothing worn out by them in the summer of 1910 while fighting forest fires in the Northwest (submitted)	\$15,862.08																					
<p>NOTE.—The claims of the officer and enlisted men concerned cover only the cost of clothing worn by them while engaged in fighting forest fires in the States of California, Oregon, Washington, and Montana, in the summer of 1910, which clothing was destroyed or rendered unfit for further service.</p> <p>The loss was sustained by the following:</p> <table><tr><td>10 companies of the First Infantry</td><td>\$5,999.44</td></tr><tr><td>3 companies of the Second Infantry and detachment Hospital Corps</td><td>2,233.49</td></tr><tr><td>7 companies of Fourteenth Infantry and detachment Hospital Corps</td><td>1,051.72</td></tr><tr><td>Lieut. ENGINEER DEPARTMENT.		
<i>Engineer Depots—</i>		
For incidental expenses for the depots, including fuel, lights, chemicals, stationery, hardware, machinery; pay of civilian clerks, mechanics, and laborers; extra-duty pay to soldiers necessarily employed for periods of not less than 10 days as artificers on work in addition to and not strictly in the line of their military duties, such as carpenters, blacksmiths, draftsmen, printers, lithographers, photographers, engine drivers, telegraph operators, teamsters, wheelwrights, masons, machinists, painters, overseers, laborers; for lumber and materials and for labor for packing and crating engineer supplies; for repairs of and for materials to repair public buildings, machinery, and unforeseen expenses (act Mar. 3, 1911, vol. 36, p. 1055, sec. 1).....	\$20,000.00	
For purchase and repair of instruments to be issued to officers of the Corps of Engineers and to officers detailed and on duty as acting engineer officers for use on public works and surveys (same act).....	10,000.00	
	\$30,000.00	\$30,000.00
<i>Engineer School, Washington, D. C.—</i>		
Equipment and maintenance of the Engineer School at Washington Barracks, District of Columbia, including purchase of instruments, machinery, implements, models, and materials for the use of the school and for instruction of engineer troops in their special duties as sappers and miners; for land mining, pontoniering, and signaling; for purchase and binding of professional works and periodicals of recent date treating of military and civil engineering and kindred scientific subjects for the library of the United States Engineer School; for incidental expenses of the school, including fuel, lights, chemicals, stationery, hardware, machinery and boats; for pay of civilian clerks, draftsmen, electricians, mechanics, and laborers; for extra-duty pay to soldiers necessarily employed for periods of not less than 10 days as artificers on work in addition to and not strictly in the line of their military duties, such as carpenters, blacksmiths, draftsmen, printers, lithographers, photographers, engine drivers, telegraph operators, telephone operators, teamsters, wheelwrights, masons, machinists, painters, overseers, laborers; for repairs of and materials to repair public buildings and machinery; for unforeseen expenses; for travel expenses of officers on journeys approved by the Secretary of War and made for the purpose of instruction: <i>Provided, That the traveling expenses herein provided for shall be in lieu of mileage and other allowances; and to provide means for the theoretical and practical instruction at the Engineer School by the purchase of textbooks, books of reference, scientific and professional papers, and for other absolutely necessary expenses</i> (act Mar. 4, 1911, vol. 36, p. 1055, sec. 1).....	25,000.00	25,000.00
<i>Engineer Equipment of Troops—</i>		
For pontoon material, tools, instruments, equipment, and supplies required for use in the engineer equipment of troops, including the purchase and preparation of engineer manuals (act Mar. 3, 1911, vol. 36, p. 1056, sec. 1).....	90,000.00	90,000.00
NOTE.—The funds heretofore appropriated have not permitted the Chief of Engineers to fully supply the Army with the engineer equipment authorized by existing orders and regulations, and it has not been possible to accumulate a reserve supply. An appropriation of \$110,000 under this heading is considered essential and would be expended approximately as follows:		
1. For maintaining equipment of 12 engineer companies.....	\$8,000	
2. For purchase of various surveying and reconnaissance instruments, drafting supplies, process papers, etc., required for filling requisitions from chief engineer officers at military headquarters in the United States and the Philippine Islands, also to purchase a stock of standard instruments to be kept on hand to avoid delay in filling requisitions.....	15,000	
3. For purchase of reconnaissance instruments as issued under General Orders No. 73, War Department, 1907, and its amendments, and for repairs and renewals during the fiscal year.....	10,000	
4. For continuing the rehabilitation of the pontoon train.....	27,000	
5. For experimental development of searchlights for field use, traction engines, motor vehicles, and new form of equipment developed from time to time.....	10,000	
Power plants for use with engineer trains, traction engines and field searchlights, both auto-driven and hauled, are being rapidly introduced and developed abroad. A very small beginning has been made in our Army and the work should be pushed so as to develop suitable forms, etc., which requires much time.		
6. For reserve supply of engineer equipment for engineer troops.....	15,000	
7. For purchase of instruments, reconnaissance supplies, intrenching tools, photographic supplies, etc., to be kept in stock for issue to militia and volunteer troops when called into the service of the United States.....	15,000	
8. For reserve equipment for the Philippine Islands.....	10,000	
Total.....	110,000	
<i>W. H. Bixby, Chief of Engineers, United States Army.</i>		
NOTE.—The amount of this estimate has been reduced by direction of the Secretary of War from \$110,000 to \$90,000. The appropriation will be applied to the several purposes mentioned above, in such manner as may be found most advantageous during the year, unless otherwise ordered by Congress.— <i>W. H. Bixby, Chief of Engineers, United States Army.</i>		
<i>Civilian Assistants to Engineer Officers—</i>		
For services of surveyors, survey parties, draftsmen, photographers, master laborers, and clerks to Engineer officers on the staffs of division, corps, and department commanders (act Mar. 4, 1911, vol. 36, p. 1056, sec. 1).....	40,000.00	42,000.00
NOTE.—Owing to the organization of the military service in territorial divisions and the consequent reduction in the number of chief engineer officers, this amount is reduced from the amount appropriated for the fiscal year ending June 30, 1912.— <i>W. H. Bixby, Chief of Engineers, United States Army.</i>		
<i>Contingencies, Engineer Department, Philippine Islands—</i>		
For contingent expenses incident to the operations of the Engineer Department in the Philippine Islands, to be expended at the discretion of the Secretary of War (act Mar. 4, 1911, vol. 36, p. 1056, sec. 1).....	5,000.00	5,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
ORDNANCE DEPARTMENT.		
<i>Ordnance Service—</i>		
For the current expenses of the Ordnance Department, in connection with purchasing, receiving, storing, and issuing ordnance and ordnance stores, comprising police and office duties, rents, tolls, fuel, light, water, and advertising, stationery, and office furniture, tools, and instruments of service; for incidental expenses of the ordnance service and those attending practical trials and tests of ordnance, small arms, and other ordnance stores; and for publications for libraries of the Ordnance Department, including the ordnance office, and payment for mechanical labor in the office of the Chief of Ordnance (act Mar. 3, 1911, vol. 36, p. 1056, sec. 1).....	\$337,000.00	\$337,000.00
NOTE.—This is the same amount as was appropriated last year. One hundred and fifty-two thousand dollars is chargeable to the expenses of Coast Artillery and \$185,000 to the mobile army.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Ordnance Stores—Ammunition—</i>		
Manufacture and purchase of ammunition and materials therefor for small arms for reserve supply; ammunition for burials at the National Soldiers' Home in Washington, D. C.; ammunition for firing the morning and evening gun at military posts prescribed by General Orders No. 70, Headquarters of the Army, dated July 23, 1867, and at National Home for Disabled Volunteer Soldiers and its several branches, including National Soldiers' Home in Washington, D. C., and soldiers' and sailors' State homes (act Mar. 3, 1911, vol. 36, p. 1056, sec. 1).....	350,000.00	500,000.00
NOTE.—Estimated to procure a reserve supply of ball and guard cartridges, caliber .30, model of 1906, sodium nitrate, and ball cartridges for revolvers or pistols; also for ammunition for burials at National Soldiers' Home and for morning and evening guns; \$22,840.43 is chargeable to the expenses of Coast Artillery and \$327,159.57 to the mobile army.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Small-Arms Target Practice—</i>		
Ammunition, targets, and other accessories for small-arms and machine-gun target practice and instruction; marksmen's medals, prize arms, and insignia for all arms of the service; and ammunition, targets, target material, and other accessories may be issued for small-arms target practice and instruction at the educational institutions and State soldiers and sailors orphans' homes, to which issues of small arms are lawfully made, under such regulations as the Secretary of War may prescribe, provided the total value of the stores so issued to the educational institutions does not exceed \$30,000 (act Mar. 3, 1911, vol. 36, p. 1057, sec. 1).....	900,000.00	1,000,000.00
NOTE.—This should procure ball cartridges, caliber .30, model of 1906, revolver and pistol ball cartridges, blank cartridges, and gallery practice cartridges for the target year, and in addition the necessary target materials, marksmen's medals, and insignia, etc.		
This estimate is based on the allowance of ammunition per man prescribed in General Orders, No. 12, dated War Department, Jan. 17, 1911.		
This estimate also includes sufficient ammunition, targets, etc., to provide the Philippine Scouts with the same allowances as regular troops, in accordance with the instructions of the Secretary of War, dated Aug. 10, 1905.		
Ninety-six thousand seven hundred and sixty-six dollars and ninety-two cents is chargeable to the expense of Coast Artillery and \$803,233.08 is chargeable to the mobile army.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Manufacture of Arms—</i>		
For manufacturing, repairing, procuring, and issuing arms at the national armories (act Mar. 3, 1911, vol. 36, p. 1057, sec. 1).....	700,000.00	750,000.00
NOTE.—The \$700,000 stated above is estimated to procure 37,974 United States magazine rifles, caliber .30, model of 1903; 37,974 bayonets; and 37,974 bayonet scabbards; overhauling, repairing, and issuing arms, amounting to \$125,700.		
All chargeable to expense of the mobile army.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Ordnance Stores and Supplies—</i>		
For overhauling, cleaning, repairing, and preserving ordnance and ordnance stores in the hands of troops and at the arsenals, posts, and depots; for purchase and manufacture of ordnance stores to fill requisitions of troops; for Infantry, Cavalry, and Artillery equipments, including horse equipments for Cavalry and Artillery (act Mar. 3, 1911, vol. 36, p. 1057, sec. 1).....	800,000.00	800,000.00
NOTE.—Estimated to procure ordnance stores for issue to troops, including cleaning, repairing, and preserving supplies; for overhauling, cleaning, repairing, and preserving ordnance and ordnance stores at arsenals, posts, and depots; and for supplies for cleaning and preserving equipments; \$115,333.35 is chargeable to expense of Coast Artillery and \$684,666.65 to the mobile army.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>National Trophy and Medals for Rifle Contests—</i>		
For the purpose of furnishing a national trophy and medals and other prizes to be provided and contested for annually under such regulations as may be prescribed by the Secretary of War, said contest to be open to the Army, Navy, Marine Corps, and the National Guard or Organized Militia of the several States, Territories, and of the District of Columbia, members of rifle clubs and civilians, and for the cost of the trophy, prizes, and medals herein provided for and for the promotion of rifle practice throughout the United States, including the reimbursement of necessary expenses of members of the National Board for the Promotion of Rifle Practice, to be expended for the purposes hereinbefore prescribed under the direction of the Secretary of War (act Mar. 3, 1911, vol. 36, p. 1058, sec. 1).....	10,000.00	10,000.00
NOTE.—This is the same amount as was appropriated last year. The entire amount is chargeable to the mobile army.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Automatic Rifles—</i>		
For the purchase, manufacture, and test of automatic rifles, including their sights and equipments, to be available until the close of the fiscal year ending June 30, 1914 (act Mar. 3, 1911, vol. 36, p. 1058, sec. 1)	\$200,000.00	\$200,000.00
NOTE.—Estimated to procure 150 automatic rifles, caliber .30, complete, with tools, accessories, spare parts and pack outfits.		
This number is considered necessary for the gradual equipment of the service and for the accumulation of a proper war reserve.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Field Artillery for Organized Militia—</i>		
For the purpose of procuring field artillery material for the Organized Militia of the several States, Territories, and the District of Columbia, without cost to the said States, Territories, or the District of Columbia, but to remain the property of the United States and to be accounted for in the manner now prescribed by law, the Secretary of War is hereby authorized, under such regulations as he may prescribe, on the requisitions of the governors of the several States and Territories or the commanding general of the Militia of the District of Columbia, to issue said artillery material to the Organized Militia; and the sum of \$1,600,000 is hereby appropriated and made immediately available and to remain available until the end of the fiscal year 1914, for the procurement and issue of the articles constituting the same (act Mar. 3, 1911, vol. 36, p. 1058, sec. 1)	1,600,000.00	770,000.00
NOTE.—Estimated to procure ten 4.7-inch howitzer batteries, complete, with tools, accessories, spare parts, fire-control instruments, horse equipments, personal equipments, etc.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Ammunition for Field Artillery for Organized Militia—</i>		
For procuring reserve ammunition for field artillery for the Organized Militia of the several States, Territories, and the District of Columbia (submitted)	1,500,000.00	
NOTE.—The estimated cost of the ammunition required to provide the prescribed allowance of reserve ammunition for the Field Artillery on hand or under manufacture for the Organized Militia is \$4,422,000. The estimated value of the ammunition in the hands of the Organized Militia is \$70,000. The amount of this estimate would provide 34 per cent of the required allowance.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Replacing Ordnance and Ordnance Stores—</i>		
For the reimbursement of the Ordnance Department on account of the loss of arms, arm chests, and screw drivers, issued to the Post Office Department (submitted)	118.30	
NOTE.—During the years 1887 and 1888 the Ordnance Department, in accordance with the law, issued upon the request of the Postmaster General a number of Colt's revolvers, with accessories, for the purpose of arming railway postal clerks on lines passing through the West, as a safeguard against train robbers. When, after a number of years, the property was returned part of it, to the value of \$118.30, was found missing. It had probably been missing for a long time, but return for it, representing it as on hand, had continued to be made. No explanation of its loss which would enable the War Department to relieve the Post Office Department from responsibility has been made, and the correspondence fails to show that receipts were obtained from the employees to whom the arms had been directed issued. Upon request for reimbursement the Postmaster General states that his department has no appropriation available for the purpose, and suggests that relief be obtained from Congress by the War Department.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Provided, That hereafter when authorized transfers or sales of ordnance or ordnance stores are made to another bureau of the War Department, or to another executive department of the Government, payment therefor shall be made by the proper disbursing officer of the bureau, office, or department concerned. When the transaction is between two bureaus of the War Department, the price to be charged shall be the cost price of the stores, including the cost of inspection. When the transaction is between the Ordnance Department and another executive department of the Government, the price to be charged shall include the cost price of the stores and the costs of inspection and transportation (submitted).</i>		
NOTE.—Settlement for property transferred to other bureaus and departments of the Government is now made by charging and crediting upon the books of the Treasury Department the appropriations involved. This process entails considerable clerical labor, and usually a delay varying from two to six months, depending upon the distance from Washington to the point where the transfer is made. In the case of transfers made within two or three months from the end of the fiscal year, and involving appropriations applicable only to that year, the appropriation to be credited sometimes does not receive the credit in time to permit the use of the funds before the right to use them has expired.		
Transfers of property between bureaus and departments of the Government are essentially sales so far as the results to the appropriations involved are concerned, and there seems to be no good reason why the method of settlement should not be the same as in the case of purchases from civilians.		
The proposed legislation simply extends to the Ordnance Department the authority granted to the Subsistence Department of the Army by a provision in the act making appropriations for the support of the Army, approved Mar. 3, 1911, which legislation is believed to be in the interest of simplicity and economy in clerical labor.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>

<i>Pay of Military Academy—</i>		
Permanent establishment:		
For pay of 7 professors (R. S., p. 228, sec. 1336, p. 225, sec. 1309; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1015)	\$25,500.00	
<i>Provided, That any officer of the United States Army now holding the position of permanent professor at the United States Military Academy, who, on July first, nineteen hundred and fourteen, shall have served not less than thirty-three years in the Army, one-third of which service shall have been as professor and instructor at the Military Academy, shall on that date have the rank, pay, and allowances of a colonel in the Army.</i>		
NOTE.—The reduction over the amount appropriated last year (\$26,500) is accounted for by the death of Prof. Larned and the retirement from active service of Prof. Tillman, who both had the rank of colonel.— <i>Thomas H. Barry, Major General, United States Army, Superintendent, United States Military Academy.</i>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay of Military Academy—Continued.</i> <i>Permanent establishment—Continued.</i>

For pay of 1 master of the sword (R. S., p. 225, sec. 1309; acts Mar. 3, 1905, vol. 33, p. 850, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, p. 1015).....	2, 400.00	
For pay of 632 cadets, at \$600 each per annum (increase of \$79,200 submitted) (R. S., p. 226, sec. 1315; acts June 6, 1909, vol. 31, p. 656; June 28, 1902, vol. 32, p. 410; May 3, 1903, vol. 32, p. 1011; Mar. 3, 1911, vol. 36, p. 1015).....	379, 200.00	
	\$409, 500.00	
<i>Provided</i> , That no person of foreign birth shall be hereafter admitted to the United States Military Academy until he shall have passed the mental and physical examinations prescribed for candidates from the United States, and that he shall be immediately withdrawn if deficient in studies or conduct and so recommended by the Academic Board.		
<i>Provided further</i> , That whenever any cadetship at the United States Military Academy is available for the appointment of a cadet from any State at large, or from any congressional district or Territory, the President shall appoint a cadet from the United States at large to fill such cadetship unless the proper Senator, Representative, or Delegate in Congress shall nominate an eligible candidate for appointment to such cadetship within six months after having been requested by the War Department to nominate such a candidate: <i>Provided further</i> , That hereafter whenever all vacancies at the Military Academy shall not have been filled as a result of the regular annual entrance examination the superintendent shall fill not to exceed thirty of the remaining vacancies by admissions from the whole list of alternates, selected in their order of merit established at such entrance examinations, preferably from the same State in which the vacancy occurs. The admissions thus made shall be credited to the United States at large and shall not interfere with or affect in any manner whatsoever any appointment authorized by existing law: <i>And provided further</i> , That whenever by the operation of this or any other law the Corps of Cadets exceeds its authorized maximum strength as now provided by law the admission of alternates as herein prescribed shall cease until such time as the Corps of Cadets may be reduced below its present authorized strength.		
NOTE.—Under the act of Congress approved Apr. 19, 1910, the strength of the Corps of Cadets on July 1, 1912, will be 632, and the above estimate is based upon that number.— <i>Thomas H. Barry, Major General, United States Army, Superintendent, United States Military Academy.</i>		
For extra pay of officers of the Army on detached service at the Military Academy:		
For pay of 1 commandant of cadets (lieutenant colonel in addition to pay as major) (R. S., p. 228, sec. 1334; act Mar. 4, 1911, vol. 36, p. 1302).....	500.00	
NOTE.—The present incumbent has been promoted from captain to major, so the difference between the pay of a lieutenant colonel and major is all that is necessary.— <i>Thomas H. Barry, Major General, United States Army, Superintendent, United States Military Academy.</i>		
For pay of 1 professor of ordnance and science of gunnery (lieutenant colonel in addition to pay as major) (acts May 2, 1907, vol. 34, p. 1063, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	500.00	
For pay of 1 professor of law (lieutenant colonel in addition to pay as major) (R. S., p. 228, sec. 1336; R. S., p. 225, sec. 1309; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	500.00	
For pay of 1 instructor of practical military engineering (major in addition to pay as captain) (R. S., p. 228, sec. 1336; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	600.00	
For pay of 10 assistant professors (captains in addition to pay as first lieutenants) (increase of \$400 submitted) (R. S., p. 225, sec. 1309; R. S., p. 228, sec. 1337; acts Apr. 29, 1912, vol. 23, p. 720, sec. 2; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).	4, 000.00	
NOTE.—The position of the additional assistant professor is provided for by law, but the pay was not asked for in the last estimate, as it was occupied by a field officer.— <i>Thomas H. Barry, Major General, United States Army, Superintendent, United States Military Academy.</i>		
For pay of 2 battalion commanders (majors in addition to pay as captains) (acts May 11, 1908, vol. 35, p. 108, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	1, 200.00	
For pay of 2 senior instructors of artillery tactics and practical military engineering (captains in addition to pay as first lieutenants) (decrease \$400) (R. S., p. 228, sec. 1337; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	800.00	
NOTE.—The pay of senior instructor of infantry tactics has been omitted, as he is one of the battalion commanders and receives the pay of a major.— <i>Thomas H. Barry, Major General, United States Army, Superintendent, United States Military Academy.</i>		
For pay of 7 instructors of cavalry, artillery, and infantry tactics (captains in addition to pay as second lieutenants) (R. S., p. 228, sec. 1337, acts Mar. 3, 1875, vol. 18, p. 467, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	4, 900.00	
For pay of 1 adjutant who shall not be above the rank of captain (R. S., p. 226, sec. 1309; acts Mar. 4, 1909, vol. 35, p. 1028, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	600.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay of Military Academy—Continued.</i>		
For extra pay of officers of the Army on detached service at the Military Academy—Cont'd.		
For pay of 1 quartermaster and commissary of cadets and treasurer, in addition to pay as captain (acts May 11, 1908, vol. 35, p. 108, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	\$600.00	
For pay of 1 line officer on duty in the Quartermaster's Department at the academy, in addition to pay as first lieutenant (acts June 6, 1900, vol. 31, p. 911, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	400.00

For pay of 1 associate professor of modern languages (major in addition to pay as captain) (acts Mar. 3, 1903, vol. 32, p. 1012, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	600.00	
For pay of 1 constructing quartermaster in addition to his regular pay (acts Mar. 4, 1909, vol. 35, p. 1028, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	1,000.00	
	\$16,800.00	
<i>Provided, That so much of the act approved March 3, 1911, making appropriations for the support of the Military Academy for the fiscal year ending June 30, 1912, as provided that the increase of salary of the constructing quartermaster should only apply during the term the office was held by the then incumbent is hereby repealed, and the additional pay thus provided is available for the present incumbent from the date he entered upon his duties.</i>		
NOTE.—In all fairness and justice the present constructing quartermaster is entitled to the additional compensation which his predecessor received.— <i>Thomas H. Barry, Major General, United States Army, Superintendent, United States Military Academy.</i>		
For additional pay of professors and officers and officers of increased rank for length of service (R. S., p. 220, sec. 1262, 1263; p. 228, sec. 1336; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	12,000.00	
For pay of Military Academy Band, field musicians, general Army service, cavalry and artillery detachments and enlisted men on detached service and extra duty pay for enlisted men on special duty—		
For pay of Military Academy Band:		
One band sergeant and assistant leader, at \$75 per month (acts Mar. 2, 1901, vol. 31, p. 712, sec. 1; Mar. 3, 1905, vol. 33, p. 853, sec. 1; May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	900.00	
Twelve enlisted musicians, at \$45 each per month (same acts).....	6,480.00	
Twelve enlisted musicians, at \$36 each per month (same acts).....	5,184.00	
Sixteen enlisted musicians, at \$30 each per month (same acts).....	5,760.00	
	18,324.00	
Additional pay for length of service (acts May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	5,532.00	
For pay of field musicians:		
One sergeant, at \$50 per month (same acts).....	600.00	
Two corporals, at \$21 each per month (increase of 1 corporal submitted) (same acts).....	504.00	
Twenty-seven privates, at \$15 each per month (increase of 5 privates submitted) (same acts).....	4,860.00	
	5,964.00	
Additional pay for length of service (same acts).....	864.00	
NOTE.—An increase of 6 men is submitted. These men are urgently needed on account of the increase in the Corps of Cadets and the additional duty devolving upon this detachment. The increase in the additional pay for length of service is due to the increase in the detachment.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent, United States Military Academy.</i>		
For pay of general Army service—		
One first sergeant, at \$45 per month (acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1016).....	540.00	
Nine sergeants, at \$30 each per month (increase of 1 sergeant submitted) (same acts).....	3,240.00	
Ten corporals, at \$21 each per month (increase of 1 corporal submitted) (same acts).....	2,520.00	
Three cooks, at \$30 each per month (increase of 1 cook submitted) (same acts).....	1,080.00	
Two hundred and two privates, at \$15 each per month (increase of 22 privates submitted) (same acts).....	36,360.00	
	43,740.00	
Additional pay for length of service (same acts).....	20,258.00	
NOTE.—An increase of 1 sergeant, 1 corporal, 1 cook, and 22 privates is submitted. This is necessary in order to meet the greater demands made upon the detachment for mechanics and laborers since the addition of the new buildings and the increase in the amount of work required. Three cooks are estimated for instead of 2. In the service 2 cooks are allowed to each troop and company consisting of only 64 men, while the 2 cooks of the detachment cook for over twice that number, and it is necessary now to give them assistance.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent, United States Military Academy.</i>		
Extra pay of enlisted men of the Army service detachment, Quartermaster's Department, on extra duty at West Point (acts Mar. 2, 1907, vol. 34, p. 1064, sec. 1; Mar. 3, 1911, vol. 36, p. 1017).....	27,426.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay of Military Academy—Continued.</i>		
For pay of Military Academy Band, field musicians, general Army service, etc.—Continued.		
For pay of cavalry detachment:		
One first sergeant, at \$45 per month (acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1017).....	\$540.00	
One stable sergeant, at \$30 per month (same acts).....	360.00	
Seven sergeants, at \$30 each per month (increase of 2 sergeants submitted) (same acts)...	2,520.00	
Three cooks, at \$30 each per month (increase of 1 cook submitted) (same acts).....	1,080.00	
Fourteen corporals, at \$21 each per month (increase of 6 corporals submitted) (same acts).....	3,528.00	
Two trumpeters, at \$15 each per month (same acts).....	360.00	
Two horseshoers, at \$30 each per month (increase of 1 horseshoer submitted) (same acts).....	720.00	
One farrier, at \$21 per month (same acts).....	252.00	
One saddler, at \$21 per month (same acts).....	252.00	
One wagoner, at \$21 per month (same acts).....	252.00	
One hundred and twenty-seven privates, at \$15 each per month (increase of 50 privates submitted) (same acts).....	22,860.00	
Additional pay for length of service (same acts).....	\$32,724.00 12,588.00	
<p>NOTE.—An increase of 2 sergeants, 1 cook, 6 corporals, 1 horseshoer, and 50 privates is submitted. This detachment is not of sufficient strength to perform its duties and at certain times of the year it is unable to do what is demanded of it. The increase asked for is absolutely necessary to perform the new duties caused by the completion of the new riding hall and the increase of the corps of cadets. With the increase of the corps approximately 250 more cadets will be under instruction at one time. The horses, equipment, and working plant for this can not be handled by less than a detachment of 160 men. The number of noncommissioned officers is placed, as above, because all details going out with cadet horses must be under the charge of a noncommissioned officer to insure proper discipline, equipment, etc. The duties of the detachment are such that a large number of noncommissioned officers are needed. The additional horseshoers are required as this detachment has about two and one-half times the number of horses allowed a troop of cavalry and considerably more than that allowed a battery of artillery where 5 mechanics, most of whom are capable of horseshoeing, are authorized. The cook is necessary with the increase asked for.—Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</p>		
For pay of Artillery detachment:		
One first sergeant, at \$45 per month (acts May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 481, sec. 1; Mar. 3, 1911, vol. 36, p. 1017).....	540.00	
One quartermaster sergeant, at \$30 per month (same acts).....	360.00	
One stable sergeant, at \$30 per month (same acts).....	360.00	
One chief mechanic, at \$24 per month (same acts).....	288.00	
Nine sergeants, at \$30 each per month (increase of 3 sergeants submitted) (same acts)...	3,240.00	
Three cooks, at \$30 each per month (same acts).....	1,080.00	
Sixteen corporals, at \$21 each per month (increase of 4 corporals submitted) (same acts).....	4,032.00	
Six mechanics, at \$21 each per month (increase of 2 mechanics submitted) (same acts)...	1,512.00	
Two trumpeters, at \$15 each per month (same acts).....	360.00	
One hundred and twenty-seven privates, at \$15 each per month (increase of 25 privates submitted) (same acts).....	22,860.00	
One electrician sergeant, first class, at \$45 per month (same acts).....	540.00	
One electrician sergeant, second class, at \$36 per month (act Mar. 3, 1911, vol. 36, p. 1017).....	432.00	
One master gunner, at \$40 per month (same act).....	480.00	
For additional pay for first and second class gunners (same act).....	2,103.10	
Additional pay for length of service (acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1017).....	38,187.10 2,253.32	
<p>NOTE.—An increase of 3 sergeants, 4 corporals, 2 mechanics, and 25 privates, and the consequent pay of gunnery, length of service, clothing on discharge, etc., is submitted. The present artillery detachment mans and takes care of one 3-inch gun battery, manned, horsed, and equipped; one 3-inch gun battery, equipped; one 2.95-inch gun battery, partly manned, horsed, and equipped; one 4.7-inch battery, equipped; 1 primary observing station; 1 secondary observing station; 1 searchlight station; and 1 meteorological station.</p>		
The artillery detachment also assists the ordnance detachment in caring for one 6-inch gun battery, seacoast artillery, equipped; and one 12-inch mortar battery, seacoast artillery.		
In view of the fact that the strength of this detachment is but 136 enlisted men (the number authorized by Congress to man and care for only one 3-inch gun battery), it seems unnecessary to state further reasons for the imperative need of the increase of the 34 men asked for. Every gun and every article of the above equipment is absolutely necessary for the proper instruction of cadets. Nothing can be dispensed with, but to properly care for the equipment and derive a fair degree of interest on the investment more men are necessary in the detachment. The increase asked for is the lowest number consistent with economy and efficiency.—Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.		
Bonus to enlisted men reenlisting within three months from date of discharge (acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1017).....	2,396.00	
Travel allowances to enlisted men on discharge (acts Mar. 2, 1901, vol. 31, p. 902, sec. 1; June 12, 1906, vol. 34, p. 247, sec. 1; Mar. 3, 1911, vol. 36, p. 1017).....	853.52	
Clothing not drawn due enlisted men on discharge (R. S., p. 224, sec. 1302; R. S., p. 225, sec. 1308; act Mar. 3, 1911, vol. 36, p. 1017).....	7,972.60	
Interest on deposits due enlisted men (R. S., p. 225, sec. 1305-1308; acts June 12, 1906, vol. 34, p. 247, sec. 1; Mar. 3, 1911, vol. 36, p. 1017).....	825.16

For extra pay of 3 enlisted men employed as clerks in office of the adjutant, United States Military Academy, at 50 cents each per day (act Mar. 3, 1911, vol. 36, p. 1018) ..	\$547. 50				
For extra pay of 3 enlisted men employed as clerks in the office of the commandant of cadets, at 50 cents each per day (increase of \$182.50 submitted) (same act).....	547. 50				
NOTE.—This additional clerk will be needed on account of the increase in the corps of cadets. His duties will be similar to those of the 2 enlisted men now so employed.— Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.					
For extra pay of 4 enlisted men employed as printers at headquarters United States Military Academy, at 50 cents each per day (same act).....	626. 00				
For extra pay of 1 enlisted man employed as assistant bookbinder at headquarters, at 50 cents per day (submitted).....	156. 50				
NOTE.—The bindery force consists of 1 man and 2 women. An enlisted man as an assistant is needed. During the present fiscal year 2,125 books and 9,500 pamphlets have been bound and 908 maps mounted, aside from other routine work.— Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.					
For extra pay of 1 enlisted man employed as watchman, at 35 cents per day (act Mar. 3, 1911, vol. 36, p. 1018).....	191. 63				
For extra pay of 1 enlisted man employed as trumpeter at the cadet barracks, at 35 cents per day (same act).....	159. 69				
For extra pay of 2 enlisted men employed in the philosophical department observatory, 1 as a mechanic and 1 in care of apparatus, at 50 cents each per day (same act)	313. 00				
NOTE.—Both these items are old ones and heretofore have appeared in separate items in different parts of the bill.— Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.					
For extra pay of 2 enlisted men employed in the chemical department, at 50 cents each per day (same act).....	313. 00				
NOTE.—These are old items and have been combined.— Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.					
For extra pay of 1 enlisted man employed in the department of drawing, at 50 cents per day (same act).....	156. 50				
For extra pay of 1 enlisted man employed in the mathematical department, at 50 cents per day (same act).....	156. 50				
For extra pay of 6 ordnance soldiers employed, 1 as draftsman in charge of museum, 1 as machinist, 1 as clerk, 1 in the department of ordnance and gunnery, 1 as skilled attendant in the museum, and 1 employed as carpenter and painter, at 50 cents each per day (increase of \$156.50 submitted) (same act).....	939. 00½				
NOTE.—These are all old items with the exception of the last one, which provides for the employment of one enlisted man as carpenter and painter, which have heretofore appeared in the bill as separate items. To keep in repair all the small-arm targets used by cadets besides doing a great amount of carpentering and painting work in connection with the ordnance department at the post and the department of ordnance and gunnery, the additional pay for one man is necessary.— Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.					
For extra pay of 1 noncommissioned officer in charge of Army service detachment mess (same act).....	72. 00				
For extra pay of 2 enlisted men employed as messengers in the office of the adjutant, United States Military Academy, at 35 cents each per day (same act).....	219. 10				
For extra pay of 7 enlisted men (cavalrymen) employed, 2 when performing especially skilled mechanical labor, 1 as saddler, 1 in charge of property and saddle equipment pertaining to riding and equitation other than military, 1 sergeant in charge of stables and horses, 1 clerk, and 1 in charge of new riding hall and property, and property contained therein, increase of \$365 submitted (same act).....	1, 173. 50				
NOTE.—All of the above items with the exception of the last two are old items. A clerk is necessary, as this detachment is a colored organization and it is difficult to obtain and hold a competent clerk. It is a large organization with much additional clerical work, due to keeping records of the general instruction of cadets in cavalry subjects and arranging details for carrying out the same. The new riding hall will require the constant care of at least 3 men, the hours that it will be in use will be very long, and a great deal of labor will be required for its care.— Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.					

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay of Military Academy—Continued.</i>		
For pay of Military Academy Band, field musicians, general Army service, etc.—Continued.		
Extra pay to enlisted men—Continued.		
For extra pay of 13 enlisted men (cavalrymen), 2 teamsters, 9 laborers in keeping clean the equipment used by cadets in riding and equitation other than military, and 2 laborers for harrowing, sprinkling, and assisting in caring for the new riding hall, at 35 cents each per day (increase of \$219.10 submitted) (act Mar. 3, 1911, vol. 36, p. 1018).....	\$1, 460. 55	
NOTE.—All of the above items are old ones except the one asking for the 2 laborers whose services are needed for the care of the new riding hall, which will require the constant work of at least 3 men; the hours the building will be required for use will be very long and a great deal of labor necessary for its care.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</i>		
For extra pay of 1 enlisted man in charge of engineer property and fatigue, at 50 cents per day (same act).....	156. 50	
For extra pay of 4 enlisted men employed as assistants and attendants at the library, at 50 cents each per day (same act).....	684. 00	
For extra pay of 1 enlisted man employed as clerk in the department of practical military engineering and to the officer in charge of waterworks and works of construction at the Military Academy, at 50 cents per day (same act)	156. 50	
For extra pay of 8 enlisted men (artillerymen), 3 performing extra mechanical labor, 1 sergeant in charge of stables, horses, and mules, 1 enlisted man employed as clerk and stenographer to senior instructor of artillery tactics, and 3 enlisted men performing the duty of mechanics in the batteries, at 50 cents each per day (increase of \$581 submitted) (same act).....	1, 050. 50	
NOTE.—The first item providing for 3 men performing extra mechanical labor is an old item. The others are new and are recommended for the following reasons: The extra pay asked for the clerk is required to pay an enlisted man of the artillery detachment who, in addition to having charge of all property papers, records, signal corps and ordnance property returns, and correspondence of the detachment, makes out lessons for the different classes of cadets in artillery drill regulations and performs the duties of stenographer and typewriter to the senior instructor of artillery tactics. He is employed all the year round, Sundays included. The amount of clerical labor required to procure and account for the property used by cadets for coast and field artillery instruction and to keep the records and prepare the correspondence with the administration of the detachment and the course of instruction of cadets in artillery is so great that only a man of skill and education can perform the duties of a stenographer and clerk. Men possessing the necessary qualifications command good salaries in civil life, and they can not be kept in the service without extra pay. The correspondence and paper work incident to the care and maintenance of four field batteries and accessories to the seacoast batteries, for use of cadets, approximate that of a regiment. The detachment commander has no officer to assist in the duties, as is the case with a regimental commander, and he is specially dependent on a clerk for office details of administration. In this manner the clerk is a material factor in raising the standard of instruction given the cadets.		
The stable sergeant is responsible for the details of feeding and watering 121 horses and 8 mules, and for the treatment of these animals when they are sick or injured. During a large part of the year the hours for stable duties are very long, because of cadet drills, and an unusual demand is made upon the skill and the time of this noncommissioned officer. Only a man of high intelligence, experience, and training can perform the duties, and to obtain and keep such a man requires more pay than that of a sergeant. The present incumbent was receiving \$5 a day from a militia battery when he came to the detachment, and his predecessor, who was most efficient, would not reenlist at the expiration of his service. The value to the Government of a competent man who will stay is far more than the small extra pay requested.		
A 4-gun battery is allowed 1 chief mechanic and 4 mechanics. This detachment has four 4-gun batteries. It has mechanics, however, for only one battery. The additional pay requested will permit detailing 1 man to each of the three batteries not fully manned and the paying of such men at the same rate as mechanics in other batteries. As is well known, a modern gun is an exceedingly valuable and complicated piece of mechanism. It must be operated and all parts must be kept clean and in repair by an expert in such work. A high order of intelligence and long experience are required for a competent mechanic. It requires the time of one man to keep the guns, carriages, and accessories of a battery in thorough condition. These batteries are used for teaching cadets, and should be kept in model order. The excessive handling for purpose of instruction requires constant watchfulness and necessitates numerous repairs. Privates have been detailed for this duty, but men are unwilling to do the extra work without compensation, and as a result frequent changes have been necessary, and the work has not been well done. To secure a permanent state of efficiency the men must and should receive extra pay appropriate to their duties.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For extra pay of 3 teamsters (artillerymen), at 35 cents each per day (submitted).....	383. 25	
NOTE.—These men are required to perform hard manual labor continually, consisting of policing stables, loading and unloading manure, forage, and supplies, caring for two horses, harness, and wagons each, and driving teams. Nothing they do is of a military character, yet their services are most necessary to the administration of the detachment. Their hours are longer and their work heavier than that of men performing corresponding labor in organizations elsewhere. For the same duties, extra pay is allowed at all posts. These men must be sober, steady, and good horsemen in order to accomplish the daily demands made on them and to keep their horses in good condition. Men are unwilling to have the detail without extra pay for extra labor and frequent changes are necessary in the detail, with correspondingly poor service. The interests of the service will be served and the men will have only what is due them by allowing them the small sum requested.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For extra pay of 3 enlisted men employed as clerks in the office of the quartermaster and 1 as clerk in charge of clothing room in quartermaster's storehouse, at 50 cents each per day (act Mar. 3, 1911, vol. 36, p. 1018).....	678. 00	
NOTE.—These are old items and have been combined.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For extra pay of 1 enlisted man employed in the department of civil and military engineering, at 50 cents per day (same act).....	156. 50	
For extra pay of 1 sergeant of engineers acting as first sergeant (same act).....	108. 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay of Military Academy—Continued.</i>		
For pay of Military Academy Band, field musicians, general Army service, etc.—Continued.		
Extra pay to enlisted men—Continued.		
For extra pay of 2 cooks of engineers, at \$12 each per month (act Mar. 3, 1911, vol. 36, p. 1018.)	288.00	
For extra pay of 1 teamster (engineer soldier) employed in the department of practical military engineering in connection with water supply and on works of construction, at 35 cents per day (submitted)	127.75	
NOTE.—This is a new item for the compensation of one enlisted man employed as a teamster in connection with the work of the department, the water supply, and certain other works of construction. He has the care of three horses, hauls a great deal of material required for cadet instruction in field fortifications and field engineering, and tools, instruments, and apparatus required for surveying and signal instruction. His hours of duty are longer and more exacting than those of other enlisted men in this detachment on ordinary duty. He performs about the same amount of duty as a teamster that is performed by teamsters of the Army service detachment and does certain duty as a soldier of engineers in addition.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For extra pay of 1 enlisted man employed in charge of cadet target range, at 50 cents per day (submitted)	65.00	
NOTE.—This item is new and is intended for the compensation of one enlisted man who has charge of the range and all repairs thereto during the period of cadet target practice. During the summer the range is used by cadets during the mornings and afternoons until 3 p. m. In order to provide targets, make repairs, etc., the man in charge must work frequently until after dark. The hours are very long and the duty very exacting, involving a knowledge of and skill in repairing the signal communication between firing points and target huts.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For extra pay of 1 enlisted man employed in the offices and section rooms of the department of modern languages (submitted)	156.50	
NOTE.—This man in addition to his ordinary work in taking care of the section rooms in the academy building, which work is the same as that performed by the ordinary enlisted attendants in said building, also takes care of the office rooms in said building pertaining to the department. As all of this is in addition to the ordinary work of the enlisted attendants he should therefore receive additional pay therefor, and extra pay is therefore recommended.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For extra pay of 1 enlisted man employed as janitor and substitute teacher in the children's school, at 50 cents per day (submitted)	156.50	
NOTE.—This man was carried on extra duty as teacher and janitor and was paid 50 cents per day from the allotment of the Quartermaster General, U. S. Army, for this purpose until this expenditure was disapproved by the auditor a year ago. No provision for his pay was included in the estimates for the maintenance of the children's school; his services are necessary and his pay has since been an unexpected burden on that appropriation. The enlisted man on extra duty as school-teacher takes the place of any of the teachers who are absent for sickness or other reason. He typewrites and reports, is responsible for the books and school property, issues the books and stationery to the children and keeps record thereof. As janitor he cleans the building twice a day, washes the blackboards, has charge of the heating plant, and takes care of the grounds.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</i> Provided, That the extra pay provided by the preceding paragraph shall not be paid to any enlisted men who receive extra-duty pay under existing law or army regulations.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</i>		
<i>Pay of civilians:</i>		
For pay of 1 teacher of music (acts Mar. 2, 1901, vol. 31, p. 912; Mar. 13, 1905, vol. 33, p. 853; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1019)	1,700.00	
For pay of 4 clerks in the office of the quartermaster, as follows: 1 clerk, at \$1,500; 2, at \$1,400 each, and 1 clerk and stenographer, at \$1,200 (same acts)	5,500.00	
NOTE.—These are old items but have been combined.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</i>		
For pay of 9 clerks and stenographers employed at headquarters United States Military Academy, increase of \$800 submitted (same acts)	11,800.00	
NOTE.—All these clerks have been employed, most of them for many years, and have been provided for heretofore in separate items. They are as follows with recommended increases in the pay of two:		
Clerk in charge of cadet records..... \$1,500 Clerk to the adjutant..... 1,500 2 clerks and stenographers in office of the adjutant, at \$1,000 each..... 2,000 2 clerks, at \$1,400 each..... 2,800 1 clerk, at \$1,200 (increase of \$600)..... 1,800 1 clerk, at \$1,000 (increase of \$200)..... 1,200 1 clerk, at \$1,000..... 1,000		
The items have heretofore provided for 10 clerks and stenographers, but, owing to the employment of one of the clerks in the office of the commandant of cadets, a separate item appears for him, which is also an old item.		
I recommend that an increase of \$600 in the salary of the chief clerk be made and that \$200 increase be made in the salary of another clerk, who have both been on duty at the Military Academy for many years. At present the chief clerk receives but \$1,200 and the other clerk referred to but \$1,000.		
The chief clerk of the adjutant's office occupies the most important clerical position at the academy and his pay should be commensurate with his position and duties and equal to that of the chief clerks of other departments.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</i>		
For pay of 1 clerk to treasurer (same acts)	1,800.00	
For pay of 1 clerk and stenographer in the office of the commandant of cadets (same acts)	1,000.00	
NOTE.—This is an old item and has heretofore been included with the clerks for headquarters.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</i>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay of Military Academy—Continued.</i>		
<i>Pay of civilians—Continued.</i>		
For pay of 2 civilian instructors of French, to be employed under rules prescribed by the Secretary of War, \$2,000 each per annum (acts Mar. 2, 1901, vol. 31, p. 912; Mar. 13, 1905, vol. 33, p. 853; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1019).....	\$4, 000. 00	
For pay of 2 civilian instructors of Spanish, to be employed under rules prescribed by the Secretary of War, \$2,000 each per annum (same acts).....	4, 000. 00	
<i>Provided</i> , That hereafter the above-named civilian instructors shall have the same allowance with respect to quarters, fuel, and light as those of a second lieutenant.		
<i>NOTE.</i> —For these instructors to be compelled to live away from West Point and from their duties is detrimental to their efficiency and the proper performance of their duties and has caused the loss to the department of one of its most efficient instructors.— <i>Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</i>		
For pay of 2 expert civilian instructors in fencing, broad-sword exercises, and other military gymnastics, as may be required to perfect this part of the training of cadets (increase of \$400 submitted) (same acts).....	3, 400. 00	
For pay of 1 professional civilian instructor in gymnastics, athletics, and swimming (increase of \$200 submitted) (same acts).....	1, 700. 00	
<i>Provided</i> , That hereafter these 3 civilian instructors shall be entitled to the same allowance with respect to quarters, fuel, and light as a second lieutenant.		
<i>NOTE.</i> —The increase of these 3 instructors is recommended. They are all efficient and worthy of the increase asked for. The proviso with respect to quarters is to place them all on the same basis.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For pay of 1 librarian (same acts).....	3, 000. 00	
For pay of assistant librarian (increase of \$300 submitted) (same acts).....	1, 500. 00	
<i>NOTE.</i> —The increase asked for is recommended. The present incumbent was appointed librarian's assistant on May 18, 1903, at \$1,000 per year, leaving a business position in which he was receiving a salary of \$1,200. He was engaged to do the duties of a stenographer and typewriter, and this work has been done in the best possible manner. He has, moreover, learned to typewrite in French and German, etc., and has gradually mastered a large part of the special business of a librarian, so that the value of his services has been greatly increased. In particular, he has systematized the business side of the library work (the purchase and binding of books, etc.), so as to fill the special needs of this library in an excellent manner. The salary of the position was increased from \$1,000 to \$1,200 July 1, 1908. This position formerly paid \$1,500 per year, and former incumbents have also been assigned quarters on the reservation, while the present incumbent resides at Highland Falls, N. Y.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For pay of custodian of gymnasium, who shall hereafter be selected and appointed by the superintendent of the Military Academy under Schedule A, classified positions excepted from examination under rule 2, clause 3, civil-service rules, who shall be qualified to act as trainer for the various cadet athletic teams (same acts).....	1, 200. 00	
For pay of 1 superintendent of gas works (same acts).....	1, 500. 00	
For pay of 1 engineer of heating and ventilating apparatus for the academic building, the cadet barracks and office building, cadet hospital, chapel, and library (same acts).....	1, 800. 00	
For pay of 1 assistant engineer of same (same acts).....	1, 000. 00	
For pay of 11 firemen (same acts).....	7, 920. 00	
For pay of 1 draftsman in department of civil and military engineering (same acts).....	1, 200. 00	
For pay of 1 mechanic and attendant skilled in the technical preparations necessary to chemical and electrical lectures and to the instruction of mineralogy and geology (same acts).....	1, 200. 00	
For pay of 1 mechanic assistant in the department of natural and experimental philosophy (same acts).....	1, 000. 00	
For pay of 1 custodian of academic building (same acts).....	1, 000. 00	
For pay of 1 electrician (same acts).....	1, 500. 00	
For pay of 1 chief plumber (same acts).....	1, 500. 00	
For pay of 1 assistant plumber (same acts).....	900. 00	
For pay of 1 plumber's helper (same acts).....	600. 00	
For pay of 1 scavenger, at \$60 per month (same acts).....	720. 00	
For pay of 1 chapel organist and choirmaster (increase of \$300 submitted) (same acts).....	1, 500. 00	
<i>NOTE.</i> —The small increase is strongly recommended. The incumbent is an efficient organist and choir-master, and the increase will give him a salary that is hardly commensurate with the duties performed.— <i>Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</i>		
For pay of 1 superintendent of post cemetery (same acts).....	1, 200. 00	
For pay of engineer and janitor for memorial hall (same acts).....	900. 00	
For pay of printer at headquarters, United States Military Academy (same acts).....	1, 500. 00	
For pay of 1 assistant printer at headquarters (same acts).....	1, 000. 00	
For pay of 1 janitress, memorial hall (same acts).....	600. 00	
For pay of 1 master mechanic (same acts).....	1, 800. 00	
For pay of 1 attendant and skilled photographer in the department of drawing (same acts).....	1, 200. 00	
For pay of 1 typewriter, copyist, and attendant in charge of the library in the department of law (same acts).....	750. 00	
For pay of 1 overseer of waterworks (same acts).....	720. 00	
For pay of 1 engineer of steam, electric, and refrigerating apparatus for the cadet mess (same acts).....	840. 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pay of Military Academy—Continued.</i>		
<i>Pay of civilians—Continued.</i>		
For pay of 1 typewriter, copyist, stenographer, librarian, and attendant in the department of modern languages (increase of \$250 submitted) (acts Mar. 2, 1901, vol. 31, p. 912; Mar. 13, 1905, vol. 33, p. 853; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1019).	\$1,000.00	
<p>NOTE.—The services of the typewriter, stenographer, librarian, and attendant in the department of modern languages are required for the following reasons: The library of the department is a large and valuable one, and the classification, arrangement, cataloging and issuing of books require the special attention and services of a man for that purpose.</p> <p>The system of instruction requires the rapid reproduction in large number of many papers. To accomplish this a typewriter and copyist is necessary. The many important papers, communications, records, and reports connected not only with the administration of the department, but also those called for from the head thereof, require the services of a stenographer.</p> <p>The pay appropriated in the current fiscal year for the typewriter, copyist, and attendant is \$750.</p> <p>The incumbent has qualified himself as a stenographer, and has thus greatly increased the value of his services to the department. Furthermore, he is required to copy on the typewriter French and Spanish at a good speed. This is an accomplishment somewhat difficult for the average stenographer and requires a special training. The duties of this position will also be greatly increased by the increased size of the class already mentioned.—Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</p>		
For pay of 1 mechanic and attendant skilled in the operation necessary for the preparation of lectures and of material in the department of drawing (same acts).....	720.00	
For pay of 1 janitor for bachelor officers' quarters (increase of \$120 submitted) (same acts) .	720.00	
<p>NOTE.—The above is recommended. The incumbent has been very attentive to his duties and has performed all of them in a very satisfactory manner.</p> <p>It is important that an absolutely honest and reliable man should fill the position of janitor in the bachelor quarters, where between 30 and 40 officers live.—Thomas H. Barry, Major General, United States Army, Superintendent United States Military Academy.</p>

One assistant head waiter (submitted).....	420.00	
One porter (submitted).....	480.00	
Two pantrymen, at \$35 each per month (submitted).....	840.00	
Two dishwashers, at \$30 each per month (submitted).....	720.00	
Two helpers, at \$25 each per month (submitted).....	600.00	
Five helpers, at \$15 each per month (submitted).....	900.00	
Necessary waiters, 1 for every 20 cadets, and 1 extra waiter, at \$25 each per month (submitted).....	8,700.00	
	\$112,900.00	
<p>NOTE.—The employees performing similar duties at the midshipmen's mess at the Naval Academy have been paid by Congress for a number of years. This request is made at this time in order that if practicable the money for this purpose become available the following year.</p> <p>This appropriation if granted would still require the cadets to pay for all foodstuffs, china, linen, silverware, cleaning material, etc., and their commutation of rations at 30 cents a day would pay but little more than half of the total remaining expenses. In other words, after deducting the amount of this appropriation plus the 30 cents per day for commutation of rations the cadets would still be required to pay about 25 cents per day for their board.</p> <p>The increased cost of all supplies furnished the cadets is being felt by them, and unless some relief can be given in the matter of their expenses it will be almost impossible for them to keep out of debt. The fact that this appropriation is given to the midshipmen's mess and not to the cadets' mess operates to give the midshipmen more pay than the cadets.—Thomas H. Barry, Major General, U. S. Army, Superintendent U. S. Military Academy.</p>		
All the money hereinbefore appropriated for the pay of the Military Academy shall be disbursed and accounted for by the officers of the Pay Department as pay of the Military Academy, and for that purpose shall constitute one fund.

<i>Current and Ordinary Expenses, Military Academy—</i>		
For the expenses of the members of the Board of Visitors, or so much thereof as may be necessary (act Mar. 3, 1911, vol. 36, p. 1021, sec. 1).....	\$1,000.00	
Contingencies for Superintendent of the Academy (same act).....	3,000.00	
Repairs and improvements, namely: timber, planks, boards, joists, wall strips, laths, shingles, slate, tin, sheet lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster hair, sewer and drain pipe, blasting powder, fuse, iron, steel, tools, machinery, mantels, and other similar materials, renewing roofs, and for pay of architect, overseer and citizen mechanics, and labor employed upon repairs and improvements that can not be done by enlisted men (increase of \$5,000 submitted) (same act).....	45,000.00	
NOTE.—This appropriation was increased from \$35,000 to \$40,000 in 1905. Since that year about 25 new buildings have been completed, for whose repair and maintenance this fund is largely used, and the cost of material and labor has greatly advanced. The mechanics and laborers of the Army Service Detachment are inadequate in number to meet all demands and they must be largely supplemented during a portion of the year by civilians. The increase amounts to 12½ per cent while the cost of material during the past six years has advanced over 20 per cent. Increase in the number of cadets and officers necessarily brings increased demands on this appropriation and the additional amount is necessary.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For fuel and apparatus, namely: Coal, wood, charcoal, stoves, grates, heaters, furnaces, ranges and fixtures, fire bricks, clay, sand, and for repairs of steam heating and coal-conveying apparatus, grates, stoves, heaters, ranges, furnaces, and mica (increase of \$7,000 submitted) (same act).....	40,000.00	
NOTE.—Owing to increase in the number of buildings in recent years, the increased amount of machinery and apparatus to be kept in repair, also the addition of the new riding hall to be heated during a part of the winter, it is believed that the amount requested will be no more than necessary to meet the increased demands to be made upon this appropriation. The experience of the past year has shown that the increase of \$3,000 granted by Congress last year was not sufficient.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For gas pipes, gas and electric fixtures, electric lamps, telephone and lighting supplies, lamp-posts, gasometers and retorts, and annual repairs of the same (same act).....	6,500.00	
For fuel for cadets' mess hall, shops, and laundry (same act).....	10,000.00	
For postage and telegrams (same act).....	375.00	
For stationery, namely: Blank books, paper, envelopes, quills, steel pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, typewriters, typewriting supplies, office furniture, penholders, tape, desk knives, blotting pads, and rubber bands, and for contingencies not otherwise provided for (same act).....	2,500.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>		
For transportation of materials, discharged cadets, and for ferriages, for hire of camp sites for cadets on practice marches, for transportation of first class of cadets to and from Gettysburg battlefield, Watervliet Arsenal, and Sandy Hook Proving Grounds, or other ordnance establishment; and for expenses of officers detailed to accompany cadets on these trips (increase of \$250 submitted) (act Mar. 3, 1911, vol. 36, p. 1021, sec. 1)	\$3,850.00	
<p>NOTE.—The changes in the above are as follows:</p> <p>1. Insertion of the words "for hire of camp sites for cadets on practice marches." It is for this item that the increase of \$250 is requested.</p> <p>These funds are very necessary, as in the past years it has been through the kindness of the owner of the property that this instruction could be given to the cadets.</p> <p>Each year it becomes more difficult to obtain permission from property owners to camp on their lands. This has been possible only through changing the march to a new section of the country every two years. On account of the great number of wagons and animals with the command more or less damage is done and there are some just claims for unavoidable damages by the members of the command.</p> <p>2. Omission of the words "for transportation of first and second classes of cadets to and from."</p> <p>At the time this appropriation was obtained the course of studies provided for the second class studying ordnance and gunnery as well as the first class. This has now been changed and confined to the first class. Consequently there is no reason for including the second class in the provisions of this item.—Thos. H. Barry, Major General, U. S. Army, Superintendent.</p>		
Printing: For printing and binding, type, materials for office, including repairs to motors and machinery, diplomas for graduates, annual registers, blanks, and monthly reports to parents of cadets and contingencies (same act)	2,000.00	
For department of cavalry, artillery, and infantry tactics: Tanbark or other proper cover for riding hall, to be purchased in open market upon written order of the superintendent (same act)	1,800.00	
For camp stools, camp and office furniture and repairs to same; for door mats for cadet barracks, sinks, and cadet headquarters; for stationery, typewriting supplies and repairs, for use of instructor and assistant instructors of tactics; for books and maps, binding books, and mounting maps; for plumes, silk and worsted sashes for cadet officers and acting officers; for furniture, curtains, and rugs for cadet reception room (same act)	1,445.00	
Gymnasium and athletic supplies: For repairs, new machines, athletic supplies and fixtures for gymnasium; for foils, masks, belts, fencing gloves, fencing jackets, gaiters, sabers, and repairs; for repairs and improvements to dressing rooms, platform, and swimming tank (same act)	3,500.00	
For repairs to saddles, bridles, purchase of leather, curb chains, bits, stirrups, etc., and to keep the same in repair (same act)	250.00	
For one "L. C. Smith No. 10" typewriter and cabinet (submitted)	120.00	
NOTE.—This is necessary for the detachment of cavalry.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For repair of obstacles on cavalry drill ground and for the building of a track connecting same (submitted)	500.00	
NOTE.—The ground between the jumps is mixed with rocks and is packed too hard for safe use. A track of sand, cinders, or tanbark or of turf is essential.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For repair of mattresses, machines, and for replacing worn-out articles in gymnasium of cavalry barracks (act Mar. 3, 1911, vol. 36, p. 1022, sec. 1)	100.00	
For purchase of carbons, oils, cleaning materials, spare parts, and repairs and maintenance of searchlight, and for purchase of rubber matting and heating apparatus for coast artillery fire-control stations (same act)	500.00	
For purchase of thread, wax, needles, for new blades, sharpening old blades, and for spare parts and accessories for power clipping machines and saddler's sewing machine in the artillery stables (submitted)	100.00	
<p>NOTE.—The clipping machines and the saddler's sewing machine were originally purchased from Military Academy appropriations and the funds asked for are to keep these machines in repair and for the other purposes mentioned.</p> <p>The amount of repair work needed to keep the artillery harness, saddles and aparejos used by cadets is such that special provision must be made. The clipping of the artillery horses for the spring drills involves buying new clipper blades and sharpening old ones.—Thos. H. Barry, Major General, U. S. Army, Superintendent.</p>		
For material for preserving floors, rebronzing radiators, and for miscellaneous expenses for cleaning artillery barracks (submitted)	100.00	
<p>NOTE.—These barracks were built from appropriation for enlarging the Military Academy and a small sum should be annually appropriated for their maintenance.</p> <p>After seeing the cadet barracks, visitors at West Point, military and civil, display interest in the barracks occupied by the enlisted men. To maintain these in consonance with their West Point surroundings it is necessary to spend more time, labor, and material than in the ordinary barrack. With this in view, the above estimate is submitted.—Thos. H. Barry, Major General, U. S. Army, Superintendent.</p>		
For repairs to mattresses, machines, and for replacing worn-out articles in the drill hall and gymnasium of artillery barracks, and for miscellaneous expenses connected therewith (submitted)	100.00	
<p>NOTE.—The amount asked for above is the same as that appropriated in the Military Academy bill for the fiscal year ending June 30, 1911.</p> <p>The machines and apparatus are used by the men continuously throughout the year and become worn out, necessitating repairs or replacement.—Thos. H. Barry, Major General U. S. Army, Superintendent.</p>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>		
For department of cavalry, artillery, and infantry tactics—Continued.		
For extending the drainage system at the cadet camp, made necessary on account of the larger camp required to accommodate the increased number of cadets, to be immediately available (submitted).....	\$864.00	
NOTE.—The extension to camp drainage system is made necessary from the fact that, incident to the increase in the size of the Corps of Cadets, 8 tents were added to each company street in camp, 48 in all. These tents and the officers' tents which were moved in consequence are outside of the area drained by the existing system.— <i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i>		
For renewing 226 tent floors in cadet camp, to be immediately available (increase of \$2,030 submitted) (act Mar. 3, 1911, vol. 36, p. 1022, sec. 1).....	2,530.00	
NOTE.—About 80 per cent of the floors now in use were constructed some 8 or 10 years ago, and though repaired every year, are in such a shape that additional repairs mean practically reconstruction. The money appropriated for general repairs is not sufficient to cover this item. The floors are necessarily exposed to the weather the year around, being stored in the open when not in use in the cadet camp. Each floor costs for labor and material between \$11 and \$12. The \$500 appropriated last year has been used to provide about 44 new floors, in addition to those on hand, required owing to the unusually large class admitted in June, 1911. Five other new floors had to be made from material on hand and available labor. The legislation permitting appointments every three years will result in larger classes being admitted and consequently a larger number to be provided for in camp. A total of 277 tent floors are now required, 49 more than formerly. Of these fully 220 should be renewed at a cost of \$2,530, at \$11.50 each. To enable the camp to be put in shape by the middle of June when the cadets occupy it, this appropriation should be made immediately available.— <i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i>		
For department of civil and military engineering:		
For models, maps, purchase and repair of instruments, apparatus, drawing boards, desks, chairs, shelves, and cases for books and instruments, text books, books of reference, and stationery for the use of instructors, and contingencies (same act).....	1,200.00	
For department of natural and experimental philosophy:		
Additions to apparatus to illustrate the principles of mechanics, acoustics, optics, and astronomy; books of reference, scientific periodicals, text books, stationery, materials, and repairs, and for repairs to the observatory buildings and repairs to clocks, and for contingent expenses not otherwise provided for (same act).....	1,850.00	
For department of instruction in mathematics:		
Text books, books of reference, binding, and stationery; for tables of logarithms; for rulers and triangles; for purchase of geometrical drawings and models; for cases for geometrical models; for desks, chairs, bookcases and office fittings, and for contingencies (same act)...	725.00	
For department of chemistry, mineralogy, and geology:		
Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet metal, ores, photographic apparatus and materials; rough specimens, fossils, and for apparatus and materials to be used in the practical determination of mineralogical and geological specimens; pencils and paper for practical instruction in the same branches, and for gradual increase and improvement of the cabinet; for repairs and additions to electric, magnetic, pneumatic, thermic, and optical apparatus; for purchase of laboratory and power-room machinery and apparatus and installation of same; for models, maps, diagrams, books of reference, text books, and stationery for the use of instructors, and for contingent expenses not otherwise provided for (same act).....	2,500.00	
For department of drawing:		
Drawing material, instruments, and stationery for use of instructors; repairs to models and purchase of new models; desks, stretchers, drawing boards, racks, and stands; framing drawings; books and periodicals on art, architecture, topography, and technology; binding maps, books, etc.; repairs to stereopticon and purchase of lantern slides; photographic apparatus and material; purchase of new instruments and repair of old ones for use of cadets, and for contingent expenses (same act).....	1,530.00	
For furniture and instruments for the cadets' drawing rooms (submitted).....	2,888.00	

NOTE.—The above is based upon an estimated second class of 133, September, 1912 (present fourth class); and an estimated third class of 247, September, 1912 (number of cadets to be admitted this year), as follows:

¹ Present style.

This is standard material used in the drawing academies, and the list submitted is to supplement material on hand to make necessary provision for the larger classes in drawing, which will begin, under the present law, in 1912.—*Thos. H. Barry, Major General, United States Army, Superintendent.*

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>		
For department of modern languages:		
For stationery, text books, and books of reference for use of instructors, for repairs of books and apparatus, for office furniture, for printing examination papers and other necessary papers, and for contingencies (increase of \$502 submitted) (act Mar. 3, 1911, vol. 36, p. 1023, sec. 1).....	\$1,000.00	
NOTE.—This estimate carries an increase over those of the preceding years of \$502, and is thought to be justified by the following reasons:		
(a) Purchase of a calculating machine for the computation of proportional parts and for other tedious but necessary operations necessary to arrive at the marks of cadets. Not only is time saved by the use of such a machine, but accuracy is conserved, as mistakes are almost impossible. This machine will cost \$250.		
(b) Of the remainder of the increase asked for, part is to make additions to the library of the department which is without standard editions of authors in either French or Spanish. Lacking, too, are certain great works of reference. By spending a small amount each year the deficiencies of the library can be gradually overcome.		
(c) The class entering this year (1911) being the largest ever admitted, so in 1912 the third class French will be the largest ever under instruction in the department. Its size will require an increase of the amount available for stationery, etc., needed in the conduct of instruction.		
(d) A large amount of stationery has been used in the department yearly, as the subjects for the daily recitations of the cadets in the different classes are made out for each of the instructors for the sections under his charge; also much paper is required for the dictation exercises of the cadets. In addition there are the current needs of the stationery for the offices and section rooms of the department.—Thos. H. Barry, Major General, United States Army, Superintendent.		
For department of law:		
For stationery, text books, and books of reference for the use of instructors; furniture, and for repairs to the same; for rebinding books and periodicals; and for contingencies (same act)	350.00	
NOTE.—The words "maps, map fixtures," are omitted, the purchase of these articles not being required for this department any longer.—Thos. H. Barry, Major General, United States Army, Superintendent.		
For department of practical military engineering:		
For purchase and repair of instruments; transportation; purchase of tools, implements, and materials; and for extra-duty pay of engineer soldiers, as follows, namely: For instruments for use in instructing cadets in making reconnoissances; photographic apparatus and material for field photography; drawing instruments and material for platting reconnoissances; surveying instruments; instruments and material for signaling and field telegraphy; transportation of field parties; tools and material for the preservation, augmentation, and repair of wooden pontoon, and one canvas pontoon train; sapping and mining tools and material; rope; cordage; material for rafts and for spar and trestle bridges; trenching tools; tools and material for the repair of Fort Clinton and the batteries of the academy; and for extra-duty pay of engineer soldiers, at fifty cents per day each, when performing special skilled mechanical labor in the department of practical military engineering; for models, books of reference, and stationery and for extra pay of one engineer soldier as assistant in photographic laboratory and in charge of photographic laboratory, photographic apparatus, materials, and supplies, at fifty cents per day (same act)	2,000.00	
For the purchase of surveying instruments (same act)	1,000.00	
Provided, That this appropriation shall be immediately available: And provided further, That when any instrument, apparatus, implements, or materials which have been heretofore or may hereafter be purchased or acquired for the use of any department of instruction or for the maintenance and operation of the waterworks are no longer needed or are no longer serviceable they may be sold in such manner as the superintendent may direct and the proceeds credited to the appropriation for the department or the waterworks for which they were purchased or acquired.		
NOTE.—This item appeared for the first time in the act of last year, approved Mar. 3, 1911, under the expectation that the number of cadets receiving instruction in surveying would be increased by 25 per cent, the number at that time being 113 cadets.		
The present fourth class numbers 130 receiving instruction in surveying. Already 243 candidates have qualified for admission in the next fourth class. There is reason to believe that not less than 210 cadets will be under instruction in surveying next year and that the classes thereafter will be about the same size, or instead of an increase of 25 per cent the increase will be about 90 per cent.		
The cost of surveying instruments is very high and for \$1,000 it is possible to buy about 5 transits or 8 levels. Plane tables, leveling rods, protractors, and other like instruments are also very expensive and the \$1,000 now asked for in addition to the \$1,000 granted at last session will be required to supply the needs of the department. Even under those circumstances it will be necessary to reverse the logical order of instruction for part of the class because of the lack of sufficient instruments of the same kind.		
The proviso is new and follows the language of section 5 of an act making appropriation for the construction, repair, and preservation of certain public works on rivers and harbors approved June 13, 1902 (chap. 1079, 32 Stat. L., p. 331.)		
The purpose of the proviso is primarily to permit this and other departments to sell or to turn in to the makers unserviceable surveying and reconnoissance instruments and other apparatus in part payment for new instruments and apparatus.		
The department of practical military engineering has on hand a number of obsolete and utterly unserviceable surveying instruments not worthy of repairs. When condemned and sold in the manner now provided by law they bring very little and any sums so realized must be deposited to the credit of the United States. By reason of competition between instrument makers it is possible, however, to turn in such instruments to the makers in part payment for new instruments, under which circumstances the old instruments represent a very fair part of the purchase price. This is a very common practice on the part of individuals but is not permitted to the department by existing law. If enacted into law this proviso would effect very great economies in all departments and especially in this department.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For the purchase of barges and small boats for the instruction of cadets in rowing (submitted).	650.00	
NOTE.—The two barges and three boats now on hand for the use of the cadets were purchased about 10 years ago. Owing to the hard usage these are no longer safe and cadets are not permitted to use them, but use other boats which are rapidly wearing out. It is not practicable to repair the cadet boats and make them safe.		
There is a great demand for these boats on the part of cadets and the increasing size of classes augments the demand.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>		
For department of ordnance and gunnery:		
For purchase, manufacture, and repair of instruments, models, machinery, and apparatus; for purchase of samples of arms and accouterments other than those supplied to the military service; for books of reference, textbooks, stationery, office furniture and supplies; for services of skilled mechanic (civilian) employed in the department of ordnance and science of gunnery, and for contingencies (increase of \$150 submitted) (act Mar. 3, 1911, vol. 36, p. 1024, sec. 1).....	\$1, 800. 00	
NOTE.—This item is a consolidation of two former appropriations for \$450 and \$1,200, respectively, with an increase of \$150 over the sum previously allowed. It is necessary to obtain the requisite instruments, machinery, models, apparatus, books, etc., required for instruction, for the repair of models, machinery, and apparatus on hand and to replace those broken or worn out. The skilled mechanic referred to has been employed in the department of ordnance and gunnery for 15 years manufacturing and repairing models, apparatus, and machinery, and has been paid out of appropriations applicable to the purpose. He is now also very largely employed in the instruction of cadets in wood and metal working, and on this account it is desired to include the cost of his services specifically under the above item. The two appropriations here consolidated have of late years been hardly sufficient and it is considered that the increase of \$150 is very important. By consolidating the appropriations more freedom of expenditure is gained, it having been found in the past that some expenditures of great importance under one or the other of the items for \$450 and \$1,200, respectively, had to be omitted because there was not sufficient balance available for the purpose under the item applicable, while funds might have been spared for the purpose under the other item had it been applicable. Since both items are made for the purpose of cadet instruction it seems proper as well as economical to consolidate them. Without consolidation each item should be further increased.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For purchase of machines, tools, and material for practical instruction of cadets in wood and metal working (same act).....	2, 000. 00	
For models of guns and gun carriages of new design for cadet instruction (submitted).....	8, 000. 00	
NOTE.—The department has on hand a number of models of guns and gun carriages purchased for cadet instruction under former appropriations. These models have proved very valuable. None has been obtained since May 24, 1904. In the meantime the Ordnance Department, U. S. Army, has begun the manufacture and issue of guns and gun carriages of later design both for the seacoast and mobile artillery. This appropriation is desired in order to obtain models of latest design in order that the instruction of cadets in ordnance may keep abreast of the latest improvements. If this appropriation is made it is proposed that the models be manufactured at the ordnance establishments producing the guns and carriages to be represented by the models. It is estimated that about \$16,000 will eventually be required for the purchase from the Ordnance Department of models now required.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For department of military hygiene:		
For stationery, textbooks, and books of reference for use of instructors; for the preparation of plates, purchase of paper, and other expenses incidental to the printing of syllabuses of lectures on parts of the subject not covered by the regular textbooks; for the purchase of charts, photographs, and pictures for use in demonstration; for the purchase of instruments and models; for shelves and cases for books, instruments, and models and records; and for contingent expenses not otherwise provided for (same act).....	500. 00	
For department of English and history:		
For purchase of stationery, textbooks, books of reference, office furniture, maps, map fixtures, and for repairs to same, for rebinding books and periodicals, and for contingent expenses not otherwise provided for (increase of \$400 submitted) (same act).....	900. 00	
NOTE.—The increased amount is needed for two purposes especially: First. To equip properly the instructors' office. Until the middle of this academic year the instructors in English and history were assigned from other departments, and had their desks, chairs, and desk supplies in the offices of the other departments. Arrangements now have to be made to accommodate 12 instructors (4 more than previously because of the increased size of the class) in a new office. During the year, in preparation for these, the department has been able to purchase 1 double desk, 2 swivel chairs, and the necessary furnishings. Out of the funds for the year ending June 30, 1912, the department has already arranged to purchase 4 single desks and to require the instructors, at considerable inconvenience to themselves, to use these single desks as double desks. Thus with 4 single desks used as double and 1 double desk, we have poor accommodations for 10 instructors. No office chairs have been furnished for 8 of these instructors, as the department felt that it could not afford them. The instructors are using the hard-bottomed cadet chairs. For the accommodation of the remaining instructors in the department the professor of English and history has loaned his personal desk and chair from his own quarters and has borrowed a single desk. Double desks cost \$38.70 each; swivel chairs cost \$12 each. Three double desks are needed and 10 office chairs, making a total of \$236. Supplies for these desks would bring the total, at a low estimate, up to \$250. It should be taken into account that this extra amount will be needed for only a single year, as after these office furnishings are once supplied, they will not be needed again while the force of instructors continues the same. Second. To obtain books for the instructors and an adequate working reference library for the department. The increase in the number of instructors necessarily assigned to this department on account of the larger classes requires more textbooks to be supplied by the department. Two complete sets of the books used in the history course cost approximately \$14; 2 sets of English books cost approximately \$11. Thus \$25 will be needed to furnish textbooks to the extra instructors. The library of the department is for the most part composed of books transferred from the departments of law and of modern languages. There are very notable deficiencies in it which should be made up at as early a date as possible. For example, an important part of the study of English is the English drama, yet the department does not possess in its library a single history of English dramatic literature to which the instructors can refer on occasion. Again, we bring the history course up to include the Russo-Japanese war, but the department has not had sufficient funds to afford to purchase books of reference on that war. The department therefore estimates that \$125 could be most wisely spent in obtaining books of reference for the department library.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For a course of lectures for the more complete instruction of cadets (same act).....	1, 200. 00	
Total, current and ordinary expenses.....	\$156, 227. 00	\$128, 333. 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Miscellaneous Items and Incidental Expenses, Military Academy—</i>		
For commercial periodicals, stationery, office furniture and supplies, and for binding orders, circulars, etc., for the office of the treasurer, United States Military Academy (act Mar. 3, 1911, vol. 36, p. 1024, sec. 1)	\$210.00	
For gas-coal, oil, candles, lanterns, matches, chimneys and wicking, and electric lamps and supplies for lighting the academy building, chapel, library, cadet barracks, mess hall, shops, hospital, offices, stables and riding hall, sidewalks, camp, and wharfs (same act)....	10,000.00	
NOTE.—There is no change in this item, except to add the words "and electric lamps and supplies." Each year it is necessary to purchase a small quantity of dry batteries for electric hand lamps used by the department of tactics in connection with the inspection at night of barracks and camp in place of the old-style inconvenient oil lamps. The amount expended is small, but the old phraseology prevents their purchase from this appropriation, such articles not being specified. The words appeared in this item in the appropriation act for 1910 and the estimates for 1911, but were omitted in enacting the bill for the latter year and that for 1912. It is desired to have the words added, so that expenditures for necessary electric hand lamps and dry batteries for same can be properly paid from this appropriation.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For water pipe, plumbing, and repairs (same act).....	6,000.00	
For material and labor for cleaning and policing public buildings (not quarters) (same act)...	3,500.00	
For supplies for recitation rooms not otherwise provided for and for renewing and repairing furniture in same (same act).....	600.00	
Increase and expense of library, namely:		
For purchase, preservation, care, storage, binding and repair of books, periodicals, pamphlets, maps, pictures, and manuscripts; purchase of furniture, cases, stationery, and fittings; for expenses of making copies of military manuscripts in other libraries; and for contingent expenses not otherwise provided for (purchases to be made in open market on the written order of the superintendent) (same act).....	10,000.00	
For steel shelving, map drawers, gallery and stairway, together with large tables, chairs, and other office furniture, with extra electric lighting for the new map room, to remain available until expended (submitted).....	5,000.00	
NOTE.—This shelving, furniture, etc., is intended to be used in a new map room to be built west of the present library building. To this room all the maps, charts, atlases, globes, etc., of the library will be transferred. The plans of the drawers, etc., have been copied from those of the Library of Congress at Washington. These, together with the shelving, will take a considerable time to make. It is highly desirable that all of this new material should be ready to install in the new maproom the moment this room is ready to receive it.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For contingent funds, to be expended under the direction of the Academic Board: For instruments, books, repairs to apparatus, and other incidental expenses not otherwise provided for (same act).....	1,000.00	
Provided, That all technical and scientific supplies for the departments of instruction of the Military Academy shall be purchased by contract or otherwise, as the Secretary of War may deem best.		
Purchase of instruments for band and repairs to same: For purchase of reeds, pads, strings, and other materials necessary for brass, wood, wind, and string instruments; for purchase of music stands and other equipments; for purchase of music for military band and orchestra and for extra parts; and for contingent expenses not otherwise provided for; all to be purchased in open market on order of superintendent (same act).....	1,500.00	
Repairs and improvements to the laundry machinery and apparatus in the cadet laundry and the purchase of new material, adding machine, tools, etc., to be expended without advertising (same act).....	1,800.00	
Repair of cooking utensils, chairs, tables, and other furniture in the cadet mess and the replacement of same, to be expended without advertising (same act).....	1,750.00	
For the policing of barracks and bathhouses (increase of \$4,117.50 submitted) (same act).....	13,500.00	
NOTE.—This increase is necessitated by the increase in the Corps of Cadets, which will require the employment of 6 additional policemen to properly police the barracks; also additional supplies for use in this work.		
The amount is disposed of as follows:		
For pay of 20 barrack policemen, at \$50 per month each	\$12,000.00	
For extra pay of 1 noncommissioned officer in charge (overseer) at 50 cents per day	182.50	
For cost of brooms, soap, buckets, mops, and other cleaning materials required for maintaining the proper sanitary and cleanly condition of the barracks	1,317.50	
	13,500.00	
Under the new system of appointing cadets, the Corps of Cadets has been permanently increased about 150 cadets. Formerly only 13 whole and 2 half divisions of barracks, with sinks and bathrooms pertaining to each, were used. It will require 17 whole and 2 half divisions of barracks, with sinks and bathrooms pertaining thereto, to house the corps at its increased strength, which will probably be about 580 cadets for the coming year.		
These men are required to scrub all floors, halls, stairways, etc., used by cadets; to dust and sweep down halls and stairways of the 19 divisions of cadet barracks (which are four stories in height); to dust, scrub, mop out, and keep the sinks of the 19 divisions in a clean and sanitary condition; to clean 2 guardhouses, visitors' rooms, Y. M. C. A. halls, reading rooms, and to keep the area of barracks and walks in front of barracks properly cleaned and policed, swept in dry weather, and snow shoveled off in winter; to shine all shoes placed in the shoe-blackening room; to open and close front doors of cadet barracks before and after drills; and to act as watchmen in barracks during absence of cadets at meals, etc. One of them is used as night watchman and to look after the electric-lighting system of the barracks.		
The additional amount for purchase of materials (\$517.50) is necessary due to the four new divisions and sinks that will have to be used. The \$800 now available for this purpose is barely sufficient to meet our needs, and with the increase in the corps it is certain that the \$1,317.50 asked for will be no more than required.—Thos. H. Barry, Major General, U. S. Army, Superintendent.

For maintaining the children's school, the superintendent of the Military Academy being authorized to employ the necessary teachers (increase of \$600 submitted) (same act).....	4, 120. 00																			
NOTE.—This increase is to provide for the employment of an additional teacher. The school is organized as a grammar school of eight grades and a kindergarten. The register of the school for this session is as follows:																				
<table> <tr> <th>Teachers.</th><th>Grades.</th><th>Pupils.</th></tr> <tr> <td>Mr. Cocks, principal.....</td><td>7 and 8.....</td><td>27</td></tr> <tr> <td>Mrs. Tripp.....</td><td>5 and 6.....</td><td>36</td></tr> <tr> <td>Miss Wicks.....</td><td>3 and 4.....</td><td>49</td></tr> <tr> <td>Miss Noonan.....</td><td>K. 1 and 2.....</td><td>74</td></tr> <tr> <td>Mrs. Guttormsen.....</td><td>Sewing classes.....</td><td>41</td></tr> </table>	Teachers. The lower grades are badly overcrowded; this will continue, and the fifth and sixth grades will become overcrowded next year. The number of children on the post of grammar-school age this year is 195; for next session it will be 201 or more, and for the fiscal year 1912-13 it will be 211 or more. These children must be educated here or the burden of their education must fall on other communities. This obtains now to some extent, several soldiers' children being sent away to live with relatives in cities, and several officers' children being sent off to boarding school. For the fiscal year 1912-13 the overcrowding will be so serious that it will be necessary to give up the instruction in one grade unless an additional teacher can be provided, or unless the overcrowding can be relieved in some other way (as by employing a teacher by voluntary subscription).—Thos. H. Barry, Major General, United States Army, Superintendent.																				
For purchase and repair of fire-extinguishing apparatus (submitted).....	1, 000. 00																			
Provided, That section thirty-six hundred and forty-eight, Revised Statutes, shall not apply to subscriptions for foreign, professional, and other newspapers and periodicals, to be paid for from any of the foregoing appropriations.

<i>Buildings and Grounds, Military Academy—</i>																				
For cases, materials, fittings, fixtures, and other appliances and repairs for ordnance museum in headquarters building (act Mar. 3, 1911, vol. 36, p. 1025, sec. 1).....	1, 500. 00																			
For a collection of weapons, offensive and defensive, of the wild and other inhabitants of the Philippine Archipelago, to be collected for the ordnance museum, United States Military Academy, under the direction of the director of constabulary, Philippine Islands, by whom the funds appropriated for this purpose will be expended (submitted).....	750. 00																			
NOTE.—The museum at the Military Academy is deficient in weapons pertaining to the Philippine Archipelago, and it is desired to remedy this deficiency at an early date, particularly in view of the fact that some types of weapons desired are already becoming hard to obtain. The director of Philippine constabulary has reported that he can make a fair collection of the weapons wanted for the sum of about \$750.—Thos. H. Barry, Major General, United States Army, Superintendent.																				
For repairs to ordnance laboratory and other buildings pertaining to the department of ordnance and gunnery, and materials for roads and walks, and for repairs to machinery and tools (same act).....	150. 00																			
For extension and repair of walks, roads, drains, and gutters at the ordnance laboratory; for twelve stationary washstands; for new skylights for east storehouse and barracks, repairing entrance to barracks, new gate to laboratory grounds and repairs to sheds, and for steam heat and electric lights for the barracks at the ordnance laboratory (submitted).....	4, 040. 00																			
NOTE.—The extension and repair of walks and the renewal and repair of roads, drains, and gutters at the ordnance laboratory, to put them in first-class condition, will cost about \$1,350.																				
The 12 stationary washstands are for use of cadets working in the shops at the ordnance laboratory. There are at present but 12 washstands provided for cadets in the shops, whereas the number of cadets working therein will often exceed 25. The character of the work at the shops is such that washing facilities must be provided for cadets before they leave the laboratory. In the past it has been necessary for some of the cadets to use ordinary buckets for washing purposes.																				
The new skylights for east storehouse, repair of entrance to barracks, and construction of a new gate to the laboratory grounds and repairs to sheds, it is estimated, will, altogether, cost \$500.																				
The cost of supplying the barracks at the ordnance laboratory with steam heat and electric lights will be about \$1,500. The barracks for the enlisted men are at present heated by stoves which are not satisfactory from a consideration of either comfort or safety. The barracks are at present lighted by gas, which is also unsatisfactory when compared with electric lights.—Thos. H. Barry, Major General, United States Army, Superintendent.																				
For general repairs to the cadet laundry building, and for emergency incidental expenses about building, to be expended without advertising (same act).....	400. 00																			
For general incidental repairs and improvements to the cadet store building, including store-rooms, office, tailor shops, and shoe-repairing shops (same act).....	500. 00																			
For materials and labor for repairs, alterations, and additions needed at the soldiers' hospital, as follows:																				
Purchase of suitable incandescent lights, drop-lights, tubing, mantles, etc.; for paraffin and turpentine for waxing floors; for brushes, paints, glass, putty, and for general repairs; for materials for rebrazing radiators; and for purchase of flowers, fruit trees, shrubs, plants, etc., for hospital grounds (same act).....	165. 00																			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1912

Buildings and Grounds, Military Academy—Continued.

For materials and labor for repairs, etc.—Continued.

For repair of porch banisters around entire building; stair banisters inside of building, recasing three windows in furnace room; building cellar doors; flooring and ceiling attic overhead; and for waterproofing cellar walls of furnace room (submitted)..... \$645.00

NOTE.—The porch and the inside banisters of this building are in bad condition; some of the uprights are missing and some are rotten, and the banisters are insecure. It is estimated that to repair them properly will cost \$50.

Cases of 3 windows in the furnace room are rotten and need to be replaced, and some of the brick are loose and others missing in the basement windows. To repair them will cost about \$25.

Two outside cellar doors are falling to pieces. They are of light and poor material. It is estimated that putting in good strong doors and repairing brickwork in steps will cost \$45.

It is estimated that flooring and ceiling attic will cost \$175. There is a large steel cage in the attic used as a prison ward. The improvements are badly needed. As the place is very cold in winter and very hot in summer, the ceiling will improve these conditions.

It is estimated that waterproofing the cellar will cost \$350.

Water seeps through cellar walls and keeps the place very damp during wet weather, frequently causing standing water. These walls should be properly waterproofed. In the bottom of this cellar there is a spring of water which fills very rapidly and is now emptied by an automatic siphon. This arrangement, however, has never been very satisfactory, as in the very wet seasons the capacity of the siphon is not sufficient, and ashes from the furnace and dirt from the floor are constantly collecting in the spring and obstructing the intake of the siphon, causing water to rise in ash pit of furnace nearly to fire box. This spring should be dug up from outside of cellar and effectively walled off and drained into near-by sewer.—*Thos. H. Barry, Major General, U. S. Army, Superintendent.*

For constructing a 2-story brick addition to hospital, 24 by 48 feet, to be used as a squad room, lecture hall, and recreation room; for partitioning off one end of upper story and fitting up as a lavatory, with 2 washstands, a slop sink, a urinal, 2 water-closets, a shower bath, and a bathtub; other portion of upper story to be fitted with 10 steel wall lockers (squad room); lower story to be partitioned off at one end to contain staircase and to make a small storeroom; and for plumbing, wiring, and installing necessary electric chandeliers, and for installation of necessary steam-heating radiators and connections (submitted)..... 9,000.00

NOTE.—There is not sufficient squad room accommodation for the 20 members of the detachment of the Hospital Corps on duty at this hospital. There is no room available for a lecture and recitation room for the proper schooling of the detachment.

There are two old squad rooms, one 18 by 22.5 feet, the other 18 by 13.75 feet, both having 10.3 feet walls. The larger of these rooms contains 4,171.5 cubic feet of air space, into which it has been necessary to crowd 7 men (an air space of only 595.9 cubic feet per man). The small room has an air space of 2,549 cubic feet, and 3 men are quartered in it (an air space of 849 cubic feet per man). This provides for one-half of the detachment; the other 10 men have been quartered as follows: Four in tents, 2 in officers' ward (when that has not been occupied), 2 in the main wards among patients, and 2 in the loft of stable.

The present lavatory of the squad rooms does not furnish suitable accommodations for 20 men. There is but one washbowl, one water-closet (no urinal), one bathtub (no shower bath). This is contained in a room only 6.5 by 12 feet.

The proposed addition will relieve the crowded condition of the squad room, afford proper lavatory accommodations, and supply a large room for schooling the detachment. The latter room is also intended to be used, in addition to school purposes, as a library and recreation room.—*Thos. H. Barry, Major General, U. S. Army, Superintendent.*

For the repair and upkeep of quarters of the sergeant, first class, Hospital Corps, at soldiers' hospital:

For miscellaneous minor repairs and general upkeep of quarters, etc. (submitted)..... 75.00

NOTE.—For miscellaneous repairs as needed from time to time, such as patching roof, mending gutters, screens, plaster, and painting, and for general upkeep of the quarters.—*Thos. H. Barry, Major General, U. S. Army, Superintendent.*

For waterworks: For the maintenance and operation of the filter beds, reservoirs, and pipe lines, including the tools, implements, and materials required therefor; and for policing the grounds and repairing the roads in the vicinity of the reservoirs, filters, and intake dam (act Mar. 3, 1911, vol. 36, p. 1026, sec. 1)..... 2,000.00

For repairs and necessary alterations and additions to the cadet hospital, as follows:

For materials for rebronzing radiators and piping; material for waxing and polishing floors; suitable incandescent lights, droplights, mantles, tubes; for carpets, furniture, and appliances; for repairs of damaged articles, and for miscellaneous expenses (same act)... 120.00

For purchase of flowers and shrubs for hospital grounds (same act)..... 100.00

For reputting windows, for two new sinks, for ventilating lockers, concreting basement floor, painting basement storerooms, repairing leaders and downspouts, installing wire screenings in condemnation room, for additional shutters, storm windows and radiators, painting woodwork of contagion hospital, for building figure of a caduceus in center of floor of main lobby, for placing large skylight in roof over main stairway, for installing hydrotherapeutic appliance, for flooring and wainscoting the dispensary and painting woodwork of same, and for concrete sidewalk in front of the building (submitted)..... 3,643.00

NOTE.—It is estimated that reputting the windows in hospital and contagion ward where required will cost \$150.

The old sinks in the cadet kitchen and hospital corps kitchen are of unsightly appearance and much worn. It is estimated that two new ones will cost \$265.

The present wooden panels in doors of lockers do not allow ventilation, consequently damp clothing placed therein becomes sour and moldy. To convert these into ventilating lockers by replacing the wooden panels with heavy wire will cost about \$30.

The present concrete floor in basement is almost completely worn away, leaving rough surface which can not be properly cleansed. It is estimated that a new concrete floor in basement, excepting under kitchen extension, about 2,000 square feet, will cost about \$400.

Five storerooms of the basement are very dark and dingy. To properly paint these with white paint will cost about \$150.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. <i>Buildings and Grounds, Military Academy—Continued.</i>																				
<p>The leaders and down spouts of contagion ward are broken and rusted in places and need repairing. The down spouts in front of hospital should be connected with tile drains, as at present storm waters flow over the lawn, tearing up the grass. The cost of this work is estimated at \$85.</p> <p>The present partition in condemnation room of basement is of rough boards and cuts off much light, making the room dark. To replace this wooden partition by the installation of wire screenings would cost about \$144.</p> <p>The additional shutters are required for windows of contagion ward. None have previously been provided for this ward, and it is essential that they should be. Their cost would be about \$95.</p> <p>The examination and eye rooms are very cold in winter, having neither storm windows nor heating appliances. To properly equip them with storm windows would cost about \$84.</p> <p>The additional radiators (4) are required for the examination room and lobby of basement, both of which are very cold in winter, lacking both heating appliances and storm windows. The cost of these radiators and installation of same is estimated at \$115.</p> <p>The contagion hospital has never been painted, and the woodwork is rusty looking and already shows signs of decay, which painting will prevent. The cost of this work is estimated at \$200.</p> <p>The present conventional figure in center of tiled floor of main lobby should be replaced by a figure of a caduceus (the official insignia of the Medical Department of the Army) about 3 feet long, other dimensions symmetrical, to be of maroon-colored tiling. The cost is estimated at \$75.</p> <p>The stairway is located in the center of the main building, and is so inadequately lighted as to be dangerous. Artificial lights are required on most days. The cost of placing large skylight fitted with "Luxor" prism glass in the roof over this stairway, which would essentially improve conditions, is estimated at \$650.</p> <p>The cost of installing a hydrotherapeutic appliance in the annex of the lower south ward is estimated at \$350. The installation of appliances for treatment of nervous cases among cadets by douches and special baths has long been desirable. Such cases frequently occur toward the close of the academic year.</p> <p>The dispensary of the cadet hospital has a wood floor, now covered with linoleum, while the walls, counters, and shelving are of dark woods. As this room is a "show" place, visited by many strangers, it should conform to the rest of the hospital and to the best types in similar institutions. The cost of flooring and wainscoting the dispensary and painting the woodwork of same is estimated at \$700.</p> <p>The present walk in front of the building is of crumbling gravel and on a steep grade. To replace same with a concrete sidewalk, partly incline and partly steps, as best grades indicate, would cost about \$150.—<i>Thos. H. Barry, Major General, United States Army, Superintendent.</i></p>																				
For terazzo flooring and 5-foot tile wainscoting for cadet kitchen and dining room (submitted).....	\$2,500.00																			
<p>NOTE.—These rooms are at present floored and wainscoted with wood. It is desired to bring them up to the standard of the cadet mess and the hospital wards in appearance and design.—<i>Thomas H. Barry, Major General, U. S. Army, Superintendent.</i></p>																				
For an additional set of quarters for a sergeant, first class, Hospital Corps (submitted)....	6,000.00																			
<p>NOTE.—Two sergeants, first class, Hospital Corps, are on permanent duty at this hospital and each is entitled to public quarters; owing to lack of a second set of quarters, one of these noncommissioned officers is obliged to live in Highland Falls, 2 miles from the hospital, where he can not be reached in emergency.—<i>Thomas H. Barry, Major General, U. S. Army, Superintendent.</i></p>																				
For construction of a conservatory near south wing of hospital (submitted).....	700.00																			
<p>NOTE.—The hospital has large lawns, which it is obliged to maintain in an attractive state. For this purpose an annual allotment of funds is regularly appropriated. No place now exists for the care of flowers, shrubs, etc., and for furnishing flowers to wards, dining rooms, etc., of the institution during the long winters; it is believed that this small greenhouse will conduce greatly to the cheerfulness and contentment of the sick.—<i>Thomas H. Barry, Major General, U. S. Army, Superintendent.</i></p>

<p>This paving is necessary to provide proper space for section and other cadet formations in the south area similar to that in the area of the new north cadet barracks.</p> <p>The present paving for the south cadet barracks, which should be replaced, is insufficient in extent to accommodate the increased number of cadets and the concrete has cracked and sunk so that water collects upon a large portion of the surface of the paving and interferes with cadet formations during unfavorable weather.</p> <p>Grading is necessary in connection with this paving in order to conform to the surface levels fixed for the remainder of the area.—<i>Thomas H. Barry, Major General, U. S. Army, Superintendent.</i></p>																				
For removing the present porches of the south cadet barracks and constructing new porches of stone and concrete or other durable material (submitted).....	35,000.00																			
<p>NOTE.—The porches upon the area side of the south cadet barracks have wooden floors, rafters, and roof boarding, with tin roof covering. The wooden flooring wears away quickly, requiring frequent repairs and renewal, and much noise and disturbance is caused during study hours by walking upon the porches as now constructed.</p> <p>The present porch roofs cover the windows and prevent proper lighting of the first story cadet rooms upon this side of the barracks.</p> <p>The proposed new porches are intended to be of construction corresponding as nearly as practicable with those of the north cadet barracks with walls of masonry and floors and roof of reinforced concrete; to have granolithic floor surfacing and copper roof covering. Skylights to be provided opposite the windows for proper lighting of the cadet rooms.</p> <p>The amount of the estimate of \$35,000 is based on the cost of the porches of the north cadet barracks with due allowance for the increase in the cost of construction at the present time. An allowance is also included for the removal of the present porches and rebuilding the stone foundation walls where required, together with the necessary cutting for support and anchorage of the proposed new porches to the walls of the building.—<i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i></p>

Repairs to cadet barracks: For repairing and renewing plastering; painting and calcimining, repairs to woodwork, reflooring, rearranging rooms, increasing sinks, baths; and other incidental repairs to the building (act Mar. 3, 1911, vol. 36, p. 1026, sec. 1)	\$10,000.00	
For maintaining and improving the grounds of the post cemetery (increase of \$500 submitted) (same act)	2,000.00	
NOTE.—The amount appropriated last year was not sufficient to keep the grounds of the cemetery in proper condition. Some necessary grading and sodding had to be omitted. The money has been used to the best advantage but the gradual increase in the number of interments and the annual increase in the extent of the ground occupied by them necessitate a greater amount of labor in order to keep up the appearance of the grounds as they should be in a place of this character, where so many noted soldiers of the country are interred. The increase requested is small but very necessary.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For new water mains and branches and necessary street washers for post cemetery, material and labor (submitted)	4,000.00	
NOTE.—An adequate water supply is necessary for the proper maintenance of the cemetery. The present system was put in many years ago, and, being chiefly of 3-inch pipe, is inadequate to provide a sufficient supply of water. Many of the pipes have become plugged with rust, due to time, and should be replaced. The water system has never been fully extended to the new portion of the cemetery. Water is necessary for the grass, flowers, shrubbery, and for other purposes incidental to the upkeep of a cemetery. The few street washers or hydrants now in place are improperly located to provide convenient source of supply. The appropriation will cover the cost of laying a sufficient amount of mains with branches to street washers of proper size to meet present and future requirements.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For continuing the construction of breast-high wall in dangerous places (act Mar. 3, 1911, vol. 36, p. 1026, sec. 1)	1,000.00	
For broken stone and gravel for roads, and for repairing sidewalks, roads, paths, and bridges on the reservation (increase of \$14,000 submitted) (same act)	20,000.00	
NOTE.—The roads on this reservation amount to a total of about 26.5 miles in length. The front roads about the post and other roads that are subject to heavy or constant traffic are macadamized. About 11.9 miles of the road are located within the limits of the post. Of this total length, 15.6 miles are in very poor condition and should be rebuilt in a permanent manner; 3.9 miles are in fair condition needing surfacing with tar binder. The remaining 7 miles are in good condition and need only ordinary maintenance. All of this road construction would amount to about \$96,000, taking as the cost of the work \$0.80 per square yard for new macadam, \$0.30 per square yard for tar surfacing of existing macadam roads, and \$0.10 per square yard for maintenance repairs of other roads. The \$20,000 is asked for with a view to maintaining the good roads and keeping them in good condition and to reconstruct and resurface in a permanent manner some portions of the other roads where most needed.—Thomas H. Barry, Major General, United States Army, Superintendent.		
For repair of boilers, engines, dynamos, motors, refrigerating and other machinery in the cadet mess, and the replacement of same, to be expended without advertising (same act)	500.00	
For new water-supply branch from street main to enlisted men's quarters north of laundry, material and labor (submitted)	550.00	
NOTE.—The present water pipe supplying the quarters concerned is more or less plugged up with rust, so much so that a very poor flow or head of water is obtained. To enable the occupants of the quarters to get water, it has been necessary to shut off the branch pipe supplying sewer-flush tank in the neighborhood of these buildings. The sewer should be flushed for sanitary reasons; but to do so and supply the quarters, the larger pipe is required.—Thomas H. Barry, Major General, United States Army, Superintendent.		
For branch water main and fire hydrant from end of main south of soldier's hospital to vicinity of enlisted men's quarters, north of hospital, material and labor (submitted)	2,000.00	
NOTE.—The enlisted men's quarters referred to are insufficiently supplied with water and have not the protection of a fire hydrant. The estimate will cover cost of extending 6-inch main and 3-inch supply branch for the purpose and supply a fire hydrant for protection of the frame enlisted men's quarters, north of the soldier's hospital.—Thomas H. Barry, Major General, United States Army, Superintendent.		
For construction of concrete retaining wall in rear of skeleton-mortar battery (submitted)	2,500.00	
NOTE.—In the fiscal year 1911 an appropriation of \$6,800 was made for construction of a skeleton mortar battery for two guns, required for use in instruction of cadets. The battery was located in an old depression at north end of the main parade, locally known as "Execution" or "Gallows Hollow." To enlarge the area of the parade, which is too small for instruction in infantry drill, it is desired to fill in this hollow with excavated material from new buildings and make it level with the main parade. This will not only enlarge the parade and greatly add to its capacity for drill purposes, but make a saving in hauling this excavated material a farther distance. A retaining wall about 200 feet long by 8 feet high is needed in rear of the battery to hold the fill. The improvement is very much needed for proper instruction of the enlarged corps of cadets in infantry drill.—Thomas H. Barry, Major General, United States Army, Superintendent.		
For addition to officers' quarters No. 33, including plumbing, heating and lighting, material and labor, to be immediately available (submitted)	4,800.00	
NOTE.—This appropriation is requested for the purpose of providing these quarters with a first-floor basement kitchen and a back stairway to the second floor, together with other changes to accommodate the above additions and to make the quarters more convenient. They are now occupied by a colonel and professor, and the accommodations of the quarters should be similar to those of others. The present arrangement is antiquated and very inconvenient, and leads to many difficulties in housekeeping. Other quarters on the post were changed several years ago; but this one had never been so altered. The purpose is to alter these quarters to correspond to those adjacent, occupied by other professors.—Thomas H. Barry, Major General, United States Army, Superintendent.

For making alterations, additions, and improvements in quarters No. 35 (submitted).....	\$2,569.00	
NOTE.—These quarters are an old set and are occupied by one of the permanent professors. The estimate is desired in order to provide the house with a number of conveniences and improvements which are supplied to houses of more modern construction. The different items upon which the estimate is based are as follows:		
Four wall bookcases built in study..... \$80.00 Dumb waiter in china closet removed and shelves put in its place..... 15.00 Swinging door cut into dining room..... 25.00 Door at end of stairs to cut off hallway on first floor..... 30.00 Corner wall removed in kitchen and kitchen closet put in its place..... 65.00 Closet under back stairs..... 15.00 Opening enlarged into parlor alcove and woodwork frame put around the opening..... 60.00 Plate-glass panels put in front door..... 12.00 Window seats in windows of parlor, dining room, and two bedrooms above them..... 10.00 Sash cords, sash, and doors overhauled where required..... 30.00 Bathroom made of small hall room on second floor, with a door into front bedroom..... 563.00 Bathroom made of small hall room on third floor..... 563.00 (If both of the bathrooms, which would be on the same line, are done together, the total cost will be \$871.) Present bathroom on second floor rearranged and partition moved so as to provide entrance into rear bedroom: fixtures in this bathroom to be renicked, not neat looking at present as nickel is all worn off... 266.00 Larger range and boiler in kitchen..... 145.00 New toilet room near pantry, water-closet, and lavatory..... 300.00 Steam fitting in connection with new bathrooms..... 65.00 For repairing old lights and installing additional new ones..... 325.00	2,569.00	
—Thos. H. Barry, Major General, United States Army, Superintendent.		
For repairs, alterations, and improvements to quarters No. 41, to be immediately available (submitted).....	4,457.00	
NOTE.—This is an old house formerly occupied by the quartermaster, but recently assigned to one of the permanent professors. The heating apparatus is inadequate and unsuitable, the front hall is very small and inconveniently arranged, and some of the rooms are dark. The house should be overhauled and put in good condition. The estimate is based upon the following items:		
Enlarging front hall, cutting new and larger doorway, and building front and back stairs..... \$2,150.00 Enlarging opening between front and back room and enlarging window..... 507.00 Putting two new windows in the dining room, altering one old window, and paneling around same..... 400.00 Removing old heating system and installing new hot-water system..... 1,225.00 Enlarging windows on second floor..... 175.00	4,457.00	
—Thos. H. Barry, Major General, United States Army, Superintendent.		
For the construction and equipment of gallery ranges for rifle and pistol in the basement of the gymnasium (submitted).....	3,753.46	
NOTE.—The above estimate of cost was made by the quartermaster, with the exception of \$150, which was added by the department of tactics to cover the cost of a reloading outfit. This estimate is based on the plans of the range now in the office of the quartermaster. The specifications for the plans were submitted by a board of officers which visited and made a study of the principal indoor ranges in the armories of New York City, with a view to adopting for this proposed range the features which best meet the requirements of the Military Academy. The installation of this gallery range in the gymnasium will make it possible to give therein more instruction in firing, which otherwise has to be given on the regular target range with service ammunition at considerably greater cost to the Government. The present Small-Arms Firing Manual requires qualification in the prescribed course of gallery practice. During the brief period of the summer encampment it is difficult to find time to put all the cadets through the regular courses of target practice. The gallery range will afford facilities for the preliminary instruction during the winter, the early period of spring drills, and inclement weather.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For necessary grading and construction of road and sidewalk upon the south and west sides of the new gymnasium (submitted).....	3,338.50	
NOTE.—The above is based upon the following estimate of cost: 200 cubic yards excavation, at \$1.50 per yard..... \$350.00 500 cubic yards fill, at 75 cents per yard..... 412.50 870 cubic yards macadam road, at 80 cents per yard..... 696.00 650 linear feet gutter, at 70 cents per foot..... 455.00 2,300 square yards gravel surfacing, at 50 cents per yard..... 1,150.00 700 square feet granolithic walk, at 25 cents per foot..... 175.00 Catch basins and drainage..... 100.00	3,338.50	
The road upon the south and west sides of the new gymnasium is used as a service road connecting with other similar roads and should be placed in a servicable condition, graded, and macadamized, and gutters, with catch basins and a drainage system, be provided to dispose of the surface water from an extensive area of higher ground which now collects upon this road and against the walls and in the vicinity of the gymnasium.		
Grading, sodding, and gravel surfacing are also necessary in the immediate vicinity of this building and a sidewalk leading to southern entrance.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For the purchase of submarine mine material and equipment and necessary small boats (submitted).....	11,000.00	
NOTE.—The time has come when, in order to keep pace with the development of military science, the Military Academy must improve its equipment and its course of instruction in the art of coast defense. If this institution fails to prepare its graduates for the duties that will immediately devolve upon them as officers, it fails to that extent in fulfilling its mission. Progress in all directions must be recognized and methods must be instituted to meet new demands as they arise. The developments of submarine mining have placed this department of the coast artillery on as systematic a basis as any other feature of military training, and because of the great importance it has assumed in warfare it can not be neglected. No kind of elementary instruction can be confined to the post-graduate schools, to the exclusion of West Point. The training of the cadet must cover all lines in order that he may efficiently undertake his duties with troops or possess the foundation for a course of higher training in a post-graduate school. Besides post-graduate schools are institutions of peace. At the first sign of war they cease automatically, while the Military Academy must continue, in peace and in war of whatever duration, to impart that training necessary to efficiency

<p>as an officer. That it is not doing so in this regard is shown by the fact that at least one graduate of the class of 1909 was assigned upon joining his station to the command of a mine company. The best it has been possible to do for his class, as cadets, was to have them go once each to a mine planter and a mining casemate at a fortification for a few hours' instruction. Even this opportunity was denied the class which graduated in 1910, because on account of the Massachusetts maneuvers no mine planter could be sent to the fortifications during the period of target practice, and the stormy weather prevented utilizing the appliances at the post.</p> <p>Time for this instruction can be found without undue claims upon the amount available, and it is clearly the duty of all concerned to provide the equipment and the facilities necessary for teaching a highly scientific and vastly important part of an officers' professional duties. It is only necessary to recall the effects of torpedoes in late wars and the efforts put forth in 1898 to mine our harbors, when officers of any arm with knowledge of the work were detailed to fortifications, to realize the value to the Government of such knowledge on the part of all the graduates of the Military Academy. There are now 42 mine companies with 4,578 men, the equivalent of nearly 6 regiments of infantry. Graduates will be assigned to these companies every year and it is just as incumbent upon the Military Academy to prepare these men for their duties as it is to prepare them for service in any other arm. Besides, a great number of graduates, not in the artillery, sooner or later receive staff details and appointments where such knowledge is indispensable. Unless they acquire it at West Point, there is no opportunity for them to do so after graduation.—<i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i></p>		
For the construction of 1 mining casemate, 1 loading room, and 1 cable tank (submitted).....	\$4,000.00	
<p>NOTE.—This item and the preceding one for \$11,000 will together cover the expense incident to building and equipping a modern submarine mining outfit of limited capacity. The unit will be complete and should require not more than \$100 per year for further maintenance.—<i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i></p>		
For 1 track and trolley complete for handling ammunition in the mortar battery (submitted)..	75.00	
<p>NOTE.—This item was not included in original estimate and the present appropriation is not large enough to include it.</p> <p>The track and trolley form part of every mortar emplacement and are necessary to transfer the heavy ammunition from the galleries to the loading platform.—<i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i></p>		
For quarters for 2 noncommissioned officers of the artillery detachment (submitted).....	5,000.00	
<p>NOTE.—These quarters are intended for the master gunner and the second-class electrician sergeant of the artillery detachment. Both of these men are entitled to quarters by Army Regulations, but none is available for them. In order to secure men of the requisite character, skill, and intelligence for these duties, the War Department has wisely provided higher pay and allowances. Unless these allowances can be furnished such men can not be obtained for the work at the Military Academy, where their duties are even more important than at a post. The inability to provide quarters has already militated against the interest of the Academy by the refusal of one unusually competent man to come here on this account. Such men can command good pay in civil life or they can go to other posts. The cost of living is very high in this section and rents are excessive. Some provision must be made at once to keep the men we have developed and educated.—<i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i></p>		
For construction of new stables for 150 animals (submitted).....	100,000.00	
<p>NOTE.—For accommodation of horses which will be required for instruction of cadets after increase in the Corps of Cadets goes into effect. Present stable capacity insufficient for animals on hand at present. The present congestion will be relieved to a certain extent by completion of new riding hall.—<i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i></p>		
<p>For plaster and other models, relief plans, and maps (pictures and views) to illustrate the facts of geology, photography, geography, hydrography, the processes and results of the useful (and fine) arts, of the art of war, fortifications, artillery, and the like, to be displayed on the walls of the buildings of the academy (for transportation of such material to West Point, and for wall and other cases for its preservation and display) (act Mar. 3, 1911, vol. 36, p. 1026, sec. 1).....</p>	3,000.00	
<p>NOTE.—The changes in the foregoing estimate are inclosed in () and are explained as follows:</p> <ol style="list-style-type: none"> 1. As no available models, etc., exist for certain subjects, as uniforms, pieces of ordnance, processes of manufacture, etc., it is desirable to put selected views in their appropriate places. 2. Building construction is a useful art and merges into architecture, which it often classified solely as a fine art. A picture of a battle may be of great value to complete the facts displayed on a map. The change of wording is very desirable for these and other reasons. 3. Models, etc., made in the United States— <ol style="list-style-type: none"> (a) Can be purchased delivered at West Point. The makers of models, etc., of Hawaii, the Philippines, and Europe will not undertake to prepay the freight to the United States (b) Certain models can be displayed on the walls just as they are received from the makers. Rare and costly maps, plans, etc., must be protected by locked glass doors. It is desirable to provide for the safety of such objects by constructing wall cases. 4. The liberal appropriation of \$5,000 has provided or will provide many of the more expensive models, etc. The sum of \$3,000 will be sufficient to carry out the plan for the fiscal year 1912-13.—<i>Thos. H. Barry, Major General, United States Army, Superintendent.</i> 		
<p>For the purchase of altar and other cloths, chest of drawers, vases, service books, honorariums, traveling and entertainment expenses incidental to occasional visits from distinguished speakers at divine services in cadet chapel; for music for cadet choir and organ; for stationery, office supplies and printing in connection with the chapel and chaplain's office. This to be expended by the chaplain with the approval of the superintendent and without the usual advertising, submitting of bids, etc. (submitted).....</p>	600.00	
<p>NOTE.—Altar and other cloths, chest of drawers in which to keep the same, vases for flowers, and service books are necessary for the chapel. What the chapel has now the ladies of the post subscribed for. The chaplain invites distinguished clergymen and laymen to address the corps of cadets at divine service. These gentlemen travel to West Point at their own expense, and the chaplain generally entertains them. These speakers should receive their expenses.</p> <p>Sheet music for the choir and organ is necessary.</p> <p>Stationery, office supplies, printing, etc., the chaplain has hitherto been dependent on the kindness and generosity of the adjutant and quartermaster.—<i>Thos. H. Barry, Major General, United States Army, Superintendent.</i></p>

For the care and maintenance of organ in the cadet chapel (submitted).....	\$250. 00	
NOTE.—The organ recently installed in the new chapel from an item of \$10,000 in last year's appropriation act is a fine instrument and should be kept in good order and condition. To accomplish this a small amount to secure expert periodical examination and adjustment is essential. This is the practice in all churches equipped with large organs and is necessary for the care of the instrument. It is economy in the end to do so. All organs are tuned twice a year. This is necessary on account of changes in the weather.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For purchase of fireproof metal furniture for offices of the quartermaster, namely: Cases for records and for maps and plans, cupboards, stands, desks, file cases for catalogues, card-index cabinets, and suitable filing devices (submitted).....	3, 500. 00	
NOTE.—There are no adequate means at hand for the care, preservation, and storage of the large number of original tracings of plans of buildings completed or yet to be constructed at the Military Academy; for storage of records of completed water, sewer, and gas mains; electric conduits and cables, etc.; for filing contracts, record books, and the large quantity of official papers pertaining to the administration of the quartermaster's office at West Point. The temporary open wooden shelving used for storing nearly all these valuable tracings, books, and papers is unsatisfactory on account of dust, general appearance, and danger from fire. What few wooden cabinets and filing devices we have are old and unsuitable for our needs, and many of the desks, owing to long service, are much worn and unsightly. It is therefore recommended that this appropriation be allowed without fail, as it is absolutely necessary to provide some means for properly filing and caring for building construction plans, etc., official books, papers, etc., which must be kept on file in the office of the quartermaster for reference from time to time.		
The items included in this estimate are as follows:		
One map and plan case with drawers, pigeonholes, and plan and map tubes.		
Three cases with 48 document files each.		
Two sectional catalogue cases (7 sections) with drawers for catalogue and letter-file indices and vertical files.		
Four open cases with adjustable shelves and pigeonholes.		
One open case with shelves, drawers, letter, and document files.		
Three closed cases with adjustable shelves, pigeonholes, and filing devices.		
One open case with shelves and drawers and flat and vertical letter files.		
Two stands containing shelves, drawers, and pigeonholes.		
One record table with top having bookshelves and plain openings.		
One standing desk.		
Four flat-top desks for clerks.		
—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For concreting cellars of 16 sets of enlisted men's quarters (submitted).....	2, 600. 00	
NOTE.—The cellars in question have been examined by the post surgeon, who reports that all are damp and dark; some of them have no flooring in places and the damp earth is exposed, others with standing water in them. The elimination of malaria-transmitting mosquitoes here is so important that this appropriation is urgently needed to remedy existing conditions.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For filling and grading for new roads, sidewalks, and paths, and for construction of walls and new entrance to the cemetery in the vicinity of the mortuary chapel (submitted).....	10, 000. 00	
NOTE.—The grounds surrounding the recently erected mortuary chapel should be filled in, graded, and completed to correspond with other portions of the cemetery grounds and approaches formed in order to make the building accessible for attendance upon funeral services, for which it was constructed.		
The stone walls inclosing this portion of the cemetery should be rebuilt and the present gates be removed and reset to form new entrance, to conform with general plan for improvements to roads and grounds on the military reservation approved by the Secretary of War.		
An estimate was prepared of the cost of the work necessary to accomplish this. At the time of preparing the estimate the cost of the work, if done by contract, would be about as follows:		
7,650 cubic yards earth fill, including hauling and grading, at \$1 per yard.....	\$7,650	
1,230 cubic yards top soil in place, at \$2 per yard.....	2,460	
545 cubic yards stone wall, at \$5 per yard.....	2,725	
Removing and resetting entrance post and gates.....	400	
3,100 square yards macadam roads, at 80 cents per yard.....	2,480	
1,400 linear feet brick gutter, at 70 cents per foot.....	980	
Catch basins and drains.....	80	
1,100 square yards gravel walks, at 50 cents per yard.....	550	
6,000 square feet sodding, at 10 cents per foot.....	600	
Changing electric street lamps and wiring.....	75	
	18, 000	
However, it is intended to use some of the fill taken from the excavation for the new East Academic Building to accomplish part of the fill in the cemetery, and by making use of all the post transportation that may be available it is believed that the entrance to the cemetery can be completed and the most necessary part of the grading, etc., within the amount asked for.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For carrying on the development of the general plan for improvements to roads and grounds on the military reservation of West Point, designed under contract by authority of the Secretary of War (act Mar. 3, 1911, vol. 36, p. 1027, sec. 1).....	3, 000. 00	
For repairs to quarters of the sergeant, first class, Hospital Corps, cadet hospital (submitted)...	30. 00	
NOTE.—The windows of these quarters need reputting, old screens worn out and rotted need to be replaced, and some repairs are needed to gas fixtures. The estimated cost of the work is \$30.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For material and labor for grading, draining, and providing a water supply for target and drill ground at north end of post (submitted).....	14, 560. 00	
NOTE.—This is a low piece of ground, about 9½ acres, adjacent to railroad tracks at north end of the post, used for target practice and instruction in equitation. It was originally a swamp until partially filled in when the West Shore tracks were carried across it. In 1903 it was filled in and graded from an appropriation made for the purpose, but not sufficiently to secure proper drainage. It has settled considerably since then, and in places water stands for some time after rains, interfering with target practice and other instruction. It is now too flat to drain properly. In addition, the standing water and wet condition of the ground forms a good breeding place for mosquitoes in warm weather. In order to secure and maintain a good growth of grass, water is required, particularly in long dry spells of weather. The largest part of the estimate—about \$12,700—is for filling and grading, and about \$1,700 for extending water pipe to and along the field.—Thos. H. Barry, Major General, U. S. Army, Superintendent.

For completion of the East Academic Building, including finished grading, approaches, etc., in accordance with the plans and specifications approved by the Secretary of War, to be immediately available and to remain so until expended (<i>submitted</i>).....	\$95,117.00	
<i>NOTE.</i> —Owing to increase in cost of building construction, the amount appropriated by Congress for improvements at the Military Academy was insufficient to complete all the work contemplated by the general plan approved by the Secretary of War in January, 1904. The new academic building, which is one of the most important and most necessary contemplated, could not be undertaken until those on the site selected for it (and the only site available and suitable) could be cleared of the old buildings occupying. This necessarily postponed starting it until June of 1911. The size of the building was kept within what were regarded as minimum requirements, and economy observed in its design and materials selected for its construction consistent with good work and architectural appearance. Though bids were invited at a time when prices were favorable, it was found that only the main portion could be undertaken with the balance of the appropriation available. The erection of the two wings containing the chemical laboratory and so-called map gallery had to be omitted. As the building is required to accommodate the department of chemistry, mineralogy and geology, as well as others, and as the instruction by this important department will suffer if its chemical laboratory must be kept where it is now in the present building, the appropriation is very much needed and is urgently requested. Furthermore, the present laboratory is not well arranged for present requirements, is not up to date, and is not large enough. The map gallery connects the new building with the library, is needed for the display of maps used in the instruction of cadets, and is an important feature.		
The estimated cost for the construction of the two wings made by James Stewart & Co. at the time the proposals were opened in June was \$67,000. This amount did not include the quarrying of the stone, the construction of sidewalks, purchase of lighting fixtures, and other small incidental items needed to properly complete the two wings. The indications are that by the time this appropriation can be obtained there will be an advance in the cost of construction.		
The itemized estimate of cost upon which the above amount is arrived at is as follows:		
Construction of chemical laboratory and map room wings, including contractors' commission.....	\$75,000.00	
Quarrying stone.....	6,800.00	
Grading, 680 cubic yards, at \$1 per cubic yard.....	680.00	
Top soiling.....	600.00	
Granolithic sidewalks, 5,700 square feet, at 30 cents per square foot.....	1,710.00	
Gas-service main.....	80.00	
Electric service feeder and ducts.....	720.00	
Telephone and electric clock street connections.....	30.00	
Lighting fixtures for 2 wings.....	850.00	
	86,470.00	
Architect's fees, cost of supervision, and incidental expenses, 10 per cent.....	8,647.00	
<i>Total</i>	\$95,117.00	
—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
For full settlement of the claim of John G. Pavsek for use and occupation of his property by the United States from May 20, 1908, to Mar. 31, 1909 (<i>submitted</i>).....	800.00	
<i>NOTE.</i> —Attention is respectfully invited to report of a board of officers convened by the Superintendent of the Military Academy, under date of October 17, 1910, by whom the claim was fully investigated and recommendation made that Mr. Pavsek be paid the sum of \$800 in full for any claims for the use of his property by the United States prior to final payment therefor.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
Hereafter the Superintendent of the United States Military Academy is authorized to avail himself of leaves of absence without deduction from pay or allowances for the same period that he may grant leave of absence to other officers of the academy under the provisions of section 1330 of the Revised Statutes.		
<i>NOTE.</i> —Section 1330 of the Revised Statutes provides as follows: "Leave of absence may be granted by the superintendent, under regulations prescribed by the Secretary of War, to the professors, assistant professors, instructors, and other officers of the academy, for the entire period of the suspension of the ordinary academic studies, without deduction from pay or allowances."		
Under this authority of law the superintendent grants leaves of absence to the various officers of the Military Academy, but owing to an opinion of the Judge Advocate General of July 18, 1890, the Secretary of War decided that the superintendent was not authorized under this statute to grant himself a leave of absence. The object of the legislation recommended above is to put the superintendent on the same basis of right in regard to leave of absence as other officers on duty at the academy.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		
No pay shall be withheld from Lieut. Col. J. M. Carson, jr., Deputy Quartermaster General, United States Army, because of the payment by him in May, 1909, when major and quartermaster, United States Army, for 8 horses or polo ponies purchased pursuant to instructions from the Secretary of War for use in the instruction of cadets at the United States Military Academy.		
<i>NOTE.</i> —The above item is for the purpose of relieving the disbursing officer of the Military Academy, Lieut. Col. J. M. Carson, jr., Deputy Quartermaster General, U. S. Army, from disallowance by the comptroller of the amount stated, for the purchase of 8 small horses, or polo ponies, which he made pursuant to instructions from the Secretary of War. Similar purchases had been made in previous years and there was nothing in the law or regulations to indicate there was any impropriety or illegality about the transaction. Its legality, however, was questioned by the Auditor for the War Department, and in spite of representations made, payment was disallowed and the comptroller sustained the auditor after an appeal was presented. The ponies are used for the instruction of cadets in equitation—their use for playing polo is only incidental to and a part of the instruction in riding. The accompanying papers explain the case fully. The animals are still in service and are used by the cadets in riding hall, for practice marches, and also for the instruction of detachment of Cavalry itself. Col. Carson was merely carrying out his orders from higher authority in making this purchase, and it is believed that decision of the comptroller is based upon a technicality. It is urgently requested that the relief asked be granted.—Thos. H. Barry, Major General, U. S. Army, Superintendent.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Buildings and Grounds, Military Academy—Continued.</i>		
<p>For completing the necessary improvements at the United States Military Academy at West Point, N. Y., in accordance with the general plan approved by the Secretary of War January 27, 1904, the limit for the total expenditure for this work fixed in the act of Congress approved June 23, 1906, is extended \$3,000,000, and the Secretary of War is authorized to proceed with the work under the conditions already prescribed for it by law: <i>Provided</i>, That all limitations and restrictions in the acts approved June 23, 1902, and Mar. 3, 1905, shall apply to this increased authorization. Of the above amount, \$500,000 to be immediately available and to remain available until expended (<i>submitted</i>).....\$500,000.00</p>		
<p>NOTE.—It is estimated that to complete the plan of improvements approved by the Secretary of War in January, 1904, it would require an increase in the authorized limit of cost of the amount stated above. An item was submitted in the 1912 estimate for this purpose, it not being practicable at an earlier date to do so, the plans not having been sufficiently developed and completed to enable an estimate to be made up of what would be the ultimate cost for the completed work. This has now been done and it is believed that the increase herein requested will finally complete the work without further increase.</p>		
<p>Since the limit of cost was increased to \$7,500,000, in the spring of 1906, the cost for construction has increased at least 20 per cent, and there is no assurance that there may not be a further increase before the improvements can be completed.</p>		
<p>In the original estimates an insufficient amount was calculated under contingencies for the expenses of supervision and administration, extending and building sewers, water and gas mains, roads, sidewalks, grading, etc. For such extensive improvements as those undertaken at the Military Academy and for the location provided, in which there are natural difficulties, found in few other places, at least 10 per cent should have been set aside for these purposes. Practically that proportion of the limit of cost has necessarily been expended in grading and providing means of communication to the various new buildings and with sewer, water, and gas service. As the working plans were developed, it was found necessary to enlarge certain buildings beyond what was originally deemed requisite. These enlargements have necessarily added to the price originally estimated before these plans could be prepared.</p>		
<p>It is urgently recommended that this increase in the limit of cost, which will be spread over a period of five or six years, be granted at this session of Congress in order that an economic and systematic plan of buildings may be laid out and followed. As it is, with the completion of the buildings now being erected, further work will have to be stopped and the completion of the plan postponed unless it is shown definitely that additional appropriations will be granted from year to year as required within the limit herein indicated. If it is the intention or desire of Congress that the plan should be completed as approved by the Secretary of War in January, 1904, such should be indicated this winter, so that plans may be made for continuing the work. If the increase in the limit of cost is not authorized this winter it will be necessary to disband the construction office organization at once, retaining only such as are necessary to complete the work now in progress. It will be difficult and expensive to reorganize should the increased limit of cost be authorized later on.—<i>Thos. H. Barry, Major General, U. S. Army, Superintendent.</i></p>

Total Public Works.....	\$4,919,800.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
BUREAU OF MEDICINE AND SURGERY.		
<i>Medical Department—</i>		
For surgeons' necessities for vessels in commission, navy yards, naval stations, Marine Corps, and for the civil establishment at the several naval hospitals, navy yards, naval medical supply depots, Naval Medical School, Washington, and Naval Academy, \$400,000 (act Mar. 4, 1911, vol. 36, p. 1278, sec. 1).....	\$400,000.00	\$350,000.00
<p>NOTE.—This is the most important of the appropriations made for the support of the Medical Department of the Navy. It provides for all medical and surgical supplies ashore and afloat, and for the pay of all civil employees at navy yards and naval hospitals.</p> <p>Comparison of this estimate with the appropriation made for the fiscal year 1912 is misleading, for the reason that the latter was known to be insufficient and an effort was made by supplementary estimates to increase the appropriation from \$351,000 to \$375,000. It is certain that the appropriation for 1912 will be deficient, as it is not within the discretion of the bureau to withhold medical supplies from ships and stations maintained in commission. With the appropriation for 1912 increased to \$375,000, as will be necessary by deficiency act, it will be seen that the estimate herewith submitted is but \$23,000 in <i>actual</i> excess.</p> <p>With the opening of new stations at Great Lakes, North Chicago, and at Pearl Harbor, Hawaii, and with the prospective activities at Guantanamo and Olongapo, the actual increase recommended will be absolutely necessary.</p>		
<i>Contingent, Bureau of Medicine and Surgery—</i>		
For tolls and ferriages; care, transportation, and burial of the dead; purchase of books and stationery, binding of medical records, unbound books, and pamphlets; hygienic and sanitary investigation and illustration; sanitary and hygienic instruction; purchase and repairs of wagons, automobile ambulances, and harness; purchase of and feed for horses and cows; trees, plants, garden tools and seeds; incidental articles for the Naval Medical School and Naval Dispensary, Washington; naval medical supply depots, sick quarters at Naval Academy and marine barracks; washing for medical department at Naval Medical School and Naval Dispensary, Washington; naval medical supply depots, sick quarters at Naval Academy and marine barracks, dispensaries at navy yards and naval stations, and ships; and for minor repairs on buildings and grounds of the United States Naval Medical School and naval medical supply depots; for the care, maintenance, and treatment of the insane of the Navy and Marine Corps on the Pacific coast, and all other necessary contingent expenses; in all, \$82,000 (act Mar. 4, 1911, vol. 36, p. 1278, sec. 1).....	\$82,000.00	79,000.00
<p>NOTE.—The cost of caring for the dead increases each year; \$1,000 additional is in the estimate. Dental work is being performed by the Hospital Corps for enlisted men, and \$2,000 is estimated for the cost of material.</p>		
<i>Bringing Home Remains of Officers, etc., Navy Department—</i>		
To enable the Secretary of the Navy, in his discretion, to cause to be transferred to their homes the remains of officers and enlisted men of the Navy and Marine Corps who die or are killed in action ashore or afloat, and also to enable the Secretary of the Navy, in his discretion, to cause to be transported to their homes the remains of civilian employees who die outside of the continental limits of the United States, \$15,000: <i>Provided</i> , That the sum herein appropriated shall be available for payment for transportation of the remains of officers and men who have died while on duty at any time since Apr. 21, 1898 (act Mar. 4, 1911, vol. 36, p. 1278, sec. 1).....	15,000.00	13,000.00
<p>NOTE.—An additional \$2,000 is recommended to restore this appropriation to its original amount in order that its beneficent purposes may be continued.</p>		
BUREAU OF SUPPLIES AND ACCOUNTS.		
<i>Provisions, Navy—</i>		
For provisions and commuted rations for the seamen and marines, which commuted rations may be paid to caterers of messes, in case of death or desertion, upon orders of the commanding officers, commuted rations for officers on sea duty (other than commissioned officers of the line, Medical and Pay Corps, chaplains, chief boatswains, chief gunners, chief machinists, and chief sailmakers) and midshipmen, and commuted rations stopped on account of sick in hospital and credited to the naval hospital fund; subsistence of officers and men unavoidably detained or absent from vessels to which attached under orders (during which subsistence rations to be stopped on board ship and no credit for commutation therefor to be given); and for subsistence of female nurses, and Navy and Marine Corps general courts-martial prisoners undergoing imprisonment with sentences of dishonorable discharge from the service at the expiration of such confinement: <i>Provided</i> , That the Secretary of the Navy is authorized to commute rations for such general courts-martial prisoners in such amounts as seem to him proper, which may vary in accordance with the location of the naval prison, but which shall in no case exceed 30 cents per diem for each ration so commuted; labor in general storehouses and paymasters' offices in navy yards, including naval stations maintained in island possessions under the control of the United States, and expenses in handling stores purchased and manufactured under the general account of advances; and for the purchase of United States Army emergency rations, as required: <i>Provided further</i> , That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for chemists, and for clerical, inspection, and messenger service in the general storehouses and paymasters' offices of the navy yards and naval stations for the fiscal year ending June 30, 1913, shall not exceed \$492,299.36 (act Mar. 4, 1911, vol. 36, p. 1278, sec. 1).....	\$492,299.36	7,430,000.00
<p>NOTE.—In the event of the abolishment of the Bureau of Equipment, the above estimate under "Provisions, Navy, 1913," should be increased to a total of \$8,277,943.95 and the allowance for chemists, clerical force, etc., increased \$2,000.</p>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Contingent, Bureau of Supplies and Accounts—</i>		
For fuel, books and blanks, stationery, interior fittings for general storehouses and pay offices in navy yards; coffee mills and repairs thereto; expenses of naval clothing factory and machinery for same, tolls, ferriages, yeoman's stores, safes, newspapers, and other incidental expenses (act Mar. 4, 1911, vol. 36, p. 1279, sec. 1).....	\$200,000.00	\$159,000.00
NOTE.—In the event of the abolishment of the Bureau of Equipment, the above estimate under "Contingent, Bureau of Supplies and Accounts, 1913," should be increased to a total of \$282,400, and the following substituted for the above text, viz:		
<i>Contingent, Bureau of Supplies and Accounts—</i>		
For fuel; the removal and transportation of ashes from ships of war; books, blanks, and stationery, including stationery for commanding and navigating officers of ships, chaplains on shore and afloat, and for the use of courts-martial on board ship; purchase, repair, and exchange of typewriters for ships; packing boxes and materials; interior fittings for general storehouses and pay offices in navy yards; coffee mills and repairs thereto; expenses of naval clothing factory and machinery for same; tolls, ferriages, street-car tickets, yeoman's stores, safes, newspapers; and other incidental expenses; in all, contingent, Bureau of Supplies and Accounts, 1913, \$282,400.		
<i>Freight, Bureau of Supplies and Accounts—</i>		
All freight and express charges pertaining to the Navy Department and its bureaus, except the transportation of coal for the Bureau of Equipment (act Mar. 4, 1911, vol. 36, p. 1279, sec. 1).....	535,000.00	535,000.00
NOTE.—In the event of the abolishment of the Bureau of Equipment, it is requested that the following appropriations be included in the estimates of this bureau:		
<i>Coal and Transportation—</i>		
Coal and other fuel for steamers' and ships' use, including expenses of transportation, storage, and handling the same; water for all purposes on board naval vessels, and ice for the cooling of water, including the expenses of transportation and storage of the same, \$3,419,000.		
<i>Equipage, Bureau of Supplies and Accounts—</i>		
For the purchase of articles of equipage at home and abroad under the cognizance of the Bureau of Supplies and Accounts, and for the payment of labor in equipping vessels therewith, and the manufacture of such articles in the several navy yards; musical instruments and music; mess outfits; soap on board naval vessels; and athletic outfits, \$220,000.		
BUREAU OF CONSTRUCTION AND REPAIR.		
<i>Construction and Repair of Vessels—</i>		
For preservation and completion of vessels on the stocks and in ordinary; purchase of materials and stores of all kinds; steam steerers, pneumatic steerers, steam capstans, steam windlasses, aeroplanes, and all other auxiliaries; labor in navy yards and on foreign stations; purchase of machinery and tools for use in shops; carrying on work of experimental model tank; designing naval vessels; construction and repair of yard craft, lighters, and barges; wear, tear, and repair of vessels afloat; general care, increase, and protection of the Navy in the line of construction and repair; incidental expenses for vessels and navy yards, inspectors' offices, such as photographing, books, professional magazines, plans, stationery, and instruments for drafting room, and for pay of classified force under the bureau, \$8,479,144: <i>Provided</i> , That no part of this sum shall be applied to the repair of any wooden ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 10 per cent of the estimated cost, appraised in like manner, of a new ship of the same size and like material: <i>Provided further</i> , That no part of this sum shall be applied to the repair of any other ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 20 per cent of the estimated cost, appraised in like manner, of a new ship of the same size and like material: <i>Provided further</i> , That nothing herein contained shall deprive the Secretary of the Navy of the authority to order repairs of ships damaged in foreign waters or on the high seas, so far as may be necessary to bring them home: <i>Provided further</i> , That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for clerical, drafting, inspection, and messenger service in navy yards, naval stations, and offices of superintending naval constructors, for the fiscal year ending June 30, 1913, shall not exceed \$808,039 (act Mar. 4, 1911, vol. 36, p. 1280, sec. 1).....	8,479,144.00	8,479,144.00
NOTE.—In the event of the abolishment of the Bureau of Equipment the above estimates under appropriation "Construction and repair of vessels, 1913," should be increased to a total of \$9,831,544, and the following substituted for the above text, viz:		
<i>Construction and Repair of Vessels—</i>		
For preservation and completion of vessels on the stocks and in ordinary; purchase of materials and stores of all kinds; steam steerers, pneumatic steerers, steam capstans, steam windlasses, aeroplanes, and all other auxiliaries; labor in navy yards and on foreign stations; purchase of machinery and tools for use in shops; carrying on work of experimental model tank; designing naval vessels; construction and repair of yard craft, lighters, and barges; wear, tear, and repair of vessels afloat; general care, increase, and protection of the Navy in the line of construction and repair; incidental expenses for vessels and navy yards, inspectors' offices, such as photographing, books, professional magazines, plans, stationery, and instruments for drafting room, and for pay of classified force under the bureau; for hemp, wire, iron, and other materials for the manufacture of cordage, anchors, cables, galleys, and chains; specifications for purchase thereof shall be so prepared as shall give fair and free competition; canvas for the manufacture of sails, awnings, hammocks, and other work; interior appliances and tools for manufacturing purposes in navy yards and naval stations; and for the purchase of all other articles of equipage at home and abroad, and for the payment of labor in equipping vessels therewith and manufacture of such articles in the several navy yards; naval signals and apparatus, other than electric, namely, signals, lights, lanterns, rockets, running lights, lanterns and lamps and their appendages for general use on board ship for illuminating purposes; and oil and candles used in connection therewith; bunting and other materials for making and repairing flags of all kinds; for all permanent galley fittings and equipage; rugs, carpets, curtains, and hangings on board naval vessels, \$9,831,544: <i>Provided</i> , That no part of this sum shall be applied to the repair of any wooden ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 10 per cent of the estimated cost, appraised in like manner, of a new ship of the same size and like material: <i>Provided further</i> , That no part of this sum shall be applied to the repair of any other ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 20 per cent of the estimated cost, appraised in like manner, of a new ship of the same size and like material: <i>Provided further</i> , That nothing herein contained shall deprive the Secretary of the Navy of the authority to order repairs of ships damaged in foreign waters or on the high seas, so far as may be necessary to bring them home: <i>Provided further</i> , That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for clerical, drafting, inspection, and messenger service in navy yards, naval stations, and offices of superintending naval constructors, for the fiscal year ending June 30, 1913, shall not exceed \$867,039; in all, construction and repair of vessels, 1913, \$9,831,544.

One dentist, two thousand five hundred and twenty dollars (same act).....	2,520.00	
Services of organist at chapel, three hundred dollars (same act).....	300.00	
One captain of the watch, nine hundred and twenty-four dollars (same act).....	924.00	
One second captain of the watch, eight hundred and twenty-eight dollars (same act).....	828.00	
Twenty-two watchmen, at seven hundred and thirty-two dollars each (same act).....	16,104.00	
Three telephone switchboard operators, at six hundred dollars each (see note 5) (same act).....	1,800.00	
In all, pay of professors and others, Naval Academy, one hundred and twenty-five thousand nine hundred and seventy-six dollars.		
NOTE 1.—It is proposed to combine the departments of electrical engineering and physics; this to carry out the recommendations of the report of the board dated Aug. 30, 1907, of which Capt. Richard Wainwright, United States Navy, was senior member, and as approved by the department in its second indorsement, No. 24812, of July 11, 1907, and by the President in his letter of July 30, 1907.		
NOTE 2.—The first of the instructors in physical training acts as the director of physical training in the absence of the officer in charge of the direction of athletics. He is a capable all-around gymnasium instructor, who has repeatedly won the distinction of all-around gymnastic champion of the United States. A man of this caliber is a necessity in the Naval Academy athletic work, and to retain such a man will require at least the \$1,800 asked for the pay of this position. The other three instructors are intended for the following special purposes:		
(a) Gymnasium exercises of various kinds.		
(b) Track, field, and other outdoor exercises.		
(c) Boxing and wrestling.		
The total salaries required for this purpose would be \$6,300 per annum, and represents a small outlay when the ultimate benefits that will accrue to the naval service from the superior all-around physical development of the graduates sent into the service from the Naval Academy. The present salaries are so low that it can not be hoped to obtain and hold the class of instructors required in this work, and it will be impossible in the near future for the Naval Academy to maintain even its present standard.		
NOTE 3.—The position is filled by the Civil Service Commission and no person on their rolls who is an applicant for a position in a library will take a position for less than \$1,000 per annum. This recommendation is made because the work that the shelf assistants are called upon to perform is of a class that should be paid \$1,000 a year as a minimum. There is no provision for an increase of pay, and thoroughly good men can not be expected to accept or retain a place where they do not receive at least the minimum wage for their work.		
NOTE 4.—A change in title but no increase in pay.		
NOTE 5.—The telephone operators at the Naval Academy have been placed in the classified service, and are therefore now classified under the appropriation "Pay of professors and others, Naval Academy," in accordance with the established custom in such cases and also in accordance with the directions contained in the Navy Department's letter No. 11466, dated December 13, 1910.

One assistant, four hundred and twenty dollars (same act).....	420.00	
Necessary waiters, at sixteen dollars per month each, thirteen thousand four hundred and forty dollars (same act).....	13,440.00	
One messenger to the superintendent, six hundred dollars (same act).....	600.00	
Twenty-seven attendants, at three hundred dollars each (see note 6) (same act).....	8,100.00	
In all, thirty-five thousand seven hundred and sixty dollars.		
In all, civil establishment, one hundred and ninety-one thousand eight hundred and four dollars.....	\$191,804.00	\$188,104.00
NOTE 6.—This is an increase of 2 attendants, at \$300 each, from the appropriation for attendants in the act making appropriations for the naval service for the fiscal year ending June 30, 1912, and it is rendered necessary because of the increased janitor and messenger service in the departments of physics and chemistry, electrical engineering, mathematics and mechanics, modern languages, English, and navigation.		
<i>Current and Miscellaneous Expenses, Naval Academy—</i>		
Text and reference books for use of instructors; stationery; blank books and forms; models; maps and periodicals; apparatus and materials for instruction in physical training and athletics; expenses of lectures, including pay and expenses of lecturer; chemicals; philosophical apparatus and instruments; stores; machinery; tools; fittings; apparatus and materials for instruction purposes, thirty-eight thousand five hundred dollars (act Mar. 4, 1911, vol. 36, p. 1282, sec. 1).....	38,500.00	
Purchase, binding, and repair of books for the library (to be purchased in the open market on the written order of the superintendent), two thousand five hundred dollars, <i>Provided, That section thirty-six hundred and forty-eight, Revised Statutes, shall not apply to subscriptions for foreign and domestic periodicals to be paid for from this appropriation</i> (see note 7) (same act).....	2,500.00	
Expenses of the Board of Visitors of the Naval Academy, being mileage and five dollars per diem for each member for expenses during actual attendance at the academy, and for clerk hire, carriages, and other incidental and necessary expenses of the board, three thousand dollars (same act).....	3,000.00	
For contingencies for the superintendent of the academy, to be expended in his discretion, two thousand dollars (same act).....	2,000.00	
In all, current and miscellaneous expenses, forty-six thousand dollars.....	46,000.00	45,500.00
NOTE 7.—From 1851 to 1904 the annual appropriation for the purchase of books for the Naval Academy library was \$2,000, and the expenses of the annual binding of books and periodicals were borne by the Navy Department. In 1903 the Navy Department ruled that the expense of the binding should be paid from the "Contingent fund of the Naval Academy." Effort has been made since that time to cover this additional item of expense into the \$2,000 appropriation above mentioned, but the work of the library, as covered by this \$2,000 appropriation, has dropped behind, and the efficiency of the library is materially reduced. The proviso for the within application of section 3648 of the Revised Statutes is requested in order to permit the payment of subscriptions for magazines in advance of the actual completion of the service required, i. e., at the expiration of the subscription. Difficulty is always experienced in finding subscription agencies who are willing to furnish the magazines and periodicals required in accordance with the provisions of section 3648 of the Revised Statutes, and in many cases an extra price is charged because of the delay in payments.		
<i>Maintenance, Naval Academy—</i>		
For general maintenance at the Naval Academy, namely: For books, periodicals, maps, models, and drawings; purchase and repair of fire engines; fire apparatus and plants; machinery; purchase and maintenance of all horses and vehicles for use at the academy; seeds and plants; tools and repairs of the same; stationery; furniture for Government buildings and offices at the academy; coal and other fuel; candles, oil, and gas; attendance on light and power plants; cleaning and clearing up station and care of buildings; attendance on fires, lights, fire engines, fire apparatus, and plants, and telephone, telegraph, and clock systems; incidental labor; advertising, water tax, postage, telephones, telegrams, tolls, and ferriage; flags and awnings; packing boxes; fuel for heating and lighting bandmen's quarters; pay of inspectors and draftsmen; music, musical and astronomical instruments; and for the pay of employees on leave, two hundred and twenty-five thousand dollars (act Mar. 4, 1911, vol. 36, p. 1283, sec. 1). 225,000.00 Rent of buildings for the use of the academy and commutation of rent for bandmen at eight dollars per month each, four thousand one hundred and sixteen dollars (same act).....	4,116.00	
	229,116.00	214,116.00
<i>Repairs, Naval Academy—</i>		
Necessary repairs of public buildings, wharves, and walls enclosing the grounds of the Naval Academy, improvements, repairs, furniture, and fixtures, one hundred and forty thousand dollars (act Mar. 4, 1911, vol. 36, p. 1283, sec. 1).....	140,000.00	100,000.00
In all, maintenance, three hundred and sixty-nine thousand one hundred and sixteen dollars.		
In all, Naval Academy, six hundred and six thousand nine hundred and twenty dollars.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.

NOTE.—		
DEPARTMENT OF THE INTERIOR, BUREAU OF PENSIONS, Washington, September 12, 1911.		
The honorable the SECRETARY OF THE INTERIOR.		
SIR: I have the honor to submit herewith estimates (in duplicate) for the appropriations for the payment of invalid and other pensions of the United States for the fiscal year ending June 30, 1913, and for other purposes.		
The appropriation for the payment of Army and Navy pensions for the fiscal year ending June 30, 1912, is \$153,000,000. The amount disbursed for pensions for the fiscal year ended June 30, 1911, was \$157,325,160.35. This was a decrease of \$2,648,895.23 as compared with the fiscal year 1910. The annual value of the pension roll June 30, 1911, was \$154,834,237.80. It is therefore believed that the amount required for the payment of pensions for the present fiscal year will be about \$155,000,000, which will make a deficiency of about \$2,000,000 in the appropriation. In view of the decrease in the disbursements for 1911 as compared with 1910, it is estimated that \$152,000,000 will be sufficient to meet the payment of Army and Navy pensions for the fiscal year 1913.		
The estimates submitted for the appropriations for 1911 contain an item of \$1,500 for the inspection of pension agencies, an amount which has been appropriated in the several bills for many years. The bill as it passed the House of Representatives omitted this item, inasmuch as said bill provided for but one agency and such agency would have been located in this city, thus rendering an appropriation for inspection of agencies unnecessary. However, the appropriation for 18 agencies was restored by the Senate, but the item for the inspection of agencies was inadvertently omitted. It is desired that this appropriation shall be renewed, inasmuch as an annual inspection of the agencies is believed to result in greatly improved service. Questions arise each year in regard to the agency service which it is very difficult to handle by correspondence, and it is found of great benefit in such cases to send an officer of the bureau to straighten out the complications which arise.		
A reduction of \$250 has been secured in the rental of the quarters occupied by the pension agency at New York City, and the estimate for such appropriation has therefore been reduced to \$4,250.		
It has been the practice for many years to supply the pension agencies with the necessary stationery and other office equipment, so far as possible, out of the supplies carried in stock by the Interior Department. The proper appropriation for the use of the department—out of which the stock was purchased—has been reimbursed for the supplies furnished, out of the appropriation for "Stationery and other necessary expenses of pension agencies." The cost of the supplies thus furnished, including about 8,000,000 envelopes, is about \$18,000 per annum. The Comptroller of the Treasury, however, in a recent opinion, holds that supplies intended for a particular service must be paid for originally out of the appropriation provided for that particular service, and that the purchase of supplies for the field service, where there is an appropriation available, out of the appropriation of the department is unlawful and must be discontinued. A great saving has been effected by purchasing practically all supplies required for the field service by the department, as by this means the department has been enabled to obtain supplies in large quantities and to take advantage of the lowest possible prices. Supplies intended for one agency, which would possibly be obtained from a dozen or more contractors, would be forwarded together in one freight shipment, instead of being forwarded separately by each contractor. This has resulted in a great saving in freightage.		
It is recommended that an attempt be made to secure proper legislation authorizing the department to use some \$18,000 of this appropriation for the purchase of stationery and other office supplies for the use of the pension agencies. This would leave \$7,000 to be expended by the different pension agencies in the purchase and repair of numbering machines, adding machines, typewriters, equipment for addressing machines, telephone service, freight charges, and binding orders to inscribe.		
Very respectfully,		
J. L. DAVENPORT, Commissioner.

PUBLIC BUILDINGS, CONSTRUCTION AND SITES.		
NOTE.—The department recommends that no appropriation be made of the following detailed amounts, but that the unexpended balances of appropriations for public-building construction heretofore provided be made available toward the construction of the entire number of buildings now or hereafter to be authorized by Congress, with an added amount of \$3,000,000, which will provide a sufficient amount to carry on all work which can be done during the fiscal year 1913. If this suggestion is adopted, the following form of legislation is recommended:		
<i>Public Buildings, Construction and Sites—</i>		
That the unexpended balances of all appropriations heretofore made for the construction, enlargement, extension, remodeling, rebuilding, or improvement of public buildings, and for the acquisition of sites for public buildings, be, and the same are hereby, reappropriated, together with the additional sum of three million dollars, and made immediately available, and to remain available until expended, toward the construction, enlargement, extension, remodeling, rebuilding, or improvement of public buildings under the control of the Treasury Department heretofore or hereafter authorized, and for the acquisition of sites heretofore authorized for public buildings: <i>Provided</i> , That the plans, and so forth, for such public-building construction work (except when secured under the provisions of the act of February twentieth, eighteen hundred and ninety-three, or as otherwise authorized by law) shall be prepared in the order in which the titles to the sites of such buildings were acquired: <i>And provided further</i> , That expenditures for construction, extension, enlargement, remodeling, rebuilding, or improvement of public buildings and for the acquisition of sites shall be made only within the limits of cost and for the purposes specified in the legislation heretofore enacted, or hereafter to be enacted, with respect to each of such buildings and sites, respectively (submitted).....	3,000,000.00

MISCELLANEOUS.		
<i>Repairs and Preservation of Public Buildings—</i>		
Repairs and preservation of customhouses, courthouses, and post offices, quarantine stations and marine hospitals, buildings and wharf at Sitka, Alaska, buildings not reserved by the vendors on sites acquired for buildings or the enlargement of buildings, together with such sites, and other public buildings and the grounds thereof, including necessary wire screens, under the control of the Treasury Department, exclusive of personal services, except for work done by contract or for temporary job labor under exigency, six hundred and fifty thousand dollars: <i>Provided</i> , That of this amount not exceeding one hundred thousand dollars may be used for marine hospitals and quarantine stations, including wire screens for same, and not exceeding twelve thousand dollars for the Treasury, Butler, and Winder Buildings at Washington, District of Columbia (act Mar. 4, 1911, vol. 36, p. 1385, sec. 1).....	650,000.00	600,000.00
NOTE.—The increase of \$50,000 is asked for in order to provide for between fifty and sixty new buildings which will be completed during the fiscal year 1912, and the repair of which will, of course, become a charge against this appropriation for the year 1913.		
<i>Mechanical Equipment for Public Buildings—</i>		
For mechanical equipment for public buildings, including heating, hoisting, plumbing, gas piping, ventilating, and refrigerating apparatus, electric-light plants, vacuum cleaning systems, interior pneumatic-tube, conduit, wiring, call-bell, and signal systems, and repairs to the same, for all public buildings, including buildings not reserved by the vendors on sites acquired for buildings or the enlargement of buildings, under the control of the Treasury Department, exclusive of personal services, except for work done by contract or for temporary job labor under exigency, and including not exceeding fifty thousand dollars for marine hospitals and quarantine stations, and not exceeding twenty thousand dollars for the Treasury, Butler, and Winder Buildings at Washington, District of Columbia, and including not exceeding ten thousand dollars for maintenance, changes in and repairs of pneumatic-tube system between the appraisers' warehouse at Greenwich, Christopher, Washington, and Barrow Streets and the new customhouse in Bowling Green, Borough of Manhattan, in the city of New York, including repairs to the street pavement and subsurface necessarily incident to or resulting from such maintenance, changes, or repairs, four hundred and sixty-five thousand dollars (act Mar. 4, 1911, vol. 36, p. 1385, sec. 1).....	465,000.00	425,000.00
NOTE.—The increase of the allotment for the Treasury, Butler, and Winder Buildings, from \$9,000 to \$20,000, is absolutely necessary, by reason of the fact that the apparatus in these buildings is deteriorating rapidly on account of age, and the additional sum asked for will be required to place the plants in operating condition for the next heating season.		
<i>Vaults, Safes, and Locks for Public Buildings—</i>		
For vaults, safes, and locks for same, and repairs thereto, for all public buildings under the control of the Treasury Department, including the lock-box equipment and repairs to same, in completed and occupied buildings, exclusive of personal services, except for work done by contract or for temporary job labor under exigency, ninety thousand dollars (act Mar. 4, 1911, vol. 36, p. 1385, sec. 1).....	90,000.00	90,000.00

The following explanations are offered for all increases of skilled and unskilled laborers submitted by all divisions of the department of construction and engineering:

Atlantic division.—To provide for additional crews for floating equipment, for consolidation of subdivisions by transfer of men from work nearing completion to other work in this division.

Central division.—On account of transferring men from jobs nearing completion to other work in this division, for proposed concrete retaining walls, for additional dry excavation at Pedro Miguel, for substitution of men at a lower rate for those at a higher rate, and for the reopening and completion of excavation in the Chagres district.

Pacific division.—On account of transferring men from jobs nearing completion to other work in this division; for new work on dams, spillway, and permanent buildings; for increased excavation above and below Pedro Miguel and above Miraflores; crew for seagoing dredge "Corozal" to be put in commission about November, 1911; for increased maintenance of pipe line furnishing water for the city of Panama and for new dam at reservoir; for increased rock work, excavation, back filling, and laying out of railway yards in connection with the construction of Balboa terminals and dry dock; and for installation of machinery in the permanent shops.

Mechanical division.—This division shows a decrease in skilled and unskilled laborers, principally on account of transferring a number of leading men heretofore carried as skilled and unskilled laborers to officers and employees as shop foremen.

Quartermaster's department.—On account of changing designations, such as planing-mill hands and pressmen to artisans at the same rate of pay, for additional crane service, additional wreckers for assembling of scrap. This division shows a material decrease in the current estimate on account of dropping men on work completed or nearing completion, such as carpenters, painters, laborers, janitors for buildings in towns to be flooded by Gatun Lake, etc.

Subsistence department.—No change in 1913 estimate from approved organization as of June, 1911.

Office of assistant chief engineer.—This organization was not in effect in June, 1911, and force is required in the operation of setting in the machinery of the locks and spillway, the mechanical and electrical equipment, installing fender chains, and for construction work in connection with lighting and buoying of the canal.

<i>Miscellaneous Material Purchases, etc., on Isthmus, Isthmian Canal—</i>		
Fifth. For the purchase and delivery of material, supplies, and equipment, including cost of inspecting material and of paying traveling expenses incident thereto, whether on the Isthmus or elsewhere, and such other expenses not in the United States as the commission deems necessary to best promote the construction of the Isthmian Canal, including the payment of damages caused to the owners of private lands, or private property of any kind, by reason of the grants contained in the treaty between the United States and the Republic of Panama proclaimed Feb. 26, 1904, or by reason of the operations of the United States, its agents or employees, or by reason of the construction, maintenance, operation, sanitation, and protection of the said canal or of the works of sanitation and protection therein provided for, which may be compromised by agreement between the claimant and the chairman of the commission without the intervention of a joint commission, for the departments of construction and engineering, quartermaster's, subsistence, disbursements, and examination of accounts, and for the preservation of plans, drawings, and other records (act Mar. 4, 1911, vol. 36, p. 1449, sec. 1).....	\$17,100,000.00	\$19,000,000.00

NOTE.—At the present time the commission has no authority to compromise and settle claims for damages to property caused by the operations of the commission, except through a joint commission or by purchasing the property from the claimant. Many of the claims for damages are small and could be compromised immediately after the damage is caused by a very small expenditure, which if left for settlement by joint commission would probably require the expenditure of a much larger sum. The claimants are usually poor and settlement should be made immediately, and it is believed that the provision inserted herein, which follows the wording of the treaty referred to, would result in a benefit to the Government in reducing the amounts to be paid, and would also benefit claimants in that payments could be made promptly. The purpose of the words "and for the preservation of plans, drawings, and other records," inserted at the end, is explained in section 2 (p. 326).

NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:

Incidental Expenses on Isthmus, Isthmian Canal—

Sixth. For miscellaneous expenditures, cable and telegraph service, stationery and printing, local railway transportation, special trains, including pay-train service; transportation of currency to the Isthmus, recruiting and transporting laborers, transporting employees from the United States, repatriating laborers and employees, actual necessary traveling expenses while on the Isthmus on official business; *premiums of employees on schedule bonds*; expenses incident to conducting hearings and examining estimates for appropriations on the Isthmus, and all other incidental and contingent expenses not otherwise provided for, for the departments of construction and engineering, quartermaster's, subsistence, disbursements and examination of accounts, and for the preservation of plans, drawings and other records (act Mar. 4, 1911, vol. 36, pp. 1449-1450, sec. 1).....

\$793,800.00

\$950,000.00

NOTE.—It is again submitted that this item should be amended as shown by including the words "premiums of employees on schedule bonds." Under the law of Aug. 5, 1909, prohibiting the payment of premiums on bonds of officers and employees of the United States the Comptroller of the Treasury decided that the commission could not pay such premiums, notwithstanding the language, "and such other expenses not in the United States as the commission deems necessary to best promote the construction of the Isthmian Canal," contained in the fifth item of the appropriation act. To require the employees to pay the premiums on a bond arranged by the commission and on which employees are from time to time bonded when assigned to keep time, issue coupon books, or handle property is, in effect, a reduction in pay. There are more than 300 employees so bonded and more than 90 per cent are bonded for \$1,000, at a cost for premium of \$3 a year. Regardless of the financial guarantee, the moral effect of the examination of the surety company is of value to the commission. The work involved in making deductions from the pay of a large number of employees is considerable, and the collection of small premiums from their salaries causes dissatisfaction. The total amount of premiums is less than \$1,500 a year, and the expense should be borne by the commission, as in previous years. The clause authorizing expenditures "for the preservation of plans, drawings, and other records" is added to this appropriation item, so that miscellaneous expenditures including stationery, printing, etc., may be made for the division created by section 2 of the bill, as submitted. (See p. 326.)

Pay of Officers and Employees, Canal Zone, Isthmian Canal—

Seventh. For pay of the member of the commission in charge of the department of civil administration, of officers and employees, other than skilled and unskilled labor, including foremen, subforemen, watchmen, messengers, and storekeepers, of the departments of civil administration and law, including those necessarily and temporarily detailed for duty away from the Isthmus (act Mar. 4, 1911, vol. 36, p. 1450, sec. 1).....

\$625,150.00

\$550,000.00

NOTE.—On Oct. 4, 1910, with the approval of the Secretary of War, the department of law, created by the Executive order of Jan. 6, 1908, was placed under the direction of the counsel and chief attorney, who was transferred from under the jurisdiction of the head of the department of civil administration. The change in this item is for the purpose of making the appropriation act conform to the organization of the commission.

Ninth. For material, supplies, equipment, construction and repairs of buildings, and contingent expenses of the departments of civil administration and law, including not exceeding \$1,000 for law books (act Mar. 4, 1911, vol. 36, p. 1450, sec. 1).....			\$175,050.00	\$110,000.00
NOTE.—The reason for including in this item the department of law is given in the note to the seventh item. The amount which may be expended for law books has been increased to \$1,000, as it may become necessary to acquire a number of law books relating to Latin-American countries.				
NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:				
Items.	Estimate for 1913.	Expenditures for 1911.	Explanation of increases.	
DEPARTMENT OF CIVIL ADMINISTRATION.				
Apparatus, repairs to.....	\$1,000.00	\$769.04		
Arms and ammunition.....	600.00	547.75		
Books, stationery, and printing supplies.....	4,950.00	3,685.90		
Bricks, paints, and oils.....	1,500.00	339.00	Increased number of brick for repair to pavements.	
Buildings, construction of.....	4,000.00	4,421.36		
Construction of penitentiary.....	25,000.00		The present penitentiary is situated on the edge of the cut at Culebra and its removal to another location by the fiscal year 1913 is essential.	
Buildings, repairs to.....	12,050.00	4,809.45	Increasing age of buildings will require increased repairs. It is also probable that new settlements will require post offices, police and fire stations. These requirements, it is hoped, can be met by removing abandoned buildings.	
Cement.....	2,000.00	385.25	Increased length of curbing and gutters, as well as age of present curbing and gutters, will require larger purchases of cement.	
Clothing for convicts.....	2,500.00	1,060.07		
Coal, fuel.....	400.00	128.70		
Corral charges and forage.....	15,500.00	14,263.87		
Electric current.....	10,560.00	9,474.83		
Furniture and fixtures, office.....	2,750.00	1,988.85		
Harness, saddles, bridles, etc.....	800.00	51.42	Police saddles will soon have to be replaced. Three sets of harness needed to replace old harness.	
Hose, fire.....	8,000.00	1,692.89	New fire hose to replace old hose.	
Horses.....	3,250.00	1,665.00	No horses have been purchased for the police and fire divisions for some time. Some stock will soon have to be replaced and new stations which may be established will necessitate purchase of more horses.	
Janitor service.....	1,690.00	1,472.62		
Launches, maintenance, operation, and repair.....	3,000.00	581.29	Police division at present has but 1 launch (at Ancon) and bears part of the cost of a second (at Cristobal). It is proposed to arrange for a launch patrol on Gatun Lake.	
Pipe, fittings, and plumbing supplies, including meters.....	10,000.00	9,827.45		
Pipe lines, reservoirs, and filtration plant, proportion of cost of operation.....	17,500.00	15,904.17	Extension of system in Panama and Colon and increased consumption of water will increase public-works division's share of cost of this work.	
Rock, crushed; screenings and binder....	12,000.00	3,082.71	Covers the renewal and repair of streets in Panama and Colon with an improved paving, more durable and better adapted to tropical conditions than the present simple rock macadam.	
Subsistence of convicts.....	16,000.00	14,399.13		
Tools and machinery not included under other headings.....	3,200.00	1,800.23	Increase of macadam streets, curbs, and gutters, as well as water and sewer mains, to be maintained in Panama and Colon will require increased expenditure.	
Traveling expenses (detectives).....	5,000.00	3,142.23		
Miscellaneous material, supplies, and equipment.....	9,950.00	8,857.79		
Total.....	173,200.00	104,351.00		
DEPARTMENT OF LAW.				
Books, stationery, and printing.....	1,100.00			
Furniture and fixtures.....	250.00			
Miscellaneous items.....	500.00			
Total.....	1,850.00			
Grand total of item No. 9, "Material and expenses, Canal Zone, Isthmian Canal".	175,050.00

¹ New quarantine station.

In all, forty-one million six hundred twenty-two thousand eight hundred and ten dollars and twenty cents, the same to be immediately available and to continue available until expended: *Provided*, That all expenditures from the appropriations heretofore, herein, and hereafter made for the construction of the Isthmian Canal, exclusive of fortifications, shall be paid from, or reimbursed to the Treasury of the United States out of the proceeds of the sale of bonds authorized in section 8 of the said act approved June 28, 1902, and section 39 of the tariff act approved Aug. 5, 1909 (act Mar. 4, 1911, vol. 36, p. 1450, sec. 1).

Ten per cent of the foregoing amounts shall be available interchangeably for expenditure on objects named, but not more than 10 per cent shall be added to any one item of the appropriation.

No part of the foregoing appropriations for the Isthmian Canal shall be applied to the payment of allowances for longevity service or lay-over days other than such as may have accumulated under existing orders of the commission prior to July 1, 1909.

NOTE.—The proviso following the total amount estimated for requiring all expenditures for the canal to be paid from or reimbursed to the Treasury out of the proceeds from bond sales has been amended so as to limit its scope to expenditures from appropriations for the "construction of the canal."

FORTIFICATIONS, ISTHMIAN CANAL.

Surveys—

For detailed surveys of the areas on the Canal Zone required for military purposes, including the cost of marking permanently the boundaries of such areas, sixty-two thousand dollars; the same to be immediately available and to continue available until expended (submitted). \$62,000.00

Purchase of Land—

For the purchase of land on the Canal Zone required for military purposes, fifty thousand dollars; the same to be immediately available and to continue available until expended (submitted)..... 50,000.00

Causeway—

For the construction of a causeway or bridge for use in connection with fortifications, Isthmian Canal, one hundred and fifty thousand dollars; the same to be immediately available and to continue available until expended (submitted)..... 150,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Seacoast Batteries—</i>		
For the construction of seacoast batteries on the Canal Zone, two million dollars, and any balances of the appropriation for the construction of seacoast batteries on the Canal Zone made by the act of March 4, 1911; the same to be immediately available and to continue available until expended (act Mar. 4, 1911, vol. 36, p. 1451, sec. 1).....	\$2,000,000.00	\$2,000,000.00
<i>Power Plants—</i>		
For the purchase and installation of electric light and power plants for the seacoast fortifications on the Canal Zone, one hundred and forty thousand dollars; the same to be immediately available and to continue available until expended (submitted).....	140,000.00	
<i>Searchlights—</i>		
For the purchase and installation of searchlights for the seacoast fortifications on the Canal Zone, two hundred and eighty-five thousand dollars; the same to be immediately available and to continue available until expended (submitted).....	285,000.00	
<i>Submarine Mine Structures—</i>		
For the construction of mining casemates, cable galleries, torpedo storehouses, cable tanks, and other structures necessary for the operation, preservation, and care of submarine mines and their accessories on the Canal Zone, two hundred and twenty thousand two hundred dollars; the same to be immediately available and to continue available until expended (submitted).....	220,200.00	
<i>Field Fortifications and Camps—</i>		
For the construction of field fortifications and the preparation of camp sites on the Canal Zone, four hundred and twenty-two thousand dollars; the same to be immediately available and to continue available until expended (submitted).....	422,000.00	
NOTE.—The above amounts for surveys, purchase of land, causeway, seacoast batteries, power plants, searchlights, submarine mine structures, and field fortifications and camps are required to carry forward the construction of the proposed fortifications for the Isthmian Canal and to provide the specified accessories therefor at such a rate of progress as to complete them at the same time that the Canal is expected to be completed.—W. H. Birby, Brigadier General, Chief of Engineers, senior member present Panama Fortification Board.	\$3,329,200.00	
<i>Armament of Fortifications, Isthmian Canal—</i>		
For the purchase, manufacture, and test of seacoast cannon for coast defense, including their carriages, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenals (act Mar. 4, 1911, vol. 36, p. 1451, sec. 1).....	1,000,000.00	
NOTE.—The amount asked for this year is that required to complete, with the previous appropriation, 2 years' work, and includes the labor for 2 years as well as all material, and a small percentage for contingencies; \$324,000 additional will be required to complete the armament. The armament estimated for includes tools, inspection, etc., and is in accordance with the recommendation of the Panama Fortification Board, dated Jan. 4, 1911 (H. R. No. 1286, 61st Cong., 3d sess.), and Aug. 8, 1911. Authorization is requested to mount in the fortifications of the Panama Canal one 16-inch gun and carriage, procured, or to be procured, out of appropriations heretofore made under "Armament of fortifications in continental United States." This gun and carriage are in excess of the emplacements provided for in the United States.—William Crozier, Brigadier General, Chief of Ordnance.		
For the purchase, manufacture, and test of ammunition for seacoast cannon, including the necessary experiments in connection therewith, and the machinery necessary for its manufacture at the arsenals (submitted).....	800,000.00	
NOTE.—Estimated to procure 50 per cent of the prescribed allowance of ammunition for the armament authorized for the defense of the entrances to the Panama Canal.—William Crozier, Brigadier General, Chief of Ordnance.	1,800,000.00	1,000,000.00
<i>Submarine Mines, Isthmian Canal—</i>		
For the purchase of submarine mines and the necessary appliances to operate them for closing the channels leading to the Isthmian Canal (submitted).....	111,750.00	
NOTE.—This is the amount estimated by the Chief of Coast Artillery as being necessary to provide the matériel required for the submarine defense of the entrances to the Isthmian Canal.—William Crozier, Brigadier General, Chief of Ordnance.		
<i>Fire Control at Fortifications, Isthmian Canal—</i>		
For the construction of fire-control stations and the purchase and installation of accessories therefor (submitted).....	400,000.00	
NOTE.—The sum of \$400,000 here estimated for is absolutely necessary to provide the fire-control installation required for the proper service of the armament to be emplaced at the termini of the Isthmian Canal.—E. M. Weaver, Brigadier General, Chief of Coast Artillery.		
Total Fortifications, Isthmian Canal.....	5,640,950.00	3,000,000.00
SEC. 2. The chairman of the Isthmian Canal Commission is authorized to establish a division of records and, as the requirements of the service permit, to consolidate in the custody thereof the files of papers and other records which have accumulated or which may accumulate during the period of the construction of the Isthmian Canal; and he is directed to carefully preserve, properly index, and arrange for use all papers needed or useful in the transaction of current business or having a permanent value or historical interest; and he is authorized to destroy or otherwise dispose of duplications in the files and other papers which are not needed or useful in the transaction of current business and have no permanent value or historical interest and which have been recommended to him for destruction or other disposition by a committee of three competent persons who have personally examined the papers and in connection with their recommendation have submitted a concise statement of the condition and character thereof (submitted).		
NOTE.—Each office of the commission on the Isthmus necessarily has its separate files and records. With changes in organization and the abolishment of various divisions many files of the commission have been left in an incomplete condition. The work of other offices will soon terminate, and it will be necessary to consolidate all the files and records at some central point. It is the intention to arrange these files in a uniform manner and to increase their historical and other value by making them easily accessible. In order that the permanent files of the commission may not be encumbered with useless material it is essential that such material be disposed of. The general law authorizing the destruction of useless papers is contained in the act of Feb. 16, 1889, and requires the action of a

It is impracticable for such a committee to act upon the files of the commission, and it is believed that authority should be conferred upon the chairman of the commission to decide what papers may with propriety be eliminated, with such restrictions as will insure the exercise of due care upon those who make recommendations for the destruction of files. Estimates for the payment of employees of this division and other expenses incident to this work are submitted in the estimates.</p>		
<p>SEC. 3. All funds collected by the Government of the Canal Zone from rentals of public lands and buildings in the Canal Zone and the cities of Panama and Colon and from the zone postal service, and from court fees and fines, and collected or raised by taxation in whatever form under the laws of the Government of the Canal Zone, are hereby appropriated until and including June 30, 1913, as follows: The revenues derived from the postal service to the maintenance of that service; the remaining revenues, including any balances unexpended in prior years, after setting aside a miscellaneous and contingent fund of not exceeding \$10,000, to the maintenance of the public-school system in the zone; to the construction and maintenance of public improvements within the zone; to the maintenance of the administrative districts; to the maintenance of Canal Zone charity patients in the hospitals of the Isthmian Canal Commission, and to the maintenance of administrative district prisoners. A detailed and classified statement of all receipts and expenditures without the duplication of items under this paragraph shall be submitted to Congress after the close of the fiscal year 1913 (act Mar. 4, 1911, vol. 36, p. 1451, sec. 3).</p>		
<p>SEC. 4. All funds realized during the fiscal year 1913 by the Isthmian Canal Commission from the performance of services by the commission, or from rentals, or from the sale of materials and supplies under the custody or control of the commission are appropriated for expenditure under any of the foregoing classified appropriations for the department of construction and engineering, except that all funds realized from the performance of services by the department of sanitation, or from the sale of materials and supplies paid for out of appropriations for said department, are appropriated for expenditure under any of the appropriations for the department of sanitation; and a full and separate report in detail of all transactions under this section shall be made to Congress (same act; submitted).</p>		
<p>That until the close of the fiscal year 1913, when any material, supplies, and equipment heretofore or hereafter purchased or acquired for the construction of the Isthmian Canal is no longer needed, or is no longer serviceable, it may be sold in such manner as the President may direct, and without advertising in such classes of cases as may be authorized by him; and the President is authorized in his discretion to sell and convey to the Republic of Panama the building situated in the city of Panama known as the Administration Building, together with the ground on which the same is located, for a sum of not less than \$80,000, and the proceeds of such sale, if made, shall be covered into the Treasury of the United States (same act; submitted).</p>		
<p>NOTE.—Section 6 of the act of May 27, 1908, and section 4 of the acts of Mar. 4, 1909, June 25, 1910, and Mar. 4, 1911, with slight modification, appropriated the proceeds received from the rendition of service and the sales of materials and supplies to other than employees, for expenditure under appropriations for the department of construction and engineering for the fiscal years 1909, 1910, 1911, and 1912. During the fiscal year 1911 over \$100,000 received from work done by the sanitary department and from the sale of materials and supplies purchased from sanitary department appropriations was credited to appropriations for the department of construction and engineering. The chief sanitary officer desires that receipts of this character be credited to appropriations for his department, and the exception contained in the first paragraph of the above section is submitted.</p>		
<p>Authority was asked at the last session of Congress for the sale of the Administration Building in Panama for which the Government has no further use. A bill in all essentials similar to the wording of this section (H. R. 19714, covered by H. Rept. No. 372, 61st Cong., 2d sess.) passed the House but failed of passage in the Senate. The bill as drafted authorized the Secretary of War to make the sale. The bill as reported authorized the President to make it. "The reason for authorizing the President instead of the Secretary of War to make the sale," as stated in the report, "is that in its previous legislation Congress has given to the President authority in regard to the construction of the canal and has not conferred such authority upon the Secretary of War, and it has been thought best to continue to place the responsibility upon the President." For the reason given and to make the section uniform the authority to determine the manner of making sales under the first part of the paragraph is conferred on the President.</p>

<p>Modernizing older emplacements (act Mar. 3, 1909, vol. 35, p. 728, sec. 1).....</p>	100, 000. 00	
<p>NOTE.—The funds estimated for are desired for application to the modernizing of a mortar battery which covers an important channel and which was among the earliest batteries built, and to adapting existing emplacements and appliances to the new form of projectile which will be furnished by the Ordnance Department.—<i>W. H. Bizby, Chief of Engineers, U. S. Army.</i> NOTE.—The amount of this estimate has been reduced by direction of the Secretary of War from \$250,000 to \$100,000.—<i>W. H. <p><i>Fire Control at Fortifications—</i></p>		
<p>For construction of fire-control stations and accessories, including purchase of lands and rights of way, and for the purchase and installation of necessary lines and means of electrical communication, including telephones, dial and other telegraphs, wiring and all special instruments, apparatus, and materials, coast signal apparatus, and salaries of electrical experts, engineers, and other necessary employees connected with the use of Coast Artillery; for the purchase, manufacture, and test of range finders and other instruments for fire control at the fortifications, and the machinery necessary for their manufacture at the arsenals (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1).....</p>	200, 000. 00	100, 000. 00
<p>NOTE.—The Taft Board estimated in its report of Feb. 1, 1906, that \$572,500 was necessary for fire-control purposes in the defenses of Narragansett Bay. The \$200,000 included in this estimate is to cover at least the most important part of the fire control installations required for these defenses.—<i>E. M. Weaver, Chief of Coast Artillery, Assistant to Chief of Staff.</i></p>

<i>Searchlights for Harbor Defenses—</i>		
Purchase and installation of searchlights for the defenses of our most important harbors (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1).....	102,000.00	50,000.00
NOTE.—The above estimate is intended to cover the procurement and installation of the necessary large-size searchlights to complete the equipment at present required for two of our most important harbors.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i> NOTE.—The amount of this estimate has been reduced by direction of the Secretary of War from \$204,000 to \$102,000.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
<i>Sites for Fortifications and Seacoast Defenses—</i>		
Procurement or reclamation of land, or right pertaining thereto, needed for site, location, construction, or prosecution of works for fortifications and coast defenses (act Mar. 3, 1909, vol. 35, p. 728, sec. 1; submitted).....	150,000.00	
NOTE.—It is contemplated to apply the amount of this estimate, if appropriated, to the purchase of land at Cape Henry to accommodate fortifications for the defense of the entrance to Chesapeake Bay.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
<i>Preservation and Repair of Fortifications—</i>		
Protection, preservation, and repair of fortifications for which there may be no special appropriation available (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1).....	300,000.00	300,000.00
<i>Plans for Fortifications—</i>		
Preparation of plans for fortifications (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1).....	5,000.00	5,000.00
<i>Supplies for Seacoast Defenses—</i>		
Tools, electrical and engine supplies, and appliances, to be furnished by the Engineer Department, for the use of the troops for maintaining and operating electric-light and power plants in gun and mortar batteries (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1).....	45,000.00	45,000.00
Reserve lights (act Mar. 3, 1909, vol. 35, p. 728, sec. 1).		
NOTE.—This amount is required to enable the purchase of a sufficient number of these lights to completely equip all batteries now in service. There is an unappropriated balance of \$9,500 of an original estimate of \$19,500 submitted two years ago for a supply of reserve lights intended for illuminating magazines and the interior passages of emplacements in case of an emergency resulting in the cessation of the regular electric current during an action.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i> NOTE.—The amount of this item (Reserve lights) has been reduced by direction of the Secretary of War from \$9,500 to nothing.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
<i>Sea Walls and Embankments—</i>		
Construction of sea walls and embankments (act Mar. 3, 1909, vol. 35, p. 729, sec. 1; submitted).....	25,000.00	
NOTE.—This amount is estimated as necessary for the maintenance and repair of existing sea walls.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
<i>Repair and Protection of Defenses of New Orleans, La.—</i>		
Rebuilding and strengthening the levees for the protection of the site of the defenses and the garrison post at Fort St. Philip, La. (act Mar. 2, 1907, vol. 34, p. 1059, sec. 1; submitted).....	16,000.00	
NOTE.—The sum of \$100,000 appropriated in the act of March 2, 1907, was insufficient to protect the entire reservation at Fort St. Philip and a portion of the reservation was abandoned to overflow. The most important portion of the reservation being inclosed by levees. For the adequate protection against high water of this portion of the reservation, however, it is necessary that a portion of the levees be raised and strengthened, and this estimate is submitted for this purpose.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
For installation and replacement of electric light and power plants and for improvement of ammunition service, at the seacoast fortifications for the defenses of Charleston, S. C., the Secretary of War is authorized to apply the sum of \$8,992 remaining unexpended from the appropriation for the construction of about 4,800 linear feet of wall necessary for the protection of Fort Moultrie, Sullivan's Island, S. C., from the effects of storms, contained in the fortification appropriation act approved May 27, 1908 (submitted).		
NOTE.—The sea wall at Fort Moultrie has been completed in accordance with the plans upon which the appropriation was made, and there remains unexpended a balance of this appropriation amounting to \$8,992. The authority requested is for the application to needed work at the same harbor of this balance, which otherwise will not be available for expenditure; the granting of this authority will reduce by the amount of this balance the amount which it will eventually be necessary to appropriate for the completion of appurtenances to the fortifications at this locality.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
For the purchase and installation of searchlights, for installation and replacement of electric light and power plants, and for improvement of ammunition service at the seacoast fortifications at the defenses of Pensacola Harbor, Fla., the Secretary of War is authorized to apply such balances as may remain available from the appropriation for building sea walls for the protection of the sites of the fortifications and of the necessary post buildings at Forts Pickens and McRee, Pensacola Harbor, Fla., contained in the fortification appropriation act approved		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Repair and Protection of Defenses of New Orleans, La.—Continued.</i>		
Mar. 3, 1909, and from the appropriation for the repair and restoration of batteries and other structures appurtenant to the defenses of Pensacola and retaining walls to protect the batteries from floods, contained in the fortification appropriation act approved May 27, 1908 (submitted).		
NOTE.—For the construction of sea walls for the protection of the sites of the fortifications and of the necessary post buildings at Forts Pickens and McRee, Pensacola Harbor, Fla., the sum of \$400,000 was appropriated by act of Mar. 2, 1907, and for the completion of this work the additional sum of \$507,100 was appropriated by act of Mar. 3, 1909, making a total of \$907,100; for the repair and reconstruction of batteries and other structures appurtenant to the defenses of Pensacola and for retaining walls to protect the batteries from flood, the sum of \$50,000 was appropriated by act of Mar. 2, 1907, and for the completion of this work the additional sum of \$59,355 was provided by act of May 27, 1908, making a total of \$109,355. Work under these appropriations is approaching completion and it is estimated that a balance of \$40,000 from the appropriation for sea walls and a balance of about \$6,000 from the appropriation for repair and restoration of batteries, etc., will remain unexpended. The authority requested is for the application to needed work at the same harbor of these balances, which otherwise will not be available for expenditure; the granting of this authority will reduce by the amount of these balances the amount which it will eventually be necessary to appropriate for the completion of appurtenances to the fortifications at this locality.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
For the purchase and installation of searchlights, for installation and replacement of electric light and power plants, and for improvement of ammunition service at the defenses of Mobile, Ala., the Secretary of War is authorized to apply such balance as may remain available from the appropriation for the repair and restoration of batteries and other structures appurtenant to the defenses of Mobile, Ala., and rebuilding sea walls and groins for protection of the sites of the fortifications and of the garrison posts, contained in the fortification appropriation act approved May 27, 1908 (submitted).		
NOTE.—For the repair and restoration of batteries, etc., and rebuilding of sea walls, etc., at the defenses of Mobile, the sum of \$500,000 was appropriated by act of Mar. 2, 1907, and for the completion of this work the additional sum of \$589,500 was appropriated by act of May 27, 1908, making a total of \$1,089,500. The work under this appropriation is now approaching completion, and it is estimated that there will remain unexpended a balance of about \$111,000. The authority requested is for the application to needed work at the same harbor of this balance, which otherwise will not be available for expenditure. The granting of this authority will reduce by the amount of this balance the amount which it will eventually be necessary to appropriate for the completion of appurtenances to the fortifications at this locality.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
For the preservation and retention of the fill of the Fort Crockett Military Reservation, Galveston, Tex., including the acquisition of such land or rights pertaining thereto as may be necessary, the Secretary of War is authorized to apply such balances as may remain available from the appropriation for the construction of sea wall and fill for the protection of the military reservation at Fort Travis, Galveston, Tex., contained in the fortification appropriation act approved Mar. 3, 1909 (submitted).		
NOTE.—The work above referred to at Fort Travis is now approaching completion and it is estimated that there will remain unexpended a balance sufficient to do the work desired at Fort Crockett. The fill placed on the Fort Crockett Reservation with funds appropriated in the sundry civil appropriation act approved June 30, 1906, is subject to washouts, the retaining wall being undermined and portions of the fill having escaped. It is proposed to remedy this either by the construction of a new retaining wall or by extending the slope of the fill at the adopted grade of 2 per cent until it intersects the natural surface of the ground, as may be deemed most advantageous.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
<i>Repair and Protection of Defenses of Key West, Fla.—</i>		
Repair and restoration of structures appurtenant to the defenses of Key West, Fla. (submitted)	\$36,000.00	
NOTE.—On Oct. 14, and again on Oct. 17, 1910, severe hurricanes were experienced at Key West, Fla., the wind velocities reaching 60 and 105 miles per hour, respectively. The storms occasioned considerable damage to the defensive works at Key West, demolishing a number of fire-control structures, storehouses, etc., washing away the sand cover of certain batteries, and entirely destroying the approach to the wharf being constructed for the torpedo service and for landing vessels with supplies, etc., for the general use of the garrison. The repairs of these damages have been provided for so far as practicable from funds appropriated for general maintenance work, but certain items of work, including principally the restoration of the wharf, remain unprovided for. This work is regarded as urgent, as the wharf is essential for submarine-mine work, and also for the economical handling of freight by water.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
<i>Preservation and Repair of Torpedo Structures—</i>		
Preservation and repair of structures erected for the torpedo defense of the United States (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1)	20,000.00	\$20,000.00
NOTE.—In view of the large number of these structures, and the materials of which many have been built, the estimate submitted is deemed reasonable, and this amount is needed to maintain the structures in satisfactory condition.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
NOTE.—The amount of this estimate has been reduced by direction of the Secretary of War from \$30,000 to \$20,000.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
<i>Casemates, Galleries, etc., for Submarine Mines—</i>		
Construction of mining casemates, cable galleries, torpedo storehouses, cable tanks, and other structures necessary for the operation, preservation, and care of submarine mines and their accessories, to be expended by the Engineer Department (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1)		50,000.00
NOTE.—This estimate is submitted with a view to the completion of all structures required for the mine-defense project in three artillery districts.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
NOTE.—The amount of this estimate has been reduced by direction of the Secretary of War from \$70,000 to nothing.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
UNDER THE CHIEF SIGNAL OFFICER.		
<i>Maintenance, etc., Fire-Control Installations at Seacoast Defenses—</i>		
For operation and maintenance of fire-control installations at seacoast defenses (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1).....	\$180,000.00	\$180,000.00
<i>Armament of Fortifications.—</i>		
For the purchase, manufacture, and test of mountain, field, and siege cannon, including their carriages, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenals (act Mar. 4, 1911, vol. 36, p. 1341, sec. 1).....	\$1,002,000.00	
NOTE.—Estimated to procure three 3-inch mountain howitzer batteries, four 3.8-inch howitzer batteries, and three 4.7-inch howitzer batteries, complete, a supply of spare parts therefor, and the necessary tools and machinery for their manufacture at the arsenals.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the purchase, manufacture, and test of ammunition for mountain, field, and siege cannon, including the necessary experiments in connection therewith and the machinery necessary for its manufacture at the arsenals (same act).....	1,500,000.00	
NOTE.—The increase of \$1,200,000 over the amount appropriated last year is needed in order to provide within a more reasonable time the amount of ammunition prescribed as a reserve for mobile artillery. The present supply of ammunition for field artillery is so limited as to be a matter of grave concern.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the purchase, manufacture, and test of ammunition for seacoast cannon, including the necessary experiments in connection therewith, and the machinery necessary for its manufacture at the arsenals (same act).....	140,000.00	
NOTE.—For increasing the reserve supply of seacoast ammunition at a better rate than it has gone in the past.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the purchase, manufacture, and test of ammunition, subcaliber guns, and other accessories for Seacoast Artillery practice, including the machinery necessary for their manufacture at the arsenals (act Mar. 4, 1911, vol. 36, p. 1342, sec. 1).....	425,000.00	
NOTE.—This estimate is for providing ammunition and accessories for needed exercise in target practice with seacoast armament, in order to enable the Coast Artillery to become familiar with the working of cannon, their carriages, and fire-control apparatus.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the alteration and maintenance of the mobile artillery, including the purchase and manufacture of machinery, tools, and materials necessary for the work and the expenses of the mechanics engaged thereon (same act).....	45,000.00	
NOTE.—Estimated for the alteration and maintenance of 53 batteries of 3-inch guns, 30 batteries of 2.95-inch mountain guns, 2 batteries of 3.8-inch field guns, 2 batteries of 3.8-inch field howitzers, 10 batteries of 4.7-inch guns, 7 batteries of 4.7-inch howitzers, 8 batteries of 6-inch howitzers, 15 batteries of 5-inch guns, and 15 batteries of 7-inch howitzers. The cost of the above matériel is approximately \$8,350,000.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the purchase, manufacture, and test of ammunition, subcaliber guns, and other accessories for mountain, field, and siege artillery practice, including the machinery necessary for their manufacture at the arsenals (same act).....	130,000.00	
NOTE.—This estimate is to provide ammunition, targets, and accessories for needed exercise in target practice with mobile artillery cannon. The increase of \$20,000 over the amount appropriated last year is required to provide ammunition and target material for expenditure at the newly established School of Fire for Field Artillery, at Fort Sill, Okla.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the alteration of 3.2-inch batteries to rapid-fire field batteries, including sights, implements, equipments, and the materials and machinery necessary for alteration and manufacture at the arsenals (same act).....	103,000.00	
NOTE.—Estimated for the conversion of three 3.2-inch batteries to 3-inch.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the alteration and maintenance of seacoast artillery, including the purchase and manufacture of machinery, tools, materials necessary for the work, and expenses of civilian mechanics and extra-duty pay of enlisted men engaged thereon (same act).....	300,000.00	
NOTE.—The above estimate is for the alteration and maintenance of the Seacoast Artillery matériel in continental United States. The annual maintenance of the entire matériel costs approximately \$170,000. The alteration and modernizing of the earlier guns and carriages would cost a very considerable amount. Guns and carriages which were installed many years ago have not the efficiency of later designs. It is possible, however, to alter this matériel so as to make it almost as efficient as the artillery matériel of recent design. But little is included in this estimate for alteration work.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Proving Ground, Sandy Hook, N. J.—</i>		
For current expenses of the ordnance proving ground, Sandy Hook, N. J., comprising the maintenance of rail and water transportation, repairs, alterations, accessories, and service of employees incidental to testing and proving ordnance material, hire of assistants for the Ordnance Board, purchase of instruments and articles required for testing and experimental work, building and repairing butts and targets, clearing and grading ranges (act Mar. 4, 1911, vol. 36, p. 1342, sec. 1).....	56,200.00	
For the necessary expenses of officers while temporarily employed on ordnance duties at the proving ground and absent from their proper station, at the rate of \$2.50 per diem while so employed, and the compensation of draftsmen while employed in the Army Ordnance Bureau on ordnance construction (same act).....	18,700.00	
	74,900.00	74,900.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Submarine Mines—</i>		
For the purchase of submarine mines and necessary appliances to operate them for closing the channels leading to our principal seaports, and continuing torpedo experiments; for the purchase of the necessary machinery, tools, and implements for the repair shop of the torpedo depot at Fort Totten, N. Y., and for extra-duty pay to soldiers necessarily employed for periods not less than 10 days on work in connection with the issue, receipt, and care of submarine mining material at the torpedo depot (act Mar. 4, 1911, vol. 36, p. 1342, sec. 1).....	\$150,000.00	\$150,000.00
NOTE.—This amount is necessary at this time for continuing the work of providing submarine mine equipment for the most important harbors in the United States, for torpedo depot administration, and for the maintenance of the submarine mine equipment now on hand. The amount estimated is the same as that appropriated for the fiscal year 1912.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
ENGINEER DEPARTMENT.		
<i>Fortifications in Insular Possessions—</i>		
Construction of seacoast batteries, as follows:		
In the Hawaiian Islands (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	\$222,200.00	
In the Philippine Islands (same act).....	1,036,000.00	
NOTE.—The amounts estimated for are needed for the construction and completion of batteries deemed essential for the provision of adequate defenses.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
NOTE.—The amount of this estimate for the Hawaiian Islands has been reduced by direction of the Secretary of War from \$485,000 to \$222,200.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
Installation and replacement of electric light and power plants at the defenses of the following localities:		
In the Hawaiian Islands (act Mar. 3, 1909, vol. 35, p. 731, sec. 1).....	25,000.00	
In the Philippine Islands (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	21,614.00	
NOTE.—The estimate for the Hawaiian Islands is to provide reserve equipment considered essential for existing batteries. The estimate for the Philippine Islands is the balance of the Taft Board estimate for this locality in accordance with the existing project for batteries. So far as data are at present available, this amount will be sufficient for this purpose, though the work has not progressed far enough to permit an accurate estimate of the cost of completion. The language recommended above is in accordance with that used in the fortification appropriation act approved Mar. 4, 1911, in making a similar appropriation for the United States.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
Purchase and installation of searchlights for the defenses of most important harbors, as follows:		
In the Hawaiian Islands (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	10,800.00	
In the Philippine Islands (act June 23, 1910, vol. 36, p. 598, sec. 1).....	20,600.00	
NOTE.—The estimates submitted are for the completion of the existing searchlight projects for these localities and, so far as data are at present available, will be sufficient for the purpose.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>		
Protection, preservation, and repair of fortifications at the following localities:		
In the Hawaiian Islands (submitted).....	1,500.00	
In the Philippine Islands (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	14,000.00	
NOTE.—Subjected, as the batteries in the insular possessions are, to extreme moist heat and tropical rains, constant attention must be given to the ironwork and to the earthen parapets to prevent injury by rusting and washing. Funds should be provided to keep the batteries in condition.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>		
Preservation and repair of structures erected for torpedo defense at the following localities:		
In the Hawaiian Islands (submitted).....	500.00	
In the Philippine Islands (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	1,000.00	
NOTE.—The numerous structures erected for use in connection with the mine defense in the insular possessions require constant attention to a greater degree than those in this country in order to prevent deterioration, and funds should be provided therefor. Most of the mine-defense structures in the Hawaiian Islands have been completed, and funds should be provided for their upkeep as well as for those in the Philippine Islands.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>		
Tools, electrical and other supplies, and appliances to be furnished by the Engineer Department for the use of the troops for maintaining and operating gun and mortar batteries:		
In the Hawaiian Islands (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	1,000.00	
In the Philippine Islands (same act).....	5,000.00	
NOTE.—The large amount of costly electrical machinery already installed and to be installed with available funds in the defenses in the insular possessions requires constant attention and a certain quantity of supplies to keep it in condition for effective use. The estimates submitted are to provide the necessary supplies.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>		
Construction of mining casemates, cable galleries, torpedo storehouses, cable tanks, and other structures necessary for the operation, preservation, and care of submarine mines and their accessories at the defenses of the Philippine Islands (act Mar. 2, 1907, vol. 34, p. 1061, sec. 1).	67,000.00	
NOTE.—This estimate is submitted with a view to providing the additional structures needed for the proper handling of the mine equipment now supplied.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>		
UNDER THE CHIEF SIGNAL OFFICER.		
<i>Maintenance, etc., Fire-Control Installations at Seacoast Defenses, Insular Possessions—</i>		
For operation and maintenance of fire-control installations at seacoast defenses, insular possessions (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	20,000.00	20,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
ORDNANCE DEPARTMENT.		
<i>Fortifications in Insular Possessions—</i>		
For purchase, manufacture, and test of seacoast cannon for coast defenses, including their carriages, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenals (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	\$83, 600. 00	
NOTE.—Estimated to procure two 6-inch disappearing carriages with guns; two 15-pounder barbette carriages with guns; and the necessary tools and machinery for their manufacture at the arsenals.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For purchase, manufacture, and test of ammunition for seacoast cannon, including the necessary experiments in connection therewith, and the machinery necessary for its manufacture at the arsenals (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	500, 000. 00	
NOTE.—The amount estimated is sufficient to complete, within \$200,000, the supply of ammunition as originally prescribed by the National Coast Defense Board for seacoast cannon for which appropriations have been provided. An increased allowance deemed necessary for certain mortar batteries, and approved by the Secretary of War, July, 1911, will require additional funds, estimated at \$1,226,242.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the alteration and maintenance of the seacoast artillery, including the purchase and manufacture of machinery, tools, and materials necessary for the work, and expenses of the civilian mechanics, and extra-duty pay of enlisted men engaged thereon (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	33, 585. 00	
NOTE.—Estimated for the alteration and maintenance of seacoast artillery in the insular possessions.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the mechanical supervision of the installation of seacoast artillery, including the purchase and manufacture of machinery, tools, and materials necessary for the work, and expenses of civilian mechanics, and extra-duty pay of enlisted men engaged thereon (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).....	6, 600. 00	
NOTE.—Estimated for the installation of armament as follows: Four 6-inch guns on barbette carriages and two 14-inch turrets.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
That all material purchased under the provisions of this act shall be of American manufacture, except in cases when, in the judgment of the Secretary of War, it is to the manifest interest of the United States to make purchases in limited quantities abroad, which material shall be admitted free of duty (act Mar. 4, 1911, vol. 36, p. 1343, sec. 1).		
BOARD OF ORDNANCE AND FORTIFICATION.		
<i>Board of Ordnance and Fortification—</i>		
To enable the board to make all needful and proper purchases, experiments, and tests to ascertain, with a view to their utilization by the Government, the most effective guns, small arms, cartridges, projectiles, fuses, explosives, torpedoes, armor plates, and other implements and engines of war, and to purchase or cause to be manufactured, under authority of the Secretary of War, such guns, carriages, armor plates, and other war material as may, in the judgment of the board, be necessary in the proper discharge of the duty devolved upon it by the act approved Sept. 22, 1888; to pay the salary of the civilian member of the Board of Ordnance and Fortification provided by the act of Feb. 24, 1891, and for the necessary traveling expenses of said member when traveling on duty as contemplated in said act; for the payment of the necessary expenses of the board, including a per diem allowance to each officer detailed to serve thereon, when employed on duty away from his permanent station, of \$2.50 a day; and for the test of experimental guns, carriages, and other devices procured in accordance with the recommendation of the Board of Ordnance and Fortification, \$50,000, the expenditure of which shall be made by the several bureaus of the War Department heretofore having jurisdiction of the same, or by the board itself, as the Secretary of War may direct: <i>Provided</i> , That before any money shall be expended in the construction or test of any gun, gun carriage, ammunition, or implements under the supervision of the said board, the board shall be satisfied, after due inquiry, that the Government of the United States has a lawful right to use the inventions involved in the construction of such gun, gun carriage, ammunition, or implements, or that the construction or test is made at the request of a person either having such lawful right or authorized to convey the same to the Government (act Mar. 4, 1911, vol. 36, p. 1344, sec. 1).....	50, 000. 00	25, 000. 00
NOTE.—It is difficult to estimate accurately in advance for funds for experimental work, the nature of which is largely problematical and the amount required equally so, but the best guide probably is to take the expenditures for a number of years past and make them the basis of estimates for the future. The appropriation for the current year was \$25,000 and the allotments amounted to \$44,000. The difference was made up from the available balance of prior appropriations. Including the past year the average allotments for five years have been \$56,000. The above estimate is, therefore, less than the average of allotments, but it is hoped will cover necessary requirements.— <i>Leonard Wood, Major General, Chief of Staff, president of the board.</i>		
Appropriations herein and hereafter made for fortifications and other works of defense shall be immediately available, and shall remain available until expended (submitted).		
NOTE.—Under a recent ruling of the Treasury Department the funds appropriated in the fortification appropriation act of Mar. 4, 1911, were not available for expenditure until July 1, 1911. The provision above recommended for enactment is deemed advisable in connection with funds appropriated for fortifications, as under this ruling expenditures from the new appropriation can not be made until the working season in many localities is half over, and this is liable to result in some cases in delay in the prosecution of the work appropriated for.— <i>W. H. Bizby, Chief of Engineers, U. S. Army.</i>

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

ARSENALS.		
ORDNANCE DEPARTMENT.		
<i>Augusta Arsenal, Augusta, Ga.—</i>		
For increasing the water supply and fire protection (submitted).....	\$8, 100. 00	
NOTE.—The pressure from the present standpipe is insufficient, and the available supply of water inadequate for a fire emergency. The changes above estimated for will give the arsenal an adequate water supply at all times and a pressure sufficient to give a good hose stream at any building in the arsenal grounds.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Frankford Arsenal, Philadelphia, Pa.—</i>		
For one high-explosive loading shop and its equipment (act Mar. 4, 1911, vol. 36, p. 1397, sec. 1; submitted).....	\$30, 000. 00	
NOTE.—Estimated for the erection of a fireproof building providing space and arrangement of operations required for safeguarding the arsenal and its employees and for localizing and minimizing the effect of accidents; also to provide facilities for keeping the output of this shop in balance with other shops of the artillery ammunition department. The present frame structure, 24 by 100 feet, is inadequate for the work required to be performed therein. The proposed construction would result in a material reduction in the cost of filling 3-inch projectiles.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For dredging the Frankford Arsenal Creek, bordering on the Frankford Arsenal grounds (submitted).....	11, 350. 00	
NOTE.—Estimated to provide for removing from the creek the sediment that has accumulated for a great many years, resulting largely from the fact that this creek is an open sewer. At other stages of the tide than high water the odor from the creek is most objectionable and very unhealthful for the employees at the arsenal, whose number varies from 1,600 to 2,200. The insanitary conditions resulting from this open creek have frequently been commented upon in the reports of the attending surgeon.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For improving boiler plant (submitted).....	13, 000. 00	
NOTE.—Estimated to procure and install mechanical stokers and an ash-handling apparatus. The installation of mechanical stokers will result in a material saving in the consumption of coal, and will also abate the smoke nuisance, which is not only objectionable, but wasteful as well. The installation of the ash-handling apparatus will obviate the necessity of wheeling ashes from in front of boilers to place of deposit from which they are carted away.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Rock Island Power Plant, Rock Island, Ill.—</i>		
For maintenance and operation of power plant (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1).....	12, 500. 00	12, 500. 00
NOTE.—This is the amount annually appropriated for this purpose.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Rock Island Bridge, Rock Island, Ill.—</i>		
For operating and care and preservation of Rock Island bridges and viaduct; and for maintenance and repair of the arsenal street connecting the bridges (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1).....	18, 000. 00	18, 000. 00
<i>Proving Ground, Sandy Hook, N. J.—</i>		
For 1 warehouse (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1; submitted).....	24, 000. 00	25, 000. 00
NOTE.—The present building is dilapidated and not worth repairing. The proposed building is required for storage of all sorts of miscellaneous articles, of which there are a great many at the proving ground, which must be kept under cover for security and protection from weather.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Picatinny Arsenal, Dover, N. J.—</i>		
For the improvement and development of the water power at the Picatinny Arsenal (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1; submitted).....	15, 000. 00	
NOTE.—A careful series of weir readings has been made and the data obtained show that at a cost of \$15,000 an average of about 90 to 100 horsepower could be developed for eight hours per day throughout the entire year. It is estimated that this would result in a saving over the cost of steam power of between \$2,250 and \$2,500 per annum, or about 15 per cent of the investment. The proposed development involves raising the level of the lake about 2 feet, which would greatly improve the quality of the water for use in purifying the gun cotton used in manufacturing smokeless powder.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the purchase of additional land (submitted).....	7, 500. 00	
NOTE.—It is proposed to purchase about 50 acres of land projecting into the arsenal reservation. The proximity of this land to the Army powder factory building and to the magazines of the Army and Navy, render it highly advisable that it should be controlled by either the Army or Navy; from its location this should preferably be the Army. This land contains several large springs, and its purchase would give a much needed addition to the water supply of the arsenal.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Springfield Arsenal, Springfield, Mass.—</i>		
For increasing the facilities for fire protection (act Mar. 4, 1909, vol. 35, p. 993, sec. 1).....	5, 000. 00	
NOTE.—The sum of \$5,100 was appropriated by the act making appropriations for sundry civil expenses of the Government, approved Mar. 4, 1909, for fire protection of the mill shops, of the hill shops, and part of the old water shops. The amount now estimated for is to provide an automatic sprinkler system for the main arsenal and middle arsenal buildings, with necessary interior piping, connections, etc.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For the erection of coal bins, including conveyors and hoppers for transferring coal from cars to bins (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1; submitted).....	14, 500. 00	
NOTE.—Coal is now stored at the hill shops of the arsenal in wooden bins, constructed over 20 years ago, which are in very poor condition and hardly susceptible of further repair. It is proposed to replace them with a system of hoppers and belts for the conveyance of coal directly from cars to bins.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Watertown Arsenal, Watertown, Mass.—</i>		
For replacing wooden roof on smith shop by a steel structure, including the necessary repairs and alterations to the building (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1; submitted)	\$40,000.00	
NOTE.—The wooden roof of the smith shop is in bad condition, and it is proposed to replace it by a modern steel construction, raising the walls of the building so as to give an interior height sufficient to accommodate a modern forging press of proper capacity, and at the same time make the necessary repairs to the old walls, remove the old chimney, etc.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
For one set of field officer's quarters (submitted)	12,000.00	
NOTE.—At present there are but 4 sets of officers' quarters at this arsenal, and for some years past this number has been insufficient to accommodate the number of officers on duty there, necessitating that some of the officers live outside of the reservation and draw commutation of quarters.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
Additional sum required to complete an iron fence along the boundary line on the Charles River (act May 27, 1908, vol. 35, p. 354, sec. 1)	4,500.00	
NOTE.—The sundry civil act approved May 27, 1908, contains an item of \$7,000 for the construction of an iron fence along the boundary line on the Charles River, made necessary by the construction of a park driveway along the Charles River, under the general plans of the Metropolitan Park Commission of Massachusetts. Investigation since the passage of this act indicates that the kind of fence which could be constructed for the amount appropriated would not be such as to be permanently appropriate in its position. The result of considerable correspondence indicates that for a very modest but appropriate fence along the Charles River the additional amount now asked for will be required.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>	\$56,500.00	\$27,300.00
<i>Testing Machines, Watertown Arsenal, Mass.—</i>		
For the necessary professional and skilled labor, purchase of materials, tools, and appliances for operating the testing machines, for investigative test and tests of material in connection with the manufacturing work of the Ordnance Department, and for instruments and materials for operating the chemical laboratory in connection therewith, and for maintenance of the establishment (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1)	15,000.00	15,000.00
NOTE.—This is the same amount as was appropriated for the fiscal year 1912.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Watervliet Arsenal, West Troy, N. Y.—</i>		
For improvements in field and siege gun departments (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1; submitted)	15,950.00	14,050.00
NOTE.—It is proposed to thoroughly modernize this plant for the manufacture of field and siege guns. The proposed changes and improvements in machinery will, when completed, more than double the present capacity of this shop.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
<i>Repairs of Arsenals—</i>		
For repairs and improvements at arsenals, and to meet such unforeseen expenditures as accidents or other contingencies during the year may render necessary, including \$125,000, or so much thereof as may be necessary, for machinery for manufacturing purposes in the arsenals (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1)	290,000.00	290,000.00
NOTE.—This is the same amount as was appropriated for the fiscal year 1912.— <i>William Crozier, Brigadier General, Chief of Ordnance.</i>		
Total Arsenals	536,400.00	506,400.00
MILITARY POSTS AND MISCELLANEOUS.		
QUARTERMASTER'S DEPARTMENT.		
<i>Military Posts—</i>		
For the construction and enlargement at military posts of such buildings as in the judgment of the Secretary of War may be necessary, including the installation therein of plumbing and of heating and lighting apparatus; but no part of this sum shall be used for the purchase of land, for construction of buildings at Coast Artillery posts, nor for the establishment of any military prison (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1)	60,000.00	55,000.00
NOTE.—This amount is for the construction of a double infantry barracks at Vancouver Barracks, Wash.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Seacoast Defenses, Philippine Islands and Hawaii—</i>		
For continuing the construction of the necessary accommodations for the Seacoast Artillery in Philippine Islands and Hawaii, to be immediately available (act Mar. 4, 1911, vol. 36, p. 1398, sec. 1)	250,000.00	250,000.00
<i>Barracks and Quarters, Seacoast Defenses—</i>		
For the construction and enlargement of barracks and quarters for the Coast Artillery and of other buildings in connection with the adopted project for seacoast defenses, including the installation therein of plumbing and of heating and lighting apparatus, to be expended as in the judgment of the Secretary of War may be necessary: <i>Provided</i> , That no part of this sum shall be used for the construction of officers' quarters to cost in excess of the limits established in the sundry civil appropriation act approved May 27, 1908 (acts Mar. 4, 1907, vol. 34, p. 1348; Mar. 4, 1909, vol. 35, p. 1003)	50,000.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Keithley-Overton Railroad, Philippine Islands—</i>		
For the construction and equipment of a railroad from Camp Overton to Camp Keithley, Mindanao, P. I., provided that the total cost of same shall not exceed \$400,000, of which \$50,000 shall be immediately available (submitted).....	\$50,000.00	
NOTE.—The \$400,000 referred to is the estimated cost of constructing 19½ miles of track, including sidings, and equipping the same for the transportation of the Army and its supplies between Camp Overton and Camp Keithley, in the island of Mindanao, P. I., which it is expected will result in great saving in the cost of transportation as compared with the cost of transportation over the wagon road now in use between the two camps named, and which has in years past required extensive and expensive repairs, owing to the damages done by rains. From all the information obtainable it would appear to be evident that the railroad from Overton to Keithley would immediately and very greatly diminish the expenses of the Government on the north and south sides of Lake Lanao. (Submitted.) An estimate for this purpose was submitted to Congress for the fiscal year 1912, but the funds were not appropriated.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Additional Land, Fort Sam Houston, Tex.—</i>		
For purchase of the tract of land now being leased from Mr. George Brackenridge, for drill purposes, consisting of 310 acres, more or less, lying just north of the newly purchased ground of the military reservation of Fort Sam Houston, Tex., and extending to the country road recently completed around the reservation (submitted).....	70,000.00	
NOTE.—This tract of land is valuable as extra land for the maneuvers of troops and as an extended drill ground and if left much longer will probably be sold and cut up into building lots, to be a menace to any future additions to the post. An estimate for this purpose was submitted to Congress for the fiscal year 1910, but the funds were not appropriated. The following is an extract from a letter addressed by W. B. Tuttle, of San Antonio, Tex., to the Hon. James L. Slayden, House of Representatives: "I am inclosing a section of the new map, showing the land that the Federal Government has an option on, and also a strip of land out of which I bought 12½ acres 6 months ago. I paid \$1,000 an acre for this land, and I have since sold about half of it for \$1,250 per acre. I think, therefore, that the Government has a most favorable option on their land, and I know that there are plenty of people here who would eagerly pick up the land at a higher figure than they have on it."— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Additional Work, Fort Mason Supply Depot, Cal.—</i>		
For additional work, Fort Mason Supply Depot, California (submitted).....	30,000.00	
NOTE.—The above amount contemplates the following additional work at Fort Mason Supply Depot, in order that the department may be able to take full advantage of the work already done: Breakwater on west side of Wharf No. 1, \$30,000.		
Congress appropriated \$1,500,000 in the Army appropriation act approved June 12, 1906, for the construction of an Army supply depot at Black Point, Fort Mason, Cal., and the act specifically required that permanent accommodation should be provided for not less than 4 transports.		
Contracts have been awarded for seawall, crib wall, 3 transport wharves, and shed on Wharf No. 2, including dredging; and filling, also for construction of 2 storehouses, including plumbing, wiring, and elevators for same, amounting to a total of \$1,290,350. In addition to this amount there has been expended for the purchase of submerged land, payment of architects' fees, etc., \$190,650, leaving a small balance which will be required for payment of traveling expenses, architects' fees, etc.		
All the work thus far contracted for contains the best quality of material and workmanship, in order that the structures may be maintained with as small an expenditure as is possible, and owing (a) to the requirement of the act of Congress that not less than 4 ships should be provided for, (b) the decision to construct only structures of the most permanent character, and (c) the unusually high prices prevailing in San Francisco after the fire and earthquake it was not possible to complete the entire project within the limit of funds available.		
It is highly desirable that the important work so well under way should be continued without interruption, and that the supply depot at Fort Mason be made complete in every detail. This is particularly desirable at this time on account of the fact that the War Department contemplates concentration of supplies.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Sewerage System, Fort Monroe, Va.—</i>		
Wharf, roads, and sewer: For repair and maintenance of wharf, including all necessary labor and material therefor, fuel for waiting rooms, and water, brooms, and shovels, \$1,400; repairs to apron of wharf, including all necessary labor and material therefor, \$4,155; wharfinger, \$900; 4 laborers, \$1,920; in all, \$8,375; for one-half of said sum, to be supplied by the United States, \$4,187.50. Repairs and operation of roads, pavements, streets, lights, and general police: For rakes, shovels, and brooms; repairs to roadway, pavements, macadam and asphalt block; repairs to street crossings; repairs to street drains, \$2,170; 6 laborers cleaning roads, at \$480 each; in all, \$5,050; for two-thirds of said sum, to be supplied by the United States, \$3,366.66. Maintenance of sewer system: For waste, oil, and boiler repairs, sewer pipe, cement, brick, and supplies, \$2,100; 2 engineers, at \$900 each; 2 laborers, at \$500 each; in all, \$4,900; for two-thirds of said sum, to be supplied by the United States (act Mar. 4, 1911, vol. 36, p. 1399, sec. 1).....	10,820.82	\$10,820.82
<i>Storehouses, Manila, P. I.—</i>		
For the construction upon the Manila Flats Reservation of storehouses for the supply departments of the Army, including mechanical appliances for handling military supplies most expeditiously and economically (submitted).....	150,000.00	
Provided, That contract or contracts may be entered into by the Secretary of War for the construction of the buildings herein provided for, including the preparation of the ground for building sites, the construction of roads, walks, and drainage, etc., to be paid for as appropriations may from time to time be made by law, not to exceed in the aggregate the sum of \$1,250,000, of which \$150,000 shall be immediately available.		
NOTE.—Based upon an examination made by a board of officers appointed by the commanding general, Division of the Philippines, in September, 1905, to consider and report upon the best plan for utilizing Manila Flats Reservation for the purpose of receiving, storing, issuing, and reshipping to other stations in the Philippine Islands military stores and supplies, it is proposed to apportion the grounds of said reservation to the uses of the several supply departments of the Army and erect thereon storehouses for military supplies, with necessary mechanical appliances for handling them most expeditiously and economically, including intercommunicating narrow-gauge railway tracks, twisting apparatus, wharves, offices for the clerical forces, etc. The general scheme as outlined by the board

and indicated on maps accompanying its report has, after careful consideration by the Commissary General of Subsistence, the Surgeon General of the Army, the Chief of Engineers, the Chief of Ordnance, and the Chief Signal Officer of the Army, been approved and is also recommended by this office. It contemplates the construction of buildings as follows:		
Medical Department: 1 building, 2 stories, 100 by 240 feet; 1 covered shed (open), 120 by 25 feet; 1 building, 2 stories, 80 by 50 feet.		
Engineer: 1 building, 1 story, 95 by 50 feet; 1 covered shed (open), 95 by 25 feet.		
Signal: 1 building, 2 stories, 85 by 60 feet.		
Commissary: 1 building, 1 story (4 sections), 308 by 225 feet; 1 office, second floor, west section; 1 covered shed (open), 324 by 9 feet.		
Quartermaster's Department: 4 buildings, 1 story, each 215 by 130 feet; 1 covered shed (open), 520 by 9 feet; 4 buildings, 1 story, each 220 by 120 feet; 1 covered shed (open), 480 by 9 feet; two offices, second floor, each 120 by 60 feet; 1 building, 1 story, 39 by 24 feet; boathouse.		
An estimate for this purpose was submitted to Congress on July 27, 1907, and also on estimate for fiscal year 1910, but the funds were not appropriated.— <i>J. B. Aleshire, Quartermaster General, United States Army.</i>		
<i>Additional Land for Target Range, Fort Bliss, Tex.—</i>		
For the purchase of the south half of the southeast quarter and the south half of the southwest quarter of section 13, also the south half of section 14 in the vicinity of Fort Bliss, in the State of Texas, for use as a target range for the garrison of that post (submitted).....	\$13,410.00	
NOTE.—The target range heretofore used by the garrison of Fort Bliss is located in the northerly portion of section 21, in the immediate vicinity of that post, and contains about 210 acres. Because of its nearness to the homes of settlers measures were taken to secure injunctions against firing on said range, and the department was forced to lease another range for field firing for last year. Congress in the act of Mar. 3, 1910, making appropriations for the support of the Army for the fiscal year 1911, authorized the exchange of the old target range for approximately 427 acres of land adjacent to the military reservation of Fort Bliss, Tex. But while that exchange will help conditions to some extent it is found that some of the land adjoining that thus secured by exchange is likely to be taken up and improved, so that in time injunctions may also be secured against the use as a target range of the newly-acquired land. To avoid such a contingency and an additional precaution against injunctions it is proposed to purchase 480 acres adjoining upon the north, the land authorized to be taken in exchange for the old range. This land is now procurable at a low figure and will so increase the acreage and locate the boundaries as to secure the Government against annoyance in the future. This estimate is submitted in accordance with instructions of the Secretary of War contained in indorsement of Dec. 27, 1910.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Bridge at Fort Riley, Kans.—</i>		
For the construction of a steel bridge across the Kansas River, at Fort Riley, Kans., to render accessible the drill ground for the cavalry at Smoky Hill Flats (submitted).....	50,000.00	
NOTE.—The bridge across the Kansas River at Fort Riley, Kans., was partially destroyed by fire on the night of June 24–25, 1911. That bridge connected the post proper with Smoky Hill Flats, which have been used for the cavalry drill ground, also for polo field, golf links, tennis courts, etc., where the officers of the post take their prescribed daily exercise. There is no other place on the reservation where a mounted command of the size of the garrison of Fort Riley can be so conveniently reviewed and inspected. It is believed to be in the interest of economy that instead of repairing the old bridge at an estimated cost of about \$15,000 and expending later on an equal or greater amount to replace the portion of the old structure still standing, which it is reported will not last three years, a steel bridge should be constructed, utilizing such of the present caisson piers as are in good condition, which it is believed can be accomplished for the \$50,000 now estimated for. This estimate is submitted in compliance with instructions conveyed in indorsement of September 8, from the office of the Adjutant General of the Army.— <i>J. B. Aleshire, Quartermaster General, U. S. Army.</i>		
<i>Adjustment Boundary Lines on Island of Key West, Fla.—</i>		
The Secretary of War is hereby authorized and empowered to exchange conveyances with the Florida East Coast Railway Co. for the adjustment of a boundary line between the military reservation of Key West Barracks, on the Island of Key West, Fla., and the land in front of said reservation filled in by said railway company under the permission of the Secretary of War, as authorized by law, in accordance with the memorandum of agreement between said railway company and Maj. G. G. Bailey, quartermaster, United States Army, dated Dec. 5, 1910, which agreement is hereby ratified (submitted).		
NOTE.—The fill referred to was authorized under act of Congress (34 Stat. L., 1169), and the line of low water which separates the land filled or to be filled by the Florida East Coast Railway Co. from the upland of the military reservation is a very irregular line, which makes it desirable to establish a dividing line which will include and exclude approximately equal areas, this being to the mutual interests of both parties to the agreement.— <i>J. B. Aleshire, Quartermaster General, United States Army.</i>		
<i>Grant of Land by the State of Wyoming for Enlargement Military Reservation, Fort Mackenzie, Wyo.—</i>		
The grant by the State of Wyoming by act of its legislature approved Feb. 21, 1905, of title to and jurisdiction over the northeast quarter and northwest quarter of southeast quarter of section 18, township 56 N., range 84 W., of the sixth principal meridian, in the county of Sheridan and State of Wyoming, for the enlargement of the military reservation of Fort Mackenzie, in said State, is hereby accepted; and the State is hereby permitted to select and have patented to it, in compensation for said grant, an equal area of any of the unoccupied, nonmineral, untimbered public lands subject to entry within the State of Wyoming (submitted).		
NOTE.—It is believed that the tracts ceded by the State of Wyoming, referred to, which extends into the Fort Mackenzie Military Reservation, will make the reservation much better adapted for military uses. In letter of the secretary of state of Wyoming, dated May 5, 1911, he stated that, "while the act does not specifically so state, the State of Wyoming will undoubtedly follow its usual custom and select new lands as compensation for the land referred to."— <i>J. B. Aleshire, Quartermaster General, United States Army.</i>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Roadway Conveyed to City of Seattle, Wash.—</i>		
The Secretary of War is hereby authorized and directed to convey to the city of Seattle, Wash., all the right and title of the United States in and to the Government roadway leading from the east boundary of the military reservation of Fort Lawton, at Magnolia Bluff, adjoining said city, to a wharf site in said city, upon the condition that the roadway so conveyed shall be kept open and maintained without cost to the United States as a public street of the city of Seattle (submitted).		
NOTE.—By several deeds the United States acquired a fee simple title to the roadway from the east boundary of the Fort Lawton Military Reservation to a wharf site in the city of Seattle, Wash. The deeds called for a nominal consideration, and set forth that the premises were conveyed "for the purpose of a road or highway to be constructed and maintained thereon by the said party of the second part," and reserved to the grantors to lay sewer and water pipes, gas mains, conduits for electrical transmission, etc., within the limits of the strip conveyed to the United States." It now appears that city lots have been laid out on both sides of this roadway for its entire length, so that it has become, substantially, a city street; and it is proposed to turn it over to the city of Seattle to be maintained by the city. This will require congressional authority. The city government is favorable to having this action taken.— <i>J. B. Aleshire, Quartermaster General, United States Army.</i>		
<i>The Extension of St. Claude Street, New Orleans, La.—</i>		
The extension of St. Claude Street, of the city of New Orleans, in the State of Louisiana, along and through the property of the United States known as the military reservation of Jackson Barracks is hereby authorized, said extension to be of the same width and a continuation of the same lines as said street has to the west side of said military reservation, upon condition that the said street shall be improved and maintained without cost to the United States as a public street of the city of New Orleans (submitted).		
NOTE.—Nothing has been found in the records of the War Department to indicate that the extension of St. Claude Street across the Jackson Barracks Military Reservation was ever authorized by Congress; neither does it appear that a right of way was ever granted to the Louisiana Southern Ry. within the part of this street within the reservation. This road or street appears to have been on the reservation for over 60 years. The Secretary of War has approved recommendation of the Judge Advocate General of the Army, Sept. 19, 1910, that this matter be submitted to Congress with the recommendation that the extension of St. Claude Street along and through the property of the United States be authorized of the same width as the said street is to the west of the reservation. Owing to the length of this reservation a street at this point has been a necessity, and this street appears to have been actually extended across the reservations subsequent to the purchase of same.— <i>J. B. Aleshire, Quartermaster General, United States Army.</i>

Total.....	45,000	
¹ This is an increase of \$5,000 over last year's estimate by the addition of a residence for the superintendent. The commission are unanimous in saying that this house is a necessity for a residence of the member of the commission who resides on the park. The house now occupied by him is 2 miles from headquarters; is an old farm house, inconvenient, and too small for family.— <i>D. W. Reed, Chairman.</i>

Improvement of Yellowstone National Park—

For maintenance and repair of improvements in Yellowstone National Park, including not to exceed \$1,500 for maintenance of the road in the forest reserve leading out of the park from the east boundary, and not to exceed \$1,500 for maintenance of the road in the forest reserves leading out of the park from the south boundary, to be expended by and under the direction of the Secretary of War, to be immediately available: *Provided*, That no portion of this appropriation shall be expended for the removal of snow from any of the roads for the purpose of opening them in advance of the time they will be cleared by seasonal changes (act Mar. 4, 1911, vol. 36, p. 1402, sec. 1).....

\$70,000.00

\$70,000.00

NOTE.—The appropriations of the past seven years have proven inadequate to maintain the highway and bridges of the single-track road system with which the park is provided, as described in the Annual Report of the Chief of Engineers for 1906, page 827, and conditions are such that a total interruption of traffic is liable to occur at any time. A number of bridges on the belt line are wooden structures built 19 and 20 years ago, some of which are now reported as menaces to life. These should at once be replaced by steel or concrete structures. There is also urgent necessity for substituting in dangerous places walls of concrete, or of stone laid in mortar, for certain old, dry stone retaining walls which have deteriorated so far as to be unsafe. Rock-crushing machinery and other plant and appliances should also be purchased, and the sum of \$150,000 is considered as absolutely necessary to carry on the work required during the fiscal year.

Under the constantly increasing traffic the system of roads in the park is deteriorating year by year, and it becomes each year increasingly difficult to keep the system open to traffic with the insufficient funds available, and much really necessary work is perforce deferred.

The deterioration of the road bed becomes more rapid if repairs are delayed, and the ultimate result of an insufficient provision of funds will be that portions of the road system must be closed to the public, or appropriations for restoration will be required far in excess of the amount which would have sufficed if the work could have been undertaken in time.—*W. H. Bizby, Chief of Engineers, United States Army.*

NOTE.—The amount of this estimate has been reduced, by direction of the Secretary of War, from \$150,000 to \$70,000.—*W. H. Bizby, Chief of Engineers, United States Army.*

NOTE.—The necessity for the additional items submitted in the above estimates for the next fiscal year, not included in the appropriations made for the current year, and for the increase in the estimates for certain items over the appropriations made therefor for the current year, is explained in the statement following.—*W. H. Bizby, Chief of Engineers, United States Army.*

EXPLANATION OF ESTIMATES FOR APPROPRIATIONS FOR PUBLIC BUILDINGS AND GROUNDS, WASHINGTON, D. C., FOR FISCAL YEAR ENDING JUNE 30, 1913.

As some of the estimates for Public Buildings and Grounds at Washington, D. C., are larger than amounts heretofore appropriated, and as some of them are new, the following explanations thereof are submitted:

(1) The estimates of this office for the fiscal year ending June 30, 1912, for grading, soiling, seeding, planting, and constructing roads and paths in that portion of Potomac Park west of the railroad embankment amounted to \$77,000, but only \$25,000 was appropriated. This sum will allow comparatively a small amount of work to be done toward the necessary improvement of the many acres of this park which have so far hardly been touched. The \$75,000 now asked for is urgently needed to improve and make available for the use of the public one of the most popular and beautiful parks in Washington.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Improvements, Birthplace of Washington, Wakefield, Va.—Continued.</i>		
(2) It is desired to open to the public a portion of Potomac Park east of the railroad embankment, and \$25,000 is requested to commence its improvement.		
(3) Montrose Park, the only park in Georgetown, has recently been purchased at a cost of \$110,000, but no money has been appropriated or is available for its maintenance and improvement. The sum of \$10,000 is requested for this purpose.		
(4) Negotiations are now under way for the acquisition, for park purposes, of land at Sixteenth Street and Florida Avenue N.W., and the sum of \$490,000 has been appropriated for the purpose in the general deficiency act approved Mar. 4, 1911. No money has, however, been appropriated for the improvement and maintenance of this park when acquired, and \$25,000 is requested therefor.		
(5) An estimate is submitted of \$6,000 for replacing the old stone flag pavements of the sidewalks on the avenues east and west of the White House and south of the Treasury Building with cement pavements. The flag pavements are many years old and have been so much damaged by wear and weather that they are unsightly and should be replaced with new pavements.		
(6) The sum of \$5,000 is asked for grading the east side of Sixth Street in Seaton Park. There are still high embankments on both sides of the park road at this point, which are very unsightly and should be graded, soiled, and seeded.		
(7) An estimate of \$3,000 is submitted for an ornamental fountain to be erected at Pennsylvania Avenue and Eighth Street N.W., where it will be seen and enjoyed by the large number of people who pass there daily during the hot summer months.		
(8) An estimate of \$2,500 is submitted for unveiling the memorial to Christopher Columbus, for the construction of which Congress appropriated \$100,000 by act approved Mar. 4, 1907. It is expected that the memorial will be ready for unveiling in May, 1912. It is therefore recommended that the sum asked for be made available.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>		
<i>Monument to the late President Tyler, Richmond, Va.—</i>		
Erection of a suitable monument over the grave of the late John Tyler, former President of the United States, in the Hollywood Cemetery, Richmond, Va., as authorized by the act approved March 4, 1911, to be immediately available and remain available until expended: <i>Provided</i> , That no part of said amount shall be expended until such time as the Secretary of War is satisfied of the existence of a responsible legal association for the care and maintenance of said monument: <i>And provided further</i> , That when the said monument is erected the responsibility for the care and maintenance of the same shall be with such association and without expense to the United States (act Mar. 4, 1911, vol. 36, p. 1345, sec. 1).....	\$10,000.00	
NOTE.—The above provisos are suggested in order that the act making the appropriation may be in accordance with the policy of Congress in making similar appropriations heretofore for the erection of monuments. The act authorizing the construction of this monument did not carry an appropriation.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>		
<i>Monument to Generals Screven and Stewart, Midway, Ga.—</i>		
Construction, erection, and completion of a joint monument to be erected in the old cemetery at Midway, Liberty County, Ga., in memory of the lives and public services of Gen. James Screven and Gen. Daniel Stewart, to be immediately available and remain available until expended (act Mar. 4, 1911, vol. 36, p. 1352, sec. 1).....	10,000.00	
NOTE.—This estimate is submitted in order to carry into effect the provisions of the act approved Mar. 4, 1911, which carried no appropriation.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>		
<i>Memorial Monument at Germantown, Pa.—</i>		
To aid in erecting a monument at Germantown, Pa., in commemoration of the founding of the first permanent German settlement in America, to be expended subject to the provisions of the act approved Mar. 4, 1911, authorizing the expenditure of this sum as a part contribution toward the erection of said monument: <i>Provided</i> , That the money for the erection of said monument shall be expended under the direction of the Secretary of War, and by such officer as may be designated by him (act Mar. 4, 1911, vol. 36, p. 1352, sec. 1).....	25,000.00	
NOTE.—This estimate is submitted in order to carry into effect the provisions of the act approved Mar. 4, 1911, which carried no appropriation. The act provided that the money for the erection of the monument should be expended under the supervision of the Secretary of War, the governor of Pennsylvania, and the president of the National German-American Alliance, but in order to simplify the actual disbursement of the funds it is desirable that the supervision thereof be placed in the Secretary of War alone, and it is also desirable that, in accordance with the usual custom in such cases, the expenditure of the funds be assigned to an officer under his direction.— <i>W. H. Bizby, Chief of Engineers, United States Army.</i>

PUBLIC BUILDINGS.		
<i>Repairs of Buildings, Department of the Interior—</i>		
For repairs of Interior Department and Pension Buildings, and of the old Post Office Department Building, occupied by the Interior Department, including preservation and repair of steam heating and electric lighting plants and elevators, \$30,000, of which sum not exceeding \$7,500 may be expended for day labor, except for work done by contract (act Mar. 4, 1911, vol. 36, p. 1413, sec. 1).....	\$30,000.00	\$30,000.00
NOTE.—In the interest of better administration of the service it is recommended that this amount be increased to \$10,000.		
<i>Elevator, Old Post Office Building, Department of the Interior—</i>		
For the installation of an electric elevator in the southeast corner of the old Post Office Building, occupied by the Interior Department, and the changes in the building incident thereto (submitted).....	7,500.00	
NOTE.—See explanation in House Document No. 515, Sixty-first Congress, second session.		
<i>Repairs and Renewal of Plumbing, etc., Pension Office Building—</i>		
For repairing and renewing plumbing and rearranging toilet rooms in the Pension Office Building, and the construction of necessary sewer and connections therefor, to be immediately available (submitted).....	20,000.00	
NOTE.—See explanation in House Document No. 497, Sixty-first Congress, second session.		
<i>Heating, Lighting, and Power Plant, Department of the Interior—</i>		
For necessary engines and generators, changes in cables, conduits, connections, and switchboard to be used in extending the lighting and power system of the Department of the Interior to the United States courthouse and court of appeals addition thereto, and the laying and constructing of conduits to a point to be hereafter designated on E Street NW. (submitted).....	22,500.00	
NOTE.—See House Document No. 517, Sixty-first Congress, second session, and House Document No. 1364, Sixty-first Congress, third session, respectively.		
<i>Repairs of Sidewalks around the Patent Office and Old Post Office Buildings—</i>		
For the repairing of the sidewalks and the resetting of curbs surrounding the reservation or appropriation No. 8, bounded by Seventh, Ninth, F and G Streets NW., and occupied by the Department of the Interior, and around the reservation or square No. 430, bounded by Seventh, Eighth, E and F Streets NW., occupied by the old Post Office Building, and the repair of the approaches and the steps to the buildings on said reservations (submitted).....	10,000.00	
NOTE.—See explanation in House Document No. 500, Sixty-first Congress, second session.		
<i>Installation of a Consolidated Carpenter and Cabinet Shop in Pension Office Building—</i>		
For necessary tools and equipment required in the installation of a consolidated carpenter and cabinet shop in the basement of the Pension Office Building (submitted).....	3,000.00	
NOTE.—By an order dated June 29, 1909, the three main buildings of this department, the old Post Office Building, the Patent Office Building, and Pension Office Building, and their labor and watch force were consolidated under the direct jurisdiction and control of the chief clerk of the department. There is now maintained in each building a separate carpenter, cabinet, and woodworking shop. The appliances incident to these are insufficient for carrying on the business in a thorough, up-to-date manner. While there are sufficient tools of the character ordinarily required in a carpenter shop, there are none of those mechanical devices ordinarily in use which would enable the department to manufacture such of the material which is now bought in the market, or which must be manufactured under contract. It is proposed in event this legislation is enacted, to abolish the separate shops in the old Post Office and Patent Office Buildings, devote the space occupied to other necessary purposes, and transfer the force, tools, and appliances to a central shop in the Pension Office Building into the space vacated by the removal of the boilers of the separate heating plant (sundry civil act, June 25, 1910, 36 Stat., 737).		
<i>Repairs and Improvements, Patent Office Building, and Steel Book Stacks, Scientific Library, Patent Office—</i>		
For repairs and improvements to the Patent Office Building (submitted).....	\$220,000.00	
For steel book stacks for scientific library of the Patent Office (submitted).....	2,500.00	
NOTE.—See explanation in Senate Document No. 543, Sixty-first Congress, second session.	222,500.00	
<i>Special Repairs, Patent Office Building—</i>		
For special repairs to the Patent Office Building, \$50,000, or so much thereof as may be necessary, to be immediately available. The Secretary of the Interior is authorized, in his discretion, to sell the old copper roof of the Patent Office Building and use the proceeds derived from such sale in repairs to the Patent Office or other buildings owned by the Government and under the control of the Secretary of the Interior (submitted).....	50,000.00	
<i>Fire Protection for Patent, Pension, and Old Post Office Department Buildings, Department of the Interior—</i>		
For labor, material, apparatus, hydrants, and other fire-protection appliances, including extending 8-inch water main from Fourth to Fifth Street through the park on the south side of the Pension Office Building (submitted).....	21,500.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

EXECUTIVE OFFICE,
COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, June 8, 1911.

CLEMENT S. UCKER, Esq.,
Chief Clerk, Department of the Interior,
Washington, D. C.

DEAR SIR: Referring to your request for an inspection and report relative to fire protection and watch patrol of the Pension Office Building, I am sending you herewith a report of the fire marshal of the District of Columbia in the premises.

Very respectfully,

W. TINDALL,
Secretary Board of Commissioners, District of Columbia.

HEADQUARTERS OF THE FIRE DEPARTMENT,
DISTRICT OF COLUMBIA,
Washington, May 31, 1911.

FRANK J. WAGNER,
Chief Engineer, District of Columbia Fire Department.

SIR: Relative to the request of Mr. Clement Ucker, chief clerk, Department of the Interior, that an examination be made of the building occupied by the United States Pension Office, located at Fourth, Fifth, F, and G Streets NW., for the purpose of determining if proper protection is afforded to guard against fire.

I have the honor to state that, accompanied by a committee appointed by Mr. Ucker, consisting of Capt. Osborn and Engineer Hill, from Interior Department proper, and Supt. Jones and Electrician Gibson, from the Pension Office, an examination was made of the building, as follows:

The building is four stories in height and what is termed fireproof construction.

The rooms occupied by the different bureaus are located around the four sides of the building, leaving the center an open court; from the first to third floors inclusive is occupied for office purposes, and contains the usual amount of combustible material found in such buildings, consisting of wood office furniture and file cases.

The fourth floor is where the worst conditions exist. I found wood shelving filled with official documents, and this shelving and documents take up the space from floor to ceiling, with narrow aisles between the different rows of shelving. This condition I consider very congested, for the reason that in the event of a fire on the fourth floor, where these files or records are kept, the fire department would encounter considerable difficulty in the extinguishment of the fire, due to the time required to reach the fire and its congested condition, not to speak of the damage that would surely be the result to the building and contents by fire and water.

There are 34 fire extinguishers distributed through the building on the different floors to the best possible advantage. There is only 1 fire extinguisher in the basement, which I do not deem sufficient. These fire extinguishers are very good for small fires, but not to cope with a fire of any magnitude. There are standpipes on each floor, but are not equipped with hose and are inadequate for the reason that the water pressure is not sufficient to reach the top floor.

From an investigation made of the working and drilling, the watch force, together with the assignment and registry system, is all that could be desired if the present code of signals are enforced, for the better protection of the occupants and building.

I respectfully recommend that the storage of all the wood shelving and file cases, together with the official documents on the fourth floor, be discontinued and that more suitable rooms be provided; either provide an absolute fireproof compartment or provide metal cabinets, and the selection of suitable rooms should be as near the ground as possible. If the basement is selected for the storage of the official records, suitable provisions should be made that would enable the fire department to obtain easy access to the rooms, and properly ventilated. As a matter of further precaution all the wood file cases and office furniture should be replaced with metal cabinets and metal furniture.

I further recommend that two additional fire extinguishers be provided for basement, one to be located near the center and one to be located near the west end of basement.

Owing to the abandonment of the present standpipe, due to the fact that the pressure of water is inadequate to cope with a fire above the second floor, I recommend that this system be replaced with a chemical storage system, for the reason that the chemical system is almost instantaneous if properly installed and the handling of the hose would be easier and lighter for the watch force. If the standpipes were equipped with hose, owing to the size and weight when filled with water, I doubt very much if the watchmen would be physically able to handle the fire hose. The hose should be rubber lined and in 50-foot lengths.

I further recommend that three fire hydrants be installed on reservation on outside of building, one on the east, one on the west, and one on the south side of the building near driveway, easily accessible for the use of the fire department, for the reason that in case of a fire in the building more efficient service can be rendered; under present conditions the nearest fire hydrants are located on the outside of the reservation and require longer leads and more hose to reach the building.

I further recommend that all the gas tubing in use in the lunch room in basement be removed and replaced with gas pipe. Also remove the wood partitions in east end of basement and provide a metal or metal-lined box with self-closing door for the storage of sawdust in lieu of the present wooden box.

I further recommend that a megaphone be provided for the use of the watchmen on each floor to be used in case of a fire. Should the bell system fail to work satisfactory the megaphone could be used to attract attention.

I further recommend that a system of signal gongs be installed on the different floors where there are a number of people employed, in connection with a system of fire drills which should be inaugurated in order to thoroughly familiarize each and every one employed in the building as to the proper means of escape, to be used in case of fire or other emergency.

Very respectfully,

P. W. NICHOLSON,
Fire Marshal.

FIRE DEPARTMENT, June 5, 1911.

Respectfully forwarded to Hon. John A. Johnston, Commissioner, District of Columbia.

This inspection was made by direction of the commissioners, at the request of the chief clerk of the Department of the Interior.

It is respectfully recommended that the report be forwarded to Mr. Clement Ucker, chief clerk, Interior Department.

F. J. WAGNER,
Chief Engineer.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.														
<p>Mr. CLEMENT S. UCKER, Chief Clerk Department of the Interior.</p> <p>SIR: I respectfully recommend for your consideration the following items in your estimates for the fiscal year 1912-13:</p> <p>First, for new roof on Pension Office Building. The present roof is of copper and in very bad repair owing to original construction. The roof was formerly what is known as a flat-seam roof, laid on three-fourths inch sheeting and nailed down the center of each sheet, without any expansion joints, and during hot weather the expansion caused from the heat of the sun buckles the copper and draws the nails. It also causes the sheets of copper to break clear across, causing large leaks in the roof. It takes the time of one man almost continually to keep the roof in repair. Also the skylights, 26 in number, were constructed in wood, with side windows. The woodwork rotted away, until it is almost impossible to keep them in repair. On two occasions this summer, during heavy storms, two skylights were blown entirely off, one of them landing somewhere in the street, I do not know where, as we never found it. I would recommend that a new roof be put on the entire building, the roof to be of best charcoal iron. There are 109,220 square feet of roof on this building. The estimated cost of this roof, skylights, and necessary gutters complete would not exceed \$25,000. This estimate would be sufficient to replace all skylights with iron where wood is now used. The skylights alone are estimated at \$2,000. This estimate would also cover the expense of carefully taking off the present copper and trimming it and saving the best of it at a loss of about one-third of the present copper, and the purchase of the additional copper and putting it on in what is known as a strip roof, which would make a first-class copper roof.</p> <p>Second, also the plumbing and toilets are in a deplorable condition, and if not replaced by new ones in the near future some of the toilet rooms will have to be closed. There are eight toilet rooms in this building, each containing eight stools. Two of them are for the use of ladies and six for men, and as there are about 1,200 people employed in the building, you can readily see there are none to spare. We have to use large quantities of disinfectants to keep down the odors, but this is only using one disagreeable odor to kill the other. As the waste pipes will all have to be renewed, there is only one thing to be done, and that is to replace the entire system by a new one. The estimated cost of the entire plumbing is \$20,000. This sum includes new tile floors or approved floor to replace the present concrete floor, new waste pipes, lavatories, and everything complete.</p> <p>Third, I also recommend that the windows in the entire building be changed from the present French window to a four-bar sash window, including windows, window frames, sills, and weights. The present windows are rotting away, and frequently in windy weather the entire window blows out, which might cause considerable damage to valuable records from rain or snow, to say nothing of furniture, floors, and walls. By changing these windows as above mentioned it would make this the best-ventilated building in the department. By taking the glass in the present windows and using it for wind shields at the bottom of the windows the lower sash could be left up a couple of inches, keeping a good circulation at all times, without the clerks having to leave their desks, as they do at the present time four or five times a day, while the rooms are ventilated. The estimated cost for windows, frames, sills, installed complete, is \$8,000.</p> <p>Fourth, also the rewiring of the entire building. The present wiring is now in wooden molding, the main running along the corridors. Branching in the rooms, the wires are incased in a wooden molding, which is not in accord with the fire regulation, and is a menace to the building at all times. I find the insulation of the mains and many of the feeders has become vulcanized, hard and brittle, which might cause a fire at any time. The estimated cost of rewiring the building is \$10,000.</p> <p>Fifth, also for extending the 8-inch water main from Fourth to Fifth Street through the park on south side of building, and placing a fire plug at east end of building, 75 feet from building, and another fire plug at south entrance, 75 feet from the building, for better fire protection, in accordance with the recommendation of the city fire marshal and also the department fire committee. The estimated cost is \$1,500. The nearest fire plug at present is located at Fourth and F Streets, about 300 feet from the nearest entrance to the building.</p> <p>Sixth, also the painting of the entire inside of the building from the roof down, balconies, and the columns in the court (not the rooms); the walls and columns around the court have not been painted for many years and are in a very bad condition. The estimated cost of the work, including labor and material, would be \$10,000.</p> <p>The items above mentioned are all badly needed to put this building in a good sanitary condition, and are listed hereunder:</p> <table><tr><td>Items for roof.....</td><td>\$25,000</td></tr><tr><td>Items for plumbing.....</td><td>20,000</td></tr><tr><td>Items for windows.....</td><td>8,000</td></tr><tr><td>Items for electrical work.....</td><td>10,000</td></tr><tr><td>Items for water main and 2 fire plugs.....</td><td>1,500</td></tr><tr><td>Items for painting.....</td><td>10,000</td></tr><tr><td></td><td><hr/>74,500</td></tr></table>	Items for roof.....	\$25,000	Items for plumbing.....	20,000	Items for windows.....	8,000	Items for electrical work.....	10,000	Items for water main and 2 fire plugs.....	1,500	Items for painting.....	10,000		<hr/> 74,500

<p><i>Improvement of Electric Light Plant for the Department of Interior Buildings—</i></p> <p>For labor and material required in the construction of a concrete or brick tunnel or conduit to connect the Patent Office and the old Post Office Department buildings, the laying and construction of which under F Street NW., between Seventh and Eighth Streets, is hereby authorized, to be immediately available (submitted).....</p>	\$3,500.00															
<p>NOTE.—</p> <p>Mr. CLEMENT S. UCKER, Chief Clerk.</p> <p>SIR: Replying to your verbal order of some time since, I submit herewith an estimate of \$3,500 to cover the installation of a concrete or brick tunnel to connect the Patent and old Post Office buildings by passing beneath F Street parallel with the present tunnel, which was authorized by the deficiency act of June 1, 1902 (32 Stat., 569). The following reasons are given why this installation should be made:</p> <p>The present tunnel contains all the heating and water pipes for the Patent and Pension Office buildings, and also electric light, power, and telephone cables. These pipes and wires have obstructed this tunnel in such a manner that it is not available for persons to pass through, and should trouble occur on the heating lines or electric cables it would be extremely hard to make repairs without a great expense.</p> <p>The new tunnel asked for is to contain only the electric lighting, power, and telephone wires and water pipes, and in the future the refrigerating pipes of the ammonia compressors for the ice plant, which will eventually be located in the engine room of the old Post-Office building. This tunnel is to be made large enough for employees to pass through with comfort from one building to the other, which will be a great saving of time for the mechanical forces, especially in inclement weather.</p> <p>I trust that this will meet with your approval, as it is very necessary and will add, from an economical standpoint, largely to the present plant, from the fact that it would not only be a great expense to repair the cables, should a short circuit occur, but might cause a serious shutdown of the plant.</p> <p>Very respectfully submitted,</p> <p>J. S. HILL, Chief Engineer and Superintendent of Construction.</p>																

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913 (Continued.)

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Steel Cases for Photolithographic Plats, General Land Office—</i>		
For providing steel fire and dust proof cases for storing photolithographic plats of surveys in the General Land Office (submitted).....	\$25,000.00	
NOTE.—The cases in which the plats are now filed are of wood construction and are in a dilapidated condition. The plats consist of about 45,000 sets, averaging about 16 plats to a set, and have cost the Government over \$25,000 for reproduction. They are in constant demand by settlers and for official use. Their loss by fire, in whole or in part, would be calamitous. The proposed steel cases would provide filing space for present and future needs.		
<i>Capitol Building, and Repairs—</i>		
For work at Capitol and for general repairs thereof, including flags for the east and west fronts of the center of the Capitol and for Senate and House Office Buildings; flagstuffs, halyards, and tackle, wages of mechanics and laborers; purchase, maintenance, and driving of office vehicle, and not exceeding \$100 for the purchase of technical and necessary reference books and city directory (act Mar. 4, 1911, vol. 36, p. 1413, sec. 1).....	30,000.00	\$30,000.00
<i>Improving Capitol Grounds—</i>		
For the care and improvement of the grounds surrounding the Capitol, Senate, and House Office Buildings, pay of 1 clerk, mechanics, gardeners, for fertilizers, repairs to pavements, walks, and roadways (act Mar. 4, 1911, vol. 36, p. 1414, sec. 1).....	30,000.00	30,000.00
<i>Capitol Power Plant—</i>		
For lighting the Capitol, Senate, and House Office Buildings, and Congressional Library Building, and the grounds about the same, Botanic Garden, Senate stables and engine house, House stables, Maltby Building, and folding and storage rooms of the Senate; pay of superintendent of meters, at the rate of \$1,600 per annum, who shall inspect all gas and electric meters of the Government in the District of Columbia without additional compensation; for necessary personal and other services; and for materials and labor in connection with the maintenance and operation of the heating, lighting, and power plant, and substations connected therewith, to be expended by the Superintendent of the Capitol Building and Grounds under the supervision and direction of the commission in control of the House Office Building appointed under the act approved Mar. 4, 1907, \$100,000.		
Provided, That hereafter the heating, lighting, and power plant constructed under the terms of the act approved Apr. 28, 1904, shall be known as the Capitol power plant; and hereafter all vacancies occurring in the force operating said plant and the substations in connection therewith shall be filled by said superintendent with the approval of said commission in control of the House Office Building appointed under the act approved Mar. 4, 1907 (increase submitted, \$10,000) (act Mar. 4, 1911, vol. 36, p. 1414, sec. 1).....	100,000.00	90,000.00
<i>Engine House, Senate and House Stables—</i>		
For repairs and improvements to steam fire-engine house, and Senate and House stables, and for repairs to and paving of floors and courtyards of same (act Mar. 4, 1911, vol. 36, p. 1414, sec. 1).....	1,500.00	1,500.00
<i>Repairs of Paintings in the Capitol—</i>		
For continuing the work of cleaning and repairing works of art in the Capitol, including repairs to frames, under the direction of the Joint Committee on the Library (act Mar. 4, 1911, vol. 36, p. 1414, sec. 1).....	1,500.00	1,500.00
<i>Buildings and Grounds, Government Hospital for the Insane—</i>		
For roadways, walks, and grading \$5,000 is necessary for making the necessary repairs and renewals (act Mar. 4, 1911, vol. 36, p. 1422, sec. 1).....	\$5,000.00	
For cement wall about Howard Hall and shop and storehouse building \$55,209 is needed (submitted).....	55,209.00	
NOTE.—This item is in lieu of a previously requested appropriation of \$160,000 for a new building for the criminal insane, and is based upon the recommendation of a special committee which has spent considerable time in studying the accommodations for the criminal insane and the problem of their future care at the hospital. The present building has never been altogether safe for such a dangerous class of patients, and although its safety has recently been increased by remodeling the window guards, still it is considered that further safeguard should be taken. It seems most feasible to construct a cement wall 24 feet in height about the building at a considerable distance. This will not only render escape from the building practically impossible, but will give a much needed outside courtyard for exercise. The construction of a shop and storehouse building is made necessary in connection with this proposed wall for the reason that the basement of Howard Hall is at present used as a shop and storehouse, and if a wall were constructed about the building the use of the basement for these purposes would have to be abandoned, and, as there is no other available place to which to move, the construction of a separate building is rendered necessary.		
NOTE.—This estimate has been presented in accordance with the special report made by the special committee appointed by the Secretary of the Interior for the purpose of making an inquiry into the needs of the Government Hospital for the Insane, and for outlining the future policy of its growth. It is believed to be essential as a matter of public safety so long as the criminal insane are maintained at the institution.		
For the construction and equipment of an epileptic group to accommodate 140 patients, \$160,000 is needed (submitted).....	160,000.00	
NOTE.—The hospital has been increasing rapidly in size lately, and the 1,000 beds for which the hospital extension was constructed are already filled. In certain portions of the hospital we are beginning now to see evidences of crowding. It is therefore the part of wisdom to provide for further growth, and in making this provision it is deemed desirable to build such extensions as will enable a better classification of the hospital population. Whereas the epileptics are at present fairly well segregated, they are in wards that were built for a different class of patients. The buildings of an epileptic group can be so constructed as to admit of indefinite extension, and will give this class of patients a character of surroundings much better suited to them than they now have, while the wards they now occupy can be used for the general purpose of the hospital population. The estimated cost on a basis of \$1,000 per capita is considered, under all conditions, to be reasonable, while \$100 per capita has been allowed for equipment. The additional \$6,000 is intended to include the cost of the plans, the architect's fees, advertising, etc.		
NOTE.—The estimate for this group of buildings is along the lines recommended in the report of the special committee appointed by the Secretary to report upon the needs of the Government Hospital for the Insane, and its future policy.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Buildings and Grounds, Government Hospital for the Insane—Continued.</i>		
To enable the Secretary of the Interior to purchase additional land for the Government Hospital for the Insane, \$100,000, or so much thereof as may be necessary (submitted).....	\$100,000. 00	
In the event of his inability to make such purchase, the Secretary of the Interior shall proceed in the manner prescribed for providing a site for the Government Printing Office, in so much of the act of July 1, 1898, as is set forth on pages 648 and 649 of volume 30 of the Statutes at Large, to acquire the land desired; and for the purpose of such acquisition the Secretary of the Interior shall have and exercise all the power conferred upon the Public Printer in such act: the appropriation to be disbursed by the Secretary of the Interior.		
NOTE.—The need of additional land by the hospital has been appreciated for some time, and each successive superintendent for many years past has requested appropriations for its purchase. The need of land has become more acute of late because all of the new construction has been placed upon land previously used for farming purposes, thus restricting the output of the farm to such an extent that it is now impossible to raise enough fodder for the dairy herd. The hospital is increasing in size at the rate of upward of 100 patients per annum, and more buildings must be added in the near future, which will still further infringe upon the land used for farming.		
NOTE.—The need of additional land is recognized by the special committee appointed to inquire into the needs and future policy of the hospital, and its purchase has been recommended in the committee's report.		
For new barns and piggeries, \$65,000 (submitted).....	65,000. 00	
NOTE.—The present buildings comprising the barns and piggeries are located on the east side of Nichols Avenue and immediately fronting on it.		
All of these buildings are very old, and many of them in extremely dilapidated and disgraceful condition. It is desired to construct entirely new buildings to take their place. The buildings are not only old and dilapidated, but it is impossible because of these conditions to keep them in proper sanitary condition, while one of the barns is positively unsafe. It is desired to construct a dairy barn consisting of four units, each to accommodate 50 cows, and piggeries to accommodate 60 pigs. A recent investigation of the dairy conditions by an expert from the Agricultural Department showed them in a very unfavorable light, and indicated very clearly that steps should be taken to improve them. Milk is one of the most important and staple articles of diet in the hospital and should be produced in a way to insure its freedom from even the suspicion of disease.		
The Agricultural Department has cooperated with the hospital and has prepared plans for a dairy barn which are in accordance with the latest ideas of what such a structure should be.		
NOTE.—This item is also approved by the special committee appointed to inquire into the needs and future policy of the hospital.		
For a fence to be placed along the frontage of the hospital grounds on the east side of Nichols Avenue, the sum of \$14,000 is needed (submitted).....	14,000. 00	
NOTE.—This portion of the hospital grounds is occupied by four buildings of the hospital extension, which contain approximately 400 patients.		
There is now along the thoroughfare a dilapidated, unsightly wooden fence, which it is desired to replace with a substantial one.		
For general repairs and improvements, the sum of \$60,000 is needed (act Mar. 4, 1911, vol. 36, p. 1422, sec. 1).....	60,000. 00	
NOTE.—The increase in this estimate is rendered necessary by recent decisions of the auditor and comptroller, who are placing a very much more rigid interpretation upon what expenditures come under the designation of repairs and improvements than ever before. As a result, many things which for years have been purchased from the support fund have had to come from the repair fund, and this fund necessarily therefore has to be augmented.		
Total Public Works under Interior Department.....	\$459,209. 00	\$45,000. 00
	1,090,709. 00	228,000. 00

UNDER THE DEPARTMENT OF COMMERCE AND LABOR.

LIGHTHOUSES, BEACONS, FOG SIGNALS, LIGHT VESSELS, AND OTHER WORKS UNDER THE LIGHTHOUSE SERVICE.

GROUP NO. 1.

Works urgently necessary for the safety of navigation and for the preservation of existing structures or equipment, for the full utilization of other public improvements, or for the completion of projects already commenced.

Light Vessels, General Service—

No. 1. For constructing and equipping light vessels for general service (act June 17, 1910, vol. 36, p. 534, sec. 1; submitted).....

250,000. 00

NOTE.—The Lighthouse Service has 65 light vessels. Some of these are now in bad condition and others are unseaworthy; a number of them are more than 50 years old. One vessel has been condemned during the past fiscal year, and two more must soon be condemned as not worth repairing. To relieve this number of vessels for necessary annual overhauling and repairs and replace those worn out in service, it is essential that on an average several be built each year. It is desirable to leave the matter of which vessels should be replaced until the time of preparing the plans for the new vessels. One light vessel for general service, at \$130,000, was authorized by the act of June 17, 1910 (36 Stat., p. 534), but has never been appropriated for.

Lighthouse Tender, General Service—

No. 2. The Secretary of Commerce and Labor is hereby authorized to use the appropriation of \$60,000 for a tender for the fifteenth (now the thirteenth) lighthouse district, made by the act of Mar. 4, 1907 (34 Stat., p. 1319), for constructing a tender for general service (acts Feb. 26, 1907, vol. 34, p. 996, sec. 1; Mar. 4, 1907, vol. 34, p. 1319, sec. 1; submitted).

NOTE.—Under the reorganization and the plan of cooperation with the officers in charge of the river improvements, it is not necessary now to build a new tender for this district, but it is important that new tenders be constructed to replace lighthouse tenders in other districts, worn out in service. The Lighthouse Service has 48 tenders; some of these are now in poor condition, and a number of them are quite old. Five tenders have been condemned during the past year and two more must be condemned in the early future. To maintain this number of vessels it will be necessary to build on an average one or more new tenders each year.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Lighthouse Tenders, General Service—</i>		
No. 3. The Secretary of Commerce and Labor is hereby authorized in his discretion to use the appropriation of \$200,000 for a tender for the first light house district and elsewhere, made by the acts of May 27, 1903 (35 Stat., p. 331), and Mar. 4, 1909 (35 Stat., p. 970), for the construction of two tenders (acts May 14, 1903, vol. 35, p. 160, sec. 1; May 27, 1908, vol. 35, p. 331, sec. 1; Mar. 4, 1909, vol. 35, p. 970, sec. 1; submitted).		
NOTE.—It is probable that this amount will be sufficient for the construction of two tenders instead of one, and authority to so employ the appropriation is requested, in order to better maintain the requisite number of tenders for the Lighthouse Service, in accordance with the needs explained under the preceding item.		
<i>Aids to Navigation, Pearl Harbor, Hawaii—</i>		
No. 4. For establishing aids to navigation in Pearl Harbor, Hawaii (submitted)	\$80,000.00	
NOTE.—In view of the fact that the Government has authorized the establishment of a naval station at this point, it is essential that the channels and entrance be properly marked; this is rendered more important by the set of the current, which is usually across the channel in the approach, and also on account of the prevailing northeasterly winds. It is reported that the dredging of the channel will be completed in 1912, and the necessary aids to navigation should then be available.		
<i>Aids to Navigation, St. Marys River, Mich.—</i>		
No. 5. For making repairs and improvements to aids to navigation in the St. Marys River, Mich. (submitted)	60,000.00	
NOTE.—Many of the beacons have been seriously damaged by ice and decay and require immediate repair. These aids are of great importance to a large amount of shipping and should be put in an efficient condition.		
<i>Cape St. Elias Light Station, Alaska—</i>		
No. 6. For establishing a light and fog signal at or near Cape St. Elias, Alaska (submitted)	115,000.00	
NOTE.—This point is one of the most important to navigation in southern Alaska, being a landfall for nearly all vessels between southeastern and western Alaska and for vessels bound to Prince William Sound. This is a coast frequented by fog and storms and many requests have been received for this aid to navigation, and it is believed to be the most urgently needed in Alaska.		
<i>Ashtabula Harbor Range Lights, Ohio—</i>		
No. 7. For rearranging, rebuilding, and improving the aids to navigation at Ashtabula Harbor, Ohio (submitted)	45,000.00	
NOTE.—Extensive improvement work is in progress for the enlargement of Ashtabula Harbor, involving the construction of new breakwaters and the extension of the west breakwater on which the present light and fog signal are located. This work will necessitate a rearrangement of the aids to navigation and the rebuilding of the main light and fog signal in a new position. This appropriation should be available so that there will be no delay when the new breakwater is completed.		
<i>Cleveland Harbor Breakwater Light Station, Ohio—</i>		
No. 8. For removing, reconstructing, and improving the fog-signal station at Cleveland, Ohio (submitted)	17,600.00	
NOTE.—The present steam-whistle fog signal is situated at the Cleveland West Breakwater East End Light. The completion of the rubble-mound breakwater arms and the recent establishment of the main light on the west breakwater pierhead necessitates the removal of the present fog signal to the new main light in order to obtain the highest efficiency of the fog signal and concentrate the duties of the keepers. In view of the prevailing thick weather at Cleveland, principally caused by smoke from the city, this station should be equipped with the most modern fog-signal apparatus.		
<i>San Juan Lighthouse Depot, P. R.—</i>		
No. 9. Authority is hereby granted for the transfer from the Navy Department to the Department of Commerce and Labor, for use as a lighthouse depot, of such part of the naval reservation at San Juan, P. R., as may be useful for such purpose.		
NOTE.—The present lighthouse depot at San Juan is inadequate for the district of Porto Rico. Considerable additional appropriations would be necessary to provide the station with sufficient dock, storage, and office accommodations. On account of insufficient facilities at the present depot some parts of the navy yard have been used heretofore. With the discontinuance of the active use of the navy yard by the Navy Department, excellent facilities could be afforded for a lighthouse depot at less expense than at the present depot, and the latter could be transferred for other use.		
<i>Cape Fear River Lights, N. C.—</i>		
No. 10. For completing the lighting and marking with aids to navigation of Cape Fear River, N. C. (acts June 17, 1910, vol. 36, p. 536, sec. 1; Mar. 4, 1911, vol. 36, p. 1431, sec. 1; submitted)	30,000.00	
NOTE.—The act of June 17, 1910 (36 Stat., p. 536), authorized the construction of suitable lights and signals in Cape Fear River, below Wilmington, N. C., at a cost not to exceed \$21,000, which amount was appropriated by the act of Mar. 4, 1911 (36 Stat., p. 1431). It is now found that to complete the proper lighting, etc., of this river and to purchase the necessary apparatus, material, etc., will require \$30,000 additional. The poor condition of the existing aids and the changes in the channel resulting from improvement work make the reconstruction of the aids important.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Frying Pan Shoals Light Vessel, N. C.—</i>		
No. 11. The Secretary of Commerce and Labor is authorized to station the light vessel, for which appropriation was made in the act of May 27, 1908, or any other light vessel, at such position in the vicinity of Frying Pan Shoals as he may determine to be most advantageous to navigation (acts May 27, 1908, vol. 35, p. 331, sec. 1; June 17, 1910, vol. 36, p. 537, sec. 3).		
NOTE.—The act of May 27, 1908, making appropriation for a light vessel specified a definite location for the vessel and also prohibited the removal of a lightship "from the place designated for its station in the act authorizing its construction." The latter restriction was repealed by the act of June 17, 1910. Because of the definite wording of the act making appropriation for the vessel, it has not been felt that there is discretion as to the first placing of this vessel, and it has been located accordingly. The effect of this is either to require the maintenance of 2 light vessels off the Frying Pan Shoals at a distance apart of only 12 miles or else to require the discontinuance of a light vessel in the outer position, where it has been for the past four years. The maintenance of 2 light vessels in this vicinity is an unnecessary expense; 2 vessels are not considered essential to the interests of navigation under existing conditions, and none of the maritime interests have contended that there should be 2 vessels; the limited number of light vessels available for service does not warrant the placing of 2 light vessels here. With the exception of local interests in the vicinity of Wilmington, practically all those consulted, including maritime bodies, steamship companies, and officers of Government marine services, agree that it is preferable to maintain the lightship in the position outside of all dangers, where it has been for the past four years.		
GROUP NO. 2.		
Works considered essential for the immediate needs of navigation and for the efficient equipment of the Lighthouse Service:		
<i>Aids to Navigation, Puget Sound, Washington—</i>		
No. 1. For the establishment of aids to navigation and for the improvement of existing aids in Puget Sound, Wash. (submitted).....	\$45,000.00	
NOTE.—Owing to the lack of sufficient aids to navigation, the navigation of the waters of Puget Sound is dangerous in bad weather. This amount is required for the establishment or improvement of aids at a number of points.		
<i>Guantanamo, Cuba, Keepers' Dwelling—</i>		
No. 2. For a dwelling for keepers of the lights in Guantanamo Bay, Cuba, and for improving the lighting (submitted).....	14,000.00	
NOTE.—The dwelling at this station was destroyed during the late insurrection, and since the occupation of Guantanamo by the United States the keepers have been compelled to live in a wooden shack with only three rooms to house three keepers. The lights in charge of these three keepers are widely separated. With the installation of acetylene lights as proposed, the services of one keeper may be dispensed with.		
<i>Anacapa Island Light Station, California—</i>		
No. 3. For establishing a light and fog signal station on or in the vicinity of Anacapa Island, Cal. (act June 17, 1910, vol. 36, p. 536, sec. 1).....	100,000.00	
NOTE.—This island is one of the most difficult points on the southern coast of California to pass in bad weather, and it is important that a light and fog signal station be established in the vicinity. It will mark the southerly side of the eastern entrance to Santa Barbara Channel. The act of June 17, 1910 (36 Stat., p. 536), authorized a light and fog signal station at this island, but no appropriation has been made therefor.		
<i>Lorain Harbor Light Station, Ohio—</i>		
No. 4. For constructing a light and fog signal station and improving the aids to navigation at Lorain Harbor, Ohio (act June 17, 1910, vol. 36, p. 536, sec. 1; submitted).....	45,000.00	
NOTE.—To carry out the plan for the permanent lighting of this harbor it will be necessary to establish these additional aids to navigation. The lights shown from the east and west breakwater piers since their completion in 1908 have been of a temporary character, and there is at present no fog signal. The act of June 17, 1910 (36 Stat., p. 536), authorized the construction of range lights in Lorain Harbor, at \$19,800, but a more extensive system of aids to navigation at this point is now deemed advisable. No appropriation for this object has yet been made.		
<i>Great Salt Pond Light Station, Rhode Island—</i>		
No. 5. For improving the light-station at Great Salt Pond, moving the fog signal and building a keeper's dwelling (submitted).....	25,000.00	
NOTE.—The fog signal is at present not properly located to be an efficient aid, and should be moved to the outer end of the breakwater. The building in which the signal is located and in which the keeper lives is little more than a shack, and is a disreputable looking place.		
<i>Point Loma Light Station, California—</i>		
No. 6. For establishing a fog signal and additional quarters at Point Loma Light Station, San Diego, Cal. (act June 17, 1910, vol. 36, p. 537, sec. 1).....	17,500.00	
NOTE.—The act of June 17, 1910 (36 Stat., p. 537), authorized the construction of a fog signal and keepers' quarters at this station. To carry out the provisions of this act, an appropriation of \$17,500 is required. San Diego is a harbor of importance and there is no efficient fog signal at the entrance, and fogs are prevalent on this coast. No appropriation for this object has yet been made.		
<i>Point Pinos Light Station, California—</i>		
No. 7. For making necessary improvements at Point Pinos Light Station, Cal. (submitted).....	30,000.00	
NOTE.—This is one of the several fixed lights on the coast of California that have proved misleading and inefficient. A flashing light and a fog signal are highly desirable for the safety of navigation. Quarters for additional keepers will be required.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Ashland Breakwater Lights, Wisconsin—</i>		
No. 8. For establishing additional aids to navigation at Ashland, Wis. (submitted).....	\$25,000.00	
NOTE.—The breakwater at Ashland is at present over 7,000 feet long. Without proper lighting it is now considered a menace to the large and important commerce of Ashland, and, as the breakwater is to be extended, the danger to navigation will be increased, and it should be effectively marked.		
<i>Aids to Navigation, Atchafalaya Entrance Channel, Louisiana—</i>		
No. 9. For the establishment of aids to navigation in Atchafalaya Entrance Channel, La. (submitted).....	35,000.00	
NOTE.—The completion of a channel now being dredged from the mouth of Atchafalaya River to the 20-foot contour in the Gulf of Mexico necessitates the establishment of aids to navigation.		
<i>Kauhola Point Light Station, Hawaii—</i>		
No. 10. For improving the light station at Kauhola Point, Hawaii (submitted).....	15,000.00	
NOTE.—Owing to the importance of this station, steps have been taken to change the present lens lantern light to a converted flashing 4th order lens. To support this lantern and lens and to complete the improvement of this station, a new tower is necessary.		
GROUP NO. 3.		
Works considered essential for the needs of navigation and the equipment of the Lighthouse Service, and which it is recommended be undertaken as resources permit, are submitted with estimates of cost. (These items have been selected from a much larger number of recommendations submitted by the inspectors of the lighthouse districts and others.)		
<i>Navassa Island Light Station, West Indies—</i>		
No. 1. For the establishment of a light station on Navassa Island, in the West Indies (submitted).....	\$125,000.00	
NOTE.—This island lies between Haiti and Jamaica in the direct route through the Windward Passage to the Isthmus of Panama and to Caribbean ports. For ships bound north this island is the first landfall after leaving the Isthmus. The currents in this region are irregular and strong, and steamers sometimes have to stop until the weather clears sufficiently for them to pick up the coast of Haiti. The island has been occupied by American citizens. The increased traffic makes the establishment of an efficient aid at this point desirable. This traffic will be still further increased on the opening of the Panama Canal and provision should be made prior to that time.		
<i>Santa Barbara Light Station, California—</i>		
No. 2. For improving Santa Barbara Light Station, Cal., including a fog signal and a keeper's dwelling (submitted).....	23,000.00	
NOTE.—There is no fog signal at this station and it is considered a necessity. Quarters will have to be constructed for the additional keepers required. An improvement in the light has been already provided for and these additional improvements are required to place this station in an efficient condition.		
<i>Point Borinquen Light Station, Porto Rico—</i>		
No. 3. For the removal and rebuilding on another site of the light station and dwelling at or near Point Borinquen (submitted).....	75,000.00	
NOTE.—The present Point Borinquen lighthouse is improperly located at the foot of a bluff 70 meters high, which obscures the light in the northeasterly direction. To the southward plantations of high trees obscure the light in its most desirable direction—the harbor of Aguadilla. The present tower is in bad state of repair, the top part being considered unsafe and the foundation insecure. At the present time the light is inadequate, and with the opening of the Panama Canal it will be quite insufficient. This will be the landfall and most important aid to navigation on the route from Europe to Panama.		
<i>Santa Cruz Light Station, Cal.—</i>		
No. 4. For improvements at the Santa Cruz Light Station, Cal. (act June 17, 1910, vol. 36, p. 537, sec. 1).....	35,000.00	
NOTE.—This station, established in 1869, should be equipped with modern lighthouse appliances. The act of June 17, 1910 (36 Stat., p. 537), authorized a flashing light, fog signal, and keeper's quarters at a cost not to exceed \$29,000. This is increased in this estimate to \$35,000, which amount is necessary to accomplish the work required. No appropriation for this object has yet been made.		
<i>Aids to Navigation, Mississippi River, La.—</i>		
No. 5. For improving the aids to navigation on the Mississippi River below New Orleans and establishing new aids (submitted).....	60,000.00	
NOTE.—The safety of navigation and the large and important commerce of the Mississippi River between its mouth and New Orleans requires the establishment and maintenance of more efficient aids than those existing.		
<i>Governors Island Light Station, N. Y.—</i>		
No. 6. For establishing a light and fog signal station on Governors Island, N. Y., and authorizing the location of said station on the filled land of the military reservation (submitted)...	60,000.00	
NOTE.—With the approaching completion of the addition to Governors Island, New York Harbor, which forms a long point to the southwest between two important channels, it is essential that the necessary permanent aids to navigation be established at or near this point. Authority is requested to locate it on filled land, which will greatly reduce the cost.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Pointe Aux Barques Light Station, Mich.—</i>		
No. 7. For the establishment of a light and fog signal station on or near Pointe Aux Barques, Mich. (submitted).....	\$60,000. 00	
NOTE.—Pointe Aux Barques is a prominent headland 24 miles from Poverty Island and 23 miles west from Seul Choix Pointe Light. Poverty Island Light is visible 16½ miles and Seul Choix Pointe is visible 15 miles. There is, therefore, a space of 13½ miles off Pointe Aux Barques not covered by any light. Owing to the unusual dangers to navigation in winter it is believed that every facility should be afforded for the safe navigation of these waters. Navigation is maintained throughout the year to Manistique, and the proposed station will be of great assistance to this traffic.		
<i>Richardsons Rock Light Station, Cal.—</i>		
No. 8. For establishing a light and fog signal on Richardsons Rock, in the Santa Barbara Islands, Cal. (submitted).....	140,000. 00	
NOTE.—Richardsons Rock is considered a great menace to navigation on account of the deep water on all sides, so that it can not be picked up by soundings. The position of the rock makes it an important site for a signal for all shipping along or approaching this coast. It has been reported by the Board of Marine Underwriters that the need for a light and fog signal at this point is more urgent than at any other point on the Santa Barbara Islands. This station should be constructed before the completion of the Panama Canal, when an increase of commerce is anticipated.		
<i>Michigan Island Light Station, Lake Superior—</i>		
No. 9. For establishing a light and fog-signal station on Michigan Island, Lake Superior, Wis. (act June 17, 1910, vol. 36, p. 536, sec. 1; submitted).....	100,000. 00	
NOTE.—The act approved May 27, 1908 (35 Stat., p. 332) appropriated \$2,000 to make survey and estimate the cost and report upon the feasibility and need of establishing a light and fog signal upon Gull Island or the easterly end of Michigan Island, Apostle Group. The survey has been completed, and upon consideration of the data furnished the conclusion has been reached that the easterly end of Michigan Island is the better site. The act of June 17, 1910 (36 Stat., p. 536), authorized a light and fog-signal station at Michigan and Gull Islands at \$140,000, but no appropriation has been made therefor. The project now contemplated will not cost so much as the amount authorized.		
<i>Lighting at Hilo, Hawaii—</i>		
No. 10. For improving the lighting and other aids to navigation at Hilo, Hawaii (submitted).....	20,000. 00	
NOTE.—Hilo is the second port of importance in the Hawaiian Islands and has a large and increasing commerce. The present lighting is inadequate for the requirements.		
<i>Orford Reef Light Vessel, Oregon—</i>		
No. 11. For the construction and equipment of a light vessel to mark Orford Reef, Oreg. (submitted).....	150,000. 00	
NOTE.—By act approved May 27, 1908 (35 Stat., p. 332), Congress made an appropriation of \$2,000 to enable the Lighthouse Board to survey and estimate the cost and report upon the feasibility and need of establishing a light vessel or light station at or near Orford Reef, off Cape Blanco, Oreg. A survey of the locality named was accordingly made by the district officers, who reported that the only satisfactory aid at this locality would be a first-class full-powered light vessel moored off Orford Reef, about three-fourths mile west of Fox Rock.		
<i>Light Keepers' Dwellings—</i>		
No. 12. For light keepers' dwellings and appurtenant structures, including sites therefor, within the limit of cost fixed by act approved Feb. 26, 1907 (acts Feb. 26, 1907, vol. 34, p. 996, sec. 3; Mar. 4, 1907, vol. 34, p. 1319, sec. 1; May 27, 1908, vol. 35, p. 334, sec. 1; submitted).....	75,000. 00	
NOTE.—The appropriations made Mar. 4, 1907 (34 Stat., p. 1319), and May 27, 1908 (35 Stat., p. 334), of \$75,000 each, are now practically exhausted, but dwellings at a number of stations are yet needed.		
<i>Honolulu Lighthouse Depot, Hawaii—</i>		
No. 13. For the preparation, construction, and equipment of a lighthouse and buoy depot at Honolulu, Hawaii (submitted).....	100,000. 00	
NOTE.—An adequate lighthouse depot, with suitable workshops for making repairs to illuminating apparatus and minor repairs to the machinery of the lighthouse tender and with adequate storage facilities for lighthouse and buoy supplies, is an important need of the Hawaiian Lighthouse Service. The present facilities consist of three leaky and overcrowded rooms, which are likely to be taken over by the War Department, a portion of a dock occupied through the courtesy of the Navy Department, and a small rented storehouse. It is believed that a suitable site can be obtained from the Navy Department upon which the erection of ample quarters and wharfrage for the Lighthouse Service can be accomplished.		
<i>Portage Lake Ship Canals Light Station, Mich.—</i>		
No. 14. For establishing a light and fog-signal station upon a new site and for making necessary changes in the present aids and structures at Portage Lake Ship Canals, Mich. (submitted).....	100,000. 00	
NOTE.—In connection with the harbor improvements, the portions of the piers extending beyond the shore line of the harbor formed by the breakwater will be removed, and it will soon be necessary to rebuild the light and fog signal upon new site and to rearrange the other lights and make other changes.		
<i>Otter Island Light Station, Me.—</i>		
No. 15. For establishing a light and fog-signal station on Otter Island, Muscle Ridge Channel, Me. (act June 17, 1910, vol. 36, p. 534, sec. 1).....	17,000. 00	
NOTE.—The act of June 17, 1910 (36 Stat., p. 534), authorized \$14,000 for this work, but the amount is not believed to be sufficient, and an appropriation of \$17,000 is asked. The importance of this channel and the difficulties of navigation render the establishment of this aid advisable. No appropriation for this object has yet been made.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Naushon Island Light Station, Mass.—</i>		
No. 16. For establishing a light and fog signal on Naushon Island, westerly entrance of Vineyard Sound, Mass. (submitted).....	\$40,000.00	
NOTE.—Vineyard Sound, which is perhaps the most used waterway in the United States, has a well-marked easterly entrance, but the westerly entrance, equally important, is not so well marked, obliging vessels, on account of the shoals, to hug the northerly side, where there are only buoys to guide. A light and fog signal on Naushon Island, which will safeguard the western entrance, are regarded as very necessary.		
<i>White Stone Point Light Station, Potomac River—</i>		
No. 17. For establishing a light and fog signal at or near White Stone Point, Potomac River, Md. (submitted).....	20,000.00	
NOTE.—The turn in the bend of the river at this point is one of the most difficult to make in the navigation of the Potomac River. A light and fog signal are much needed. The estimate includes the cost of a suitable site.		
<i>Aids to Navigation, Manistique Harbor, Mich.—</i>		
No. 18. For establishing aids to navigation in the harbor of Manistique, Mich. (submitted)....	4,000.00	
NOTE.—The harbor of Manistique is now under improvement by the Government, and an extension of the outer breakwater has been authorized. It is considered necessary for the Lighthouse Service to establish the necessary aids to navigation in this harbor.		
<i>Boon Island Fog Signal, Me.—</i>		
No. 19. For the establishment of a fog signal on Boon Island, Me. (act June 17, 1910, vol. 36, p. 534, sec. 1).....	20,000.00	
NOTE.—This light station is about 6½ miles off the mainland and lies directly in the course of navigation along that part of the seacoast between Portland, Me., and Boston, Mass. From Cape Elizabeth Light Station, Me., to Cape Ann Light Station, Mass., a distance of 53 miles, there are no fog signals for vessels on this course. The need of a powerful fog signal in this vicinity has often been expressed by mariners and others. This fog signal was authorized by the act of June 17, 1910 (36 Stat., p. 534), at a cost not to exceed \$20,000, but no appropriation has been made therefor.		
<i>Conneaut Harbor Light Station, Ohio—</i>		
No. 20. For establishing a light and fog signal and improving the existing aids to navigation, Conneaut Harbor, Ohio (submitted).....	63,500.00	
NOTE.—Extensive improvements to enlarge this harbor, involving the construction of new breakwaters and pierheads and the removal of the breakwater pierhead upon which the present Conneaut Harbor front range light and fog signal is situated, have been authorized and it is expected that this work will be started this season. The harbor improvements will necessitate a rearrangement of the aids to navigation. The commerce of this harbor is extensive and increasing.		
<i>Lighting York Narrows, Me.—</i>		
No. 21. For the lighting of York Narrows, Me. (submitted).....	6,000.00	
NOTE.—It is stated that more than 1,000 sailing vessels annually use this passage. In the spring and fall steamers, and especially sailing vessels, find it necessary to go through the passage during the nighttime. During winter the channel through York Narrows, although narrow and intricate, is much used when the reaches and thoroughfares are closed by ice.		
<i>North Farallon Island Light Station, Cal.—</i>		
No. 22. For establishing a light and fog signal station on or near North Farallon Island, Cal. (submitted).....	100,000.00	
NOTE.—The present aids to navigation at the Farallon Islands off the entrance to San Francisco Bay are inadequate for safe navigation in this vicinity. There are many dangers to navigation to the northward of southeast Farallon which are without proper protection. The fog signal at Farallon is inaudible on the northerly side of that island, and the light is so high that it is frequently obscured by high fog when the atmosphere is clear for many miles at a lower level.		
<i>Ram Island Light, Me.—</i>		
No. 23. For the establishment of a light on or near the easterly side of Ram Island, Lower Kennebec River, Me. (submitted).....	2,500.00	
NOTE.—Ram Island is about 5½ miles below Bath, Me., and is a low island in the middle of the river, with a string of half-tide ledges making off from the easterly side. Mariners state that it is very difficult, at times, to make out the island so as to avoid the ledges mentioned, and that a light would not only make navigation safer but would save them much time. A considerable part of the navigation is carried on at night.		
<i>Cape Kumukahi Light Station, Hawaii—</i>		
No. 24. For establishing a light at or near Cape Kumukahi, Hawaii (submitted).....	25,000.00	
NOTE.—This cape is the easternmost cape of the island of Hawaii. There is at present no landfall light for vessels bound to Hilo from the eastward or from Panama Canal.		
<i>Aids to Navigation, Fairport Harbor, Ohio—</i>		
No. 25. For constructing a lighthouse and improving the aids to navigation at Fairport Harbor, Ohio (submitted).....	30,000.00	
NOTE.—The completion of the new harbor works necessitates a rearrangement of the aids to navigation at this harbor. It is proposed to discontinue the present main light on the bluff and to construct the main light on the new pierhead.

<p>NOTE.—</p> <p>DEPARTMENT OF COMMERCE AND LABOR, IMMIGRATION SERVICE, OFFICE OF COMMISSIONER OF IMMIGRATION, Ellis Island, New York Harbor, N. Y., July 7, 1911.</p> <p>COMMISSIONER GENERAL OF IMMIGRATION, Washington, D. C.</p> <p>SIR: I herewith submit request for appropriations to be made by Congress for the use of the immigrant station at Ellis Island:</p> <p>Ferryboat..... \$125,000</p> <p>The average number of passengers carried annually by the Ellis Island ferryboat is over 2,000,000. She is over 7 years old, and during this period has been in constant service, including much night work, except during the short intervals when hauled out for repairs. It is extremely difficult to secure a substitute boat even when there is ample time to advertise therefor. Recently it took five weeks to find such a boat while our ferryboat went into dry dock. It is becoming more and more difficult to find boats that will meet our requirements. A second ferryboat is required, not only because the present boat is overworked but because common prudence requires that there should be a substitute in the event of breakdown or accident to which the ferry service at Ellis Island is always exposed, the route being a very dangerous one, crossing heavy traffic at all seasons, with much ice and fog in winter and the entrance to the Ellis Island slip being via a channel having rocky shoals on the north. Nearly 18 months will elapse after the appropriation has been made before a new boat can be constructed.</p> <p>Additional story to building known as Baggage and Dormitory Building, northerly side No. 1 Island; also metal and masonry projection to said building on its northerly side..... 375,000</p> <p>The lower floor of this building serves as a railroad waiting room and baggage room; the upper floor for dormitories for detained immigrants. Each dormitory has three-tier beds. Nevertheless the number of immigrants detained over night is often greater than the number of beds. This is a condition which should be remedied at once. Furthermore, it is necessary to use most of the dormitories as detention rooms during the daytime. They are inappropriate for this purpose, and the congestion in them is great. There should be separate day and night rooms, and at least a majority of the latter should have only two-tier beds. The proposed new story will materially improve the conditions surrounding the detention of immigrants.</p> <p>As to the projection. This will serve three purposes: (a) The lower portion will furnish urgently required additional space for immigrants' baggage; (b) also space for what is known as "Customhouse baggage," now stored at great risk from fire and at great inconvenience in the cellar of main building; (c) the upper floors of the projection will constitute large verandas to which in fair weather detained immigrants can be readily conducted for fresh air.</p> <p>For additional story to restaurant building..... 80,000</p> <p>This will be largely used as quarters for cabin aliens. There are still none such though we have to detain a great many cabin passengers. Most of them must sleep in rooms attached to the immigrant quarters with three-tier beds. As a result the Government receives from time to time serious complaints; some of them well founded. We are treating such passengers as best we can. It will continue to be necessary to detain considerable numbers of them, and they should have quarters corresponding to those which they have enjoyed on board ship. I made in substance the same comment last year.</p> <p>A portion of the new space will also be used as a dormitory for the employees of the commissary contractor when they are obliged to spend the night here, as often they are. They now sleep on such occasions in the cellar, an unsanitary and entirely inappropriate place.</p> <p>A building at westerly side of No. 1 Island..... 60,000</p> <p>This building will be subdivided and used principally as a carpenter shop, general storeroom, and a bakery. The present carpenter shop is in a portion of the wooden covered way and occupies space that really is required for other purposes, notably an extension of the outside waiting room for immigrants' friends. Moreover, the presence of the carpenter shop in said wooden-covered way constitutes a fire hazard. We have no general storeroom, and the result is our stores, including much lumber and other inflammable materials, are placed in the cellar of the main building at great inconvenience and fire risk. We have been forced to use the cellar of the main building for storage. The steady increase of public business at Ellis Island makes it essential that we have fit storage facilities outside of the cellar which has a head room in most places of less than 7 feet and is much encumbered by piping, drains, etc. The present bakery is also a wooden structure and constitutes a fire hazard.</p>

<i>Immigrant Station, Ellis Island, New York Harbor—Continued.</i>		
For increase of boiler plant.....	\$40,000	
This implies substitution of larger boilers for boilers now located in power house on south side of chimney and the removal of four 125-horsepower units that were installed in the power house in 1899, and the replacing of said 125-horsepower units by three 500-horsepower units of a type that has proved economical and efficient since power house was in part reconstructed two years ago. This will give us a steam plant of 1,000 additional horsepower, which is required by proposed increase in size of the buildings on main island the increased demands for steam for heating, lighting, pumping, and power, incident to the growing business of this station.		
For new story on southeast wing of main building.....	70,000	
What was said last year about the inadequacy of the medical and statistical quarters in the main building remains substantially true except that new electrical devices recently installed in the statistical division will lessen its requirements so that the statistical division could be accommodated in the proposed new story. The space vacated on lower floor can be advantageously added to the recently installed quarters of the medical division on that floor and give this division much needed additional space in which to detain for observation certain classes of immigrants whom it is not desirable to send to the hospital.		
For renovating interior of old hospital on No. 2 Island, including new plumbing and sanitary fittings and new floors.....	40,000	
Existing plumbing, fittings, and floors were installed some 11 years ago, were of comparatively inexpensive character, and have been subjected to very hard use by immigrants. This plumbing, if it existed to-day in a New York City hospital, would be condemned by the board of health. It does not comply with the present building-code requirements.		
For covered way connecting No. 2 and No. 3 Islands.....	60,000	
Both these islands are occupied by hospitals. They are connected by a pile gangway. It will be necessary frequently to carry sick people from one to the other and in winter time this can not be done without danger to life. It is earnestly recommended that proposed covered way be of fireproof construction, including its piles and foundations. The present covered way connecting the various buildings on No. 1 Island and No. 2 Island is of wood with slate roof. It is more or less of a fire risk and in time should be replaced. Moreover, the piles constituting foundation are beginning to deteriorate near the heads thereof and probably within five years at least the flooring system of said wooden covered way will have to be replaced. It would seem undesirable to use wood in the new construction.		
For inclosing in glass the 2-story corridor of contagious disease hospital on No. 3 Island, together with incidental work.....	28,000	
The present corridor connects the entire group of buildings on No. 3 Island, except the isolation wards and the office building. In a rain storm and in winter weather it will obviously be difficult to afford patients, nurses, and attendants proceeding from one building to another proper protection and to keep food warm; hence the recommendation for this inclosure.		
Dredging.....	25,000	
The conditions prevailing in New York Harbor, where the bottom is largely soft mud and silt, coupled with the great quantities of solid matter deposited by the sewers and by the flow of the Hudson River, necessitate our dredging with growing frequency in order to insure proper access to the three islands and maintain our channels and slips.		
Respectfully,		
WM. WILLIAMS, Commissioner.

MISCELLANEOUS.

ESTIMATES OF APPROPRIATIONS REQUIRED FOR THE SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1913.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
MISCELLANEOUS.		
UNDER THE PUBLIC PRINTER.		
PUBLIC PRINTING AND BINDING.		
OFFICE OF THE PUBLIC PRINTER.		
<i>Salaries, Office of the Public Printer—</i>		
Public Printer (acts Jan. 12, 1895, vol. 28, p. 603, sec. 17; Mar. 4, 1911, vol. 36, p. 1444, sec. 1) ..	\$5,500.00	
Purchasing agent (acts Jan. 12, 1895, vol. 28, p. 608, secs. 48, 49; Mar. 4, 1911, vol. 36, p. 1444, sec. 1) ..	3,600.00	
Chief clerk (same acts) ..	2,500.00	
Accountant (same acts) ..	2,500.00	
Assistant purchasing agent (same acts) ..	2,500.00	
Cashier and paymaster (same acts) ..	2,500.00	
Clerk in charge of the Congressional Record (same acts) ..	2,500.00	
Assistant accountant (same acts) ..	2,250.00	
Paying teller (same acts) ..	2,000.00	
Chief timekeeper (same acts) ..	2,000.00	
Two clerks, at \$2,000 each (same acts) ..	4,000.00	
NOTE.—The increase of 1 clerk, at \$2,000, is recommended to provide for the promotion of 1 clerk from class 4, who has been placed in charge of important work.		
Telegrapher and clerk (same acts) ..	1,800.00	
Ten clerks of class 4 (same acts) ..	18,000.00	
NOTE.—The number of clerks of class 4 is made the same as provided for the current year to permit of the promotion of 1 now receiving \$1,600 per annum, who is directly charged with the work of handling the correspondence.		
Ten clerks of class 3 (same acts) ..	16,000.00	
NOTE.—Ten clerks of class 3 are requested instead of 11 clerks as provided for the current year. The promotion of 1 clerk of class 3 to class 4 will leave only 10 of class 3 to be provided for.		
Seven clerks of class 2 ..	9,800.00	
NOTE.—It is recommended to promote 1 clerk from class 1 to class 2 on account of long and faithful service and increased responsibility.		
Ten clerks of class 1 (same acts) ..	12,000.00	
NOTE.—An increase from 6 to 10 clerks of class 1 is requested. If the proposed number of clerks of class 2 is allowed, this increase of clerks of class 1 will provide for the promotion of 5 clerks at \$1,000 per annum to \$1,200 per annum. Three of these are expert stenographers and typewriters and perform work of the highest class; the other two are performing clerical work of a high grade, requiring experience and judgment.		
Six clerks, at \$1,000 each (same acts) ..	6,000.00	
NOTE.—The promotions proposed above reduces the number of \$1,000 positions to 6. Nine clerks at \$1,000 are provided for in the appropriation for the fiscal year. It is proposed to promote 5 from this grade to higher rates as recommended above and to promote 2 clerks from \$900 to \$1,000. The promotion is due each of these clerks on account of efficiency.		
Six clerks, at \$900 each (same acts) ..	5,400.00	
NOTE.—The increase of 2 clerks at \$840 to 2 clerks at \$900 each is recommended; an increase in compensation is recommended for the above positions because of the amount and important character of the work, together with special technical knowledge and the care and accuracy required in the class of work incident to the expenditure of public money. It is also proposed to promote 1 clerk at \$720 and clerk at \$840 to the \$900 grade on account of efficient service.		
Fourteen clerks, at \$840 each (same acts) ..	11,760.00	
NOTE.—See previous note. An increase in compensation of 11 clerks from \$720 to \$840 is recommended because of the amount and important character of the work. The promotion of 11 clerks to \$840 and 1 clerk to \$900 eliminates all the positions at \$720.		
Paymaster's guard (same acts) ..	1,000.00	
Chief doorkeeper (same acts) ..	1,200.00	
Doorkeeper (same acts) ..	1,200.00	
Five assistant doorkeepers, at \$1,000 each (same acts) ..	5,000.00	
NOTE.—It is proposed to change the title of 1 assistant doorkeeper to messenger and give him a salary of \$1,200. The increase is recommended because of efficient service.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.

NOTE.—See above note.		
Messenger (same acts).....	1,000.00	
NOTE.—It is proposed to promote 1 messenger at \$840 to \$1,000. The increase is recommended because of efficient service.		
Messenger (same acts).....	840.00	
NOTE.—Promoting 1 messenger to \$1,000 reduces the number of messengers at \$840 per annum to 1.		
Chief deliveryman (same acts).....	1,200.00	
Five deliverymen, at \$950 each (same acts).....	4,750.00	
Telephone switchboard operator (same acts).....	720.00	
Three assistant telephone switchboard operators, at \$600 each (same acts).....	1,800.00	
Six messenger boys, at \$420 each (same acts).....	2,520.00	
NOTE.—The messenger appropriated for in the office of the Deputy Public Printer is performing service in the office of the Public Printer and is therefore included in the above number.		
	\$135,040.00	\$130,780.00
<i>Office of the Deputy Public Printer:</i>

One cashier (acts Mar. 4, 1909, vol. 35, p. 1020, sec. 1; Mar. 4, 1911, vol. 36, p. 1448, sec. 1)...	\$1,600.00	
One shipping clerk (same acts).....	1,400.00	
NOTE.—Instead of salary of shipper in charge, \$1,200, the change of title as above and an increase to \$1,400 is recommended; the duties of this position having grown to large proportions within the last two years.		
One assistant shipping clerk (submitted).....	1,200.00	
NOTE.—The dropping of 1 stock keeper now rated at \$1,000 is recommended in case the foregoing recommendation is approved.		
One stock keeper (acts Mar. 4, 1909, vol. 35, p. 1020, sec. 1; Mar. 4, 1911, vol. 36, p. 1448, sec. 1)...	1,100.00	
Three stock keepers, at \$1,000 each (same acts).....	3,000.00	
NOTE.—The increase of compensation of 1 stock keeper from \$900 to \$1,000 is recommended because of the responsible duties attached to this position.		
Four stock keepers, at \$900 each (same acts).....	3,600.00	
Two stock keepers, at \$720 each (same acts).....	1,440.00	
Two assistant messengers, at \$720 each (same acts).....	1,440.00	
Three mailers, at \$1,000 each (same acts).....	3,000.00

<i>Stores and General Expenses, Office of Superintendent of Documents—</i>		
For furniture and fixtures; typewriters, carpets, labor-saving machines and accessories, time stamps, adding and numbering machines, awnings, curtains, books of reference, directories, books; miscellaneous office and desk supplies; wrappers for Congressional Record and Patent Office Gazette; twine, glue, envelopes, postage, car tickets, soap, toilet paper, towels, disinfectants, ice; drayage, express, freight, telephone and telegraph service; repairs to building, elevators and machinery; preserving sanitary condition of building; light, heat, and power; stationery and office printing, including blanks, price lists and bibliographies; catalogues and indexes; for binding reserve remainders; supplying books to depository libraries, inspection of libraries (not exceeding \$1,000); in all, \$150,000 (acts Jan. 12, 1895, vol. 28, p. 611, sec. 66; Jan. 28, 1857, vol. 11, p. 253, sec. 1; Mar. 4, 1911, vol. 36, p. 1448, sec. 1).....	150,000.00	155,000.00
NOTE.—A decrease of \$5,000 in the appropriation is recommended; close scrutiny of expenditures warranting that reduction. It is earnestly recommended that this appropriation be not subdivided, as the aim to bring catalogues, etc., up to date will otherwise be seriously hampered. A small appropriation is recommended for inspection of libraries, for the purpose of enabling the superintendent of documents to carry out existing law.

PUBLIC PRINTING AND BINDING.		

The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several executive departments, under the provisions of section 2, act of May 8, 1872 (Rev. Stat., p. 720, sec. 3661), and sec. 2 of sundry civil act of June 30, 1906 (34 Stat., p. 762):

STATE DEPARTMENT.

Printing and Binding—

Printing and binding, to be executed under the direction of the Public Printer.. \$45,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913--Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
TREASURY DEPARTMENT.		
<i>Printing and Binding—</i>		
Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department.....	\$360,000.00	
WAR DEPARTMENT.		
<i>Printing and Binding—</i>		
For printing and binding for the War Department, its bureaus and offices: <i>Provided</i> , That the sum of \$3,000, or so much thereof as may be necessary, may be used for the publication, from time to time, of bulletins prepared under the direction of the Surgeon General of the Army, for the instruction of medical officers, when approved by the Secretary of War.....	258,000.00	
NOTE.—The proviso contained in the above estimate is intended to secure authority for the publication of occasional bulletins of a scientific character, by the Surgeon General of the Army, containing studies and monographs prepared under the direction of the Surgeon General. These bulletins, which would be of great scientific value to medical officers and to the medical profession, can not now be published on account of the prohibition contained in the deficiency act approved Mar. 3, 1905, which provides that "Hereafter no book or document not having to do with the ordinary business transactions of the executive departments shall be printed on the requisition of any executive department or unless the same shall have been expressly authorized by Congress, * * * (33 Stats., p. 1249, sec. 1).— <i>John C. Scofield, Assistant and Chief Clerk.</i>		
NAVY DEPARTMENT.		
<i>Printing and Binding—</i>		
For amount required for printing and binding for the Navy Department during the fiscal year ending June 30, 1913, \$153,000, including not exceeding \$25,000 for the Hydrographic Office.....	153,000.00	
INTERIOR DEPARTMENT.		
<i>Printing and Binding—</i>		
For the Interior Department, including not exceeding \$25,000 for the publication of the Annual Report of the Commissioner of Education.....	273,500.00	
<i>The Secretary of the Interior is authorized to deliver to Senators, Representatives, and Delegates in Congress or to distribute under the franks of Senators, Representatives, and Delegates such quantities of the publications of the Bureau of Mines as he may deem advisable.</i>		
NOTE.—The allotment for the Civil Service Commission has been omitted and the commission will submit a separate estimate of appropriation. This is deemed advisable because the Secretary of the Interior has no direct administrative control over the Civil Service Commission and there no good reason why the appropriations for the commission and the Interior Department should be carried under the same head. As the portion of the appropriation allotted the Civil Service Commission is \$40,000 for the fiscal year 1912, the Interior Department's allotment for 1912 is \$255,500. The estimate for 1913 is thus \$18,000 greater than the allotment for 1912. Of this increase \$5,000 is because of the increased activity of the Bureau of Education, and \$13,000 by reason of the development of the important work undertaken by the Bureau of Mines.		
PATENT OFFICE.		
<i>Printing and Binding—</i>		
For the Patent Office, as follows: For printing the weekly issue of patents, designs, trade-marks, and labels, exclusive of illustrations; for printing and binding the monthly volumes of patents; and for printing, engraving illustrations, and binding the Official Gazette, including weekly, monthly, bimonthly, and annual indexes.....	550,000.00	
GEOLOGICAL SURVEY.		
<i>Printing and Binding—</i>		
Engraving, printing, and binding for the United States Geological Survey, namely: For engraving the illustrations necessary for the annual report of the director, and for the monographs, professional papers, bulletins, water-supply papers, and the report on mineral resources, and for printing and binding the same publications, of which sum not more than \$35,000 may be used for engraving.....	165,000.00	
SMITHSONIAN INSTITUTION.		
<i>Printing and Binding—</i>		
For the Smithsonian Institution, for printing and binding the annual reports of the Board of Regents, with general appendixes, \$10,000; under the Smithsonian Institution, for the annual reports of the National Museum, with general appendixes, and for printing labels and blanks, and for the bulletins and proceedings of the National Museum, the editions of which shall not exceed 4,000 copies, and binding, in half turkey, or material not more expensive, scientific books and pamphlets presented to or acquired by the National Museum library, \$50,000; for the annual reports and bulletins of the Bureau of American Ethnology, and for miscellaneous printing and binding for the bureau, including the binding in half turkey, or in material not more expensive, of scientific books and pamphlets acquired by the bureau library, \$21,000; for miscellaneous printing and binding for the international exchanges, \$200; the International Catalogue of Scientific Literature, \$100; the National Zoological Park, \$200; for miscellaneous printing and binding for the Astrophysical Observatory, and for 1,599 copies of Volume III of the Annals of the Astrophysical Observatory of the Smithsonian Institution, \$3,000; and for the annual report of the American Historical Association, \$7,000; in all.....	91,500.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
DEPARTMENT OF JUSTICE.		
<i>Printing and Binding—</i>		
Printing and binding for the Department of Justice, to be executed under the direction of the Public Printer	\$40,000.00	
Printing and binding for the United States Court of Customs Appeals, to be executed under the direction of the Public Printer	2,000.00	
Printing and binding for the Court of Claims, to be executed under the direction of the Public Printer	25,000.00	
POST OFFICE DEPARTMENT.		
<i>Printing and Binding—</i>		
Printing and binding for the Post Office Department, exclusive of the money order office, to be executed under the direction of the Public Printer	325,000.00	
DEPARTMENT OF AGRICULTURE.		
<i>Printing and Binding—</i>		
For the Department of Agriculture, including not to exceed \$52,000 for the Weather Bureau, and including the annual report of the Secretary of Agriculture, as required by the act approved January 12, 1895, and in pursuance of the provisions of public resolution No. 13 of the first session Fifty-ninth Congress, and also including not to exceed \$125,000 for farmers' bulletins, which shall be adapted to the interests of the people of the different sections of the country, an equal proportion of four-fifths of which shall be delivered to or sent out under the addressed franks furnished by Senators, Representatives, and Delegates in Congress, as they shall direct	480,000.00	
NOTE.—An increase of \$10,000 is submitted. Through a misunderstanding in connection with the transfer of a part of the Weather Bureau printing to the Government Printing Office, the amount allowed for Weather Bureau printing in the Government Printing Office was made too small, and \$5,000 additional is urgently needed. A similar amount is also necessary to take care of the increased demands for printing and binding in the main department.		
DEPARTMENT OF COMMERCE AND LABOR.		
<i>Printing and Binding—</i>		
For the Department of Commerce and Labor, including the Coast and Geodetic Survey, \$385,000: <i>Provided</i> , That no part of this allotment shall be expended for printing and binding for the Bureau of the Census (increase of \$10,000 submitted)	385,000.00	
LIBRARY OF CONGRESS.		
<i>Printing and Binding—</i>		
For the Library of Congress, including the copyright office, and the publication of the Catalogue of Title Entries of the copyright office, and binding, rebinding, and repairing of library books, and for building and grounds, Library of Congress	202,000.00	
EXECUTIVE OFFICE.		
<i>Printing and Binding—</i>		
Printing and binding for the Executive Office, to be executed under the direction of the Public Printer	3,000.00	
CIVIL SERVICE COMMISSION.		
<i>Printing and Binding—</i>		
Printing and binding for the Civil Service Commission, to be executed under the direction of the Public Printer	40,000.00	

NOTE.—The appropriation for printing and binding for the Civil Service Commission has heretofore been included in the appropriation for the Department of the Interior, the following being the language of the act for the year 1912: "For the Interior Department, including not exceeding \$40,000 for the Civil Service Commission, and not exceeding \$25,000 for the publication of the annual report of the Commissioner of Education, \$295,500." The Civil Service Commission is not under the jurisdiction of the Department of the Interior, and its new location, 1724 F Street NW., makes it difficult to transact the business relating to printing and binding through the Department of the Interior. The commission therefore requests that its appropriation for printing and binding be not included jointly with that of the Department of the Interior, as heretofore. This request is made with the concurrence of the Department of the Interior, as indicated by the following letter:

DEPARTMENT OF THE INTERIOR,
Washington, July 20, 1911.

The CIVIL SERVICE COMMISSION.

GENTLEMEN: In reply to your letter of June 15: In view of the fact that the commission is to be moved to a location distant from the department, you are authorized to receive from and deliver to the Government Printing Office proofs of all matter ordered printed. All copy for monthly requisitions may be forwarded direct to the Public Printer and inquiries concerning printing may be made direct to the Government Printing Office. Requisitions will be forwarded by this office as heretofore. As the Civil Service Commission is not under the jurisdiction of this department, there seems to be no reason why its allotment for printing should be included in the allotment for this department. When the allotments for 1913 are submitted by this department, the allotment for the Civil Service Commission will be omitted. You will therefore include printing and binding in the estimate forwarded by you to the Secretary of the Treasury.

Very respectfully,

SAMUEL ADAMS, Acting Secretary.

BUREAU OF ENGRAVING AND PRINTING.		
<i>Compensation of Employees—</i>		
For labor and expenses of engraving and printing: For salaries of all necessary employees, other than plate printers and plate printers' assistants, to be expended under the direction of the Secretary of the Treasury (R. S., p. 706, secs. 3575-3577; act Mar. 4, 1911, vol. 36, p. 1389, sec. 1).....	1, 379, 946. 00	1, 131, 651. 00
<i>Plate Print "g"—</i>		
For wages of plate printers, at piece rates to be fixed by the Secretary of the Treasury, not to exceed the rates usually paid for such work, including the wages of printers' assistants, when employed, to be expended under the direction of the Secretary of the Treasury (R. S., p. 706, secs. 3575-3577; act Mar. 4, 1911, vol. 36, p. 1389, sec. 1).....	1, 782, 559. 00	1, 547, 828. 00
<i>Materials and Miscellaneous Expenses—</i>		
For engravers' and printers' materials and other materials except distinctive paper, and for miscellaneous expenses, including purchase, maintenance, and driving of necessary horses and vehicles, and of horse and vehicle for official use of the director when, in writing, ordered by the Secretary of the Treasury, to be expended under the direction of the Secretary of the Treasury (R. S., p. 706, secs. 3575-3577; act Mar. 4, 1911, vol. 36, p. 1389, sec. 1).....	424, 827. 00	433, 182. 00
NOTE. The increase in this estimate of \$474,671 over the appropriation for fiscal year 1912 is due to the increase in the number of notes and certificates required by the public. The steady increase in the demand for notes shown by a comparison of the number delivered to the Treasurer each year since 1905, from which it will be seen that the delivery in 1911, the last completed year, was nearly twice the quantity delivered in 1905, and that the estimated delivery during the present fiscal year, including a contemplated deficiency appropriation of \$370,000 for 40,000,000 notes, shows a similar increase, viz:		
1905..... \$155,392,000 1906..... 157,428,000 1907..... 178,184,000 1908..... 197,016,000 1909..... 206,900,000 1910..... 235,214,400 1911..... 268,454,000		
While the increase in the estimate for 1913 over 1912 is \$474,671 and the deficiency estimate for the present fiscal year is \$370,000, the difference of \$104,671 is for the purpose of delivering to the Comptroller of the Currency 10,000,000 National Bank notes more than called for by the appropriation for the present fiscal year.		
Total, Bureau of Engraving and Printing.....	3, 587, 332. 00	3, 112, 661. 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
MISCELLANEOUS OBJECTS.		
<i>Paper for Internal-Revenue Stamps—</i>		
For paper for internal-revenue stamps, including freight (R. S., p. 53, sec. 321; act Mar. 4, 1911, vol. 36, p. 1390, sec. 1).....	\$90,000.00	\$80,000.00
NOTE.—For fiscal year 1911, \$87,546.77 was spent for paper. It is believed from present business conditions a deficiency appropriation of \$10,000 will be necessary for 1912, making total appropriation for 1912, \$90,000. For these reasons it is thought necessary to estimate for \$90,000 for 1913.		
<i>Punishment for Violation of Internal-Revenue Laws—</i>		
For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws or conniving at the same, including payments for information and detection of such violations, \$150,000; and the Commissioner of Internal Revenue shall make a detailed statement to Congress once in each year as to how he has expended this sum and also a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue for which appropriation is made in this act (R. S., p. 686, sec. 3463; act Mar. 4, 1911, vol. 36, p. 1390, sec. 1).....	150,000.00	150,000.00

THE SECRETARY OF THE TREASURY.		
SIR: The act concerning carriers engaged in interstate commerce and their employees approved June 1, 1898, commonly known as the "Erdman Act," provides that the chairman of the Interstate Commerce Commission and the Commissioner of Labor shall act as mediators, and section 11, chapter 371, 30 United States Statutes, provides that one of the duties of the chairman of the Interstate Commerce Commission shall be to approve the necessary and proper expenses of any conciliation or arbitration had under the act of June 1, 1898.		
Since that date the appropriation for the payment of expenses incurred in connection with conciliation and arbitration proceedings has been carried under the heading "Interstate Commerce Commission," but as a separate appropriation, and the commission has, from year to year, in connection with its regular estimates, submitted an estimate to cover expenses incurred under the arbitration act.		
Sundry civil act approved Mar. 4, 1911 (36 U. S. Stats., 1397), provides as follows:		
"The President of the United States from and after the passage of this act is authorized to designate from time to time any member of the Interstate Commerce Commission or of the Court of Commerce to exercise the powers conferred and the duties imposed upon the chairman of the Interstate Commerce Commission by the provisions of the 'Act concerning carriers engaged in interstate commerce and their employees,' approved June 1, 1898; and the member so designated shall have the powers now conferred by said act on the chairman of the Interstate Commerce Commission."		
The President, in conformity with this provision, on Mar. 4, 1911, issued Executive order No. 1313 designating the undersigned to exercise the powers conferred and perform the duties imposed upon the chairman of the Interstate Commerce Commission by the provisions of the "Act concerning carriers engaged in interstate commerce and their employees," approved June 1, 1898, for a period of two years from Mar. 4, 1911.		
The Comptroller decided on Mar. 23, 1911, that I should approve the vouchers for expenses incurred subsequent to Mar. 4, 1911, and as I understand that the Interstate Commerce Commission has filed no estimate for an appropriation to pay the expenses arising under this act, I am inclosing herewith an estimate for the fiscal year ending June 30, 1913, amounting to \$15,000, the amount of the appropriation for the current fiscal year, to be included in the Book of Estimates prepared by law under your direction for the consideration of the Congress, as provided by section 5 of the legislative act of Mar. 3, 1901 (31 Stat., p. 1009). I have the honor to request that this estimate be included in the Book of Estimates for the fiscal year mentioned.		
Very respectfully,		
MARTIN A. KNAPP, Presiding Judge U. S. Commerce Court.

<i>Survey of the Northern and Northwestern Lakes—</i>		
Survey of northern and northwestern lakes, and of the lakes and other natural navigable waters embraced in the navigation system of the "New York canals," including all necessary expenses of preparing, correcting, extending, printing and issuing charts and bulletins, and of investigating lake levels with a view to their regulation, to be immediately available (act Mar. 4, 1911, vol. 36, p. 1407, sec. 1).....	\$150,000.00	\$125,000.00
NOTE.—The greatly increased draft of the large vessels navigating the Great Lakes and their connecting channels demands a close reexamination of many localities which were originally surveyed with the requirements of a 12-foot navigation in view. Many of the original charts were prepared on that basis. Present requirements of commerce, however, demand that the bottom be accurately charted to depths of not less than 30 feet in the open lakes and of 25 feet in their connecting rivers or straits. This calls for extensive surveys and a vast amount of office work, all of which must be done with great care and accuracy. The investigations of the varying levels of the Great Lakes, due to natural and artificial agencies, should also be continued with vigor. The inclusion in the estimate of "the lakes and other natural navigable waters embraced in the navigation system of the New York canals" is in accordance with the action of Congress in adding that item to the appropriation made May 4, 1911 (36 Stat., p. 1407, sec. 1). The increase of appropriation is asked for in part on account of the additional expense occasioned by the large extension thus made of the field of operations, and in part on account of the desirability, from an economical standpoint, of operating the entire plant and equipment of the survey to its fullest capacity for a few years, until the most urgent and important portion of the field work is completed, and of then disposing of some of the Survey steamers. The greater part of the outfit has reached an age when rapid depreciation may soon be expected, and the cost of maintenance of the floating plant, which is a large percentage of the cost of field operations, is not proportional to the length of the field season nor to the size of parties. The greatest efficiency therefore, with the least cost, requires that the plant shall now be used to its full capacity. This plan does not contemplate a total expenditure so far as the work on the northern and northwestern lakes is concerned, in excess of the original project for that work. In order to allow suitable advantage to be taken of the spring season, the appropriation should be available before the beginning of the new fiscal year.—W. H. Bizby, Chief of Engineers, U. S. Army.		
<i>Maps, War Department—</i>		
For publication of engineer maps for use of the War Department, inclusive of war maps (act Mar. 4, 1911, vol. 36, p. 1406, sec. 1).....	10,000.00	5,000.00
NOTE.—An increased estimate is submitted for this purpose in view of the urgent necessity of printing certain important military maps now being prepared.—W. H. Bizby, Chief of Engineers, U. S. Army.		
<i>Expenses, California Débris Commission—</i>		
For defraying the expenses of the commission in carrying on the work authorized by the act of Congress approved Mar. 1, 1893 (acts Mar. 1, 1893, vol. 27, p. 507, secs. 1-25; Mar. 4, 1911, vol. 36, p. 1407, sec. 1).....	15,000.00	15,000.00
<i>Prevention of Deposits, Harbor of New York—</i>		
For prevention of obstructive and injurious deposits within the harbor and adjacent waters of New York City:		
For pay of inspectors, deputy inspectors, office force, and expenses of office (acts June 29, 1888, vol. 25, p. 209, secs. 1-6; Aug. 18, 1894, vol. 28, p. 360, sec. 3; June 13, 1902, vol. 32, p. 375, sec. 12; May 28, 1908, vol. 35, p. 426, sec. 8; Mar. 4, 1911, vol. 36, p. 1407, sec. 1).....	\$10,260.00	
For pay of crews and maintenance of 6 patrol vessels and 1 launch (same acts).....	75,000.00	
For rent of office (submitted).....	3,000.00	
For purchase or construction of 1 patrol vessel (submitted).....	65,000.00	
	153,260.00	85,260.00
NOTE.—With regard to the necessity for the purchase or construction of 1 patrol vessel for the office of the supervisor of the harbor of New York, estimated to cost \$65,000, submitted, attention is invited to the complete statement of the supervisor submitted herewith. The estimate for rent of office is new and is rendered necessary for the reason that the rooms now occupied by the supervisor in the Army Building, New York City, are required for Army purposes on account of the reorganization of the military service into territorial divisions. The present occupancy has been permitted as a matter of courtesy, but since the duties of the supervisor have no direct relation to Army affairs, the vacation of his present offices is deemed desirable. Inquiry has been made with a view to obtaining offices in another public building, but suitable quarters in such buildings do not appear to be available.—W. H. Bizby, Chief of Engineers, U. S. Army.		
WAR DEPARTMENT, OFFICE OF THE SUPERVISOR OF THE HARBOR OF NEW YORK, New York, July 11, 1910.		
The CHIEF OF ENGINEERS, U. S. ARMY, Washington, D. C.		
SIR: * * * I quote from page 2327, Annual Report of the Chief of Engineers, 1908, as follows:		
"I earnestly concur in the recommendation of my predecessor, Commander Hosley, that an appropriation may be allowed for the purchase or construction of a vessel to replace the Nimrod. Such a boat, if appropriated for, would not be available for at least 18 months. By that time the retiring of the Nimrod from sea service will have become imperative. She could then, however, be utilized as a patrol vessel on the Sound, which will be a necessity in the near future, owing to the great improvements now under operation or in contemplation along the north shore of Long Island. Since the New York State laws prohibit the deposit of any material in the waters of the Sound west of Eatons Neck, the final disposition of dredging spoils from points along that shore must necessarily take place to the eastward of that point. It would prove prohibitive of all development or improvement to require the constantly increasing quantities of waste material from these points to be deposited at the established dumping ground outside Scotland lightship; and although permits are granted by this office at present for the final disposition of dredging spoils from small operations at the point named, the supervision is only spasmodic and ineffective owing to the limited force at the disposal of the supervisor. As the operations in dredging and channel making increase, the necessity for a more rigid supervision in that locality is yearly becoming more apparent."		
Also page 2288, Annual Report of the Chief of Engineers for 1909, as follows:		
"In my previous report attention was invited to the increasing necessity of some patrol of Long Island Sound. * * * Permits are issued by this office for deposits to be made in the Sound off Eatons Neck light, but the supervision with the limited force at the disposal of the supervisor can only be spasmodic and accordingly ineffective; and as the operations of dredging and channel making in this locality are yearly increasing, the necessity for a more rigid supervision is yearly becoming more urgent. Had it not been for the department's communication urging that the utmost economy be exercised in submitting estimates of funds required for this service for the fiscal year ending June 30, 1911, I would have included in that estimate an item for the purchase or construction of a new vessel, so strongly recommended by my predecessors. They clearly foresaw that the Nimrod was fast reaching the limit of availability for sea service and must soon be replaced by a more seaworthy vessel, but might still be utilized for some years for service on the Sound."		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<p><i>Prevention of Deposits, Harbor of New York—Continued</i> For prevention of obstructive and injurious deposits within the harbor and adjacent waters of New York City—Continued. For purchase or construction of 1 patrol vessel (submitted)—Continued.</p> <p>I concur in the recommendations of my predecessors and emphasize the urgent necessity for an additional boat, particularly directing attention to the fact of the necessity for maintaining a permanent and efficient patrol at the mouth of the harbor. The boats employed on this duty ought in every respect to be seaworthy and able to perform sea duty outside the lightship in all conditions of weather when a tow is likely to venture out, as it is mainly unfavorable conditions of weather that the temptation to dump short is greatest.</p> <p>From observation here I am thoroughly satisfied that temporary suspension of the patrol is followed by violations of law. Under such conditions, no matter how irresistible the inference may be, it is impossible to obtain evidence sufficiently conclusive to warrant legal proceedings.</p> <p>Owing to the extension seaward of the limits within which the deposit of material is prohibited, contractors and tugboat owners have gradually changed the type of vessels engaged in this work to meet this condition. The Nimrod has yearly been patched to the extent that the allotment for the general maintenance of the patrol fleet would permit; and as this vessel is over 20 years old, constructed of wood, has been continuously employed in the service under severe conditions, and is far below the standard type of tug generally used for sea duty, she is not now a suitable vessel for patrol duty outside the lightship. But she would be thoroughly serviceable for duty on the Sound, as suggested by my predecessors.</p> <p>While only one vessel is asked for at the present time, I am of the opinion that more vessels will be required in the not distant future. Owing to the ever increasing commerce, I do not think that the large area which is supervised by this office is adequately patrolled. Whenever the present patrol slacks up, an undesirable result is immediately apparent. The Nimrod at her best is not fit for rough outside work, and the Argus is of very little value for any kind of work.</p> <p>I earnestly recommend that provision for the new vessel be made in the next appropriation.</p> <p>Very respectfully</p> <p style="text-align: right;">C. MCR. WINSLOW, Captain, U. S. Navy, Supervisor.</p>

UNDER THE DEPARTMENT OF THE INTERIOR.		
PUBLIC LAND SERVICE.		
<i>Salaries and Commissions of Registers and Receivers—</i>		
For salaries and commissions of registers of district land offices and receivers of public moneys at district land offices, at not exceeding \$3,000 per annum each (R. S., p. 392, secs. 2237, 2238; R. S., p. 393, sec. 2240; act Mar. 4, 1911, vol. 36, p. 1414, sec. 1).....	\$560,000.00	\$560,000.00
NOTE.—It is recommended that the phraseology of the present appropriation for salaries and commissions of registers and receivers of district land offices be changed by eliminating the words "receivers of public moneys at district land offices," thereby confining the appropriation to the payment of salaries and commissions of registers; also, provided the proposed change is made in the phraseology of this appropriation, that the amount of this estimate of \$560,000 be reduced to \$285,000.		
There is no need of two officers of coordinate rank and authority in a United States land office, and it was not contemplated when the office of receiver of public moneys was created that that position should be anything more than that of a fiscal officer. All of the functions strictly pertaining to the office of receiver could be better performed by a bonded cashier or financial clerk under the supervision of one officer as the administrative head of a United States land office. The performance of judicial and quasi judicial functions by receivers has resulted in the unsatisfactory administration of many of the land offices. The joint exercise of judicial duties by both the register and receiver results in many cases in conflicting decisions by them, and the fact that all of the decisions of local land offices are subject to review on appeal by the Commissioner of the General Land Office and the Secretary of the Interior would safeguard all the rights of any party interested. Quite often there is a lack of harmony, amounting to friction, between the register and receiver, which has resulted in a demoralization of the office in which such condition obtains. The existence of a dual responsibility as to the conduct of an office between the register and receiver tends to prejudice of the conduct of the office, inasmuch as in cases of irregularities or errors in the running of the office each officer attempts to relieve himself of the responsibility therefor and shift the same to the other officer. In addition to this, it is a fact long patent to the General Land Office that approximately 75 per cent of receivers personally perform the duties of their office, the remainder leaving the work thereof to a subordinate, thus entailing an unnecessary expense in the conduct of their offices. Further, on account of the limited tenure in office, the receiver does not familiarize himself as fully as he should with the laws and regulations pertaining to his work, with the result that in a great many cases the accounts of receivers of public moneys are so inefficiently handled that the result is an immense burden upon the General Land Office and upon the field service in attempting to correct the numerous errors made. It frequently happens that the change in personnel of receivers causes much confusion in their accounts for a considerable period until a new officer is acquainted to a certain extent with the duties of his office.		
It is proposed to designate in each local land office a financial clerk, who shall be sufficiently bonded, to receive and account for all moneys, at a salary not to exceed \$2,000 at an office in which the earnings of the receiver would at present amount to \$3,000, and a less sum to be paid, graduated according to the amount of moneys received and work performed, at offices where the compensation of the receiver at present would not equal \$3,000. This proposed financial clerk would, of course, be an employee under the civil service, whose tenure of office would not terminate except because of inefficiency, by resignation, or by the abolition of the office in which he was employed.		
Financial clerks would therefore be enabled to become expert in the performance of their duties. By this method a net saving of approximately \$150,000 per annum would result to the Government.		
<i>Contingent Expenses of Land Offices—</i>		
For clerk hire, rent, and other incidental expenses of the district land offices, including the exchange of typewriters: <i>Provided</i> , That this appropriation shall be available for the payment of per diem in lieu of subsistence, not exceeding \$4 per day, of clerks detailed to examine the books and management of district land offices and to assist in the operation of said offices, and in the opening of new land offices and reservations, while on such duty, and for actual necessary traveling expenses of said clerks, including necessary sleeping-car fares: <i>Provided further</i> , That no expenses chargeable to the Government shall be incurred by registers and receivers in the conduct of local land offices except upon previous specific authorization by the Commissioner of the General Land Office (act Mar. 4, 1911, vol. 36, p. 1414, sec. 1).....	320,000.00	320,000.00
NOTE.—To provide for the necessary clerical assistance, rent, registration, and other urgent and absolute essentials of the service, and prevent a congestion of the public business, as well as to avoid annoyance and delay to settlers in the adjustment of their entries, the full amount of this estimate will be required for the operation of the local land offices for the fiscal year 1913.		
Should the office of receivers of public moneys be abolished, as proposed in the above estimate for salaries and commissions of registers and receivers, it will then be necessary to further increase the appropriation for contingent expenses of land offices from \$320,000 to \$445,000 in order to provide for the employment of the necessary financial clerks in place of the receivers (whose salaries are to be fixed by the Commissioner of the General Land Office, at not to exceed \$2,000 per annum each). This would make a total appropriation of \$730,000 for salaries and commissions and the contingent expenses of the district land offices, in lieu of \$880,000 as now stated in these estimates, thereby resulting in a net decrease of \$150,000 in the administration of said offices.		
<i>Expenses of Depositing Public Moneys—</i>		
For expenses of depositing money received from the disposal of public lands, by registered mail, bank exchange, or otherwise, as may be directed by the Secretary of the Interior, and under rules to be approved by the Secretary of the Treasury (R. S., p. 713, sec. 3617; act Mar. 4, 1911, vol. 36, p. 1415, sec. 1).....	1,000.00	1,000.00
<i>Protecting Public Lands, Timber, etc.—</i>		
Depredations on public timber, protecting public lands, and settlement of claim for swamp land and swamp-land indemnity: To meet the expenses of protecting timber on the public lands, and for the more efficient execution of the law and rules relating to the cutting thereof; of protecting public lands from illegal and fraudulent entry or appropriation, and of adjusting claims for swamp lands, and indemnity for swamp lands, \$650,000, of which not exceeding \$25,000 shall be available for expenses of hearings or other proceedings held by order of the Commissioner of the General Land Office to determine whether alleged fraudulent entries are of that character or have been made in compliance with law, and not exceeding \$25,000 additional for clerk hire, rent, and other incidental expenses of district land offices: <i>Provided</i> , That agents and others employed under this appropriation shall be allowed per diem, subject to such rule and regulations as the Secretary of the Interior may prescribe in lieu of subsistence, at a rate not exceeding \$3 per day each and actual necessary expenses for transportation, including necessary sleeping-car fares, except when agents are employed in the District of Alaska they may be allowed not exceeding \$6 per day each, in lieu of subsistence (act Mar. 4, 1911, vol. 36, p. 1415, sec. 1).....	650,000.00	650,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Expenses of Hearings in Land Entries—</i>		
For expenses of hearings or other proceedings held by order of the Commissioner of the General Land Office to determine the character of lands; whether alleged fraudulent entries are of that character or have been made in compliance with law; and of hearings in disbarment proceedings (act Mar. 4, 1911, vol. 36, p. 1415, sec. 1).....	\$35,000.00	\$35,000.00
<i>Reproducing Plats of Surveys, General Land Office—</i>		
To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys on file, and other plats constituting a part of the records of said office, to furnish local land offices with the same, and for reproducing by photolithography original plats of surveys prepared in the offices of surveyors general (increase submitted \$1,500) (act Mar. 4, 1911, vol. 36, p. 1415, sec. 1).....	5,000.00	3,500.00
NOTE.—The annual appropriation for reproducing worn and defaced plats is in the nature of a loan, for the reason that the money expended is in great part later returned to the Treasury by the sale of the plats reproduced. (See act of May 29, 1908, 35 Stat., 469, amending sec. 461, U. S. R. S.) The additional appropriation will also enable the General Land Office to reproduce the original plats prepared by hand in the Surveyor General's Office by photolithography, and will save thereby to the Government the cost of preparation by hand of the additional copies required by law, varying between \$15 and \$30 for each plat.		
<i>Examinations of Desert Lands—</i>		
To enable the Secretary of the Interior to examine, under such regulations and at such compensation as he may prescribe, the desert lands selected by the States under the provisions of section 4 of the act of Congress approved Aug. 18, 1894 (28 Stat., 422), and the act of May 27, 1908 (35 Stats., 347): <i>Provided</i> , That if such examinations be made by detailed clerks or employees of the department they shall be entitled to actual necessary expenses for transportation, including necessary sleeping-car fares, and not exceeding \$3 per day in lieu of subsistence (act Mar. 4, 1911, vol. 36, p. 1415, sec. 1).....	1,000.00	1,000.00
<i>Manual of Surveying Instructions—</i>		
For continuing the preparation and publication of a revised edition of the Manual of Surveying Instructions, issued in 1902, for use of surveyors of public lands under the direct system of surveys, \$3,000, to remain available until expended (act June 25, 1910, vol. 36, p. 797, sec. 1).....	3,000.00	
NOTE.—This estimate is virtually asking a renewal of the appropriation of \$3,000 made by the deficiency act of June 25, 1910 (36 Stat., 797), of which but a small amount was expended and which lapsed on June 30, 1911. It is very desirable to have the old manual revised, so that it will meet the requirements of the direct system of public surveys.		
<i>Restoration of Lands in Forest Reserves—</i>		
To enable the Secretary of the Interior to meet the expenses of advertising the restoration to the public domain of lands in forest reserves or of lands temporarily withdrawn for forest reserve purposes (increase submitted \$4,000) (acts June 4, 1897, vol. 30, p. 36, sec. 1; June 11, 1906, vol. 34, p. 233, sec. 1; Mar. 4, 1911, vol. 36, p. 1415, sec. 1).....	16,000.00	12,000.00
NOTE.—The increased appropriation asked for is made necessary to carry out the terms of the act of June 11, 1906 (34 Stats., 233), which provides for the opening to settlement of lands upon application of persons desiring to make entry thereof under the homestead laws, in tracts not exceeding 160 acres, within forest reserves, which are chiefly valuable for agriculture. The said act requires publication of notice, for a period of not less than four weeks in the county in which the lands are situated, of all lists or descriptions of the lands ordered restored to settlement and entry thereunder. During the fiscal year ended June 30, 1908, 1,266 lists of lands to be restored to entry under the said act of June 11, 1906, were received; 1,647 lists during the year ended June 30, 1909, and 3,007 lists during the year ended June 30, 1910. The cost of publishing the notice for each list amounts to between \$4.50 and \$5. In addition to the amount required for publication of the notices of lands restored under the act of June 11, 1906, this office uses something like \$2,000 a year to publish the restoration of lands temporarily withdrawn for forest purposes and of lands restored by Executive order under act of June 4, 1897 (30 Stat., 36). For the year ended June 30, 1911, the appropriation of \$12,000 was not sufficient as there were pending at the end of said year about 700 lists, for which notices could not be published until the appropriation for 1912 was available. In view of the number of lists carried over from last year and the present rate at which they are being received at least \$6,000 will be needed in addition to the regular appropriation for the current fiscal year.		
<i>Opening Indian Reservations (Reimbursable)—</i>		
To meet the expenses pertaining to the opening to entry and settlement of such Indian reservation lands as may be opened during the fiscal year 1913: <i>Provided</i> , That the expenses pertaining to the opening of each of said reservations and paid for out of this appropriation shall be reimbursed to the United States from the money received from the sale of the lands embraced in said reservations, respectively (act Mar. 4, 1911, vol. 36, p. 1415, sec. 1).....	22,000.00	22,000.00
<i>Protection of National Monuments—</i>		
For the preservation, development, administration, and protection of the national monuments, to be expended under the direction of the Secretary of the Interior: <i>Provided</i> , That the salaries paid the custodians hereunder shall not exceed \$900 each per annum (submitted).....	5,000.00	
NOTE.—The amount of this estimate is submitted to enable the Secretary of the Interior where he deems necessary to employ custodians and to meet the expenses connected with the preservation, development, administration, and protection of the various national monuments created under the act of June 8, 1906 (34 Stat., 225), entitled "An act for the preservation of American antiquities."

DEPARTMENT OF THE INTERIOR, UNITED STATES GEOLOGICAL SURVEY, OFFICE OF THE DIRECTOR, Washington, October 6, 1911.		
SIR: I have the honor to transmit herewith estimates for the Geological Survey for the fiscal year ending June 30, 1913. In accordance with the requirements of law (32 Stat., p. 455), there is appended to each item of the estimates a note showing the number of persons employed and the rate of compensation paid to each from each of said appropriations for the month of July, 1911.		
The increase in the appropriations estimated for are:		
		Increase.
(1) For topographic surveys in the United States.....	\$50,000	
(2) For geologic surveys in the United States.....	150,000	
(3) For chemical and physical researches.....	10,000	
(4) For the preparation of the report on the mineral resources of the United States.....	25,000	
(5) For gauging streams and determining the water supply of the United States.....	150,000	
Total increase recommended.....	385,000	
The reason for asking for the various increases of appropriations are as follows:		
(1) Topographic surveys, \$350,000 to \$400,000. The demand for topographic surveys is no longer confined to any one section of the United States, and at the present rate of progress in mapping the survey can not meet this demand at all adequately.		
(2) Geologic surveys, \$300,000 to \$450,000. The policy of the Secretary of the Interior to coordinate closely all work of the department relating to the public lands makes the survey in fact as well as in name

the official agency for classifying the public domain. This policy has added enormously to the work of the survey, and, since added work has been of a nature requiring prompt attention, other equally important but less urgent work has suffered through delay and postponement. The requested increase in the appropriation for geologic work has for its chief purpose the provision for an increase in the facilities of the land classification board to handle current public-land business. It would not permit of any expansion of the scientific and economic geologic work, although such expansion is demanded along several lines.		
(3) Chemical and physical researches, \$40,000 to \$50,000. The investigations of the present year, especially those looking toward the discovery of potash and nitrate deposits, deserve to be continued with greater vigor, and the recommended increase is regarded as modest in view of the importance of this work.		
(4) Mineral resources, \$75,000 to \$100,000. There has been no increase in this appropriation since 1905. In that year it was estimated that the number of producers with which the Division of Mineral Resources corresponded was 50,000. There are now between 75,000 and 80,000, and in this period the total value of the mineral products of the United States has increased about one-third. There has been a proportionate increase in the amount of work of a scientific and technical nature, and in the general correspondence. Under the present appropriation it is not possible to do the field work necessary for the proper study of the producing localities and the preparation of the annual report on the nation's mineral resources. Unless additional funds are provided some lines of investigation will have to be abandoned altogether, or it will be impossible to live up to the standard which the public has a right to expect.		
(5) Gauging streams, \$150,000 to \$300,000. The present demands upon this appropriation by the reason of the larger interest which is taken by the nation in its water resources have increased during the present year to such an extent as to make the inadequateness of the present appropriation not only most apparent but actually embarrassing in the administration of the public domain.		
The total increases are thus \$385,000.		
Very respectfully,		
GEO. OTIS SMITH, <i>Director.</i>		
The SECRETARY OF THE INTERIOR.		
NOTE.—The bureau reports under the provisions of section 2, act of July 11, 1890 (vol. 26, Stat. L., 267), that none of the employees of the office are below a fair standard of efficiency "for the ratings under which they are employed."— <i>Geo. For the investigation as to the causes of mine explosions, methods of mining, especially in relation to the safety of miners, the appliances best adapted to prevent accidents, the possible improvement of conditions under which mining operations are carried on, the use of explosives and electricity, the prevention of accidents, and other inquiries and technologic investigations pertinent to the mining industry, and all equipment, supplies, expenses of travel, and other expenses of every sort incident thereto (act Mar. 4, 1911, vol. 36, p. 1418, sec. 1).....	360, 000. 00	310, 000. 00
<i>Fuel Investigations—</i>		
For the investigation, analyzing and testing of the coals, lignites, and other mineral fuel substances belonging to or for the use of the United States, and all equipment supplies, expenses of travel, and other expenses of every sort incident thereto (acts Mar. 4, 1911, vol. 36, p. 1419, sec. 1; Aug. 14, 1911, vol. 37, p. 37, sec. 1).....	135, 000. 00	100, 000. 00
<i>Investigations into the Treatment of Ores and other Mineral Substances—</i>		
For investigations into the treatment of ores and other mineral substances, with special reference to the prevention of waste in the mining and utilization of important mineral resources, and all equipment, supplies, expenses of travel, and other expenses of every sort incident thereto (submitted).....	100, 000. 00	
<i>Investigations of Coals in Alaska—</i>		
For the investigations of the coals of Alaska, with reference to their mining, transportation, and utilization, and all equipment, supplies, expenses of travel, and other expenses of every sort incident thereto, to be immediately available (submitted).....	50, 000. 00	
<i>Inspecting Mines in the Territories—</i>		
For salaries of two mine inspectors, authorized by the act approved Mar. 3, 1891, for the protection of the lives of miners in the Territories; and said inspectors are hereby authorized to inspect coal and other mines in the District of Alaska, to which District the provisions of said act, except so much as requires 6 months' residence in a Territory prior to appointment, are hereby extended and made applicable:		
For per diem, subject to such rules and regulations as the Secretary of the Interior may prescribe, in lieu of subsistence at a rate not exceeding \$3 per day each while absent from their homes on duty, except while in Alaska, when such allowance shall be at the rate of \$5 per day, and for actual necessary traveling expenses of said inspectors, including necessary sleeping-car fares (act Mar. 4, 1911, vol. 36, p. 1419, sec. 1).....	9, 500. 00	9, 500. 00

<p>MEMORANDUM CONCERNING BUREAU OF MINES ESTIMATES, FISCAL YEAR 1913.</p> <p>INCREASES.</p> <p><i>General expenses.</i>—Having been based upon an extensive, varied, and well-developed work under the Geological Survey, the Bureau of Mines, though nominally the youngest branch of the Government service, is in reality well organized, in close touch with its problems for which it was created, and in its duties and responsibilities one of the large Government bureaus.</p> <p>The appropriations for its work are less to-day than were those covering this work of three years ago under the Technologic Branch of the Survey. Congress, in establishing the bureau, greatly enlarged the scope of the work, without increasing the appropriation for investigations.</p> <p>The legitimate demands upon it from the Government, from the mining industry, and from the public, have far outgrown its appropriations and its ability to meet these demands. The delays in the work are now bringing adverse criticism, especially from the miners, the most difficult and yet the most important element to reach.</p> <p>The bureau has now 300 employees, with work well organized, as compared with 125 employees when the amounts of its present appropriations were agreed upon. It is ready to use efficiently even larger appropriations than those now asked for.</p> <p><i>For mine accidents.</i>—The increase now asked for (from \$310,000 to \$360,000) was approved last year by the department and by the President.</p> <p>Nearly one-half of the present appropriation is for mine-rescue cars and stations, which is essential educational work, but noninvestigative; only one-half is for investigations. Neither half of the work can be adequately cared for without this increase. During the present year the work of the mine-rescue cars has been suspended for 3 months owing to a lack of sufficient funds; and the investigative work has been delayed for lack of funds.</p> <p>Ten thousand mines of every kind are to be considered.</p> <p>One and one-half million men are to be reached; which is all the more difficult as half of them are non-English speaking. But already the bureau is getting results.</p> <p>The confidence and cooperation of the operators and miners are being won, and the work is well organized. Already the loss of life is 30 per cent less than before this work was begun. All conditions are favorable for larger results if the additional funds are available. A much larger increase could be used effectively.</p> <p><i>Fuel investigations.</i>—This increase (\$100,000 to \$135,000) was approved last year by the department, the President, and the Senate.</p> <p>When \$100,000 was appropriated for this work three years ago, less than 10 per cent of the Government fuel was inspected by this service. Now practically all of it, valued at over \$6,000,000, is purchased under the advice of the Bureau of Mines, Government power plants are being examined, and general problems of increased efficiency, spontaneous combustion, storage of coal, etc., are referred to it by various Government departments (Navy, Army, Isthmian Canal Commission, etc.).</p> <p>This increase is necessary to efficient work. It will prove a good investment for the Government, and a far larger good investment for the general public by reason of the fact that data obtained for the Government heating and power plants in different parts of the country are equally beneficial to the general public, whose fuel bills average \$1,500,000,000 yearly.</p>		
<p>NEW APPROPRIATIONS.</p> <p><i>Mineral waste investigations, \$100,000.</i>—The demand for this work is more general than for any other new work. The waste or losses in American mining and metallurgical industries are estimated to be equivalent to not less than \$400,000,000 yearly, a considerable part of which can be saved. This does not appeal to the individual who frequently makes larger temporary profits by following wasteful methods. It should and will appeal to the Nation. Public opinion and resulting State legislation will enforce the remedial measures if the Bureau of Mines develops the facts and points out the way.</p> <p>The plans for this new work are matured, and the men to take charge of the investigations are in sight. The problems are national in scope and importance. There is therefore no occasion for delay, nor for commencing with a smaller and less efficient appropriation, the appropriations being small when considered in view of the magnitude of the interests involved.</p> <p>It is proposed to divide the appropriations for these investigations, if secured, about as follows, along lines where the waste is large and where prompt remedial action is most likely:</p> <p>For wastes in metal mining industries..... \$50,000 For wastes in coking and gas industries..... 20,000 For wastes in petroleum and natural-gas industries..... 12,000 For wastes in miscellaneous mineral industries..... 18,000</p> <p><i>Alaska coals, \$50,000.</i>—The information to be gained by these investigations is essential to the formation of intelligent plans covering the mining and utilization of the coals in Alaska belonging to the Government, and it is especially essential to any plans for securing high-grade coal for the use of the Army and naval vessels in Pacific waters. These vessels must now purchase coal in Japan, British Columbia, or West Virginia.</p> <p>In view of the difficulties under which the work in Alaska will have to be done and the importance of doing this work thoroughly and with least delay, the amount of the appropriation estimated is reasonably small.</p> <p><i>Sidings for rescue cars, \$4,000.</i>—For 5 of the 7 rescue cars now operated by the Bureau of Mines, no sidings for headquarters have been secured, nor can be secured at proper places without authority of Congress.</p> <p>Without such sidings there are frequently difficulties, delays and dangers of collisions. In several cases the needed land will be donated or leased at a nominal figure if Congress will grant the necessary authority; and in certain cases the railway companies will contribute the rails if the Bureau of Mines can contribute the necessary labor and incidents.</p> <p>Mine Rescue Station at McAlester, Okla.: At McAlester, Okla., a site and building for the mine-rescue station established there is necessary to the proper carrying on of the work. <i>Suppressing Traffic in Intoxicating Liquors, Alaska—</i>		
For the suppression of the traffic in intoxicating liquors among the natives of Alaska, to be expended under the direction of the Secretary of the Interior (act Mar. 4, 1911, vol. 36, p. 1420, sec. 1).....	12,000.00	12,000.00
NOTE.—	TERRITORY OF ALASKA, GOVERNOR'S OFFICE, Juneau, September 21, 1911.	
SIR: In connection with the estimates of this office for the fiscal year ending June 30, 1913, of \$12,000 for the suppression of the traffic in intoxicating liquors among the natives of Alaska, I have the honor to submit the following statement:		
This estimate calls for a renewal of the appropriation made in the act of Mar. 4, 1911 (sundry civil act), for the fiscal year 1912, which was recommended by the Department in view of the widespread demoralization of the native inhabitants of Alaska by the illicit sale of liquor. The moneys appropriated became available on the 1st of July last, and three months, therefore, have elapsed during which vigorous efforts have been directed against the so-called "whisky peddlers" in the native settlements. The results have exceeded the confident expectations of this office, 15 of the most notorious "boot-leggers" in the whole Territory having been arrested and bound over to await the action of the grand jury. Special efforts were put forth to secure in advance of arrest sufficient evidence to convict the accused men under the law which constitutes the sale of liquors to natives a felony.		
So vigorous and successful has been the campaign against the whisky peddlers that the natives now find it exceedingly difficult to obtain liquor. The work of prosecution, however, has but just begun, and constant vigilance must be, and will be, exercised. In submitting the estimate for a renewal of the appropriation, it is to be emphasized that the enforcement of the liquor law for the protection of the natives against themselves is a highly important obligation of government. Protected from the demoralizing effects of liquor, the natives of Alaska, especially in the southeastern district, are a law-abiding and industrious people, engaging in useful trades and occupations: but subjected to its influence they become demoralized and disorderly, abandoning their industries and civilized modes of life. The effort to eradicate the source of the evil, therefore, is of high economic as well as moral importance. It is not an exaggeration to say that the expenditure of a few thousand dollars annually from the appropriation in question is returned many times in the form of productive labors and industries in the Territory.		
It is recommended that, since by your general instruction the appropriation for the suppression of the liquor traffic among the Alaska natives is being disbursed and the law administered by the governor of Alaska, the next appropriation will contain the provision "under the direction of the governor of Alaska" instead of "under the direction of the Secretary of the Interior." This recommendation is made with a view of simplifying the routine administration of the law—a consideration of which is the more important in view of the distance of Alaska from the seat of the National Government.		
I have the honor to be, respectfully, yours, The SECRETARY OF INTERIOR, Washington, D. C.		
WALTER E. CLARK, Governor.		
<i>Education in Alaska—</i>		
To enable the Secretary of the Interior, in his discretion and under his direction, to provide for the education and support of the Eskimos, Aleuts, Indians, and other natives of Alaska; for erection, repair, and rental of school buildings; for text-books and industrial apparatus; for pay and necessary traveling expenses of general agent, assistant agent, superintendents, teachers, physicians, and other employees, and all other necessary miscellaneous expenses which are not included under the above special heads (act Mar. 4, 1911, vol. 36, p. 1420, sec. 1).....	248,000.00	200,000.00
So much of which sum as may be necessary for the purchase of supplies shall be immediately available: <i>Provided</i> , That no person employed hereunder as special agent or inspector, or to perform any special or unusual duty in connection herewith, shall receive as compensation exceeding \$200 per month, in addition to actual traveling expenses and per diem not exceeding \$4 in lieu of subsistence, when absent on duty from his designated and actual post of duty: <i>Provided</i> , That of the sum hereby appropriated not exceeding \$7,000 may be expended for personal services in the District of Columbia.		
All expenditures of money appropriated herein for school purposes in Alaska shall be under the supervision and direction of the Commissioner of Education and in conformity with such conditions, rules, and regulations as to conduct and methods of instruction and expenditure of money as may from time to time be recommended by him and approved by the Secretary of the Interior.		
<i>Reindeer for Alaska—</i>

For protection and improvement of Crater Lake National Park, and the construction and repair of roads, bridges, fences, and trails, and the improvement of roads. All proceeds of leases and other revenues that may be derived from any source connected with said park shall be expended under the direction of the Secretary of the Interior in the administration and improvement of the park and the construction of roads, trails, bridges, etc., therein (acts May 22, 1902, vol. 32, p. 202, secs. 1-3; Mar. 4, 1911, vol. 36, p. 1421, sec. 1).....	\$15,000.00	\$3,000.00
NOTE.—The superintendent of this park submitted an estimate amounting in the aggregate to \$169,140, including \$153,000 for the construction of roads and bridges and the improvement of trails, but the estimate was received too late to enable the Secretary to properly analyze it. By the act of Congress approved June 25, 1910 (36 Stat., 725), Congress appropriated \$10,000 to be expended under the direction of the Secretary of War, for surveying, locating and preparing plans and estimates for roads and trails in the park, and expenses incident thereto. The report of the engineer who made the survey has not yet been made public. It is recommended that the estimates submitted by the superintendent be considered by Congress in connection with the report of the engineer of the War Department who made the survey. The department reserves the right to submit the original estimate submitted by the superintendent, or an amended one, at the hearing before the committee.

<i>Current Expenses, Government Hospital for the Insane—</i>		
The appropriation recommended for the fiscal year 1912-13 are as follows: For the support, clothing, and treatment in the Government Hospital for the Insane, of the insane of the Army and Navy, Marine Corps, Revenue-Cutter Service, inmates of the National Homes for Disabled Volunteer Soldiers, persons charged with or convicted of crime against the United States who are insane, all persons who have become insane since their entry into the military service of the United States who have been admitted to the hospital and who are indigent; including purchase, maintenance, and driving of necessary horses and vehicles, and of horses and vehicles for official use of the superintendent, for the indigent insane admitted from the District of Columbia, and nonresident insane persons under temporary care, the sum of \$657,800. This amount is based on 2,990 patients at \$220 per capita. This number is arrived at by estimating the probable increase on the basis of what the increase has been in past years. Pursuing the same method of calculation for the District of Columbia patients, their share is \$323,400, leaving \$334,400 to be provided for in the sundry civil bill (R. S., p. 338, secs. 4838-4858; act Mar. 4, 1911, vol. 36, p. 1421, sec. 1).....	334, 400. 00	\$334, 400. 00
For expenses in returning escaped patients to the hospital the sum of \$1,500 is needed to be set apart. A decision of the comptroller prevents the payment of these expenses out of the support fund of the hospital and makes it necessary that a special appropriation be made for this purpose.		
The usual authority should be given in the sundry civil bill to use \$1,500 in defraying the expense of removal of patients to their friends on leaving the hospital.		
A further provision in the same bill is necessary authorizing the sum of \$1,000 to be used in the purchase of books, periodicals, and papers for the use of the hospital and for the medical library.		
<i>Current Expenses, Columbia Institution for the Deaf—</i>		
For the support of the institution, including salaries and incidental expenses, for books and illustrative apparatus and for general repairs and improvements (acts June 10, 1872, vol. 17, p. 360, sec. 1; Mar. 4, 1911, vol. 36, p. 1422, sec. 1).....	\$67, 000. 00	
NOTE.—In addition to the above, the sum of \$11,550 is to be included in the estimate of the Commissioners of the District of Columbia.		
Buildings and grounds: For repairs to the buildings of the institution, including plumbing and steam fitting and for repairs to pavements within the grounds (same acts).....	10, 000. 00	
New dormitory: For the construction and furnishing of a dormitory to replace old one now used for college women and officers, \$75,000, of which not more than \$3,000 may be used for the construction or renting of temporary quarters for the accommodation of those usually housed in said dormitory (submitted).....	75, 000. 00	
	152, 000. 00	84, 000. 00
COLUMBIA INSTITUTION FOR THE DEAF, Washington, D. C., June 28, 1911.		
HON. FRANKLIN MACVEAGH, Secretary of the Treasury, Washington, D. C.		
SIR: I have the honor to submit herewith estimates of appropriations required for the services of the fiscal year ending June 30, 1913, by the Columbia Institution for the Deaf.		
It will be noticed that the appropriation desired for special repairs, buildings and grounds, is \$10,000 instead of \$5,000, which has been submitted for the past few years. By vote of the board of directors of this institution on May 9, 1911, it was agreed that the increased sum should be asked for urgently needed repairs to our kitchen and store-rooms and for the equipment of a small kitchen to be used for the purposes of instruction. I believe that this increased expenditure will tend to preserve the health of students and will lead to economy in the handling of future supplies.		
An entirely new item is submitted for the construction and furnishing of a dormitory to replace the old one now used for our college women and officers. For this the board requests the sum of \$75,000. The old building now in use was begun in 1857 and was added to for a number of years. It is used largely for dormitory purposes for deaf young women. It is unsafe and insanitary and in case of fire there is grave doubt whether all who occupy it could be saved.		
We earnestly urge the granting of the sum asked for that a modern fireproof building may be erected in the place of the old one.		
Very respectfully, yours,		
PERCIVAL HALL, President.

For fuel and light: In part payment for fuel and light, Freedmen's Hospital and Howard University, including necessary labor to care for and operate the same.....	\$3,500.00	
Submitted:		
Dormitory for men.....	150,000.00	
NOTE. There has been no increase in dormitory accommodations since the original buildings were erected, over 40 years ago. Of the nearly 1,500 students in attendance, four-fifths of whom are men, only one in five can be accommodated in present dormitories. It is unfortunate that the young men who are in training as the intellectual, moral, religious, and industrial leaders of their race are thus forced out into the miscellaneous lodging places of the city, and are not kept under the direct supervision, control, and uplifting influence of the dormitory life of the institution.		
Assembly hall, for university uses.....	75,000.00	
NOTE.—The only assembly hall of the university, with 1,500 students, is the Rankin Memorial Chapel, which was built especially for religious services, and seats only 600. The increase in collegiate, academic, and industrial students so crowded the chapel last year that a large body of students could not be seated, interfering with the best discipline and order. On special occasions there is no assembly hall for seating the people, although Howard University is becoming more and more a center for the broader education of an entire race in educational, civic, and moral life. A plain and commodious assembly hall can be built in the natural amphitheater on the west side of the campus at moderate cost. The board of trustees regard these proposed buildings as indispensable.		
\$326,400.00	\$92,900.00	
<i>Freedmen's Hospital—</i>		
For salaries and compensation of surgeon in chief, not to exceed \$3,000, and for all other professional and other services that may be required and expressly approved by the Secretary of the Interior (act Mar. 4, 1911, vol. 36, p. 1423, sec. 1).....	42,000.00	
A detailed statement of the expenditure of this sum shall be submitted to Congress.		
NOTE.—An increase is asked so as to provide the following additional employees whose services are urgently required to properly operate the hospital: A general storekeeper, \$1,400; an engineer, \$1,000; 2 firemen, \$1,440; assistant anaesthetist, \$1,000; director of clinics, \$720; laundryman, \$300; cook, \$330; 10 pupil nurses, \$600; 2 telephone operators, \$760; 3 laborers, \$900; 2 maids, \$600; driver, \$300; seamstress, \$300; dishwasher, \$260.		
For subsistence, fuel, light, clothing, bedding, forage, medicine, medical and surgical supplies, surgical instruments, electric lights, repairs, furniture, and other absolutely necessary expenses (same act).....	31,000.00	
The power, heating, and lighting plant of the Freedmen's Hospital and Howard University and the employees connected therewith, are hereby placed under the immediate supervision of the chief clerk of the Department of the Interior, who is authorized, under the direction of the Secretary of the Interior, to interchange engineers and firemen employed in connection with the central power, heating, and lighting plant of the Department of the Interior with those of the power, heating, and lighting plant of Freedmen's Hospital and Howard University.		
NOTE.—The growth of the hospital and increased cost of supplies make the increased estimate for subsistence necessary.		
For repairs and painting hospital buildings (same act).....	5,000.00	
For furniture and furnishings, including awnings and screens, and other necessary articles, for the proper equipment of the nurses' home, authorized by sundry civil act approved Mar. 4, 1911 (submitted).....	6,000.00	
For the purchase of an electric ambulance (submitted).....	3,500.00	
For the installation of an ice plant (submitted).....	4,000.00	
NOTE.—The cost of ice for the past fiscal year amounted to \$1,005.69. The installation of a plant would soon pay for itself.		
For the installation of an ash conveyor at the Freedmen's Hospital and Howard University power, heating, and lighting plant (submitted).....	3,000.00	
NOTE.—Bids secured for the remodeling of the central heating plant, authorized by the sundry civil act, approved Mar. 4, 1911, were too high to include an ash conveyor.		
For labor and material for construction of a suitable fence inclosing hospital grounds (submitted).....	12,000.00	
NOTE.—Should the steps taken by the department to secure the botanical garden fence for the hospital be successful the estimate can be reduced to the cost of resetting, about \$4,000.		
For the construction of a pathological building (submitted).....	25,000.00	
NOTE.—It is proposed to extend the present laundry west to the line of the north entrance to hospital, so as to afford additional laundry facilities and construct the pathological building thereover.

<i>Support of Prisoners, United States Courts—</i>		
For support of United States prisoners, including necessary clothing and medical aid, and transportation to place of conviction, or place of bona fide residence in the United States, and including support of prisoners becoming insane during imprisonment, as well before as after conviction, and continuing insane after expiration of sentence, who have no friends to whom they can be sent; for expenses of shipping remains of deceased prisoners to their homes in the United States; for the expense of care and medical treatment of guards employed by the United States, who may be injured by prisoners while said guards are endeavoring to prevent escapes or suppressing mutiny; for expenses incurred in identifying and pursuing escaped prisoners, and for rewards for their recapture; and not exceeding \$10,000 for repairs, betterments, and improvements of United States jails, including sidewalks (act Mar. 4, 1911, vol. 36, p. 1427, sec. 1).....	510,000.00	510,000.00
<i>United States Penitentiary, Leavenworth, Kans.—</i>		
For the support of the United States penitentiary at Leavenworth, Kans., as follows:		
For subsistence, including supplies for prisoners, warden, deputy warden, and physician, tobacco for prisoners, kitchen and dining room furniture and utensils, and for farm and garden seeds and implements, and for purchase of ice if necessary (act Mar. 4, 1911, vol. 36, pp. 1427, 1428, sec. 1).....	\$40,000.00	
For clothing, transportation, and traveling expenses, including such clothing as can be made at the penitentiary; for the usual gratuities as provided by law to prisoners at release, provided that such gratuities shall be furnished to prisoners sentenced for terms of imprisonment of not less than six months, and including transportation to place of conviction or place of bona fide residence in the United States; for expenses of shipping remains of deceased prisoners to their homes in the United States; for expenses of penitentiary officials while traveling on duty; for expenses incurred in identifying and pursuing escaped prisoners, and for rewards for their recapture (same act).....	25,000.00	
For miscellaneous expenditures in the discretion of the Attorney General, for fuel, forage, hay, light, water, stationery, purchase of fuel for generating steam, heating apparatus, burning bricks and lime; forage for issue to public animals, and hay and straw for bedding; blankbooks, blank forms, typewriting supplies, pencils, and memorandum books		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>United States Penitentiary, Leavenworth, Kans.—Continued.</i>		
for guards, books for use in chapel, paper, envelopes, and postage stamps for issue to prisoners; for labor and materials for repairing steam-heating plant, electric plant, and water circulation and drainage; for labor and materials for construction and repair of buildings for general supplies, machinery, and tools for use on farm and in shops, brickyard, quarry, limekiln, laundry, bathrooms, printing office, photograph gallery, stables, policing buildings and grounds; for the purchase of cows, horses, mules, wagons, harness, veterinary supplies, lubricating oils, office furniture, stoves, blankets, bedding, iron bunks, paints and oils, library books, newspapers and periodicals, and electrical supplies; for payment of water supply, telegrams, telephone service, notarial and veterinary services; for advertising in newspapers; for fees to consulting physicians called to determine mental condition of supposed insane prisoners, and for other services in cases of emergency; for pay of extra guards or employees when deemed necessary by the Attorney General, and for expense of care and medical treatment of guards who may be injured by prisoners while said guards are endeavoring to prevent escapes or suppressing mutiny (act Mar. 4, 1911, vol. 36, pp. 1427, 1428, sec. 1).....	\$40,000.00

For foremen, tailor, blacksmith, shoemaker, laundryman, and carpenter, when necessary (same act).....	4,000.00	
	172,600.00	158,080.00
<i>United States Penitentiary, McNeil Island, Wash.—</i>		
For support of the United States penitentiary, McNeil Island, Wash., as follows:		
For subsistence, including the same objects specified under this head for the United States penitentiary, Leavenworth, Kans., and for supplies for guards (act Mar. 4, 1911, vol. 36, p. 1429, sec. 1).....	12,500.00	
For clothing and transportation, including the same objects specified under this head for the United States penitentiary, Leavenworth, Kans. (same act).....	7,000.00

For salaries, including pay of officials and employees as follows: For warden, \$2,000; deputy warden, \$1,200; physician, \$1,200; chief clerk and bookkeeper, \$1,200; steward and cook, \$1,000; superintendent of marine department, \$1,200; guards, at \$70 per month each, \$11,760 (same act).....	19,560.00	
	55,060.00	47,900.00
<i>National Training School for Boys, Washington, D. C.—</i>		
Superintendent (increase of \$500 submitted) (act Mar. 4, 1911, vol. 36, pp. 1429, 1430, sec. 1).....	3,000.00	
NOTE.—The school now has a larger number of buildings than ever before, much of this work being done by the boys. Its population is steadily increasing, and its onerous duties and responsibilities have been ably met by the superintendent, whose experience and interest in the work render his services every year more valuable. Every member of the board concurs in this recommendation.		
Assistant superintendent (same act).....	1,500.00	
Matron of school (same act).....	600.00	
Parole officer (same act).....	900.00	
Chief clerk (submitted).....	1,000.00	
NOTE.—The increased population of the school, the building operations carried on, and the additional requirements by the accounting officers of the Government have so increased our work that it is beyond our regular office force. It is requisite that an efficient man, who is a thorough accountant, be at the head of the office force, under the designation of "chief clerk," and such person can not be secured and retained for the salary now at our disposal.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>National Training School for Boys, Washington, D. C.—Continued.</i>		
Assistant clerk (formerly designated as "office clerk") (act Mar. 4, 1911, vol. 36, p. 1430, sec. 1).....	\$720.00	
NOTE.—The title of "office clerk" should be changed to the title of "assistant clerk."		
Stenographer and typewriter (formerly designated as "assistant office clerk") (same act)....	480.00	
NOTE.—The title of "assistant office clerk" should be changed to the title of "stenographer and typewriter."		
Teachers and family officers (same act).....	9, 120.00	
NOTE.—At present those who are family officers are our teachers. On the completion of the central school building, a rearrangement of the school force will be necessary, since some of the family officers will then not be teachers. With this in view, the change in designation from "teachers and assistant teachers" to "teachers and family officers" is recommended.		
One storekeeper and steward (same act).....	600.00	
Six matrons of families, at \$240 each (same act).....	1, 440.00	
Foremen and skilled helpers in industries (same act).....	3, 800.00	
Farmer (same act).....	600.00	
Assistant farmer (same act).....	420.00	
Teamster (same act).....	360.00	
Florist (same act).....	540.00	
Engineer (same act).....	540.00	
Assistant engineer (same act).....	420.00	
Baker (same act).....	600.00	
Cook (same act).....	480.00	
Assistant-cook (same act).....	300.00	
Shoemaker (same act).....	540.00	
Tailor (same act).....	600.00	
Seamstress (same act).....	240.00	
Laundress (same act).....	360.00	
One dining-room attendant (boys) (same act).....	300.00	
One dining-room attendant (officers) (same act).....	240.00	
Housemaid (same act).....	216.00	
Nurse (same act).....	600.00	
Watchmen (not to exceed 8 in number) (same act).....	2, 880.00	
Secretary and treasurer (increase of \$400 submitted) (same act).....	1, 000.00	
NOTE.—This salary has been unchanged since the organization of the school, nearly 40 years ago. The work has been steadily increasing from year to year during that time and the increased requirements as to accountability have made the duties of this office onerous and exacting.		
Total.....	\$34, 396.00	
For support of inmates, including groceries, flour, feed, meats, dry goods, leather, shoes, gas, fuel, hardware, furniture, tableware, farm implements, seeds, harness and repairs to same, fertilizers, books and periodicals, printing and entertainments, stationery, plumbing, painting, glazing, medicines and medical attendance, stock, vehicles, fencing, repairs to buildings, and other necessary items, including compensation, not exceeding \$1,500 for additional labor or services, for identifying and pursuing escaped inmates, and for rewards for their recapture, and for transportation and other necessary expenses incident to securing suitable homes for discharged boys, not exceeding \$500 (same act).....	10, 500.00	
For the employment of a psychologist, and to secure additional medical attendance, and for blanks, stationery, and other expenses to enable the school to begin a scientific study of the boys of the school (same act).....	2, 500.00	
NOTE.—It is highly desirable and of paramount importance that in dealing with delinquent children all pertinent information possible concerning them should be available. This information should be such as to enable the school authorities to determine the mental and vocational standards of each boy, to ascertain his peculiarities or defects in body, mind, and morals, with causative factors, to the end that the most effective treatment may be administered, and that the management may be the wisest possible. With such a system, it is believed that information would be obtained which could be used throughout the country in the adoption of preventive measures and also of remedial measures in institutions to which truant and delinquent boys and girls are committed. At best, under our present system we are, to some extent, working in the dark.		
Extraordinary repairs to buildings, fences and roadways, and for purchase of equipment (same act).....	7, 000.00	
NOTE.—Clothing rooms and watchmen's quarters should be by all means installed in A, B, and C family buildings. A new toilet room should be constructed at A family and a new toilet equipment should be provided for A and B families. An area way should be constructed around B family. New gutters and down spouts should be provided for a number of the buildings, which also need more or less extraordinary repairs. In an institution of this capacity, prudence requires that provision be made for exceptional and emergency repairs.		
Furniture (same act).....	3, 000.00	
NOTE.—Furniture is needed for the new F family building, which will have to be equipped throughout. Furniture for other buildings is also required.

DISTRICT OF COLUMBIA.

ESTIMATES OF APPROPRIATIONS REQUIRED FOR THE SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1913.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1912.

DISTRICT OF COLUMBIA.

GENERAL EXPENSES.

NOTE.—Statements in connection with the following estimates of the Commissioners of the District of Columbia, and the schedules of streets, etc., recommended for improvement, will be found in Appendix M.

Salaries, Offices of the District of Columbia

For executive office:

Two commissioners, at \$6,000 each (increase of \$1,000 each submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 3, 1881, vol. 21, p. 460, sec. 1; Mar. 2, 1911, vol. 36, p. 966, sec. 1).....	\$12,000.00
Engineer commissioner (to make salary \$6,000) (increase of \$1,000 submitted) (same acts)...	1,280.00

NOTE.—The present Board of Commissioners has no personal interest in the above recommendation, since the official terms of the two civilian commissioners will expire in January, 1913, and the commissioner detailed from the Engineer Corps of the Army is, of course, subject to assignment to other duty at any time. The board makes the recommendation because it recalls the difficulty of the President when the immediate predecessors of the present civilian commissioners resigned, in finding men who, in view of the limited salary, would assume the responsibilities of the office. Even if the salary were increased as recommended it would not, by far, be an adequate compensation for the labors and responsibilities of the position.

Additional compensation for two assistants to the engineer commissioner, detailed from the Engineer Corps of the United States Army, under act of Congress approved June 11, 1878, 2 at \$250 each (acts May 26, 1908, vol. 35, p. 274, sec. 1; Mar. 2, 1911, vol. 36, p. 966, sec. 1)...	500.00
Secretary (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 966, sec. 1) ..	2,400.00
Two assistant secretaries to commissioners—	
One at (increase of \$100 submitted) (same acts).....	1,500.00

NOTE.—The duties of this position are of an executive and confidential character, and require exceptional tact in the reception of callers upon the commissioner, with whom the incumbent is immediately upon duty. In this service he is required to discriminate between those whose business is of such a nature that he can dispose of it without reference to the commissioner, and those whose mission is of such importance that it should be called to the commissioner's attention. The position requires the possession of expert skill as a stenographer and typewriter. The secretary to the president of the board receives \$1,000, and this position approximates it in importance, at least to the extent of the increased amount as recommended.

One at (same acts).....	1,200.00
Clerk (same acts).....	1,600.00
Clerk (increase of \$300 submitted) (same acts).....	1,800.00

NOTE.—This increase is recommended because of the importance of the office. When the secretary to the Board of Commissioners is absent, the official who holds this position acts in his stead. The normal duties of the position require a high grade of clerical skill and judgment and broad familiarity with the laws in force in the District and with methods of legislation, as a ready reference record of the status of all bills in Congress is kept at this desk, to which the commissioners have constant occasion to resort during the sessions of Congress. Among the requirements of this position are special skill in indexing, and in revising copy for the printer in the publication of the reports of the several departments of the District government, in both of which the present holder of that position has had extended experience.

Clerk (increase of \$100 submitted) (same acts)	1,400.00
---	----------

NOTE.—This is a very important position, the incumbent of which prepares the routine correspondence of the office, conveying information of the commissioners' decisions, which involves the exercise of unusual tact and carefulness. At this desk the orders of the commissioners and innumerable forms of board action are scrutinized and formulated in proper shape for promulgation. This clerk is supposed to discover all the technical errors that have escaped the observation of the officials through whom the papers have passed before reaching him, and his services in that respect are extremely valuable. Many papers also reach this desk in a state of incompleteness, which requires consultation with the heads of offices through which they have passed. Altogether the office requires not only exceptional clerical skill, but thorough knowledge of the rules and methods throughout the office generally.

Two clerks, at \$1,200 each (same acts).....	2,400.00
Clerk, who shall be a stenographer and typewriter (same acts).....	1,000.00
Clerk (same acts).....	840.00
Clerk (increase of \$120 submitted) (same acts).....	840.00

NOTE.—This position is in the nature of a clearing house for papers which are passing from one commissioner to another, and requires the exercise of good judgment, diligence, and accuracy. The incumbent also acts as an information clerk to answer questions of callers, or to direct them where information they seek may more readily be obtained. He also performs numerous clerical duties of a desultory nature.

Clerk (same acts).....	600.00
Two messengers, at \$60 each (1 additional submitted) (same acts).....	1,200.00

NOTE.—This messenger is needed to take the place of any of the messengers in the executive office who may be absent on account of disability or leave. At present when any one of these messengers is away the office of the secretary to the board, which has the greatest use for a messenger, is deprived of messenger service, and the secretary is frequently obliged to employ the clerks of the office in the capacity, greatly to the retardation of the official business and the impairment of office discipline. It is also desirable that this employee should be a person of sufficient intelligence and skill to perform minor clerical duties, as it is the practice of the office to keep the messengers usefully occupied at all times during office hours, and thus save the cost of clerical services which are neither of such quality or extent as to justify the employment of an additional clerk.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries, Offices of the District of Columbia—Continued.</i>		
For executive office—Continued.		
Messenger (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 966, sec. 1)...	\$480. 00	
Stenographer and typewriter (same acts).....	840. 00	
Two drivers, at \$600 each (same acts).....	1, 200. 00	
District veterinarian (increase of \$400 submitted) (change of title) (same acts).....	1, 600. 00	
<p>NOTE.—The salary of this office has not been increased since about 1895, when the District owned only about 200 animals, and the stables were few in number and located in a comparatively small area. At present the District owns about 250 head of cattle and hogs and 702 horses and mules. This shows a great increase in number, and there has been a corresponding increase in the number of stables, making a much larger area to be covered. Last year there were received and treated at the hospital, which is the private property of the veterinarian, 213 horses for a total of 3,378 days, as against 156 horses for 2,524 days the year previous. Horses are taken to the hospital only when in serious condition and in need of strict attention from the veterinarian. For this service he has received no compensation other than being reimbursed with forage actually used. During the past year there have been 225 horses and mules purchased, as against 79 the year before. This in itself has taken much of his time for the past six or seven months. During the year just past there were almost 4,500 calls made upon him. This is in addition to hundreds of visits and numerous days spent in the purchase of animals and the time necessary to test the District horses for glanders during the past summer. He is required to travel extensively every day, both during the day and night, and has never been furnished transportation.</p>		
Medicines, surgical and hospital supplies (submitted).....	1, 000. 00	
<p>NOTE.—At present this office keeps track of the drugs used each year by each department, and then this department reimburses the veterinarian with the drugs it has used. This makes an unnecessary amount of work for each department. It is believed that money would be saved if the veterinarian were allowed to buy what he needs from time to time.</p>		
Allowance for team, at \$30 a month (submitted).....	360. 00	
<p>NOTE.—The above increases are asked on account of the rapid increase in the number of horses owned by the District of Columbia, and the great amount of territory which has to be covered. The other increases are asked for in order that the entire work of the office may be handled by the office without depending on each separate department for its supplies.</p>		
Purchasing division:		
Purchasing officer, who shall hereafter under the direction of the commissioners supervise the purchase and distribution of all supplies, stores, and construction materials for the use of the government of the District of Columbia, and who shall give bond in such sum as the commissioners may determine (increase of \$250 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, pp. 966, 967, sec. 1).....	3, 000. 00	
<p>NOTE.—The responsibilities and labor devolving upon the immediate executive head of an office of this character are such as to warrant a salary of the amount herein recommended.</p>		
Deputy purchasing officer (increase of \$100 submitted) (same acts).....	1, 700. 00	
<p>NOTE.—This officer has immediate supervision over the general office force; his duties are responsible and exacting; in the absence of the purchasing officer a portion of each day visiting property yards, inspecting materials, supplies, etc., he becomes the acting head of the office. There has been no increase in the salary paid this officer in 4 years, notwithstanding the duties of the position have increased many fold.</p>		
Chief clerk and deputy purchasing officer (change of title and increase of \$100 submitted) (same acts).....	1, 600. 00	
<p>NOTE.—The duties of this officer require thorough knowledge of accounting. He has direct supervision over the accounts covering the purchase of construction materials, involving the expenditure of nearly \$400,000 annually. The title of the office should be as recommended, to enable the office to have his services in the matter of signing and certifying to the correctness of prices charged for supplies furnished the District.</p>		
Clerk (increase of \$100 submitted) (same acts).....	1, 400. 00	
<p>NOTE.—The clerk for whom this increase is recommended acts as stenographer to the purchasing officer. In addition, he acts in the capacity of general clerk; reviews before issue specifications and general conditions of proposals soliciting bids for furnishing supplies and materials. The personal contact of the public with the purchasing office is largely through this clerk, which requires experience, tact, etc.; his duties are far from being perfunctory. The increase recommended is well deserved and no more than a fit compensation for the services rendered.</p>		
Six clerks, at \$1,200 each (same acts).....	7, 200. 00	
Two clerks, at \$900 each (same acts).....	1, 800. 00	
Clerk (increase of \$100 submitted) (same acts).....	1, 000. 00	
<p>NOTE.—The clerk for whom this increase is recommended is one of the most competent all around clerks in the District service. His duties are to keep the correspondence file, which in an office of this kind is voluminous; he acts in the capacity of stenographer and typewriter and general utility clerk. Everything that he is called upon to do is done with accuracy and dispatch. By his close attention the incumbent has familiarized himself with the general detail of various positions of the office. The position is worthy of the increase asked.</p>		
Two clerks, at \$720 each (same acts).....	1, 440. 00	
Four clerks, at \$840 each (increase of \$120 each submitted) (same acts).....	3, 360. 00	
<p>NOTE.—It is asked that the salary of these clerks be increased to \$840 per annum. They perform a large portion of the routine work of the office, which is laborious, requires great accuracy and attention to detail, and calls for more than ordinary intelligence and proficiency. The salaries now paid are noncommensurate with the duties performed and are less than those paid for similar services in mercantile pursuits and the Federal departments. An office of this kind should be provided with a clerical force of intelligence higher than it is reasonable to expect can be procured and retained at a salary of \$720 per annum. In fact, the office experiences great difficulty in retaining the services of competent clerks, especially among married men, who can not afford to continue at these salaries, but leave the service at the first opportunity of advancement elsewhere. These frequent changes are detrimental and retard the expeditious handling of the office work.</p>

*Salaries, Offices of the District of Columbia—Continued.**Purchasing division—Continued.*

Inspector of fuel (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, pp. 966, 967, sec. 1).....	\$1,500.00	
Assistant inspector of fuel (same acts).....	1,100.00	
Storekeeper (increase of \$100 submitted) (same acts).....	1,000.00	

NOTE.—The duties of this position require a man of high integrity, one of good judgment, and with a general knowledge of relative qualities of the various supplies furnished the District government, as upon the incumbent devolves the duty of the custody of all samples submitted by bidders; this duty is particularly onerous at time annual bids are received on the more than 5,000 items of general supplies. After samples are accepted and used as the standard of qualities of the supplies that are to be furnished under respective contracts, it is his duty, upon request of the interested department, to compare all deliveries with the accepted samples, for the purpose of seeing that the supplies furnished equal the contract quality. He is also charged with the management of the storeroom of stationery and other supplies which is maintained in this office, and from which are issued all such supplies used by offices in this building. The person filling this position is not only required to receive and issue stock, but also to do all the clerical work incident to the same, such as keeping record of receipts and issues, and making deliveries to departments; renewing the stock as it becomes depleted, etc. The present incumbent is eminently fitted for the position; he has long been in the District service; is indefatigable in the performance of his duties, often working after office hours. The zealous care with which he watches the interests of the District is very valuable and well merits the increase herein recommended.

Messenger (same acts).....	600.00	
Driver (increase of \$120 submitted) (same acts).....	600.00	

NOTE.—This man is now paid less than any of the drivers provided for in the District service. In addition to driving, he also acts as hostler, which requires his attendance at the stable early in the mornings, after office, and also Sundays and holidays; in addition to which, when not engaged in driving he performs messenger duties, delivering stock from the storeroom to the various offices in the building. The salary now paid is surely inadequate for the service performed.

Inspector (increase of \$100 submitted) (same acts).....	1,000.00	
--	----------	--

NOTE.—The duties of this employee are the inspection and weighing of broken stone shipped from the District government quarry, which is operated under contract, and which is located at Dickerson, Md. This necessitates that he reside at that point for nine months of the year, the period during which the quarry is in operation. The remaining three months he is detailed to one of the property yards; this requires him to either also maintain a residence in this city, during this period, or to pay transportation back and forth to Dickerson and make the trip daily. This position requires a man of experience and high integrity, as all the stone accepted by the District is upon his certificate of inspection and weight.

Inspector of materials (change of title and increase of \$120 submitted) (same acts).....	900.00	
---	--------	--

NOTE.—This employee is in charge of the District sand and gravel wharf; inspects measures and receives all sand and gravel purchased by the District government. As he is the only employee at the yard, he, in addition, performs all the clerical work, such as keeping book record of receipts and issues, etc. His duties are analogous to the other inspectors of materials.

Two clerks, at \$720 (change of title and increase of \$120 each submitted) (same acts).....	1,440.00	
--	----------	--

NOTE.—The incumbents of these positions perform strictly clerical duties, precisely similar to those of the \$720 clerks above recommended to be increased to \$840 per annum. It is therefore recommended that the title of these positions be changed from laborers to clerks and that their compensation be increased to \$720 per annum.

Property-yard keeper (change of title and increase of \$64 submitted) (same acts).....	1,000.00	
--	----------	--

NOTE.—The duties of this employee are identical with those of the two property-yard keepers now provided. For this reason the position should carry the same title and rate of pay.

Property-yard keeper (decrease one) (same acts).....	1,000.00	
--	----------	--

NOTE.—By reason of having a new addition to the cement warehouse, the yard at which one of these keepers is stationed has been abandoned for the receipt and storage of construction materials and has, by order of the commissioners, been transferred from the supervision of the purchasing officer to that of the engineer of highways, to be used for the storage of equipment and tools used by that department exclusively. A blacksmith and wheelwright shop is also maintained at this yard for the repair of the tools and equipment above referred to. No provision should therefore be made for one of these yard keepers under the purchasing division, as the compensation for this employee is embraced in estimates for the engineer department.

Inspector of materials (same acts).....	1,200.00	
Temporary labor (submitted).....	150.00	

NOTE.—During the month of April the commissioners receive bids on the general supplies to be furnished the District during the ensuing fiscal year. In connection with these bids there are submitted to the purchasing officer many hundred samples of various commodities. It is necessary to unpack, list, and arrange these samples in a systematic manner for ready reference in the consideration of the bids and prompt return of the samples to unsuccessful bidders after award of contracts has been made. From the time the samples are received and returned requires about three months. Heretofore a clerk from the regular force has been detailed to render this service; but, coming as it does at the most busy time in the year, this detail handicaps the force, hence this recommendation, which is in the interests of good administration.

Building inspection division:

Inspector of buildings (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 967, sec. 1).....	3,000.00	
Principal assistant inspector on buildings (increase of \$200 submitted) (same acts).....	2,000.00	

NOTE.—Present salary is not consistent with responsibilities of the position and practical experience and training necessary.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.		
<i>Salaries, Offices of the District of Columbia—Continued.</i>				
<i>Building inspection division—Continued.</i>				
One assistant inspector (increase of \$200 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 33, p. 967, sec. 1).....	\$1, 400. 00			
Five assistant inspectors, at \$1,300 each (increase of \$100 each submitted) (same acts).....	6, 500. 00			
Five assistant inspectors, at \$1,200 each (same acts).....	6, 000. 00			
NOTE.—The total amount of salaries to assistant inspectors is recommended for increase from \$13,200 to \$13,900, for the reason that a proper administration of the office necessitates the detail of one of the inspectors to the position of chief inspector, and he should receive a salary commensurate with his duties and responsibilities. These inspectors are underpaid; they have large territories to cover, and their duties are most arduous. The men filling the positions are required to have broad experience in all lines of building construction, and the office is dependent on them to see that buildings are properly constructed and the regulations enforced.				
Fire-escape inspector (increase of \$100 submitted) (same acts).....	1, 500. 00			
NOTE.—This inspector handles all fire-escape work as well as sufficiency of escape in theaters, moving-picture shows, etc., in the District of Columbia. His duties require experience, good judgment, and discretion.				
Temporary employment of additional assistant inspectors for such time as their services may be necessary (same acts).....	3, 000. 00			
Civil engineer or computer (increase of \$300) (same acts).....	1, 800. 00			
NOTE.—This position is a most important one, involving great responsibility and care, and requires a man of high technical training and of exceptional ability. He passes on the structural features of buildings. Permits to build are issued only after plans have been approved by him. The salary is quite incommensurate with the duties rendered and is unfair to the type of man necessary to properly fill the position.				
Civil engineer or computer (same acts).....	1, 500. 00			
Chief clerk (same acts).....	1, 500. 00			
Clerk (same acts).....	1, 000. 00			
Clerk (same acts).....	900. 00			
Clerk, who shall be a stenographer and typewriter (same acts).....	1, 000. 00			
Messenger (same acts).....	480. 00			
Assistant inspector (same acts).....	1, 500. 00			
Clerk (same acts).....	1, 050. 00			
To reimburse two elevator inspectors for the provision and maintenance, by themselves, of two motor cycles for use in their official inspection of elevators in the District of Columbia, \$15 per month each (same acts).....	360. 00			
For the purchase and maintenance of 1 motor vehicle for the official use only of the employees of the building division in inspection work, or so much thereof as may be necessary (submitted).....	1, 500. 00			
For the hire of 4 horses and buggies, at \$30 per month (submitted).....	1, 440. 00			
NOTE.—Better transportation for the field inspectors is urgently recommended, particularly for the suburban sections, where the only available means of access is by trolley car or bicycle. Sufficient inspections in these districts are not physically possible with the force now available. An increase in personnel or some means of getting across country is imminently necessary. Transportation by means of horses and vehicles will accomplish the desired result more economically and satisfactorily in other respects. The inspectors in the outlying districts use from one-third to one-half of their time going from job to job. Where an average of 20 inspections per day per inspector is now made, 30 will be entirely practicable, at a cost of \$360 a year for each inspector supplied with transportation. In other words, one man will be enabled to do one-half as much again as he is now doing; and in lieu of asking for 2 more inspectors, at \$1,200 a year each, it is recommended that 4 of the inspectors be supplied with hired horses and buggies, at a total cost of \$1,440—a yearly saving of \$960.				
GENERAL NOTE.—In view of the recommendation made it is desired to call attention to the fact that since the inauguration of the present schedule of fees the Building Division has been self-supporting. This schedule became effective July 15, 1909, and, notwithstanding the handicap of half month during the busiest season of the year, when the receipts were governed by the old fee schedule, the total revenue derived from fees since that date, or for the two fiscal years since the present schedule was promulgated, has amounted to \$64,473.13, as against \$60,760 disbursed in expenses, or a difference to the division's credit of \$3,713.13. Aside from the inherent merit believed to be contained in the respective recommendations and the fact that their adoption would be no more than just to those affected, this showing, it is thought, is a self-evident argument for their favorable consideration, particularly as indications point to a general substantial increase in building operations in the District from year to year and a consequent increase in the revenues of the division.				
BUILDING INSPECTION DIVISION.				
The following is a list of persons other than day laborers employed on regular work for 30 days or more during the fiscal year 1911:				
Names.	Title.	Number of days.	Rate.	Total paid.

Assistant inspector of licenses (same acts).....	1,000.00	
Messenger (increase of \$75 submitted) (same acts).....	675.00	
NOTE.—This messenger has become valuable because of his long connection with the office and his ability to act partly as a clerk. It is believed this small increase is more than deserved.		
Messenger (same acts).....	450.00	
Three assistant assessors, at \$3,000 each (same acts).....	9,000.00	
Clerk to board of assistant assessors (same acts).....	1,500.00

Record clerk (same acts).....	1,500.00	
Record clerk (submitted).....	1,800.00	
	\$50,265.00	\$50,290.00
NOTE.—One additional record clerk, intended as aid to the board of assistant assessors, is requested, at \$1,800 per annum. It is believed that much aid and necessary help would be given to the board if this office had a better and complete system for listing the prices of the most recent sales or transfers of real estate. The best results could be obtained by employing two parties who are conversant with real estate conditions in the District of Columbia and whose duty would be to obtain in a confidential manner prices of sales of realty, and who would keep strictly up to date a card index showing such prices and containing the numbers of the square, lot, and house. During the last few years some effort has been made toward instituting such a system, but most of the valuations shown on these cards have been from sales in judicial proceedings and from such prices as could be obtained from various deeds.

Deputy collector of taxes (same acts).....	2,000.00	
Cashier (same acts).....	1,800.00	
Assistant cashier (same acts).....	1,400.00	
Assistant cashier (submitted).....	1,400.00	
NOTE.—This position is desired to provide the necessary facilities for the prompt handling of the great increase of work in this office, and it will strengthen the force at a vital point. There has been no additional assistant cashier since July 1, 1902, when for that fiscal year the collections were \$5,400,184.09. The total collections for the past year were \$7,853,317.22, and for this year (1912) they will aggregate about \$8,500,000.		
Bookkeeper (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 968, sec. 1).....	1,600.00	
Three clerks, at \$1,400 each (same acts).....	4,200.00	
Chief bailiff (submitted).....	1,000.00	
NOTE.—The creation of this office would make a more effective system for the collection of personal taxes in arrears. It is recognized everywhere that it is more difficult to collect this tax than any other. With a chief bailiff, who, under the direction of the collector, is clothed with the power to distrain and attach personal property of delinquents to satisfy the District's claims, a great many of the present difficulties would be solved. This officer would be directed also to make investigations constantly and report to the collector the conditions which exist, and to note the amount of property of persons who are in arrears and listed for attachment proceedings.

Auditor (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 969, sec. 1)...	4,000.00	
Chief clerk (increase of \$250 submitted) (same acts).....	2,500.00	
<i>NOTE.—An increase of \$250 is recommended for the chief clerk. The highly important and responsible duties of the position (the incumbent discharging the duties of the auditor in his absence and also during his presence as directed by the auditor) justify the larger salary. Deputy auditors of municipalities fairly comparable with the District receive at the least an annual salary of \$2,500. The present chief clerk, Mr. Donovan, has been employed in the auditor's office for 19 years. His long service, recognized ability, and knowledge of District administration make him an extremely valuable official and entitled to the recognition carried by the increase recommended.</i>		
Bookkeeper (increase of \$300 submitted) (same acts).....	2,100.00	
<i>NOTE.—An increase of \$300 is recommended for the (chief) bookkeeper. The duties performed by the incumbent, Mr. Roche, are both onerous and technical, requiring highly specialized knowledge. Bookkeepers in the Treasury Department engaged upon the same class of work receive annual salaries of \$2,100. Mr. Roche's signal ability and his long, conscientious, and splendid service in the office entitle him to the increase recommended.</i>		
Accountant (submitted).....	1,800.00	
<i>NOTE.—This is a new position. The work in the auditor's office has increased within the past few years so rapidly and in such volume as to call for additional expert help, particularly along accounting, analytical, and statistical lines. An accountant of ability and good technical training can not be obtained under \$1,800. For the maintenance of the efficiency of the service a high grade position of this kind should be provided for.</i>		
Three clerks, at \$1,600 each (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 969, sec. 1).....	4,800.00

Clerk (same acts).....	936.00	
Two clerks, at \$900 each (same acts).....	1,800.00	
Coupon clerk (submitted).....	900.00	
<i>NOTE.—The collector of taxes in his 1913 estimates has recommended that provision be made for an additional cashier to take care of the large increase in the volume of business in his office. If this position be allowed, it becomes imperative that provision be made for another clerk in this office to work in conjunction with the new cashier in the capacity of a coupon clerk. The law requires that all receipts issued by the collector to be valid must be countersigned by the auditor. This duty the coupon clerk would discharge and at the same time insure a check on all moneys received by the new cashier in like manner as the method now in operation with respect to existing cashiers in the collector's office.</i>		
Stenographer (submitted).....	900.00	
<i>NOTE.—There is at present but one stenographer in the office. In addition to his stenographic duties the same clerk is supposed to handle all the correspondence records and attend to the filing and indexing. Experience has demonstrated that it is a physical impossibility for one clerk to do all this work. The stenographic work alone consumes all his time and the filing and indexing accordingly suffers for want of proper attention. The office is sadly in need of an additional stenographer to help on the stenographic and filing and indexing work.</i>		
Two clerks, at \$720 each (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 969, sec. 1).....	1,440.00

Disbursing office:		
Disbursing officer (same acts).....	3,000.00	
Deputy disbursing officer (increase of \$200 submitted) (same acts).....	1,800.00	
<i>NOTE.—This officer, in the possible absence of the disbursing officer, assumes the executive management of the office, at other times his duties and responsibilities requiring administrative ability, and is required to furnish and pay for a bond to the disbursing officer in the sum of \$25,000.</i>

Morgue master (increase of \$120 submitted) (same acts).....	840.00	
Assistant morgue master and janitor (increase of \$120 submitted) (same acts).....	600.00	
Hostler and janitor (increase of \$120 submitted) (same acts).....	480.00	
	3,920.00	3,360.00
NOTE.—The exigent nature of the service the keepers and hostler and janitor render demands that service of all employees be immediately available at any hour of the day or night, while the routine duties require their attention for many hours. These men have proved themselves to be sober, industrious, and courteous to the public.		
Market masters:		
Two market masters, at \$1,200 each (same acts).....	2,400.00	
Assistant market masters, who shall also perform the necessary labor in cleaning the markets; and one laborer for duty at the Eastern Market (increase of \$60 submitted) (same acts).....	2,340.00	
	4,740.00	4,680.00
NOTE.—This appropriation of \$2,280 is apportioned so as to give the assistant at the Western Market \$780; Eastern, \$720; Georgetown, \$420, and the laborer at the Eastern Market \$360. At the Eastern Market an addition to the market house has increased the work very materially and this market is open every day in the week. The compensation of the assistants at the Eastern and Western Markets should be equal, and, in my opinion, because of the long hours they are on duty, also a part of every Sunday and holiday except Christmas, the salary should not be less than \$780 per annum for each.		
Wholesale Producers' Market:		
Market master (same acts).....	900.00	
Assistant market master, who shall also act as night watchman (increase of \$60 submitted) (same acts).....	600.00	
Watchman (increase of \$120 submitted) (same acts).....	600.00	
NOTE.—It is very difficult to secure the services of reliable men to fill these places at the present compensation. The watchman performs duty from 4 p. m. until 12 m., when the assistant market master acts as watchman until 8 a. m., both having the custody of large quantities of produce which is placed for sale by the farmers. In many instances the farmers drive 20 to 30 miles, and necessarily when they locate their wagons in the evening or very early hours of the morning they have to leave their wagons and produce to get some sleep. The receipts from the market justify this recommendation.		
Laborer for sweeping B Street sidewalk used for market purposes, and the wholesale market square (same acts).....	360.00	
Sweeping B Street used for market purposes (same acts).....	480.00	
Hauling refuse (street sweepings) (same acts).....	600.00	
	3,540.00	3,360.00
Eastern Market:		
Laborer for cleaning sidewalk and street where used for market purposes (increase of \$60 submitted) (see note below) (same acts).....	300.00	240.00
Western Market:		
Laborer for cleaning sidewalk and street where used for market purposes (increase of \$60 submitted) (same acts).....	300.00	240.00
NOTE.—These laborers are engaged in sweeping the streets adjacent to the market houses, where used for market purposes. They have been in the service 5 years without an increase. Their hours are necessarily long and the work hard.		
Office of the superintendent of weights, measures, and markets:		
Superintendent of weights, measures, and markets (acts Mar. 2, 1895, vol. 25, p. 811, secs. 1-16; Feb. 19, 1910, vol. 36, p. 874, sec. 1; Mar. 2, 1911, vol. 36, p. 970, sec. 1).....	2,500.00	
Assistant (increase of \$120 submitted) (same acts).....	1,320.00	
NOTE.—The present incumbent has held the position since 1901 without an increase. He is a man of ability and energetic and deserves the increase which is respectfully recommended.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

Assistant (increase of \$180 submitted) (same acts)	1,080.00	
NOTE.—This position has also been held by the present incumbent since 1901. He, too, is a man of ability, and performs the same service in the field as the \$1,200 man with credit to the office. In the absence of the clerk, when on leave, he also performs the duties of that position in a most satisfactory manner and is familiar with the details of the office.		
Laborer (same acts)	480.00	
Driver (submitted)	600.00	
NOTE.—The division of weights and measures has two horses and two single wagons in use daily. In the interest of economy another driver should be provided, as without one it is necessary to postpone important inspections to the disadvantage of the public. The work has increased to such an extent in covering special inspections upon request, in addition to the regular daily inspections, that another driver is very essential to the proper and expeditious work of the division.		
For the purchase of small quantities of groceries, meats, and provisions, etc., in connection with the investigation and detection of sales of short weight and measure (act Mar. 2, 1911, vol. 36, p. 970, sec. 1)	50.00	
		\$7,230.00
Engineer commissioner's office:		\$6,330.00
Engineer of highways (increase of \$300 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 970, sec. 1)	3,300.00	
NOTE.—This increase is asked in order to make the pay of the engineer of highways more commensurate with the duties performed. The present compensation of \$3,000 was fixed in 1903, and there has been no increase since that time, although the work of this officer has greatly increased. The superintendent of the water department receives \$3,300 per annum. In other communities of the same size, officials occupying similar positions are paid higher salaries, and it is believed to be only justice that the increase should be granted.		
Engineer of bridges (same acts)	2,250.00	
Superintendent of streets (same acts)	2,000.00	
Superintendent of county roads (increase of \$300 submitted) (same acts)	2,300.00	
NOTE.—This officer is not only superintendent of county roads, but also acts as assistant engineer in charge of Rock Creek Park. His compensation is very small for the amount of work performed. He is a civil engineer of ability, and has charge of the construction and repair of all county roads and suburban streets.		
Superintendent of sewers (increase of \$300 submitted) (same acts)	3,300.00	
NOTE.—This increase is asked in order to make the pay of the superintendent of sewers more commensurate with the duties performed. The present compensation of \$3,000 was fixed in 1903, and there has been no increase since that time, although the work of this officer has greatly increased. The superintendent of the water department receives \$3,300 per annum. In other communities of the same size, officials occupying similar positions are paid higher salaries, and it is believed to be only justice that the increase should be granted.		
Inspector of asphalts and cements (same acts)	2,400.00	
<i>Provided, That the inspector of asphalts and cements shall not receive or accept compensation of any kind from, or perform any work or render any services of a character required of him officially by the District of Columbia, to any person, firm, corporation, or municipality other than the District of Columbia.</i>		
Assistant inspector of asphalts and cements (increase of \$100 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 970, sec. 1)	1,600.00	
NOTE.—The duties of this position require a man of technical education, experience, and special knowledge in the examination of asphalts and cements, besides a thorough knowledge of general chemistry, all of which the present incumbent possesses in a large degree. The salary he is now receiving is not commensurate with the service required and rendered, being no more than that paid first-class clerks who have not spent years acquiring a technical education. The present incumbent was, before accepting his present position, employed in a less responsible position with the U. S. Geological Survey at a salary equal to that he is now being paid by the District. He came to the District in order to gain a more thorough knowledge of asphaltic materials. Now that he has gained such knowledge his services are in greater demand and worth more to the District than he is now being paid.		
Superintendent of trees and parkings (increase of \$200 submitted) (same acts)	2,000.00	
Assistant superintendent of trees and parkings (same acts)	1,200.00	
Assistant engineer (same acts)	2,200.00	
Assistant engineer (same acts)	2,100.00	
Four assistant engineers, at \$1,800 each (same acts)	7,200.00	
Assistant engineer (submitted)	1,800.00	
NOTE.—This employee is now carried as assistant engineer at \$6 per diem. He has been employed since the sewage-disposal system was put into actual operation in charge of the operation, maintenance, and inspection of the sewage-disposal system, exclusive of the sewerage pumping station, including the management of the sewer-division shops and yard. This work involves the proper maintenance of the sewage-disposal system, and requires the constant services of a competent engineer, involving, as it does, the successful operation and proper maintenance of screens, sediment chambers, gates, valves, siphons, automatic regulators, as well as many miles of important trunk and intercepting sewers.

Assistant engineer (increase of \$100 submitted) (same acts).....	1, 600. 00	
NOTE.—This increase is recommended on account of character of services. Assistant engineer in charge of construction work since 1900.		
Three assistant engineers, at \$1,500 each (same acts).....	4, 500. 00	
Assistant engineer (increase of \$150 submitted) (same acts).....	1, 500. 00	
NOTE.—The duties and responsibilities of this assistant engineer have been largely increased during the present year. He is now doing work identical with that performed by other assistant engineers getting \$1,500 and \$1,600.		
Assistant engineer (same acts).....	1, 200. 00

Three inspectors, at \$1,200 each (same acts).....	3, 600. 00	
Inspector (increase of \$200 submitted) (same acts).....	1, 200. 00	
NOTE.—This inspector is an employee of the office of trees and parkings who has grown from a boy to manhood in the service. He is familiar with the work in every detail, and is in charge of an important branch of the work. His duties call for much experience, original thought, and executive ability.		
Inspector (same acts).....	900. 00	
Twelve foremen, at \$1,200 each (same acts).....	14, 400. 00	
Foreman, Rock Creek Park (same acts).....	1, 200. 00	
Three subforemen, at \$1,200 each (increase of \$150 each submitted) (same acts).....	3, 600. 00	
NOTE.—The county work is divided into six geographical sections, three of which are in charge of foremen and three in charge of subforemen. The duties and responsibilities of these latter are practically identical with those of the foremen, and the difference in pay is inequitable. The recognized pay of a foreman is \$1,200 and the three increases recommended will adjust conspicuous exceptions.		
Foreman (same acts).....	1, 050. 00	
Foreman (increase of \$100 submitted) (same acts).....	1, 000. 00	
NOTE.—This employee is under the office of trees and parkings, and the increase asked is the admitted proper pay of foremen in the surface division. He has grown from a boy to manhood in the service, and is familiar with the work in every detail, and is in charge of an important branch of the work, his duties dealing with living plants, which call for much skill, original thought, and executive ability, and at all times prompt and proper treatment.

Permit clerk (same acts).....	1, 500. 00	
Assistant permit clerk (increase of \$200 submitted) (same acts).....	1, 200. 00	
NOTE.—The present pay being very small for the work required, and responsibilities involved and the excellent manner in which the duties have been performed, the salary recommended is warranted by the increase in the work of the office from \$9,372 in 1907-8 to over \$24,500 in 1910 and 1911.		
Index clerk and typewriter (same acts).....	900. 00	
Clerk (increase of \$100 submitted) (same acts).....	1, 500. 00	
NOTE.—Head clerk of the surface division. The duties of this position are executive as well as clerical. The rate of pay recommended is the least that should properly be allotted. The head clerks of the water division, the sewer division, and the building inspector's office are each paid \$1,500.		
Clerk (same acts).....	1, 400. 00	
Clerk (increase of \$100 submitted) (same acts).....	1, 500. 00	
NOTE.—This clerk is detailed as secretary to the engineer commissioner. His duties are similar to those performed by clerks under the executive office, who are detailed as secretaries to Commissioners Rudolph and Johnston. The secretary to Commissioner Rudolph receives \$1,600, and it has been recommended that the secretary to Commissioner Johnston receive \$1,500. The services performed by these secretaries is a high order of clerical work, and it is believed that their salaries should not be less than \$1,500.

Clerk (increase of \$150 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 970, sec. 1).....	\$1,350.00	
NOTE.—Secretary and stenographer to the engineer officer in charge of surface work and the engineer of highways. The duties are exacting, important, and far from automatic. In addition to the pronounced skill of the stenographer and typewriter, the personal contact with the public with the office in which he serves is largely through him, which requires tact, experience, and other qualifications, for which the present compensation is not commensurate.		
Four clerks, at \$1,200 each (same acts).....	4,800.00	
Clerk (submitted).....	1,200.00	
NOTE.—This clerk is now regularly employed and carried on the per diem roll at \$4 in the office of the chief clerk.		
Clerk (submitted).....	1,200.00	
NOTE.—This clerk is assigned as secretary to one of the assistant engineer commissioners, and is now carried on the per diem roll at \$4 per diem. His duties also include all stenographic work for the superintendent of sewers.		
Two clerks, at \$1,000 each (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 970, sec. 1).....	2,000.00	
Clerk (submitted).....	1,000.00	
NOTE.—This man is now employed on the per diem roll at \$3.25 per diem, amounting to \$1,001 per annum. His services are continuous throughout the year and have been so for several years past. He is a typewriter and general clerk in the office of the engineer of highways and the circumstances of his employment are such that he should be placed on the permanent roll at the salary recommended.		
Clerk (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 970, sec. 1)...	900.00	
Clerk (submitted).....	900.00	
NOTE.—This man is now employed as copyist on the per diem roll at \$3 per day, and as his services are continuously required in a clerical capacity, it is recommended that he be appropriated for on the annual roll.		
Clerk (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 970, sec. 1)...	840.00	
Clerk (increase of \$90 submitted) (same acts).....	840.00	
NOTE.—The increase herein recommended is to place this clerk on a footing with other employees of the District performing work of a similar nature. His duties consist of general stenographic and typewriting work, keeping and filing records; in short doing all the clerical work of the office. He is a faithful and capable employee, and his seven years' service in this office has increased his efficiency and value. During this time he has had no increase in salary.

Clerk (same acts).....	600.00	
Messenger (same acts).....	600.00	
Four messengers, at \$600 per annum each (increase of \$60 each submitted) (same acts)...	2,400.00	
NOTE.—The duties of these men require that they have and they do have sufficient capacity to handle papers between offices and like work, and the circumstances of their services, bringing them into contact with the public and personnel of the office, necessitate a certain expense for their personal appearance not necessary in a day laborer, while their present pay is about \$1.72 per day, or less than the lowest rate paid a skilled laborer on outside work. The proposed increase would make their pay equal to about \$1.91 per day.

Six firemen, at \$875 each (same acts).....	5,250.00	
Inspector (same acts).....	1,400.00	
Storekeeper (same acts).....	900.00	
Superintendent of stables (increase of \$300 submitted) (same acts).....	1,800.00	
NOTE.—An increase of \$300 is asked in the compensation of the superintendent of stables. This official has charge of three stables of the engineer department, located on U Street NW., between Sixteenth and Seventeenth Streets; Canal Street SW., between First and Second Streets, and Second and B Streets SW.; he also has charge of the transportation of material by boat and rail between the District of Columbia and the workhouse at Occoquan. This additional duty was placed on him during the year and represents a considerable increase in his work. It is intended, during the next fiscal year, to further increase his duties by giving him general charge of all horses owned by the District of Columbia so that his duties will involve a general superintendence of all horse transportation including transportation by boat and rail between the District of Columbia and the workhouse at Occoquan. A salary of \$1,500 for this work is not more than just.

NOTE.—This is a merited promotion due to a painstaking and efficient employee, who has served in this position faithfully for 19 years, without an increase in salary during that time.		
Assistant inspector of gas and meters (increase of \$100 submitted) (same acts).....	1,000.00	
NOTE.—This small increase in salary is proposed as a promotion due an experienced and efficient employee, and in view of the laborious and responsible nature of his duties, which consist of assisting in testing meters, keeping the records, and other general office work.

Municipal architect's office:		
Municipal architect, whose duty hereafter it shall be to prepare or supervise the preparation of plans for, and superintend the construction of, all municipal buildings, and the repair and improvement of all buildings belonging to the District of Columbia, and serve under the direction of the engineer commissioner of the District of Columbia (acts Mar. 3, 1909, vol. 35, p. 692, sec. 1; Mar. 2, 1911, vol. 36, p. 971, sec. 1).....		\$3,600.00
Superintendent of construction (same acts).....		2,000.00
Chief draftsman (increase of \$100 submitted) (same acts).....		1,800.00
NOTE.—Last year recommendation was made for a raise of salary in this position. The man who fills this place is required to be an architect and a civil engineer, as he has charge of all the details in designing and construction of the District buildings, and much reliance must be placed on his ability to obtain buildings of pleasing appearance and of safe and economical construction. The thoroughness of his plans has avoided expensive extras so common in Government work, and the completeness of his specifications affords the closest possible figures in the competitive proposals, insuring the strictest competition, and resulting in a saving of many thousand dollars a year to the District. The present incumbent has been engaged in private practice in this city for over 20 years, and has designed some of the finest buildings in the District. As chief draftsman he should obtain a higher salary than his subordinates and it is believed it would be economy to retain a man of his ability in the District service.		
Draftsman (same acts).....		1,400.00
Heating, ventilating, and sanitary engineer (same acts).....		2,000.00
Draftsman (same acts).....		1,300.00
Superintendent of repairs (increase of \$200 submitted) (same acts).....		1,800.00
NOTE.—The superintendent of repairs has charge of the expenditure of the appropriation for the repair of school buildings, engine houses, police stations, police court buildings, and other municipal buildings. Repairs on nearly 300 buildings were made during the past year. The superintendent is obliged to visit these buildings constantly. There are times in the year when he employs between 250 and 300 men, some classes of whom receive a greater compensation for their work than that appropriated for his salary. The municipal architect reports that due to the systematic check on the work and diligent supervision, during the superintendency of the incumbent, embracing about 10 years, there has not been a single instance of loss to the District in service or materials.		
Assistant superintendent of repairs (increase of \$200 submitted) (same acts).....		1,400.00
NOTE.—The work under the superintendent of repairs has increased so rapidly within the last 10 years that it became necessary to afford an assistant with sufficient ability to look after the office work, especially the accounts, estimates, requisitions, vouchers, and all matters relating to the time, pay rolls, inventories and distribution of supplies and materials. This man is virtually a chief clerk and foreman of the repair division, and in the event of the absence of the superintendent must perform all his duties.		
Boss carpenter (same acts).....		1,200.00
Boss tinner (same acts).....		1,200.00
Boss painter (same acts).....		1,200.00
Boss plumber (same acts).....		1,200.00
Boss steam fitter (same acts).....		1,200.00
Boss grader (increase of \$200 submitted) (same acts).....		1,200.00
NOTE.—This position was filled with great difficulty on account of the low salary. There are now over 200 buildings in the District with extensive yards and grounds which need the attention not only of a grader but of a man of some experience as a gardener, in order that these grounds may be kept in a presentable condition. The grading and surfacing of the school playgrounds, which cover an area of 2,888,595 square feet, require not only constant but intelligent treatment to afford a play space which will be available at all times for the children. This position was vacant for nearly a year before a man could be found to meet the requirements at the salary provided.		
Boss bricklayer (submitted).....		1,200.00
Boss plasterer (submitted).....		1,200.00
NOTE.—At present foremen or bosses in the several branches of the trade are employed at the repair shop, but it has never had the services of a boss bricklayer or of a boss plasterer. These are 2 of the most important branches, and in order to obtain the best results the employment of a boss bricklayer and a boss plasterer is recommended, at the same rate paid the other mechanics now employed in the repair shop.		
Clerk (acts Mar. 3, 1909, vol. 35, p. 692, sec. 1; Mar. 2, 1911, vol. 36, p. 971, sec. 1).....		1,050.00
Clerk (increase of \$220 submitted) (same acts).....		840.00
NOTE.—The service rendered by this man demands a better salary, as the present rate is in a category with drivers, watchmen, and others devoid of responsibility. The duties in this case require a constant watch on the Government property, which is distributed to about 300 buildings. Perhaps the best title that could be applied to this position would be that of "stock clerk," for besides apportioning the materials required in repair work, this man must see that any surplus materials are returned to the shop and properly accounted for.

Copyist (acts Mar. 3, 1909, vol. 35, p. 692, sec. 1; Mar. 2, 1911, vol. 36, p. 971, sec. 1)	\$840.00
Driver (same acts)	540.00
Clerk (submitted)	1,200.00

NOTE.—At present the municipal architect's office is without the service of a clerk on the annual roll, and must therefore depend upon per diem service equitably apportioned to the appropriations for buildings and improvements. Besides the usual amount of correspondence and routine work, this office has the work of preparing about 40 specifications each year for the construction of new buildings and the alterations of the older ones. There is always great pressure brought to bear to complete these plans and specifications with as little delay as possible, consequently the man who fills this position must work overtime, and it does not seem reasonable to expect this of a per diem employee.

For runabout, or automobile, for the superintendent of construction, and for repair and maintenance of same (submitted)	1,500.00
---	----------

NOTE.—The duties of the municipal architect and the superintendent of construction require them to superintend the construction of all municipal buildings. There are at present 19 buildings under construction, and to give them proper supervision the municipal architect and the superintendent of construction must necessarily be afforded some means of transportation. At present the municipal architect has a light wagon and horse, and this will suffice for his purposes, as it is not necessary that he visit each building more than once or twice a week, but it is recommended that a driver be provided to care for this conveyance and to serve as a messenger when not employed in driving. The superintendent of construction, theoretically, should visit and inspect each building each day, for he is not only charged with the execution of the contracts according to the specifications but he must also keep a close check on the several inspectors employed on these buildings. His only means of transportation heretofore has been by the street cars, which frequently do not reach the buildings under construction, and by a horse and carriage divided between him and the assistant building inspector. This work is too great for a horse, and consequently more than half the time the horse is not in serviceable condition. For three days during the past summer the superintendent was afforded an automobile, and it was found that in order to reach all of the buildings in one day it required a covering of more than 40 miles. This shows that the service is too great for any horse, and it is therefore recommended that an automobile or runabout be provided for inspection purposes, with provision for repairs and maintenance.

For alterations and repair of the repair shop and storage yard by day labor or otherwise (submitted)	3,500.00
--	----------

NOTE.—The building occupied by the repair shop was formerly used as a pumping station, and while it affords fair accommodations, it can not be used to the best advantage for the reason that it is a clear story from ground to roof. The yard used in connection with the repair shop does not afford sufficient protection for the seasoned lumber and other materials that must be kept on hand for emergency repairs. The recommendation made last year that \$3,500 be appropriated to remodel the repair shop, in order that materials may be properly stored and cared for in a more orderly and systematic manner, and to construct storage sheds in the yard to protect the perishable materials from the weather, is renewed.

1 overseer.....	\$6.50	
2 copyists.....	3.00	
3 inspectors:	3.50	
2 at.....	4.50	
1 at.....	4.00	
Tuberculosis hospital, mortuary building.....	136.00	
1 overseer.....	6.50	
2 copyists.....	3.00	
2 draftsmen.....	3.50	
1 inspector.....	3.00	
	1.50	
	4.00	
(A few inspectors were employed for less than 30 days, and about \$1,200 of the allotment was transferred to the electrical engineer, property clerk, and repair shop and accounted for by them.)		
Special assessment office:		
Special assessment clerk (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 971, sec. 1).....	\$2,000.00	
Two clerks, at \$1,500 each (increase of \$300 each submitted) (same acts).....	3,000.00	
NOTE.—These two clerks have been engaged on work in the special assessment office requiring very careful attention and a thorough knowledge of a technical nature. The small increases proposed are considered a recognition of their ability and devotion.		
Five clerks, at \$1,200 each (same acts).....	6,000.00	
Two clerks, at \$900 each (same acts).....	1,800.00	
Clerk (same acts).....	750.00	
Street cleaning division:		\$13,550.00
NOTE.—It is recommended that the title of this appropriation be changed from "Street sweeping office" to "Street cleaning division."		
Superintendent (increase of \$500 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 971, sec. 1).....	3,000.00	
NOTE.—It is recommended that the salary of the superintendent be increased to conform to the salaries received by other heads of departments in the engineer department.		
Assistant superintendent and clerk (increase of \$200 submitted) (same acts).....	1,800.00	
NOTE.—Increase submitted, as the responsibility of the department is assumed by the assistant superintendent in the absence of the superintendent, which has largely increased not only on account of the growth of the city but on account of undertaking work which was formerly done by contract.		
Clerk (same acts).....	1,000.00	
Foreman (change of title submitted) (same acts).....	900.00	
NOTE.—This clerk is permanently acting as foreman and it is recommended that this title be changed as above. (See note A on following page.)		
Chief inspector (increase of \$100 submitted) (same acts).....	1,400.00	
NOTE.—Increase submitted, as in the reorganization which took place on July 1, 1911, he was given charge of and made responsible for all the street cleaning work in the eastern section of the city.		
Foreman (change of title) (same acts).....	1,300.00	
NOTE.—It is recommended that this title be changed to foreman. (See note A on following page.)		
Four inspectors, at \$1,200 each (same acts).....	4,800.00	
Four foremen, at \$1,200 each (change of title submitted) (same acts).....	4,800.00	
NOTE.—It is recommended that the title of four of the eight inspectors be retained as inspectors, as the duties consist of inspecting contract work, and that the title of the remaining four be changed to foremen. (See note A on following page.)		
Inspector (same acts).....	1,100.00	
Clerk (change of title) (same acts).....	1,100.00	
Eight foremen, at \$1,100 each (change of title) (same acts).....	8,800.00	
NOTE.—It is recommended that of the 10 inspectors, the title of one be retained as inspector, as the duties consist of inspecting contract work; the title of another be changed to clerk, as this inspector is permanently acting in this capacity; and that the title of the remaining 8 be changed to foremen. (See note A on following page.)		
		\$12,950.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
Salaries, Offices of the District of Columbia—Continued.		
Street cleaning division—Continued.		
Three assistant foremen, at \$900 each (change of title) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 971, sec. 1).....	\$2, 700. 00	
NOTE.—It is recommended that the title of the three positions above be changed as shown. (See note A below.)		
Two clerks, at \$720 each (change of title) (same acts).....	1, 440. 00	
Two assistant foremen, at \$720 each (change of title) (same acts).....	1, 440. 00	
NOTE.—It is recommended that the title of 2 of the 4 assistant inspectors be changed to clerks, as the duties are permanently of this character, and that the title of the remaining 2 be changed to assistant foremen. (See note A below.)		
Foreman (change of title) (same acts).....	1, 000. 00	
NOTE.—It is recommended that this title be changed to foreman. (See note A below.)		
Messenger and driver (same acts).....	600. 00	
Foreman of repairs (increase of \$100 submitted) (same acts).....	1, 300. 00	
NOTE.—When this department undertook to do certain work on July 1, 1911, which was formerly done by contract, the equipment was more than doubled, and it is the intention to make the foreman of repairs also a property clerk and responsible for all equipment.		
Chief clerk (same acts).....	1, 400. 00	
Clerk (same acts).....	1, 200. 00	
Stenographer and clerk (same acts).....	1, 000. 00	
	\$42, 080. 00	\$50, 120. 00
NOTE.—The positions of blacksmith, at \$900; mechanic, at \$780; blacksmith's helper, at \$720; 7 dumpmen, at \$540 each; 2 mechanic's helpers, at \$540 each; wheelwright, at \$900; and painter, at \$780 per annum, or a total of \$8,940, being employees on the annual roll, they are entitled to 30 days vacation, 30 days sick leave, and half holidays on Saturdays in the summer season, which does not conform to the requirements made of per diem employees with whom they work. In the accounting, the annual roll has always been charged to administration and not to the cost of operation, and the work of these men should be charged to operation. It is suggested that these positions be put on the per diem basis, and the appropriation for streets, District of Columbia, 1913, cleaning, etc., be increased by the sum of \$8,940 to pay for employees on a per diem basis, to take the place of the employees to be dropped on an annual basis.		
NOTE A.—When the positions above, where it is recommended to change the title from inspector to foreman, were created by acts of Congress, most of the work was being done by contract and inspectors were needed, but as these men are now acting in the capacity of foremen, and better selections could be made in the future if men who had had experience as foremen would apply for these positions, rather than men with experience as inspectors, the above change is thought advisable.		
Board of examiners of steam engineers:		
Three members of board of examiners of steam engineers, at \$300 each (act June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	900. 00	900. 00
Automobile board:		
Secretary, or acting secretary, of the automobile board (acts Mar. 3, 1909, vol. 35, p. 693, sec. 1; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	300. 00	300. 00
Insurance department:		
Superintendent of insurance (acts Mar. 3, 1901, vol. 31, p. 1289, sec. 645; June 30, 1902, vol. 32, p. 534, sec. 1; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	3, 500. 00	
Examiner (increase of \$300 submitted) (same acts).....	2, 000. 00	
Statistician (same acts).....	1, 700. 00	
Clerk (same acts).....	1, 200. 00	
Stenographer (same acts).....	720. 00	
Temporary clerk hire (same acts).....	1, 200. 00	
	10, 320. 00	10, 020. 00
Surveyor's office:		
Surveyor (acts Feb. 28, 1895, vol. 28, p. 689, secs. 1-8; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	3, 000. 00	
Assistant surveyor (increase of \$200 submitted) (same acts).....	2, 000. 00	
NOTE.—This small increase in the salary of the assistant surveyor is asked because it is thought the increased amount of work and responsibility justifies it. There are few assistants to the heads of departments who are not receiving higher salaries than the assistant surveyor. Additional responsibility has been added to this position on account of the consolidation of this office with the street-extension division, which is placed largely in the care of the assistant surveyor, which should entitle the position to the same salary as that of the engineer in charge of street extensions previous to the consolidation.		
Clerk (same acts).....	1, 225. 00	
Three assistant engineers, at \$1,500 each (same acts).....	4, 500. 00	
Computer (increase of \$100 submitted) (same acts).....	1, 300. 00	
Record clerk (same acts).....	1, 050. 00	
Inspector (same acts).....	1, 200. 00	
Draftsman (same acts).....	1, 225. 00	
Clerk (same acts).....	975. 00	
Draftsman (same acts).....	900. 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries, Offices of the District of Columbia—Continued.</i>		
Surveyor's office—Continued.		
Assistant computer (acts Feb. 28, 1895, vol. 28, p. 689, secs. 1-8; Mar. 2, 1911, vol. 36, p. 972, sec. 1)	\$900.00	
Two rodmen, at \$825 each (same acts).....	1,650.00	
Three chainmen, at \$700 each (same acts).....	2,100.00	
Two chainmen, at \$650 each (same acts).....	1,300.00	
Clerk (same acts).....	675.00	
Computer and transitman (same acts).....	1,200.00	
Rodman (same acts).....	825.00	
Draftsman (submitted).....	825.00	
NOTE.—On account of the increase in the amount of work in this office, which is 64.8 per cent over that of four years back (when the office force was practically the same as now), one additional draftsman is asked for. An increase in work always carries with it an increase in drafting work, as practically every order left for work requires the making of a plat, and the present force of draftsmen is not large enough to give the public the quick and adequate service that it demands and deserves.		
For services of temporary draftsmen, computers, laborers, additional field party when required, purchase of supplies, care or hire of teams, exchange and maintenance of motor vehicle; all expenditures hereunder to be made only on the written authority of the Commissioners of the District of Columbia (increase of \$1,000 submitted) (acts of Feb. 28, 1895, vol. 28, p. 689, secs. 1-8; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	6,000.00	
	\$32,850.00	\$30,725.00
NOTE.—Authority is asked to trade in the automobile at present in use for a new one, to cost not more than \$1,000. The old one has been in operation for three years, and it is considered an act of economy on the part of the District to trade it in as soon as practicable. Therefore an increase of \$1,000 is asked in the above appropriation to be used for this purpose.		
Free Public Library.		
Librarian (increase of \$500 submitted) (acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 2, 1911, vol. 36, p. 972, sec. 1)	4,000.00	
NOTE.—The trustees have for several years been recommending that the salary of the librarian be increased to \$4,000. This sum is required to make the salary commensurate with the services rendered and to put it on a par with the salaries paid to the chief librarians of other municipal libraries of equal rank.		
Assistant librarian (increase of \$100 submitted) (same acts).....	1,600.00	
NOTE.—By reason of the inadequacy of the present salary, twice within two years recently the library has lost its assistant librarians. Such frequent changes should be avoided.		
Chief, circulation department (increase of \$200 submitted) (same acts).....	1,400.00	
NOTE.—The duties and responsibilities of this position, involving the supervision of the new branch and of stations, as well as the large circulation from the main library, call for better compensation for this officer.		
Children's librarian (same acts).....	1,000.00	
Librarian's secretary (same acts).....	900.00	
Reference librarian (same acts).....	1,000.00	
Chief, order and accessions division (submitted).....	1,000.00	
NOTE.—The volume and complexity of the book order work require an adequately paid chief having business ability and knowledge of books, their prices, etc.		
Chief, industrial division (submitted).....	1,000.00	
NOTE.—The success of this division during four years and the importance of the service justify and require a well-educated and trained chief.		
Assistant in charge of work for the blind (acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	1,200.00	
Assistant (same acts).....	1,000.00	
Five assistants, at \$720 each (same acts).....	3,600.00	
Four assistants, at \$600 each (same acts).....	2,400.00	
Three assistants, at \$540 each (same acts).....	1,620.00	
Copyist.....	480.00	
Chief, catalogue division (submitted).....	1,000.00	
NOTE.—The volume and grade of work that is being done require an officer of high technical skill and good administrative ability to cope with it. At least 15 cataloguers holding subordinate positions in local libraries receive as much as, or more than, the estimated salary.		
Classifier (change of title) (acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	900.00	
NOTE.—With better division of labor in the catalogue division the work of classification of accessions will devolve on this officer and the suggested title would be more descriptive of duties.		
Cataloguer (same acts).....	720.00	
Cataloguer (same acts).....	600.00	
Two cataloguers, at \$540 each (same acts).....	1,080.00	
Stenographer and typewriter (same acts).....	720.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Salaries, Offices of the District of Columbia—Continued.</i>		
Free Public Library—Continued.		
Two assistants, at \$480 each (acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 2, 1911, vol. 36, p. 972, sec. 1).....	\$960.00	
Six attendants, at \$540 each (same acts).....	3,240.00	
Five attendants, at \$480 each (same acts).....	2,400.00	
Collator (same acts).....	480.00	
Two messengers, at \$480 each (same acts).....	960.00	
Ten pages, at \$360 each (same acts).....	3,600.00	
Two janitors, at \$480 each (same acts).....	960.00	
Engineer (same acts).....	1,080.00	
Fireman (same acts).....	720.00	
Workman (same acts).....	600.00	
Library guard (same acts).....	720.00	
Two cloakroom attendants, at \$360 each (same acts).....	720.00	
Six charwomen, at \$180 each (same acts).....	1,080.00	
For the employment of substitutes and other special and temporary service, including the conducting of stations in public-school buildings, playgrounds, and social settlements, at the discretion of the librarian (same acts).....	1,000.00	
For keeping the library open 52 Sundays, 2 to 9 p. m.; 5 holidays, 9 a. m. to 9 p. m.; and for extra services 3 hours on Saturday afternoons in July, August, and September (same acts).....	1,700.00	
	\$47,440.00	\$43,640.00
Total salaries, Offices of the District of Columbia.....	734,841.00	706,047.00
<i>Contingent and Miscellaneous Expenses, District of Columbia—</i>		
Miscellaneous, Free Public Library:		
For purchase of books (act Mar. 2, 1911, vol. 36, p. 973, sec. 1).....	7,500.00	
For binding (same acts).....	3,500.00	
Hereafter the Commissioners of the District of Columbia are authorized to enter into contract or contracts for binding books for the Public Library for periods not exceeding three years, subject to annual appropriations of Congress, under such conditions and specifications as they may prescribe (submitted).		
NOTE.—It is believed that more favorable contracts can be secured by assuring continuous work to a contractor for a longer period than one year.		
For fuel, lighting, fitting up building, including lunch-room equipment, purchase and maintenance of motor cycles, and other contingent expenses (act Mar. 2, 1911, vol. 36, p. 973, sec. 1).....	8,000.00	
NOTE.—As the library's one motor cycle has been in use more than two years, it is frequently out of commission for repairs. The work of delivering books to the public schools, stations, etc., has grown to such proportions that at least two motor cycles are needed.		
Total.....	\$19,000.00	
Takoma Park Branch Library:		
For maintenance, employment of branch librarian and assistants, substitutes, and other special and temporary services, extra services for Sundays and holidays, purchase of books, periodicals, binding, fuel, and other contingent expenses, the rates of compensation of all employees to be determined by the board of library trustees (increase of \$1,500 submitted) (act Mar. 4, 1911, vol. 36, p. 1296, sec. 1).....	4,000.00	
NOTE.—This appropriation was carried in the deficiency bill. It is sufficient only to open the branch for 7½ months. The terms of the Carnegie gift require a minimum annual maintenance of 10 per cent of the cost of the building, \$40,000. Even the estimated sum will probably not be sufficient to keep the branch open full hours. Better results can be secured by not subdividing the appropriation for maintenance. The following items are mentioned by way of illustration: Branch librarian, \$1,000; assistant, \$600; assistant, \$480; janitor, \$360; books, periodicals, and binding, \$1,000; fuel, lighting, and other contingent expenses, \$560.		
For contingent expenses of the government of the District of Columbia, namely: For printing, checks, books, law books, books of reference and periodicals, stationery; detection of frauds on the revenue; surveying instruments and implements; drawing materials; binding, rebinding, repairing, and preservation of records; maintaining and keeping in good order the laboratory and apparatus in the office of the inspector of asphalt and cement; damages; livery, purchase, and care of horses and carriages or buggies not otherwise provided for; horseshoeing; ice; repairs to pound and vehicles; use of bicycles by inspectors in the engineer department, not to exceed \$800; and other general necessary expenses of District offices, including the sinking-fund office, Board of Charities, excise board, personal-tax board, harbor master, health department, surveyor's office, superintendent of weights, measures, and markets office, and department of insurance, and purchase of new apparatus and laboratory equipment in office of inspector of asphalt and cement (act Mar. 2, 1911, vol. 36, p. 973, sec. 1).....	37,000.00	
And the commissioners shall so apportion this sum as to prevent a deficiency therein: <i>Provided</i> , That horses and vehicles appropriated for in this act shall not be used by the commissioners for any other purpose than to visit such points within the District of Columbia as it may be necessary to visit in order to enable them to inspect or inform themselves concerning any public work or property belonging to the said District or to do any other act necessary to the administration of its affairs.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Contingent and Miscellaneous Expenses, District of Columbia—Continued.</i>		
No part of the money appropriated by this act, except appropriations for the militia, shall be used for the purchase, livery, or maintenance of horses, or for the purchase, maintenance, or repair of buggies or carriages and harness, except as provided for in the appropriation for contingent and miscellaneous expenses, or unless the appropriation from which the same is proposed to be paid shall specifically authorize such purchase, livery, maintenance, and repair, and except also as hereinafter authorized.		
No part of the money appropriated by this act shall be used for the payment of premiums or other cost of fire insurance.		
NOTE.—The appropriation for \$5,000 for contingent expenses of stables of the engineer department has been omitted from the estimates and the wording of section 3 of the bill changed so that expenditures heretofore made under that item will be prorated among the various construction appropriations. The amount heretofore appropriated under this head has been used in the purchase and maintenance of horses for the engineer commissioner and his assistants and horses used by the heads of the engineer department in supervision of construction work under general appropriations.		
It is believed that the cost of this supervision should be prorated among the various construction appropriations and that all horses, harness, and vehicles, including forage and maintenance and all stable supplies in connection therewith, should be prorated among the various items of engineer work on which said supervision of the engineer commissioner, his assistants, and the heads of the various divisions of the engineer department is necessary.		
For postage for strictly official mail matter (increase of \$1,000 submitted) (act Mar. 2, 1911, vol. 36, p. 973, sec. 1).....	\$11,000.00	
NOTE.—Amount expended during fiscal year 1911, \$9,999.99.		
For necessary expenses, including services of collectors or bailiffs, in the collection of overdue personal taxes by distraint and sale and otherwise, and for other necessary items (same act)...	4,000.00	
For judicial expenses, including procurement of chains of title, the printing of briefs in the Court of Appeals of the District of Columbia, witness fees and expert services in District cases before the Supreme Court of said District (decrease of \$1,000) (same act).....	4,000.00	
For purchase and maintenance, hire or livery, of means of transportation for the coroner's office and the morgue, jurors' fees, witness fees, removal of deceased persons, making autopsies, ice, disinfectants, telephone service, and other necessary supplies for the morgue, and the necessary expenses of holding inquests, including stenographic services in taking testimony, and photographing unidentified bodies (same act).....	4,800.00	
Provided, That the coroner shall not summon or hold any jury of inquest over the body of any deceased person where it is known that the deceased came to his death by suicide, accident, mischance, or natural causes; provided, that in cases where it is not known that the deceased came to his death by suicide the coroner may, in his discretion, summon such jury.		
For general advertising, authorized and required by law, and for tax and school notices and notices of changes in regulations (same act).....	4,700.00	
For advertising notice of taxes in arrears July 1, 1911, as required to be given by act of Mar. 19, 1890 (increase of \$700 submitted), to be reimbursed by a charge of 50 cents for each lot or piece of property advertised (same act).....	2,500.00	
NOTE.—Amount expended during fiscal year 1911, \$2,350; \$550 of this amount was deficiency appropriation.		
For the enforcement of the game and fish laws of the District of Columbia, to be expended under the direction of the commissioners (decrease of \$200) (same act).....	300.00	
That not exceeding \$2,000 of the unexpended balances of the appropriations provided in the District appropriation acts for the fiscal years 1908, 1909, 1910, 1911, and 1912, "for carrying out the provisions of the act approved Mar. 1, 1891, entitled 'An act to authorize the Commissioners of the District of Columbia to remove dangerous or unsafe buildings and parts thereof, and for other purposes,' to pay the members of the board of survey provided for therein, other than the inspector of buildings, at a compensation of not to exceed \$10 for each survey, and to pay the cost of making safe or removing such buildings upon the refusal or neglect of the owners so to do," are hereby reappropriated and made available during the fiscal year 1913 (acts Mar. 1, 1899, vol. 30, p. 923, secs. 1-4; Mar. 2, 1911, vol. 36, p. 974, sec. 1).		
For the erection of suitable tablets to mark historical places in the District of Columbia, to be expended under the direction of the Joint Committee on the Library (act Mar. 2, 1911, vol. 36, pp. 974, 975, sec. 1).....	500.00	
And the unexpended balances of the appropriations made for this purpose by the acts of June 27, 1906, and subsequent District of Columbia appropriation acts, are continued available for the service of the fiscal year 1913.		
For the office of the register of wills: For furnishing to the office of the assessor copies of wills, petitions, and all necessary papers wherein title to real estate is involved (same act).....	900.00	
For the purchase of enamel metal or leather identification number tags for motor vehicles in the District of Columbia (increase of \$250 submitted), or so much thereof as may be necessary, to be immediately available (same act).....	750.00	
NOTE.—The regulations prohibit the transfer of the identification number tags from one vehicle to another, and as motor vehicles become old they change much more in ownership, which will require a larger appropriation than heretofore. This amount should be appropriated for tags and other supplies that may be necessary in carrying out the regulations. The receipts from tags for the year were \$5,314; for permits, \$4,460; total, \$9,774.		
The appropriation of \$10,000, appropriated for the fiscal year 1910 for repair of buildings owned and used by the District of Columbia when injured by fire, is hereby reappropriated and continued available for the fiscal year 1913 (same act).		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Contingent and Miscellaneous Expenses, District of Columbia—Continued.</i>		
For testing materials for fireproof buildings, including necessary labor and implements, <i>traveling and other expenses</i> , under "An act to regulate the height of buildings in the District of Columbia," approved Mar. 1, 1899 (act Mar. 2, 1911, vol. 36, pp. 974, 975, sec. 1).....	\$100.00	
NOTE.—The expense incident to such tests is often so much greater than the amount appropriated that it is sometimes impracticable to attempt any test that would result in benefit. There are being made, however, at frequent intervals, quite thorough and exhaustive tests of fireproof materials for buildings under the supervision of the National Board of Fire Underwriters, well-established business concerns, and scientific bodies, and it would be of decided advantage to the building division if its representative would be present and note the results of some of these tests.		
For making surveys to obtain accurate data with reference to old subdivisions in the District of Columbia (same act).....	2,500.00	
NOTE.—The present appropriation is not sufficient to complete this work, as there are a great number of subdivisions throughout the District where no data exists from which to make a survey. Whenever an order is made for a survey in any of these old subdivisions, much time is consumed, thereby delaying the work of the surveyor's office, and according to the regulations a sufficient charge can not be made to cover the cost of the work. This work is of extreme importance to the surveyor's office.		
For maintenance and repairs to the District of Columbia markets (decrease of \$3,500) (same act).....	3,500.00	
NOTE.—These expenses include the following items, as per estimate: Unfinished and emergency repairs, \$1,200; lighting, \$1,200; hauling market sweepings and sweepings from the streets adjacent to the Eastern, Western, and Georgetown Markets, \$850. Supplies: Books for market rent hills and other necessary printing, brooms, window brushes and cleaning supplies, lime, flags, etc., \$250. Previous to July 1, 1911, this hauling was done by the chain gang, but because of the removal of all prisoners to Occoquan on said date it was found necessary to make other arrangements. A contract for hauling at said markets was entered into for the fiscal year 1912. This work to cost \$69 per month, reducing the amount intended to be used for improvements and repairs \$828 for the year.	\$99,550.00	\$181,500.00
The Commissioners of the District of Columbia are hereby authorized and empowered hereafter, when in their discretion it shall be deemed to the advantage of the public service, to exchange typewriters, adding machines, pianos, machinery, and other equipment, in part or full payment for new articles of similar or improved character, credit for the value of said personal property so exchanged to be allowed on vouchers in payment for such new articles as may be purchased, the balance remaining due after said credit to be paid out of the appropriation to which said purchase is properly chargeable (act May 18, 1910, vol. 36, p. 382, sec. 1).		
NOTE.—The commissioners have thus far found that the authority granted by the District of Columbia appropriation act of May 18, 1910 (36 Stat., 382), and above recommended with the addition of the words "machinery and other equipment," has enabled the District to save considerable money in the exchange of typewriters, and obtain fully 100 per cent more for the same in this manner than when they were disposed of by auction. It is thought that it would be to the District's interest to include platinum ware used in chemical laboratories, motor cycles, and also machinery or equipment of standard manufacture which is improved from time to time or superseded by later models. In explanation of this recommendation it should be stated it is the universal custom, commercially, when platinum ware used in chemical laboratories becomes worn out that it be returned to the manufacturer, who makes an allowance per gram to apply on a new purchase. It might also be added in connection with the above recommendations that this method of disposing of worn-out machinery or equipment in no way precludes competition; as stated above, it only enables the District to obtain a greater consideration for the article to be disposed of than it would obtain should the same be condemned and sold at public auction.		
<i>Improvements and Repairs—</i>		
Assessment and permit work:		
Assessment and permit work (decrease of \$100,000) (acts June 11, 1878, vol. 20, p. 104, sec. 3; Aug. 7, 1894, vol. 28, p. 247, sec. 1; Mar. 2, 1911, vol. 36, p. 975, sec. 1).....	240,000.00	
NOTE.—This estimate is for surface work. An estimate is also made under the estimates for sewers for assessment and permit work (\$150,000) specifically for sewer work.		
The necessity for curb and sidewalk construction and alley pavement coming under this appropriation has, as is well known, greatly increased in recent years, due to the large and scattered development and the necessity for sewer construction, which has formerly been cared for from this appropriation, has so vastly increased as to render it advisable to ask for a separate appropriation for the latter work. There are numerous dilapidated alley pavements throughout this city that should be speedily replaced, as well as many old brick sidewalks to which the same remarks apply; moreover, it is most desirable that suburban development should be promptly followed by sidewalk construction, since it is easily several years before roadway improvements in the outlying sections can be undertaken. The increased appropriations for resurfacing work involves an incidental increased need for new curbs, which is chargeable to this fund under law. For the above reason the amount herein asked for can be most advantageously expended during the coming fiscal year.		
In the last appropriation act a lump sum of \$340,000 was made for assessment and permit work, including both surface and sewer work. If separate appropriations are not made for surface work, and for sewer work, the total appropriation under this head should be \$390,000, including \$240,000 for surface work and \$150,000 for sewer work.		
For paving roadways under the permit system (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 975, sec. 1).....	10,000.00	
Work on streets and avenues:		
For work on streets and avenues, named in Appendix M, Book of Estimates, 1913, to be expended in the discretion of the commissioners upon streets and avenues specified in the schedules named in said appendix and in the aggregate for each schedule, as stated herein, namely: Georgetown schedule, \$3,000; northwest section schedule, \$12,500; southwest section schedule, \$11,900; southeast section schedule, \$49,600; northeast section schedule, \$23,000 (increase of \$20,500 submitted) (same acts).....	100,000.00	
Provided, That streets and avenues named in said schedule already paved with Belgian block or granite block shall not be paved or otherwise improved under this appropriation, and the remaining streets and avenues, except as herein specified, shall be contracted for in the order in which they appear in said schedule, and be completed in such order as nearly as practicable, and shall be paved, in the discretion of the commissioners, instead of being graded and regulated.

<i>Improvements and Repairs—Continued.</i>		
Work on streets and avenues—Continued.		
Under appropriations contained in this act no contract shall be made for making or relaying asphalt pavement at a higher price than \$1.80 per square yard for a quality equal to the best laid in the District of Columbia prior to July 1, 1886, and with same depth of base, nor more than \$1.80 per square yard for laying standard asphalt block pavement equal to the best laid in the District of Columbia prior to July 1, 1904: <i>Provided</i> , That these conditions as to price and depth of base shall not apply to those streets on which, in the judgment of the commissioners, by reason of heavy traffic, poor foundation, or other causes, a pavement of more than ordinary strength is required, in which case the limit of price may be increased to \$2 per square yard.		
For constructing a suitable viaduct and bridge to carry Benning Road over the tracks of the Philadelphia, Baltimore & Washington R. R. Co. and of the Baltimore & Ohio R. R. Co., all in accordance with plans approved by the Commissioners of the District of Columbia (submitted)	\$110,000.00	
And authority is hereby given to purchase or condemn, in accordance with existing law, any land necessary to widen said Benning Road so as to permit the construction of said viaduct and bridge in accordance with the approved plans, as above, the cost of said purchase or condemnation to be paid out of this appropriation, and the said commissioners are hereby authorized to make the necessary expenditures for the construction of said viaduct and bridge and approaches under the like conditions prescribed for the expenditure of the appropriation for a subway and bridge at Cedar Street contained in the act of May 18, 1910, making appropriation for the expenses of the District of Columbia for the fiscal year 1911: <i>Provided</i> , That the cost of constructing said viaduct and bridge within the limits of the rights of way of the said Philadelphia, Baltimore & Washington R. R. Co., and the Baltimore & Ohio R. R. Co., shall be borne and paid half by said railroad companies in proportion to the widths of their respective rights of way and half by the United States and the District of Columbia as provided in section 10 of an act, entitled "An act to provide for a union railroad station in the District of Columbia, and for other purposes," approved Feb. 28, 1903, and said sums shall be paid by said companies to the Treasurer of the United States, one-half to the credit of the District of Columbia, and the other half to the credit of the United States, and the same shall be valid and subsisting liens against the franchises and property of said Philadelphia, Baltimore & Washington R. R. Co., and the Baltimore & Ohio R. R. Co. respectively, and shall be a legal indebtedness of said companies in favor of the District of Columbia, jointly for its use and the use of the United States as aforesaid, and the said lien or liens may be enforced in the name of the District of Columbia by bill in equity brought by the commissioners of said District in the supreme court of said District, or by any other lawful proceedings against the said Philadelphia, Baltimore & Washington R. R. Co., or said Baltimore & Ohio R. R. Co., or both. And any relocation in the line or change in the grade of the tracks of the Washington Railway & Electric Co. necessary to permit the completion in accordance with approved plans of the viaduct and bridge and approaches herein provided for shall be made by and at the cost of said railway company, and in the event of said railway company failing or refusing to do such work the same shall be done by the Commissioners of the District of Columbia, the cost to be paid from the appropriation for said bridge and viaduct and collected from said street railway company in the manner provided for in section 5 of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878, and paid into the Treasury, one-half to the credit of the United States and one-half to the credit of the District of Columbia.		
NOTE.—This estimate is intended to provide for the elimination of a dangerous grade crossing at Benning. It is submitted in continuance of the policy of gradually removing all grade crossings in the District. It is provided that one-half of the cost of work within the railroad right of way shall be paid for by the railroad company.		
Grading streets, alleys, and roads:		
For labor and for the purchase and repair of cars, carts, tools, or the hire of the same, and horses, and the inmates of the Washington Asylum and Jail may be used in connection with this work (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 976, sec. 1).....	15,000.00	
Condemnation of streets, roads, and alleys:		
For purchase or condemnation of streets, roads, and alleys (same acts).....	1,000.00	
Construction of county roads:		
For construction of county roads and suburban streets, as follows: To be disbursed and accounted for as "Construction of county roads and suburban streets," and for that purpose it shall constitute one fund, of which \$25,000 is made immediately available (increase of \$51,400 submitted) (same acts).....	160,000.00	
NOTE.—Past appropriations for this work have not been in proportion to the suburban development and there are many built-up suburban streets and roads which it has not been possible to improve.

Repairs streets, avenues, and alleys:

For current work of repairs of streets, avenues, and alleys, including resurfacing and repairs to asphalt pavements with the same or other not inferior material, and maintenance of motor vehicle for use of engineer commissioner and his assistants, of which sum \$100,000 shall be immediately available (decrease of \$35,000) (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 977, sec. 1)..... \$390,000.00

And this appropriation shall be available for repairing the pavements of the street railways when necessary. The amounts thus expended shall be collected from such railroad company as provided by section 5 of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which they are collected.

And the authority given the Commissioners of the District of Columbia in the act making appropriations for the expenses of the District of Columbia, approved Mar. 2, 1907, to make such changes in the lines of the curb of Pennsylvania Avenue and its intersecting streets in connection with their resurfacing as they may consider necessary and advisable is hereby made applicable to such other streets and avenues as may be improved hereafter under appropriations.

<i>Improvements and Repairs—Continued.</i>		
For municipal asphalt plant:		
The Commissioners of the District of Columbia are hereby authorized, in their discretion, to use such portion of public space lying south of Water Street and east of Fourteenth Street SW. as may, in their judgment, be necessary for the site of a municipal asphalt plant and the storage yards and other necessary accessories therefor. And they are further authorized to establish, construct, or purchase, maintain, and operate, on the site above described, a municipal asphalt plant with the necessary accessory structures, materials, means of transportation, horses, wagons, harness, road rollers, tools and machinery, and railroad sidings; all or any part of the above work to be executed by day labor or contract, as in the judgment of the commissioners may be deemed most advantageous to the District, and the cost of the same and of any necessary incidental or contingent expenses in connection with any of the acts hereinbefore authorized shall be paid for and equitably charged, as said commissioners may determine, to the appropriations for repairs to streets, avenues, and alleys, and for paving, made under this act: <i>Provided</i> , That the total expenditure under the above authorization shall not exceed the sum of \$80,000 (submitted).		
NOTE.—This estimate is based on the following:		
Cost of plant erected..... \$32,000 Office building and storage sheds..... 2,000 Conveyor for unloading sand and stone..... 3,000 Sand and stone bins..... 1,500 Preparation of site, including strengthening of present bulkhead and foundation..... 8,500 12 wagons..... 1,600 Stable..... 7,000 10 carts..... 600 38 horses..... 8,800 Railroad siding..... 2,000 3 concrete mixers and necessary tools and equipment for handling concrete base..... 6,000 3 steam rollers and necessary tools and equipment for laying top and binder..... 7,000		
For replacing and repairing sidewalks and curbs around public reservations and municipal buildings (increase of \$2,000 submitted) (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 978, sec. 1).....	\$12,000.00	
For new sidewalks and curbs around Patent Office (submitted).....	1,500.00	
For replacing sidewalks and curbs around old post-office building, Seventh and Eighth, E and F Streets NW. (submitted).....	2,500.00	
NOTE.—The above two estimates provide for the much-needed improvement of sidewalk conditions abutting Government property where the walks are notably inferior to those abutting private property in the neighborhood, in one of the cases at least has been the place of an accident due to the walk's condition, and resulting in a claim for damages against the District.		
These items can only be laid if specifically provided for, since no other fund is applicable (the sites not being public reservations).		
Repairs to county roads:		
For current work of repairs to county roads and suburban streets, including the maintenance of motor vehicles, motor cycles and trucks, and the commissioners are authorized to purchase from this appropriation one motor vehicle at a cost not to exceed \$1,600, to purchase or hire not to exceed four motor cycles for the use of foremen or inspectors, and to purchase one portable mixing plant for use in road construction at a cost not to exceed \$3,500 (increase of \$20,000 submitted) (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 978, sec. 1).....	160,000.00	
NOTE.—Macadam roads and streets require a certain amount of maintenance and repairs each year, and as the mileage of improved streets and roads increases annually an increasing appropriation is necessary for their proper maintenance. A considerable portion of this amount will be necessary for oiling, which is essential for the preservation of macadam roads subjected to automobile traffic.		
The county road foremen in the outlying sections of the District are in charge of scattered work covering a large area, and for the proper supervision of the work of the different gangs it is essential that they have some means of transportation. At present they have horse transportation, and are allowed the sum of \$30 per month for this transportation, payable from the appropriation, making the cost for each foreman from \$330 to \$360 per year. At \$225 for the purchase of a motor cycle and \$75 per year for maintenance, a saving of \$30 to \$60 per year for each foreman will be effected, and the efficiency of their supervision will be increased by reason of their ability to cover the territory under their charge more rapidly.		
The motor vehicle now on hand, purchased three years ago at a cost of \$1,000, will not be in good serviceable condition by the time this appropriation becomes available. It is desired to replace it with a new one, using the old one as a reserve.		
A portable mixing plant is essential for efficient work in the improved methods of road building with the use of a bituminous binder.		
Bridges:		
For construction and repair of bridges (increase of \$1,000 submitted) (same acts).....	17,000.00	
NOTE.—This increase of \$1,000 represents the increased cost of reflooring bridges due to increased travel, decrease in quality, and increase in the price of lumber.		
Highway Bridge across Potomac River:		
Two draw operators, at \$1,020 each (same acts).....	2,040.00	
Draw operator (same acts).....	720.00	
Four watchmen, at \$720 each (increase of \$120 each submitted) (same acts).....	2,880.00	
Labor (same acts).....	1,500.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

Total amount to be appropriated under each head of appropriation. Amount appropriated for the fiscal year ending June 30, 1912.

*Improvements and Repairs—Continued.**Highway Bridge across Potomac River—Continued.*

Lighting, power, and miscellaneous supplies, and expenses of every kind necessarily incident to the operation and maintenance of the bridge and approaches (acts June 11, 1878, vol 20, p. 104, sec. 3; Mar: 2, 1911, vol. 36, p. 978, sec. 1)..... \$9,340.00

NOTE BY CHIEF OF ENGINEERS, U. S. ARMY.—The details of the above estimates, as required by the District of Columbia appropriation act approved June 27, 1906, are as follows:

Salaries:

2 draw operators, at \$1,020 each.....	\$2,040
1 draw operator.....	720
4 watchmen, at \$720 each.....	2,880
Labor for cleaning roadways, etc.....	1,500
Total for regular salaries.....	7,140
Current for operating 6,000 openings, at 9 cents each.....	540
Lighting 48 arc lights, at \$85 per annum each.....	4,080
Lighting 20 gas burners, at \$20.85 per annum each.....	417
Telephone service.....	63
Fuel for heating operating house.....	65
Miscellaneous supplies (grease, oil, waste, etc.).....	375
Painting and repairs.....	3,300
Contingencies (additional labor, etc.).....	500
Total.....	16,480

NOTE.—An increase is recommended in the salary of the 4 watchmen employed at the Highway Bridge from \$600 to \$720 a year. These watchmen have arduous duties of a police nature to perform and should be paid the same amount as the park watchmen, who have similar duties. Great difficulty is being found in securing capable and able-bodied men to fill the position at the present rate of pay.

Operation of the Anacostia River Bridge:

For salaries of employees, miscellaneous supplies, and expenses of every kind necessary to the operation and maintenance of the bridge (same acts)..... 5,600.00

Toward constructing a bridge across Rock Creek on the line of Q Street, including the approaches thereto; and the Commissioners of the District of Columbia are authorized to enter into a contract or contracts for the construction of said bridge and its approaches at a total cost not to exceed \$275,000, to be paid for from time to time as appropriations therefor may be made by law (increase of \$75,000 submitted) (same acts)..... 175,000.00

For the construction of a bridge across Rock Creek on the lines of Pennsylvania Avenue in accordance with plans approved by the Commissioners of the District of Columbia, and the said commissioners are hereby authorized to enter into a contract or contracts for said work at a total cost not to exceed \$175,000, of which so much thereof as may be necessary is authorized to be used for carrying suitable water mains across Rock Creek to replace those now carried over said creek, to be immediately available (submitted)..... 65,000.00

And the Capital Traction Co. is hereby authorized and required, within 90 days after said bridge shall be ready for the reception thereof, to remove its tracks from Twenty-sixth Street NW. between Pennsylvania Avenue and M Street and from M Street NW. between Twenty-sixth and Twenty-ninth Streets and relocate the same in Pennsylvania Avenue and across the bridge herein provided for to a junction with their present tracks at Twenty-ninth Street and Pennsylvania Avenue NW. and to repave the said street space and the space on the M Street Bridge over Rock Creek, from which said tracks are removed, all in accordance with plans to be approved by the Commissioners of the District of Columbia and to their satisfaction; and the same law now governing the paving and repairing of street pavements between rails and for a distance of 2 feet exterior thereto shall govern on the bridge herein provided for.

And the Capital Traction Co. shall, after the completion of said bridge, pay into the Treasury of the United States, one-half to the credit of the District of Columbia and one-half to the credit of the United States, a portion of the total cost of said bridge and all incidental work thereto equal to 10 per cent thereof, and the same shall be a valid and subsisting lien against the franchises and property of the said Capital Traction Co. and shall be a legal indebtedness of said company in favor of the District of Columbia, jointly for its use and the use of the United States, as aforesaid, and the said lien may be enforced in the name of the District of Columbia by bill of equity brought by the Commissioners of the said District of Columbia in the Supreme Court of said District or by any other lawful proceedings against the said Capital Traction Co.; and the Commissioners of the District of Columbia are hereby further authorized and directed, under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia, to institute in the Supreme Court of the District of Columbia a proceeding in rem to condemn the land necessary to open Pennsylvania Avenue NW. between Twenty-sixth and Twenty-eighth Streets to sufficient width for the construction of this bridge, the cost of said condemnation to be paid out of this appropriation: *Provided, however,* That the entire amount found to be due and awarded by the jury in said proceedings as damages for and in respect of the land to be condemned for said opening, plus the costs and expenses of said proceedings, shall be assessed by the jury as benefits.

The amounts assessed as benefits when collected shall be covered into the Treasury of the United States to the credit of the revenues of the District of Columbia and the United States in equal parts.

And the Chief of Engineers, U. S. Army, is hereby authorized and directed to transfer to the Commissioners of the District of Columbia the land under his jurisdiction in square No. 1194, which is necessary, in the judgment of the said commissioners, for the construction of the aforesaid bridge and approaches.

Amount appropriated for the fiscal year ending June 30, 1912.

Improvements and Repairs—Continued.

For the necessary examinations, including personal services, to determine the useful life of the present bridge across Rock Creek on the line of Calvert Street NW., \$5,000; and the Commissioners of the District of Columbia are hereby authorized, in their discretion, to obtain, by competition or otherwise, plans for a bridge to replace the present structure on the line of Calvert Street and to make necessary surveys, preliminary plans, and estimates for the new structure, and this appropriation shall be available for the several purposes named and for all necessary incidental expenses (submitted).....

\$5,000.00

\$1,486,080.00

\$1,379,750.00

NOTE.—The present bridge is inadequate to meet the increasing requirements of traffic and will have to be replaced in a reasonably short time. An examination should be made to determine the useful life of the present structure, and if it appears that the present bridge should be replaced in the near future it is desired to begin at once the necessary preliminary surveys, plans, and studies for a new structure.

Sewers—

For cleaning and repairing sewers and basins (acts June 11, 1878, vol. 20, p. 103, sec. 3; Mar. 2, 1911, vol. 36, p. 979, sec. 1).....

65,000.00

And the commissioners are authorized to purchase from the appropriation for cleaning and repairing sewers and basins, 2 motor trucks, at a cost not to exceed \$1,980 each (submitted).

NOTE.—One on emergency repair service, one on inspection of gates and regulators, etc., covering 70 square miles of area.

1. Cleaning pipe sewers.....	\$5,000	
Flushing pipe sewers.....	1,500	\$6,500
2. Cleaning trunk sewers.....		4,200
3. Cleaning catch basins and the removal of wastes:		
A. Street and alley basins.....	19,000	
B. Gravel basins and sumps.....	3,000	
C. Sewage disposal system basins.....	3,500	25,500
4. Repairs to pipe sewers.....		7,000
5. Repairs to trunk sewers.....		17,500
6. Catch basin repairs.....		4,300

For operation and maintenance of the sewerage pumping service, including repairs to boilers, machinery, and pumping stations, and the employment of mechanics, laborers, and watchmen, the purchase of coal, oils, and waste and other supplies, and the maintenance of motor trucks (acts June 11, 1878, vol. 20, p. 103, sec. 3; Mar. 2, 1911, vol. 36, p. 979, sec. 1).....

44,500.00

NOTE.—

1. Coal.....	\$17,344
2. Oils, waste, etc.....	3,500
3. General supplies and repairs.....	4,500
4. Machinists as required.....	3,100
5. Machinists' helpers as required.....	1,252
6. Cleaner and helper, boiler room.....	938
7. Cleaners, engine room.....	1,565
8. Painter as required.....	1,095
9. Laborers as required.....	2,504
10. Electrician as required.....	1,408
11. Electrician's helper as required.....	782
12. Carpenter as required.....	1,252
13. Blacksmith as required.....	626
14. Blacksmith's helper as required.....	313
15. Screenmen.....	4,321

For main and pipe sewers and receiving basins (increase of \$2,000 submitted) (same acts)....

67,000.00

NOTE.—

1. Relieving sewers and service sewer mains.....	\$58,000
2. Receiving basins.....	9,000

A considerable portion of this estimate is required for rebuilding old, insanitary, and inadequate brick sewers most of which have been in use for from 40 to 80 years, and are urgently required to be replaced by new sewers of modern design. A considerable sum is now expended annually on repairs and special cleaning of these sewers, yet it is found impracticable to keep same in a sanitary condition, and their reconstruction would result in a considerable saving in the annual maintenance charges. This estimate is the least possible amount for the urgent work of the year, and at least similar amounts will be required during the next several years to complete necessary reconstruction. It is particularly to be noted that these sewers are in the older part of the city, now the business section, where some of the sewers are in serious danger of collapsing.

For suburban sewers (increase of \$37,000 submitted) (same acts).....

167,000.00

And the commissioners are authorized to expend from the appropriation for suburban sewers a sum not to exceed \$1,500 for one motor vehicle (submitted).

NOTE.—Inspection service, superintendent of sewers.

NOTE.—

1. Minor trunk sewers and suburban service mains.....	\$100,000
2. Piney Branch combined system trunk sewer: To complete the construction of the Piney Branch Valley combined system trunk sewer between Sixteenth Street and Georgia Avenue.....	15,000
3. Klinge Ford Valley trunk sewer: For beginning the construction of the combined system trunk sewer in Klinge Ford Valley (estimate to complete, \$50,000).....	20,000
This valley is now provided with a single 12-inch diameter pipe sewer, which is entirely inadequate for the drainage of this rapidly developing section, and the trunk line construction should be begun without further delay.	
4. Bennings trunk sewer: For the construction of a trunk sewer between the Anacostia River and Minnesota Avenue.....	14,000
This sewer will provide for the drainage of a large area in the vicinity of Bennings, D. C., now entirely unprovided with sewerage.	
The water supply for this area is now being constructed and will not be available for actual use until sewerage is provided.	
5. Kenilworth trunk sewer: For the construction of the Kenilworth trunk sewer between the Anacostia River and Kenilworth Avenue.....	18,000
This sewer will provide for the drainage of a large area on the east side of the Anacostia River where the water supply is now being introduced. This area is entirely without sewers of any description, and is quite extensively built up.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Amount appropriated for the fiscal year ending June 30, 1912.

Sewers—Continued.

For assessment and permit work, sewers (submitted) \$150,000.00

NOTE.—This is a separate item to provide funds for the construction of lateral service sewers under the assessment system, and for sewer work under the permit system, funds for which have heretofore been allotted from the general appropriation for assessment and permit work, the estimates for which have been submitted by the surface division. It is considered a better business arrangement that the funds for street and sewer work be separated, with definite amounts for each, instead of the uncertain and variable allotments heretofore made. This item is included in the totals of the sewer appropriations, although it is a subdivision of an appropriation heretofore combined for both surface and sewer work.

For purchase and condemnation of rights of way for construction, maintenance, and repair of public sewers (acts June 11, 1878, vol. 20, p. 103, sec. 3; Mar. 2, 1911, vol. 36, p. 979, sec. 1) . . . 1,000.00

Anacostia main interceptor: For continuing the construction of the Anacostia main interceptor along the Anacostia River between the outfall sewer, sewage disposal system, at Poplar Point, and Bennings, D. C. (increase of \$30,000 submitted) (same acts) 50,000.00

NOTE.—
Estimated to complete \$199,500
Heretofore appropriated 70,000

Balance to complete 129,500

This estimate will complete the construction of this interceptor to the Pennsylvania Avenue Bridge. The sewage from the large population of this area is at present discharged directly on the flats of the Anacostia River, tending to create an insanitary condition along the water front.

Rock Creek main interceptor: For continuing the construction of the Rock Creek main interceptor from P Street to Military Road (same acts) 40,000.00

Estimated to complete \$258,000
Heretofore appropriated 80,000

Balance to complete 178,000

This item will provide funds for this important interceptor from the Connecticut Avenue Bridge to Adams Mill Road, where the old sewer draining a considerable area to the northward is depressed a number of feet below grade so as to pass under Rock Creek. This condition is temporary and somewhat insanitary on account of the backing up of the sewage, and particularly because the existing arrangement requires the discharge of too large an amount of slightly dilute sewage into Rock Creek within the park system.

\$584,500.00

\$414,500.00

*Streets—**Dust prevention, sweeping, cleaning, and snow removal:*

For dust prevention, sweeping and cleaning streets, avenues, alleys, and suburban streets, under the immediate direction of the Commissioners of the District of Columbia, and for cleaning snow and ice from streets, sidewalks, crosswalks, and gutters in the discretion of the commissioners, including services and the purchase and maintenance of equipment, rent of storage rooms, maintenance and repairs of stables, purchase and maintenance of horses; purchase, maintenance, and repair of wagons, harness, and other equipment; allowance to inspectors for maintenance of horses and vehicles used in the performance of official duties, not to exceed \$30 per month for each inspector; purchase, maintenance, and repair of motor-propelled vehicles necessary in operation, and one motor-propelled vehicle for use in supervision; and necessary incidental expenses: and of this appropriation the sum of \$2,000 for the purchase and maintenance of a motor-propelled vehicle for administrative purposes is hereby made immediately available, and the commissioners shall so apportion this appropriation as to prevent a deficiency therein (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 980, sec. 1) 270,000.00

NOTE.—The changes in the wording of last year's estimates have been made for the following reasons:

Dust prevention in place of sprinkling, as it is the intention to use calcium chloride, oil, etc., as it is a fact that these more advanced methods of dust prevention are not only better, but more economical than the old method of sprinkling with water. The plural has been used for the word stable, as in the future there will be two stables instead of one.

After the sentence "purchase, maintenance, and repair of wagons and harness," the words "and other equipment" have been inserted to provide for the repair of equipment such as sweeping machines, flushers, squeegees, etc., which have and will be purchased in connection with the street-cleaning work which was formerly done under contract.

The new clause "Purchase, maintenance, and repair of motor-propelled vehicles necessary in operation and one motor-propelled vehicle for use in supervision" has been inserted because, unless Congress acts on this question during the next session of Congress, it will be two years from July 1, 1911, before motor-propelled vehicles can be used in this department, and it is believed from present developments that before that time there will be street-cleaning apparatus of this character on the market which will be more efficient and economical than that which is now being used. The department is now interested in the development of a motor pick-up machine, which, it is believed, would almost entirely take the place of white-wing labor at a very much reduced cost. In performing the work in connection with machine cleaning, alley cleaning, and the cleaning of unimproved streets, which previous to July 1, 1911, was done by contract, the force of men and the number of horses under the direct control of this department has been more than doubled, and the supervision of this work requires much more careful attention than the inspection which was formerly given to it. It is impossible for the superintendent to get over the work with the horse transportation now available.

The new clause covering the work of snow removal has been added, as it is desired to include this work in the general work of street cleaning, payable from the general appropriation. Snow removal is but a particular class of street cleaning involving the use of the same organization, the same labor, and largely the same equipment that is used in the ordinary work of street cleaning, and there is no logical reason for separating it from the general work.

The following wording has been omitted entirely: "and work done under contract, as well as handwork done under the immediate direction of the commissioners without contract: *Provided*, That whenever it shall appear to the commissioners that said latter work can not be done under their immediate direction at 19 cents or less per thousand square yards, in accordance with the specifications under which the same was last advertised for bids, it shall at once be their duty to advertise to let said work under said specifications to the lowest responsible bidder, and if the same can not be procured to be done at a price not exceeding 20 cents per thousand square yards, they may continue to do said work under their immediate direction in accordance with said specifications: *Provided further*, That whenever it shall appear to said commissioners that the work now performed under contract, namely, street sweeping and cleaning alleys and unimproved streets, can, in their judgment, be performed under their immediate direction more advantageously to the District, then, in that

<p>event, said commissioners are hereby authorized to perform any part or all of said work in such manner, and to employ all necessary personal services, and purchase and maintain such street-cleaning apparatus, horses, harness, carts, wagons, tools, and equipment as may be necessary for the purpose; and of this appropriation the sum of \$40,000 is hereby made immediately available." On April 25, 1900, the commissioners advertised for bids for hand-cleaning work, but no bids were received, and since then the hand cleaning has been done under the direction of the commissioners. The methods of hand cleaning have materially changed since the above date, and it is not deemed advisable to continue doing work under these specifications as provided for above. The street-washing work, which is now being done in the white-wing section, will tend to reduce the price so that the probabilities are that it will never again be equal to or exceed 19 cents per thousand square yards. The wording in the second provision omitted is not applicable to the present situation, as all street-cleaning work is now being done under the direction of the commissioners.</p>		
<p>The positions of blacksmith at \$900, mechanic at \$780, blacksmith's helper at \$720, seven dumpmen at \$540 each, two mechanic's helpers at \$540 each, wheelwright at \$900, and painter at \$780 per annum, or a total of \$8,940, being held by employees on the annual roll, they are entitled to 30 days vacation, 30 days sick leave, and half holidays on Saturdays in the summer season, which does not conform to the requirements made of per diem employees with whom they work. In the accounting the annual roll has always been charged to administration and not to the cost of operation, and the work of these men would be charged to operation. It is proposed that these positions be put on the per diem basis.</p>		
<p>The following is a detailed statement of the estimated amount of expenditures under this appropriation for the fiscal year 1913:</p>		
<p>Hand-patrol cleaning, 621,488,016 square yards, at 17 cents per thousand square yards (see notes <i>a</i> and <i>h</i>).....</p> <p>Machine cleaning, 376,873,445 square yards, at 18.96 cents per thousand square yards (see notes <i>b</i> and <i>h</i>).....</p> <p>Alley cleaning, 43,356,339 square yards, at 33½ cents per thousand square yards (see notes <i>c</i> and <i>h</i>)..</p> <p>Unimproved streets (see note <i>d</i>).....</p> <p>Sprinkling (see note <i>e</i>).....</p> <p>Street washing, squeegees, 193,363,472 square yards, at 11 cents per thousand square yards (see notes <i>f</i> and <i>h</i>).....</p> <p>Street washing, flushers, 11,070,000 square yards, at 30 cents per thousand square yards (see notes <i>g</i> and <i>h</i>).....</p> <p>Purchase and maintenance of one automobile for administrative purposes, to be immediately available.....</p> <p>Purchase of other new equipment for street-cleaning purposes.....</p> <p>Snow removal (see note <i>f</i>).....</p>	<p>\$105,652.96</p> <p>71,455.20</p> <p>14,452.11</p> <p>15,977.41</p> <p>13,151.73</p> <p>21,269.98</p> <p>3,321.00</p> <p>2,000.00</p> <p>7,719.61</p> <p>15,000.00</p>	
<p>Total.....</p>	<p>270,000.00</p>	
<p>(<i>a</i>) The yardage is based on the area cleaned per day at the present time, for 296½ days, which is the maximum number of days worked per year in the last five years. The price assumed is lower than it has ever been before.</p>		
<p>(<i>b</i>) The yardage is based on the area per day which is being cleaned at present, for 276½ days, which is the maximum number of days worked per year in the last five years, and the price, plus 20 per cent, will equal the contract price prior to July 1, 1911.</p>		
<p>(<i>c</i>) The yardage is based on the area cleaned per day at the present time, for 263 days, which is the maximum number of days worked per year in the last five years, and the price, plus 20 per cent, will equal the contract price prior to July 1, 1911. The machine cleaning and alley cleaning have not been done under the direction of the commissioners long enough to obtain a correct estimate of the average cost of this work on this basis, and to assume that the contractor was making a profit of 20 per cent appears to be reasonable, and a better principle for the purposes of this estimate.</p>		
<p>(<i>d</i>) The contract price for unimproved street work prior to July 1, 1911, was a lump sum per day for four gangs of men and teams furnished, and the amount in this estimate is approximately what was spent on this work during the last fiscal year.</p>		
<p>(<i>e</i>) The amount of this estimate is the same as the amount expended for sprinkling during the year ending June 30, 1911.</p>		
<p>(<i>f</i>) The yardage is based on cleaning one-sixth of the hand-patrolled area each day, although for several months prior to July 1, 1911, one-half of the white-wing area was cleaned in this manner with very good results. The number of days assumed is the same as that for machine cleaning. The cost of cleaning with squeegees during the past year was approximately 11½ cents, but it is believed that this can be reduced to some extent.</p>		
<p>(<i>g</i>) The area is based on cleaning 40,000 square yards per day with two machines, for 276½ days. The number of days is the same as that assumed for machine cleaning. The cost of flushing during the past year was approximately 31½ cents, but it is believed that this cost can be reduced to some extent.</p>		
<p>(<i>h</i>) In assuming the maximum number of days worked per year in the last five years for hand-patrol, machine and alley cleaning, and for street washing, it is believed advisable to prepare for the maximum. In case the weather should not permit this amount being done, the amount saved can be used in extending the service as it becomes necessary, not only for the portions of the work mentioned but also in extending the cleaning of unimproved and suburban streets which it has been thought advisable to do for some years past but has not been done on account of the lack of funds.</p>		
<p>(<i>i</i>) In the recent purchase of new equipment in preparation for doing work under the direction of the commissioners instead of by contract, the minimum amount of equipment necessary has been bought with the idea that the cleaning will be, to some extent, experimental, and as the result of experience it might be found advisable to use different methods and a different character of equipment for this work. It is still impossible to tell in detail what kind of equipment will be needed, but it will be necessary to purchase a suitable amount of new equipment, either of a new character or of the same character as that which was bought, in order to take the place of equipment in the repair shop when it begins to wear out.</p>		
<p>(<i>j</i>) In times of snow and ice in the future, it is thought advisable to use the full resources of the street cleaning department in this work. Not including Sundays and holidays there are 308 working days in the year, which, divided into the appropriation of \$270,000, is approximately \$876.62 per day. The average number of days in each year which this department has worked on snow and ice for the past six years, not including the year 1907, for which no records can be found, is 14½ days. (14½ days, at \$876.62 per day, is \$12,710.99, and the purchase and maintenance of equipment costing \$2,289.61 equals \$15,000.) The maximum number of days which the department has worked on snow and ice for the past six years, not including the year 1907, is 22. (22 days, at \$876.62 per day, is \$19,285.64, without allowance for purchase and maintenance of equipment.)</p>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation

Amount appropriated for the fiscal year ending June 30, 1912.

Streets—Continued.**Disposal of city refuse:**

For the collection and disposal of garbage and dead animals; miscellaneous refuse and ashes from private residences in the city of Washington and the more densely populated suburbs; for the collection and disposal of night soil in the District of Columbia, and for the payment of necessary inspection, purchase, and maintenance of such motor-propelled vehicles as may be necessary in the inspection of the work, and incidental expenses (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 980, sec. 1)..... \$179,945.00

NOTE.—This estimate is made up as follows, the amounts being the actual contract rates entered into under the authority of the act approved May 18, 1910:

Collection and disposal of city refuse:	
Collection and disposal of garbage.....	\$68,400
Collection and disposal of ashes.....	73,150
Collection and disposal of miscellaneous refuse.....	17,000
Collection and disposal of night soil.....	16,600
Collection and disposal of dead animals.....	2,855
Purchase and maintenance of two motor-propelled vehicles.....	1,440
Miscellaneous expenses.....	440
Telephone.....	60

Total..... 179,945

It is estimated that with two motor-propelled vehicles for inspectors, which can be purchased and maintained for the same amount that was paid for livery for inspectors' horses and buggies, that this service can be performed by two inspectors at a cost in succeeding years of only the maintenance and depreciation of the two motor-propelled vehicles.

For the purpose of investigating and reporting upon the collection and disposal of garbage and other city waste originating in the District of Columbia, including the preparation of plans for a garbage reduction plant, and the employment of personal services and such other incidental expenses as may be necessary to carry out the purposes of this appropriation (submitted)..... 10,000.00

NOTE.—In Cleveland, under the contract system, it costs \$2.43 per ton per annum to dispose of the garbage. With its present municipal plant it cost, in 1910, 80 cents per ton net for collection and disposal. The net cost of collection and disposal for the first half of 1911 was but \$7,311.59. Cleveland's population is 560,663.

At Columbus, Ohio, they spend in the gross \$80,000 for the removal of garbage, but recover \$57,000 from their reduction plant, making the net cost of collection and disposal \$23,000 per annum. Columbus's population is 181,511.

In Washington the cost of the removal of garbage under contract is \$68,400 for 48,214 tons, or at the rate of \$1.42 per ton. The contract expires in three and one-half years. Washington's population is 331,069.

Parking commission:

For contingent expenses, including laborers, trimmers, nurserymen, repairmen and teamsters, cart hire, trees, tree boxes, tree stakes, tree straps, tree labels, planting and care of trees on city and suburban streets, care of trees, tree spaces, purchase and maintenance of automobile truck, and miscellaneous items, \$5,000 of which shall be immediately available for labor and for the purchase of machinery and materials to exterminate insects injurious to trees (increase of \$7,500 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 980, sec. 1)..... 50,000.00

NOTE.—The details of the above estimate are as follows:

Planting and general care of tree nurseries.....	\$15,000
Removing dead, decayed, and dangerous trees.....	4,800
Trimming trees.....	4,500
General care and improvement of street parkings.....	4,000
Cultivation and miscellaneous repairs to boxes, stakes, and straps.....	3,000
Destruction of insects.....	5,000
Forage.....	2,200
Purchase and maintenance of automobile truck.....	2,500
General supplies, including lumber, tree stakes, stable and blacksmith items, and materials necessary for the execution of the work.....	9,000

Much of the planting and care of trees is now being done in the outlying sections of the District, and with horse-drawn vehicles it is impossible to promptly reach these outlying sections. The purchase of the automobile truck as requested would cause much economy in time and a reduction in the cost of work in these outlying sections.

For planting and care of trees in public school grounds (submitted)..... 1,500.00
For the planting and care of trees in municipal playgrounds (submitted)..... 1,000.00

NOTE.—It is desired to beautify public school grounds and municipal playgrounds by planting trees thereon. The present appropriation for the parking commission relates only to the planting and care of trees on city and suburban streets. Heretofore it has been necessary to pay for such trees as have been planted in school grounds from the appropriation for care and improvement of school grounds, and for playgrounds from the appropriation for such playgrounds. Owing to the various demands on these funds, it has not been possible to do all such tree planting as was desirable, and these small specific appropriations are asked for the purpose.

Bathing beach:

Superintendent (increase of \$300 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, p. 980, sec. 1)..... 900.00

NOTE.—The duties in connection with this position have increased five fold in the past three years. The requirement of medical knowledge, which at times is urgently needed, together with the fact that this officer should be an expert swimmer, capable of instructing those under him, makes the present salary inadequate.

Watchman (same acts)..... 480.00
Watchman (submitted)..... 360.00

NOTE.—The possibility of increasing the hours when the pools may be used demands that a watchman be constantly on duty to police the grounds. Further the amount of property to be watched has increased and an officer should be on duty night and day.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Streets—Continued.</i>		
Bathing beach—Continued.		
For temporary services, supplies, and maintenance (increase of \$500 submitted) (acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 2, 1911, vol. 36, pp. 980, 981, sec. 1).....	\$2, 500. 00	
NOTE.—The present appropriation is insufficient to employ the necessary number of persons to properly care for the patrons of the pools, and the salaries paid at present are insufficient to secure competent guards for the pools for the long hours required of them.		
For repairs to buildings, pools, and the upkeep of the grounds, etc. (increase of \$800 submitted) to be immediately available (same acts).....	2, 000. 00	
NOTE.—The bathing beach is in the entrance to Potomac Park and it is necessary to do considerable grading to conform to the surrounding territory.		
Public scales:		
For replacement and repair of public scales (same acts).....	200. 00	
Playgrounds:		
For maintenance, repairs, including labor, equipment, supplies, and necessary incidental and contingent expenses, to be immediately available (increase of \$1,500 submitted) (act Mar. 2, 1911, vol. 36, p. 981, sec. 1).....	4, 500. 00	
NOTE.—This increase is necessary because the funds heretofore available from contributions through the Washington Playground Association can not be depended upon, and further because it will be necessary to furnish supplies for the new playground in the Bloomingdale section heretofore neglected.		
For repairs and replacement of apparatus and other equipment on the playgrounds, including painting, grading, fencing, cutting grass, and resurfacing, to be immediately available so that the grounds may be fully equipped and ready for operation on July 1, 1912 (submitted).....	3, 000. 00	
NOTE.—The iron and other equipment on all of the playgrounds must have two coats of paint to prevent deterioration. The wooden equipment on the Cardozo, Howard, and Gallinger Playgrounds must be replaced with iron, as most of it has so rotted as to be unsafe and dangerous. Additional equipment is required at Fifth and L Streets, Gallinger, Howard, and Cardozo.		
For equipment for new playground for the Bloomingdale section, including grading, fencing, etc., to be immediately available so that the ground may be fully equipped and ready for operation on July 1, 1912 (submitted).....	2, 000. 00	
NOTE.—Through the engineer in charge of public buildings and grounds property has been made available, under authority of Congress, in the Bloomingdale section heretofore deprived of a playground. There is no section of the city with more children in proportion to the population and in greater need of a playground.		
For swimming pools for Georgetown, Rosedale, and Cardozo Playgrounds, to be immediately available so that the grounds may be ready for operation on July 1, 1912 (submitted).....	5, 000. 00	
NOTE.—The swimming pool is much needed on the Rosedale Playground for the use of children in the northeast section of the city. The distance to the swimming pools at the Monument grounds is too great and can not be reached without prohibitive expense. In consequence thereof the temptation to use the Eastern Branch each year results in a number of deaths by drowning. Furthermore the Eastern Branch is unhealthy and not suitable for bathing purposes. The same is true of Georgetown, except that here the boys insist upon using the canal and parts of the river at Georgetown, much to the annoyance of the police and with a number of deaths each year. It is thought only fair that a swimming pool should be provided for the colored children in the southwest section of the city on the Cardozo Playground in accordance with the original plans.		
For salaries:		
Clerk (increase of \$60 submitted) (act Mar. 2, 1911, vol. 36, p. 981, sec. 1).....	900. 00	
NOTE.—This increase is asked because we find that in order to do the work most efficiently, it is necessary to keep the office open early enough in the morning so that the teachers may call on their way to the playgrounds before 9 o'clock for supplies, etc. It is impossible to close the office as other offices are closed.		
Supervisor (increase of \$500 submitted) (same act).....	2, 000. 00	
NOTE.—The commissioners had great difficulty in getting an experienced man suitable for this position with the money available for the current year and it would have been impossible but for the help of volunteer organizations. As it was the man secured left a position which would have been worth from \$3,000 to \$4,000 a year to him in order to serve the District of Columbia. During 1912, he was employed 10 months, at \$150 per month.		
Directors, assistant directors, and watchmen to be employed not exceeding 7 months, as follows:		
Eleven directors, at \$75 per month each (2 additional submitted) (same act).....	5, 775. 00	
Three assistant directors, at \$60 per month each (1 additional submitted) (same act).....	1, 260. 00	
NOTE.—This increase is made in order that the Gallinger Playground may be kept open 7 months instead of 3 as at present.		
One assistant director, at \$50 per month (same act).....	350. 00	
Two watchmen, at \$45 a month each (submitted).....	630. 00	
NOTE.—These two men are added to take the place of men who were on the playgrounds but three months at Gallinger and Fifth and L Streets. This will keep these two grounds open seven months instead of three, as at present.

Watchman, at \$25 a month (act Mar. 2, 1911, vol. 36, p. 981, sec. 1).....	\$175.00	
To be employed not exceeding three months, as follows:		
Seven assistant directors, at \$60 per month each (1 additional submitted) (same act).....	1,260.00	
NOTE.—One assistant director at \$60 a month for three months is added to care for the new ground at Bloomingdale.		
Three assistant directors, at \$50 a month each (same act).....	450.00	
Five assistants, at \$45 a month each (same act).....	675.00	
Nine assistants, at \$40 a month each (1 additional submitted) (same act).....	1,080.00	
NOTE.—One assistant at \$40 a month for three months is added for the Bloomingdale ground so that it may be kept open for 10 months.		
Eight watchmen, at \$45 a month each for 12 months (1 additional submitted) (same act).....	4,320.00	
Addition to Georgetown playground: For the purchase or condemnation of all of lot 194 and all of lots 200 to 205, both inclusive, and all of lots 193 and 196 not now owned by the District of Columbia, all in square 1273 (submitted).....	22,000.00	
NOTE.—The area to be acquired is 23,388 square feet at an estimated cost of \$22,000, which includes \$12,000 for land and \$10,000 for improvements. The land is necessary in order to square off land already obtained for playground purposes in Georgetown. The true value of the land, based on the assessed value, which is two-thirds of the true value, is \$15,746.		
<i>Public-convenience stations:</i>		
For maintenance of public-convenience stations, including compensation of necessary employees (acts Mar. 3, 1905, vol. 33, p. 984, secs. 1-4; Mar. 2, 1911, vol. 36, p. 981, sec. 1).	11,250.00	
<i>Board for the condemnation of insanitary buildings:</i>		
Condemnation of insanitary buildings: For all expenses necessary and incident to the enforcement of an act entitled "An act to create a board for the condemnation of insanitary buildings in the District of Columbia, and for other purposes," approved May 1, 1906, including personal services, when authorized by the Commissioners of the District of Columbia (acts May 1, 1906, vol. 34, p. 157, secs. 1-16; Mar. 2, 1911, vol. 36, p. 981, sec. 1).....	2,500.00

Assistant electrical engineer (same acts).....	2,000.00	
Three electrical inspectors, at \$1,200 each (same acts).....	3,600.00	
Electrical inspector (submitted).....	1,200.00	
NOTE.—In a special report to the Sixty-first Congress (H. R. 18157) the Commissioners recommended an additional inspector whose time was to be devoted principally to the inspection of theaters, and places of public assembly, and to moving-picture places, of which a great many have been built in the last three years. The number of inspections of such places increased from 963 during the fiscal year 1910 to 1,610 during 1911.		
Inspector of lamps (acts Apr. 26, 1904, vol. 33, p. 306, secs. 1-5; Mar. 2, 1911, vol. 36, pp. 981, 982, sec. 1).....	1,000.00

Electrical inspector (same acts).....	2,000.00	
Electrical inspector (increase of \$200 submitted) (same acts).....	2,000.00	
NOTE.—This inspector has assigned to him all details relating to the entire street-lighting service. His duties are multifarious, and are increasing with each year as the lighting of the streets is extended and improved. He is often called upon to make night inspections in addition to those made by the regular night inspectors. He also performs a great deal of clerical work in connection with the lighting systems.		
Electrical inspector (increase of \$150 submitted) (same acts).....	1,500.00	
NOTE.—This employee is assigned to the fire-alarm branch of the department, and acts as assistant to the inspector in charge of that system, and, in the absence of the latter, performs his duties. He is frequently called upon to be out all night, clearing troubles on the fire-alarm and patrol wires, cables, and apparatus. His work is of a very responsible nature.

Total.....	\$48,295	
For general supplies, repairs, new batteries and battery supplies, telephone rental and purchase, wire for the extension of the telegraph and telephone service, repairs of lines and instruments, purchase of poles, tools, insulators, brackets, pins, hardware, cross arms, ice, record books, stationery, printing, livery, horses and harness, washing, blacksmithing, forage, extra labor, new boxes, rent of storeroom, and other necessary items (increase of \$1,500 submitted) (same acts).....	15,000.00	
NOTE.—From this appropriation the entire expense incurred in maintaining the fire alarm, the police patrol, and the District telephone systems is paid. Moreover, the incidental costs of the municipal wiring inspection and all stable and office expenses of the department are paid from this fund. This appropriation is not for contingent expenses; it is a maintenance fund, used principally to keep in operation certain systems the expenses of which increase each year, due to extensions and additions thereto. Attention is invited to the fact that this department receives no allotment from the miscellaneous contingent fund of the District, but is compelled to purchase all supplies usually charged to that fund from the appropriation for general supplies. For the fiscal year 1908 this appropriation was \$15,000, and it is earnestly recommended that it be restored to that amount.		
For placing wires of fire alarm, telegraph, police patrol, and telephone service underground in existing conduits, including cost of cables, terminal boxes, and posts, connections to and between existing conduits, manholes, handholes, posts for fire alarm and police boxes, extra labor, and other necessary items, to be immediately available (same acts).....	7,000.00	
For extension of police patrol system, including purchase of new boxes, purchase and erection of the necessary poles, cross arms, insulators, pins, braces, wire, cable, conduit connections, extra labor, and other necessary items (same acts).....	3,000.00	
Lighting: For the purchase, installation, and maintenance of public lamps, lamp-posts, street designations, lanterns and fixtures of all kinds on streets, avenues, roads, alleys, and public spaces, and for all necessary expenses in connection therewith, including rental of stables and storerooms, livery, and extra labor (decrease of \$9,000) (same acts).....	386,000.00

For beginning the purchasing and installing additional lead-covered cables to increase the capacity of the underground-cable system in the congested downtown section (submitted)...	\$4,000.00	
NOTE.—The original cables through the heart of the city, laid during the years 1899 and 1900, had 25 per cent excess capacity over the needs at that time. The rapid growth of the fire-alarm, police-patrol, and District telephone systems since that time has required the use of this entire excess capacity and there are now no excess conductors in the cables for the additional service for which almost daily requests are made. It is necessary to enlarge the capacity of the system radiating from the present headquarters in the District Building. This estimate is submitted for the purpose of beginning that work.		
For the purchase and maintenance of 1 motor vehicle, with extra tires and equipment (submitted).....	2,000.00	
NOTE.—It is the intention to use this vehicle in connection with the emergency repair work of the fire-alarm and police-patrol service. Frequently the men engaged in this work are called suddenly to the remote engine and police stations, as well as to the outlying fire-alarm and patrol boxes, to clear troubles and adjust instruments. The importance of immediately making such minor adjustments can not be overestimated, as the reliability of both systems depends upon keeping them clear of troubles. For transportation in this work there is now available only a wagon and one horse. It is more than one horse can do to draw the wagon with two men and their tools, particularly when haste is important and the trouble at a distance from the District Building. Such a conveyance as a motor vehicle will enable the men to do many times the amount of work now performed within the same time.	\$170,295.00	\$464,995.00

Washington Aqueduct—		
For operation, including salaries of all necessary employees, maintenance and repair of the Washington Aqueduct and its accessories, including Conduit Road, the McMillan Park Reservoir, the Washington Aqueduct Tunnel, and also including the purchase and maintenance of one motor truck, horses, vehicles and harness, and the care and maintenance of the stable (increase of \$5,000 submitted) (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 982, sec. 1).....	38,000.00	
NOTE (by Chief of Engineers of U. S. Army).—This item is increased \$5,000 over the appropriation for the fiscal year ending June 30, 1912, on account of the necessity of repairing the Conduit Road, the increasing use of which by all sorts of vehicles and especially by automobiles, has so much increased the wear and tear upon it that not less than the sum of \$5,000 will be needed annually to keep it in good order even after it is once placed in good condition. In its present state this sum can accomplish but little. A special item is therefore included below for commencing the work of surfacing, and when that is completed the annual appropriation of the sum of \$5,000 will suffice to keep the road in good condition.		
For beginning surfacing, and improvement, of the Conduit Road, from Foxhall Road to Great Falls (submitted).....	15,000.00	
NOTE (by Chief of Engineers of U. S. Army).—The Conduit Road is 12½ miles long from Foxhall Road to Great Falls. Its advantages were early appreciated, and the officer in charge reported in 1868 that it should be macadamized as soon as practicable. Between 1870 and 1875, \$46,000 were appropriated for the purpose, and 9.4 miles were surfaced. Since 1875 but \$4,000 have been appropriated for the road, the last special appropriation being \$2,000 in 1900, and the small amounts which could be spared from the general appropriation for the aqueduct have been inadequate for maintenance. It is now estimated that a total of \$55,000 to \$60,000 will be required for placing the road in proper condition, including the sum of \$15,000 now asked for commencing the work.		
For care, including salaries of all necessary employees, maintenance, and operation of the Washington Aqueduct, District of Columbia, filtration plant, and the plant for the preliminary treatment of the water supply, authorized water meters on Federal services, and for each and every purpose connected therewith (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, pp. 982, 983, sec. 1).....	91,000.00	
NOTE (by Chief of Engineers of U. S. Army).—The act making appropriations for the District of Columbia for the fiscal year ending June 30, 1911, provided for the installation of meters on certain Government buildings. Provision for the maintenance and operation of those meters should be made, but the cost will be so small and indefinite that it is believed to be advisable to include the provision in the appropriation item for the filtration plant.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Washington Aqueduct—Continued.</i>		
For emergency fund, to be used only in case of a serious break requiring immediate repair in one of the important aqueduct or filtration plant structures, such as a dam, conduit, tunnel, bridge, building, or important piece of machinery, all expenditures from this appropriation to be reported in detail to Congress, to be available until expended (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, pp. 982, 983, sec. 1).....	\$5,000.00	
For continuation of parking grounds around McMillan Park Reservoir, formerly known as Washington City Reservoir (same acts).....	2,000.00	
For continuing the lining of such portions of the unlined sections of the tunnels of the Washington Aqueduct as may be necessary to prevent the disintegration and fall of rock (increase of \$4,000 submitted) (same acts).....	12,000.00	
NOTE (by Chief of Engineers of U. S. Army).—This item is increased \$4,000 over the appropriation for the fiscal year ending June 30, 1912, which was for the purpose of beginning operations. With plant and accessories provided and installed more rapid progress can be made, and it is estimated that \$12,000 will be required for economically and expeditiously prosecuting the work as opportunities offer during the fiscal year 1913. On account of the fact that the actual work of lining can be done only when conditions permit the draining of the aqueduct, an accurate estimate of the total cost can not now be submitted.		
For remodeling the Georgetown Reservoir, Washington Aqueduct, to complete the works for the preliminary treatment of the water supply, and for each and every purpose connected therewith (increase of \$8,000 submitted) (same acts).....	58,000.00	
NOTE (by Chief of Engineers of U. S. Army).—As stated in the annual report of the Chief of Engineers for 1910, page 1040, the estimated cost of remodeling the Georgetown Reservoir is \$108,000. The sum of \$50,000 was appropriated by the act of Mar. 2, 1911 (vol. 36, Stat. L., pp. 982, 983), and it is expected that the sum of \$58,000 asked for above will complete the work.		
For completing the purchase, installation, and maintenance of water meters, to be placed on the water services of the United States buildings, reservations, or grounds in the District of Columbia, and for each and every purpose connected therewith, said meters to be purchased, installed, and maintained by and remain under the observation of the officer in charge of the Washington Aqueduct (submitted).....	38,000.00	
NOTE (by Chief of Engineers of U. S. Army).—As stated in the report on increasing the water supply of the District of Columbia published in House Document No. 347, Sixty-first Congress, second session, the use of water in public buildings has been excessive, and it is believed that the installation of meters will assist in the detection of leakage and in the material diminution of waste.		
For the purchase of necessary materials not now available, and for the employment of the necessary labor, to erect a frame dwelling for the assistant to the overseer at Great Falls, Md. (submitted).....	2,500.00	
NOTE (by Chief of Engineers of U. S. Army).—In order to provide quarters for the assistant to the overseer at Great Falls, it is proposed to apply the above sum, or so much thereof as may be necessary, toward the reconstruction of a frame house, at Great Falls, Md., which has been dismantled and removed from the Government reservation at Seneca, Md. It has always been difficult to secure the services of a reliable and intelligent person to assist the overseer at Great Falls in the performance of his duties owing to the lack of a suitable and convenient habitation for such a person, no suitable building in the neighborhood being available for renting.		
	\$261,500.00	\$224,000.00
<i>Great Falls Water Power—</i>		
That the President of the United States be, and he is hereby, authorized to appoint an expert or experts of recognized ability and experience to investigate the question of the generation of water power at Great Falls or vicinity on the Potomac River, or between Great Falls and the District of Columbia for the purpose of supplying light and power for public uses in the District of Columbia. The expert or experts shall prepare complete plans, maps, specifications, and estimates for the production, distribution, and utilization of the maximum electrical power that can be economically created and employed for public purposes, including street lighting in the District of Columbia; said plans, maps, and specifications shall be sufficiently in detail to form the basis of a contract or contracts for the execution of the work, and the map, supplemented if necessary by a report, shall indicate all of the lands that are required to be taken or flowed and the water and water rights that are required to be taken for the purpose of the execution of the project. To meet the expenses of this investigation there is hereby appropriated the sum of \$20,000, or so much thereof as may be necessary, payable one-half from the revenues of the District of Columbia and one-half from any money in the United States Treasury not otherwise appropriated (submitted).....	20,000.00	
<i>Rock Creek Park—</i>		
For care and improvement of Rock Creek Park and of the Piney Branch Parkway, exclusive of building for the superintendent's residence, to be expended under the direction of the board of control of said park in the manner now provided by law for other expenditures of the District of Columbia (increase of \$10,000 submitted) (act Mar. 2, 1911, vol. 36, p. 983, sec. 1).....	30,000.00	20,000.00
NOTE.—The appropriation of \$20,000 made for the fiscal year 1912, it is intended to expend about as follows:		
For maintenance.....	\$10,000	
For a new road and bridge between Sixteenth Street and Military Road.....	3,800	
For extending Beach Drive northwardly.....	6,200	
An appropriation of \$30,000 is estimated for the fiscal year 1913, and it is proposed to expend this as follows:		
For maintenance.....	10,000	
Toward extending Beach Drive and Wise Road at the northern end of the park.....	20,000	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

<i>Public Schools—</i>		
NOTE.—The estimates in detail for Public Schools as submitted to the Commissioners of the District of Columbia by the Board of Education, as required by the act of June 20, 1906 (34 Stat., p. 316), will be found in Appendix N.		
Officers:		
Superintendent of public schools (increase of \$1,000 submitted) (acts June 11, 1878, vol. 20, p. 104, sec. 3; June 20, 1906, vol. 34, pp. 316–321, secs. 1–13; Mar. 2, 1911, vol. 36, pp. 983–989, sec. 1).....	\$6, 000. 00	
Provided, That in the absence of the superintendent upon leave of absence granted by the board of education, the assistant superintendent of white schools shall have a seat at the board of education and act, upon the written authority of the superintendent, in his stead.		
NOTE (by the board of education).—An increase of \$1,000. The proviso is inserted to give authority to an assistant to act in the absence of the superintendent.

NOTE (by board of education).—An increase of \$23,000. The words "principals of the grade manual training schools" are inserted to cover the new positions authorized by the act approved Mar. 2, 1911. The dates May 26, 1908, and May 18, 1910, are inserted to cover the amendatory legislation affecting the adjustment of longevity pay.		
Allowance to principals:		
Allowance to principals of grade school buildings for services rendered as such, in addition to their grade salary, to be paid in strict conformity with the provisions of the act entitled "An act to fix and regulate the salaries of teachers, school officers, and other employees of the Board of Education of the District of Columbia," approved June 20, 1906 (decrease of \$120 submitted) (same act).....	36,000.00	
NOTE (by board of education).—A decrease of \$120.		
<i>Provided</i> , That in assigning salaries to teachers, no discrimination shall be made between male and female teachers employed in the same grade and performing a like class of duties; and it shall not be lawful to pay, or authorize or require to be paid, from any of the salaries of teachers herein provided, any portion or percentage thereof for the purpose of adding to salaries of higher or lower grades.		
<i>Provided further</i> , That no teacher of the whole number appropriated for herein shall be employed as, or required to discharge the duties of, a clerk or librarian.		
<i>Provided further</i> , That the board of education is hereby authorized in the event of the absence of any regularly employed teacher, or librarian, to employ a substitute from an eligible list to be approved by said board, and to pay substitute one-half of the basic salary provided for the class in which employed: <i>Provided</i> , That for absence due to personal illness, death in family, or quarantine on account of contagious disease, not to exceed 30 calendar days in any one school year, the absent teacher shall receive the salary of the position, less one-half of the basic salary, and any absence in excess of said 30 days or absence for cause other than herein specified shall be without compensation (submitted).		
<i>Provided further</i> , That the provisions of the act approved Mar. 15, 1898, as amended by the acts approved July 7, 1898, and Feb. 24, 1899, regulating leave of absence to employees of the Federal Government, are hereby made applicable to such officers and other employees of the board of education as may be paid in 12 installments per annum: <i>Provided</i> , That in the event of the absence of any engineer, assistant engineer, janitor, assistant janitor, laborer, fireman, or caretaker at any time during school sessions the board of education is hereby authorized to appoint a substitute, who shall be paid the salary of the position in which employed, and the amount paid to such substitute shall be deducted from the salary of the absent employee (submitted).		
NOTE (by board of education).—The last two paragraphs above are in lieu of the statute under the sundry civil appropriation act, approved Mar. 4, 1911, p. 37, as follows: The board of education is hereby authorized until the close of the fiscal year 1912, in the event of the absence of any regularly employed teacher, to employ a substitute teacher from an eligible list to be approved by said board and to pay said substitute teacher one-half of the basic salary provided for the class in which employed for periods not exceeding 30 calendar days, and the full basic salary for periods in excess thereof: <i>Provided</i> , That leave of absence of any regularly employed teacher shall not exceed 30 calendar days in any one school year, and for this period such teacher who may be absent shall be paid, in case the absence is due to personal illness, death in family, or quarantine on account of contagious disease, the salary of the position, less the amount paid to the substitute teacher, and any absence in excess of said 30 days or absence for cause other than herein specified shall be without compensation: <i>Provided further</i> , That all other employees of the board of education may, in the discretion of said board, be granted not exceeding 30 days' leave of absence with pay in any one calendar year, and in the event of the absence of any janitor, assistant janitor, engineer, assistant engineer, or caretaker at any time during school sessions the board of education is hereby authorized to appoint a substitute, who shall be paid the salary of the position in which employed, and the amount paid to such substitute shall be deducted from the salary of the absent employee.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
Public Schools—Continued.		
Night schools:		
For salaries of teachers and janitors of night schools, including teachers of industrial, commercial, and trade instruction, and teachers and janitors of night schools may also be teachers and janitors of day schools (increase of \$3,500 submitted) (act Mar. 2, 1911, vol. 36, p. 985, sec. 1).....	\$21,000.00

NOTE (by board of education).—All rented properties except storehouse are used for school purposes.

For amount required to equip temporary rooms for classes above the second grade, now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory-education law, and for the purchase of all necessary articles and supplies to be used in the course of instruction which may be provided for atypical and ungraded classes (act Mar. 2, 1911, vol. 36, pp. 985, 986, sec. 1).....	\$7,000.00
For repairs and improvements to school buildings and grounds and for repairing and renewing heating, plumbing and ventilating apparatus, to be immediately available (same act).....	100,000.00

NOTE.—Requests are made each year by the board of education for more than \$300,000 worth of repairs. There are now over 150 school buildings in the District of Columbia, besides 18 portable schools. This represents a value of \$10,000,000 invested in buildings, which contain over 2,000,000 square feet of floor area, necessitating the relaying of from 80,000 to 100,000 square feet of flooring each year; there are nearly 40,000 square yards of blackboards to be repaired and 24 acres of roof surfaces. There are 4½ miles of rain spouts, 9 miles of roof gutters and valleys, 6 acres of window glass, 4,500 plumbing fixtures, 3,500 doors and locks, and about 300,000 square yards of plastered ceilings. The amount asked represents but 1 per cent of the value of the buildings.

For necessary repairs to and changes in plumbing in existing school buildings, and the installation of sanitary drinking fountains in buildings not supplied with the same, \$25,000. A detailed statement shall be submitted to Congress of the expenditure of the foregoing sum, and for the fiscal year 1913 estimates shall be submitted in detail as to the particular school buildings requiring unusual repairs of and any changes in plumbing (same act).....	25,000.00
---	-----------

NOTE.—The plumbing in the schools in the city limits and in the territory immediately surrounding has been modernized, and this item is for placing modern plumbing in suburban schools as rapidly as water and sewer facilities are made available, and for placing sanitary drinking fountains in old school buildings.

For the purchase and repair of tools, machinery, material and books, and apparatus, to be used in connection with instruction in manual training and in trades, equipment and maintenance of school lunch rooms and for incidental expenses connected therewith: <i>Provided</i> , That all moneys realized from the operation of school lunch rooms shall be repaid to and made available under this appropriation (same act).....	27,500.00
---	-----------

NOTE.—An increase of \$4,000. In addition to the work heretofore carried on, the authorization by Congress of three new 6-room buildings for trade instruction in the graded schools, makes it necessary to meet the expense of their maintenance in the way of purchase of materials, etc.

For fuel, gas, and electric light and power (same act).....	85,000.00
For furniture, including also clocks, pianos, and window shades for new buildings, additions to buildings, kindergartens, and also tools and furnishings for manual-training, cooking and sewing schools, as follows: One 4-room building at Burrville, \$1,570; one 4-room building at Military Road, \$1,570; one 6-room manual-training building in the twelfth division, \$3,000; three kindergartens, \$1,000; one manual-training shop, \$400; one sewing school, \$150; one cooking school, \$300; to be immediately available (same act).....	7,990.00

NOTE.—The \$3,000 appropriated last year is not sufficient to properly maintain the work in physics in the high-school laboratories. The work has been extended to the Business High School.		
For the purchase of fixtures, apparatus, specimens, and materials for the laboratories of the departments of chemistry and biology in the Central, Eastern, Western, Business, and M Street High Schools, Normal School No. 1, and Normal School No. 2, and the installation of the same (increase of \$400 submitted) (same act).....	2,500.00	
NOTE.—An increase of \$400. The allowances for the purchase of apparatus in the laboratories have been made from the contingent fund. This has necessarily kept such allowances at a very low figure and the several laboratories inadequately equipped for the work which the classes must do. The shortage of supplies has multiplied through a number of years, and the present item is for thoroughly equipping the departments named with modern apparatus in sufficient quantity.		
Any unexpended balances in the "Act making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ending June 30, 1912, and for other purposes," to rent, equip, and care for temporary rooms for class above the second grade now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory-education law, is hereby reappropriated and made immediately available for the purchase, erection, equipment, and maintenance of portable schoolhouses for temporary use.		
Total, miscellaneous.....	\$413,340	
<i>Buildings and Grounds, Public Schools—</i>		
For the completion of a normal school building for colored pupils (act Mar. 2, 1911, vol. 36, pp. 988, 989, sec. 1; submitted).....	125,000.00	
For the purchase of additional ground adjacent to the Corcoran School, for the extension of said school, to be immediately available (submitted).....	11,000.00	
NOTE.—An appropriation of \$9,000 was made for a similar purpose in the District appropriation act for 1912. This was found to be insufficient to purchase the area of ground contemplated.		
For the construction of a 4-room addition to the Corcoran School (submitted).....	38,000.00	
NOTE.—The lot on which it is proposed to erect this addition is below grade and will require extensive foundations.		
Toward the construction of a new Central High School building, including grading and other work necessary to prepare the site for the building, and the total cost of said building, under a contract which is hereby authorized therefor, shall not exceed \$725,000 (submitted).....	250,000.00	
	\$2,429,840.00	\$2,396,435.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Buildings and Grounds, Public Schools—Continued.</i>		
Toward the construction of a new (colored) M Street High School, and the total cost of said building, under a contract which is hereby authorized therefor, shall not exceed \$400,000 (submitted).....	\$150,000.00	
NOTE.—The present attendance at this school is 700 scholars, and the building herein proposed to be constructed will provide for a natural increase to 1,000 scholars.		
For the erection of an 8-room extensible building on the site purchased west of Soldiers' Home grounds, south of Rock Creek Road (submitted).....	66,000.00	
For the construction of a 4-room annex to the Takoma School (submitted).....	36,000.00	
NOTE.—The present building will not permit of an addition, and it is proposed to erect the annex on the site and to connect it with the present building.		
For the construction of a 4-room annex to the Chevy Chase School, including grading of site (submitted).....	36,000.00	
For the construction of a 4-room annex to the Birney School (submitted).....	35,000.00	
NOTE.—The present building will not permit of an addition, and it is proposed to erect the annex on the site and to connect it with the present building.		
For additional amount for "Repairs and improvements to school buildings and grounds," for the purpose of completing fire protection, such as fireproofing heating apparatus, fireproofing corridors, alterations to heating and vent flues, and the construction of fireproof structures for fuel and ashes, and the purchase and erection of fire extinguishers and fire gongs, to be immediately available (decrease of \$12,500 submitted) (act Mar. 2, 1911, vol. 36, pp. 983, 989, sec. 1).....	25,000.00	
NOTE.—This amount will complete all work of this character now necessary.		
That the total cost of the sites and of the several and respective buildings herein provided for, when completed upon plans and specifications to be previously made and approved, shall not exceed the several and respective sums of money herein respectively appropriated or authorized for such purposes.		
That the plans and specifications for all buildings provided for in this act shall be prepared under the supervision of the municipal architect of the District of Columbia and shall be approved by the Commissioners of the District of Columbia, and shall be constructed in conformity thereto.		
School buildings authorized and appropriated for herein shall be constructed with all doors intended to be used as exits or entrances opening outward and each of said buildings having in excess of eight rooms shall have at least four exits. No part of any appropriation carried in this act shall be used for the maintenance of school in any building unless all outside doors thereto used as exits or entrances shall open outward and be kept unlocked every school day from one-half hour before until one-half hour after school hours.		
All appropriations for sites for school buildings and for the construction of school buildings contained in this act are hereby made immediately available.		
Any balance of an appropriation made in this act for the purchase of a site for a building, or for the purchase of a site and the erection thereon of a building, which may remain after the purchase of the site, may be used to grade and fence such site and otherwise make it available for building purposes, including the removal of any structures therefrom, and shall also be available toward the preparation of plans and specifications for the building authorized to be constructed on such site.		
<i>Columbia Institution for the Deaf—</i>		
For the maintenance and tuition of the beneficiaries of the District of Columbia in the Columbia Institution for the Deaf (increase of \$550 submitted) (R. S., p. 942, sec. 4864; acts June 16, 1880, vol. 21, p. 275, sec. 1; Mar. 2, 1889, vol. 25, p. 962, sec. 1; Mar. 1, 1901, vol. 31, p. 844, sec. 1; Mar. 2, 1911, vol. 36, p. 989, sec. 1).....	11,550.00	11,000.00
NOTE (by president of Columbia Institution for Deaf).—I inclose estimates for the maintenance and tuition of the District of Columbia beneficiaries in the Columbia Institution for the Deaf for the fiscal year to end June 30, 1913. This estimate is for \$350 per capita for 33 pupils, or a total of \$11,550, and I request that you include the same in estimates for the support of the District of Columbia. You will note that we are asking for an appropriation of \$350 per capita for the said beneficiaries. The expense for the maintenance and instruction of the deaf children in large institutions like the School for the Deaf at Mount Airy, Pa., and the New York Institution for the Deaf at Washington Heights has varied from \$326 to \$366 per capita during the past year. We are endeavoring to give to the pupils from the District of Columbia the very best care and instruction, and I do not see how it will be possible to do this at a less cost than the estimate submitted.		
<i>Education of Colored Deaf-Mutes—</i>		
For the maintenance and tuition of colored deaf-mutes of teachable age belonging to the District of Columbia in the Maryland School for Colored Deaf-Mutes, as authorized in an act of Congress approved Mar. 3, 1905, and under a contract to be entered into by the Commissioners of the District of Columbia \$6,000, or so much thereof as may be necessary (acts Mar. 3, 1905, vol. 33, p. 901, sec. 1; Mar. 2, 1911, vol. 36, p. 989, sec. 1).....	6,000.00	6,000.00
<i>Instruction of Indigent Blind Children—</i>		
For the instruction of indigent blind children of the District of Columbia in Maryland or some other State under a contract to be entered into by the Commissioners of the District of Columbia, \$6,000, or so much thereof as may be necessary (act Mar. 2, 1911, vol. 36, p. 989, sec. 1).....	6,000.00	6,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Metropolitan Police—</i>		
Major and superintendent (acts June 11, 1878, vol. 20, p. 104, sec. 3; June 8, 1906, vol. 34, pp. 221-223, sec. 1; Mar. 2, 1911, vol. 36, p. 990, sec. 1).....	\$4,000.00	
Assistant superintendent, with rank of inspector (same acts).....	2,500.00	
Four inspectors, at \$1,800 each (1 additional submitted) (same acts).....	7,200.00	
<p>NOTE.—The present appropriation provides for 3 inspectors at a salary of \$1,800 each. One of these is employed at police headquarters, where he receives and disposes of the morning and special reports received from the captains of the eleven police precincts, forwarding to the major and superintendent those which should receive his attention; he also passes on applications for leave of absence, gives to the captains and other officers of the force such general and special orders and instructions as directed by the major and superintendent; issues, as authorized, permits of a general and special character; receives all callers and complaints from the public; keeps all data regarding transfers and changes in the force as well as of detailed matters concerning the welfare of the public and department; acts as chairman of the retiring board; attends fires; makes special inspections where necessary; is present at emergency calls, and performs other duties of a miscellaneous character both by day and night.</p> <p>A second inspector is in charge of the property of the department and must keep a record of all that is received and expended at the various station houses, taking into account everything charged to the department; observe all deficiencies in the care of such property as wagons, harness, horses, beds, bedding, furniture of all kinds, supplies, etc.; inspects clothing, helmets, and equipments; directs the measurement and making of all new garments for members of the force; supervises target practice; officiates as a member of the Metropolitan Police Trial Board in the hearing of charges against members of the force who have been cited to appear for violating the regulations, and performs various other duties imposed upon him from time to time by the major and superintendent.</p> <p>The third inspector is employed day and night looking after the working of the force on the various beats and posts; supervises the keeping of the records at the several station houses, observing the demeanor of the men generally, noting shortcomings and making special reports thereof; investigating all complaints against members of the force as may be made to headquarters, and directs the three sergeants who act as his assistants in seeing that officers perform the duties assigned to them in the various precincts on the hundreds of beats, and performs multitudinous special duties which are assigned to him at usual and unusual hours.</p> <p>The growth of the District and the many features involved in its progress makes it absolutely necessary that it be divided into two police districts, and for this purpose another inspector is asked for to conduct a similar service to that just recited. Prior to the passage of the act known as the "Reorganization act," there were 4 captains of police, but only 3 under the amended act were promoted to be inspectors. This reduced the number of men for the purpose desired by 1, and now it is proposed that this assistant shall be had, otherwise the major and superintendent will be forced to sacrifice the presence and aid of the officer now at headquarters.</p>		
Eleven captains, at \$1,600 each (increase of \$100 each submitted) (same acts).....	17,600.00	
<p>NOTE.—An increase of \$100 is recommended in the salary of each of the 11 captains. At present they receive \$1,500, but with the high cost of living, house rent, and taking into consideration that they must pay for their own uniforms, it is but just that they should receive this small advance.</p>		
Chief clerk, who shall also be property clerk (same acts).....	2,000.00	
Clerk and stenographer (same acts).....	1,500.00	
Clerk, who shall be assistant property clerk (same acts).....	1,200.00	
Three clerks, stenographers, at \$1,080 each (increase of \$80 each submitted) (same acts).....	3,240.00	
<p>NOTE.—The 3 clerks included in the present appropriation act at \$1,000 each are stenographers, 1 of whom is constantly employed either in taking or transcribing the proceedings had before the Metropolitan Police Trial Board, or court martial; 1 acts as clerk to the chief of detectives, in looking after all matters of correspondence, and a third is engaged on like work in the office of the superintendent and chief clerk. They must labor on Sundays and on days when the clerks in other departments are free from service and often after hours. The inducement to keep them in the department is salary, and an advance of \$80 per year for each of these young men is asked.</p>		
Four surgeons of the police and fire departments, at \$800 each (increase of \$80 each submitted) (same acts).....	3,200.00	
<p>NOTE.—The 4 surgeons who attend the sick and injured members of the police force are also required to look after members of the fire department who may become sick or disabled; and the responsibility for incapacitated members going off and returning to duty rests entirely upon the decision of the surgeons; in other words, a man is relieved from or put in service upon their judgment. Members must be visited by the surgeons when in their charge, and often sickness of long duration or disabilities require skilled treatment. Besides this, all applicants for either force are subjected to an established physical test before the board to ascertain if they possess the necessary qualifications.</p>		
Additional compensation for 20 privates detailed for special service in the detection and prevention of crime, or so much thereof as may be necessary (same acts).....	4,800.00	
Fourteen lieutenants, 1 of whom shall be harbor master, at \$1,320 each (1 additional submitted) (same acts).....	18,480.00	
<p>NOTE.—The seventh police precinct embraces all that territory west of Rock Creek and north of Georgetown to the Maryland line. In this territory are valuable properties, including the Zoological and Rock Creek Parks, Chevy Chase, Cleveland Park, Tenleytown, and the rapidly growing section west of Rock Creek. A substation has been established at Tenleytown with no officer in charge other than the sergeant who may be detailed during the different reliefs. The appointment of a lieutenant is a necessity.</p>		
Fifty sergeants, 1 of whom may be detailed for duty in the harbor patrol, at \$1,250 each (4 additional submitted) (same acts).....	62,500.00	
<p>NOTE.—For several years the full quota of sergeants has been lacking in the force, and it has been necessary to detail privates to act as such, conferring upon them the rank of acting sergeant.</p>		
One sergeant, who shall have charge of the local bureau of criminal identification (submitted).....	1,250.00	
<p>NOTE.—In order to keep pace with conditions, there should be a sergeant to conduct the local bureau of criminal identification, the homicide record, and those wherein are kept memoranda of accidents of all kinds.</p>		
Five hundred and twenty-two privates of class 3, at \$1,200 each (decrease of 15 privates submitted) (acts June 8, 1906, vol. 34, p. 221, sec. 1; Mar. 2, 1911, vol. 36, p. 990, sec. 1).....	626,400.00	
NOTE.—The above number of privates of class 3 must be provided under the operation of existing law.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Metropolitan Police—Continued.</i>		
Eighty-seven privates of class 2, at \$1,080 each (24 additional submitted) (acts June 8, 1906, vol. 34, p. 221, sec. 1; Mar. 2, 1911, vol. 36, p. 990, sec. 1).....	\$93,960.00	
NOTE.—Under the automatic system of promotion, the above number of privates of class 2 must be provided for.		
Sixty-six privates of class 1, at \$900 each (6 additional submitted) (same acts).....	59,400.00	
NOTE.—In support of this recommendation, attention is invited to the report of hearings on H. R. bill 22322, wherein the Commissioners of the District of Columbia have inserted, on page 40, a detailed statement of the situation in this jurisdiction, together with comparisons.		
Amount required to pay salaries of privates of class 2 who will be promoted to class 3 and privates of class 1 who will be promoted to class 2 during the fiscal year 1913 (decrease of \$989 submitted) (same acts).....	1,720.50	
NOTE.—The above amount will be required to comply with the law relative to automatic promotions.		
Six telephone operators, at \$900 each (increase of \$180 each submitted) (same acts).....	5,400.00	
NOTE.—The telephone operators of this department receive \$720 per annum. They not only operate the switchboard, but must keep a record of everything that transpires and receives the attention of the police. Their hours are long and their work tedious, and they are entitled to the small increase recommended.		
Fourteen janitors, at \$600 each (same acts).....	8,400.00	
Messenger (same acts).....	700.00	
Messenger (increase of \$100 submitted) (same acts).....	600.00	
NOTE.—In view of the high cost of necessities and the prolonged hours of work required of the messengers employed in this department, the above increase is recommended.		
Inspector, mounted (increase of \$20 submitted) (same acts).....	260.00	
NOTE.—The estimated amount is that allowed the other members of the mounted force.		
Sixty captains, lieutenants, sergeants, and privates, mounted on horses or motor cycles, at \$260 each (5 additional submitted) (same acts).....	15,600.00	
NOTE.—The great advance made in the suburbs of the District through the construction of all kinds of improvements, the extension of highways, the development of Rock Creek and other parks, and the need of protection for the various villages and towns indicate the necessity for this addition to the mounted force.		
Sixty-four lieutenants, sergeants, and privates, mounted on bicycles, at \$50 each (same acts).....	3,200.00	
Twenty-seven drivers, or chauffeurs, at \$720 each (1 additional submitted) (same acts).....	19,440.00	
NOTE.—In view of the fact that the department has had provided for its use a motor vehicle it is important, aside from knowing how to operate such a machine, that there shall be some man in the department fully equipped to make the repairs and necessary changes from time to time, and if provision is made for an additional motor vehicle for use at police headquarters, the importance of the recommendation is emphasized. There should be 27 drivers, or chauffeurs, instead of 26 drivers, at \$720 each.		
Three police matrons, at \$600 each (same acts).....	1,800.00	
To aid in the support of the National Bureau of Criminal Identification, to be expended under the direction of the Commissioners of the District of Columbia, provided the several departments of the General Government may be entitled to like information from time to time as is accorded the police departments of various municipalities privileged to membership therein (same acts).....	3,000.00	
Total.....	\$969,350.50	
<i>Miscellaneous:</i>		
Fuel (same acts).....	4,000.00	
Repairs and improvements to police stations and grounds, to be immediately available (same acts).....	5,500.00	
For miscellaneous and contingent expenses, including the purchase of new wagons, rewards for fugitives, modern revolvers, maintenance of card system, stationery, city directories, books of reference, periodicals, telegraphing, telephoning, photographs, printing, binding, gas, ice, washing, meals for prisoners, furniture and repairs thereto, beds and bed clothing, insignia of office, purchase of horses, horse and vehicle for superintendent, bicycles, motor cycles, police equipments, and repairs to the same, harness, forage, repairs to vehicles, van, patrol wagons, motor patrol, and saddles, mounted equipments, and expenses incurred in the prevention and detection of crime, and other necessary expenses (same acts).....	36,000.00	
Of which amount a sum not exceeding \$500 may hereafter be expended by the major and superintendent of police for the prevention and detection of crime under his certificate, approved by the Commissioners of the District of Columbia, and every such certificate shall be deemed a sufficient voucher for the sum therein expressed to have been expended: <i>Provided</i> , That the War Department may, in its discretion, furnish the District Commissioners, for the use of the police, upon requisition, such worn mounted equipments as may be required.		
NOTE.—A change in the above list of items is made by adding books of reference, in order that the department may be provided with such books, when required.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Metropolitan Police—Continued.</i>		
Miscellaneous—Continued.		
Flags and halyards (submitted).....	\$100.00	
NOTE.—No appropriation was made for the current year for flags and halyards, and it will be necessary that such be afforded for the next.		
One motor patrol wagon (submitted).....	3,000.00	
NOTE.—An additional motor patrol wagon is asked for, its expeditiousness being conclusively established.		
One motor vehicle for the use of the major and superintendent (submitted).....	1,000.00	
NOTE.—The major and superintendent has for many years been allowed a horse, vehicle, and driver.		
For the reconstruction of cell corridors and the making, erecting, and placing therein in the second, third, seventh, and ninth precinct station houses 8 modern locking appliances (acts June 8, 1906, vol. 34, p. 221, sec. 1; Mar. 2, 1911, vol. 36, p. 991, sec. 1).....	18,080.00	
NOTE.—There are times when prisoners must be confined in these cells in numbers, which adds a severe penalty to the restraint, and in the heated season of the year it is especially oppressive. The enlargement of the window spaces and the erection of up-to-date steel cages, together with the latest sewer connection and safety appliances, are necessary.		
For the purchase of a site for the erection of a station house in the suburban section of the District of Columbia between the ninth and tenth police precincts (submitted).....	2,500.00	
NOTE.—In keeping with the growth of the District, the purchase of a lot for a site for a future station house in the suburban section of the District between the ninth and tenth police precincts is advisable.		
Total, miscellaneous	\$70,180	
House of Detention:		
To enable the Commissioners of the District of Columbia to provide transportation, including the purchase and maintenance of necessary horses, wagons and harness, and a suitable place for the reception, transportation, and detention of children under 17 years of age, and, in the discretion of the commissioners, of girls and women over 17 years of age, arrested by the police on charge of offense against any law in force in the District of Columbia, or held as witnesses, or held pending final investigation or examination, or otherwise, as follows:		
Two clerks, at \$900 each (acts July 1, 1902, vol. 32, p. 607, sec. 1; Mar. 2, 1911, vol. 36, p. 991, sec. 1).....	1,800.00	
Four drivers, at \$600 each (same acts).....	2,400.00	
One hostler (increase of \$60 submitted) (same acts).....	600.00	
NOTE.—An increase is recommended in the pay of the hostler in order to make his compensation the same as the drivers in this service.		
Six guards, at \$600 each (same acts).....	3,600.00	
Three matrons, at \$600 each (same acts).....	1,800.00	
Miscellaneous expenses, including rent, forage, fuel, gas, horseshoeing, ice, laundry, meals, horses, wagons and harness and repairs to same, and other necessary expenses (same acts).....	3,440.00	
Total, House of Detention.....	\$13,640	
Harbor patrol:		
Two engineers, at \$1,000 each (act Mar. 2, 1911, vol. 36, p. 991, sec. 1).....	2,000.00	
One watchman (same act).....	540.00	
Two deck hands, at \$540 each (same act).....	1,080.00	
Fuel, construction, maintenance, repairs, and incidentals (same act).....	2,000.00	
For the purchase or construction of one motor boat for the police and harbor patrol, by contract or otherwise, as the commissioners in their discretion may deem most advantageous for the public service (submitted).....	10,000.00	
	\$1,068,790.50	\$1,025,789.50
NOTE.—The present police boat is practically worn out and is expensive to operate. A motor boat can be managed much more effectively and economically.		
The District has a water front of 22 miles which requires the constant attention of the harbor police, extending from the Chain Bridge to Jones Point Light House, Alexandria, Va., and thence to the District of Columbia boundary line northeast, thus doubling the distance. This entire route must be looked after and guarded, as there are many boathouses and other property along the banks of the river from the Chain Bridge to the Benning Bridge.		
This territory also includes marshes where game birds at certain seasons are found in abundance and require protection under the game laws of the District.		
Total, harbor patrol.....	\$15,620	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
Fire Department—		
Chief engineer (acts June 11, 1878, vol. 20, p. 104, sec. 3; June 20, 1906, vol. 34, pp. 314, 315, secs. 1-7; Mar. 2, 1911, vol. 36, p. 991, sec. 1).....	\$3,500.00	
Deputy chief engineer (same acts).....	2,500.00	
Four battalion chief engineers, \$2,000 each (1 additional submitted) (same acts).....	8,000.00	
NOTE.—The additional battalion chief is intended to cover the large territory included in Mount Pleasant, Brightwood, Petworth, Cleveland Park, Takoma Park, Chevy Chase, Tenleytown, Lanier Heights, and Washington Heights, which have grown so rapidly in recent years. This territory is now divided between two battalion chiefs who should not be required to respond to alarms outside of the downtown and business sections of the city. At present they are often required to respond to fires more than 5 miles from their quarters, and, as the result of the time consumed in reaching the scene, are seldom, if ever, able to properly supervise and direct the work of the firemen.		
Fire marshal (same acts).....	2,000.00	
Deputy fire marshal (same acts).....	1,400.00	
Two inspectors, at \$1,080 each (same acts).....	2,160.00	
Chief clerk (same acts).....	1,800.00	
Clerk (same acts).....	1,200.00	
Thirty-seven captains, at \$1,400 each (same acts).....	51,800.00	
Thirty-nine lieutenants, at \$1,200 each (1 additional submitted) (same acts).....	46,800.00	
NOTE.—This additional lieutenant is for the new truck company in Tenleytown provided for by the Sixty-first Congress.		
Superintendent of machinery (same acts).....	2,000.00	
Assistant superintendent of machinery (same acts).....	1,200.00	
Twenty-three engineers, at \$1,200 each (increase of \$50 each submitted) (same acts).....	27,600.00	
NOTE.—This increase in the salary of the engineers of the fire department is recommended in view of the fact that they are not in the line of promotion to higher grades. They are appointed and remain as engineers throughout their term of service. The majority of the engineers in the fire department have served for more than 15 years. The following shows the salary paid engineers in this department and the salary paid such employees in other cities of similar size: District of Columbia, \$1,150; Detroit, \$1,200; St. Paul, \$1,200; St. Louis, \$1,320; Newark, \$1,300; Cincinnati, \$1,272; Cleveland, \$1,311; Milwaukee, \$1,380.		
Twenty-three assistant engineers, at \$1,100 each (same acts).....	25,300.00	
Two pilots, at \$1,150 each (same acts).....	2,300.00	
Two marine engineers, at \$1,200 each (increase of \$50 each submitted) (same acts).....	2,400.00	
NOTE.—This increase in the salary of the marine engineers is recommended in view of the fact that they are not in the line of promotion to higher grades. They are appointed and remain as marine engineers throughout their term of service.		
Two assistant marine engineers, at \$1,100 each (same acts).....	2,200.00	
Two marine firemen, at \$750 each (increase of \$30 each submitted) (same acts).....	1,500.00	
NOTE.—These men now receive a salary of \$720 per year or \$60 per month. They are required to furnish their own uniforms. There is no promotion attached to this position and the incumbents are not eligible for pension.		
Thirty-nine drivers, at \$1,150 each (1 additional submitted) (same acts).....	44,850.00	
NOTE.—This additional driver is for the new truck company in Tenleytown provided for by the Sixty-first Congress.		
Thirty-nine assistant drivers, at \$1,100 each (1 additional submitted) (same acts).....	42,900.00	
NOTE.—This additional assistant driver is for the new truck company in Tenleytown provided for by the Sixty-first Congress.		
Two hundred and nineteen privates of class 2, at \$1,080 each (6 additional submitted) (same acts).....	236,520.00	
NOTE.—These six additional privates of class 2 are for the new truck company in Tenleytown provided for by the Sixty-first Congress.		
Forty-two privates of class 1, at \$960 each (2 additional submitted) (same acts).....	40,320.00	
NOTE.—These two additional privates of class 1 are for the new truck company in Tenleytown provided for by the Sixty-first Congress.		
Hostler (same acts).....	600.00	
Messenger at fire department headquarters (submitted).....	540.00	
NOTE.—Fire department headquarters has never been provided with a messenger. It is now necessary to detail a uniformed private to perform such service. By allowing this messenger, the department will be benefited by the return of the uniformed private to the company from which he came.		
Laborer (act Mar. 2, 1911, vol. 36, p. 991, sec. 1).....	480.00	

Provided, That hereafter no member of the fire department shall, unless on leave of absence, go beyond the confines of the District of Columbia, or be absent from duty without permission; and leaves of absence exceeding 20 days in any one year shall be without pay, and require the consent of the commissioners, and such year shall be from January 1 to December 31, both inclusive, and 30 days shall be the term of total sick leave in any year, without disallowance of

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Fire Department—Continued.</i>		
pay; and that leave of absence, with pay, of members of the fire department of the District of Columbia, may be extended in cases of illness or injury incurred in line of duty upon recommendation of the board of surgeons approved by the Commissioners of the District of Columbia, for such period exceeding 30 days in any calendar year as in the judgment of the commissioners may be necessary.		
NOTE.—The appropriation act of Mar. 2, 1911, provided that members of the fire department should be allowed 30 days' sick leave per annum, and the sundry civil act of Mar. 4, 1911, provided that members of the fire department could be granted an additional 30 days' sick leave upon the recommendation of the board of surgeons, approved by the commissioners.		
If, therefore, a member of the fire department is absent from duty on account of sickness or injury incurred in line of duty for a period in excess of 60 days in any one calendar year, he must forfeit his pay for such excess period.		
Under existing regulations each member of a company is allowed one day off in every five days and the balance of the time is required to be on duty both day and night. If, however, one member of a company is absent on account of sickness or injury, the other members are only allowed one day off in every six days; if two men are absent the others are only allowed one day off in every nine days; and if more than two men are absent from any one company the other members are allowed no days off until one or more of the absent members return to duty. This operates to check any tendency to abuse of the privilege of sick leave.		
It is believed that it was not the intention of Congress to deprive the members of the fire department of pay for absence caused by sickness or injury incurred in line of duty. If, in the exceptional cases involved, firemen are not to be paid for leave of absence in excess of 60 days, when such absence is the result of sickness or injury incurred in the line of duty—and they and their families are compelled to suffer for such absence—it is apparent that the efficiency of the department may be seriously impaired, for it is safe to assume that firemen will hesitate to take the chance of being more or less seriously injured.		
Under authority of existing law the commissioners can so extend the amount of sick leave granted to members of the police department, and members of the fire department are unquestionably entitled to the same consideration.		
Total.....	\$551, 870	
<i>Miscellaneous:</i>		
For repairs and improvements to engine houses and grounds (increase of \$5,000 submitted) (acts June 11, 1878, vol. 20, p. 104, sec. 3; June 20, 1906, vol. 34, pp. 314, 315, secs. 1-7; Mar. 2, 1911, vol. 36, p. 992, sec. 1).....	\$17, 000. 00	
NOTE.—Several of the oldest engine houses in the fire department are in such urgent need of structural as well as sanitary improvements that they are hardly habitable, and this increase will take care of at least one of them.		
For repairs to apparatus and motor vehicles and other motor-driven apparatus, and for new apparatus and new appliances (increase of \$1,000 submitted) (same acts).....	15, 000. 00	
NOTE.—The amount estimated will be required to keep the different engines, trucks, wagons, etc., in proper condition and to purchase new appliances when needed. Each year the number of pieces of apparatus to be kept in order has increased without a proportionate increase in the appropriation.		
For purchase of hose (same acts).....	15, 000. 00	
For fuel (same acts).....	15, 000. 00	
For purchase of horses (same acts).....	15, 000. 00	
For forage (increase of \$1,250 submitted) (same acts).....	32, 250. 00	
NOTE.—The horses of the fire department are fed at an average cost of but \$10.75 per month per head. During the fiscal year 1913 the department will have fully 250 horses, and therefore an appropriation of \$32,250 will be necessary to avoid a deficiency.		
For repairs and improvements of the fire boat (increase of \$500 submitted) (same acts).....	1, 300. 00	
NOTE.—It is necessary to place the fire boat on a marine railway each year in order to have the bottom overhauled and repairs made to overcome such damage as may be sustained by the boat in breaking ice during the winter months. The boat must also be painted at least once a year. This boat has been in service since July, 1905, and it is now necessary to have new guards placed on it.		
For contingent expenses, horseshoeing, furniture, fixtures, oil, medical and stable supplies, harness, blacksmithing, gas and electric lighting, flags and halyards, and other necessary items (increase of \$1,000 submitted) (same acts).....	27, 000. 00	
NOTE.—This increase is asked in order to permit the proper maintenance of houses now in service and to provide for the new house to be erected during the current year.		
Total, miscellaneous.....	\$137, 550	
<i>Increase in fire department:</i>		
For repair and storage building, including cost of excavating, covering, and lining a cistern, and connecting said building with fire-alarm headquarters (act Mar. 2, 1911, vol. 36, p. 992, sec. 1; submitted).....	20, 000. 00	
NOTE.—This building is urgently needed. The apparatus of the department frequently requires immediate repair in order to place it in service without undue delay. This appropriation will result in a considerable saving, as repairs which now have to be made in outside shops on account of the lack of a repair shop could be readily made in this building. The reserve apparatus of the department could be stored in this building, thereby relieving the various engine houses of their present overcrowded condition. The cistern to be provided in connection with this building is badly needed, as the department now has no means whatsoever for testing the lifting power of its engines and for testing pumps on the same after repairs. This cistern would also be used for testing new engines before acceptance of the same. It is proposed to locate this building on land adjacent to No. 8 engine house, now owned by the government of the District of Columbia.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Fire Department—Continued.</i>		
Increase in fire department—Continued.		
For house, site, furniture, and furnishings for a truck company to be located in the north-east section of the city, in the vicinity of Twelfth and H Streets NE.; including cost of necessary instruments and connecting said house with fire-alarm headquarters (submitted).....	\$40,000.00	
NOTE.—The installation of this house will afford that section of the city, as well as adjacent suburbs, hook-and-ladder service, which is a very important factor in the saving of life and property in event of fire. The nearest truck company to this section is located on Eighth Street between D and E Streets SE., and this company is required to perform fire duty up to the District line, 4 miles from its quarters.		
For one aerial hook-and-ladder truck (submitted).....	10,000.00	
NOTE.—This truck is for the new truck company at Tenleytown provided for by the Sixty-first Congress.		
For one combination fire engine and hose wagon combined (submitted).....	9,000.00	
NOTE.—This engine is desired for No. 5 chemical house in Congress Heights, D. C. Owing to lack of water mains in Congress Heights the fire company located therein has heretofore been equipped with chemical engines only, such engines being of satisfactory service only in case of incipient fires. The water main has now been extended to Congress Heights and it is now practicable to equip the fire company with a pumping engine, motor propelled, in lieu of the chemical engine.		
Total, increase, etc.....	\$79,000	
<i>Health Department—</i>		
Health officer (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 992, sec. 1)...	4,000.00	
Assistant health officer, who shall be a physician, and during the absence or disability of the health officer shall act as health officer and discharge the duties incident to that position (same acts).....	2,500.00	
Chief clerk and deputy health officer (same acts).....	2,500.00	
Clerk (same acts).....	1,400.00	
Five clerks, two of whom may act as sanitary and food inspectors, at \$1,200 each (same acts)...	6,000.00	
Three clerks, at \$1,000 each (same acts).....	3,000.00	
Clerk (increase of \$180 submitted) (same acts).....	900.00	
NOTE.—The proposed increase is based solely on this clerk's increased usefulness to the health department.		
Chief sanitary inspector (change of title submitted) (same acts).....	1,800.00	
NOTE.—The chief inspector and deputy health officer is now assigned solely to the supervision of the <i>sanitary</i> inspection service, and the assistant chief inspector solely to the supervision of the food inspection service, each being responsible directly to the health officer. The results under this system have been more satisfactory than when the chief inspector and deputy health officer were held responsible for both services, and it is desired to adjust titles in accordance with existing organization. As the assistant health officer and the chief clerk are both authorized to act as health officer as occasion requires, it seems needless to carry the chief sanitary inspector as a deputy health officer also.		
Chief food inspector (change of title and increase of \$200 submitted) (same acts).....	1,800.00	
NOTE.—The proposed change in nomenclature is explained under the preceding item. The proposed increase in salary is based upon the character and quality of work incident to the position.		
Fourteen sanitary and food inspectors, at \$1,200 each (same acts).....	16,800.00	
Two inspectors, at \$1,000 each (same acts).....	2,000.00	
Two inspectors, at \$900 each (same acts).....	1,800.00	
Inspector of dairies and dairy farms, who shall be a veterinary surgeon (change of title and increase of \$300 submitted) (same acts).....	1,500.00	
NOTE.—The duties of inspectors of dairies and dairy farms require technical knowledge and skill, and this fact alone entitles such inspectors to salaries greater than those of the ordinary sanitary and food inspectors. The work of the inspectors of dairy farms, moreover, is such as frequently to require long hours, much in excess of those of the official day, and this, too, should be considered in fixing the salaries of such employees. The provision in the current appropriation act that the inspector now covered by this item shall act as inspector of live stock has been omitted, the current appropriation act providing that hereafter any inspector of dairies and dairy farms may act as inspector of live stock when directed by the health officer.		
Two inspectors of dairies and dairy farms, at least one of whom shall be a veterinary surgeon, at \$1,200 each (increase of \$200 each submitted) (same acts).....	2,400.00	
Two inspectors of dairies and dairy farms, at least one of whom shall be a veterinary surgeon, at \$1,080 each (increase of \$80 each submitted) (same acts).....	2,160.00	
Three inspectors of dairies and dairy farms, at least one of whom shall be a veterinary surgeon, at \$1,000 each (1 additional submitted) (same acts).....	3,000.00	
NOTE.—The reasons urged in connection with the fourth item above for the increase in the salary there proposed apply with equal force to the present cases. One additional inspector is needed on account of the growth of the service.		
Four sanitary and food inspectors to assist in the enforcement of the milk and pure-food laws and the regulations relating thereto, at \$1,000 each (increase of \$100 each submitted) (same acts).....	4,000.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Health Department—Continued.</i>		
One sanitary and food inspector to assist in the enforcement of the milk and pure-food laws and the regulations relating thereto, at \$900 (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 2, 1911, vol. 36, p. 992, sec. 1)	\$900. 00	
NOTE.—In order to retain competent men in this particular service, provision should be made for increasing their compensation.		
Sanitary and food inspector, who shall also inspect dairy products and shall be a practical chemist (same acts)	1, 800. 00	
Messenger and janitor (same acts)	600. 00	
Two skilled laborers, at \$600 (1 additional submitted) (same acts)	1, 200. 00	
NOTE.—A skilled laborer has been provided for the bacteriological laboratory. A considerable amount of time is, however, consumed in keeping clean the chemical laboratory and the apparatus used in it. Some of the apparatus, which might readily be cleaned by a skilled laborer, were one available, must now be cleaned by the chemist or by the inspector detailed to assist him. The result is loss of valuable time for the performance of actual chemical work. The services of a skilled laborer can economically be employed for the purpose named.		
Driver (same acts)	600. 00	
Poundmaster (same acts)	1, 500. 00	
Five laborers, at not exceeding \$50 per month (same acts)	3, 000. 00	
Total	\$67, 160	
<i>Miscellaneous:</i>		
For the enforcement of the provisions of an act to prevent the spread of contagious diseases in the District of Columbia, approved Mar. 3, 1897; an act for the prevention of scarlet fever, diphtheria, measles, whooping cough, chicken pox, epidemic cerebrospinal meningitis, and typhoid fever in the District of Columbia, approved Feb. 9, 1907; and an act to provide for registration of all cases of tuberculosis in the District of Columbia, for free examination of sputum in suspected cases and for preventing the spread of tuberculosis in said District, approved May 13, 1908, under the direction of the health officer of said District, and for the prevention of other communicable diseases, including salaries or compensation for personal services, not exceeding \$15,000 when ordered in writing by the commissioners, and necessary for the enforcement and execution of said acts, the purchase and maintenance of necessary horses, wagons, and harness, and 1 motor ambulance, rent of stables, purchase of reference books and medical journals, and maintenance of quarantine station and smallpox hospital: <i>Provided</i> , That any bacteriologist employed and paid under this appropriation may be assigned by the health officer to the bacteriological examination of milk, and of other dairy products, and of the water supplies of dairy farms, whether such examinations be or be not directly related to contagious diseases (increase of \$500 submitted) (acts Mar. 3, 1897, vol. 29, p. 635, secs. 1-32; Feb. 9, 1907, vol. 34, p. 889, secs. 1-5; May 13, 1908, vol. 35, p. 126, secs. 1-10; Mar. 2, 1911, vol. 36, p. 993, sec. 1)	25, 000. 00	
NOTE.—This appropriation must be large enough to allow a safe margin for emergencies; whether much or little will be used, beyond certain fixed charges, depends upon the prevalence of contagious diseases, and the prevalence of such diseases can not be definitely foreseen. Even a single case of Asiatic cholera, for instance, would constitute an added drain on this fund, and a few cases of that disease would seriously deplete it unless the amount is so fixed as to guard against such a contingency. The recent decision of the comptroller's office, that even though this appropriation be exhausted and even though contagious diseases prevail, the emergency fund can not be drawn upon to protect the public, constitutes an important reason for making this appropriation sufficiently large to guard against disaster.		
The motor ambulance, which it is desired to purchase, is intended for the transportation of patients suffering from minor contagious diseases to the hospitals provided for such cases. The ambulance now in use has to cover the entire District, sometimes making as many as five trips per day, and frequently has to be disinfected between trips, with resultant loss of time out of working period.		
For maintenance of the disinfecting service, including salaries or compensation for personal services when ordered in writing by the commissioners and necessary for the maintenance of said service, and for the purchase and maintenance of necessary horses, wagons, and harness, and 1 motor delivery wagon, and rent of stable (increase of \$2,500 submitted) (act Mar. 2, 1911, vol. 36, p. 993, sec. 1)	7, 500. 00	
NOTE.—The desired increase in this appropriation of \$2,500 is made up of two items: First, the proposed purchase of a motor wagon for the collection and delivery of goods from and to infected premises; second, the probable increase in the amount of disinfecting to be done, due in part at least to the more general recognition of the requirements of the law relating to the prevention of pulmonary tuberculosis with respect to disinfection. Ordinarily, 2 wagons are in use, and it is believed that 1 motor could be used with economy and increased efficiency.		
The amount of money that will be needed in the disinfecting service during any one year is dependent upon the extent to which communicable diseases prevail during that year, and therefore can not be definitely foretold. The fund is, to a certain extent, in the nature of an emergency fund.		
For a statement relative to the personal service account of the contagious disease and disinfecting services, see appendix, page —.		
For the enforcement of the provisions of an act to provide for the drainage of lots in the District of Columbia, approved May 19, 1896, and an act to provide for the abatement of nuisances in the District of Columbia by the commissioners of said District, and for other purposes, approved Apr. 14, 1906 (acts May 19, 1896, vol. 29, p. 125, secs. 1-4; Apr. 14, 1906, vol. 34, p. 114, secs. 1-4; Mar. 2, 1911, vol. 36, p. 993, sec. 1)	2, 500. 00	
NOTE.—Of this appropriation for 1911, the health department expended \$96.50 for the abatement of general nuisances. The engineer department, inspector of plumbing, expended \$790.21 for making sewer connections under the assessment system, and there are outstanding contracts in that department for similar work amounting to \$875.50 not paid. There are in the engineer department, however, many cases awaiting action, and for that reason the renewal of this appropriation at the present rate is recommended. As this appropriation is a general appropriation and not one pertaining particularly to the health department, it is recommended that it be taken from the health department's budget and placed among general appropriations, being distributed by the commissioners by allotment.

For special services in connection with the detection of the adulteration of drugs and of foods, including candy and milk (acts May 5, 1898, vol. 30, p. 398, secs. 1-4; Mar. 2, 1911, vol. 36, p. 993, sec. 1).....	\$100.00	
For the equipment and maintenance of the bacteriological laboratory, including the purchase of reference books and scientific journals (increase of \$200 submitted) (act Mar. 2, 1911, vol. 36, p. 993, sec. 1).....	1,000.00	
For the equipment and maintenance of the chemical laboratory, including the purchase of reference books and scientific journals (submitted).....	1,000.00	
NOTE.—The chemical laboratory has never been fully equipped, apparatus having been purchased from time to time as needed, from the appropriation for the enforcement of the food laws, and years ago from appropriation made specifically for the maintenance of the chemical laboratory. It has not been possible to keep pace with the increased demands made upon the laboratory, requiring new and improved apparatus, and increased and broadened work.		
For contingent expenses incident to the enforcement of an act to regulate the sale of milk in the District of Columbia, and for other purposes, approved March 2, 1895, an act relating to the adulteration of foods and drugs in the District of Columbia, approved Feb. 17, 1898; an act to prevent the adulteration of candy in the District of Columbia, approved May 5, 1898; an act for preventing the manufacture, sale or transportation of adulterated, or misbranded or poisonous or deleterious foods, drugs, medicines, and liquors, and for regulating traffic therein, and for other purposes, approved June 30, 1906, and for the purchase and maintenance of a package motor cycle (acts Mar. 2, 1895, vol. 28, p. 709, secs. 1-15; Feb. 17, 1898, vol. 30, p. 246, secs. 1-10; May 5, 1898, vol. 30, p. 398, secs. 1-4; June 30, 1906, vol. 34, p. 768, secs. 1-13; Mar. 2, 1911, vol. 36, p. 993, sec. 1).....	1,000.00	
NOTE.—It is believed that if special provision be made for the equipment and maintenance of the chemical laboratory, then that this appropriation, from which the laboratory has theretofore been equipped and maintained will be sufficient to permit the purchase and maintenance of a horse, harness, and vehicle, or even the purchase of a motor cycle. In the appropriation act passed May 18, 1910, provision was made for the purchase and maintenance of a package motor cycle, but the money appropriated was not sufficient to permit any such purchase to be made, and in the collection of samples for analysis, the department is still forced to rely on street cars and on the one general utility horse of the department, a condemned horse from some other branch of the Government, with consequent loss of inspector's time and limitation of his work.		
For necessary expenses of inspection of dairy farms, including amounts that may be allowed the health officer, and assistant health officer, medical inspector in charge of the contagious-disease service, and inspectors assigned to the inspection of dairy farms, for the maintenance by each of a horse and vehicle, or motor vehicle, for use in the discharge of his official duties, not to exceed \$365 per annum, and allowances for such other inspectors in the service of the health department as the commissioners may determine, of not exceeding \$100 per annum, for the maintenance of a motor cycle each, or of not exceeding \$25 per annum for the maintenance of a bicycle each, for use in the discharge of their official duties, and other necessary traveling expenses, \$6,000, or so much thereof as may be necessary (act Mar. 2, 1911, vol. 36, p. 994, sec. 1).....	6,000.00	
NOTE.—At present a very considerable part of the time of each sanitary and food inspector is consumed in the bare traveling from place to place where inspections must be made and notices served. Transportation is now provided by means of car tickets, which in some cases answer very well, but frequently is a time-consuming method of getting about. It is believed that if the commissioners are authorized to pay to certain of these inspectors an amount sufficient to enable them to maintain motor cycles or bicycles for use in connection with the discharge of their official duties, economy will be effected. It is not impossible that in some cases at least what is paid for the maintenance of motor vehicles or bicycles will be no greater than what is now paid for car fare, and even if it is, the increase in the working capacity of the inspector will be sufficient to offset such increased cost.		
Garfield and Providence Hospitals: For isolating wards for minor contagious diseases at Garfield Memorial and Providence hospitals, maintenance, \$6,000 and \$4,000, respectively, or so much thereof as may be necessary; in all, \$10,000 (same act).....	10,000.00	
For maintenance, including personal services, of the public crematory (same act).....	2,500.00	
For the hire of an additional pound wagon, including compensation for personal services when ordered in writing by the commissioners and necessary for the maintenance of said wagon, and all other extra expenses whatsoever connected therewith, \$900, or so much thereof as may be necessary, to be immediately available (submitted).....	900.00	
NOTE.—Only one impounding wagon can be operated with the present force. Experience has shown that even under ordinary conditions an additional wagon is needed at times to supplement the work of the regular force, and one is particularly needed now, owing to the prevalence of rabies. The amount asked would maintain a wagon about 150 days.		
For treatment of ponds of stagnant water, for the creation or maintenance of which the District government is responsible so as to prevent propagation of mosquitoes therein, including payment for personal services when necessary (submitted).....	500.00	
NOTE.—There is no fund upon which the commissioners can now draw for the purpose set forth above, and with a view to the prevention of malarial fever, the commissioners should be prepared to do such work.

and authorized in writing by the commissioners and for the subsequent care and preservation of said exhibit (submitted).....	\$2,000.00	
NOTE.—The commissioners, on June 22, 1911, appointed a committee to cooperate with the committee on organization of the International Congress on Hygiene and Demography with a view to the preparation and display in connection with said congress of an exhibit on behalf of the District of Columbia. This committee met on the 16th instant, and after conference with the secretary general of the congress and with the director of the exhibit instructed me to request the commissioners to include in their estimates for the fiscal year ending June 30, 1913, an item substantially as above. This estimate is intended to cover all desirable exhibits from the various branches of the District government, a proper exhibit of the water purification system of said District, and the preparation, if necessary, of suitable exhibits to show the work being done by various philanthropic agencies in the District engaged in work along sanitary lines.	\$127,160.00	\$126,940.00

Juvenile court—Continued.		
Chief probation officer (increase of \$100 submitted) (acts Mar. 19, 1906, vol. 34, pp. 73-78, secs. 1-26; Mar. 2, 1911, vol. 36, p. 994, sec. 1).....	\$1,600.00	
Probation officer (same acts).....	1,200.00	
Probation officer (same acts).....	1,000.00	
Probation officer (submitted).....	840.00	
NOTE BY JUDGE.—Last year 1,046 children were cared for by the method of probation which leaves the children in their own homes, to their manifest benefit and a clear saving to the taxpayers of \$100,000 per annum. Moreover, the probation officers are being used in preventive work. For instance, the probation officers visit the club and theater districts two evenings a week to note children unattended by adults, to speak with such children in order to ascertain the cause of their absence from their homes, to accompany them to their homes if necessary, and to otherwise urge them to remain in their homes after dark. It is hoped in this way to gradually eliminate the abuse of children on the streets at night. Experience demonstrates that not more than 50 children under 14 are thus on the streets in the evening hours throughout the District. The problem can be solved without a curfew law by dealing with both children and parents in this way.		
Bailiff (acts Mar. 19, 1906, vol. 34, pp. 73-78, secs. 1-26; Mar. 2, 1911, vol. 36, p. 994, sec. 1).....	700.00

For furniture, fixtures, and equipments, and repairs to the courthouse and grounds (same acts).....	300.00	
For fuel, ice, gas, and laundry work, stationery, printing, law books, books of reference, periodicals, typewriter and repairs thereto, binding and rebinding, preservation of records, mops, brooms, and buckets, removal of ashes and refuse, telephone service, traveling expenses, and other incidental expenses not otherwise provided for (same acts).....	1,000.00	
For adding machine in clerk's office necessary in keeping financial records (submitted).....	260.00	
Total, miscellaneous.....	\$3,540	
Police court:		
Two judges, at \$3,600 each (R. S., D. C., p. 122, sec. 1042; acts Mar. 3, 1891, vol. 26, p. 848, sec. 6; Mar. 2, 1911, vol. 36, p. 995, sec. 1).....	7,200.00	
Clerk (increase of \$400 submitted) (same acts).....	2,400.00	
NOTE.—This increase to the clerk of the court, who is a bonded officer, is based upon the growth of the court and the increased magnitude and importance of his position. The present salary was fixed more than 40 years ago, upon the establishment of the court, and it has never been changed.		
Deputy clerk (increase of \$300 submitted) (same acts).....	1,800.00	
NOTE.—The highest salary paid a deputy clerk in the police court, under the existing law, is \$1,500. It is desired to increase the salary of the deputy clerk who acts constantly as clerk in one of the two branches of the court, and who has been for many years a faithful and valued employee.		
Deputy clerk (same acts).....	1,500.00	
Deputy clerk (increase of \$200 submitted) (same acts).....	1,400.00	
NOTE.—This recommendation is intended to increase the salary of a very efficient deputy from \$1,200 to \$1,400 per annum. He is engaged in exceedingly important work, writing up all the warrants that issue from the court, and he should have the increase proposed.		
Deputy clerk (same acts).....	1,200.00	
Deputy financial clerk (increase of \$100 submitted) (same acts).....	600.00	
NOTE.—The financial clerk is now paid but \$1,500 per annum. He is a bonded officer, an expert book-keeper, and handles yearly very large sums of money.		
Deputy clerk who shall be a competent and qualified stenographer and typewriter (submitted).....	900.00	
NOTE.—The services of an additional deputy clerk who shall be a competent male stenographer and typewriter are imperatively needed to enable the court to properly dispatch its very largely increased and constantly growing business. In past annual estimates for the police court requests for this additional deputy clerk have been passed apparently unheeded, to the detriment of the public service, and the time has now arrived when the increase must be allowed or the public interests be made to suffer very seriously and beyond our control.		
Seven bailiffs, at \$900 each (R. S., D. C., p. 122, sec. 1042; acts Mar. 3, 1891, vol. 26, p. 848, sec. 6; Mar. 2, 1911, vol. 36, p. 995, sec. 1).....	6,300.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Courts—Continued.</i>		
Police court—Continued.		
For additional compensation for 2 judges of the municipal court, while acting for the 2 judges of the police court during their vacations, \$5 each for each day of actual service, \$150 each (submitted).....	\$300.00	
NOTE. During the annual vacations of the judges of this court, which is their right, it devolves upon the judges of the municipal court to discharge their current court work, which duty is obligatory upon them, through official appointment from time to time, although without additional compensation. The judges of the municipal court are but 5 in number, one of whom is annually called upon to officiate in the vacation absence of the judge of the juvenile court, with additional compensation at the rate of \$5 per day for such service, payable through the annual deficiency appropriation act. So that from the remaining 4 judges of the municipal court 2 must officiate in the police court if the judges of that court avail themselves of their vacation rights. In view of these facts and that these extra duties are usually imposed upon the officially detailed judges during the trying weather of the summer months, and that they are called upon to discharge the duties of an office to which there is attached a much higher salary than their own, as municipal court judges, it is respectfully urged the justice of allowing them extra compensation as estimated for.		
Total.....	\$30,580	
Miscellaneous:		
For printing, law books, books of reference, directories, periodicals, stationery, binding and rebinding, preservation of records, typewriters and repairs thereto, fuel, ice, gas, electric lights and power, telephone service, laundry work, removal of ashes and rubbish, mops, brooms, buckets, dusters, sponges, painters' and plumbers' supplies, toilet articles, medicines, soap and disinfectants, United States flags and hall-wards, and for all other necessary and incidental expenses of every kind not otherwise provided for (increase of \$250 submitted) (R. S., D. C., p. 122, sec. 1042; acts Mar. 3, 1891, vol. 26, p. 848, sec. 6; Mar. 2, 1911, vol. 36, p. 995, sec. 1).....	2,500.00	
For witness fees (same acts).....	4,000.00	
For furniture for the police court and repairing and replacing same (increase of \$150 submitted) (same acts).....	350.00	
For meals of jurors and bailiffs in attendance upon them when ordered by the court (same acts).....	100.00	
For compensation of jurors (same acts).....	10,000.00	
For repairs to police court building, to be immediately available (same acts).....	1,000.00	
Total, miscellaneous.....	\$17,950	
Municipal court:		
Five judges, at \$2,500 each (acts Feb. 17, 1909, vol. 35, p. 623, sec. 1; Mar. 2, 1911, vol. 36, p. 995, sec. 1).....	12,500.00	
Clerk (same acts).....	1,500.00	
Three assistant clerks, at \$1,000 each (same acts).....	3,000.00	
Janitor (same acts).....	600.00	
Messenger (submitted).....	600.00	
NOTE.—There is no employee of this court whose services are available for preserving order, directing litigants to the proper rooms, taking charge of witnesses, calling witnesses, and performing various other duties incident to this work. This allowance is urgently recommended.		
Total.....	\$18,200	
Miscellaneous:		
For rent of building (acts Feb. 17, 1909, vol. 35, p. 623, sec. 1; Mar. 2, 1911, vol. 36, p. 995, sec. 1).....	1,500.00	
For contingent expenses, including books, law books, books of reference, fuel, light, telephone, blanks, dockets, and all other necessary miscellaneous items and supplies (increase of \$150 submitted) (same acts).....	900.00	
NOTE.—Expenses incident to the increase in business make it necessary that the contingent allowance be increased.		
One model C Burroughs adding machine (submitted).....	260.00	
NOTE.—This machine has been on trial in this office for some months and has demonstrated its great value as a labor saving device, and its purchase is urgently recommended.		
Total, miscellaneous.....	\$2,660	
<i>Writs of Lunacy—</i>		
To defray the expenses attending the execution of writs de lunatico inquirendo and commitments thereunder in all cases of indigent insane persons committed or sought to be committed to the Government Hospital for the Insane by order of the executive authority of the District of Columbia under the provisions of existing law, including the employment of an alienist at not exceeding \$1,000 per annum (acts Mar. 3, 1903, vol. 32, p. 1043, sec. 1; Apr. 27, 1904, vol. 33, p. 316, secs. 1, 7; Mar. 2, 1911, vol. 36, p. 995, sec. 1).....	2,800.00	2,800.00
<i>Interest and Sinking Fund—</i>		
For interest and sinking fund on the funded debt (acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 3, 1879, vol. 20, p. 410, sec. 1; Mar. 2, 1911, vol. 36, p. 995, sec. 1).....	975,408.00	975,408.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<i>Emergency Fund—</i>		
To be expended only in case of emergency, such as riot, pestilence, public insanitary conditions, calamity by flood or fire, and of like character, and in all cases of emergency not otherwise sufficiently provided for, in the discretion of the Commissioners of the District of Columbia (act Mar. 2, 1911, vol. 36, p. 996, sec. 1).....	\$8,000.00	\$8,000.00
<i>Provided</i> , That in the purchase of all articles provided for in this act no more than the market price shall be paid for any such articles, and all bids for any of such articles above the market price shall be rejected, and new bids received or the purchases made in open market, as may be most economical and advantageous to the District of Columbia.		
<i>Provided</i> , That hereafter formal written contracts with bond for work, or the purchase of supplies and materials, for the District of Columbia, shall be required only in cases where the cost of such work or supplies or materials exceeds the sum of \$1,000; but no work capable of execution under a single contract, nor any purchase of supplies or materials where the total expenditure involved is greater than \$1,000, shall be subdivided or lessened for the purpose of reducing the sum of money to be paid therefor to less than that amount; and all laws or parts of laws inconsistent with the provisions hereof are hereby repealed.		
<p>NOTE.—The reasons for the new wording in this item are as follows:</p> <p>1. Where bids are received, and it is apparent that they are unreasonable and in excess of the market price, the commissioners are now required to readvertise and to continue readvertising until satisfactory bids are received. The commissioners believe that once having advertised, and receiving unsatisfactory bids, they should have discretion to ask new bids, or to make all purchases in open market, as they may deem most economical and advantageous to the District of Columbia.</p> <p>2. An act of Congress approved June 28, 1906, requires the commissioners to enter into formal written contract, and to require a bond in all cases where the work, material, or supplies exceeds \$500 in amount. This limitation the commissioners believe should be increased to \$1,000. There are innumerable cases of doing work and purchasing supplies and materials where the work, supplies, and materials are to be furnished in a short time and where payment is not made until the work or materials or supplies is accepted by the commissioners. The delay in executing a formal contract and the furnishing of bond is such that often the work is done and the goods are delivered before a contract and bond can be executed. It would simplify the administration of affairs greatly to do away with a formal contract and bond in these minor cases where the amount involved is less than \$1,000.</p>		
<i>Support of Convicts—</i>		
For support, maintenance, and transportation of convicts transferred from the District of Columbia, to be expended under the direction of the Attorney General (increase of \$7,000 submitted) (acts Aug. 13, 1890, vol. 26, p. 408, sec. 1; Mar. 2, 1911, vol. 36, p. 996, sec. 1).....	55,000.00	48,000.00
<i>Salaries of Employees, Courthouse, District of Columbia—</i>		
For the following force necessary for the care and protection of the courthouse in the District of Columbia, under the direction of the United States marshal of the District of Columbia, to be expended under the direction of the Attorney General:		
Engineer (acts July 31, 1894, vol. 28, p. 202, sec. 1; Mar. 2, 1911, vol. 36, p. 996, sec. 1)....	\$1,200.00	
Three watchmen, at \$720 each (same acts).....	2,160.00	
Three firemen, at \$720 each (same acts).....	2,160.00	
Five laborers, at \$600 each (same acts).....	3,000.00	
Three messengers, at \$720 each (same acts).....	2,160.00	
	10,680.00	10,680.00
<i>Salaries of Employees, etc., Court of Appeals Building, District of Columbia—</i>		
For the following force, necessary for the care and protection of the court of appeals building: Three watchmen, at \$720 each (1 additional submitted) (act Mar. 2, 1911, vol. 36, p. 996, sec. 1).....	2,160.00	
NOTE.—Under the law these men can only be worked 8 hours a day each. One is on duty from 4 p. m. until midnight, and the other from midnight until 8 a. m. This leaves no provision for watching the building during the day or on Sundays or holidays, or for any absence or sickness. In other public buildings of this character 3 watchmen are provided, and it is desired that the matter be brought to the attention of Congress in order that the situation may be known.		
Elevator operator (same acts).....	720.00	
Three laborers, at \$480 each (same acts).....	1,440.00	
Mechanician (submitted).....	1,200.00	
NOTE.—There is a very large amount of heating and ventilating apparatus and an elevator in the building, which requires the attention of a skilled man. Up to this time the work has been attended to by an employee under the supervision of the officer in charge of the construction work of the building and in connection therewith. But the work of construction is practically completed, and this arrangement will end on June 30, 1911. Such a man is deemed absolutely essential for the proper care of the machinery in the building.		
<i>Provided</i> , That the clerk of the court of appeals shall be the custodian of said building, under the direction and supervision of the justices of said court.		
For mops, brooms, buckets, disinfectants, removal of refuse, electric current, electrical supplies, books, and all other necessary and incidental expenses not otherwise provided for, for the court of appeals building, District of Columbia (act Mar. 2, 1911, vol. 36, p. 996, sec. 1).....	900.00

Hospital nurse (submitted).....	480.00	
For the maintenance and operation of the District of Columbia Workhouse at Occoquan, Va., including the superintendence, custody, clothing, guarding, maintenance, care and support of prisoners; provisions, subsistence, medicine and hospital instruments, furniture, and quarters for guards and other employees and inmates; the operation of plants, including machinery, tools, material and purchase of plant and equipment; the purchase and maintenance of farm implements, live stock, tools, equipment, and miscellaneous items; transportation and means of transportation; maintenance and operation of means of transportation; and supplies and personal services, and all other necessary items (increase of \$2,000 submitted) (acts June 25, 1910, vol. 36, p. 786, sec. 1; Mar. 2, 1911, vol. 36, p. 1002, sec. 1).....	75,168.00	
For the repair, addition and construction of buildings, dormitories, barns, sheds, shops and cells; for the purchase of construction material, and for the purchase, repair and erection of machinery and equipment, including the employment of overseers, mechanics, and skilled laborers (same acts).....	37,000.00	
For the purchase or construction of a suitable boat to operate between the workhouse and the District of Columbia, by contract or otherwise as the commissioners in their discretion may deem most advantageous for the public service (submitted).....	25,000.00	
NOTE.—Estimates have been prepared which indicate that the transportation of guards, inmates, etc., to and from the workhouse and jail in conjunction with the transfer of supplies, fertilizer, etc., to that institution and the return therefrom of stone, brick, and other products, can be accomplished by river transportation at approximately half the cost of such service by rail; it is, therefore, in the interest of economy that the boat here estimated for should be provided and put in operation.		
For fuel, maintenance, \$15,000; manufacturing, \$17,500; in all (submitted).....	32,500.00	
MILITIA.		\$225,158.00
<i>Militia of the District of Columbia—</i>		\$193,000.00
For the following, to be expended under the authority and direction of the commanding general, who is hereby authorized and empowered to make necessary contracts and leases, namely:		
For rent of armories, offices, storehouses, and quarters for noncommissioned officers of the Army detailed for duty with the militia (acts Mar. 1, 1889, vol. 25, p. 780, sec. 58; May 11, 1898, vol. 30, p. 404, secs. 1-3; Mar. 2, 1911, vol. 36, p. 1004, sec. 1).....	17,664.00	
NOTE.—Heretofore this item was included in the appropriation for "Expenses of camp," etc.		
For expenses of camps, including hire of horses for officers required to be mounted, and such hire not to be deducted from their mounted pay, instruction, practice marches and practice cruises, drills and parades, fuel, light, heat, care and repair of armories, offices, storehouses, practice ships, boats, machinery, and dock, dredging alongside of dock, telephone service, premiums on bonds of officers, and for general incidental expenses of the service (same acts).....	30,560.00	
For lockers, furniture, and gymnastic apparatus for armories (same acts).....	1,000.00	
For printing, stationery, and postage (same acts).....	2,150.00	
For cleaning and repairing uniforms, arms and equipments, and contingent expenses (same acts).....	2,250.00	
For custodian in charge of United States property and storerooms (same acts).....	1,000.00	
Two clerks, office of the adjutant general, at \$1,000 each (1 additional submitted) (same acts).....	2,000.00	
NOTE.—The greatly increased amount of clerical work in the adjutant general's office incident upon the reorganization of the guard makes the employment of two skilled clerks absolutely necessary.		
For expenses of target practice and matches (same acts).....	1,250.00

KLINGLE VALLEY PARK AND HIGHWAY.		
<i>Klingle Valley Park and Highway—</i>		
For grading and improving Klingle Road between Woodley Road and Rock Creek (submitted).	12,000.00	
Under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia, the Commissioners of the District of Columbia are hereby authorized and directed to institute in the supreme court of the District of Columbia a proceeding in rem to condemn the land that may be necessary for highway and park purposes to preserve the Klingle Road Valley, comprising approximately 28½ acres, as shown on plans filed in the office of the engineer commissioner of the District of Columbia: <i>Provided, however</i> , That of the amount found to be due and awarded by the jury in said proceeding as damages for and in respect of the land to be condemned for said highway and park purposes, plus the costs and expenses of the proceeding taken pursuant hereto, not less than one-fourth shall be assessed by the jury as benefits.		
There is hereby appropriated \$190,000 to pay the costs and expenses of the condemnation proceeding taken pursuant hereto and for the payment of the amounts awarded as damages. The amounts assessed as benefits, when collected, shall be repaid to the revenues of the District of Columbia and of the United States in equal parts (submitted)	190,000.00	
NOTE. —The amount of land proposed to be taken by this condemnation is 28.5 acres, at an estimated cost of \$190,000, but it is provided that one-fourth of this cost shall be assessed against the property benefited. The improvement of the roadway contemplates the construction of a 24-foot macadam roadway with 3-foot gutters. The land proposed to be condemned lies on both sides of Connecticut Avenue along Klingle Road from Woodley Road to Rock Creek Park and consists of some of the most desirable land in the District of Columbia available for park purposes. It is covered with a magnificent growth of trees of great age and will make a most picturesque and beautiful addition to the park system. Unless the land is acquired at an early date improvements which are rapidly being made in this vicinity will require that it be graded for building purposes, and then this beautiful park area will become a dump until it is filled sufficiently to make it available for sale as building lots. This would lose to the District of Columbia a most beautiful natural park which could never be duplicated in this vicinity. This acquisition is more essential than any other land purchase now contemplated in the District of Columbia, as Klingle Ford Valley affords the only convenient entrance to the park system from a large portion of the District, and future generations may rightly condemn the present one if it permits the valley to be lost to public use.		
The true value of the land, based on the assessed value, which is two-thirds of the true value, is \$188,000. On the upper end of the Klingle Valley, about 1 mile through a recently made subdivision, a parked highway is being constructed at private expense, border parkings having been dedicated without cost to the District. This dedicated parkway will carry the entrance to Rock Creek Park that will be provided by the Klingle Valley purchase as far as Massachusetts Avenue.		
Another item in these estimates, providing for Rock Creek Drive and Lovers' Lane, will carry the route through to Georgetown, so that there may be expected to result a parked highway extending from Georgetown and all intermediate points into Rock Creek Park. In this connection see note attached to the Rock Creek Drive and Lovers' Lane item.		
ROCK CREEK DRIVE AND LOVERS' LANE.		
<i>Rock Creek Drive and Lovers' Lane—</i>		
For grading and improving Rock Creek Drive and Lovers' Lane, between Massachusetts Avenue and R Street NW. (submitted)	9,500.00	
Under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia the Commissioners of the District of Columbia are authorized and directed to institute in the supreme court of the District of Columbia a proceeding in rem to condemn the land that may be necessary to extend Rock Creek Drive NW. from Massachusetts Avenue southerly to Montrose Park, and to condemn any private interest in the land in Lovers' Lane lying between land taxed as parcels 39/10 and 39/11 and Montrose Park from T Street southerly to R Street NW., as shown on plans filed in the office of the engineer commissioner of the District of Columbia: <i>Provided, however</i> , That the entire amount found to be due and awarded by the jury in said proceeding as damages for and in respect of the land to be condemned, as provided for herein, plus the costs and expenses of the proceeding hereunder, shall be assessed by the jury as benefits.		
There is hereby appropriated the sum of \$15,000 to pay the costs and expenses of the condemnation proceedings taken pursuant hereto, and for the payment of the amounts awarded as damages, payable out of any money in the Treasury of the United States not otherwise appropriated: <i>Provided</i> , That one-half of the said sum of \$15,000, or so much thereof as may be expended, shall be reimbursed to the Treasury of the United States out of the revenues of		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
<p><i>Rock Creek Drive and Lovers' Lane—Continued.</i> the District of Columbia in four equal annual installments with interest at the rate of 3 per cent per annum upon the deferred payments. The amounts assessed as benefits, when collected, shall be repaid to the revenues of the District of Columbia and of the United States in equal parts: <i>Provided further</i>, That the Chief of Engineers of the United States Army is hereby directed to transfer to the jurisdiction of the Commissioners of the District of Columbia for highway purposes so much of Montrose Park as they deem necessary for the connecting highway herein authorized (submitted)</p>	\$15,000.00	
<p>NOTE.—This item will provide for a parked driveway from Georgetown to Massachusetts Avenue. In addition to this driveway lies a driveway being provided at private expense, connecting Massachusetts Avenue with Woodley Lane at a distance of about 1 mile. Along this driveway lies land that has been dedicated to the District for park purposes that will make this mile of drive almost equally desirable from a public standpoint to a road through a park, as, for instance, Rock Creek Park itself. The Woodley Road end of this road being constructed at private expense connects with the upper end of Klinge Valley. Another item of these estimates provides for the acquisition and construction of a road into Klinge Valley, at a distance from Woodley Road to the park of about 4,000 feet. The two items, to wit, the one to which this note is attached and the Klinge Valley items, should be considered together, inasmuch as together with the intermediate link above described they will afford a proper, even a beautiful, entrance to Rock Creek Park from Georgetown and intermediate points. The resulting parked highway will be about 2 miles long, and the cost will be exceedingly moderate. It is not known that any public benefits of such magnitude can be obtained anywhere in the District for anything like as small cost. The estimated cost of acquiring the land, 140,000 square feet, is \$14,000, but it is provided that the total cost of acquiring the land, including the costs and expenses of the proceeding, shall be assessed as benefits. It is proposed to widen Lovers' Lane by establishing a building restriction line between R and T Streets, and also by taking a small part of Montrose Park. This will make Lovers' Lane, now a narrow highway, 80 feet wide between R and T Streets. At T Street the highway will be widened to 110 feet and be continued at this width to Massachusetts Avenue. The provision providing for the transfer of a part of Montrose Park to the jurisdiction of the commissioners for highway purposes would probably involve a strip of the park 20 feet in width and about 1,000 feet in length, though the transfer of some additional land might be necessary. At present Montrose Park is only accessible to the city by way of M and P Streets, requiring quite a detour from the other park sections of the District.</p>		
PINEY BRANCH VALLEY HIGHWAY.		
<p><i>Piney Branch Valley Highway:</i> For grading and improving a low, level road from Beach Drive in Rock Creek Park running along the Piney Branch Valley to Sixteenth Street, and beyond Sixteenth Street so far as it may be necessary to return to the elevation of Sixteenth Street south of the bridge over Piney Branch with a suitable grade (submitted)</p>	\$24,000.00	
<p>For grading and improving a road from a point near the bridge over Piney Branch at Sixteenth Street in the road above described, running along the Piney Branch Valley to Fourteenth Street (submitted)</p>	21,000.00	
		45,000.00
<p>Under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia, the Commissioners of the District of Columbia are hereby authorized and directed to institute in the supreme court of the District of Columbia a proceeding in rem to condemn the land along and adjacent to the Piney Branch Valley and Arkansas Avenue between Sixteenth Street and Fourteenth Street NW., and the land adjacent to the Municipal Hospital Grounds between Fourteenth Street and Georgia Avenue NW., for park purposes, comprising in all approximately 42 acres of land, as shown on plans filed in the office of the engineer commissioner of the District of Columbia: <i>Provided, however</i>, That of the amount found to be due and awarded by the jury in said proceeding as damages for and in respect of the land to be condemned, as herein provided for, plus the costs and expenses of the proceeding taken pursuant hereto, not less than one-fourth shall be assessed by the jury as benefits.</p>		
<p>There is hereby appropriated the sum of \$252,000 to pay the costs and expenses of the condemnation proceeding, taken pursuant hereto, and for the payment of the amounts awarded as damages, payable out of any money in the Treasury of the United States not otherwise appropriated: <i>Provided</i>, That one-half of the said sum of \$252,000, or so much thereof as may be expended, shall be reimbursed to the Treasury of the United States out of the revenues of the District of Columbia in four equal annual installments, with interest at the rate of 3 per centum per annum upon deferred payments. The amounts assessed as benefits, when collected, shall be repaid to the revenues of the District of Columbia and of the United States in equal parts: <i>Provided further</i>, That the Commissioners of the District of Columbia are hereby authorized to abandon for highway purposes any existing streets or parts of streets within the territory before described, except Fourteenth Street: <i>Provided further</i>, That the Commissioners of the District are authorized to prepare a new highway plan for that portion of the District of Columbia lying west of Fourteenth Street, south of Taylor Street, east of Rock Creek Park, and north of Newton Street NW., under the provisions contained in the act of Congress approved Mar. 2, 1893, entitled "An act to provide a permanent system of highways in that part of the District of Columbia lying outside of cities," and an amendment to said act approved June 28, 1898: <i>Provided</i>, That section 4 of said amendment shall not apply to the territory above described: <i>Provided further</i>, That under this authority Mount Pleasant Street may be extended with a minimum width of 45 feet; that Perry Place may be extended with a minimum width of 50 feet; and that Fourteenth Street Road may be established with a minimum width of 50 feet; that upon the completion and recording of said new highway plan it shall take the place of and stand for any previous plan for said portion of said District of Columbia (submitted)</p>	252,000.00	
<p>NOTE.—The land proposed to be acquired for this work is 42 acres, and the cost, including the expenses of the condemnation proceedings, is estimated at \$252,000. It is proposed that not less than one-quarter of this amount shall be assessed as benefits. The acquisition of the land is in line with the recommendations of the Senate Park Commission for a connecting park highway. It includes the valley of Piney Branch between Sixteenth Street and Georgia Avenue, which is well adapted for park purposes, as it consists of well-wooded slopes along Piney Branch. At some future day the park should be continued from Georgia Avenue to the Soldiers' Home in order to connect Rock Creek Park with the Soldiers' Home. The acquisition of the land proposed at present is necessary to protect the bridge across Piney Branch at Sixteenth Street and to preserve the valley. The true value of the land, based on the assessed value, which is two-thirds of the true value, is \$242,000.</p>

FORT DAVIS AND FORT DUPONT PARKS, ETC.		
<i>Fort Davis and Fort Dupont Parks and Connecting Highway—</i>		
<p>The Commissioners of the District of Columbia are hereby authorized and directed to prepare a new highway plan to change the location and width of Alabama Avenue SE., between Pennsylvania Avenue and Hillside Road, and to make such changes in the location of intersecting streets as may be necessary to provide proper connection with the new location of Alabama Avenue: <i>Provided further</i>, That under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia, the Commissioners of the District of Columbia are authorized and directed to institute in the supreme court of the District of Columbia a proceeding in rem to condemn the land that may be necessary to preserve the sites of Fort Davis and Fort Dupont for park purposes, and to provide a connecting highway between these sites by widening Alabama Avenue to 150 feet, comprising in all approximately 41.25 acres of land, as shown on plans filed in the office of the engineer commissioner of the District of Columbia: <i>Provided, however</i>, That of the amount found to be due and awarded by the jury in said proceeding as damages for and in respect of the land to be condemned, as herein described, plus the costs and expenses of the proceeding taken pursuant hereto, not less than one-fourth shall be assessed by the jury as benefits.</p> <p>There is hereby appropriated the sum of \$32,000 to pay the costs and expenses of the condemnation proceedings taken pursuant hereto, and for the payments of the amounts awarded as damages, payable out of any money in the Treasury of the United States not otherwise appropriated: <i>Provided</i>, That one-half of said sum of \$32,000, or so much thereof as may be expended, shall be reimbursed to the Treasury of the United States out of the revenues of the District of Columbia in 4 equal annual installments, with interest at the rate of 3 per cent per annum upon the deferred payments. The amounts assessed as benefits, when collected, shall be repaid to the revenues of the District of Columbia and of the United States in equal parts (submitted)</p>	\$32,000.00	
<p>NOTE.—These parks and the connection provided for in this item are in accordance with the recommendations of the Senate Park Commission, and the result of favorable action would be to preserve two of the original fortifications erected for the defense of the Capital City during the Civil War, and at the same time provide park facilities to a section of the District not now possessed of that much to be desired public improvement. These fort sites occupy an elevation of 300 feet above the Potomac River and afford a magnificent view overlooking all of the city of Washington. The area of the land proposed to be taken is 41.25 acres, with an estimated value of land and improvements of \$32,000. This figure is considerably in excess of the assessment for the reason that the assessment covers a large tract with an average value, while the part proposed to be taken for park purposes is the choice part of these tracts and therefore the most valuable. The item makes provision for shifting the location of Alabama Avenue, so as to avoid improvements and at the same time to include within its limits the Bowen Road. Provision is also made for connecting the highway plan with the changed location of Alabama Avenue. The true value of the land, based on the assessed value, which is two-thirds of the true value, is \$15,875.</p>		
MOUNT HAMILTON PARK.		
<i>Mount Hamilton Park—</i>		
<p>That the Commissioners of the District of Columbia be, and they are hereby, authorized and directed to acquire by condemnation, under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia, for park purposes, the tract of land situated at and in the vicinity of Mount Hamilton, or Mulliken Hill, lying east of Bladensburg Road, north of M Street east, west of Twenty-sixth Street east, and south of the District of Columbia school property and Q Street east, containing approximately 81 acres, as shown on plat on file in office of the engineer commissioner of the District of Columbia, at a cost not to exceed \$90,000, and for that purpose the sum of \$90,000, or so much thereof as may be necessary, is hereby appropriated to pay the costs and expenses of the condemnation proceedings taken pursuant hereto, and for the payment of the amounts awarded as damages, payable out of any money in the Treasury of the United States not otherwise appropriated: <i>Provided</i>, That one-half of the said sum of \$90,000, or so much thereof as may be expended, shall be reimbursed to the Treasury of the United States out of the revenues of the District of Columbia in four equal annual installments, with interest at the rate of 3 per centum per annum upon the deferred payments: <i>Provided further</i>, That of the amount found to be due and awarded by the jury as damages for and in respect of the land to be taken in the condemnation proceedings herein authorized, plus the costs and expenses of the proceedings, not less than one-quarter thereof shall be assessed by the jury as benefits, which when collected, shall be covered into the Treasury of the United States to the credit of the revenues of the District of Columbia and of the United States in equal parts: <i>Provided further</i>, That the public park to be acquired under the provisions hereof shall become a part of the park system of the District of Columbia, and shall be under the control of the Chief of Engineers of the United States Army (submitted)</p>	\$90,000.00	
<p>NOTE.—This tract is preeminently suited for park purposes, and it is desired to acquire it at an early date before it is developed for building purposes. It is a wooded elevation, 240 feet above the river, affording magnificent views of the city and surrounding territory. It is one of the parks recommended to be purchased by the Senate Park Commission. A street-railway line has been constructed along the Bladensburg Road frontage of the tract which renders its development in the near future more probable. The true value of the land, based on the assessed value, which is two-thirds of the true value, is \$72,571.32. It is proposed, however, to select land from the tract with a large frontage on Benning Road. This frontage has a greater value than the average value of the whole tract, which consists of 93 acres.</p>

WATER DEPARTMENT.		
<i>Water Department—</i> The following sums are hereby appropriated to carry on the operations of the water department, to be paid wholly from its revenues, namely:		
For revenue and inspection branch—		
Water registrar, who shall also perform the duties of chief clerk (R. S., pt. 2, p. 22, secs. 195-198; acts June 10, 1879, vol. 21, p. 9. sec. 1; Mar. 2, 1911, vol. 36, p. 1006, sec. 1).....	\$2, 400.00	
Clerk (increase of \$200 submitted) (same acts).....	1, 700.00	
NOTE.—The duties and responsibilities of this clerk are such as to justify the increase recommended, particularly on account of the fact that during the absence of the water registrar he acts in his stead. The present incumbent has been in the service for 12 years, and has had no increase in pay since 1905.		
Index clerk (same acts).....	1, 400.00	
Clerk (same acts).....	1, 200.00	
Two clerks, at \$1,000 each (same acts).....	2, 000.00	
Six meter computers, at \$1,000 each (3 additional submitted) (same acts).....	6, 000.00	
NOTE.—See note below.		
Clerk (submitted).....	1, 000.00	
NOTE.—The increase in the clerical force of three meter computers, at \$1,000, and 1 clerk, at \$1,000, is recommended owing to the large increase of work due to the installation of meters. There has been no addition to the clerical force during the past year, except that in order to handle the increased business it has been necessary to employ more per diem men. As these men are required for continuous service, they should be provided for on the annual roll.		
Chief inspector (R. S., pt. 2, p. 22, secs. 195-198; acts June 10, 1879, vol. 21, p. 9, sec. 1; Mar. 2, 1911, vol. 36, p. 1006, sec. 1).....	1, 000.00

For contingent expenses, including books, blanks, stationery, printing, postage, damages, purchase of technical reference books, and periodicals, not to exceed \$75, and other necessary items and services (same acts).....	5,500.00	
For fuel, repairs to boilers, machinery, and pumping stations, pipe distribution to high and low service, material for high and low service, including public hydrants and fire plugs, and labor in repairing, replacing, raising, and lowering mains, laying new mains and connections, and erecting and repairing fire plugs, and purchase and maintenance of 2 motor trucks, horses, wagons, carts, and harness necessary for the proper execution of this work, and including a sum not exceeding \$800 for the purchase and use of bicycles by inspectors of the water department (same acts).....	41,000.00	
	\$135,785.00	\$131,535.00
For continuing the extension of and maintaining the high-service system of water distribution, laying necessary service and trunk mains for low service, and purchasing, installing, and maintaining water meters on services to such private residences and to such business places as may not be required to install meters under existing regulations as may be directed by the Commissioners of the District of Columbia, said meters at all times to remain the property of the District of Columbia, to include all necessary land, machinery, buildings, mains, and appurtenances, and labor, and the purchase and maintenance of horses, wagons, carts, and harness necessary for the proper execution of this work, and for the purchase and maintenance of one motor runabout to be used for purposes of inspection, so much as may be available in the water fund during the fiscal year 1913, after providing for the expenditures hereinbefore authorized, is hereby appropriated.		
NOTE.—The purchase of a motor runabout to be used by the superintendent for purposes of inspection is urged particularly as a means of saving time. The work of the department is spread over practically the whole 70 square miles of the District. Not only would time be saved, but the superintendent could keep in much closer touch with the work in progress than at present. It is believed, also, that the saving in cost would be considerable; repair charges would be nominal, as the department will be regularly maintaining 6 motor trucks and making repairs in its own shops.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1913—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1912.
LEGISLATION.		
<p>SEC. 2. That the services of draftsmen, assistant engineers, levelers, transitmen, rodmen, chainmen, computers, copyists, overseers, and inspectors temporarily required in connection with sewer, street, or road work, or the construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations may be employed exclusively to carry into effect said appropriations when specifically and in writing ordered by the Commissioners of the District; and all such necessary expenditures for the proper execution of said work shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners of the District in their annual estimates shall report the number of such employees performing such services, and their work, and the sums paid to each, and out of what appropriation: <i>Provided</i>, That the expenditures hereunder shall not exceed \$70,000 during the fiscal year 1913.</p>		
<p>The Commissioners of the District of Columbia are further authorized to employ temporarily such laborers, skilled laborers, drivers, hostlers, and mechanics as may be required exclusively in connection with sewer, street, and road work, and street cleaning, or the construction and repair of buildings and bridges, or any general or special engineering or construction work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof; said laborers, skilled laborers, and mechanics to be employed to perform such work as may not be required by law to be done under contract, and to pay for such services and expenses from the appropriations under which such services are rendered and expenses incurred.</p>		
<p>SEC. 3. That all horses, harness, and vehicles necessary for use in connection with the construction and supervision of sewer, street, street lighting, road work, and street cleaning work, including the maintenance of said horses and harness and the maintenance and repair of said vehicles, and the purchase of all necessary articles and supplies in connection therewith, or on construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations, may be purchased, hired, and maintained exclusively to carry into effect said appropriations, when specifically and in writing ordered by the Commissioners of the District of Columbia, and all such expenditures necessary for the proper execution of said work, exclusive of personal services, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners of the District in the annual estimates shall report the number of horses, vehicles, and harness purchased, and horses and vehicles hired, and the sums paid for same, and out of what appropriation, and all horses owned or maintained by the District shall, so far as may be practicable, be provided for in stables owned or operated by said District: <i>Provided</i>, That such horses, vehicles, and carts as may be temporarily needed for hauling and excavating material in connection with works authorized by appropriations may be temporarily employed for such purposes under the conditions named in section 2 of this act, in relation to the employment of laborers, skilled laborers, and mechanics.</p>		
<p>NOTE.—The wording of this item has been changed so that it will include the purchase and maintenance of horses, harness, and vehicles used in the actual construction of work under general appropriations, and also in the supervision thereof. Heretofore horses, harness, and vehicles used in such supervision have been paid for and maintained from the appropriation for contingent expenses of the stables of the engineer department. The appropriation for this item was \$5,000 for the year 1912.</p>		
<p>SEC. 4. The services of assistant engineers, draftsmen, levelers, rodmen, chainmen, and inspectors temporarily required in connection with water-department work authorized by appropriations may be employed exclusively to carry into effect said appropriations, and be paid therefrom, when specifically and in writing ordered by the Commissioners of the District, and the Commissioners of the District in their annual estimates shall report the number of such employees performing such services and their work and the sums paid to each: <i>Provided</i>, That the expenditures hereunder shall not exceed \$15,000 during the fiscal year 1913.</p>		
<p>The Commissioners of the District of Columbia are further authorized to employ temporarily such laborers, skilled laborers, and mechanics as may be required in connection with water-department work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, and mechanics to be employed to perform such work as may not be required by existing law to be done under contract, and to pay for such services and expenses from the appropriation under which such services are rendered and expenses incurred.</p>		
<p>SEC. 5. The Commissioners of the District of Columbia are authorized to employ in the execution of work the cost of which is payable from the appropriation account created in the District appropriation act for the fiscal year 1905, approved April 27, 1904, and known as the "Miscellaneous trust-fund deposits, District of Columbia," all necessary inspectors, overseers, foremen, sewer tappers, skilled laborers, mechanics, laborers, special policemen stationed at street-railway crossings, one inspector of gas fitting, two janitors for laboratories of the Washington and Georgetown Gas Light companies, market master, assistant market master, watchman, horses, carts, and wagons, and to incur all necessary expenses incidental to carrying on such work and necessary for the proper execution thereof, such services and expenses to be paid from said appropriation account.</p>		
<p>SEC. 6. The Commissioners of the District of Columbia shall not make requisitions upon the appropriations from the Treasury of the United States for a larger amount during the fiscal year 1913 than they make on the appropriations arising from the revenues, including drawback certificates, of said District.</p>

LEGISLATION—continued.		
Sec. 7. That until modified by Congress no more than the following rates shall be paid for lighting avenues, streets, roads, alleys, and public spaces, said rates to take effect on and after July 1, 1912:		
For mantle gas lamps of 60 candlepower, \$18.40 per lamp per annum.		
For street designation lamps, using flat-flame burners, consuming not more than 2½ cubic feet of gas per hour, or 8-candlepower incandescent electric lamps, with posts and lanterns furnished by the District of Columbia, \$10 per lamp per annum.		
For 40-candlepower, 50-watt, incandescent electric lamps on overhead wires, \$15 per lamp per annum.		
For 40-candlepower, 50-watt, incandescent electric lamps on underground wires, \$19.50 per lamp per annum.		
For 60-candlepower, 75-watt, incandescent electric lamps on overhead wires, \$17.50 per lamp per annum.		
For 60-candlepower, 75-watt, incandescent electric lamps on underground wires, \$23 per lamp per annum.		
For 80-candlepower, 100-watt, incandescent electric lamps on underground wires, \$26 per lamp per annum.		
For 100-candlepower, 125-watt, incandescent electric lamps on underground wires, \$27.50 per lamp per annum.		
For 150-candlepower, 187-watt, incandescent electric lamps on underground wires, \$36.50 per lamp per annum.		
For 200-candlepower, 250-watt, incandescent electric lamps on underground wires, \$46.50 per lamp per annum.		
For 4-glower Nernst lamps on underground wires, \$52.50 per lamp per annum.		
For 6.6-ampere, 528-watt, direct-current, series-inclosed arc lamps, \$80 per lamp per annum.		
For 5-ampere, 550-watt, direct-current, multiple-inclosed arc lamps, \$80 per lamp per annum.		
For 4-ampere, 320-watt magnetite, or other arc lamps of equal illuminating value acceptable to the Commissioners of the District of Columbia, on overhead wires, \$59 per lamp per annum.		
For 4-ampere, 320-watt magnetite, or other arc lamps of equal illuminating value acceptable to the Commissioners of the District of Columbia, on underground wires, \$72.50 per lamp per annum.		
For 6.6-ampere, 500-watt magnetite, or other arc lamps of equal illuminating value acceptable to the Commissioners of the District of Columbia, on overhead wires, \$84 per lamp per annum.		
For 6.6-ampere, 500-watt magnetite, or other arc lamps of equal illuminating value acceptable to the Commissioners of the District of Columbia, on underground wires, \$97.50 per lamp per annum.		
For flame arc lamps, 500-watt, General Electric type, or other arc lamps of equal illuminating value acceptable to the Commissioners of the District of Columbia, \$150 per lamp per annum.		
<i>Provided</i> , That except as otherwise directed by the Commissioners of the District of Columbia, all series-inclosed and multiple-inclosed arc lamps now in service shall be replaced by the lighting company, without expense to the District of Columbia, with 4-ampere, 320-watt magnetite, or other arc lamps of equal illuminating value acceptable to the Commissioners of the District of Columbia, by Apr. 1, 1914, and such replacement shall be effected to the number of not less than 400 lamps per annum until completed.		
For the rates named above it shall be the duty of each gaslight company and each electric-light company doing business in the District of Columbia to erect and maintain such street lamps as the Commissioners of said District may direct; and each such company shall furnish, install, and maintain all posts, lamps, lanterns, burners, wires, cable, conduits, gas pipes, street designations, and fixtures necessary for the respective lamps maintained by each of them, including lighting and extinguishing lamps, and repairing, painting, and cleaning.		
Hereafter the cost of each lamp-post (exclusive of erection), including the lantern, globe, and street designations, furnished by any lighting company under the above rates shall not exceed \$15 for each gas or electric incandescent lamp nor \$50 for each electric arc lamp, except as hereinafter provided, and each post and its equipment shall be of a design and quality acceptable to the Commissioners of the District of Columbia. For each such lamp-post furnished by a lighting company by direction of the District Commissioners which shall cost in excess of \$15 for gas or electric incandescent lamps, or which shall cost in excess of \$50 for electric arc lamps, the company furnishing the same shall receive, in addition to the above rates, 11 per cent per annum on such additional or excess cost.		
Hereafter the Commissioners of the District of Columbia are authorized in their discretion to purchase or construct from street-lighting appropriations posts, lanterns, street designations, and all necessary fixtures or appurtenances for any of the systems of lighting above named: <i>Provided</i> , That whenever the said commissioners shall furnish the said equipment, \$1.65 per lamp per annum for gas or electric incandescent lamps and \$4.40 per lamp per annum for electric arc lamps shall be deducted from the rates above fixed.		
Hereafter the Commissioners of the District of Columbia are further authorized, in their discretion, to adopt other forms of electric street lighting than those named, in which event payments under appropriations made in this act shall be made for the lighting

service rendered at not to exceed 3 cents per kilowatt hour for current consumed, and, in addition thereto, 11 per cent per annum of the cost to the lighting company of furnishing and installing lamps, posts, street designations, fixtures, and the cable from lamps to the nearest point of current supply, and a fair sum for the cost of maintenance.		
Hereafter when ordered to do so by the said commissioners, lighting companies shall move and readjust any lamps maintained by them at the following rates:		
For each electric arc lamp, \$10.		
For each electric incandescent lamp, \$5.		
For each gas lamp moved not more than 6 feet, \$2.50.		
For each gas lamp moved more than 6 feet, \$4.		
For each gas lamp raised or lowered to new grade, \$1.50.		
The Commissioners of the District of Columbia are authorized to enter into contract, for the fiscal year 1913, with any responsible person, firm, company, or corporation for the maintenance of naphtha or oil lamps, equipped with mantle burners of not less than 60 candlepower, at a price not to exceed \$22.80 per lamp per annum, which price shall include the entire cost of furnishing, installing, and maintaining all necessary posts, lanterns, burners, street designations, and fixtures.		
SEC. 8. Hereafter when ordered by the commissioners to do so, lighting companies in the District of Columbia shall discontinue any public lamps maintained by them without further payment therefor, and shall remove from the streets, at their own expense, all posts, lanterns, and fixtures connected therewith.		
SEC. 9. Hereafter the Superintendent of the Capitol Building and Grounds may transfer apparatus, appliances, equipments, and supplies of any kind, discontinued or permanently out of service, to such other branches of the service of the United States, or District of Columbia, whenever, with the approval of the Secretary of the Interior, in his judgment the interests of the Government service may require it. A detailed statement of all such transfers shall be submitted in the annual report to Congress of the Superintendent of the Capitol Building and Grounds.

REMARKS.

SERVICE.

Copyright Office.—Of the total amount, \$14,380, requested for additional employees, \$10,620 is chargeable to the Copyright Office. During the year 1910–11 the receipts of the office in fees exceeded by \$17,013.95 the appropriation for service. During the current year they will certainly exceed it by \$25,000.

Distribution of card indexes.—(Increase of \$2,700 requested.) The volume of business increases at the rate of about 15 to 20 per cent per annum. During the year 1910–11 the receipts from sales covered into the Treasury exceeded by \$15,837.08 the appropriation for service.

Temporary service.—Where photographing or copying (of material) in a library such as this is desired on a private account, it is customarily done by an employee of the Library for stipulated fees. In matters of copyright this is the practice of the Copyright Office, authorized by law. Increasing demand for photographs and copies render desirable a similar authority in the Library proper, with a provision that will reimburse to the appropriation the expense of the service which it would otherwise be unable to bear. The translators requested in the Division of Documents are, however, for the routine service of the Library, especially the service to Congress.

INCREASE OF THE LIBRARY.

For general increase \$100,000 per annum is but a normal sum. From 1907 until 1910, inclusive, it was annually granted. Last year it was reduced to \$90,000. The estimate for the coming year (\$110,000) is merely to offset in the coming year the decrease for the present year. It does not therefore imply a proposal to increase the sum permanently to \$110,000.

Division for the blind.—From 1897 until 1911 the Library maintained and circulated a small collection of books in raised type, with a special reading room for the blind and an assistant in charge at a salary of \$1,200. During the past year the books have been transferred to the Public Library of the District and the salary shifted from the rolls of the Library of Congress to the rolls of the Public Library. To the Public Library have been transferred also the readings and musicales for some years conducted at the Library of Congress.

This change (explained in my report of last year and to the Committee on Appropriations of the House and of the Senate) was an experiment. It assumed that there was a local service for the blind of the District which it was the duty and right of the Public Library to perform, and which could be more efficiently, and, in the interest of the blind themselves, more conveniently performed by it than by the Library of Congress. However this may prove, there is work in this field of a national character which might well be undertaken by the Library of Congress. How far this should include the general circulation of books in raised type throughout the country would be subject to consideration; but it should at any rate include (1) a comprehensive collection of such books in the various types, for reference use and examination wherever desired, and, besides, books, maps, music, and other literature so far as published; (2) samples of apparatus used in the education of the blind; (3) complete information, printed and other (which must be sought by travel and correspondence), as to the status and the education of the blind and undertakings in their behalf.

The interest in the blind, in their education and in the amelioration of their condition and the improvement of their opportunities, is very keen and growing. It has been recently expressed here in Washington in disappointment and protest against the relinquishment by the Library of Congress of a department concerned with them. The reasons for the transfer still seem good; but to those who felt deeply the general advantage to the cause of the blind in an organized department at the Library of Congress I stated that I would gladly recommend the establishment of such a department, provided an appropriation could be secured for it that would enable it to render a service truly scientific and national. My estimates now include such an item. If the sum, \$7,500, seems large, it must be noted that during the first year a large outlay would have to be made for the books themselves, which are very costly.

Respectfully submitted.

HERBERT PUTNAM, *Librarian of Congress.*

THE SECRETARY OF THE TREASURY.

Reports received under section 2, act of July 11, 1890 (26 Stat., 268), "of employees below a fair standard of efficiency," and under section 7, act of March 2, 1895 (28 Stat., 808), "of condition of business," and "of detail of employees."

TREASURY DEPARTMENT.

TREASURY DEPARTMENT,
DIVISION OF APPOINTMENTS,
Washington, September 5, 1911.

SIR: I have the honor to transmit herewith, for publication in the Book of Estimates, as required by law, a list of employees of this department on detail from their respective offices on July 1, 1911, and who had been on such detail for one year or more at that date.

Respectfully,

CHAS. LYMAN,
Chief, Division of Appointments.

The SECRETARY OF THE TREASURY.

OFFICE OF TREASURER OF THE UNITED STATES.

TREASURY DEPARTMENT,
OFFICE OF TREASURER OF THE UNITED STATES,
Washington, September 28, 1911.

SIR: To accompany the Estimates of Appropriations, in compliance with section 2 of the act of July 11, 1890 (26 Stat., p. 267), the statement is submitted that, with the exception of a few employees advanced in years, there are no employees on the rolls of this office who are below a fair standard of efficiency.

Respectfully,

LEE MCCLUNG,
Treasurer of the United States.

The SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT,
OFFICE OF TREASURER OF THE UNITED STATES,
Washington, September 28, 1911.

SIR: To accompany the Estimates of Appropriations for the fiscal year 1913, in compliance with the requirements of section 7 of the legislative, executive, and judicial appropriation act approved March 2, 1895 (28 Stat., p. 808), statement is submitted below as to the condition of business of this office, by divisions, showing what portions of same are in arrears:

Division of the Chief Clerk.—The current work of this division is invariably disposed of on the day of its receipt. Some work essential to the completion of the records is in arrears owing to the change in system of filing correspondence.

Division of the Cashier.—The work in this division is up to date.

Division of General Accounts.—The work in this division is up to date.

Division of Post-Office Accounts.—The work in this division is up to date.

Division of Accounts of Issue and Redemption.—The work in this division is up to date.

Division of National Banks.—The work in this division in relation to semiannual duty is practically up to date. The work in connection with postal savings banks is in arrears to the extent of at least 10 days, owing to the rapid increase in the volume of work coming in. Even with the increased force of four detailed from the Post Office Department, it will probably take at least a month to bring the work up to date. It will be necessary also to install a system of filing correspondence.

Division of Loans.—The work in this division is up to date.

Division of Redemption.—The work in this division is up to date.

Division of Issue.—The work in this division is up to date.

National Bank Redemption Agency.—There was unfinished work in the National Bank Redemption Agency at the close of business September 27, \$14,242,500 in unassorted \$5 national-bank notes, due to absence of employees on their annual leave.

Respectfully,

The SECRETARY OF THE TREASURY.

LEE McCLUNG,
Treasurer of the United States.

WAR DEPARTMENT.

WAR DEPARTMENT,
Washington, October 14, 1911.

SIR: In compliance with the provisions of section 2 of the act approved July 11, 1890 (26 Stat., p. 268). I have the honor to report for the information of Congress that the only employee in the War Department below a fair standard of efficiency is a clerk at \$1,200 per annum in the office of the Chief of Engineers.

In compliance with the requirements of section 7 of the act approved March 2, 1895 (28 Stat., p. 808), I have also to report that the current work of the War Department is not in arrears and that one clerk at \$1,200 per annum in the office of the Secretary of War has been detailed to the Board of Awards, General Supply Committee, for a period exceeding one year.

Very respectfully,

The SECRETARY OF THE TREASURY.

ROBERT SHAW OLIVER,
Acting Secretary of War.

NAVY DEPARTMENT.

NAVY DEPARTMENT,
Washington, September 14, 1911.

SIR: * * * In accordance with the requirements of section 7 of the act of March 2, 1895 (28 Stat. L., p. 808). I have also to report that the current work of the Navy Department is not in arrears, except in the Bureau of Supplies and Accounts, and the department is constrained to believe that this condition will continue in that bureau until it can obtain additional employees.

The following-named employees have been on detail for a period of more than one year:

Charles A. Denman, clerk at \$1,200 per annum, from the Office of the Judge Advocate General of the Navy to the Office of the Solicitor.
A. C. Barnett, clerk at \$1,000 per annum, from the Bureau of Supplies and Accounts to the Office of the Secretary.
Hampton Willis, laborer at \$660 per annum, from the Hydrographic Office to the Office of the Secretary.

Respectfully, yours,

The SECRETARY OF THE TREASURY.

BEEKMAN WINTHROP,
Acting Secretary of the Navy.

INTERIOR DEPARTMENT.

DEPARTMENT OF THE INTERIOR,
Washington, October 16, 1911.

SIR: In compliance with the provisions of the act of July 11, 1890 (26 Stat., p. 268, sec. 1), I have the honor to report the number of employees in the bureaus and offices of this department, and the salaries of each, who are below a fair standard of efficiency:

Respectfully,

The SECRETARY OF THE TREASURY.

WALTER L. FISHER, *Secretary.*

DEPARTMENT OF AGRICULTURE.

DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, October 14, 1911.

SIR: I have the honor to transmit herewith the estimates of appropriations for the Department of Agriculture for the fiscal year ending June 30, 1913, as follows: * * *

In accordance with section 2 of the act of July 11, 1890 (27 Stat., p. 268), I have to report that there are no employees in this department, so far as I am officially informed, who are below a fair standard of efficiency; and in accordance with the requirements of section 7 of the act approved March 2, 1895 (28 Stat., p. 808), I have also to report that the business of the department is not in arrears, and that there are no employees appropriated for in one bureau or office of this department who have been detailed to another bureau or office, except to and from the Secretary's Office.

Very respectfully,

JAMES WILSON, *Secretary*.

The SECRETARY OF THE TREASURY.

DEPARTMENT OF COMMERCE AND LABOR.

DEPARTMENT OF COMMERCE AND LABOR,
OFFICE OF THE SECRETARY,
Washington, October 14, 1911.

SIR: I have the honor to transmit herewith the estimates of appropriations for the support of the Department of Commerce and Labor for the fiscal year ending June 30, 1913, to be forwarded to the Speaker of the House of Representatives in accordance with existing law.

As required by the act of Congress approved July 11, 1890 (26 Stat., 268), I have to report that the persons holding the following-described positions in the Department of Commerce and Labor are rated below a fair standard of efficiency:

Bureau of Labor: 1 clerk, per annum.....	\$900	Bureau of Immigration and Naturalization:	
Bureau of the Census:		1 immigrant inspector, per annum.....	\$1,620
1 clerk, per annum.....	1,000	1 immigrant inspector, per annum.....	1,500
1 skilled laborer, per annum.....	720	1 junior clerk, per annum.....	1,320
Bureau of Lighthouses:		1 clerk, per annum.....	1,020
1 clerk, per annum.....	900	1 senior watchman, per annum.....	840
1 assistant keeper, per annum.....	552	1 junior watchman, per annum.....	720
1 second assistant keeper, per annum.....	456	1 junior laborer, unclassified, per annum.....	600
1 keeper, per month.....	46	1 charwoman, per annum.....	600

Complying with the provisions of the act of Congress approved March 2, 1895 (28 Stat., 808), I have to report that the following-named employees of the Department of Commerce and Labor have been on detail for a period of more than one year prior to June 30, 1911:

One laborer, at \$660 per annum, from the Bureau of Labor to the Division of Publications, Office of the Secretary.
 One assistant messenger, at \$720 per annum, from the Bureau of Manufactures to the Division of Publications, Office of the Secretary.
 One laborer, at \$660 per annum, from the Bureau of Labor to the Division of Publications, Office of the Secretary.
 One clerk, at \$1,000 per annum, from the Bureau of Labor to the Division of Publications, Office of the Secretary.
 One assistant messenger, at \$720 per annum, from the Bureau of Manufactures to the Division of Publications, Office of the Secretary.
 One unskilled laborer, at \$720 per annum, from the Bureau of the Census to the Division of Supplies, Office of the Secretary.
 One skilled laborer, at \$1,000 per annum, from the Bureau of the Census to the Office of the Secretary.
 One clerk, at \$1,200 per annum, from the Bureau of the Census to the Division of Naturalization, Bureau of Immigration and Naturalization.
 One clerk, at \$1,000 per annum, from the Division of Statistics to the Division of Inquiry Respecting Food Fishes, Bureau of Fisheries.
 One clerk, at \$1,000 per annum, from the Division of Statistics to the Division of Fish Culture, Bureau of Fisheries.
 One clerk, at \$1,200 per annum, from the Division of Fish Culture, Bureau of Fisheries, to the Office of the Commissioner of Fisheries.
 One fireman, at \$720 per annum, from Cape Vincent Station, N. Y., to Gloucester Station, Mass., Bureau of Fisheries.
 One clerk, at \$1,400 per annum, from the Division of Fish Culture to the Office of Accounts, Bureau of Fisheries.
 One machinist, at \$960 per annum, from the Cape Vincent, N. Y., station to Tupelo, Miss., St. Johnsbury, Vt., Weldon, N. C., and Bozeman, Mont., stations, Bureau of Fisheries.
 One clerk, at \$1,400 per annum, from the Division of Statistics to the Office of the Deputy Commissioner, Bureau of Fisheries.
 One clerk, at \$900 per annum, Office of the Commissioner to the Division of Fish Culture, Bureau of Fisheries.
 One clerk, at \$1,400 per annum, from the Division of Information, Bureau of Immigration and Naturalization, to the bureau proper.
 One clerk, at \$1,200 per annum, from the Division of Information, Bureau of Immigration and Naturalization, to the bureau proper.
 One assistant inspector of boilers, Steamboat-Inspection Service, at \$2,000 per annum, from New York, N. Y., to Coatesville, Pa.
 One assistant inspector of boilers, Steamboat-Inspection Service, at \$2,000 per annum, from New York, N. Y., to Pittsburgh, Pa.
 One special immigrant inspector, at \$3,000 per annum, to the Bureau of Immigration and Naturalization, under the act of March 2, 1895 (28 Stat., 781).
 One special immigrant inspector, at \$2,750 per annum, to the Bureau of Immigration and Naturalization, under the act of March 2, 1895 (28 Stat., 781).
 One immigrant inspector, at \$2,250 per annum, to the Bureau of Immigration and Naturalization, under the act of March 3, 1901 (31 Stat., 1155).
 One Chinese inspector, at \$2,250 per annum, to the Bureau of Immigration and Naturalization, under the act of June 6, 1900 (31 Stat., 611).
 One special immigrant inspector, at \$1,980 per annum, to the Bureau of Immigration and Naturalization, under the act of March 2, 1895 (28 Stat., 781).

With reference to that provision of the act of March 2, 1895 (28 Stat., 808) above referred to, requiring a statement of the work of the various bureaus and offices of the department in arrears, I have to advise you that none of the work of the department is in arrears.

Respectfully,

CHARLES EARL, *Acting Secretary*.

The SECRETARY OF THE TREASURY.

DEPARTMENT OF JUSTICE.

DEPARTMENT OF JUSTICE,
Washington, October 13, 1911.

SIR: I have the honor to transmit herewith for inclusion in the Book of Estimates, in accordance with the provisions of the act of March 3, 1901 (31 Stat., p. 1009), the annual estimates of this department for the service of the fiscal year ending June 30, 1913. * * *

In accordance with section 2 of the act of July 11, 1890 (27 Stat., p. 268), it is reported that there are no employees in this department, so far as officially informed, who are below a fair standard of efficiency in the work assigned them, and, in conformity with section 7 of the act approved March 2, 1895 (28 Stat., p. 808), it is reported that the business of the department is not in arrears.

Respectfully,

GEO. W. WICKERSHAM, *Attorney General*.

The SECRETARY OF THE TREASURY.

APPENDIX D.

In explanation of the estimates for the office of Secretary of the Interior and the proposed reorganization and consolidation of the mechanical, labor, and watch force of the Department of the Interior, see pages 72 to 90.

DEPARTMENT OF THE INTERIOR,
Washington, October 12, 1911.

SIR: In connection with the estimates for the office of the Secretary of the Interior, I desire to submit the following in support of changes in the miscellaneous section of my office and in the divisions and mechanical, laboring, and watch forces under my control—in some instances in compensation, in others in the number of employees in a particular grade for added duties in lieu of positions already existing:

The first change is in connection with the position of assistant attorney on the roll of the Secretary at a compensation of \$2,500. This position is held and has been held for a number of years by the assistant attorney in charge of the miscellaneous section of the chief clerk's office, and under him and his immediate supervision are performed the following duties: Work appertaining to national parks and reservations, eleemosynary institutions, Capitol Building and Grounds, admission and disbarment of attorneys, work arising under the act of June 8, 1906, for the preservation of American antiquities, and other miscellaneous work. It is well in this connection to refer to the fact that prior to the year 1907 there were in the office of the Secretary the following divisions: Division of Lands and Railroads, Division of Patents and Miscellaneous, Division of Indian Affairs, Indian Territory Division; and it was the practice for Congress to appropriate from year to year for assistant attorneys, both on the roll of the Secretary and on the roll of the Assistant Attorney General. By orders of the Secretary, dated April 4, 1907, and April 20, 1907, these divisions were broken up and the clerks and work transferred to the bureaus and remaining divisions of the Secretary's office, and the assistant attorneys have gradually from year to year been transferred, upon recommendation of the department, to the office of the Assistant Attorney General, so that there remains in the appropriation act for the current fiscal year but one assistant attorney on the roll of the Secretary.

I desire in this memorandum to call attention to the constantly increasing volume of business incident to the administration of the national parks. The duties incident to the administration of the national parks, especially during the park season, involving leases and concessions, building of roads, trails, letting of contracts, etc., has reached such proportion that it is impracticable any longer to operate with the clerical force supplied. It is a character of work that requires careful attention and legal knowledge on the part of the one supervising it. The increased compensation of \$500 asked is deemed but fair for the assistant attorney in charge; and, in addition to the above, he does, under an order of the Secretary, acts as chief clerk in the absence of the regular incumbent of that office.

Assistant attorney at \$2,250.—Since February 10, 1910, there has been assigned to the miscellaneous section, in connection with national-park work, an assistant attorney from the office of the Assistant Attorney General. In as far as the Assistant Attorney General desires the position and desires the office of the chief clerk to retain the present incumbent, it is desired to increase his salary to \$2,250, the reasons for the increased compensation for the assistant attorney in charge of national-park matters applying with equal force here.

Clerk of class 4, additional, for editorial work.—The proper supervision of the increasing quantity of publications issued by the Geological Survey, the Bureau of Education, and the Bureau of Mines can be obtained only by getting competent additional editorial assistance. There is needed a high-grade clerk who is familiar with printing and the reproduction of illustrations and who has judgment, skill, and literary ability, so that he can revise manuscripts and prepare them for the printer.

Clerk of class 2, additional, for central wareroom.—In the interest of economy and better administration, it is deemed advisable to establish, under the supervision of the supply divisions, a central storeroom for electrical, plumbers' and painters' supplies, lumber, hardware, and tools—in short, supplies for mechanics. Such supplies are now bought in small quantities and distributed in the three buildings of the department (Patent, Pension, and old Post Office Department Buildings), in charge of three or four different persons, for use as required. It is proposed to carry a small stock of a full variety of such supplies in a central storeroom and have it in charge of one clerk, who shall be responsible for keeping the stock up, properly caring for it, and for its distribution. By purchasing in larger quantities, a saving in cost, waste of material, and deterioration will be effected. An additional clerk at \$1,400 to have charge of this storeroom is therefore recommended.

Decrease of one \$1,000 position.—There is estimated for on the roll of the Assistant Attorney General a librarian at \$1,200 in lieu of clerk at \$1,000 on the roll of the Secretary serving in that capacity. If such position is created, it is recommended that the number of \$1,000 places on the roll of the Secretary be decreased by one.

Seven copyists increase.—As explained in the estimates, these are in lieu of messengers, assistant messengers, and a laborer now employed and have been employed for some years on clerical work. By reason of their experience and attention to duty they are entitled to the compensation paid for such work.

Assistant multigraph operator is requested in order to provide for the increase in the multigraph work. At present only one operator is regularly employed, and an additional operator is necessary to handle the work promptly and to serve in the absence of the regular operator. Multigraph work is materially cheaper than printing, and the department is enabled to get out small circulars and forms in much less time than is required for work sent to the Government Printing Office.

Increase to typewriter repairer, \$300, is recommended because of increased volume of work over that when the position was established at \$900.

Switchboard telephone operator, additional.—The work on the departmental switchboard has increased to such an extent by the addition of the Bureau of Mines and the increase in divisions in other bureaus, adding additional numbers to the board, that two operators are absolutely imperative. It has also been found necessary to keep the board open from 8.50 a. m. until the Secretary leaves in the evening, which is oftentimes 7 or 8 p. m., so that an additional operator is necessary to relieve the regular operator.

Decrease of four assistant messengers.—There are now four assistant messengers doing duty as packers in the Supply and Publications Divisions. Should the recommendation for six packers estimated be enacted into law, the positions of assistant messengers may be decreased by four.

Chief engineer and superintendent of construction.—In addition to the note which has been incorporated in the estimates, I desire again to call attention to the inadequate compensation attached to this position, originally appropriated for in connection with the care and protection of the old Post Office Building, housing the General Land Office and Bureau of Education. Since that time, by successive orders of the Secretary, the duties appertaining to this position have been increased, until they now embrace the general supervision of the entire plant for heating, lighting, and power, and of the laboring and mechanical forces of the department. The old Post Office, Pension Office, Patent Office, Bureau of Mines, and Court of Appeals buildings are heated from a central plant in the old Post Office Building. The Patent Office, Pension Office, Bureau of Mines, and old Post Office buildings are lighted and motive power for the elevators supplied therefrom. In addition, this official has supervised in the past few years all the various improvements in the buildings mentioned, as well as having supervision of the installation and completion of the central lighting and heating plant of the Freedmen's Hospital and Howard University, and is still supervising the operation of the central plant of those institutions.

Chief electrician, at \$1,500.—As explained in the note in the estimates, the duties and responsibility connected with the position of electrician at \$1,000 have increased the same as those of chief engineer and superintendent of construction, and the increased salary and designation submitted are fully merited.

Six packers, at \$840 each (in lieu of four assistant messengers, at \$720, and two laborers, at \$660, on regular roll of the Secretary).—Heretofore little importance has been attached to receiving, issuing, and packing supplies, publications, and forms. Aside from the storekeeper, who receives \$1,600, the remainder of the force is made up from assistant messengers and laborers. The work requires superior intelligence, accuracy in taking account of supplies received and issued, a knowledge of an immense variety of supplies, stationery, and printed forms, and care in checking up invoices and requisitions. Seventy-five per cent of the work is really clerical rather than messenger or laborer work. The salaries should, therefore, be of a higher grade, and such as would attract ability higher than those of an ordinary laborer.

PROPOSED REORGANIZATION AND CONSOLIDATION OF THE MECHANICAL, ENGINEERING, LABORING, AND WATCH FORCE UNDER THE SUPERVISION AND MANAGEMENT OF THE SUPERINTENDENT OF BUILDINGS, DEPARTMENT OF THE INTERIOR.

This proposition was earnestly urged by me in a memorandum dated October 18, 1909, appearing in the Book of Estimates for 1911, page 571. It failed of approval by Congress, and I have been advised that one of the main objections thereto would be the constant inability to determine the cost apportioned against the particular bureaus or buildings. Since that time in the appropriation act making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1912 (36 Stat., 1216), the following theretofore appropriated for on the roll of the Commissioner of Pensions were subheaded "For care of buildings under the chief clerk of the Interior Department":

Superintendent of building, \$1,400.
2 engineers, \$1,200 each.
3 firemen.
23 laborers.
10 female laborers, \$400 each.
15 charwomen.
Painter, skilled at his trade, \$900.
Cabinetmaker, skilled at his trade, \$900.
Captain of the watch, \$840.
3 sergeants of the watch, \$750 each.
20 watchmen.

As the law now stands, it is possible to determine the cost of the upkeep, so far as the mechanical and laboring force are concerned, incident to the care and protection of the Old Post-Office Building. In the case of the Patent-Office Building, the following are provided for on the roll of the Commissioner of Patents: 14 laborers, at \$600 each; 45 laborers, at \$480 each; yet in practical operation, 6 laborers, at \$600 each, and 6 laborers, at \$480 each, under the order of the Secretary, from the Patent Office are detailed to and under the control of the chief clerk of the depart-

ment, and under these circumstances it is not possible, without much computation, to determine the amount actually chargeable against the Patent Office or the office of the Secretary; while in the Pension-Office Building, which now houses the Office of Indian Affairs, as well as the Pension Office, the entire cost has been charged to the roll of the Commissioner of Pensions, and the Office of Indian Affairs is participating in the benefit, without being charged with any of the cost. Consequently, it may be seen at a glance that there is no uniformity. From the standpoint of practical application it would seem best to transfer and consolidate the entire laboring and mechanical force under the chief clerk of the department who is by law designated superintendent of buildings, and there may be readily determined the total cost of upkeep of the three buildings, which, generally speaking, constitute the "Interior Department Buildings." Three buildings, the Patent Office, Old Post Office, and the Pension Office Buildings, are the only buildings occupied by the Interior Department proper which are owned by the department. If it is desired to so arrange the appropriation act as to enable the Congress to determine the proportionate share of the total cost charged to each of the buildings, it is very easy to appropriate under subheadings "For the care and protection of the Old Post Office Department Building," "For the care and protection of the Pension Office Building," and "For the care and protection of the Patent Office Building," and consolidate the total mechanical and laboring force on the roll of the Secretary proper, so that they may be interchangeable. Experience indicates that there must be an elasticity because of the fact that there consistently arises a demand in one building temporarily for a larger laboring and mechanical force. If the force is inflexible, there will be times when there will be surplusage in one building and a shortage in another. It must also be borne in mind that there is no longer in either the Patent Office Building or the Pension Office Building a separate heating and lighting plant. I have therefore to submit the proposed plan of reorganization and consolidation of the mechanical, engineering, laboring, and watch force, as follows:

Chief operating engineer, at \$1,600 (in lieu of superintendent of building, at \$1,400, on the Pension Office roll).—It is proposed to turn the position of superintendent of building in the Pension Office at \$1,400 into a position of chief operating engineer at \$1,600 under the chief engineer and superintendent of construction, at \$3,000, heretofore mentioned, and have him act as assistant to that official. The present incumbent of the position of superintendent of the Pension Office Building is an experienced engineer and performs such duty as well as that of superintendent of building. Under his direct supervision are the laboring force employed in the Pension Office Building, all repairs to the Pension Office Building, such as painting, relaying floors, installation of elevators, upkeep of the elevators, pipes, and lighting and heating system. The responsibility and work connected with the position fully warrant \$1,600 per annum.

Chief machinist, at \$1,380 (in lieu of engineer, at \$1,200, regular roll) is necessary to supervise the repairs to all engines, dynamos, and other machinery used in the department which are now done in the well-equipped machine shop of the department. The salary fixed is based upon the pay of the average machinist doing this class of work at the navy yard.

Two engineers, at \$1,200 (in lieu of the same on the Pension Office roll).—It is recommended that these positions be placed on the regular roll of the Secretary, and the two assistant engineers at \$1,000 each are in lieu of one on the regular roll of the Secretary and one on the Old Post-Office Department Building roll, so no increase in compensation is represented by these two items.

Two steam fitters, at \$1,000 each (in lieu of three firemen, at \$720 each, on the Pension Office roll).—As this department has no regular steam fitters on its rolls at the present time, it has been necessary to do this work with inexperienced men, such as firemen and laborers, and this manner of performing such skilled labor is far from satisfactory. This change represents a saving of \$160 per annum.

Eleven firemen, at \$720 each, are in lieu of seven now on the regular roll of the Secretary and four on the Old Post-Office Building roll. No increase is involved in this item—simply a consolidation of two rolls.

Four wiremen, at \$1,000 each (in lieu of one laborer, at \$660, on Pension Office roll, one laborer, at \$480, on the old Post Office Department Building roll, and two wiremen at \$3.50 and \$2 per diem on repairs-of-building roll).—The uniform compensation of \$1,000 each is recommended for these employees receiving different salaries from different rolls for exactly the same kind of work. In the appropriation for repairs of buildings a limitation of \$7,500 is placed for labor, and it is impossible to get competent men for the amount the department is able to pay from this amount, such mechanics receiving not less than \$4 per day in commercial employment.

Chief painter and decorator, at \$1,200 (in lieu of skilled mechanic, at \$900, on regular roll of the Secretary).—For some time this employee has acted as chief painter and decorator under the chief engineer and superintendent of construction, having charge of at least six painters and being responsible for the painting and decorating work of the department. Such work requires a man skilled in his trade, and \$900 is an entirely inadequate salary.

Six painters, at \$900 each (in lieu of one skilled mechanic-painter, at \$900, on old Post Office Department Building roll, one painter at \$900 on Pension Office roll, and four painters at \$3.50 per diem on repairs of building roll).—It is proposed to make the salaries of these men uniform, because a uniform grade and character of work is performed by them, and it is contemplated will be rendered.

Chief cabinetmaker, at \$1,200 (in lieu of carpenter, at \$900, on the regular roll of the Secretary).—In line with the above items, proposes to increase the compensation of this employee \$300, making him a subchief or head of this work, responsible to the chief engineer and superintendent of construction for the work done under his direct supervision.

Three cabinetmakers, at \$900 each (in lieu of one carpenter, at \$900, on regular roll, one skilled mechanic-carpenter, at \$900, on old Post Office Department Building roll, and one cabinetmaker, at \$900, on Pension Office roll).—Represents no increase in the appropriation, but simply consolidates on the regular roll of the Secretary men who are now on different rolls working under the chief engineer and superintendent of construction.

Three carpenters, at \$900 each (in lieu of one at \$3.50 per diem on repairs of building roll, one copyist, at \$900, on Pension Office roll, working as carpenter, and one messenger at \$840 on Pension Office roll, working as carpenter).—Groups under the Secretary's roll proper men working under the chief engineer and superintendent of construction paid from various rolls, and provides an equal salary for the same work performed.

Chief plumber and pipefitter, at \$1,500 (in lieu of plumber, at \$900).—Is intended to provide for a subchief under the chief engineer and superintendent of construction, who shall be responsible for the plumbing work of the department, and the salary asked is deemed but adequate for the measure of responsibility involved.

Three plumbers, at \$900 each (one increase and one in lieu of skilled mechanic-plumber, at \$900, on old Post Office Department Building roll and one in lieu of messenger, at \$840, on Pension Office roll, working as plumber).—These men would be under the direct supervision of the chief plumber and pipefitter at \$1,500, and are deemed absolutely necessary, giving one plumber for each of the three buildings—Patent Office, old Post Office, and Pension Office—enabling the plumbing work to be kept in first-class condition and the new work in either building to be done by the combined force.

Plasterer and tile setter, at \$900 (in lieu of messenger, at \$840, on Pension Office roll, working as plasterer and tile setter).—This item designates by proper title the work now done by a messenger on the Pension Office roll, and the salary recommended is the same as is recommended for other mechanical work of like grade.

Eight conductors of elevators, at \$900 each (four increase, and four in lieu of two on regular roll, and one on old Post Office Department Building roll, and one messenger, at \$840, on Pension Office roll).—There are at present two conductors of elevators provided for on the regular roll of the Secretary and one under the old Post Office Department Building roll. There are two elevators in each of the three buildings of the department—the Patent Office, Pension Office, and old Post Office Department buildings. Four of the elevators are of the modern electric type and two of the hydraulic type, now obsolete. Six men must be on duty continuously. Experience teaches that with annual leave and absence due to sickness there will be almost continuous demand for two supernumeraries. Civil-service rules and regulations forbid the assignment of unclassified laborers to running elevators, except with the commission's approval under stated conditions, causing embarrassment in that respect, and eight conductors of elevators, at a uniform salary of \$720, are absolutely necessary to carry on the work.

Six foremen of laborers, at \$900 each (in lieu of the following, employed as foremen: One copyist, at \$900, and one laborer, at \$660, on regular roll, three laborers, at \$660, on Pension Office roll, and one laborer, at \$660, on General Land Office roll).—As to the manner of cleansing and sanitation of the rooms of the three buildings of the department—the Pension Office, Patent Office, and old Post Office Department buildings—I quote from my memorandum of October 18, 1909, Book of Estimates, 1911, page 574, as follows:

Until recently the cleansing and sanitation of the rooms of these buildings were a source of constant complaint on the part of officials and clerks. Each building, or rather each bureau of each building, had its own force of laborers; sometimes these laborers were used for other purposes; no centralized supervision appears to have been exercised over them. It was a common occurrence to have the rooms of a building cleaned between 4.30 and 5.30, or 6 at the latest, in the evening. Instances were known where laborers were expected to clean as many as 17 rooms. Immediately after the so-called cleansing had occurred the rooms were locked tight, dust allowed to settle and accumulate on the furniture, papers, and books until the next morning, when, shortly before the hour of the arrival of the clerical force, the rooms were opened, given a sort of dusting, with the result that the rooms were in many instances filthy, the furniture was never moved, the walls accumulated dust and dirt, the corners and nooks were filled with dust and debris. The following plan is now used: The laborers have been divided into squads, a squad under a foreman (generally one of the more intelligent, active, and responsible laborers), in each of the three buildings, each building divided into sections; cleaning begins at 5 o'clock in the evening and lasts until it is thoroughly done, often as late at 10 or 11 o'clock at night.

Rules have been made and enforced requiring that the walls be washed, vacuum cleaning machinery used; carpets, mattings, and books are gone over systematically for the purpose of removing dust and filth; furniture must be moved and the space beneath cleaned at certain periods. In order properly to handle the laboring force, six foremen of laborers, two for each of the three buildings, are deemed absolutely necessary. White laborers now serve in that capacity, but the position requires some executive ability, and it is difficult to secure men with the requisite qualifications for the salary of a laborer. The salary of \$900 each, submitted, is deemed reasonable.

One hundred and two laborers, at \$660 each.—As explained in the estimates, the plan is to transfer laborers from the bureau rolls and the roll of the Old Post-Office Building and consolidate all under the superintendent of buildings on the Secretary's roll proper, being the same laborers now under the superintendent's orders doing cleaning and manual work. It has been found that more work is obtained from them under the consolidated arrangement than when they were divided up, each bureau's laborers to themselves. Laborers at \$600, \$480, and \$400 do exactly the same work as those at \$660; for that reason they should have the same salary. The argument might be advanced that possibly an increase in salary by promotion from \$480 to \$660, the highest salary paid, might be an inducement to those working in the lower grades to excel in their work, but experience has demonstrated that this is not the case, but rather that discontent and dissatisfaction is caused by some receiving more salary for the same amount and character of work performed. Promotions are infrequent, as vacancies seldom occur.

Twenty-three charwomen, at \$240 each (in lieu of 8 on Secretary's office regular roll and 15 on Pension Office roll).—Consolidates two rolls and represents no increase in compensation.

Ten female laborers, at \$400 each.—Merely provides for the transfer of that number on the Pension Office roll under the chief clerk of the Interior Department.

Captain of the watch, at \$1,400.—Submits an increase in compensation of \$200. His compensation was fixed at a time when his duties were confined to the Patent Office Building. Subsequently, in 1899, the watch force of the Old Post-Office Department Building was placed under his jurisdiction. By an order of May 11, 1909, the Geological Survey watch force was placed under him; and later, by an order of June 29, 1909, the watch force of the Pension Office was likewise placed under his jurisdiction. At the present time the watch force of the entire department, including the Geological Survey and the Bureau of Mines, is operated by the chief clerk, under the immediate supervision of the captain of the watch, on the roll of the Secretary. The increase of \$200 in salary submitted is deemed but just compensation for additional service and responsibility connected with the position.

The item of nine lieutenants of the watch at \$840 each, in lieu of two on regular roll, three on Old Post-Office Department Building roll, one captain of the watch at \$840, and three sergeants of the watch at \$750 each on the Pension Office roll, who are really lieutenants of the watch, involves an increase of \$270, to make the pay of the sergeants the same as the lieutenants. The order of the Secretary of the Interior of June 29, 1909, placed the captain of the

watch on the roll of the Commissioner of Pensions in the position of a lieutenant of the watch under the captain of the watch of the department, and it is recommended that his designation be changed accordingly, no change in salary being made.

Seventy-eight watchmen, at \$7.20 each, represents the consolidation of the 20 watchmen on the Old Post-Office Department Building roll and the 20 watchmen on the Pension Office roll with the 38 on the Secretary's roll, but no increase in compensation.

The recommendations herein for miscellaneous new positions and increased salaries, exclusive of the proposed reorganization of the mechanical, engineering, labor, and watch force, make a net increase of \$11,340 in the appropriation for the office of the Secretary.

The proposed revision of the pay roll of the office of the Secretary by the proposed consolidation of the mechanical, engineering, labor, and watch force makes a net increase in the cost of the service of \$13,592, after the increases are offset by corresponding reductions and transfers from items and bureaus relieved by the increase under the appropriation for the office of the Secretary.

The other increases by recommendations of the Secretary for increase of the salary of the First Assistant Secretary, \$1,900, and for the new position of confidential clerk to the Secretary, \$2,000, and seven members of a board of pension appeals, at \$2,000, with \$500 additional to chief of board (net increase of \$8,500 over and in lieu of two assistant attorneys at \$2,000 and medical expert at \$2,000, all three now in office of the Assistant Attorney General), amount to \$11,500.

The actual net increased cost, by these estimates, is \$36,432.

Very respectfully,

CLEMENT S. UCKER,
Chief Clerk of Department of Interior and Superintendent of Buildings.

The SECRETARY OF THE INTERIOR.

The Adjutant General officially reports July 20, 1911, 5,008 officers exclusive of 7 officers estimated for in Military Academy estimate. From this number is deducted 92 second lieutenants in consequence of vacancies existing and not anticipated to be filled during the fiscal year 1913. Twenty-four engineer officers are eliminated, being provided for in river and harbor improvement.

Statement showing wherein the estimate for Pay, etc., of the Army for fiscal year ending June 30, 1913, differs from the amount appropriated for like purpose for fiscal year 1912.

APPENDIX G.

Statements showing the number of classified employees in the Navy Department proper at Washington, and at navy yards and naval stations, paid from lump appropriations, and their pay, for the fiscal year ended June 30, 1911, as required by the act of March 3, 1909 (35 Stat., p. 755).

NAVY DEPARTMENT,
Washington, November 4, 1911.

SIR: In pursuance of the provisions of the act of Congress approved March 3, 1909 (35 Stat. L., 755), I have the honor to herewith submit statements, and a recapitulation thereof, of the number of classified employees in the Navy Department proper at Washington, and at navy yards and naval stations, paid from lump appropriations, and their pay, for the fiscal year ended June 30, 1911, and respectfully request that the same be transmitted to Congress in connection with the estimates of this department.

Respectfully, yours,

R. F. NICHOLSON,
Acting Secretary of the Navy.

The honorable the SECRETARY OF THE TREASURY.

APPENDIX K.

*Notes in explanation of the estimates under the Smithsonian Institution, for the fiscal year ending June 30, 1913.
(See pages 390 and 391.)*

SMITHSONIAN INSTITUTION,
Washington, October 13, 1911.

SIR: I have the honor to submit herewith the estimates for appropriations for the fiscal year ending June 30, 1913, for the several branches of the Government service which are conducted under the direction of the Smithsonian Institution, namely, International Exchanges, American Ethnology, International Catalogue of Scientific Literature, Astrophysical Observatory, United States National Museum, and National Zoological Park.

A statement explanatory of these estimates is also inclosed.

I am, sir, your obedient servant,

The SECRETARY OF THE TREASURY.

C. D. WALCOTT, Secretary.

SMITHSONIAN INSTITUTION,
Washington, October 13, 1911.

SIR: In compliance with section 7 of the Act of Congress approved March 2, 1895, I have the honor to state that, within the limits of the appropriations, the business of the several branches of the Government service under the direction of the Smithsonian Institution, namely, the International Exchanges, the Bureau of American Ethnology, the International Catalogue of Scientific Literature, the Astrophysical Observatory, the United States National Museum, and the National Zoological Park, has been conducted in a satisfactory manner, and no arrearages exist in the current work. The usefulness of these several branches would, however, be increased should additional funds be granted.

I am, sir, your obedient servant,

C. D. WALCOTT, *Secretary*.

The SECRETARY OF THE TREASURY.

EXPLANATORY NOTES ACCOMPANYING ESTIMATES OF APPROPRIATIONS UNDER SMITHSONIAN INSTITUTION, 1912-13.

INTERNATIONAL EXCHANGES, SMITHSONIAN INSTITUTION.

The system of international exchanges is based on the convention and the resolutions of Congress briefly referred to below:

Convention between the United States and several other countries for the international exchange of official documents and scientific and literary publications, concluded at Brussels in 1886 and proclaimed by the President of the United States in 1889 (Stat., XXV, 1465). (Since the ratification of this convention, several additional Governments have signified their adherence thereto; while a number of other countries, though they have not officially adhered to the convention, have established international exchange bureaus.)

Resolution providing for the exchange of certain public documents, approved March 2, 1867 (Stat., XIV, 573). This resolution provides that 50 copies of all documents printed by order of either House of Congress, and also 50 copies of all publications issued by any bureau or department of the Government, shall be placed at the disposal of the Joint Committee on the Library for exchange with foreign countries through the agency of the Smithsonian Institution.

Joint resolution to regulate the distribution of public documents to the Library of Congress for its own use and for international exchange, approved March 2, 1901 (Stat., XXXI, 1464). By this resolution it is provided that, in lieu of the 50 copies of the publications referred to in the above-mentioned resolution, there shall be placed at the disposal of the Library of Congress for its own use and for international exchange 62 copies of such documents, with the privilege, at the request of the librarian, of enlarging this number to 100.

Joint resolution for the purpose of more fully carrying into effect the convention concluded at Brussels in 1886 in reference to the immediate exchange of the official journal, approved March 4, 1909 (Stat., XXXV, 1169). This resolution provides that such number as may be required, not exceeding 100 copies, of the daily issue of the Congressional Record, shall be supplied to the Library of Congress for distribution through the Smithsonian Institution, to the legislative chambers of such foreign Governments as may agree to send to the United States current copies of their parliamentary record or like publication.

The estimate here submitted for the International Exchanges is the same as the appropriation for the current year.

AMERICAN ETHNOLOGY, SMITHSONIAN INSTITUTION.

The Bureau of American Ethnology has been engaged for a number of years in studying and recording the habits, customs, and beliefs of the American aborigines, including their arts and industries, government, religious and sociological systems, and languages, as well as their mental and physical characteristics, their history, and antiquities. Much has been accomplished in this direction, and many of the results have been permanently recorded and disseminated by means of publication; but a large body of material awaits final study and arrangement, and much work remains to be done both in the field and in the office. The investigations of the bureau, however, have reached a stage in which it has been found possible to summarize some of the results in the form of handbooks, designed especially for the use of schools and for nonprofessional students. The demand for those already issued or about to be published has been very large. Many changes are taking place among the Indians, owing to the advance of many of them toward civilization, so that the researches are being pressed with all reasonable speed while much of the knowledge is still available.

The Indians form one of the great races of mankind, and the world looks to our Government for this contribution to the knowledge of the human family, while a large part of our own people regard the work of the Bureau of American Ethnology as the very basis of American history.

The increase of \$16,850 over the appropriation for the fiscal year 1911-12 is designed for the following purposes:

For the exploration and preservation of antiquities.....	\$4,000
For ethnological researches in Alaska.....	4,500
Extension of ethnological researches among the tribes of the Mississippi Valley.....	1,000
Toward the preparation of a revised edition of the Handbook of American Indians, including the employment of specialists, and of clerical and editorial assistance.....	3,800
For additional editorial assistance in preparing the publications of the bureau for the press.....	1,200
For supplying photographs of Indian subjects to schools and colleges, and for other educational purposes.....	1,000
For purchase of metal cases and fireproofing room for manuscripts.....	1,350

It is designed to expend the \$4,000 requested for the excavation and preservation of antiquities in the continuation of the work in this direction, especially in Arizona and New Mexico. This work should be prosecuted vigorously before many of the important ruins are entirely destroyed by vandalism and the elements.

The appropriation of \$4,500 for ethnological researches in Alaska is urgently needed by reason of the great change taking place among the Indians and the Eskimo since the influx of white people a few years ago. Unless this investigation is undertaken at once the aborigines will have become so modified by their contact with white people that a knowledge of much of their primitive character will be lost.

The appropriation of an additional \$1,000 is urged to enable the more speedy extension of ethnological researches among the tribes of the Middle West, in a number of cases represented by only a few survivors who retain the lore of their people. The passing of these Indians makes the urgency of this work apparent, as it will soon be impossible to gain the desired information respecting them.

The demand for the Handbook of American Indians has been so great (the number of applications received by the bureau approaching 20,000) that the volumes passed out of print as soon as published. A reprint of the Handbook, authorized by Senate resolution as this statement is being prepared, will serve only a temporary purpose. As the researches of the bureau are continued, much new information regarding the history, migrations, manners, customs, beliefs, and traditions of the American Indians is accumulated, consequently, like every popular work of reference, the Handbook of American Indians should be revised and extended to meet the increasing interest in the subject and the large demand for this publication.

The activities of the bureau have recently been such that the manuscript material submitted for publication has been more voluminous than the regular editor could prepare for and see through the press. The sum of \$1,200 is required for the employment of additional assistance in order that the issuance of the reports and bulletins may not be further delayed.

The Bureau of American Ethnology has many demands on it from various colleges, schools, libraries, historical societies, etc., for photographs of Indian subjects, but except to a very limited extent it has not been possible to supply them owing to lack of funds. As these photographs serve an educational purpose, it is desirable that they be supplied when promotive of a public good, and for this purpose the sum of \$1,000 is requested.

The request of \$1,350 for providing metal cases and fireproofing room for safeguarding the many hundreds of manuscripts belonging to the bureau scarcely needs explanation. These manuscripts are of priceless scientific value. Indeed many of them if lost could not be replaced, since they represent the results of studies of Indians that have become extinct.

INTERNATIONAL CATALOGUE OF SCIENTIFIC LITERATURE, SMITHSONIAN INSTITUTION.

The purpose of the International Catalogue of Scientific Literature is to collect and publish in 17 annual volumes a classified index of the current scientific publications of the world.

This is accomplished through the cooperation of 32 of the principal countries of the world, which by means of regional bureaus, one in each country, prepare the data necessary to index all scientific publications published within their domains. The material thus prepared is forwarded to a central bureau in London for publication in the annual volumes.

The various subscribers throughout the world bear the entire cost of printing and publishing by the central bureau. Each country taking part in the enterprise bears the cost of indexing and classifying its own publications.

The 17 annual volumes combined contain between 10,000 and 12,000 printed pages.

The regional bureau for the United States furnishes yearly about 30,000 classified citations to American scientific literature, which is between 11 and 12 per cent of the total work.

Millions of dollars are being spent each year in scientific investigation, and many of the foremost men of the day are devoting their entire time to such work. The results of their labors find publicity through some scientific journal, of which there are over 5,000, being regularly indexed by the various regional bureaus, over 500 in the United States alone. In addition to these periodicals are hundreds of books and pamphlets, all of which the international catalogue aims to index in its yearly work.

The international catalogue furnishes in condensed, accurate, and permanent form a minutely classified index to all of these publications. It is necessary for each paper to be carefully studied by a person competent to thoroughly understand the subject treated, as the method of classification actually furnishes a digest of the contents in addition to the usual bibliographical data.

The catalogue is to science what the legal digest is to law.

The estimate here submitted is the same as the appropriation for the current year and the year preceding.

ASTROPHYSICAL OBSERVATORY, SMITHSONIAN INSTITUTION.

The Astrophysical Observatory from 1908 to 1911, inclusive, has been engaged in perfecting and completing discoveries of universal interest on the quantity and quality of the sun's radiation, on which all life on earth depends. In the fiscal year ending June 30, 1913, it is proposed to prepare for publication and to print Volume III of the *Annals* of the Astrophysical Observatory, to contain the results of all its work since the publication of Volume II of its annals in 1908. The labor of preparation of Volume III will be very great, and will require additional services of computers and draftsmen. In addition the researches of the observatory will be continued vigorously, as heretofore. For these purposes \$15,000 is required.

The sum of \$3,000 is asked for printing Volume III of the annals, and for ordinary printing and binding.

The cost of printing Volume II of the annals (1,500 copies) was practically \$2,000, but the cost of such a publication is now somewhat higher. Besides, it will be necessary to include more tabular matter in the contemplated Volume III than was contained in Volume II.

NATIONAL MUSEUM, SMITHSONIAN INSTITUTION.

Furniture and fixtures.—Of the amount estimated under this heading, namely, \$75,000, about two-thirds is required for furniture for the exhibition halls, and about one-third to provide accommodations for additions to the reserve collections and to meet the needs of the laboratories and offices. Besides the building of cases for both exhibition and storage, this appropriation covers the cost of their fittings, and also the purchase of drawers, trays, boxes, jars, vials, etc., used in the preservation and arrangement of specimens.

Heating and lighting.—The mechanical plant installed in the new building has so far proved to be of sufficient capacity for heating all of the buildings occupied by the National Museum, as well as for furnishing the electric current needed for lighting and power purposes, and has demonstrated its economy in service. This item also covers the cost of telephone service, electric call bells, telegrams, repairs to machinery and plumbing, and the necessary supplies. The entire amount estimated, namely, \$50,000, which is the same as the current appropriation, will be required.

Preservation of collections.—From this appropriation are paid all expenses for the maintenance of the National Museum except such as are otherwise specifically provided for. The principal expenditure is for the salaries of the scientific-technical staff, preparators, cataloguers, clerks, watchmen, laborers, and cleaners. Other important items are supplies and preservatives, materials for cleaning the buildings, stationery, freight and express charges on collections, travel and incidental field work, illustrations for reports, and special services.

Under the current appropriation of \$300,000 the work of preparation and installation of collections in the extensive exhibition halls of the Museum must necessarily proceed slowly. In order to hasten this work and permit all the halls to be opened to the public with as little delay as possible, it is requested that the amount of the appropriation for the next fiscal year be increased to \$350,000.

Books.—The classification and arrangement of the collections in the National Museum is greatly hampered by the inability to secure reference books and periodicals to the extent necessary for that purpose from the appropriations hitherto made, which have never exceeded \$2,000 annually. The library of the Museum is restricted to the subjects with which the Museum is officially concerned, and there is no intention to duplicate works contained in the Library of Congress or in the libraries of the Smithsonian Institution and the several scientific bureaus of the Government. Every year, however, there are issued many publications essential to the operations of the Museum which are not obtainable from the above sources and which the small fund available is inadequate to supply. It is therefore earnestly requested that the entire amount of the estimate, \$4,000, be allowed.

Building repairs.—The estimate submitted under this heading is the same as the appropriation for the current and several past years, namely, \$15,000. The building area occupied by the Museum has recently been increased over threefold, but, unless some unforeseen contingency arises it is expected that this amount will be sufficient.

BOOK STACKS FOR GOVERNMENT BUREAU LIBRARIES, SMITHSONIAN BUILDING.

The library of the Bureau of American Ethnology is at present installed in wooden bookcases on the galleries of the main hall of the Smithsonian Building. The galleries, stairways, and window sash and frames are very old and, like the bookcases, highly inflammable. The appropriation now asked for is for the purpose of removing these wooden structures, restoring the walls, columns, and floors, and substituting fireproof book stacks, stairways, and windows. The new book stacks and cases would accommodate the books belonging to the several bureaus under the direction of the Institution, including a part of the library of the National Museum, which should be kept in a central location. They would also provide a safe place in which to assemble the Smithsonian books constantly used by the bureaus, of which several thousand are now scattered through various rooms of the Smithsonian Building.

The estimate is also intended to cover the cost of the necessary steam radiators and electric lights, and a simple carrier for books passing between the Smithsonian Building and new National Museum Building, to be installed in the heating tunnel connecting the two buildings.

NATIONAL ZOOLOGICAL PARK, SMITHSONIAN INSTITUTION.

The equipment of the National Zoological Park, as regards both the accommodations for its collections and facilities for visitors, is inadequate, and is inferior to that of other establishments of this kind that are of equal importance.

To a large extent the collections still have to be kept in temporary quarters which are insufficient, insanitary, and costly to maintain. This is especially true of the birds, of which the park has a fine series, including some of exceptional interest and rarity. The rough temporary building which they now occupy does not provide enough space to exhibit the whole collection nor the conditions necessary to keep the birds in healthy condition. In a suitable building this collection would be one of the most notable features of the park.

In order to provide properly for the great number of visitors who frequent the park, there should be a public-comfort building which would afford shelter at all times of the year, with toilet facilities and a place where lunch could be procured. There is no such accommodation at present, and it is seriously needed.

A series of permanent paddocks for hardy deer, wild sheep, goats, and cattle is much needed, as these animals are now in scattered temporary inclosures, some of which are altogether unsuitable.

In order to provide more adequate conveniences for visitors, a shelter house should be built near the main entrance, and toilet facilities provided in connection with it.

It will be necessary to build immediately a new bridge across Rock Creek to replace the present temporary log structure, which has been seriously weakened by decay. The roadway which crosses here is very largely used and

the bridge should be permanent in character and of sufficient width to provide for the greatly increased travel which will pass over it when the valley of Rock Creek is fully developed.

Attention is again called to the desirability of securing for the park at once the narrow tract of land lying between its boundary and the recently established highway on the southeast. This highway was located by the engineer commissioner of the District as close to the boundary of the park as the topography would permit, in order to reduce the tract of land between to a minimum, with the expectation that it would be acquired by the Government. This land is as yet unused, and can probably be secured at less cost now than at any future time. The possession of this land is of the utmost importance to the park in order to guard against the destructive encroachment of adjacent grading. Taking as a basis the valuations placed on this land by the assessors of the District of Columbia in 1910, it is estimated that the tract can be purchased for \$15,000.

PRINTING AND BINDING, SMITHSONIAN INSTITUTION.

The only increases requested under this item are as follows:

Astrophysical Observatory.—The sum of \$3,000 is asked for the publication of volume 3 of the *Annals of the Astrophysical Observatory* and for miscellaneous printing and binding. The volumes of annals are not issued at regular intervals, but at such times as the results of the investigations require publication. Volume 3 will contain the results of the work of the observatory since 1908, at which date volume 2 was published at cost of about \$2,000. It is estimated that volume 3 will cost considerably more than the preceding volume on account of the present higher cost of printing and the necessity of including more tabular matter.

National Museum.—The customary appropriation of \$34,000 for printing and binding for the National Museum has become inadequate to meet the necessary requirements in this direction, owing in part to the increased cost of the work and in part to the additional demands resulting from the enlarged operations of the Museum with the occupation of the new building. The Museum has been called upon to make use of a greater number of blank forms than heretofore, and the printing of labels for specimens and cases has become a much more important item. The binding of books and periodicals, the majority of which reach the Museum in paper covers, has been so much retarded as to endanger the condition of a large part of the library and greatly increase the difficulties of library administration. Additional means are also required for the publications of the Museum, which, though restricted to reports based upon its collections and to accounts of its work and methods, comprise some of the most important scientific, educational, and practical contributions issued by the Government. It is requested that the sum of \$50,000, as submitted, be appropriated for next year.

SAFE FOR OFFICE OF DISBURSING AGENT, SMITHSONIAN INSTITUTION.

The only protection for money and books against fire and burglary at present in the office of the disbursing agent of the Smithsonian Institution, who is charged with the disbursement of the appropriations for the Government branches under the Institution, is a small safe of ordinary construction, which is not sufficiently large to contain the account books and the paid vouchers. It frequently becomes necessary to have several thousand dollars in cash on hand overnight and the present facilities are not adequate for its protection. The amount requested, namely, \$1,500, is for the purchase and installation of a fireproof and burglar-proof safe, with triple time lock, which will be capacious enough to hold the account books and paid vouchers and will adequately secure the safety of cash needed for current demands.

APPENDIX L.

In explanation of the estimates for "Support of National Home for Disabled Volunteer Soldiers." (See pp. 396 to 399.)

Explanations to estimates of the Board of Managers of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1913.

HEADQUARTERS, NEW YORK, N. Y., August 8, 1911.

SIR: In compliance with instructions contained in letter from your department dated July 20, 1911, I have the honor to forward herewith inclosed estimates for appropriations required for support of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1913, together with statements of expenditures for salaries, etc., of officers and employees of the Board of Managers and of compensation and allowances of the officers of the several branches of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1911, as required by act of August 5, 1892: also to submit the following explanations relating to the estimates.

Slight changes are desired in the wording of the appropriations for hospital and farm. The cemetery has been considered a part of the park system, and as such the cost of its care has been defrayed from the appropriation for farm. The appropriation for hospital has heretofore provided for pay of gravediggers and for tools for gravediggers. It is inconvenient for the hospital department to supervise the digging of graves, and such work can be more conveniently and satisfactorily performed by the farm laborers employed in the care of the cemetery. It is therefore requested that the words "gravediggers" and "tools for gravediggers" be omitted from the appropriation for hospital, and the words "including cemetery" added to the appropriation for farm after the word "park." Anticipating approval of this recommendation, the amount required for pay of gravediggers has been omitted from the appropriations of the several branches for hospital and included in the appropriations for farm. The increased amounts over the appropriations for the current fiscal year under the several heads of expenditure and special objects for which appropriations are desired are as follows:

CENTRAL BRANCH.

Household (increased), \$1,000.—To provide for probable increase in the cost of coal.

Farm (increased), \$360.—To provide for pay of gravediggers, there being a corresponding decrease under hospital.

NORTHWESTERN BRANCH.

Hospital (increased), \$500 (transfer of amount of pay of gravediggers to farm being considered).—To provide for increased cost of services of nurses due to the substitution of civilians for members.

Farm (increased), \$240.—To provide for pay of gravediggers, as explained for Central Branch.

For cement curbing and gutters, \$7,500.—A needed improvement for the protection of the roadways.

For two steam boilers, \$10,000.—Required to replace two boilers that have been in use more than twenty years and are no longer safe, except at a greatly reduced steam pressure.

EASTERN BRANCH.

Household (increased), \$6,000.—To provide for the cost of heating new buildings.

Farm (increased), \$200.—To provide for pay of gravediggers, as explained for the Central Branch.

For improvement and enlargement of cemetery, \$5,000.—The capacity of the cemetery now in use will be exhausted within another year, and the enlargement and improvement called for by the estimate is necessary to provide a suitable place for the burial of the dead.

For chapel, \$7,500.—This chapel is required for the use of Roman Catholic members of the Home, who have heretofore made use of the same building as the Protestant members.

SOUTHERN BRANCH.

Repairs (increased), \$8,000.—To provide for conversion of heating system in old buildings to the vacuum system, in conformity with that installed for new buildings; a measure of economy.

For sea wall on Johns Creek, \$22,000.—The tide-water overflow along the banks of this creek creates a bad sanitary condition, which the proposed wall is designed to correct.

For two additional boilers in power house, \$12,000.—Required to increase the capacity of the heating and power plant, the number of boilers now in use being insufficient during cold weather.

For addition to hospital, \$55,000.—Required to increase the capacity of the hospital in accordance with the needs of the branch, and to replace an old building now used for some of the patients, which is in bad condition and not worth repairing, is inconveniently located, and not suitable for hospital purposes.

WESTERN BRANCH.

Subsistence (increased), \$10,748.—Required to provide subsistence for estimated number of members and civilians at a per capita allowance of 20 cents per day.

Repairs (increased), \$5,000.—Required for necessary repairs to buildings, electric-lighting plant, and refrigerating plant.

Farm (increased), \$360.—To provide for pay of gravediggers, as explained for the Central Branch.

PACIFIC BRANCH.

Household (increased), \$3,000.—Required on account of increase in price of fuel oil.

Repairs (increased), \$10,000.—Required for necessary repairs to buildings and for improvement of heating and water-supply systems.

Farm (increased), \$260.—To provide for pay of gravediggers, as explained for the Central Branch.

For cement curbing and gutters, \$2,000.—A needed improvement for the protection of the roadways.

For elevator in convalescent barrack, \$1,000.—Required for the use of old and decrepit members who are unable to climb the stairs.

For sewage-disposal plant, \$20,000.—The sewage is now treated in two septic tanks, which are only effective to about 50 per cent purity. The odor from the effluent is consequently very offensive, especially to the sick in hospital. It is desired to increase the effectiveness of the plant by the installation of another tank with contact and filtration beds. The improvement is believed to be necessary as a sanitary measure, and will permit of the water of the sewerage system being used for irrigation purposes, for which it is needed.

For repairs to barracks, \$8,500.—There are four barrack buildings that have been in use for more than 20 years; they are in bad condition, and it is desired to give them a thorough overhauling, especially as to the plumbing, in order that they may be preserved and placed in a sanitary condition.

For additional toilet rooms and remodeling hospital, \$36,500.—The lavatories and toilet rooms are now located outside the building, which renders them inconvenient and hazardous to the health of the patients. The floors are worn out; the ceilings are broken and dangerous. The heating and ventilating systems are inadequate and inefficient. After the work of remodeling and repairing has been done the entire interior and exterior of the building should be painted. The amount included in the estimate is necessary to make the building suitable for use as a hospital.

For increase and improvement of water supply, \$3,000.—During the last three years a system of water supply has been developed by means of driven wells. While the present supply is sufficient under normal conditions when careful economy is exercised, it would not be adequate during a season of drought, which, according to past experience, must be anticipated.

MARION BRANCH.

Subsistence (increased), \$829.—Required to provide subsistence for estimated number of members and civilians at a per capita cost of 20 cents per day.

Farm (increased), \$180.—To provide for pay of gravediggers as explained for the Central Branch.

DANVILLE BRANCH.

For connecting corridor between barracks, \$2,700.—It is desired to connect one of the barracks with a barrack which is provided with a kitchen and messing facilities, in order that the old and feeble men quartered therein may be able to go to their meals without being exposed to the inclemency of the weather.

MOUNTAIN BRANCH.

Subsistence (increased), \$2,760.—Required to provide subsistence for estimated number of members and civilians at a per capita cost of 20 cents per day.

Transportation (increased), \$500.—A special ward for the out-door treatment of tuberculous patients has been provided at this branch, and the increase asked for is to furnish transportation for tuberculous members at other branch homes that may be ordered to the Mountain Branch for treatment.

BATTLE MOUNTAIN SANITARIUM.

Repairs (increased), \$5,000.—The amount asked for is necessary in order to keep the buildings and their equipment in a proper condition of repair. The amount appropriated for the current year is insufficient. The buildings have now been occupied for nearly five years and all need repainting.

Respectfully, yours,

J. W. WADSWORTH,
President Board of Managers,
National Home for Disabled Volunteer Soldiers.

The SECRETARY OF WAR, Washington, D. C.

APPENDIX M.

In connection with the estimates of the District of Columbia, as submitted by the Commissioners. (Estimates on pp. 441 to 508.)

COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, October 7, 1911.

The SECRETARY OF THE TREASURY.

SIR: The Commissioners of the District of Columbia transmit herewith, as required by law (31 Stats., 1909), their estimates of appropriations to provide for the expenses of the government of said District for the fiscal year to end June 30, 1913.

These estimates are slightly less in the aggregate than twice the amount of the total estimated revenues of the District for that fiscal year, after taking into consideration, pursuant to the act of March 3, 1909 (35 Stats., 1728), all charges against such revenues arising under appropriations other than the regular District appropriation act.

The aggregate of these estimates is as follows:

Chargeable to the general revenues.....	\$12,429,935.50
Chargeable to the revenues of the water department.....	135,785.00

The estimated appropriation fund applicable to the portion of the foregoing estimates other than the estimates for the water department is \$12,431,480, leaving a balance of \$1,544.50 in favor of that fund.

The estimated revenue of the water department for the fiscal year 1913 is \$760,000.

The appropriation fund is based on an estimate of the revenues of the District government derived from taxes, licenses, and other private sources, less the definite and potential items chargeable wholly against such revenues; then doubling the remainder in order to include the proportion due from the United States, according to the terms of the organic act of June 11, 1878; and finally, deducting from such combined fund an estimate of appropriations for the fiscal year 1913 which will be contained in other acts than the regular District of Columbia bill, based on such appropriation made for 1912.

Among the items chargeable wholly to the District revenues is one to reimburse to the United States \$680,000 on account of advances made to the District, with \$41,000 interest due thereon. The proposed payment is approximately one-third of the estimated amount that will be due on that account on June 30, 1912, for which one-third they have thus made allowance in conformity with their view of the intent of Congress in requiring the liquidation of that obligation within five years from July 1, 1910.

Notwithstanding the diminution of the estimated appropriation fund by the necessity to meet that repayment on the floating debt, the commissioners have been able to provide for a reasonable increase in expenditure for the conduct of municipal business and for public improvements, and to recommend a number of special projects of general public benefit.

The most important of the special projects recommended are the preservation of Klinge Valley for park purposes; the acquisition of property for parks at Mount Hamilton, Piney Branch Valley, Fort Davis and Fort Dupont, and Rock Creek and Lovers Lane; and the beginning of the construction of a municipal hospital.

With the exception of the Klinge Valley project, it is not proposed to pay for the park sites mentioned out of the revenues of the District of Columbia for the fiscal year 1913, but that the necessary money shall be advanced out of the United States Treasury; that one-half of the total amount thereof be refunded to the United States from the revenues of the District in four equal annual installments, and that not less than one-fourth of the amount expended shall be repaid to the United States and District of Columbia in equal parts by special assessments against the property specially benefited by the acquisition of the parks.

The public schools have received attention by the inclusion among other provisions of \$772,000 for school buildings and sites, embracing a new Central High School building, and a building for a new colored high school.

Provisions for street-lighting service and for improving the street cleaning department have been made. Items to meet the growing needs of the fire and police departments have been recommended, including a new harbor boat.

Pursuant to the requirement of law that—

The board of education shall annually on the first day of October transmit to the Commissioners of the District of Columbia an estimate in detail of the amount of money required for the public schools for the ensuing year, and said commissioners shall transmit the same in their annual estimate of appropriations for the District of Columbia, with such recommendations as they may deem proper—

the Commissioners transmit herewith the estimates for the public schools for 1913, as those estimates were submitted to them by the Board of Education.

Also the estimates of the Board of Charities for the fiscal year 1913, as submitted by that board, pursuant to the act creating the board, which prescribes that it shall prepare—

such estimates of future appropriations as will, in the judgment of a majority of its members, best promote the effective, harmonious, and economical management of the affairs under its supervision; and such estimates submitted shall be included in the regular annual Book of Estimates.

The commissioners also transmit herewith a schedule of proposed work on streets and avenues; a copy of the estimate of the general revenues for the fiscal year 1912; and a list of rented buildings.

Very respectfully,

THE BOARD OF COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
By CUNO H. RUDOLPH, *President*.

APPENDIX N.

Estimates, as submitted by the board of education, for the public schools, District of Columbia.

BOARD OF EDUCATION OF THE DISTRICT OF COLUMBIA,
FRANKLIN SCHOOL BUILDING,
Washington, D. C., September 16, 1911.

Hon. CUNO H. RUDOLPH,
President Board of Commissioners of District of Columbia,
Washington, D. C.

DEAR SIR: The board of education has the honor to transmit herewith four copies of the estimated needs of the public schools of the District of Columbia for the fiscal year ending June 30, 1913.

In the preparation of these estimates the committee on ways and means of the board has noted your wishes as expressed in your communication under date of June 14, 1911, that the figures be kept to approximately \$3,060,000. Consequently the board has restricted the estimates to such items as in its judgment are absolutely essential for the proper conduct of the schools. These items aggregate \$3,247,000. The order of arrangement follows the usual plan, and where the estimates call for permanent improvements, as buildings and grounds, the several items therefor have been placed in the order of their relative importance, though every item is regarded as necessary.

In compliance with the instructions of the Secretary of the Treasury, submitted by you, the estimates for rents are presented in detail, the rental figures for 1912 being used as a basis.

Inasmuch as there are additional items for buildings and grounds and a few minor needs which are highly important, though less vital than those listed in the estimates proper, which the board feels should be submitted but which are withheld because of the board's recognition of the restrictions placed upon the commissioners by the statutes, such items have been included separately and are transmitted for consideration in a supplemental list, in which the items are also placed in the order of their importance.

Very respectfully, yours,

JAS. F. OYSTER,
President Board of Education.

Supplementary list, buildings and grounds.

For the purchase of ground on which to erect additional school building accommodations for the neighborhood of Langdon School.....	\$12,000
For the complete equipment of the normal school building for colored pupils, including classroom furniture, general building furnishings, furniture and equipment for the drawing rooms, laboratories, library, teachers' retirement rooms, and gymnasium.....	24,000
For the purchase of a site for a 16-room building to relieve the Wheatley, Pierce, and Webb Schools, and to accommodate manual training, cooking, and sewing schools occupying rented quarters.....	40,000
For a 4-room addition to the Congress Heights School.....	33,000
For the completion of the gymnasium of the McKinley Manual Training School, and the equipment thereof.....	60,000
For the purchase of a site and toward the erection of a central vocational school of industries and trades for colored youth, the total cost of said building, under a contract which is hereby authorized therefor, not to exceed \$200,000.....	75,000
For the purchase of a site for an 8-room extensible building north of the Hubbard School and west of Eleventh Street.....	36,000
For the purchase of lots in the vicinity of the Adams School, approximately 9,300 square feet.....	20,000
For the purchase of lots adjacent to the Benning School, 20,000 square feet.....	2,500
For the purchase of ground lying east of the Brent School, approximately 5,500 square feet.....	5,000
For the purchase of lots 7, 8, and 9, square 511, as a site for an annex to the J. F. Cook School.....	8,500
For the purchase of ground adjacent to the Briggs School, for additional playground space, approximately 9,000 square feet.....	7,500
For the equipment of the business department of the Armstrong Manual Training School.....	2,000
For the purchase of the small triangle of ground bounded by the present Langdon School grounds, Franklin and Twentieth Streets, approximately 4,000 square feet.....	2,250
For the purchase of ground lying north of the Maury School, approximately 9,200 square feet.....	2,800
For the purchase of additional ground lying east of the Morse School, approximately 3,050 square feet.....	3,650
For the purchase of ground adjacent to the Montgomery School, approximately 3,000 square feet.....	5,000
To provide for the assignment and promotion to group A, class 6, of all teachers of manual training, drawing, physical culture, music, domestic art, domestic science, and kindergarten practice teachers in the normal, high, and manual training schools, and assistants to the directors of primary work.....	

NOTE (by board of education).—It is estimated that this change would require an additional appropriation for the first year of approximately \$6,500. A similar provision was passed by the Senate in District of Columbia appropriation acts Jan. 19, 1910, and Feb. 14, 1911.

In all..... 339,200

For amount required to rent, equip, and care for temporary rooms for classes above the second grade, now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory-education law, and for the purchase of all necessary articles and supplies to be used in the course of instruction which may be provided for atypical and ungraded classes.	\$13,000		For contingent expenses, including furniture and repairs of same, stationery, printing, ice, purchase and repair of equipment for high-school cadets, and other necessary items not otherwise provided for, including an allowance of \$300 each for livery of horse or garage of an automobile for the superintendent of schools, and for the superintendent of janitors, and including not exceeding \$1,000 for books, books of reference, and periodicals.	\$47,500	
For amount required to equip temporary rooms for classes above the second grade, now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory-education law, and for the purchase of all necessary articles and supplies to be used in the course of instruction which may be provided for atypical and ungraded classes.		\$7,000	For contingent expenses, including furniture and repairs of same, stationery, printing, ice, purchase and repair of equipment for high-school cadets, and other necessary items not otherwise provided for, including an allowance of \$300 each, or so much thereof as may be necessary, for livery of horse or garage of an automobile for the superintendent of schools, and for the superintendent of janitors, and including not exceeding \$2,500 for books, books of reference, and periodicals.		\$52,500
NOTE (by board of education).—A seeming decrease of \$6,000 but an actual increase of \$2,000; \$6,000 appropriated for the current year under this head has been transferred to the item "For rent of school buildings, repair shop, storage and stock rooms, and offices;" \$2,000 appropriated for the current year under this head has been transferred to the item "For care of smaller buildings and rented rooms, including cooking and manual training schools wherever located, and including care of temporary rooms for classes above the second grade, now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory-education law, at a rate not to exceed \$72 per annum for the care of each schoolroom, \$12,000." The balance for the current year appropriated under this head has been found inadequate to meet the expenses of the transfer of portable buildings and the proper development of the ungraded and atypical classes.			NOTE (by board of education).—An increase of \$5,000.		
For repairs and improvements to school buildings and grounds and for repairing and renewing heating, plumbing, and ventilating apparatus, \$70,000, to be immediately available.	70,000	70,000	For purchase of pianos for school buildings and kindergarten schools, at an average cost not to exceed \$300 each.	1,000	
For special repairs to and changes in plumbing in existing school buildings, \$25,000. A detailed statement shall be submitted to Congress of the expenditure of the foregoing sum, and for the fiscal year 1912 estimates shall be submitted in detail as to the particular school buildings requiring unusual repairs of and changes in plumbing.	25,000		For purchase of pianos for school buildings and kindergarten schools, at an average cost not to exceed \$300 each.		1,500
For necessary repairs to and changes in plumbing in existing school buildings, and the installation of sanitary drinking fountains in buildings not supplied with the same, \$25,000. Assembly hall in 12-room buildings.	1,250		For extending the telephone system to new school buildings, including the cost of the necessary wire, cable, poles, cross arms, braces, conduit connections, extra labor, and other necessary items, to be expended under the electrical department.		1,500
			For purchase of apparatus and for extending the equipment, and for the maintenance of the physics department in the Central, Eastern, Western, and M Street High Schools.	3,000	
			For purchase of apparatus and for extending the equipment, and for the maintenance of the physics department in the Central, Eastern, Western, Business, and M Street High Schools, including extra labor.		4,000
			NOTE (by board of education).—An increase of \$1,000. The \$3,000 appropriated last year is not sufficient to properly maintain the work in physics in the high-school laboratories. The work has been extended to the Business High School.		

Estimates for the fiscal year to end June 30, 1913—Continued.

MISCELLANEOUS—continued.			BUILDINGS AND GROUNDS—continued.		
For the purchase of fixtures, apparatus, specimens, and materials for the laboratories of the departments of chemistry and biology in the Central, Eastern, Western, Business, and M Street High Schools, Normal School No. 1, and Normal School No. 2, and the installation of the same.	\$2,100		For the purchase of ground adjacent to the Corcoran School for the extension of said school, approximately 7,200 square feet.	\$9,000	
For the purchase of fixtures, apparatus, specimens, and materials for the laboratories of the departments of chemistry and biology in the Central, Eastern, Western, Business, and M Street High Schools, Normal School No. 1, and Normal School No. 2, and the installation of the same, including extra labor.		\$3,000	For purchase of ground adjacent to Fillmore School, approximately 25,000 square feet.	10,000	
NOTE (by board of education).—An increase of \$900. The allowances for the purchase of apparatus in the laboratories have been made from the contingent fund. This has necessarily kept such allowances at a very low figure and the several laboratories inadequately equipped for the work which the classes must do. The shortage of supplies has multiplied through a number of years, and the present item is for thoroughly equipping the departments named with modern apparatus in sufficient quantity.			For purchase of site for a new Central High School, approximately 400,000 square feet, to be located north of Q Street, north and west of Tenth Street west.	250,000	
Any unexpended balances in the "act making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ending June 30, 1911, and for other purposes," to rent, equip, and care for temporary rooms for classes above the second grade now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory-education law, is hereby reappropriated and made immediately available for the purchase, erection, equipment, and maintenance of portable schoolhouses for temporary use.			Toward the construction of a normal school building for colored pupils, and the total cost of said building under a contract which is hereby authorized therefor shall not exceed \$200,000.	75,000	
Any unexpended balances in the "act making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ending June 30, 1912, and for other purposes," to rent, equip, and care for temporary rooms for classes above the second grade now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory-education law, is hereby reappropriated and made immediately available for the purchase, erection, equipment, and maintenance of portable schoolhouses for temporary use.			For the erection of a 4-room building at or in the vicinity of Burrville.	40,000	
Contingent expenses, child labor law: For contingent expenses for carrying out the provisions of the act entitled "An act to regulate the employment of child labor in the District of Columbia," approved May 23, 1908, including furniture and repairs of same, stationery, printing, typewriters, and all other necessary items and supplies for the issuing of the age and schooling certificates and permits and badges as required by the provisions of the said act, including the purchase of suitable badges.		1,000	For the erection of a 4-room building on site of Military Road School.	33,000	
NOTE (by board of education).—The present filing system is entirely inadequate. It is now practically full, and in order to continue the records it will be necessary to make a material extension. The extension should be large enough to accommodate the records for several years. The number of papers filed average about 30,000 each year. The estimate for blank forms, stationery, and printing includes an estimate for the printing of an annual report which is in great demand throughout the United States. The estimate for office furniture, etc., includes an estimate for fitting up a large room for this work.			For purchase of site, approximately 15,000 square feet, and the erection thereon of a 6-room manual training building in the twelfth division.	54,000	
One cabinetmaker for repairing school furniture.		1,000	For the purchase of a site for a new M Street High School, approximately 60,000 square feet, to be located north of M Street north and west of North Capitol Street.	60,000	\$125,000
NOTE (by board of education).—The board is of the opinion that the appointment of a cabinetmaker, whose duty should be to keep in constant repair the school furniture found in 150 school buildings throughout the city, would be a measure of economy and convenience.			For the completion of a normal school building for colored pupils.		11,000
			For the purchase of ground adjacent to the Corcoran School for the extension of said school, approximately 7,200 square feet, \$11,000, to be immediately available.		33,000
			For the construction of a 4-room addition to the Corcoran School.		
			Toward the construction of a new Central High School Building, and the total cost of said building under a contract which is hereby authorized therefor shall not exceed \$1,000,000.		200,000
			Toward the construction of a new M Street High School, and the total cost of said building under a contract which is hereby authorized therefor shall not exceed \$350,000.		100,000
			For the erection of an 8-room extensible building on the site purchased west of Soldiers' Home Grounds, south of Rock Creek Road.		66,000
			For the construction of a 4-room addition to the Takoma School.		33,000
			For the purchase of a site for a new Eastern High School, to be located east of Fourth Street east and north of D Street south.		150,000
			NOTE (by board of education).—The site upon which this school is at present located was purchased originally for the Wallach School, which was erected in 1864. The Towers School has also been erected on this site, making three buildings on the same site. The appropriation asked for will enable the board to furnish more desirable quarters for the Eastern High School and better accommodations for the grade schools in the surrounding buildings.		
			For the construction of a 4-room addition to the Chevy Chase School.		33,000
			For the construction of a 4-room addition to the Birney School.		33,000
			For additional amount for "Repairs and improvements to school buildings and grounds" for the purpose of providing additional fire protection, such as fireproofing heating apparatus, fireproofing corridors, alterations to heat and vent flues, and construction of fireproof storage for fuel and ashes, and the purchase and erection of fire extinguishers and fire alarms, \$37,500, to be immediately available.	37,500	
			For additional amount for "Repairs and improvements to school buildings and grounds" for the purpose of providing additional fire protection, such as fireproofing heating apparatus, fireproofing corridors, alterations to heat and vent flues, and construction of fireproof storage for fuel and ashes, and the purchase and erection of fire extinguishers and fire alarms, \$25,000, to be immediately available.		25,000
			NOTE (by board of education).—This is a reduction of \$12,500.		
			That the total cost of the sites and of the several and respective buildings herein provided for, when completed, upon plans and specifications to be previously made and approved, shall not exceed the several and respective sums of money herein respectively appropriated or authorized for such purposes.		
			That the plans and specifications for all buildings provided for in this act shall be prepared under the supervision of the municipal architect of the District of Columbia and shall be approved by the Commissioners of the District of Columbia, and shall be constructed in conformity thereto.		
			School buildings authorized and appropriated for herein shall be constructed with all doors intended to be used as exits or entrances opening outward, and each of said buildings having in excess of eight rooms shall have at least four exits. No part of any appropriation carried in this act shall be used for the maintenance of school in any building unless all outside doors thereto used as exits or entrances shall open outward and be kept unlocked every school day from one-half hour before until one-half hour after school hours.		
			All appropriations for sites for school buildings and for the construction of school buildings contained in this act are hereby made immediately available.
